PUBLIC NOTICE

Regents of the University of Michigan, Attn: Stephen O'Rielly, EHS-CSSB, 1239 Kipke Drive, Ann Arbor, Michigan 48109-1010, has applied to this office for a permit under authority of Part 301, Inland Lakes and Streams, and Part 303, Wetlands Protection, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (NREPA). The applicant proposes to enclose a total of 121 feet of existing storm water channel with a 30-inch storm water outlet pipe totaling 161 cubic yards of fill. Dredge approximately 1,374 cubic yards of material from existing storm water channel for stabilization purposes. Place approximately 660 cubic yards of stone and approximately 425 cubic yards of rock rip rap within storm water channel and the outlet location of newly constructed detention basin. Construct an inline storm water detention basin 165 feet long by 145 feet wide by 8 feet in depth. Construct a 36-inch diameter storm water outlet pipe to discharge to wetland. The project is located at U-M NC-53 Parking Lot, University of Michigan T02S, R06E, Section 22, City of Ann Arbor, Washtenaw County, Michigan, in accordance with plans attached to this notice.

THIS NOTICE IS NOT A PERMIT

The proposed project may also be regulated by one or more additional parts of the NREPA that are administered by the Department of Environmental Quality (DEQ), Water Resources Division (WRD). The requirements of all applicable parts are considered in determining if a permit can be issued. When a permit application is received requesting authorization to work in or over the inland waters of the State of Michigan, pursuant to Part 301, Part 303, of the NREPA, the NREPA provides that the DEQ submit copies for review to the department of public health; the city, village, or township and county where the project is to be located; the local soil conservation district; and any local watershed council organized under Part 311, Local River Management, of the NREPA. Additional notification is provided to certain persons as required by statute or determined by the DEQ.

Those persons wanting to make comments on the proposed project shall furnish this office with their written comments no later than 20 days from the date of this notice. Written comments will be made part of the record and should reference the above application number. Objections must be factual, specific, and fully describe the reasons upon which any objection is founded. Unless a written request is filed with the DEQ within the 20-day public comment period, the DEQ may make a decision on the application without a public hearing. The determination as to whether a permit will be issued or a public hearing held will be based on an evaluation of all relevant factors, including the public comments received and the effect of the proposed work on the public trust or interest, including navigation, fish, wildlife, and pollution. The specific permit decision criteria can be found in the parts of the NREPA applicable to this application and listed above. Copies of these parts of the NREPA are available on the public notice Web site. Public comments received will also be considered.

The entire copy of the public notice package may be viewed at the WRD's district office listed on the top of this public notice or online at: <https://miwaters.deq.state.mi.us/miwaters/#/external/publicnotice/search>. To access the public notice page online, search for the public notice by location or applicant name, and view by clicking on the "Documents" tab. Comments may be sent electronically by clicking on the "Add Comment" tab. A hard copy of the public notice may be requested by calling the above number.
