- Software change management, such as changed configuration settings or Enterprise Support Solutions upgrades, is supported for example with content and information material, tools for client copy and entity copy, and tools for comparing customization.
- SAP provides Ordering Activity with up to five days remote support services per calendar year from SAP solution architects
 - to assist Ordering Activity in evaluating the innovation capabilities of the latest SAP enhancement package and how it may be deployed for Ordering Activity's business process requirements.
 - to give Ordering Activity guidance in form of knowledge transfer sessions, weighted one day, for defined SAP software/applications or Global Support Backbone components. Currently, content and session schedules are stated at <http://service.sap.com/enterprisesupport>. Scheduling, availability and delivery methodology is at SAP's discretion.
- SAP gives Ordering Activity access to guided self-services as part of SAP Solution Manager Enterprise Edition, helping the Ordering Activity to optimize technical solution management of selected Enterprise Support Solutions.
- Configuration guidelines and content for Enterprise Support Solutions are usually shipped via SAP Solution Manager Enterprise Edition. Best practices for SAP System Administration and SAP Solution Operations for SAP Software.
- SAP configuration and operation content is supported as integral parts of Enterprise Support Solutions.
- Content, tools and process descriptions for SAP Application Lifecycle Management are part of the SAP Solution Manager Enterprise Edition, the Enterprise Support Solutions and/or the applicable Documentation for the Enterprise Support Solutions.

Advanced Support for Enhancement Packages and other SAP Software Updates

SAP offers special remote checks delivered by SAP solution experts to analyze planned or existing modifications and identify possible conflicts between Ordering Activity custom code and enhancement packages and other Enterprise Support Solutions updates. Each check is conducted for one specific modification in one of Ordering Activity's core business process steps. Ordering Activity is entitled to receive two services from one of the following categories per calendar year per SAP Software Solution.

- **Modification Justification:** Based on Ordering Activity's provision of SAP required documentation of the scope and design of a planned or existing custom modification in SAP Solution Manager Enterprise Edition, SAP identifies standard functionality of Enterprise Support Solutions which may fulfill the Ordering Activity's requirements (for details see <http://service.sap.com/>).
- **Custom Code Maintainability:** Based on Ordering Activity's provision of SAP required documentation of the scope and design of a planned or existing custom modification in SAP Solution Manager Enterprise Edition, SAP identifies which user exits and services may be available to separate custom code from SAP code (for details see <http://service.sap.com/>).

Global Support Backbone

- SAP Service Marketplace - SAP's knowledge database and SAP's extranet for knowledge transfer on which SAP makes available content and services to Ordering Activities and partners of SAP only.
- SAP Notes on the SAP Service Marketplace document software malfunctions and contain information on how to remedy, avoid and bypass errors. SAP Notes may contain coding corrections that Ordering Activities can implement into their SAP system. SAP Notes also document related issues, Ordering Activity questions, and recommended solutions (e.g. customizing settings).
- SAP Note Assistant - a tool to install specific corrections and improvements to SAP components.
- SAP Solution Manager Enterprise Edition – as described in Section 2.4

Mission Critical Support

- Global message handling by SAP for problems related to Enterprise Support Solutions, including Service Level Agreements for Initial Reaction Time and Corrective Action (for more information refer to Section 2.1.1).
- SAP Support Advisory Center – as described in Section 2.2.
- Continuous Quality Checks – as described in Section 2.3.
- Global 24x7 root cause analysis and escalation procedures in accordance with section 2.1 below.
- Root Cause Analysis for Custom Code: For Ordering Activity custom code built with the SAP development workbench, SAP provides mission-critical support root-cause analysis, according to the Global Message Handling process and Service Level Agreements stated in Sections 2.1.1, 2.1.2 and 2.1.3, applicable for priority “very high” and priority “high” messages. If the Ordering Activity custom code is documented according to SAP’s then-current standards (for details see <http://service.sap.com/>), SAP may provide guidance to assist Ordering Activity in issue resolution

Other Components, Methodologies, Content and Community Participation

- Monitoring components and agents for systems to monitor available resources and collect system status information of the Enterprise Support Solutions (e.g. SAP EarlyWatch Alert).
- Pre-configured test templates and test cases are usually delivered via the SAP Solution Manager Enterprise Edition. In addition the SAP Solution Manager Enterprise Edition assists Ordering Activity’s testing activities with functionalities that currently include:
 - Test administration for Enterprise Support Solutions by using the functionality provided as part of the SAP Solution Manager Enterprise Edition
 - Quality Management for management of “Quality-Gates“
 - SAP-provided tools for automatic testing
 - SAP-provided tools to assist with optimizing regression test scope. Such tools support identifying the business processes that are affected by a planned SAP Software Solutions change and make recommendations for the test scope as well as generating test plans (for details see <http://service.sap.com/>).
- Content and supplementary tools designed to help increase efficiency, which may include implementation methodologies and standard procedures, an Implementation Guide (IMG) and Business Configuration (BC) Sets.
- Access to guidelines via the SAP Service Marketplace, which may include implementation and operations processes and content designed to help reduce costs and risks. Such content currently includes:
 - End-to-End Solution Operations: Assists Ordering Activity with the optimization of the end-to-end operations of Ordering Activity’s SAP Software Solution.
 - Run SAP Methodology: Assists Ordering Activity with application management, business process operations, and administration of the SAP NetWeaver® technology platform, and currently includes:
 - The SAP standards for solution operations
 - The road map of Run SAP to implement end-to-end solution operations
 - Tools, including the SAP Solution Manager Enterprise Edition application management solution. For more information on the Run SAP methodology, refer to <http://service.sap.com/runsap>
- Participation in SAP’s customer and partner community (via SAP Service Marketplace), which provides information about best business practices, service offerings, etc.

2.1 Global Message Handling and Service Level Agreement (SLA). When Ordering Activity reports malfunctions, SAP supports Ordering Activity by providing information on how to remedy, avoid and bypass errors. The main channel for such support will be the support infrastructure provided by SAP. Ordering Activity may send an error message at any time. All persons involved in the message solving process can access the status of the message at any time. For further details on definitions of message priorities see SAP Note 67739 which will be provided upon written request.

In exceptional cases, Ordering Activity may also contact SAP by telephone. For such contact (and as otherwise provided) SAP requires that License provide remote access as specified in Section 3.2(iii).

The following Service Level Agreements (“SLA” or “SLAs”) shall apply to all Ordering Activity support messages that SAP accepts as being Priority 1 and which fulfill the prerequisites specified herein. Such SLAs shall commence in the first full Calendar Quarter following the Effective Date of Purchase Order. As used herein, “Calendar Quarter” is the three month period ending on March 31, June 30, September 30 and December 31 respectively of any given calendar year.

2.1.1 SLA for Initial Response Times: Priority 1 Support Messages (“Very High”). SAP shall respond to Priority 1 support messages within one (1) hour of SAP’s receipt (twenty-four hours a day, seven days a week) of such Priority 1 support messages. A message is assigned Priority 1 if the problem has very serious consequences for normal business transactions and urgent, business critical work

cannot be performed. This is generally caused by the following circumstances: complete system outage, malfunctions of central SAP functions in the Production System, or Top-Issues.

2.1.2 SLA for Corrective Action Response Time for Priority 1 Support Messages: SAP shall provide a solution, work around or action plan for resolution (“Corrective Action”) of Ordering Activity’s Priority 1 support message within four (4) hours of SAP’s receipt (twenty-four hours a day, seven days a week) of such Priority 1 support message (“SLA for Corrective Action”). In the event an action plan is submitted to Ordering Activity as a Corrective Action, such action plan shall include: (i) status of the resolution process; (ii) planned next steps, including identifying responsible SAP resources; (iii) required Ordering Activity actions to support the resolution process; (iv) to the extent possible, planned dates for SAP’s actions; and (v) date and time for next status update from SAP. Subsequent status updates shall include a summary of the actions undertaken so far; planned next steps; and date and time for next status update. The SLA for Corrective Action only refers to that part of the processing time when the message is being processed at SAP (“Processing Time”). Processing Time does not include the time when the message is on status “Customer Action” or “SAP Proposed Solution”, whereas (a) the status Customer Action means the support message was handed over to Ordering Activity; and (b) the status SAP Proposed Solution means SAP has provided a Corrective Action as outlined herein. The SLA for Corrective Action shall be deemed met if within four (4) hours of processing time: SAP proposes a solution, a workaround or an action plan; or if Ordering Activity agrees to reduce the priority level of the message.

2.1.3 Prerequisites and Exclusions.

2.1.3.1 Prerequisites. The SLAs shall only apply when the following prerequisites are met for all support messages: (i) in all cases except for Root Cause Analysis for Custom Code under Section 2, support messages are related to releases of Enterprise Support Solutions which are classified by SAP with the shipment status “unrestricted shipment”; (ii) support messages are submitted by Ordering Activity in English via the SAP Solution Manager Enterprise Edition in accordance with SAP’s then current support message processing log-in procedure which contain the relevant details necessary (as specified in SAP Note 16018 or any future SAP Note which replaces SAP Note 16018 which will be provided upon written request) for SAP to take action on the reported error; (iii) support messages are related to a product release of Enterprise Support Solutions which falls into Mainstream Maintenance or Extended Maintenance.

For Priority 1 support messages, the following additional prerequisites must be fulfilled by Ordering Activity: (a) the issue and its business impact are described in detail sufficient to allow SAP to assess the issue; (b) Ordering Activity makes available for communications with SAP, twenty four (24) hours a day, seven (7) days a week, an English speaking contact person with training and knowledge sufficient to aid in the resolution of the Priority 1 message consistent with Ordering Activity’s obligations hereunder; and (c) a Ordering Activity contact person is provided for opening a remote connection to the system and to provide necessary log-on data to SAP.

2.1.3.2 Exclusions. For SAP Enterprise Support in particular the following types of Priority 1 messages are excluded from the SLAs: (i) support messages regarding a release, version and/or functionalities of Enterprise Support Solutions developed specifically for Ordering Activity (including without limitation those developed by SAP Custom Development and/or by SAP subsidiaries) except for custom code built with the SAP development workbench; (ii) support messages regarding country versions that are not part of the Enterprise Support Solutions and instead are realized as partner add-ons, enhancements, or modifications is expressly excluded even if these country versions were created by SAP or an affiliate of SAP; (iii) the root cause behind the support message is not a malfunction, but a missing functionality (“development request”) or the support message is ascribed to a consulting request; and (iv) support messages referred for handling under Secure Support.

2.1.4 Service Level Credit.

2.1.4.1 Contractor, through SAP, shall be deemed to have met its obligations pursuant to the SLAs as stated above by reacting within the allowed time frames in ninety-five percent (95%) of the aggregate cases for all SLAs within a Calendar Quarter. In the event Ordering Activity submits less than twenty (20) messages (in the aggregate for all SLAs) pursuant to the SLAs stated above in any Calendar Quarter during the Enterprise Support term, Ordering Activity agrees that SAP shall be deemed to have met the its obligations pursuant to the SLAs stated above if SAP has not exceeded the stated SLA time-frame in more than one support message during the applicable Calendar Quarter.

2.1.4.2 Subject to Section 2.1.4.1 above, in the event that the timeframes for the SLAs are not met (each a “Failure”), the following rules and procedures shall apply: (i) Ordering Activity shall inform SAP in writing of any alleged Failure; (ii) SAP shall investigate any such claims and provide a written report proving or disproving the accuracy of Ordering Activity’s claim; (iii) Ordering Activity shall provide reasonable assistance to SAP in its efforts to correct any problems or processes inhibiting SAP’s ability to reach the SLAs; (iv) subject to this Section 2.1.4, if based on the report, an SAP Failure is proved, SAP shall apply a Service Level Credit (“SLC”) to Ordering Activity’s next SAP Enterprise Support Fee invoice equal to one quarter percent (0.25%) of Ordering Activity’s SAP Enterprise Support Fee for the applicable Calendar Quarter for each Failure reported and proved, subject to a maximum SLC cap per Calendar Quarter of five percent (5%) of Ordering Activity’s SAP Enterprise Support Fee for such Calendar Quarter. Ordering Activity bears the responsibility of notifying SAP of any SLCs within one month after the end of a Calendar Quarter in which a Failure occurs. No penalties will be paid unless notice of Ordering Activity’s well-founded claim for SLC(s) is received by SAP in writing. The SLC stated in this Section 2.1.4 is Ordering Activity’s sole and exclusive remedy with respect to any alleged or actual Failure.

2.2 SAP Support Advisory Center. For Priority 1 and Top-Issues directly related to the Enterprise Support Solutions, SAP shall make available a global unit within SAP’s support organization for mission critical support related requests (the “Support Advisory Center”). The Support Advisory Center will perform the following mission critical support tasks: (i) remote support for Top-Issues – the Support Advisory Center will act as an additional escalation level, enabling 24X7 root cause analysis for problem identification; (ii) Continuous Quality Check service delivery planning in collaboration with Ordering Activity’s IT, including scheduling and delivery coordination; (iii) provides one SAP Enterprise Support report on request per calendar year; (iv) remote primary certification of the SAP Customer Center of Expertise if requested by Ordering Activity; and (v) providing guidance in cases in which Continuous Quality Checks (as defined in Section 2.3 below), an action plan and/or written recommendations of SAP show a critical status (e.g. a red CQC report) of the Enterprise Support Solutions.

As preparation for the Continuous Quality Check delivery through SAP Solution Manager Enterprise Edition, Ordering Activity's Contact Person and SAP NS2 shall jointly perform one mandatory setup service ("Initial Assessment") for the Enterprise Support Solutions. The Initial Assessment shall be based upon SAP standards and documentation.

The designated SAP Support Advisory Center will be English speaking and available to Ordering Activity's Contact Person (as defined below) or its authorized representative twenty-four hours a day, seven days a week for mission critical support related requests. The available local or global dial-in numbers are shown in SAP Note 560499 which will be provided upon written request.

The Support Advisory Center is only responsible for the above mentioned mission critical support related tasks to the extent these tasks are directly related to issues or escalations regarding the Enterprise Support Solutions.

2.3 SAP Continuous Quality Check. In case of critical situations related to the SAP Software Solution (such as Go Live, upgrade, migration or Top Issues), SAP will provide at least one Continuous Quality Check (the "Continuous Quality Check" or "CQC") per calendar year for each SAP Software Solution.

The CQC may consist of one or more manual or automatic remote Service Sessions. SAP may deliver further CQC's in cases where vital alerts are reported by SAP EarlyWatch Alert or in those cases where Ordering Activity and the SAP Advisory Center mutually agree that such a service is needed to handle a Top-Issue. Details, such as the exact type and priorities of a CQC and the tasks of SAP and cooperation duties of Ordering Activity, shall be mutually agreed upon between the parties. At the end of a CQC, SAP will provide Ordering Activity with an action plan and/or written recommendations.

Ordering Activity acknowledges that all or part of the CQC sessions may be delivered by SAP NS2 and/or a certified SAP NS2 partner acting as SAP NS2's subcontractor and based on SAP's CQC standards and methodologies. Ordering Activity agrees to provide appropriate resources, including but not limited to equipment, data, information, and appropriate and cooperative personnel, to facilitate the delivery of CQC's hereunder.

Ordering Activity acknowledges that SAP limits CQC re-scheduling to a maximum of three times per year. Re-scheduling must take place at least 5 working days before the planned delivery date. If Ordering Activity fails to follow these guidelines, SAP NS2 is not obliged to deliver the yearly CQC to the Ordering Activity.

2.4 SAP Solution Manager Enterprise Edition under SAP Enterprise Support.

2.4.1 SAP Solution Manager Enterprise Edition (and any successor to SAP Solution Manager Enterprise Edition provided hereunder) shall be subject to the Agreement and is solely for the following purposes under SAP Enterprise Support: (i) delivery of SAP Enterprise Support and support services for Ordering Activity Solutions including delivery and installation of software and technology maintenance for Enterprise Support Solutions; and (ii) application lifecycle management for Ordering Activity Solutions and for any other software components and IT assets licensed or otherwise obtained by Ordering Activity from third parties provided such third party software, software components and IT assets are operated in conjunction with Enterprise Support Solutions and are required to complete the Ordering Activity's business processes as documented in the solution documentation in SAP Solution Manager Enterprise Edition ("Additional Supported Assets"). Such application lifecycle management is limited solely to the following purposes:

- implementation, configuration, testing, operations, continuous improvement and diagnostics
- incident management (service desk), problem management and change request management as enabled using SAP CRM technology integrated in SAP Solution Manager Enterprise Edition
- administration, monitoring, reporting and business intelligence as enabled using SAP NetWeaver technology integrated in SAP Solution Manager Enterprise Edition. Business intelligence may also be performed provided the appropriate SAP BI software is licensed by Ordering Activity as part of the Enterprise Support Solutions.
- For application lifecycle management as outlined under section 2.4.1(ii) above, Ordering Activity does not require a separate Package license to SAP CRM. Ordering Activity must hold appropriate Named User licenses to Use SAP Solution Manager.

2.4.2 SAP Solution Manager Enterprise Edition may not be used for purposes other than those stated above. Without limiting the foregoing restriction, Ordering Activity shall not use SAP Solution Manager Enterprise Edition for (i) CRM scenarios such as service plans, contracts, service confirmation management, except as CRM scenarios are expressly stated in Section 2.4.1; (ii) SAP NetWeaver usage types other than those stated above or (iii) application life-cycle management and in particular incident management (service desk) except for Ordering Activity Solutions and Additional Supported Assets and (iv) non-IT shared services capabilities, including without limitation HR, Finance or Procurement.

2.4.3 SAP, in its sole discretion, may update from time to time on the SAP Service Marketplace under <http://service.sap.com/solutionmanager> the use cases for SAP Solution Manager Enterprise Edition under this Section 2.4.

2.4.4 SAP Solution Manager Enterprise Edition shall only be used during the term of this Addendum and by Named Users licensed by Ordering Activity subject to the licensed rights for the Software and exclusively for Ordering Activity's SAP-related support purposes in support of Ordering Activity's internal business operations. The right to use any SAP Solution Manager Enterprise Edition capabilities under SAP Enterprise Support other than those listed above is subject to a separate written agreement with SAP, even if such capabilities are accessible through or related to SAP Solution Manager Enterprise Edition. Notwithstanding the foregoing limitation on Named Users, Ordering Activity shall be entitled to allow any of its employees to use web self-service in the SAP Solution Manager Enterprise Edition during the term of this Addendum for the sole purpose of creating support tickets, requesting support ticket status and ticket confirmation directly related to the Ordering Activity Solutions and Additional Supported Assets.

2.4.5 Use of SAP Solution Manager Enterprise Edition may not be offered by Ordering Activity as a service to third parties even if such third parties have licensed SAP Software and have licensed Named Users; provided, third parties authorized to access the SAP Software under the Agreement may have access to SAP Solution Manager Enterprise Edition solely for SAP-related support purposes in support of Ordering Activity's internal business operations under and in accordance with the terms of this Addendum.

SAP NS2 SECURE SUPPORT. Ordering Activity may request and SAP NS2 shall provide, to such degree as SAP NS2 makes such services generally available within the Geographic Scope of the SAP NS2 GSA Schedule, Secure Support services. Secure Support is delivered in the United States only and currently includes a secure remote connection, secure backoffice, secure support advisor, secure support setup, and certain secure continuous quality checks as specified herein.

2.5 SAP NS2 Secure Remote Connection and Secure Backoffice. A US citizen-staffed secure backoffice located in a US facility shall be provided during the standard hours of 9:00AM to 6:00PM United States Eastern time, Monday through Friday, excluding holidays observed by SAP NS2 ("Standard Hours") for the following Ordering Activity site(s).

The Ordering Activity shall define the location in the Delivery Order where Secure Support is to be delivered.

Under SAP Enterprise Support, Ordering Activity messages are initially received and addressed by SAP's global support organization. When connection is needed to the Ordering Activity network in cases where login is required for problem resolution, Ordering Activity requires that login can only be performed by US citizen resources over an approved communication channel that terminates in the continental US. Under Secure Support, SAP NS2 provides this secure channel and maintains a controlled area from which the secure connection will terminate in a NS2-provided, or if agreed a Ordering Activity-provided, personal computer ("PC"). This PC shall contain and be prepared to run the agreed upon and Ordering Activity-provided Client VPN software, which will enable the SAP NS2 secure connection to the Ordering Activity solution infrastructure for the provision of Secure Support. Ordering Activity shall provide all required customer-specific hardware/software, remote secure connections and access permissions to its production systems for delivery of the Secure Support service by SAP NS2.

