Subject: Evans Scholars

Dear Planning Commission,

We are both opposed to this proposal for the Evans Scholars:
Request to increase occupancy from 65 to 85.

The meeting is to be Wednesday night, September 6.
We will be out of town.

Our ideas are:

It would be adding more people, without adding beauty.

*We are in a single family area, and Evans Scholars are trying to gradually encroach on that provision.

*What is the required square footage per person for occupancy? They seem to be exceeding that limit.

*What accommodations are they making for parking ?

Please let us know if you received this email.

With respect,

Van and Anita Parunak
