Subject: Patrell-Fazio garage rebuild

Dear Zoning Coordinator Barrett,

I write in support of the Patrell-Fazio garage rebuild project as a nearby neighbor. My neighbors are civic-minded, good neighbors, and thoughtful about projects and the surrounding area.

I see no reason not to support the project, and their approach adds to the character of the block, increases potential density (that's a good thing), utilizes the existing built space, and doesn't impact green space. The regulations governing their variance seem out of date and likely a vestige of exclusionary tactics. Regardless, this is a straightforward project, and I hope you will approve.

kind regards,
Gabriel Harp