The following operational process applies for SAP NS2 Back office message support:

1. Ordering Activity is responsible for identification of issues, initial issue analysis performed by Ordering Activity's support center, and opening of customer message tickets through SAP Service Marketplace or SAP Solution Manager under SAP Enterprise Support.
2. Under SAP Enterprise Support, SAP Global Support Centers provide the first level of SAP support to review, analyze and provide any known resolution to issues or provide global 24x7 root cause analysis and escalation procedures. SAP Global Development will be engaged as appropriate to determine a resolution or identify additional information needed from Ordering Activity.
3. Under Secure Support, neither SAP Global Support Centers nor SAP Global Development is authorized to access Ordering Activity's system directly and will be instructed in internal SAP procedures not to request such access. In the event access is required by SAP, the SAP NS2 Secure Backoffice will be engaged through internal SAP procedures to continue issue resolution as authorized by Ordering Activity and facilitate communication between Ordering Activity and SAP Global resources.
4. Under Secure Support, resolutions to issues will be documented and made available to Ordering Activity in accordance with SAP's standard procedures.

2.6 SAP NS2 Secure Support Advisor. SAP NS2 shall designate one (1) resource in the SAP NS2 organization to be Ordering Activity's Secure Support contact person (the "Secure Support Advisor"). The SAP NS2 Secure Support Advisor shall perform the following support tasks: (i) assist Ordering Activity in planning, coordinating, scheduling and delivering (in cooperation with Ordering Activity) the Secure Support Setup and Secure Continuous Quality Checks described below; (ii) advising Ordering Activity on the implementation of recommended actions resulting from delivery of SAP NS2 Secure Support services; (iii) acting as an additional escalation contact for exception handling in the SAP Enterprise Support process; (v) providing guidance in cases in which Secure Continuous Quality Checks, an action plan, and/or written recommendations of SAP show a critical status (e.g. a red CQC report) of the Enterprise Support Solution, and (vi) providing access for remote certification of the SAP Customer Center of Expertise if requested by Ordering Activity.

The SAP NS2 Secure Support Advisor is available via telephone and email during the Standard Hours specified above. SAP NS2 shall make available a substitute SAP NS2 Secure Support Advisor during any periods where the designated SAP NS2 Support Advisor is unavailable. All Services of the designated SAP NS2 Support Advisor shall be coordinated with Ordering Activity's designated SAP NS2 Secure Support Program Manager, as described in Section 3.1 below.

2.7 SAP NS2 Secure Support Setup. Ordering Activity and SAP NS2 agree to jointly conduct an initial Secure Support Setup as part of Secure Support. The Secure Support Setup includes: (i) securing remote connectivity between Ordering Activity and SAP NS2; (ii) reviewing best practices for collaboration with SAP NS2 and SAP Active Global Support; (iii) reviewing Ordering Activity solution landscape; and (iv) review of Ordering Activity project roadmap.

2.8 SAP NS2 Secure Continuous Quality Checks. Certain Secure Continuous Quality Checks shall be delivered through the secure remote connection established under SAP NS2 Secure Support. Ordering Activity shall coordinate such SAP NS2 Secure Continuous Quality Checks with the Secure Support Advisor. In case of critical situations related to the SAP Software Solution (such as, implementation, upgrade, migration or Top Issues), SAP NS2 will provide at least one Secure Continuous Quality Check (the "SAP NS2 Secure Continuous Quality Check" or "Secure CQC") per year for each SAP Software Solution. The Secure CQC portfolio of services for Ordering Activity includes:

- SAP GoingLive™ Check for an implementation project going productive.
- SAP GoingLive™ Functional Upgrade Check for an upgrade to a higher release.

The CQC portfolio of services may be changed by SAP NS2 from time to time. The CQC may consist of one or more manual or automatic remote Service Sessions. SAP NS2 may deliver further Secure CQC's in cases where vital alerts reported by SAP EarlyWatch Alert or in those cases where Ordering Activity and the SAP NS2 Secure Support Advisor mutually agree that such a service is needed to handle a Top-Issue. Details, such as the exact priorities of a Secure CQC, shall be mutually agreed upon between the parties. At the end of a Secure CQC, SAP NS2 will provide Ordering Activity with an action plan and/or written recommendations. Ordering Activity agrees to provide appropriate resources, including but not limited to equipment, data, information, and appropriate and cooperative personnel, to facilitate the delivery of Secure CQC's hereunder.

In the event the Effective Date of the Period of Performance is after September 30th of the year in which the Effective Date occurs, Ordering Activity shall not be entitled to receive the above mentioned Secure CQC services for the remainder of such calendar year.

Ordering Activity understands and agrees that to the extent the SAP Software contains products and/or software components licensed or resold by SAP from a third party, the support of such third party is required to deliver a CQC.

Ordering Activity acknowledges that SAP NS2 limits Secure CQC re-scheduling to a maximum of three times per year. Re-scheduling must take place at least 20 working days before the planned delivery date.

2.9 Ordering Activity-Specific Security Requirements and Instructions. The parties acknowledge that neither the SAP Enterprise Support nor Secure Support described herein contemplates the processing or storage of Ordering Activity data, Ordering Activity Proprietary Information, or Ordering Activity customer information by SAP and SAP NS2, and that Ordering Activity provides access to such information or data, if at all, solely to the extent necessary for SAP and SAP NS2 to perform its obligations under this Addendum. Notwithstanding anything to the contrary herein, with respect to the SAP Enterprise Support and SAP NS2 Secure Support delivered hereunder, Ordering Activity may, in its sole discretion, and at any time, elect not to allow, or to otherwise limit: (a) remote access by SAP and SAP NS2, and/or (b) connectivity by and between Ordering Activity and SAP and SAP NS2. Ordering Activity acknowledges that Ordering Activity's failure to establish remote access or connection as described in Section 3.2 below, or to limit such access, may lead to delays in message handling and the provision of corrections, or may render SAP and SAP NS2 unable to provide the full scope of SAP Enterprise Support and Secure Support. Ordering Activity shall not be entitled to any refund or credit of Secure Enterprise Support Fees paid, and SAP and SAP NS2 shall not be held liable for any delay or inability to meet the support obligations set forth in this Addendum to the extent such delay or inability results from Ordering Activity's limitation of access. Accordingly, this Section 2.9 describes the Ordering Activity-specific security requirements that are mutually agreed to be applicable to this Addendum.

2.9.1 Security Requirements Applicable to SAP Enterprise Support.

SAP provides information regarding its commercial security practices related to the global delivery of SAP Enterprise Support, including the technical and organizational measures implemented by SAP designed to ensure the lawful processing of personal data in accordance with EU data protection laws and any audits and certifications. Upon Ordering Activity's written request, SAP shall provide its information document, "Security and Data Protection@SAP," for Ordering Activity's review and information purposes. SAP agrees to comply with the "Security and Data Protection@SAP" information document. SAP represents that, to the best of its knowledge, it engages in best practices with respect to the hiring of its employees, in compliance with applicable local law and regulations, including administering background checks in certain locations, including such background checks as are consistent with best practices of SAP in the relevant location and consistent with applicable law.

2.9.2 Security Requirements Applicable to Secure Support.

2.9.2.1 Clearances and Representations. SAP NS2NS2 represents that: (i) it is a subsidiary company of SAP AG and operates under a Proxy Agreement administered by the US Defense Security Service to mitigate foreign ownership, control, and influence; (ii) it has successfully completed security inspection process requirements of, and currently holds a Top Secret facility security clearance granted by, the US Department of Defense (DoD); and (iii) the SAP NS2 employees assigned with responsibility for delivering Secure Support to Ordering Activity hereunder are U.S. citizens and some individuals have successfully completed the security clearance process requirements of, and currently hold Secret or Top Secret security clearances. During the term of this Addendum upon Ordering Activity's written request the SAP NS2 Facility Security Officer (FSO) shall verify such clearance(s) in writing to Ordering Activity and promptly notify Ordering Activity of any downgrade in status.

2.9.2.2 System Access Instructions. SAP NS2 shall comply with Ordering Activity's requirements stated below for access to Ordering Activity's systems:

- Ordering Activity prohibits remote access by, and disclosure of any data to SAP under SAP Enterprise Support
- SAP NS2 shall treat any Ordering Activity data, user access, passwords or system information provided by Ordering Activity to SAP NS2 as Proprietary Information under applicable provisions of the Agreement.
- Ordering Activity shall control, and shall grant or limit secure remote access to SAP NS2 at its sole discretion, and SAP NS2 shall only access those systems that Ordering Activity authorizes SAP NS2 to access.
- In the event Ordering Activity discloses classified, controlled unclassified, or sensitive Ordering Activity data to SAP NS2 as part of any authorized remote access, SAP NS2 shall disclose such data only in accordance with the instructions provided by Ordering Activity pursuant to Section 3.2 (xv) below.

- e. If access is granted by Ordering Activity pursuant to Section 2.9.2.2 (c) above, Ordering Activity shall provide SAP NS2 personnel with any user authorizations and passwords to access its systems and may revoke or terminate such authorizations as Ordering Activity deems appropriate from time to time. Ordering Activity shall grant SAP NS2 access to Ordering Activity systems or personal information only if such access is essential for the performance of the support hereunder, and SAP NS2 shall comply with Ordering Activity's instructions for such access.
- f. If onsite support is provided, Ordering Activity requires that personnel delivering support onsite at Ordering Activity facilities be approved by Ordering Activity and adhere to Ordering Activity's reasonable requirements and rules for access, and for use of Ordering Activity's electronic resources. Ordering Activity has the right to request removal or replacement of personnel at its sole discretion. Ordering Activity understands and agrees that schedules, resource availability, and costs are impacted by delays in processing approvals for such access.
- g. Export Controls for Data. Ordering Activity may disclose to SAP NS2 as part of any authorized remote access, data which may be subject to export controls under 22 United States Code 2751 – 2796 (Arms Export Control Act) and 22 Code of Federal Regulations 120-130 (International Traffic in Arms Regulations) or 50 United States Code 2401 – 2420 (Export Administration Act) and 15 Code of Federal Regulations 768 – 799 (Export Administration Regulations) and their successor and supplemental laws and regulations (collectively hereinafter referred to as the "Export Laws and Regulations"). Provided Ordering Activity identifies the data as being subject to such controls, SAP NS2 shall comply with any and all Export Laws and Regulations and any license(s) issued thereunder in handling any such data.

3. Ordering Activity's Responsibilities.

3.1 Ordering Activity Program Management. In order to receive SAP NS2 Secure Enterprise Support hereunder, Ordering Activity shall designate a qualified English speaking SAP NS2 Secure Enterprise Support Program Manager within its SAP NS2 Customer Center of Expertise and shall provide contact details (in particular e-mail address and telephone number) by means of which the Contact Person or the authorized representative of such Contact Person can be contacted at any time. The SAP NS2 Secure Enterprise Support Program Manager shall cooperate with the designated SAP NS2 Secure Support Advisor to administer the terms of this support agreement, and shall be Ordering Activity's authorized representative empowered to make necessary decisions for Ordering Activity or bring about such decision without undue delay.

Contact Person Name	Postal Address	Email Address	Desk Telephone Number	Mobile Telephone Number

3.2 Other Requirements. In order to receive SAP NS2 Secure Enterprise Support hereunder, Ordering Activity must:

- (i) Continue to pay all maintenance and support fees in accordance with the Support Plan and the GSA Schedule Contract.
- (ii) Otherwise fulfill its obligations under the Support Plan and the GSA Schedule Contract.
- (iii) For the SAP NS2 Enterprise Support global component of SAP NS2 Secure Enterprise Support, provide and maintain remote access (subject to Section 2.9.1 above) via a technical standard procedure as defined by SAP and grant SAP NS2 all necessary authorizations, in particular for global problem analysis as part of global message handling. Such global remote access, otherwise agreed to in writing by the Parties, shall be granted without restriction regarding the nationality of the SAP or SAP NS2 employee(s) who process support messages or the country in which they are located. Ordering Activity acknowledges that failure to grant access may lead to delays in message handling and the provision of corrections, or may render SAP or SAP NS2 unable to provide help in an efficient manner. Ordering Activity understands that message tickets opened by Ordering Activity through SAP Service Marketplace or SAP Solution Manager are initially processed through SAP Global Support Centers worldwide before routing for secure handling by SAP NS2. It is Ordering Activity's responsibility to ensure that no sensitive information is transmitted when opening message tickets. The necessary software components must also be installed for support services. For more details, see SAP Note 91488, which shall be provided upon written request.
- (iv) For the Secure Support component of SAP NS2 Secure Enterprise Support, provide and maintain a secure remote connection (subject to Section 2.9.2 above) between the SAP NS2 secure facility and Ordering Activity's production systems via a technical standard procedure acceptable to SAP NS2; provide all required Ordering Activity-specific hardware/software, if any, agreed for use by SAP NS2, and grant SAP NS2 all necessary authorizations and permissions necessary for SAP NS2 Secure Support delivery. Ordering Activity acknowledges that SAP NS2 is not able to fulfill its SAP NS2 Secure Support obligations during periods of time when Ordering Activity denies SAP NS2 access to the Enterprise Support Solutions. In the event Ordering Activity discloses Ordering Activity data to SAP NS2 as part of authorized secure remote access, and such data is rated classified, controlled unclassified, or sensitive as defined by the US National Industrial Security Program (NISPO), or is subject to US export control laws including ITAR and EAR, Ordering Activity shall identify and provide its instructions to SAP NS2 for the handling of such data, including its instructions for allowing access to such data by SAP NS2.
- (v) Establish and maintain an SAP certified Customer COE meeting the requirements specified in Section 5 below.
- (vi) Have installed, configured and be using productively, an SAP Solution Manager Enterprise Edition system, with the latest patch levels for Basis, and the latest SAP Solution Manager Enterprise Edition support packages.
- (vii) Activate SAP EarlyWatch Alert for the Production Systems and transmit data to Ordering Activity's productive SAP Solution Manager Enterprise Edition system. See SAP Note 1257308, which shall be provided upon written request, for information on setting up this service.

- (viii) Perform the Initial Assessment as described in Section 2.2 and implement all recommendations of SAP classified as mandatory.
- (ix) Establish a global connection between Ordering Activity's SAP Solution Manager Enterprise Edition installation and SAP and a connection between the Enterprise Support Solutions and Ordering Activity's SAP Solution Manager Enterprise Edition installation. Ordering Activity shall maintain the solution landscape and core business processes in Ordering Activity's SAP Solution Manager Enterprise Edition system for all Production Systems and systems connected to the Production Systems. Ordering Activity shall document any implementation or upgrade projects in Ordering Activity's SAP Solution Manager Enterprise Edition system.
- (x) To fully enable and activate the SAP Solution Manager Enterprise Edition, Ordering Activity shall adhere to the applicable documentation.
- (xi) Ordering Activity agrees to maintain adequate and current records of all Modifications and, if needed, promptly provide such records to SAP NS2.
- (xii) Submit all error messages via the then current SAP support infrastructure as made available by SAP from time to time via updates, upgrades or add-ons.
- (xiii) Inform SAP NS2 without undue delay of any changes to Ordering Activity's installations and Named Users and all other information relevant to the Enterprise Support Solutions.
- (xiv) Provide, configure and maintain any Ordering Activity-provided hardware/software and any Ordering Activity-provided authorizations/permissions for SAP NS2 personnel to provide Secure Support delivery without the need for SAP NS2 personnel to travel to Ordering Activity or other non-SAP NS2 locations.
- (xv) Identify and mark any classified, controlled unclassified, or sensitive Ordering Activity data that may be disclosed to SAP NS2 in connection with the delivery of Secure Support and identify the safeguards Ordering Activity requires from SAP NS2 to protect such data and any procedures/limitations for allowing access to such data by SAP NS2.
- (xvi) Ordering Activity acknowledges that any additional background investigations or security clearances required by Ordering Activity may limit the SAP NS2 staff available to provide the delivery of SAP NS2 Secure Support.

4. Customer Center of Expertise.

4.1 Role of the Customer Center of Expertise. In order to leverage the full potential value delivered as part of SAP NS2 Enterprise Support, Ordering Activity is required to establish a Customer Center of Expertise ("Customer Center of Expertise", or "Customer COE"). The Customer COE is designated by Ordering Activity as a central point of contact for interaction with the SAP support organization. As a permanent center of expertise, the Customer COE supports Ordering Activity's efficient implementation, innovation, operation and quality of business processes and systems related to the SAP Software Solution based on the Run SAP methodology provided by SAP (for more information on the Run SAP methodology, refer to <http://service.sap.com/runsap>). The Customer COE should cover all core business process operations. SAP recommends starting the implementation of the Customer COE as a project that runs in parallel with the functional and technical implementation projects.

4.2 Basic Functions of the Customer COE. The Customer COE must fulfill the following basic functions:

- Support Desk: Set-up and operation of a support desk with a sufficient number of support consultants for infrastructure/application platforms and the related applications during regular local working hours (at least 8 hours a day, 5 days (Monday through Friday) a week). Ordering Activity support process and skills will be jointly reviewed in the framework of the service planning process and the certification audit.
- Contract administration: Contract and license processing in conjunction with SAP (license audit, maintenance billing, release order processing, user master and installation data management).
- Coordination of innovation requests: Collection and coordination of development requests from the Ordering Activity and/or any of its affiliates provided such affiliates are entitled to use the SAP NS2 Enterprise Support Solutions under the Agreement. In this role the Customer COE shall also be empowered to function as an interface to SAP NS2 to take all action and decisions needed to avoid unnecessary modification of Enterprise Support Solutions and to ensure that planned modifications are in alignment with the SAP software and release strategy.
- Information management: Distribution of information (e.g. internal demonstrations, information events and marketing) about Enterprise Support Solutions and the Customer COE within the Ordering Activity's organization.
- CQC and other remote services planning: Ordering Activity regularly engages in a service planning process with SAP NS2. The service planning starts during the initial implementation and will then be continued regularly.

4.3 Customer COE Certification. Ordering Activity must establish a certified Customer COE upon the later to occur of the following: (i) within twelve (12) months after the Effective Date; or (ii) within six (6) months after Ordering Activity has started using at least one of the Enterprise Support Solutions in live mode for normal business operations. To obtain the then-current primary Customer COE certification or re-certification by SAP, the Customer COE undergoes an audit procedure. Detailed information on the initial certification and re-certification process and conditions, as well as information on the available certification levels, is available on the SAP Service Marketplace (<http://service.sap.com/coe>).

5. SAP NS2 Secure Enterprise Support Fees.

SAP NS2 Secure Enterprise Support Service at the site(s) specified above shall commence as of the first day of the month following initial delivery of the Software under Appendices to the Agreement, and shall be paid annually in advance. Upon issuance of an Order by the Ordering Activity, after the Initial Term (as defined in the applicable Appendix, or order documents under the Agreement), and subject to the Agreement and this Secure Enterprise Support Addendum, Secure Enterprise Support Service shall renew at the beginning of each calendar year for the subsequent one year period.

The annual Secure Enterprise Support Fee for the Software licensed under Appendices to the Agreement is priced at the then current SAP NS2 Secure Enterprise Support Factor in effect (currently 22%) multiplied by the net total amount of the Net License Fee for the licensed Software as specified in Appendices to the Agreement. SAP agrees that the Secure Enterprise Support Factor shall remain at 22% until December 31, 2016. Thereafter, the Secure Enterprise Support Factor is subject to change once during a calendar year upon ninety (90) days' notice to Ordering Activity. Secure Enterprise Support Fees are invoiced on an annual basis effective January 1 of a calendar year and payable Net 30 days from date of invoice. Any Secure Enterprise Support Fees due prior to January 1 are invoiced on a pro-rata basis for the given calendar year in effect. Upon issuance of a modification to these terms, SAP Secure Enterprise Support offered by SAP NS2 may be changed annually by SAP NS2 at any time upon ninety (90) days prior written notice to Ordering Activity. After the Initial Term, the Secure Enterprise Support Fees and any limitations on increases are subject to Ordering Activity's compliance with the Customer COE requirements specified in Section 5 above.

