Hello,

I found your email addresses posted on next door by some folks who are apparently unhappy with the healthy streets initiative. In contrast, I wanted to send an email with a big thank you for doing it again this year. We live near Arborview, and thanks to it being made a healthy street last summer, my then 8-year-old son learned how to ride a bicycle. I appreciated the quieter street, and it boosted his confidence to be able to ride on it. Thanks for bringing it back this year, and looking forward to it next to year, too!
