Subject: Support for SouthTown multi-family project

Hi!

I wanted to send a letter of support for the proposed SouthTown multi-family project.

It will be an amazing way to activate that space and also the surrounding area. As someone who has been in this community since 1994 and also has a business in town, the more housing options the better our economic growth potential for attracting workers and folks who will live and spend money in our area.

Thanks!