6. Delivery. Delivery of the Secure Enterprise Support hereunder will be made by making the support available for download or other electronic transmission to Ordering Activity specified on a delivery order. Ordering Activity agrees not to request any physical delivery of SAP NS2 Secure Enterprise Support and should it errantly occur that any such delivery will be rejected by the Ordering Activity. Ordering Activity agrees that if Secure Enterprise Support becomes temporarily unavailable electronically, such support deliverable is extended until electronic delivery is available or until Contractor and Ordering Activity contractually agree on another form of delivery.

7. Termination.

7.1 Unless otherwise agreed in an Order or by modification to such Order, Secure Enterprise Support may be terminated by either party with three (3) months written notice (i) prior to the end of the Initial Term and (ii) thereafter, prior to the start of the following renewal period. Any termination provided in accordance with above will be effective at the end of the then-current Secure Enterprise Support period during which the termination notice is received by the respective party. Notwithstanding the forgoing, Contractor may terminate SAP NS2 Secure Enterprise Support after one (1) month written notice of Ordering Activity's failure to pay NS2 Secure Enterprise Support Fees. Notwithstanding the foregoing, any such Termination as defined above shall be in accordance with the terms and conditions of the GSA Schedule Contract.

7.2 For the avoidance of any doubt, termination of SAP NS2 Secure Enterprise Support or selection to enroll in another type of SAP NS2 Support Services by Ordering Activity pursuant to SAP NS2 Support Services selection provisions under this Support Plan Agreement shall strictly apply to all licenses under the Agreement, its appendices, schedules, addenda and order documents and any partial termination of SAP NS2 Secure Enterprise Support or partial selection of SAP NS2 Secure Enterprise Support by Ordering Activity shall not be permitted in respect of any part of the Agreement, its appendices, schedules, addenda, order documents or this Addendum.

8. Verification. To check the compliance with the terms of this Support Plan Agreement, Contractor with the assistance of SAP NS2 shall be entitled to periodically monitor (at least once annually and in accordance with SAP standard procedures) (i) the correctness of the information Ordering Activity provided and (ii) Ordering Activity's usage of the Solution Manager Enterprise Edition in accordance with the rights and restrictions set out in Section 2.4.

9. Reinstatement. In the event Ordering Activity elects not to commence SAP NS2 Secure Enterprise Support upon the first day of the month following initial delivery of the Software, or SAP NS2 Secure Enterprise Support is otherwise terminated pursuant to Section 7 above or declined by Ordering Activity for some period of time, and is subsequently requested or reinstated, SAP NS2 will invoice Ordering Activity the accrued SAP NS2 Secure Enterprise Support Fees associated with such time period and, if applicable, a reinstatement process fee in accord with SAP NS2's then current practices.

10. Other Terms and Conditions.

1.1 The scope of SAP NS2 Secure Enterprise support offered by Contractor, through SAP NS2 may be changed annually by Contractor at any time upon three months prior written notice and written modification to these terms and conditions.

1.2 Ordering Activity hereby confirms that Ordering Activity has obtained all licenses for the Ordering Activity Solutions.

1.3 In the event that Ordering Activity is entitled to receive one or more services per calendar year, (i) Ordering Activity shall not be entitled to receive such services in the first calendar year if the Effective Date of Period of Performance is after September 30 and (ii) Ordering Activity shall not be entitled to transfer a service to the next year if Ordering Activity has not utilized such service.

1.4 FAILURE TO UTILIZE SECURE ENTERPRISE SUPPORT PROVIDED BY SAP NS2 MAY PREVENT SAP NS2 FROM BEING ABLE TO IDENTIFY AND ASSIST IN THE CORRECTION OF POTENTIAL PROBLEMS WHICH, IN TURN, COULD RESULT IN UNSATISFACTORY SOFTWARE PERFORMANCE FOR WHICH SAP NS2 CANNOT BE HELD RESPONSIBLE.

1.5 In the event SAP licenses third party software to Ordering Activity under the Agreement, SAP NS2 shall provide Secure Enterprise Support on such third party software to the degree the applicable third party makes such support available to SAP NS2. Ordering Activity may be required to upgrade to more recent versions of its operating systems and databases to receive Secure Enterprise Support for such third party software. If the respective vendor offers an extension of support for its product, SAP NS2 may offer such extension of support under a separate written agreement for an additional fee.

1.6 SAP NS2 Secure Enterprise Support is provided according to the current maintenance phases of SAP Software releases which can be provided in response to a written request.

1.7 SAP NS2 shall provide SAP NS2 Secure Enterprise Support to Ordering Activity under the terms of the GSA Schedule contract and this Attachment A, including, but not limited to, the sections addressing the following issues: limitation of liability, proprietary or confidential information and rights in intellectual property. However, the parties agree that, other than as to damages resulting from the unauthorized use or disclosure of proprietary information, the amount of damages hereunder shall be limited to the fees paid under this Addendum. Such terms shall prevail over any conflicting or inconsistent terms and conditions, and any additional terms shall be deemed void, that may appear on any purchase order or other document furnished by Ordering Activity to SAP NS2.

1.8 Ordering Activity is responsible for making the necessary internal arrangements for the carrying out of the services hereunder, and in the case of on-site services, if any, for providing an appropriate work environment such as office space, parking, network connectivity, and access to appropriate systems, personnel, printers, fax machines, photocopiers, projectors, and other important facilities. Ordering Activity agrees that the services shall be subject to change if the necessary resources are not provided.

1.9 Those provisions of the GSA Schedule contract addressing limitation of liability, proprietary or confidential information and rights in intellectual property shall survive any termination of a Purchase Order, as to the services provided hereunder.

1.10 SAP shall have the sole and exclusive right, title and ownership to any and all ideas, concepts, or other intellectual property rights related in any way to the techniques, knowledge or processes of the Secure Enterprise Support services, whether or not developed for Ordering Activity.

ELIGIBILITY REQUIREMENTS: The following two support requirements will apply:

- (1) The ordering activity must purchase the same support level for all SAP products licensed on a given CPU.
- (2) The ordering activity must purchase the same support level for all their CPUs at a given site.

SAP NS2 SECURE PRODUCT SUPPORT FOR LARGE ENTERPRISES SCHEDULE

This Schedule governs the provision of support services by Contractor, through SAP NS2, for certain large enterprises as further defined herein ("SAP NS2 Secure Product Support for Large Enterprises" or "SAPNS2 Secure PSLE") for all software licensed by Ordering Activity (hereunder also referred to as "Licensee") under the Schedule contract (hereinafter collectively referred to as the "PSLE Solutions"), excluding software to which special support agreements apply exclusively.

1. Definitions:

- 1.1 "Go-Live" marks the point in time from when, after implementation of Licensee's PSLE Solutions or an upgrade of PSLE Solutions, can be used by Licensee for processing real data in live operation mode and for running Licensee's business in accordance with the Schedule contract.
- 1.2 "Net License Value" shall mean the undiscounted license fees for PSLE Solutions licensed by Licensee and Licensee Affiliates under the Schedule contract minus all discounts granted but before any migration credit is applied.
- 1.3 "Licensee Solution(s)" shall mean PSLE Solutions and any other software licensed by Licensee from third parties, provided such third party software is operated in conjunction with PSLE Solutions.
- 1.4 "Production System(s)" shall mean a live SAP system used for running Licensee's internal business operations and where Licensee's data is recorded.
- 1.5 "SAP Software Solution(s)" shall mean a group of one or multiple Production Systems running Licensee Solutions and focusing on a specific functional aspect of Licensee's business. Details and examples can be provided upon written request.
- 1.6 "Top-Issues" shall mean issues and/or failures identified and prioritized jointly by SAP NS2 and Licensee in accordance with the SAP standards which (i) endanger Go-Live of a pre-production system or (ii) have a significant business impact on a Licensee's core Production System.
- 1.7 "SAP NS2 Support Services" shall mean SAP NS2 Secure Product Support for Large Enterprises or SAP NS2 Secure Enterprise Support.

2. Scope of SAP NS2 Secure Product Support for Large Enterprises. Licensee may request and Contractor, through SAP NS2, shall provide, to such degree as SAP makes such services generally available in the Territory, SAP Secure Product Support for Large Enterprises services. SAP NS2 Secure Product Support for Large Enterprises currently includes:

Continuous Improvement and Innovation

- New software releases of the licensed PSLE Solutions, as well as tools and procedures for upgrades.
- Support packages - correction packages to reduce the effort of implementing single corrections. Support packages may also contain corrections to adapt existing functionality to changed legal and regulatory requirements.
- For releases of the SAP Business Suite 7 core applications (starting with SAP ERP 6.0 and with releases of SAP CRM 7.0, SAP SCM 7.0, SAP SRM 7.0 and SAP PLM 7.0 shipped in 2008), SAP may provide enhanced functionality and/or innovation through enhancement packages or by other means as available. During mainstream maintenance for an SAP core application release, SAP's current practice is to provide one enhancement package or other update per calendar year.

- Technology updates to support third-party operating systems and databases.
- Available ABAP source code for SAP software applications and additionally released and supported function modules.
- Software change management, such as changed configuration settings or PSLE Solutions upgrades, is supported for example with content and information material, tools for client copy and entity copy, and tools for comparing customization.
- SAP NS2 gives Licensee access to guided self services as part of SAP Solution Manager Enterprise Edition, helping Licensee to optimize technical solution management of selected PSLE Solutions.
- Configuration guidelines and content for PSLE Solutions are usually shipped via SAP Solution Manager Enterprise Edition
- Best practices for SAP System Administration and SAP Solution Operations for SAP Software.
- SAP configuration and operation content is supported as part of PSLE Solutions.
- Content, tools and process descriptions for SAP Application Lifecycle Management are part of the SAP Solution Manager Enterprise Edition, the PSLE Solutions and/or the applicable documentation for the PSLE Solutions.

Message Handling

- SAP Notes on the SAP Service Marketplace document software malfunctions and contain information on how to remedy, avoid and bypass errors. SAP Notes may contain coding corrections that licensees can implement into their SAP system. SAP Notes also document related issues, licensee questions, and recommended solutions (e.g. customizing settings).
- SAP Note Assistant - a tool to install specific corrections and improvements to SAP components.
- Global message handling by SAP for problems related to PSLE Solutions (for more information refer to Section 2.1).
- Global 24x7 escalation procedures.

Access to Services Content

- SAP NS2 shall provide Licensee with access to SAP's remote services methodology. Licensee may use this content to perform proactive support services for the PSLE Solutions.

SAP NS2 Secure Product Support for Large Enterprises Roadmap Planning

- Up to two times per calendar year, Licensee and SAP NS2 will perform a joint telephone conference to exchange information about Licensee's current or planned global projects to implement or upgrade Secure PSLE Solutions, to review Top-Issues and risk mitigation plans and to discuss quality assurance topics with regard to end-to-end operations of and support for Licensee's SAP Software Solutions, and to generally align on collaboration between Licensee and SAP NS2 in the area of support activities and delivery of SAP NS2 Secure Product Support for Large Enterprises services for Licensee's SAP Software Solutions.
- Licensee can contact the local support manager of SAP NS2 to request a scheduling of such telephone conference.
- If mutually agreed between Licensee and SAP NS2, such planning can also take place in the course of an onsite meeting at a mutually agreed location.
- Licensee acknowledges that a successful planning requires the support of Licensee's Customer Center of Expertise.

SAP Solution Manager Enterprise Edition as described in Section 2.2.

Other Components, Methodologies, Content and Community Participation

- Monitoring components and agents for systems - to monitor available resources and collect system status information of the PSLE Solutions (e.g. SAP EarlyWatch Alert).
- Pre-configured test templates and test cases are usually delivered via the SAP Solution Manager Enterprise Edition. In addition the SAP Solution Manager Enterprise Edition assists Licensee's testing activities with functionalities that currently include:
 - o Test administration for Secure PSLE Solutions by using the functionality provided as part of the SAP Solution Manager Enterprise Edition
 - o Quality Management for management of "Quality-Gates"
 - o SAP-provided tools for automatic testing
 - o SAP-provided tools to assist with optimizing regression test scope. Such tools support identifying the business processes that are affected by a planned SAP Software Solutions change and make recommendations for the test scope as well as generating test plans (for details see <http://service.sap.com/>).
- Content and supplementary tools designed to help increase efficiency, which may include implementation methodologies and standard procedures, an Implementation Guide (IMG) and Business Configuration (BC) Sets.
- Access to guidelines via the SAP Service Marketplace, which may include implementation and operations processes and content designed to help reduce costs and risks. Such content currently includes:
 - o End-to-End Solution Operations: Assists Licensee with the optimization of the end-to-end operations of Licensee's SAP Software Solution.
 - o Run SAP Methodology: Assists Licensee with application management, business process operations, and administration of the SAP NetWeaver® technology platform, and currently includes:
 - The SAP standards for solution operations
 - The road map of Run SAP to implement end-to-end solution operations
 - Tools, including the SAP Solution Manager Enterprise Edition application management solution.
 For more information on the Run SAP methodology, refer to <http://service.sap.com/runsap>
- Participation in SAP's customer and partner community (via SAP Service Marketplace), which provides information about best business practices, service offerings, etc.

2.1. Global Message Handling. When Licensee reports malfunctions, SAP supports Licensee by providing information on how to remedy, avoid or bypass errors. The main channel for such support will be the support infrastructure provided by SAP. Licensee may send an error message at any time. All persons involved in the message solving process can access the status of the message at any time.

In exceptional cases, Licensee may also contact SAP NS2 by telephone. For such contact (and as otherwise provided) SAP NS2 requires that Licensee provides remote access as specified in Section 3.2(iii).

SAP will commence message handling on errors of very high priority (for a definition of priorities, see SAP Note 67739 which will be provided upon written request) within 24 hours, 7 days a week provided that the following conditions are met: (i) The error must be reported in English and (ii) Licensee must have a suitably skilled English-speaking employee at hand so that Licensee and SAP NS2 can communicate if SAP NS2 assigns the problem message to an overseas SAP NS2 support center, unless otherwise agreed to in writing by the Parties. Until these conditions are fulfilled, SAP may not be able to start message handling or to continue message handling.

2.2 SAP Solution Manager Enterprise Edition under SAP NS2 Secure Product Support for Large Enterprises

2.2.1 SAP Solution Manager Enterprise Edition (and any successor to SAP Solution Manager Enterprise Edition provided hereunder) shall be subject to the Schedule contract and is solely for the following purposes under SAP NS2 Secure PSLE: (i) delivery of SAP NS2 Secure PSLE and support services for Licensee Solutions including delivery and installation of software and technology maintenance for PSLE Solutions; and (ii) application lifecycle management for Licensee Solutions and for any other software components and IT assets licensed or otherwise obtained by Licensee from third parties provided such third party software, software components and IT assets are operated in conjunction with SAP NS2 Secure PSLE Solutions and are required to complete the Licensee's business processes as documented in the solution documentation in SAP Solution Manager Enterprise Edition ("Additional Supported Assets"). Such application lifecycle management is limited solely to the following purposes:

- implementation, configuration, testing, operations, continuous improvement and diagnostics
- incident management (service desk), problem management and change request management as enabled using SAP CRM technology integrated in SAP Solution Manager Enterprise Edition
- administration, monitoring, reporting and business intelligence as enabled using SAP NetWeaver technology integrated in SAP Solution Manager Enterprise Edition. Business intelligence may also be performed provided the appropriate SAP BI software is licensed by Licensee as part of the PSLE Solutions.

For application lifecycle management as outlined under section 2.2.1(ii) above, Licensee does not require a separate Package license to SAP CRM. Licensee must hold appropriate Named User licenses to Use SAP Solution Manager.

2.2.2 SAP Solution Manager Enterprise Edition may not be used for purposes other than those stated above. Without limiting the foregoing restriction, Licensee shall not use SAP Solution Manager Enterprise Edition for (i) CRM scenarios such as service plans, contracts, service confirmation management, except as CRM scenarios are expressly stated in Section 2.2.1; (ii) SAP NetWeaver usage types other than those stated above or (iii) application life-cycle management and in particular incident management (service desk) except for Licensee Solutions and Additional Supported Assets and (iv) non-IT shared services capabilities, including without limitation HR, Finance or Procurement.

2.2.3 SAP may update from time to time on the SAP Service Marketplace the use cases for SAP Solution Manager Enterprise Edition under this Section 2.2.

2.2.4 SAP Solution Manager Enterprise Edition shall only be used during the term of this Schedule by Named Users licensed by Licensee subject to the licensed rights for the Software and exclusively for Licensee's SAP-related support purposes in support of Licensee's internal business operations. The right to use any SAP Solution Manager Enterprise Edition capabilities under SAP NS2 Secure PSLE other than those listed above is subject to a separate written agreement, even if such capabilities are accessible through or related to SAP Solution Manager Enterprise Edition. Notwithstanding the foregoing limitation on Named Users, Licensee shall be entitled to allow any of its employees to use web self-service in the SAP Solution Manager Enterprise Edition during the term of this Schedule for the sole purpose of creating support tickets, requesting support ticket status and ticket confirmation directly related to the Licensee Solutions and Additional Supported Assets.

2.2.5 In the event Licensee terminates SAP NS2 Secure PSLE, Licensee's use of SAP Solution Manager Enterprise Edition under SAP NS2 Secure PSLE shall cease.

2.2.6 Use of SAP Solution Manager Enterprise Edition may not be offered by Licensee as a service to third parties even if such third parties have licensed SAP Software and have licensed Named Users; provided, third parties authorized to access the SAP Software under the Schedule contract may have access to SAP Solution Manager Enterprise Edition solely for SAP-related support purposes in support of Licensee's internal business operations under and in accordance with the terms of this Schedule.

3. Licensee's Responsibilities.

3.1 SAP NS2 Secure Product Support for Large Enterprises Program Management. In order to receive SAP NS2 Secure Product Support for Large Enterprises hereunder, Licensee shall designate a qualified English speaking contact within its SAP NS2 Customer Center of Expertise (the "Contact Person") and shall provide contact details (in particular e-mail address and telephone number) by means of which the Contact Person or the authorized representative of such Contact Person can be contacted at any time. Licensee's Contact Person shall be Licensee's authorized representative empowered to make necessary decisions for Licensee or bring about such decision without undue delay.

3.2 Other Requirements. In order to receive SAP NS2 Secure Product Support for Large Enterprises hereunder, Licensee must further satisfy the following requirements:

- (i) Continue to pay all SAP NS2 Secure Product Support for Large Enterprise Service Fees in accordance with the Schedule contract terms.
- (ii) Otherwise fulfill its obligations under the Schedule contract.
- (iii) Provide and maintain remote access via a technical standard procedure as defined by SAP NS2 and grant SAP NS2 all necessary authorizations, in particular for remote analysis of issues as part of message handling. Such remote access shall be granted without restriction regarding the nationality of the SAP NS2 employee(s) who process support messages or the country in which they are located. Licensee acknowledges that failure to grant access may lead to delays in message handling and the provision of corrections, or may render SAP NS2 unable to provide help in an efficient manner. The necessary software components must also be installed for support services. For more details, see SAP Note 91488 which will be provided upon written request.
- (iv) Establish and maintain an SAP certified Customer COE meeting the requirements specified in Section 4 below.

- (v) Have installed, configured and be using productively, an SAP Solution Manager Enterprise Edition system, with the latest patch levels for Basis, and the latest SAP Solution Manager Enterprise Edition support packages.
- (vi) Activate SAP EarlyWatch Alert for the Production Systems and transmit data to Licensee's productive SAP Solution Manager Enterprise Edition system. See SAP Note 1257308 which will be provided upon written request for information on setting up this service.
- (vii) Establish a connection between Licensee's SAP Solution Manager Enterprise Edition installation and SAP NS2 and a connection between the PSLE Solutions and Licensee's SAP Solution Manager Enterprise Edition installation. Licensee shall maintain the solution landscape and core business processes in Licensee's SAP Solution Manager Enterprise Edition system for all Production Systems and systems connected to the Production Systems. Licensee shall document any implementation or upgrade projects in Licensee's SAP Solution Manager Enterprise Edition system.
- (viii) To fully enable and activate the SAP Solution Manager Enterprise Edition, Licensee shall adhere to the applicable documentation.
- (ix) Licensee agrees to maintain adequate and current records of all modifications and, if needed, promptly provide such records to SAP.
- (x) Submit all error messages via the then current SAP NS2 support infrastructure as made available by SAP NS2 from time to time via updates, upgrades or add-ons.
- (xi) Inform SAP NS2 without undue delay of any changes to Licensee's installations and Named Users and all other information relevant to the SAP NS2 Secure PSLE Solutions.

