Hi Raymond,

We'd like to share this report with Transportation Commission. What is the best way to do that? Do you want to share it or should we send it directly?

We are comfortable either way. Thanks!

Subject: Project Outcomes Report - Final

Hi Team,

Final People-Friendly Streets Outcomes Report attached and available [here](#). Thank you all for your suggestions and words of encouragement!

Alexis – we would love for you to share this with planning subscribers. We’d also like to share this with Boards/Commissions that have participated in these project processes along the way – I’ll reach out individually to talk about the best way to do that. We will share directly with City Council as well.

If anyone wants to partner on other communications, let us know. Thank you!
