Subject: Apartments at Miller/Maple

Hello,

I was not able to attend the virtual event recently to receive public comment about the apartments being built across the street from where I live in the Miller/Maple Townhouses. I'm excited to get more neighbors! I wanted to comment that we who live in Miller/Maple Townhouses really enjoy all the trees that are along the north side of Miller Road across the street from us, and we hope that the maximum number of trees can remain - preferably, the same number of trees that are there now. There are many birds and small mammals that live in that little patch, and the small wetland next to it, and we hope they can remain our neighbors, too.

Thank you,
~Carrie