4. Customer Center of Expertise.

4.1 Role of the Customer Center of Expertise In order to leverage the full potential value delivered as part of SAP NS2 Secure Product Support for Large Enterprises, Licensee is required to establish a Customer Center of Expertise ("Customer Center of Expertise", or "Customer COE"). The Customer COE is designated by Licensee as a central point of contact for interaction with the SAP NS2 support organization. As a permanent center of expertise, the Customer COE supports Licensee's efficient implementation, innovation, operation and quality of business processes and systems related to the SAP Software Solution based on the Run SAP methodology provided by SAP (for more information on the Run SAP methodology, refer to <http://service.sap.com/runsap>). The Customer COE should cover all core business process operations. SAP NS2 recommends starting the implementation of the Customer COE as a project that runs in parallel with the functional and technical implementation projects.

4.2 Basic Functions of the Customer COE: The Customer COE must fulfill the following basic functions:

- Support Desk: Set-up and operation of a support desk with a sufficient number of support consultants for infrastructure/application platforms and the related applications during regular local working hours (at least 8 hours a day, 5 days (Monday through Friday) a week). Licensee support process and skills will be jointly reviewed in the framework of the service planning process and the certification audit.
- Contract administration: Contract and license processing in conjunction with SAP (license audit, maintenance billing, release order processing, user master and installation data management).
- Coordination of innovation requests: Collection and coordination of development requests from Licensee and/or affiliates provided such affiliates are entitled to use the SAP NS2 Secure PSLE Solutions under the Schedule contract. In this role the Customer COE shall also be empowered to function as an interface to SAP to take all action and decisions needed to avoid unnecessary modification of SAP NS2 Secure PSLE Solutions and to ensure that planned modifications are in alignment with the SAP software and release strategy. The Customer COE shall also coordinate Licensee's modification notification and disclosure requirements.
- Information management: Distribution of information (e.g. internal demonstrations, information events and marketing) about PSLE Solutions and the Customer COE within Licensee's organization.
- Service Planning: Licensee regularly engages in a service planning process with SAP NS2. The service planning starts during the initial implementation and will then be continued regularly.

4.3 Customer COE Certification. If Licensee does not already have a certified Customer COE upon the Effective Date, Licensee must establish a certified Customer COE upon the later to occur of the following: (i) within twelve (12) months after the Effective Date; or (ii) within six (6) months after Licensee has started using at least one of the PSLE Solutions in live mode for normal business operations. To obtain the then-current primary Customer COE certification or re-certification by SAP, the Customer COE undergoes an audit procedure that covers the basic functions (primary certification). Licensee has the option to pursue advanced certification of their Customer COE. Detailed information on the initial certification and re-certification process and conditions, as well as information on the available certification levels, is available on the SAP Service Marketplace (<http://service.sap.com/coe>).

5. Revenue Thresholds.

5.1 Licensee shall be only eligible to receive SAP NS2 Secure Product Support for Large Enterprises from the date at which Licensee informs SAP NS2 in writing about the meeting of both of the following criteria: (i) the aggregate of the overall yearly expenditure of Licensee, including and all Licensee Affiliates, exceeds or is equal to USD 7,000,000. (seven million dollars) (the "Maintenance Threshold") for: a) SAP Secure Enterprise Support, b) SAP Secure Product Support for Large Enterprises c) Maintenance for software licensed from Business Objects; and e) MaxAttention; and (ii) the Net License Value exceeds or is equal to USD 40,000,000 (forty million dollars) (the "License Threshold").

5.2 Renewal of SAP NS2 Secure Product Support for Large Enterprises is subject to the Revenue Thresholds set forth in Section 5.1.

5.3 Licensee shall not receive any refund, including, but not limited to, previously paid maintenance fees.

6. Fees for SAP NS2 Secure Product Support for Large Enterprises. SAP NS2 Secure Product Support for Large Enterprises Fees shall be paid annually in advance.

7. Other Terms and Conditions.

7.2 Licensee hereby confirms that Licensee has obtained all licenses for the Licensee Solutions.

7.3 FAILURE TO UTILIZE SAP NS2 SECURE PRODUCT SUPPORT FOR LARGE ENTERPRISES PROVIDED BY CONTRACTOR THROUGH SAP NS2 MAY PREVENT SAPNS2 FROM BEING ABLE TO IDENTIFY AND ASSIST IN THE CORRECTION OF POTENTIAL

PROBLEMS WHICH, IN TURN, COULD RESULT IN UNSATISFACTORY SOFTWARE PERFORMANCE FOR WHICH CONTRACTOR AND SAP NS2 CANNOT BE HELD RESPONSIBLE.

7.4 In the event SAP NS2 through Contractor licenses third party software to Licensee under the Schedule contract, SAPNS2 through Contractor shall provide SAP NS2 Secure Product Support for Large Enterprises on such third party software to the degree the applicable third party makes such support available to SAP NS2. Licensee may be required to upgrade to more recent versions of its operating systems and databases to receive SAP NS2 Secure Product Support for Large Enterprises. If the respective vendor offers an extension of support for its product, Contractor through SAP NS2 may offer such extension of support under a separate written agreement for an additional fee.

7.5 SAP NS2 Secure PSLE is provided according to the current maintenance phases of SAP software releases as stated in SAP's website for which a secure link will be provided upon issuance of an order.

**EC America Rider to Product Specific License Terms and Conditions
(for U.S. Government End Users)**

1. **Scope.** This Rider and the attached **SAP Public Services, Inc.** (“Manufacturer”) product specific license terms establish the terms and conditions enabling EC America (“Contractor”) to provide Manufacturer’s information technology products and services to Ordering Activities under EC America’s GSA MAS IT70 contract number GS-35F-0511T (the “Schedule Contract”). Installation and use of the information technology shall be in accordance with this Rider and Manufacturer Specific Terms attached hereto, unless an Ordering Activity determines that it requires different terms of use and Manufacturer agrees in writing to such terms in a valid delivery order placed pursuant to the Schedule Contract.
2. **Applicability.** Whereas GSA and EC America agreed at the time of Schedule Contract award upon a base set of terms and conditions applicable to all manufacturers and items represented on the Schedule Contract; and Whereas, the parties further agreed that all product specific license, warranty and software maintenance terms and conditions would be submitted at the time each new manufacturer was to be added to the Schedule Contract; Now, Therefore, the parties hereby agree that the product specific license, warranty and software maintenance terms set forth in Attachment A hereto (the “Manufacturer Specific Terms” or the “Attachment A Terms”) are incorporated into the Schedule Contract, but only to the extent that they are consistent with federal law (e.g., the Anti-Deficiency Act (31 U.S.C. § 1341), the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 *et seq.*), the Prompt Payment Act (31 U.S.C. §§ 3901 *et seq.*), the Anti-Assignment statutes (31 U.S.C. § 3727 and 41 U.S.C. § 15), DOJ’s jurisdictional statute 28 U.S.C. § 516 (Conduct of Litigation Reserved to the Department of Justice (DOJ)), and 28 U.S.C. § 1498 (Patent and copyright cases)). To the extent any Attachment A Terms are inconsistent with federal law (See, FAR 12.212(a)), such inconsistent terms shall be superseded, unenforceable and of no legal force or effect in all resultant orders under the Schedule Contract, including but not limited to the following provisions:
 - a) **Contracting Parties.** The GSA Customer (“Licensee”) is the “Ordering Activity”, defined as the entity authorized to order under GSA MAS contracts as set forth in GSA ORDER ADM 4800.2G (Feb 2011), as may be revised from time to time.
 - b) **Changes to Work and Delays.** Subject to GSAR Clause 552.243-72, Modifications (Federal Supply Schedule) (July 2000) (Deviation I – SEPT 2010), and 52.212-4(f) Excusable Delays (JUN 2010) regarding which the GSAR and the FAR provisions take precedence.
 - c) **Contract Formation.** Subject to FAR 1.601(a) and FAR 43.102, the GSA Customer Purchase Order must be signed by a duly warranted Contracting Officer, in writing. The same requirement applies to contract modifications affecting the rights of the parties. All terms and conditions intended to bind the Government must be included within the contract signed by the Government.
 - d) **Termination.** Clauses in the Manufacturer Specific Terms referencing termination, suspension and/ or cancellation are superseded and not applicable to any GSA Customer order. Termination shall be governed by the FAR, the underlying GSA Schedule Contract and the terms in any applicable GSA Customer Purchase Orders. If the Contractor believes the GSA Customer to be in breach, it must file a claim with the Contracting Officer and continue to diligently pursue performance. In commercial item contracting under FAR 12.302(b), the FAR provisions dealing with disputes and continued performance cannot be changed by the Contracting Officer.
 - e) **Choice of Law.** Subject to the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 *et seq.*), the validity, interpretation and enforcement of this Rider shall be governed by and construed in accordance with the federal laws of the United States. In the event the Uniform Computer Information Transactions Act (UCITA) or any similar federal laws or regulations are enacted, to the extent allowed by federal law, they will not apply to this Rider or the underlying Schedule Contract.
 - f) **Equitable remedies.** Equitable remedies are generally not awarded against the Government absent an express statute providing therefore. In the absence of a direct citation to such a statute, all clauses in the Manufacturer Specific Terms referencing equitable remedies are superseded and not applicable to any GSA Customer order.
 - g) **Unilateral Termination.** Unilateral termination by the Contractor does not apply to a GSA Customer Purchase Order and all clauses in the Manufacturer Specific Terms referencing unilateral termination rights of the Manufacturer are hereby superseded.
 - h) **Unreasonable Delay.** Subject to FAR 52.212-4(f) Excusable delays, the Contractor shall be liable for default unless the nonperformance is caused by an occurrence beyond the reasonable control of the Contractor and without its fault or negligence such as, acts of God or the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, unusually severe weather, and delays of common carriers. The Contractor shall notify the Contracting Officer in writing as soon as it is reasonably possible after commencement of any excusable delay, setting forth the full particulars in connection therewith, shall remedy such occurrence with all reasonable dispatch and shall promptly give written notice to the Contracting Officer of the cessation of such occurrence.
 - i) **Assignment.** All clauses regarding the Contractor’s assignment are subject to FAR 52.232-23, Assignment of Claims (JAN 1986) and FAR 42.12 Novation and Change-of-Name Agreements (Sep. 2013). All clauses governing the Contractor’s assignment in the Manufacturer Specific Terms are hereby superseded.
 - j) **Waiver of Jury Trial.** Waivers of Jury Trials are subject to FAR 52.233-1 Disputes (JULY 2002). The Government will not agree to waive any right that it may have under federal law. All clauses governing a waiver of jury trial in the Manufacturer Specific Terms are hereby superseded.
 - k) **Government Indemnities.** This is an obligation in advance of an appropriation that violates anti-deficiency laws (31 U.S.C. § 1341 and 41 U.S.C. § 6301), since the GSA Customer commits to pay an unknown amount at an unknown future time. The

violation occurs when the commitment is made, i.e., when the agreement featuring this clause is incorporated into a Government contract, and not when the clause is triggered. The FAR 12.216 prohibit such indemnifications. All Manufacturer Specific Terms referencing customer indemnities are hereby superseded.

- l) **Contractor Indemnities.** All Manufacturer Specific Terms that violate DOJ's jurisdictional statute (28 U.S.C. § 516) by requiring that the Government give sole control over the litigation and/or settlement to the Contractor are hereby superseded. Nothing contained in the Manufacturer's Specific terms shall be construed in derogation of the U.S. Department of Justice's right to defend any claim or action brought against the U.S., pursuant to its jurisdictional statute.
- m) **Renewals.** All Manufacturer Specific Terms that provide for automatic renewals violate the Anti-Deficiency Act and are hereby superseded. This is an obligation in advance of an appropriation that violates anti-deficiency laws (31 U.S.C. § 1341 and 41 U.S.C. § 6301), since the GSA Customer commits to pay an unknown amount at an unknown future time. The violation occurs when the commitment is made, i.e., when the agreement featuring this clause is incorporated into a Government contract, and not when the clause is triggered.
- n) **Future Fees or Penalties.** All Manufacturer Specific Terms that require the Government to pay any future fees, charges or penalties are hereby superseded unless specifically authorized by existing statutes, such as the Prompt Payment Act (31 U.S.C. § 3901 et seq.) or Equal Access To Justice Act (5 U.S.C. § 504; 28 U.S.C. § 2412).
- o) **Taxes.** Taxes are subject to FAR 52.212-4(k), which provides that the contract price includes all applicable federal, state, local taxes and duties. Notwithstanding the foregoing, Contractor shall state separately on its invoices, taxes excluded from the fees, and the GSA Customer agrees to either pay the amount of the taxes (based on the current value of the equipment or services) to Contractor or provide it evidence necessary to sustain an exemption, in accordance with FAR 52.229-1 and FAR 52.229-3.
- p) **Third Party Terms.** When the end user is an instrumentality of the U.S., no license terms bind the GSA Customer unless included verbatim (not by reference) in the EULA, and the EULA is made an attachment to the underlying GSA Schedule Contract. All terms and conditions affecting the GSA Customer must be contained in a writing signed by a duly warranted Contracting Officer. Any third party manufacturer shall be brought into the negotiation, or the components acquired separately under federally-compatible agreements, if any. All Manufacturer Specific Terms that incorporate third party terms by reference are hereby superseded.
- q) **Dispute Resolution and Standing.** Any disputes relating to the Manufacturer Specific Terms or to this Rider shall be resolved in accordance with the FAR, the underlying GSA Schedule Contract, any applicable GSA Customer Purchase Orders, and the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 et seq.). The Ordering Activity expressly acknowledges that EC America as contractor, on behalf of the Manufacturer, shall have standing to bring such claim under the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 et seq.).
- r) **Advertisements and Endorsements.** Pursuant to GSAR 552.203-71, use of the name or logo of any U.S. Government entity is prohibited. All Manufacturer Specific Terms that allow the Contractor to use the name or logo of a Government entity are hereby superseded.
- s) **Public Access to Information.** EC America agrees that the attached Manufacturer Specific Terms and this Rider contain no confidential or proprietary information and acknowledges the Rider shall be available to the public.
- t) **Confidentiality.** Any provisions in the attached Manufacturer Specific Terms that require the Ordering Activity to keep certain information confidential are subject to the Freedom of Information Act (5 U.S.C. § 552), and any order by a United States Federal Court. When the end user is an instrumentality of the U.S. Government, neither this Rider, the Manufacturer's Specific Terms nor the Schedule Price List shall be deemed "confidential information" notwithstanding marking to that effect. Notwithstanding anything in this Rider, the Manufacturer's Specific Terms or the Schedule Contract to the contrary, the GSA Customer may retain such Confidential Information as required by law, regulation or its bonafide document retention procedures for legal, regulatory or compliance purposes; provided however, that such retained Confidential Information will continue to be subject to the confidentiality obligations of this Rider, the Manufacturer's Specific Terms and the Schedule Contract.
- u) **Alternate Dispute Resolution.** The GSA Customer cannot be forced to mediate or arbitrate. Arbitration requires prior guidance by the head of a federal agency promulgated via administrative rulemaking according to 5 U.S.C. § 575(c). GSA has not issued any because it considers the Board of Contract Appeals to be an adequate, binding ADR alternative. All Manufacturer Specific Terms that allow the Contractor to choose arbitration, mediation or other forms of alternate dispute resolution are hereby superseded.
- v) **Ownership of Derivative Works.** Provisions purporting to vest exclusive ownership of all derivative works in the licensor of the standard software on which such works may be based are superseded. Ownership of derivative works should be as set forth in the copyright statute, 17 U.S.C. § 103 and the FAR clause at 52.227-14, but at a minimum, the GSA Customer shall receive unlimited rights to use such derivative works at no further cost.

3. Order of Precedence/Conflict. To the extent there is a conflict between the terms of this Rider and the terms of the underlying Schedule Contract or a conflict between the terms of this Rider and the terms of an applicable GSA Customer Purchase Order, the terms of the GSA Schedule Contract or any specific, negotiated terms on the GSA Customer Purchase Order shall control over the terms of this Rider. Any capitalized terms used herein but not defined, shall have the meaning assigned to them in the underlying Schedule Contract.

**ATTACHMENT A
CONTRACTOR SUPPLEMENTAL PRICELIST INFORMATION AND TERMS**

SAP PUBLIC SERVICES, INC.

SAP PUBLIC SERVICES, INC. LICENSE, WARRANTY AND SUPPORT TERMS

1. DEFINITIONS.

1.1 "Add-on" means any development using SAP API's that adds new and independent functionality, but does not modify existing SAP functionality.

1.2 Reserved.

1.3 "API" means SAP's application programming interfaces, as well as other SAP code that allow other software products to communicate with or call on SAP Software (for example, SAP Enterprise Services, BAPIs, Idocs, RFCs and ABAP or other user exits) provided hereunder.

1.4 Reserved.

1.5 "Business Partner" means a legal entity that requires access to the Software in connection with Ordering Activity's internal business operations, such as customers, distributors and/or suppliers of Ordering Activity.

1.6 Reserved.

1.7 "Documentation" means SAP's documentation which is delivered or made available to Ordering Activity with the Software hereunder.

1.8 "Intellectual Property Rights" means patents of any type, design rights, utility models or other similar invention rights, copyrights, mask work rights, trade secret or confidentiality rights, trademarks, trade names and service marks and any other intangible property rights, including applications and registrations for any of the foregoing, in any country, arising under statutory or common law or by contract and whether or not perfected, now existing or hereafter filed, issued, or acquired.

1.9 "Modification" means (i) a change to the delivered source code or metadata; or (ii) any development, other than a change to the delivered source code or metadata, that customizes, enhances, or changes existing functionality of the Software including, but not limited to, the creation of any new application program interfaces, alternative user interfaces or the extension of SAP data structures; or (iii) any other change to the Software (other than an Add-on) utilizing or incorporating any SAP Materials (defined below).

1.10 Reserved.

1.11 "SAP Materials" means any software, programs, tools, systems, data, or other materials made available by SAP to Ordering Activity in the course of the performance hereunder including, but not limited to, the Software and Documentation, as well as any information, materials or feedback provided by Ordering Activity to SAP relating to the Software and Documentation.

1.12 "SAP Support" means SAP's then-current SAP support offering specified in the applicable Order Forms and made available to Ordering Activity as stated in the applicable SAP Support Schedule incorporated herein (also available at www.sap.com/company/legal/index.epx) as of the effective date of the first Software Order Form issued under these GTCs. Such SAP Support Schedule is incorporated herein by reference. For the avoidance of doubt, such SAP Support Schedule shall apply to all Order Forms issued under these GTCs unless otherwise agreed by the parties.

1.13 "Software" means (i) any and all software products licensed to Ordering Activity hereunder as specified in Software Order Forms hereto, all as developed by or for SAP, SAP AG, Business Objects Software Limited and/or any of their affiliated companies and delivered to Ordering Activity hereunder; (ii) any new releases thereof made available through unrestricted shipment pursuant to the respective support agreement and (iii) any complete or partial copies of any of the foregoing.

1.14 Reserved.

1.15 "Territory" means the world except for those countries prohibited by United States' export laws, and further subject to Section 12.4 of the GTC.

1.16 "Third Party Software" means (i) any and all software products and content licensed to Ordering Activity hereunder as specified in Software Order Forms hereto, all as developed by companies other than SAP, SAP AG, Business Objects Software Limited and/or any of their affiliated companies and delivered to Ordering Activity hereunder; (ii) any new releases thereof made available through unrestricted shipment pursuant to the respective SAP Support Schedule and (iii) any complete or partial copies of any of the foregoing.

1.17 "Use" means to activate the processing capabilities of the Software, load, execute, access, employ the Software, or display information resulting from such capabilities.

1.18 "Use Terms" means, with regard to Software specified in a Purchase Order, metric definitions and product-specific terms described in Exhibit 1 hereto or in an applicable Purchase Order.

2. LICENSE GRANT.

2.1 License.

2.1.1 Subject to Ordering Activity's compliance with all the terms and conditions herein, Contractor grants to Ordering Activity a non-exclusive, perpetual (except for subscription based or term licenses) license to Use the Software, Documentation, and other SAP Materials at specified site(s) within the Territory to run Ordering Activity's internal business operations (including customer back-up and passive disaster recovery) and to provide internal training and testing for such internal business operations and as further set forth in a Purchase Order, unless terminated in accordance with Section 5 herein. This license does not permit Ordering Activity (without being limited specifically to such

restrictions) to: (i) use the SAP Materials to provide services to third parties (e.g., business process outsourcing, service bureau applications or third party training); (ii) lease, loan, resell, sublicense or otherwise distribute the SAP Materials; (iii) make any Use of or perform any acts with respect to the SAP Materials other than as expressly permitted in accordance with the terms herein; or (iv) use Software components other than those specifically identified in the Purchase Order, even if it is also technically possible for Ordering Activity to access other Software components. Business Partners may Use the Software only through screen access and solely in conjunction with Ordering Activity's Use and may not Use the Software to run any of Business Partners' business operations.

