Subject: please forward the comprehensive plan to city council

I'm writing to encourage commissioners to act with urgency. We've been working on the new plan for over two years now, and there's still the actual zoning changes to come, not to mention all the work then required to build anything new. I'm excited--but also impatient!--to see positive changes come to Ann Arbor.

Thank you for all your work on the plan; please keep things moving tonight!
