Subject: support high-rises in transition zones

Dear Planning Commission,

I am writing to express support for high-rises in transition zones--and generally speaking, more dense housing. I support more neighbors!

I am a lifelong Ann Arbor resident and renter. Despite both my partner and I earning around the median income for Ann Arbor, our ability to stay in town--and live within bike/walking distance of essential services, which we see as not just a nice-to-have, but a key source of health and community--is a constant source of anxiety for us.

Allowing high rises and maximizing transition districts is a key way to keep building housing for everyone who wants to live here.

Thank you for the work you do.

Best,

Allie Lindstrom