2.1.2 Ordering Activity agrees to install the Software only on information technology devices (e.g., hard disks or central processing units) identified by Ordering Activity pursuant to this Attachment A and that has been previously approved by SAP in writing or otherwise officially made known to the public as appropriate for Use or interoperation with the Software (the "Designated Unit"). Ordering Activity must hold the required licenses as stated herein and in the applicable Purchase Orders, for any individuals that Use the Software, including employees or agents of Affiliates and Business Partners. Use may occur by way of an interface delivered with or as a part of the Software, a Ordering Activity or third-party interface, or another intermediary system.

2.1.3 The terms and conditions of this Attachment A relative to "Software" apply to Third Party Software except as otherwise stated in the Software Use Rights Schedule, a Schedule, an Order Form, or an Amendment.

2.2 Reserved.

2.3 Outsourcing Services. With SAP's prior written consent, Ordering Activity may permit services providers to access the Software solely for the purpose of providing facility, implementation, systems, application management or disaster recovery services to Ordering Activity in connection with the business of Ordering Activity for which the Software is herein licensed provided: (i) Ordering Activity and such services provider execute a written agreement that includes provisions requiring such services provider's compliance with the terms herein prior to such access, including without limitation non-disclosure of SAP Confidential Information; (ii) Ordering Activity shall hold the required licenses as stated in the Use Terms for all employees of such services provider authorized to access the Software; (iii) such services provider shall be permitted to Use the Software solely to install and configure the Software in accordance with the business of Ordering Activity as set forth herein (or in the case of a disaster recovery vendor, to provide disaster recovery services only); (iv) under no circumstances may such services provider Use the Software to operate or provide processing services to Ordering Activity or any other party, or in connection with such services provider's own business operations; (v) Ordering Activity shall be responsible for any additional Software, migration tools, or third party software needed to effect such transition. Upon SAP request, Ordering Activity shall provide written confirmation to SAP that items (i)-(iv) are fulfilled.

3. Reserved.

4. DELIVERY.

4.1 Reserved.

4.2 Delivery of the Software and SAP Support. Contractor, through SAP will deliver the Software and SAP Support by making it available for electronic download through the SAP ServiceMarketplace (<http://service.sap.com/swdc>) to Ordering Activity. Risk of loss passes at the time of such electronic delivery. Ordering Activity agrees not to request any physical delivery of Software or SAP Support and should it occur that any such delivery will be rejected by Ordering Activity.

5. Reserved.

6. INTELLECTUAL PROPERTY RIGHTS.

6.1 Reservation of Rights. The SAP Materials, and all Intellectual Property Rights embodied in the foregoing, shall be the sole and exclusive property of SAP, SAP AG (the parent company of SAP) or its or their licensors, subject to any rights expressly granted to Ordering Activity in Section 2 and 6.3 herein. Except for the rights set forth in Section 6.3 herein, Ordering Activity is not permitted to modify or otherwise make derivative works of the Software. Any such unauthorized works developed by Ordering Activity, and any Intellectual Property Rights embodied therein, shall be the sole and exclusive property of SAP or SAP AG.

6.2 Protection of Rights. Ordering Activity shall not copy, translate, disassemble, or decompile, nor create or attempt to create the source code from the object code of the Software in any manner. Reverse engineering of the Software and other SAP Materials is prohibited. Ordering Activity is permitted to back up data in accordance with good information technology practice and for this purpose to create the necessary backup copies of the Software. Backup copies on transportable discs or other data media must be marked as backup copies and bear the same copyright and authorship notice as the original discs or other data media. Ordering Activity must not change or remove SAP's copyright and authorship notices.

6.3 Modifications/Add-ons.

6.3.1 Conditioned on Ordering Activity's compliance with the terms and conditions of this Attachment A, Ordering Activity may make Modifications and/or Add-ons to the Software in furtherance of its permitted Use under this Attachment A, and shall be permitted to use Modifications and Add-ons with the Software in accordance with the License grant to the Software set forth in Section 2.1.1(a) herein. Ordering Activity shall comply with SAP's registration procedure prior to making Modifications or Add-ons. All Modifications and all rights associated therewith shall be the exclusive property of SAP and SAP AG. All Add-ons developed by SAP (either independently or jointly with Ordering Activity) and all rights associated therewith shall be the exclusive property of SAP and SAP AG. Ordering Activity agrees to execute those documents reasonably necessary to secure SAP's rights in the foregoing. All Add-ons developed by or on behalf of Ordering Activity without SAP's participation ("Ordering Activity Add-on"), and all rights associated therewith, shall be the exclusive property of Ordering Activity subject to SAP's rights in and to the Software; provided, Ordering Activity shall not commercialize, market, distribute, license, sublicense, transfer, assign or otherwise alienate any such Ordering Activity Add-ons. SAP retains the right to independently develop its own

Modifications or Add-ons to the Software, and Ordering Activity agrees not to take any action that would limit SAP's sale, assignment, licensing or use of its own Software or Modifications or Add-ons thereto.

6.3.2 Any Modification developed by or on behalf of Ordering Activity without SAP's participation or Ordering Activity Add-on must not (and subject to other limitations set forth herein): enable the bypassing or circumventing any of the restrictions set forth in this Attachment A and/or provide Ordering Activity with access to the Software to which Ordering Activity is not directly licensed; nor permit mass data extraction from Software to any non-SAP software, including use, modification saving or other processing of data in the non-SAP software; nor unreasonably impair, degrade or reduce the performance or security of the Software; nor render or provide any information concerning SAP software license terms, Software, or any other information related to SAP products.

6.3.3 Ordering Activity covenants, on behalf of itself and its successors and assigns, not to assert against Contractor, SAP or its affiliated companies, or their resellers, distributors, suppliers, commercial partners and customers, any rights in any Modifications developed by or on behalf of Ordering Activity without SAP participation or Ordering Activity Add-ons, or any other functionality of the SAP Software accessed by such Modification developed by or on behalf of Ordering Activity without SAP participation or Ordering Activity Add-on.

7. PERFORMANCE WARRANTY.

7.1 Warranty. Contractor warrants that the Software will substantially conform to the specifications contained in the Documentation for six months following delivery. The warranty shall not apply: (i) if the Software is not used in accordance with the Documentation; or (ii) if the defect is caused by a Modification or Add-on (other than a Modification or Add-on made by SAP and which is provided through SAP Support or under warranty), Ordering Activity or third-party software. Contractor does not warrant that the Software will operate uninterrupted or that it will be free from minor defects or errors that do not materially affect such performance, or that the applications contained in the Software are designed to meet all of Ordering Activity's business requirements. Provided Ordering Activity notifies Contractor in writing with a specific description of the Software's nonconformance within the warranty period and Contractor validates the existence of such nonconformance, Contractor will, at its option: a) repair or replace the nonconforming Software, or b) refund the license fees paid for the applicable nonconforming Software in exchange for a return of such nonconforming Software. This is Ordering Activity's remedy under this warranty.

7.2 Express Disclaimer. CONTRACTOR AND ITS LICENSORS DISCLAIM ALL OTHER WARRANTIES EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION, ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE EXCEPT TO THE EXTENT THAT ANY WARRANTIES IMPLIED BY LAW CANNOT BE VALIDLY WAIVED. This disclaimer does not apply to any warranties expressly provided in a Contractor contract with the U.S. Government.

EXHIBIT 1 TO ATTACHMENT A - PRODUCT SPECIFIC USE TERMS

The terms set forth below ("Use Terms") apply to any Named Users and Packages (both as defined in Section 1.1.1 hereof) licensed by an Ordering Activity pursuant to the Schedule contract. Except as otherwise set forth herein, each capitalized term referenced in these Use Terms shall have the meaning given it in this Attachment A.

1. LICENSING PRINCIPLES / RULES OF USE

1.1 Definitions

1.1.1 As used in these Use Terms: 1) each Software and/or Third Party Software (as defined in this Attachment A) product licensed pursuant to this Attachment A referencing these Use Terms may be referred to as a "Software Package" (when referencing only Software) or "Third Party Software Package" (when referencing only Third Party Software) or "Package" (when referencing both Software and Third Party Software); 2) "Named User" shall mean any individual authorized by Ordering Activity to Use (in accordance with the terms of this Attachment A) a Package, including without limitation employees of its Affiliates or its Business Partners; 3) "Named User License" shall mean the Metric and Licensed Level applicable to each Named User; 4) "Package License" shall mean the Metric and Licensed Level applicable to each Package; 5) "Metric" shall mean a) when referenced in the context of a Named User, the individual Named User category and type (and corresponding Named User definition setting for such Named User's Use rights) as further described in Section 2.1 hereof -and- b) when referenced in the context of a Package, the individual business metric corresponding with each Package as further described in Section 2.2 hereof; 6) "Licensed Level" shall mean a) when referenced in the context of a Named User, the quantity of Metric for which each individual Named User category and type is licensed -and- b) when referenced in the context of a Package, the quantity of Metric for which each individual Package is licensed; and 7) "Order Form" shall mean the order document for the Named Users and Packages licensed under this Attachment, including order documents placed directly with SAP or through an authorized reseller, distributor, OEM or other authorized partner of SAP.

1.2 Standard License Principles / Rules of Use

1.2.1 Named User License & Package License Required. Except as otherwise specifically provided in Sections 1.3.2 and 3 hereof with respect to applicability of Named User Licenses, 1) the Use of any Package requires both a Named User License and a Package License; 2) Ordering Activity needs to hold a Named User License for any individual accessing any Package, and such Named User License shall define the extent to which such individual may Use the Package, such Use of the Package in all cases being further subject to the Package License and otherwise in accordance with the terms of the Schedule contract.

1.2.2 Additional Named User Rules for SBOP and Legacy SBOP Software Not Licensed For Standalone Use. "SBOP" and "Legacy SBOP" shall mean any Software identified as SBOP or Legacy SBOP, respectively, in Exhibit 1 to these Use Terms. Unless otherwise specifically set forth herein, all references to "SBOP" shall be deemed to include any licensed Software identified under any Order Form as "Legacy SBOP"; however, references to "Legacy SBOP" shall only mean any licensed Software specifically identified as "Legacy SBOP" on Exhibit 1. Any licensed SBOP may only be Used by individuals licensed as a Developer User, Expert User, Business Analytics Professional User or BI Limited User, and such Use shall be in accordance with each individual's

respective Named User type (and subject to the applicable Licensed Level(s) for such Software). Any licensed Legacy SBOP may only be Used by individuals licensed as a Developer User, Expert User, Business Analytics Professional User, BI Limited User, or Business Information User, and such Use shall be in accordance with each individual's respective Named User type (and subject to the applicable Licensed Level(s) for such Software).

1.2.3 Runtime Software. Licensed Package(s) may utilize limited functionality of other Packages, including but not limited to SAP NetWeaver Foundation, for which Ordering Activity does not hold a license ("Runtime Software"). Until Ordering Activity has expressly licensed the Runtime Software, Ordering Activity's Use of such Runtime Software is limited to access by and through the licensed Package(s), and any permitted Modifications thereto for the sole purpose of enabling performance of the licensed Package(s). In the event Ordering Activity Uses a Package to build and/or operate a custom developed or third party application, additional licenses may be required.

1.2.4 Country / Language Versions and Availability Restrictions. There are no applicable country/language specific versions licensed by Ordering Activity from SAP unless otherwise specifically stated in an Order Form. Packages may be subject to availability restrictions. Information about such restrictions including country availability, supported languages, supported operating systems and databases may be provided through the Product Availability Matrix (PAM) published at www.service.sap.com/pam or otherwise included in the Documentation.

1.3. Exceptional License Principles / Rules of Use for Special License Scenarios

1.3.1 This Section 1.3 sets forth the exceptional license principles / rules of Use for the following special license scenarios ("Special License Scenarios"), and, to the extent the exceptional license principles / rules of Use for any Special License Scenario identified in this Section 1.3 contradict the standard license principles / rules of Use set forth in the Schedule contract and Section 1.2 hereof, then the terms of this Section 1.3 shall control over those contradicting terms in Section 1.2 hereof.

1.3.2 Standalone Use. Software is licensed solely for Standalone Use if identified as such in the applicable Order Form. SBOP Software licensed from any resellers, distributors or other third parties may be Used solely for Standalone Use, unless otherwise agreed by SAP in writing in the applicable Order Form. "Standalone Use" means the Software (and any corresponding Third Party Software) may not be Used to access, directly or indirectly, in any manner whatsoever, any other Software and/or Third Party Software licensed from SAP, or an authorized reseller, distributor, OEM or other authorized partner of SAP. Software licensed for Standalone Use, however, may be Used with other Software (and any corresponding Third Party Software) that is licensed for Standalone Use.

As a rule, the Use of Software licensed for Standalone Use does not require a Named User License in addition to the Package License for the respective Software itself. For avoidance of doubt, all SBOP and/or Sybase Software licensed by a Business Objects entity or a Sybase entity prior to its legal integration with a successive SAP entity is deemed licensed for Standalone Use only.

1.3.2.1 Standalone Use of SBOP and Legacy SBOP Software. Use of SBOP and Legacy SBOP licensed for Standalone Use does require a Named User License in addition to the Package License for the actual SBOP or Legacy SBOP, respectively.. The only Named User types authorized to Use SBOP licensed for Standalone Use are SAP Application Standalone Business Analytics Professional User, or SAP Application Standalone BI Business Analyst Limited User, and such Use shall be in accordance with each individual's respective Named User type (and subject to the applicable Licensed Level(s) for such Software). The only Named User types authorized to use Legacy SBOP licensed for Standalone Use are SAP Application Standalone Business Analytics Professional User, SAP Application Standalone BI Limited User, or SAP Application Business Information Viewer User, and such Use shall be in accordance with each individual's respective Named User type (and subject to the applicable Licensed Level(s) for such Software).

1.3.3 Restricted License. If Ordering Activity acquired the Software bundled or otherwise provided in combination with or for use with a third party product ("OEM Application") from a third party, Ordering Activity has acquired a Restricted License. Ordering Activity may use each licensed copy of the Software only in conjunction with the OEM Application with which it was provided. Accessing data that is not specifically created or used by the OEM Application is in violation of this license. If the OEM Application requires the use of a data mart or data warehouse, the Software may be used with the data mart or data warehouse only to access data created or processed by the OEM Application. Restricted Licenses may not be combined with unrestricted licenses in the same Deployment.

1.3.4 Subscription License. Unless otherwise agreed in writing between the parties, if the Software is licensed on a subscription basis, Ordering Activity is granted a non-exclusive and non-transferable license to use the Software for a twelve-month term, renewable annually at Licensor's then current rate or such other term as mutually agreed in writing by the parties.

1.3.5 Development License. Unless otherwise agreed in writing between the parties, if Ordering Activity receives a development license, you may use the number and type of licenses acquired only to develop or test such developments. A development license cannot be used in or transferred to a production environment.

1.3.6 Update License. Unless otherwise agreed in writing between the parties, if you receive the Software as an update to a previously licensed product, your license to use the Software is limited to the aggregate number of licenses you have acquired for the previous product. If you choose to use the Software and the previous product simultaneously, the aggregate number of licenses used to access the Software and the previous product may not exceed the aggregate number of licenses you acquired for the previous product.

1.3.7 Promotional License. Unless otherwise agreed in writing between the parties, if you received the Software as a special offer or promotional license ("Promotional License"), you may only use the Promotional Licenses with a new Deployment. Promotional Licenses may not be added to or used with an existing Deployment or Project.

1.3.8 Evaluation/Not for Resale License. Unless otherwise agreed in writing between the parties, an Evaluation or Not for Resale License may be used only for the number and type of licenses specified and for the period specified on the Software packaging,

ordering or shipping documentation. Upon expiration of such specified period, the Software associated with an Evaluation or Not For Resale license will not function unless Ordering Activity has obtained applicable permanent license keys. If the ordering or shipping documentation specifies a particular project, the Software may be used only with that project. An Evaluation License may only be used for evaluation purposes and may not be used for production purposes. Notwithstanding any other provision of this Attachment A, Software provided under an Evaluation or Not for Resale License are provided "AS-IS" without warranty of any kind, express or implied. An Evaluation License or Not for Resale License may be terminated by SAP upon written notice at any time.

2. **Metrics**

2.1 **Named User Principles and Metrics**

2.1.1 **Named User Principles.** Except as otherwise specifically provided in Sections 1.3.2 and 3 hereof with respect to applicability of Named User Licenses, only appropriately licensed Named Users may Use a Package, and such Use shall be subject to the "Named User License" and the "Package License", and be otherwise in accordance with the terms of the Attachment A. The total number of licensed SAP Application Limited Professional Users must under no circumstances exceed the sum of licensed SAP Application Professional Users and SAP Application Business Expert Users. The transfer of a Named User License from one individual to another may only be done in if the individual to which the Named User License is assigned (i) is on vacation, (ii) is absent due to sickness, (iii) has his/her employment terminated, (iv) is moved into a new job function which no longer requires him/her to Use any Packages or (v) is subject to a condition that is otherwise agreed by SAP.

2.1.2 **Important Note for Ordering Activities with Contracts from 2006 and Earlier.** Such Ordering Activities may have licensed one of the following previous user types: mySAP.com Users, SAP Business Suite Users, SAP ERP Users, Individual SAP solutions Users. Ordering Activities that have already licensed one or several of the above user types are permitted to license additional users of the same user types. Such Ordering Activities are not permitted to license SAP Application Users within their existing license contract. Ordering Activities with contracts from 2006 or later that contain SAP Application users are not permitted to license any of these previous user types.

2.1.2 **Named User Metric – Categories, Types and Corresponding Definitions.**

Named User Metrics, including categories, types and corresponding definitions, are stated in Exhibit 2, which is incorporated herein by reference.

2.2 **Package Principles and Metrics**

2.2.1 **Package Principles.** Each Package is licensed based upon the Metric applicable to it, and in no case may Use of a Package exceed the License Level for which the Package is licensed.

2.2.2 **Package Metrics – Types and Corresponding Definitions.**

Package Metrics, including types and corresponding definitions, are stated in Exhibit 2, which is incorporated herein by reference.

3. **PACKAGE SPECIFIC TERMS / USE RULES**

3.1 **Package Licenses.** A Package License for any Package referenced in Exhibit 3 shall include, and be subject to, the specific terms / Use rules applicable to such Package as outlined in Exhibit 3, which is incorporated herein by reference.

3.2 **Applicability.** This Section 3.2 applies to any Package (including, without limitation, databases) licensed pursuant to an Order Form and identified as a Third Party Software (including databases) in such Order Form (as used herein, "Third Party Software Package") and control over any conflicting terms set forth in the Attachment A. All Third Party Software Packages are restricted for Use solely in conjunction with the particular Package intended by SAP to be used therewith or with which SAP provides the Third Party Software Package, and Third Party Software Packages may not be used with any other Package, or on an individual basis. Unless otherwise specifically provided in Section 3 of the Use Terms, any Use of the Third Party Software Packages (whether productive or non-productive) shall count against the Licensed Level for any applicable Metric.

3.2.1 **Exceptions from Attachment A for Third Party Software Packages.**

3.2.1.1 Section 6.3 (Modification / Add-on) of Attachment A shall not apply to any Third Party Software Packages. Ordering Activity shall not make Modifications or Add-ons to Third Party Software Packages, or otherwise modify Third Party Software Packages unless expressly authorized by SAP in writing.

3.3 **Third Party Databases.**

3.3.1. If a runtime database is licensed and the Order Form does not exclude any Packages licensed thereunder from such runtime database license, then the following terms shall govern Ordering Activity's Use of such runtime database:

3.3.1.1. Ordering Activity may only Use the runtime database licensed pursuant an Order Form referencing these Use Terms in conjunction with its Use of the Packages licensed pursuant to such Order Form. In the event Ordering Activity Uses the licensed runtime database other than as specified in this paragraph, a full use license, including programming tools, must be licensed directly from an authorized vendor.

