**Subject:** in support of the Comprehensive (housing) Plan

Hello,

I am writing once again to express my support for the Comprehensive Plan and to express my gratitude for your efforts.

I am discouraged to see all the "Pause the Plan" signs cropping up around the city, especially in the Burns Park area.

I am hearing "concerns" that there are not plans for "affordable housing"- to which I try to explain the concept that building more housing is the key to making housing more affordable....

I am also hearing fears that "this will mean that a developer can build an apartment building next to my home". I am trying to inform myself better about the plan, so that I can answer this one...

Thanks again,

Becky Skidmore
