EMPLOYEE BENEFITS

Introduction

Our employees are our most valuable asset and contributor to our success. That's why we are committed to providing a comprehensive employee benefits program for all eligible full-time employees to help them stay healthy, feel secure, prosper, and maintain a proper work/life balance.

Each year, Nationwide Construction Group reviews the benefits program and makes modifications, as appropriate, in order to maintain a competitive level of benefits, based on Nationwide Construction Group's ability to pay a share of the cost of the benefits. Nationwide Construction Group reserves the right to modify, add or delete the benefits that it offers.

Medical, Dental & Vision Insurance

Employees will become eligible for benefits on the first day of the month following 60 days of employment.

Annually, Nationwide Construction Group's Corporate Department provides all of its employees with a Guide to Employee Benefits ("Guide"), which provides a summary of the healthcare benefit plans available (including dental and vision) and the basic features of those plans for the current plan year, and a Summary of Benefits Coverage and Glossary of Terms ("SBC") document. The Corporate Department also provides advance notice of enrollment dates as well as all of the forms needed to enroll, elect or modify coverage. For specific details of the plans, including such things as coverage, cost, deductibles, new hire and dependent eligibility, always consult the actual plan documents. Nationwide Construction Group's agent, Michigan Planners, or the insurance company/benefit service provider, is also available to answer questions in detail regarding each of the offerings described in the Guide and SBC.

Each participating employee may elect to obtain coverage for the employee only, the employee and employee's spouse, the employee and employee's children, or the employee's entire family ("plan class"). While Nationwide Construction Group strongly encourages each eligible employee to take advantage of all of the available healthcare coverages, an eligible employee may enroll in any combination of medical, dental or vision coverage.

Employee contributions are deducted using pre-tax dollars. Nationwide Construction Group's contribution is a function of the plan class and scope of coverage selected. The employee's contribution is the difference between the cost of benefits selected and Nationwide Construction Group's contribution.

Disability Insurance

Short-term disability insurance is individually available to any eligible employee through the American Family Life Assurance Company of Columbus ("AFLAC"), although Nationwide Construction Group does not participate in the program. For eligibility, coverage options, terms and costs, employees may contact Michelle Ulrych at (248) 334-2400.

401(k)

Nationwide Construction Group adopted a qualified 401(k) profit sharing retirement plan ("Plan") to provide all eligible employees the opportunity to save for retirement on a tax-advantaged basis.

Upon request, a copy of the Summary Plan Description ("SPD") and the legal Plan document, may be obtained from the Corporate Department. The SPD contains information regarding when employees may become eligible to participate in the Plan, Plan benefits, obligations, distribution options, and many other features of the Plan. Employees should take the time to read the SPD to get a better understanding of their rights and obligations in the Plan.

In the SPD, Nationwide Construction Group has addressed the most common questions employees may have regarding the Plan. If this SPD does not answer all of your questions, please contact the Corporate Department. The Plan document is written in much more technical and precise language and is designed to comply with applicable legal requirements. If the non-technical language in the SPD and the technical, legal language of the Plan document conflict, the Plan document always governs.