3.3.2. If a runtime database is licensed and the Order Form excludes certain Software Packages licensed thereunder from such runtime database license ("Excluded Components"), then the following terms shall govern Ordering Activity's Use of such runtime database:

3.3.2.1 Ordering Activity may only Use the runtime database licensed pursuant an Order Form referencing these Use Terms in conjunction with its Use of the Packages licensed pursuant to such Order Form that are not Excluded Components. In the event Ordering Activity Uses the licensed runtime database other than as specified in this paragraph, a full use license, including programming tools, must be licensed directly from an authorized vendor.

3.3.2.2 The Excluded Components may require a database product. Respective to the Excluded Components: (i) neither the Order Form nor this Attachment A contain a license to use any database product, even where integrated or pre-installed as part of the Excluded Components; (ii) each database product is subject to its respective vendor license agreement; (iii) SAP makes no representations or warranties as to the terms of any license or the operation of any database product obtained directly from a third party vendor; and (iv) Ordering Activity is responsible for support and maintenance of any database product obtained from a third party vendor, and SAP has no responsibility in this regard.

3.3.3 If a runtime database is not licensed, then the following terms shall apply:

3.3.3.1 The Packages licensed pursuant to an Order Form referencing these Use Terms may require a database product. Respective to such Packages: (i) neither the Order Form nor this Attachment A contain a license to use any database product, even where integrated or pre-installed as part of such Software and/or third party software; (ii) each database product is subject to its respective vendor license agreement; (iii) SAP makes no representations or warranties as to the terms of any license or the operation of any database product obtained directly from a third party vendor; and (iv) Ordering Activity is responsible for support and maintenance of any database product obtained from a third party vendor, and SAP has no responsibility in this regard.

3.4 Standalone Use for Third Party Databases.

If an Order Form referencing these Use Terms includes a Standalone Use restriction, then the following terms shall apply:

3.4.1 The Packages licensed pursuant to an Order Form referencing these Use Terms may require a database product. Respective to Packages: (i) neither the Order Form nor this Attachment A contain a license to use any database product, even where integrated or pre-installed as part of such Software and/or third party software; (ii) each database product is subject to its respective vendor license agreement; (iii) SAP makes no representations or warranties as to the terms of any license or the operation of any database product obtained directly from a third party vendor; and (iv) Ordering Activity is responsible for support and maintenance of any database product obtained from a third party vendor, and SAP has no responsibility in this regard.

3.5 Pass-Through Terms.

Use of third party database products and address directories may be subject to additional terms and conditions required by SAP's suppliers. Such additional terms and conditions are set forth in Exhibit 4, "Pass-Through Terms for Third Party Databases" and Exhibit 5 "Pass-Through Terms for Address Directories," respectively.

3.6 Open Source Software.

Applicable specific conditions related to certain open source products made available by SAP are part of the applicable product documentation and/or delivered with the Software as a "README" file and apply to Ordering Activity's use of any such open source products. The definition of open source can be found under www.opensource.org/.

3.7 SAP Best Practices.

Software Packages may be delivered with settings and master data that have been pre-configured to address the requirements of a specific industry sector or country (SAP Best Practices). SAP Best Practices are not licensed for use on productive systems.

3.8 SAP Tools.

The Software, particularly the ABAP Workbench and SAP NetWeaver, contains software tools. Ordering Activity may only use these tools to program Modifications or to create Add-ons to the SAP software in accordance with this Attachment A. The tools may not be transferred, either in whole or in part, into modified or created software.

3.9 Function Modules.

The Software may contain function modules, which are stored in a function library. Some of these function modules carry a release indicator for transfer into modified or newly created software. Only these function modules may be transferred by the Ordering Activity into Modifications or Add-ons to the software. The function modules may not be modified or decompiled unless otherwise permitted under this Attachment.

Exhibit 1 - Legacy SBOP and SBOP Software

Legacy SBOP

Business Intelligence
SAP BusinessObjects BI Starter Package
SAP BusinessObjects BI Package (CPU)

SAP BusinessObjects BI Package (user)

SBOP

Business Intelligence	Use Rights that do not require a named user license
BA&T SAP BusinessObjects BI Suite (user)	Access platform services; customize, personalize dashboards, BI widgets, and user profiles; view (i.e., refresh, schedule, export, zoom, sort, search, filter, drill, apply basic formatting) against predefined reports
BA&T SAP BusinessObjects BI Suite (Concurrent Session license ("CS"))	Access platform services; customize, personalize dashboards, BI widgets, and user profiles; view (i.e., refresh, schedule, export, zoom, sort, search, filter, drill, apply basic formatting) against predefined reports
BA&T SAP BusinessObjects Business Intelligence Platform (user)	Access platform services and view environment.
BA&T SAP BusinessObjects Business Intelligence Platform (CS)	Access platform services and view environment.
BA&T SAP BusinessObjects Business Intelligence Platform Mobile add-on (user)	View (i.e., refresh and interact) Mobile-enabled content
BA&T SAP BusinessObjects Business Intelligence Platform Mobile add-on (CS)	View (i.e., refresh and interact) Mobile-enabled content
BA&T SAP Crystal Reports (user)	View (i.e., refresh and schedule) reports
BA&T SAP Crystal Reports (CS)	View (i.e., refresh and schedule) reports
BA&T SAP BusinessObjects Web Intelligence (user)	View (i.e., refresh, schedule, export, zoom, sort, search, filter, drill, apply basic formatting) a predefined report
BA&T SAP BusinessObjects Web Intelligence (CS)	View (i.e., refresh, schedule, export, zoom, sort, search, filter, drill, apply basic formatting) a predefined report
BA&T SAP BusinessObjects Analysis edition for OLAP (user)	View (i.e., refresh and interact) documents
BA&T SAP BusinessObjects Analysis edition for OLAP (CS)	View (i.e., refresh and interact) documents
BA&T SAP BusinessObjects Analysis edition for Office (user)	View (i.e., refresh and interact) documents
BA&T SAP BusinessObjects Analysis edition for Office (CS)	View (i.e., refresh and interact) documents
BA&T SAP BusinessObjects Dashboard (user)	View (i.e., refresh and interact) dashboard models
BA&T SAP BusinessObjects Dashboard (CS)	View (i.e., refresh and interact) dashboard models
BA&T SAP BusinessObjects Explorer (user)	View (i.e., search, view and navigate) data sets
BA&T SAP BusinessObjects Explorer (CS)	View (i.e., search, view and navigate) data sets
BA&T SAP BusinessObjects Explorer accelerated package (user)	View (i.e., search, view and navigate) data sets
BA&T SAP BusinessObjects Explorer accelerated package (CS)	View (i.e., search, view and navigate) data sets
BA&T SAP BusinessObjects Integration, version for ESRI GIS software by APOS (CS)	View data from business applications in a report, analysis or dashboard (indirect access)
BA&T SAP BusinessObjects Integration, version for ESRI GIS software by APOS (User)	View data from business applications in a report, analysis or dashboard (indirect access)
BA&T SAP BusinessObjects Predictive Workbench by IBM	Access platform services; customize, personalize dashboards, BI widgets, and user profiles; view (i.e., refresh, schedule, export, zoom, sort, search, filter, drill, apply basic formatting) against predefined reports
Enterprise Information Management	
SAP BusinessObjects Operational enterprise information mgmt package	View and drill down on information, read-only access to the application.
SAP BusinessObjects Analytical enterprise information mgmt package	View and drill down on information, read-only access to the application.
BA&T SAP BusinessObjects Data Services	View and drill down on information, read-only access to the application.
BA&T SAP BusinessObjects Information Steward	View and drill down on reports, read-only access to the application.
BA&T SAP BusinessObjects Information Steward Multi-Source Integrators by MITI Add-on	View and drill down on reports, read-only access to the application.
BA&T SAP BusinessObjects Event Insight	View and drill down on reports, read-only access to the application.
BA&T SAP BusinessObjects Data Federator	View and drill down on reports, read-only access to the application.

BA&T SAP BusinessObjects Data Integrator (DI)	View and drill down on reports, read-only access to the application.
BA&T SAP BusinessObjects Data Quality Management (DQM)	View and drill down on reports, read-only access to the application.
BA&T SAP BusinessObjects DQM, version for SAP Solutions	View and drill down on reports, read-only access to the application.
BA&T SAP BusinessObjects Data Quality Management SDK	View and drill down on reports, read-only access to the application.
GRC	
BA&T SAP BusinessObjects Access Control	Managers, executives and auditors who receive alerts, access reports and dashboards. End users who submit access requests or self-services. Access request approvers, certification reviews and remediation actions.
BA&T SAP BusinessObjects Process Control	Users who view reports & analytics. Such as control testing results, state of 'compliance health' of the organization reports, control –risk coverage reports, or reports on state of control testing for a process or organization.
BA&T SAP BusinessObjects Risk Management	Users designated or acting as a risk owner to review and test assumptions and make adjustments, user who utilize the system for reports or supporting audits
BA&T SAP BusinessObjects GTS, Export	View and drill down on reports, read-only access to the application.
BA&T SAP BusinessObjects GTS, Import	View and drill down on reports, read-only access to the application.
BA&T SAP BusinessObjects GTS, Restitution	View and drill down on reports, read-only access to the application.
BA&T SAP BusinessObjects GTS, Trade Preferences	View and drill down on reports, read-only access to the application.
BA&T SAP BusinessObjects GTS, Bundle	View and drill down on reports, read-only access to the application.
BA&T SAP BusinessObjects Goods Movement with EMCS	View and drill down on reports, read-only access to the application.
BA&T SAP BusinessObjects GTS, Sanction Party List Service	View and drill down on reports, read-only access to the application.
BA&T SAP Electronic Customs Processing for AES (Automated Export System)	View and drill down on reports, read-only access to the application.
BA&T SAP BusinessObjects Electronic Invoicing for Brazil (NFE - Inbound)	View and drill down on reports, read-only access to the application.
BA&T SAP BusinessObjects Electronic Invoicing for Brazil (NFE - Outbound)	View and drill down on reports, read-only access to the application.
BA&T SAP BusinessObjects Sustainability Performance Management	View and drill down on reports, read-only access to the application other than users involved in the data-gathering process who respond to approval requests, enter sustainability-related data manually, and respond to surveys/workflows received. Maps to pre-configured roles of approver, business contributor and analyst
EPM	
BA&T SAP BusinessObjects Planning & Consolidation, version for the Microsoft Platform (BPC)	View and drill down on reports, read-only access to the application.
BA&T SAP BusinessObjects Planning & Consolidation, version for SAP NetWeaver (BPC)	View and drill down on reports, read-only access to the application.
BA&T SAP BusinessObjects Planning, version for the Microsoft Platform	View and drill down on reports, read-only access to the application.
BA&T SAP BusinessObjects Planning, version for SAP NetWeaver	View and drill down on reports, read-only access to the application.
BA&T SAP BusinessObjects Consolidation, version for the Microsoft Platform	View and drill down on reports, read-only access to the application.
BA&T SAP BusinessObjects Consolidation, version for SAP NetWeaver	View and drill down on reports, read-only access to the application.
BA&T SAP BusinessObjects Planning & Consolidation, SAP NetWeaver Platform Access Component	Not Applicable
BA&T SAP BusinessObjects Planning & Consolidation, Microsoft Platform Access Component	Not Applicable
BA&T SAP BusinessObjects Strategy Management	View and drill down on reports, read-only access to the application.
BA&T SAP BusinessObjects Spend Performance Management	View and drill down on reports, read-only access to the application.
BA&T SAP BusinessObjects Financial Information Management (FIM)	View and drill down on reports, read-only access to the application.
BA&T SAP BusinessObjects Intercompany	View and drill down on reports, read-only access to the application.

BA&T SAP BusinessObjects Financial Consolidation	View and drill down on reports, read-only access to the application.
BA&T SAP BusinessObjects Profitability and Cost Management	View Profitability and Cost Management data via MDX connector
BA&T SAP BusinessObjects Supply Chain Performance Management (SCPM)	View and drill down on reports, read-only access to the application.
BA&T SAP BusinessObjects Disclosure Management	View and drill down on reports, read-only access to the application.
BA&T SAP BusinessObjects Notes Management	View and drill down on reports, read-only access to the application.
Mid Market solutions for Business Intelligence	
BA&T SAP BusinessObjects Edge BI, standard package (user)	View (i.e. refresh, schedule, export, zoom, sort, search, filter, drill, apply basic formatting) against a predefined report.
BA&T SAP BusinessObjects Edge BI, version with data integration (user)	View (i.e. refresh, schedule, export, zoom, sort, search, filter, drill, apply basic formatting) against a predefined report.
BA&T SAP BusinessObjects Edge BI, version with data management (user)	View (i.e., refresh, schedule, export, zoom, sort, search, filter, drill, apply basic formatting) against a predefined report.
BA&T SAP BusinessObjects Edge BI, standard package (CS)	View (i.e., refresh, schedule, export, zoom, sort, search, filter, drill, apply basic formatting) against a predefined report.
BA&T SAP BusinessObjects Edge BI, version with data integration (CS)	View (i.e., refresh, schedule, export, zoom, sort, search, filter, drill, apply basic formatting) against a predefined report.
BA&T SAP BusinessObjects Edge BI, version with data management (CS)	View (i.e., refresh, schedule, export, zoom, sort, search, filter, drill, apply basic formatting) against a predefined report.
BA&T SAP BusinessObjects Edge BI, standard package NUL add-on	View (i.e., refresh, schedule, export, zoom, sort, search, filter, drill, apply basic formatting) against a predefined report.
BA&T SAP BusinessObjects Edge BI, version with data integration NUL add-on	View (i.e., refresh, schedule, export, zoom, sort, search, filter, drill, apply basic formatting) against a predefined report.
BA&T SAP BusinessObjects Edge BI, version with data management NUL add-on	View (i.e., refresh, schedule, export, zoom, sort, search, filter, drill, apply basic formatting) against a predefined report.
BA&T SAP BusinessObjects Edge BI Publishing Add-On	View (i.e., refresh, schedule, export, zoom, sort, search, filter, drill, apply basic formatting) against a predefined report.

Exhibit 2 - Named User Metrics and Package Metrics

Metrics Used with Named Users

SAP Application Developer User is a Named User authorized to access the development tools provided with the licensed Software for the purpose of making Modifications and/or Add-ons to the licensed Software and also includes the rights granted under the SAP NetWeaver Developer User and SAP Application Employee User.

SAP Application Business Expert User is a Named User authorized to perform all roles supported by SBOP (excluding the right to make Modifications and/or Add-ons to SBOP) and also includes the rights granted under the SAP Application Professional User.

SAP Application Professional User is a Named User authorized to perform operational related and system administration / management roles supported by the licensed Software (excluding SBOP) and also includes the rights granted under the SAP Application Limited Professional User.

SAP Application Limited Professional User is a Named User authorized to perform limited operational roles supported by the licensed Software (excluding SBOP) and also includes the rights granted under the SAP Application Business Information User. The license agreement has to define in detail the limited use rights being performed by such Limited Professional User.

SAP Application Business Information User is a Named User authorized to Use (excluding the right to modify and/or customize) standard and interactive reports delivered with licensed Legacy SBOP, and reports created through Use of licensed Legacy SBOP by appropriately licensed Named Users, solely for such individual's own purposes and not for or on behalf of other individuals. Each SAP Application Business Information User also includes the rights granted under the SAP Application Employee User.

SAP Application Employee User is a Named User authorized to perform the following roles supported by the licensed Software (excluding SBOP), all solely for such individual's own purpose and not for or on behalf of other individuals: (i) Use (excluding the right to modify and/or customize) standard and interactive reports delivered with the licensed Software, (ii) travel planning / expense reporting self-services, (iii) perform procurement self-services, and (iv) room reservation self-services. Each SAP Application Employee User also includes the rights granted under the SAP E-Recruiting User, SAP Learning User and the SAP Application ESS User.

SAP Application Employee Self-Service User is a Named User authorized to perform the HR self-services role of employee time and attendance entry supported by the licensed Software (excluding SBOP), all solely for such individual's own purpose and not for or on behalf of other individuals. Each SAP Application ESS User also includes the rights granted under the SAP Application Employee Self-Service Core User and the SAP Human Capital Performance Management User.

SAP Application Employee Self-Service Core User is a Named User authorized to perform the following HR self-services roles supported by the licensed Software (excluding SBOP), all solely for such individual's own purpose and not for or on behalf of other individuals: (i) employee records maintenance, (ii) employee directory, and (iii) benefits and payment services. Further, an ESS Core User is also authorized to access "Non-SAP Content" that resides on Ordering Activity's "SAP Portal", so long as accessing such Non-SAP Content does not require or result in any Use of the licensed Software (beyond access to such Non-SAP Content as it resides on Ordering Activity's SAP Portal). As used in this ESS Core User definition, (i) "Non-SAP Content" means information created through no Use of the licensed Software and (ii) "SAP

Portal” means any portal created by Ordering Activity Using SAP Enterprise Portal Software (as provided with the licensed SAP NetWeaver Software) which provides appropriately licensed Named Users a common access point by which to Use licensed SAP Software.

SAP Application HANA Administrator User is a Named User authorized to perform all roles supported by licensed HANA Software (excluding the right to make Modifications and/or Add-ons) where Used solely in conjunction with Non-SAP Applications, and includes the rights granted under the SAP HANA Application Viewer User.

SAP Application Standalone HANA Administrator User is a Named User authorized to perform all roles supported by HANA Software licensed for Standalone Use (excluding the right to make Modifications and/or Add-ons) where used solely in conjunction with specific application(s) that are licensed SAP Proprietary Information (also contractually restricted for Standalone Use) and that do not otherwise by themselves require an SAP Named User license and/or Non-SAP Applications used solely in a Standalone Use manner subject to the contractual Standalone Use restriction, and includes the rights granted under the SAP HANA Standalone Viewer User.

SAP Application HANA Viewer User is a Named User authorized to Use the licensed HANA Software to enable report reading and viewing functions solely in conjunction with Non-SAP Applications.

SAP Application Standalone HANA Viewer User is a Named User authorized to Use the HANA Software licensed for Standalone Use to enable report reading and viewing functions solely in conjunction with application(s) that are licensed Software or Third Party Software (also contractually restricted for Standalone Use) and that do not otherwise by themselves require an SAP Named User license and/or Non-SAP Applications used solely in a Standalone Use manner (subject to the contractual Standalone Use restriction).

SAP Application HANA Administrator Upgrade User is a Named User authorized to perform all roles supported by licensed HANA Software (excluding the right to make Modifications and/or Add-ons) where Used solely in conjunction with Non-SAP Applications provided such Named User is also an individual licensed from SAP as an SAP Application HANA Viewer User and both such Users are licensed for the same runtime database, if any. If receiving support under the license agreement, Ordering Activity must be subscribed to and fully paid on support for both this User and the underlying SAP Application HANA Viewer User for so long as Ordering Activity continues to receive support under the license agreement.

SAP Application Standalone HANA Administrator Upgrade User is a Named User authorized to perform all roles supported by HANA Software licensed for Standalone Use (excluding the right to make Modifications and/or Add-ons) where used solely in conjunction with specific application(s) that are licensed Software or Third Party Software (also contractually restricted for Standalone Use) and that do not otherwise by themselves require an SAP Named User license and/or Non-SAP Applications used solely in a Standalone Use manner subject to the contractual Standalone Use restriction provided such Named User is also an individual licensed from SAP as an SAP Application Standalone HANA Viewer User and both such Users are licensed for the same runtime database, if any. If receiving support under the license agreement, Ordering Activity must be subscribed to and fully paid on support for both this User and the underlying SAP Application Standalone HANA Viewer User for so long as Ordering Activity continues to receive support under the license agreement.

SAP Application Business Expert Upgrade User is a Named User authorized to perform all roles supported by SBOP (excluding the right to make Modifications and/or Add-ons to SBOP) provided such Named User is also an individual licensed from SAP as an SAP Application Professional User and both such Users are licensed for the same runtime database, if any. If receiving support under the license agreement, Ordering Activity must be subscribed to and fully paid on support for both this User and the underlying SAP Application Professional User for so long as Ordering Activity continues to receive support under the license agreement.

