**Subject:** 1854 upland

Hello Planning Commission,

I'm writing as a neighbor to the plot at 1854 Upland, 48105, which has requested to be divided into four plots, presumably to have houses built on each plot. We have a tiny dirt road that is already in a bad state of repair much of the year, and I am concerned that this many houses will be too many for the road to handle, leaving us with even more potholes and even more people with a difficult time getting out when we're not plowed. Please consider turning down the proposal to divide into four plots and recommend something more reasonable, such as a division into two plots. If you'd like to discuss it further, please feel free to email or call 734-604-4416.

sincerely,

Andrew Seiler