SAP Application Business Analytics Professional User is a Named User authorized to perform all roles supported by SBOP (excluding the right to make Modifications and/or Add-ons to SBOP) and includes the rights granted under the SAP Application BI Limited User. For purposes of clarification, an SAP Application Business Analytics Professional User may extract data from any data source into SBOP and/or push data out of SBOP into any data source provided Ordering Activity has secured an appropriate license for all such data source(s) (albeit an additional SAP Named User license will not be required solely for the one-way extraction of data into SBOP where the data source is non-SBOP Software and/or third party software licensed from SAP).

SAP Application Business Analytics Professional Upgrade User is a Named User authorized to perform all roles supported by SBOP (excluding the right to make Modifications and/or Add-ons to SBOP) provided such Named User is also an individual licensed from SAP as an SAP Application BI Limited User and both such Users are licensed for the same runtime database, if any. If receiving support under the license agreement, Ordering Activity must be subscribed to and fully paid on support for both this User and the underlying SAP Application BI Limited User for so long as Ordering Activity continues to receive support under the license agreement. For purposes of clarification, an SAP Application Business Analytics Professional Upgrade User may extract data from any data source into SBOP and/or push data out of SBOP into any data source provided Ordering Activity has secured an appropriate license for all such data source(s) and such Use is otherwise in accord with the terms of this Attachment (albeit an additional SAP Named User license will not be required solely for the one-way extraction of data into SBOP where the data source is non-SBOP Software and/or Third Party Software licensed from SAP).

SAP Application BI Limited User is a Named User who is solely authorized to Use one (1) of the following SBOP components, subject to each SBOP component being licensed: (i) Mobile Designer, (ii) Crystal Reports Designer, (iii) WEB Intelligence Designer, (iv) Explorer Designer, (v) Dashboard Designer, (vi) SAP BusinessObjects Analysis software edition for OLAP, or (vii) SAP BusinessObjects Analysis software edition for Microsoft Office. For purposes of clarification, an SAP Application BI Limited User may extract data from any data source into one (1) of the stated SBOP components (where licensed) and/or push data out of one (1) of the stated SBOP components (where licensed) into any data source provided Ordering Activity has secured an appropriate license for all such data source(s) (albeit an additional SAP Named User license will not be required solely for the one-way extraction of data into one (1) of the stated SBOP components where the data source is non-SBOP Software and/or Third Party Software licensed from SAP).

SAP Application Standalone Business Analytics Professional User is a Named User authorized to perform all roles supported by SBOP (excluding the right to make Modifications and/or Add-ons to SBOP) licensed for Standalone Use and also includes the rights granted under the SAP Application Standalone BI Limited User.

SAP Application Standalone BI Limited User is a Named User who is solely authorized to Use one (1) of the following SBOP components, subject to each SBOP component being licensed for Standalone Use: (i) Mobile Designer, (ii) Crystal Reports Designer, (iii) WEB Intelligence Designer, (iv) Explorer Designer, (v) Dashboard Designer, (vi) SAP BusinessObjects Analysis software edition for OLAP, or (vii) SAP BusinessObjects Analysis software edition for Microsoft Office. The SAP Application Standalone BI Limited User also includes the rights granted under the SAP Application Business Information Viewer User.

SAP Application Business Information Viewer User is a Named User authorized to Use (excluding the right to modify and/or customize) standard and interactive reports delivered with licensed Legacy SBOP, and reports created through Use of licensed Legacy SBOP by appropriately licensed Named Users, solely for such individual's own purposes and not for or on behalf of other individuals.

SAP Learning User is a Named User who is authorized to access solely the following learning solutions on SAP's price list, provided that those learning solutions are licensed. A SAP Learning User is not entitled to access other SAP solutions or solution components. The applicable learning solutions offered by SAP comprise the following:

7002075 SAP Learning Solution
 7003485 SAP Enterprise Learning Environment
 7009559 SAP Acrobat Connect Professional Learning by Adobe
 7009558 SAP Acrobat Connect Professional Meeting by Adobe
 7009560 SAP Productivity Pak by RWD - excl. North America
 7009561 SAP Productivity Pak Help Launch Pad by RWD - excl. North America
 7009562 SAP Productivity Composer by RWD - excl. North America
 7009563 SAP Productivity Composer Help Launch Pad by RWD - excl. North America
 7009639 SAP Productivity Pak by RWD - North America only
 7009640 SAP Productivity Pak Help Launch Pad by RWD - North America only
 7009641 SAP Productivity Composer by RWD - North America only
 7009642 SAP Productivity Composer Help Launch Pad by RWD - North America only

SAP E-Recruiting User is a Named User authorized to access the E-Recruiting engine only. E-Recruiting Users are not entitled to access other SAP solutions or solution components.

SAP Human Capital Performance Management User is a Named User authorized to access the licensed Software (excluding SBOP), all solely for such individual's own purpose and not for or on behalf of other individuals to maintain: (i) employee appraisals, (ii) talent and skill profiles, and (iii) profile match up.

SAP Manager Self-Service User is a Named User authorized to perform one or more of the following manager self-services related roles supported by the licensed Software (excluding SBOP): (i) request administrative changes using processes and forms contained within HCM, (ii) create requisition requests and candidate assessments, (iii) perform talent assessments and appraisals, (iv) plan and approve compensation, (v) obtain an budget overviews, (vi) organize project management tasks, (vii) perform planning tasks, (viii) approve travel requests and expenses, and (ix) perform workflow tasks. SAP Manager Self-Service User also includes the rights granted under the SAP Application Employee User.

SAP Banking User is a Named User solely authorized to access the specified industry packages for banks. Banking Users are not entitled to access other SAP solutions or solution components.

SAP Retail Store User is a Named User working in Ordering Activity's retail store as an associate who is solely authorized to perform non-managerial retail store / point-of-sale related roles supported by the licensed Software (excluding SBOP) and also includes the rights granted under the SAP Application Employee User.

SAP Logistics User is a Named User solely authorized to perform following tasks for the applicable licensed Supply Chain Execution Software:

- Transportation Management: Looking up a freight contract, tracking a certain shipment and similar activities, update master data (rates, lanes, locations), Transportation request entry, transportation planning on, responding to RFP (request for proposal) for tendering, Event Management (EM) confirmation, charge calculation verification and similar activities.
- Warehouse Management: Confirm goods receipts and putaway, goods issues and picking and stock movements including replenishment, and production staging and enter physical inventory counts.
- Product and Item Traceability: Viewing a serialized and/or any tracked object on ad hoc basis, such as querying its current or past location or ascertaining product genealogy. User accessing product traceability solutions on an ad hoc basis to report goods movement or view traceability reports.

For Ordering Activity employees, the SAP Logistics User also includes the rights granted under the SAP Application Employee User.

SAP Shop Floor User is a Named User working in Ordering Activity's production facilities who is solely authorized to perform one or more of the following roles supported by the licensed Software: (i) display work instructions, and document activities and operations, (ii) confirm goods receipts, goods issues and stock movements, (iii) enter production order confirmations, (iv) record product or production information, e.g. quality inspection results or plant/process/equipment data, (v) enter production issues and related service requests, and (vi) reporting or dashboarding related to items (i)-(v). SAP Shop Floor also includes the rights granted under the SAP Application Employee User.

SAP Maintenance Worker User is a Named User who is a maintenance worker solely authorized to perform one or more of the following roles supported by the licensed Software (excluding SBOP): (i) confirm maintenance notifications, (ii) enter time confirmations, goods issues, stock movements and completion confirmations into maintenance work orders, (iii) enter service requests and service request entry sheets, and (iv) any maintenance activities related to items (i) – (iii). SAP Maintenance Worker User also includes the rights granted under the SAP Application Employee User.

SAP Engineering User is a Named User that is authorized to access the following data and objects solely via the Access Control Component (ACC) of the licensed SAP Collaborative Product Development Package, excluding in all cases access to any data or objects by or through SBOP portfolio products:

- (i) Engineering-Bill-of-Material and Product Structure Management data;
- (ii) Design Documents related to data under (i) in Document Management System (DMS);
- (iii) the Business Context Viewer; and
- (iv) 3D visualization content.

In the case of individuals who are employees of Ordering Activity, the SAP Engineering User also includes the rights granted under the SAP Application Employee User.

SAP Procurement Self-Service and Collaborator User is a Named User who is authorized to perform the following self-service roles supported by the licensed Software (excluding SBOP), all solely for such individual's own purpose and not for or on behalf of other individuals to: (i) create shopping carts or requisitions, check, receive or collaborate items in a requisition, (ii) request sourcing or contracting support, review and/or approve items for sourcing or contracting other than as a personnel manager, participate in RFX scoring, provide supplier feedback, view reports or search system content, and (iii) upload compliance information or recipe component information. Each SAP Procurement Self-Service User also includes the rights granted under the SAP Application ESS User.

SAP Partner Channel User is a Named User who is an employee of Business Partners who is solely authorized to perform one or more of the following channel management functionalities contained within the licensed Software (excluding SBOP): (i) Channel Marketing, (ii) Channel Sales, (iii) Partner Order Management, (iv) Channel Service, (v) Partner & Channel Analytics, and (vi) Partner Management.

SAP Solution Extension Limited User is a Named User solely authorized to Use one (1) Third Party Solution licensed by SAP. SAP Solution Extension Limited Users are not entitled to access other SAP solutions, solution components, or data stored in such solutions. SAP Solution Extension Limited User can only be licensed to access the following product: "SAP extended ECM by Open Text", SAP Digital Asset Management by Open Text and "SAP Intelligence Analysis for Public Sector by Palantir" and SAP Application Visualization by iRise (including the add-on for SRM, add-on for general SAP solutions).

SAP CRM User is a Named User only authorized to Use (excluding the right to make Modifications and/or Add-ons) CRM Software licensed under this Attachment A (if any, the "Licensed CRM Software"). An SAP CRM User may extract data from any data source into any Licensed CRM Software and/or push data out of any Licensed CRM Software into any data source provided Ordering Activity has secured an appropriate license for all such data source(s) and such Use is otherwise in accord with the terms of this Attachment A. An additional SAP Named User License will not be required solely for the one-way extraction of data into Licensed CRM Software where the data source is Software (other than Licensed CRM Software) and/or third party software licensed under this Attachment A.

SAP CRM Rapid Deployment Edition User is a Named User solely authorized to (i) access the SAP CRM Rapid Deployment Edition and (ii) perform SAP ERP order-status checks through SAP CRM. Access to other SAP software requires a SAP Application Business Expert User, a SAP Application Professional User or a SAP Application Limited Professional User license. The rights granted to a SAP CRM Rapid Deployment Edition User are included in the existing SAP Application Business Expert User, SAP Application Professional User and SAP Application Limited Professional User. The SAP CRM Rapid Deployment Edition User also includes the rights granted under the SAP Application Employee User.

SMB Professional User on SAP Business Suite is a Named User authorized to access the same functional scope as in 2005. The exact functional scope can be obtained from the Additional Terms & Conditions Document for SAP Resellers. The license of this user is reserved to already existing SMB Professional User customers.

SAP NetWeaver Gateway User is a Named User who is authorized to Use licensed Software from the SAP Business Suite portfolio solely through a separate application that indirectly accesses the licensed Software via SAP NetWeaver Gateway. Service calls through SAP NetWeaver Gateway may use stateless protocols only. A stateless protocol is one that treats each request for information as an independent transaction that is unrelated to any previous request so that the communication consists of independent pairs of requests and responses.

SAP Platform Advanced User is a Named User who is authorized to Use licensed Software solely through a separate application: A) that (i) adds any new, independent functional components for business processes not contained by the SAP Software, (ii) is developed using a licensed SAP technology, and (iii) connects to and/or communicates through published SAP application program interfaces; and B) which shall in no case (i) enable the bypassing or circumventing of any of the restrictions set forth in this Attachment A, (ii) provide Ordering Activity with access to any Software to which Ordering Activity is not licensed, and/or (iii) permit mass data or metadata extraction from SAP Software to non-SAP software for the purpose of creating a new system of record for that data or metadata. The SAP Platform Advanced User also includes the rights granted under the SAP Platform Standard User and SAP Platform Extended User.

SAP Platform Extended User is a Named User who is authorized to Use licensed Software solely through, and to the extent enabled by, one or more applications that (i) have been certified by SAP's Integration and Certification Center as a platform user compliant solution ("PULCS") for SAP Platform Extended Users (a list of then current PULCS applications certified for SAP Platform Extended Users can be found at "https://ecohub.sdn.sap.com/irh/ecohub/pul_compliant" (including any successor site(s) as made known by SAP from time to time, the "PULCS Site")) and (ii) Ordering Activity has first secured all appropriate rights to use such PULCS application(s) from the applicable licensor(s) (i.e. no Software and/or third party software licensed from SAP AG, any SAP AG distributor(s), or any authorized resellers of SAP AG or its distributor(s), shall be considered a PULCS application for purposes of this Named User type, even if such applications are reflected on the PULCS Site).

SAP Platform Standard User is a Named User who is authorized to Use licensed Software solely through, and to the extent enabled by, one or more applications that (i) have been certified by SAP's Integration and Certification Center as a platform user compliant solution ("PULCS") for SAP Platform Standard Users (a list of then current PULCS applications certified for SAP Platform Standard Users can be found at "https://ecohub.sdn.sap.com/irh/ecohub/pul_compliant" (including any successor site(s) as made known by SAP from time to time, the "PULCS Site")) and (ii) Ordering Activity has first secured all appropriate rights to use such PULCS application(s) from the applicable licensor(s) (i.e. no Software and/or third party software licensed from SAP AG, any SAP AG distributor(s), or any authorized resellers of SAP

AG or its distributor(s), shall be considered a PULCS application for purposes of this Named User type, even if such application(s) are reflected on the PULCS Site).

SAP NetWeaver Developer User is a Named User who is authorized (only where the SAP NetWeaver Foundation for Third Party Applications Software is licensed) to access the development tools provided with such Software for the purpose of developing and modifying applications (i) that are not licensed from SAP AG, any SAP AG distributor(s), or any authorized resellers of SAP AG or its distributor(s) and (ii) for which Ordering Activity has first secured all appropriate rights from any applicable licensor(s). The SAP NetWeaver Developer User also includes the rights granted under the SAP NetWeaver Administration User.

SAP NetWeaver Administrator User is a Named User who is authorized (only where the SAP NetWeaver Foundation for Third Party Applications Software is licensed) to access the development tools provided with such Software for the purpose of administering and managing applications (i) that are not licensed from SAP AG, any SAP AG distributor(s), or any authorized resellers of SAP AG or its distributor(s) and (ii) for which Ordering Activity has first secured all appropriate rights from any applicable licensor(s).

SAP Business Suite/ individual SAP solution Developer User is a Named User authorized to access the development tools provided with the licensed Software for the purpose of making Modifications and/or Add-ons to the licensed Software and also includes the rights granted under the SAP NetWeaver Developer User and SAP Business Suite Employee User.

SAP Business Suite / individual SAP solution Business Expert User is a Named User authorized to perform all roles supported by SBOP (excluding the right to make Modifications and/or Add-ons to SBOP) and also includes the rights granted under the SAP Business Suite Professional User

SAP Business Suite / individual SAP solution Professional User is a Named User authorized to perform operational related and system administration / management roles supported by the licensed Software (excluding SBOP) and also includes the rights granted under the SAP Business Suite/ individual SAP solution Limited Professional User.

SAP Business Suite / individual SAP solution Limited Professional User is a Named User authorized to perform limited operational roles supported by the licensed Software (excluding SBOP) and also includes the rights granted under the SAP Business Suite Business Information User. The license agreement has to define in detail the limited use rights being performed by such Limited Professional User.

SAP Business Suite / individual SAP solution Business Information User is a Named User authorized to Use (excluding the right to modify and/or customize) standard and interactive reports delivered with the licensed Software, and reports created through Use of the licensed Software by appropriately licensed Named Users, solely for such individual's own purposes and not for or on behalf of other individuals. Each SAP Business Suite Business Information User also includes the rights granted under the SAP Business Suite Employee User.

SAP Business Suite / individual SAP solution Employee User is a Named User authorized to perform the following roles supported by the licensed Software (excluding SBOP), all solely for such individual's own purpose and not for or on behalf of other individuals: (i) Use (excluding the right to modify and/or customize) standard and interactive reports delivered with the licensed Software, (ii) travel planning / expense reporting self-services, (iii) perform desktop procurement self-services, and (iv) room reservation self-services. Each SAP Business Suite Employee User also includes the rights granted under the SAP E-Recruiting User, SAP Learning User and the SAP Business Suite ESS User

SAP Business Suite / individual SAP solution Employee Self-Service User is a Named User authorized to perform the HR self-services role of employee time and attendance entry supported by the licensed Software (excluding SBOP), all solely for such individual's own purpose and not for or on behalf of other individuals. Each SAP Business Suite ESS User also includes the rights granted under the SAP Business Suite Employee Self-Service Core User and the SAP Human Capital Performance Management User.

SAP Business Suite / individual SAP solution Employee Self-Service Core User is a Named User authorized to perform the following HR self-services roles supported by the licensed Legacy SBOP (excluding SBOP), all solely for such individual's own purpose and not for or on behalf of other individuals: (i) employee records maintenance, (ii) employee directory, and (iii) benefits and payment services. Further, an ESS Core User is also authorized to access "Non-SAP Content" that resides on Ordering Activity's "SAP Portal", so long as accessing such Non-SAP Content does not require or result in any Use of the licensed Software (beyond access to such Non-SAP Content as it resides on Ordering Activity's SAP Portal). As used in this ESS Core User definition, (i) "Non-SAP Content" means information created through no Use of the licensed Software and (ii) "SAP Portal" means any portal created by Ordering Activity Using SAP Enterprise Portal Software (as provided with the licensed SAP NetWeaver Software) which provides appropriately licensed Named Users a common access point by which to Use licensed SAP Software.

SAP Business Suite Business Expert Upgrade User is a Named User authorized to perform all roles supported by SBOP (excluding the right to make Modifications and/or Add-ons to SBOP) provided such Named User is also an individual licensed from SAP as a SAP Business Suite Professional User and both such Users are licensed for the same runtime database, if any. If receiving support under the license agreement, Ordering Activity must be subscribed to and fully paid on support for both this User and the underlying SAP Business Suite Professional User for so long as Ordering Activity continues to receive support under the license agreement.

SAP Business Suite B2B Sales User is a Named User who is an employee of Business Partners who is solely authorized to perform one or more of the following order management related roles supported by the licensed Software: (i) check product availability, (ii) configure an order, (iii) place an order, (iv) check order status, and (v) order management activities related to items (i) – (iv).

SAP ERP Business Expert Upgrade User is a Named User authorized to perform all roles supported by SBOP (excluding the right to make Modifications and/or Add-ons to SBOP) provided such Named User is also an individual licensed from SAP as an SAP ERP Professional User and both such Users are licensed for the same runtime database, if any. If receiving support under the license agreement, Ordering Activity must be subscribed to and fully paid on support for both this User and the underlying SAP ERP Professional User for so long as Ordering Activity continues to receive support under the license agreement.

SAP Application Professional Upgrade User is a Named User authorized to perform operational related and system administration / management roles supported by the licensed Software (excluding SBOP) provided such Named User is also an individual licensed from SAP as an SAP Application Limited Professional User and both such Users are licensed for the same runtime database, if any. If receiving support under the license agreement, Ordering Activity must be subscribed to and fully paid on support for both this User and the underlying SAP Application Limited Professional User for so long as Ordering Activity continues to receive support under the license agreement.

SAP Application Limited Professional Upgrade User is a Named User authorized to perform limited operational roles supported by the licensed Software (excluding SBOP) provided such Named User is also an individual licensed from SAP as an SAP Application Business Information User and both such Users are licensed for the same runtime database, if any. If receiving support under the license agreement, Ordering Activity must be subscribed to and fully paid on support for both this User and the underlying SAP Application Business Information User for so long as Ordering Activity continues to receive support under the license agreement.

SAP Application Business Information Upgrade User is a Named User authorized to Use (excluding the right to modify and/or customize) standard and interactive reports delivered with the licensed Legacy SBOP, and reports created through Use of the licensed Legacy SBOP by appropriately licensed Named Users, solely for such individual's own purposes and not for or on behalf of other individuals provided such Named User is also an individual licensed from SAP as an SAP Application Employee User and both such Users are licensed for the same runtime database, if any. If receiving support under the license agreement, Ordering Activity must be subscribed to and fully paid on support for both this User and the underlying SAP Application Employee User for so long as Ordering Activity continues to receive support under the license agreement.

SAP Application Employee Upgrade User is a Named User authorized to perform the following roles supported by the licensed Software (excluding SBOP), all solely for such individual's own purpose and not for or on behalf of other individuals: (i) Use (excluding the right to modify and/or customize) standard and interactive reports delivered with the licensed Software, (ii) perform talent management self-services (including employee appraisals, employee development plans, employee training registration, and employee opportunity inquiry and response), (iii) travel planning / expense reporting self-services, (iv) perform procurement self-services, and (v) room reservation self-services provided such Named User is also an individual licensed from SAP as an SAP Application Employee Self Service (ESS) User and both such Users are licensed for the same runtime database, if any. If receiving support under the license agreement, Ordering Activity must be subscribed to and fully paid on support for both this User and the underlying SAP Application Employee Self Service (ESS) User for so long as Ordering Activity continues to receive support under the license agreement.

SAP Business Suite Professional Upgrade User is a Named User authorized to perform operational related and system administration / management roles supported by the licensed Software (excluding SBOP) provided such Named User is also an individual licensed from SAP as a SAP Business Suite Limited Professional User and both such Users are licensed for the same runtime database, if any. If receiving support under the license agreement, Ordering Activity must be subscribed to and fully paid on support for both this User and the underlying SAP Business Suite Limited Professional User for so long as Ordering Activity continues to receive support under the license agreement.

SAP Business Suite Limited Professional Upgrade User is a Named User authorized to perform limited operational roles supported by the licensed Software (excluding SBOP) provided such Named User is also an individual licensed from SAP as a SAP Business Suite Business Information User and both such Users are licensed for the same runtime database, if any. If receiving support under the license agreement, Ordering Activity must be subscribed to and fully paid on support for both this User and the underlying SAP Business Suite Information User for so long as Ordering Activity continues to receive support under the license agreement.

SAP Business Suite Business Information Upgrade User is a Named User authorized to Use (excluding the right to modify and/or customize) standard and interactive reports delivered with the licensed Software, and reports created through Use of the licensed Software by appropriately licensed Named Users, solely for such individual's own purposes and not for or on behalf of other individuals provided such Named User is also an individual licensed from SAP as a SAP Business Suite Employee User and both such Users are licensed for the same runtime database, if any. If receiving support under the license agreement, Ordering Activity must be subscribed to and fully paid on support for both this User and the underlying SAP Business Suite Employee User for so long as Ordering Activity continues to receive support under the license agreement.

SAP Business Suite Employee Upgrade User is a Named User authorized to perform the following roles supported by the licensed Software (excluding SBOP), all solely for such individual's own purpose and not for or on behalf of other individuals: (i) Use (excluding the right to modify and/or customize) standard and interactive reports delivered with the licensed Software, (ii) perform talent management self-services (including employee appraisals, employee development plans, employee training registration, and employee opportunity inquiry and response), (iii) travel planning / expense reporting self-services, (iv) perform procurement self-services, and (v) room reservation self-services provided such Named User is also an individual licensed from SAP as a SAP Business Suite Employee Self Service (ESS) User and both such Users are licensed for the same runtime database, if any. If receiving support under the license agreement, Ordering Activity must be subscribed to and fully paid on support for both this User and the underlying SAP Business Suite Employee Self Service (ESS) User for so long as Ordering Activity continues to receive support under the license agreement.

SAP ERP Professional Upgrade User is a Named User authorized to perform operational related and system administration / management roles supported by the licensed Software (excluding SBOP) provided such Named User is also an individual licensed from SAP as an SAP ERP Limited Professional User and both such Users are licensed for the same runtime database, if any. If receiving support under the license agreement, Ordering Activity must be subscribed to and fully paid on support for both this User and the underlying SAP ERP Limited Professional User for so long as Ordering Activity continues to receive support under the license agreement.

SAP ERP Limited Professional Upgrade User is a Named User authorized to perform limited operational roles supported by the licensed Software (excluding SBOP) provided such Named User is also an individual licensed from SAP as an SAP ERP Business Information User and both such Users are licensed for the same runtime database, if any. If receiving support under the license agreement, Ordering Activity must be subscribed to and fully paid on support for both this User and the underlying SAP ERP Business Information User for so long as Ordering Activity continues to receive support under the license agreement.

SAP ERP Business Information Upgrade User is a Named User authorized to Use (excluding the right to modify and/or customize) standard and interactive reports delivered with the licensed Legacy SBOP, and reports created through Use of the licensed Legacy SBOP by appropriately licensed Named Users, solely for such individual's own purposes and not for or on behalf of other individuals provided such Named User is also an individual licensed from SAP as an SAP ERP Employee User and both such Users are licensed for the same runtime database, if any. If receiving support under the license agreement, Ordering Activity must be subscribed to and fully paid on support for both this User and the underlying SAP ERP Employee User for so long as Ordering Activity continues to receive support under the license agreement.

SAP ERP Employee Upgrade User is a Named User authorized to perform the following roles supported by the licensed Software (excluding SBOP), all solely for such individual's own purpose and not for or on behalf of other individuals: (i) Use (excluding the right to modify and/or customize) standard and interactive reports delivered with the licensed Software, (ii) perform talent management self-services (including employee appraisals, employee development plans, employee training registration, and employee opportunity inquiry and response), (iii) travel planning / expense reporting self-services, (iv) perform desktop procurement self-services, and (v) room reservation self-services provided such Named User is also an individual licensed from SAP as an SAP ERP Employee Self Service (ESS) User and both such Users are licensed for the same runtime database, if any. If receiving support under the license agreement, Ordering Activity must be subscribed to and fully paid on support for both this User and the underlying SAP ERP Employee Self Service (ESS) User for so long as Ordering Activity continues to receive support under the license agreement.

Metrics Mainly Used with Enterprise Extensions

Enterprise Foundation Package comprises SAP ERP and five (5) SAP Application Professional Users.

Orders per Year are defined as the total number of externally created sales and service or purchase orders processed per year. Externally created orders are those orders that are not entered by a SAP Named User.

Master Records represent one contractual relationship between the company and an employee whose payroll is being calculated.

Positions are defined as the positions within an organization, business unit, geographic location, etc. that will potentially be recruited using SAP E-Recruiting. Note that this is not the same as the number of vacancies in any given year. Each position equates to one and only one employee, regardless of whether the position is defined as part-time or full-time. For example, assume a company has 10,000 positions and 4,000 are white collar and 6,000 blue collar. They use SAP E-Recruiting to fill the white collar positions, but some other solution (or paper) to fill the blue collar positions. The SAP E-Recruiting engine price would be based on $4,000/500 = 8$ blocks.

Learner is defined as any individual accessing the application and engaging in any learning services being processed by the application.

Active Customers / Vendors are defined as active business partner master records with financial transactional data within the last 2 years. Business Partner refers to active business partners (including but not limited to customers, vendors master, subsidiaries or headquarters).

Revenue is defined as the annual income that a company receives from its normal business activities and other revenue from interest, dividends, royalties or other sources.

For SAP Account & Trade Promotion Management and SAP Trade Promotion Optimization only the revenue needs to be considered which is associated with the business or division which the capabilities of this package will be applied against.

Operating Budget is defined as total annual public sector budget of SAP customer (i.e. agency, institution, program or department)

Program Budget is defined as the budget for applying the defense organization resources (organic or contracted) to deliver the requisite capability defined by the program delivery mandate and managed in the licensed Software.

Assets under Management are defined as the total assets disclosed in the balance sheet, insofar processed by the SAP Software.

User is defined as the individual directly or indirectly accessing the Software.

For SAP Real Estate Management: User is defined as the individual who manages office, retail and industrial property and similar portfolios. It is applied for both, owned and operated space, and includes commercial as well as corporate real estate management.

For SAP Oil & Gas secondary Distribution: User is defined as the individual accessing one or more SAP Oil & Gas Secondary Distribution transaction codes.

Rental Units are defined as all rental objects that are managed with SAP Real Estate Management.

Parcels of Land are defined as units of land managed by the Software.

Employees are defined as total number of employees (including contract workers) employed by the Ordering Activity.

Commission Recipients are persons who receive payments of any type via SAP Incentive and Commissions Management.

WCM Plant is defined as a physical plant or a network location.

Service Transactions are defined as the total sum per annum of tickets/cases, complaints, incidents, service contracts, warranty claims and service orders per business support functional domain.

Financial Objects are defined as the number of financial objects (sum of Group Account, Operational Account, Cost Element, company, profit center, cost center) stored in the Master Data Governance system.

Hedge Volume refers to the volume of financial assets and/or liabilities for which Hedge accounting of interest rate risk shall be implemented. The larger the volume managed the more Hedge functions will be needed.

Business Partner Objects (MDG) are defined as the numbers of all business partner type objects stored in the Master Data Governance system. This is the sum of all supplier objects, as well as any user defined object of type business partner (Vendor, B2B Customer, B2B Contact, Employee, Business Partner, etc.) A user defined object is created using the Master Data Governance framework. A Business Partner is a natural person within an organization, a group of persons within an organization, or an organization itself that has any kind of a business relationship with a company.

Product and Other Data Objects (MDG) are defined as the numbers of all master data objects stored in the Master Data Governance system that are not of type Financials, or Business Partner. This is the sum of all material objects, as well as any user defined object of type things (Product, Article, Contract, Location, Asset, etc). A user defined object is created using the Master Data Governance framework.

Metrics Mainly Used with Line of Business and Industry Portfolios

Accounts are defined as accounts (checking, savings and trading accounts) or transactions (securities transactions (spot + forward deals) and MM / FX transactions). Accounts in the context of the SAP Capital Yield Tax Management are defined as the number of accounts (e.g. checking, savings and trading accounts) that use the CYT component to calculate taxes or identify tax exemptions.

Active Contracts are defined as an agreement between a utility company and a business partner to provide electricity, gas, water, sewage services or waste / cleaning services to the business partner. Thereby a separate contract has to be set up for each service provided (e. g. a utility company provides a business partner with electricity, water and cleaning services, thus three separate contracts have to be set-up). A contract is active if the contract ending date is later or equal to the system date.

Active Partner Organizations are defined as the number of active partner organizations with which a brand owner is doing business.

Active Registered License Plates are defined as registered vehicle License Plates that received an invoice during the last 12 months.

Ad sales value is defined as the total estimated value of all advertising sales generated in SAP Advertising Sales for Media per year.

Annual Public Sector Budget is defined as the total annual public sector budget of an SAP customer (i.e. agency, institution, program or department).

Annual Revenue and Expenses (for SAP Billing for Telecom or SAP Charging and Billing for High Tech) are defined as the Annual Revenue received and Annual Expenses paid (commissions, royalties, revenue share, etc.) based on pricing and sales events processed through the SAP Billing for Telecom or SAP Charging and Billing for High Tech. Revenue and Expenses are both positive values so that expenses do not net against revenue.

Annual Revenue and Expenses (for SAP Charging and Billing for Banking) are defined as the Annual Revenue received and Annual Expenses paid (commissions, royalties, revenue share, etc.) based on pricing and transactions that are actually processed by SAP Service to Cash for Banking e.g. annual revenue and expenses (commissions, royalties, revenue share etc.). Revenue and Expenses are both positive values for this purpose i.e. Expenses are not netted against Revenue numbers.

Average Processed Transactions/Trips/ per day (over 12 months) is defined as the number of transactions/Trips/Event Detail Records/Billing Items per day passed either into Convergent Invoicing or to Event Detail Records Billing. The number of transactions per day is measured as the average number of transactions over the last 12 months.

Backorder is defined as the average number of backorder tasks processed in the backorder cockpit per calendar year.

Banking Commission Recipient is defined as a person who receives payments of any type via ICM related to a bank's business (existing commission contract).

Bank Cards are defined as the number of cards accounts (Credit Cards, Check cards) that will be priced using the Price Optimization solution on an annualized basis

Base & Remote Locations A base location is a central warehouse or distribution center from which the remote locations are supplied with spare parts and materials. Offshore facilities (e.g. platforms) or remote on-shore facilities are examples for remote locations in the Oil & Gas industry. Mines or processing centers are examples for remote locations in the Mining industry.

Big Tickets are defined as the number of objects (assets) financed in leasing contracts in one calendar year. Based on the value of the leased asset (financed amount), 5 different ticket sizes are defined for SAP Leasing. Big tickets are e.g. machines for energy management, high-value cars, custom specific machinery, printing machines, home automation (asset value of 100.001 € - 500.000 €).

BOEPD Produced: BOEPD means Barrel of Oil Equivalent per Day. It is a unit of measure used in the oil and gas industry that allows aggregating the produced, scheduled or sold quantities of hydrocarbons (whether from conventional or unconventional sources). For example, while gas production is generally measured as a volume per time period such as cubic meter per day, it needs to be converted into its equivalent in barrels of oil in order to determine the total quantity of oil & gas produced in consistent measurements. The conversion to BOEPD is provided in the table below.

For BOEPD produced only the produced hydrocarbons are applicable. If pricing cannot be based on BOEPD Produced (new ventures with no crude or gas production), the planned or estimated production of the venture shall apply.

BOEPD produced in USA: BOEPD means Barrel of Oil Equivalent per Day. It is a unit of measure used in the oil and gas industry that allows aggregating the produced, scheduled or sold quantities of hydrocarbons (whether from conventional or unconventional sources). For example,

while gas production is generally measured as a volume per time period such as cubic meter per day, it needs to be converted into its equivalent in barrels of oil in order to determine the total quantity of oil & gas produced in consistent measurements. The conversion to BOEPD is provided in the table below.

For BOEPD produced in USA only the hydrocarbons produced in USA are applicable. If pricing cannot be based on BOEPD Produced (new ventures with no crude or gas production), the planned or estimated production of the venture shall apply.

BOEPD produced outside US: BOEPD means Barrel of Oil Equivalent per Day. It is a unit of measure used in the oil and gas industry that allows aggregating the produced, scheduled or sold quantities of hydrocarbons (whether from conventional or unconventional sources). For example, while gas production is generally measured as a volume per time period such as cubic meter per day, it needs to be converted into its equivalent in barrels of oil in order to determine the total quantity of oil & gas produced in consistent measurements. The conversion to BOEPD is provided in the table below.

For BOEPD produced outside US only the hydrocarbons produced globally except the USA. If pricing cannot be based on BOEPD Produced (new ventures with no crude or gas production), the planned or estimated production of the venture shall apply.

BOEPD scheduled/planned: BOEPD means Barrel of Oil Equivalent per Day. It is a unit of measure used in the oil and gas industry that allows aggregating the produced, scheduled or sold quantities of hydrocarbons (whether from conventional or unconventional sources). For example, while gas production is generally measured as a volume per time period such as cubic meter per day, it needs to be converted into its equivalent in barrels of oil in order to determine the total quantity of oil & gas produced in consistent measurements. The conversion to BOEPD is provided in the table below.

For BOEPD scheduled/planned only the scheduled/planned hydrocarbons are applicable.

BOEPD sold: BOEPD means Barrel of Oil Equivalent per Day. It is a unit of measure used in the oil and gas industry that allows aggregating the produced, scheduled or sold quantities of hydrocarbons (whether from conventional or unconventional sources). For example, while gas production is generally measured as a volume per time period such as cubic meter per day, it needs to be converted into its equivalent in barrels of oil in order to determine the total quantity of oil & gas produced in consistent measurements. The conversion to BOEPD is provided in the table below.

For BOEPD sold only the sold hydrocarbons are applicable.

Conversion rules: Metric Definitions listed above are based on the metric BOEPD (Barrel of Oil Equivalent per Day). A customer might want to use the packages for different oil products (e.g. crude oil, refined products like gasoline, natural gas, or Liquefied petroleum products - LPG) and/or measures in other unit-of-measures (UoM) than barrels. In order to enable the conversion of those products and UoMs into BOEPD, the following conversion table can be used.

Conversion Factors:

To Convert

Crude Oil*	tonnes (metric)	kilolitres	barrels	US gallons	tonnes/ year
From	Multiply by				
Tonnes (metric)	1	1.165	7.33	307.86	-
Kilolitres	0.8581	1	6.2898	264.17	-
Barrels	0.1364	0.159	1	42	-
US Gallons	0.00325	0.0038	0.0238	1	-
Barrels/day	-	-	-	-	49.8

*Based on worldwide average gravity.

-------------------	-------------------------	-----------------------	-------------------------------	--------------------	--------------------------------	--------------------------------

From	Multiply by						
1 billion cubic meters NG	1	35.3	0.90	0.73	36	6.29	
1 billion cubic feet NG	0.028	1	0.026	0.021	1.03	0.18	
1 million tonnes oil equivalent	1.111	39.2	1	0.805	40.4	7.33	
1 million tonnes LNG	1.38	48.7	1.23	1	52.0	8.68	
1 trillion British thermal units	0.028	0.98	0.025	0.02	1	0.17	
1 million barrels oil equivalent	0.16	5.61	0.14	0.12	5.8	1	

Units of Measure

- 1 metric tonne = 2204.62 lb. = 1.1023 short tonnes
- 1 kilolitre = 6.2898 barrels
- 1 kilolitre = 1 cubic meter
- 1 kilocalorie (kcal) = 4.187 kJ = 3.968 Btu
- 1 kilojoules (kJ) = 0.239 kcal = 0.948 Btu
- 1 British thermal unit (Btu) = 0.252 kcal = 1.055 kJ
- 1 kilowatt-hour (kWh) = 860 kcal = 3600 kJ = 3412 Btu

OGSD User: A SAP Oil & Gas Secondary Distribution user is a user working with one or more SAP OGSD transaction codes.

Business Partner

Business Partners for SAP In-House Cash are defined as active business partner master records with financial transactional data within the last 2 years. Active business partners are the relevant subsidiaries, headquarters and external banks. External banks are defined as banks to be used for cash transfer between the In-House Cash Center (Headquarter) and the external bank.

Business Partners for SAP Bank Communication Management are defined as active business partner master records with financial transactional data within the last 2 years. Active business partners are the relevant customers and vendors with financial transactional data within the last 2 years.

Business Partner for SAP Constituent Services for Public Sector is defined as a constituent or a grant applicant.

Business Partner for SAP Payment Processing for Public Sector and SAP Receivables and Payables Management for Public Sector is defined as a constituent, organization or company.

Business Partner for SAP Tax and Revenue Management for Public Sector is defined as a constituent, a taxpayer, a tax agent / tax accountant. Citizens accessing the above packages for a strongly restricted set of tasks (i.e. viewing of documents, change of address, paying of bills and confirmations of delivery and e-filing) do not require a user license.

Cash Control Points are defined as the number of cash control points like bank offices (branches), ATMs, central vaults and central bank vaults modeled and used for planning the currency network demand and supply in APO (Advanced Planning and Optimization).

Claims Cases are defined as the number of new claims created in Claims Management during a one year period.

Classified ads are defined as the number of advertisement versions designed with the SAP ad editor in a one year period.

Commodities Sold is defined as the number of commodities sold (e.g. Copper Concentrate, Molybdenum, Iron Ore, Gold, Coal, Lead) as modeled in SAP ERP.

Consumer Loans is defined as the number of Consumer Loans (Auto Loans that will be priced using the Price Optimization tool, on an annualized basis.

Contract Account for SAP Customer Financial Management for Utilities and SAP Customer Financial Management for Wholesale Utilities is defined as an account in which posting data for contracts or contract items are processed for which the same collection/payment agreements apply.

Contract Account for SAP Customer Financials Management for Telecommunications and SAP Convergent Invoicing for Telecommunications is defined as an account in which posting data for contracts or contract items are processed for which the same collection/payment agreements apply. Pricing is based on maximum number of Contract accounts in master file.

Contract Account for SAP Bill-to-Cash Management for Postal and SAP Bill-to-Cash Management for Postal, option for convergent invoicing: A contract account in this context is defined as an account in which posting data for contracts or contract items are processed for which the same collection/payment agreement applies. Pricing is based on the maximum number of contract accounts in the master file. Contract accounts are customer sub-ledgers to accumulate open items and payments. Per customer various accounts may be used.

Corporate Accounts are defined as the number of Corporate Accounts. Corporate Accounts are high value and highly individualized deposits and payment products for the corporate market, often part of hierarchical account structures / groups. Pricing typically on basis of account group not based on single accounts (e.g. cash pooling). Corporate Accounts can be included in a master contract and in this case can be managed by a SAP for Banking application or via an external system.

Corporate Customers are defined as the number of Customer Files, which is the number of business partners (customers, prospects, contacts, etc.); distinguished between Retail Customers, Corporate Customers and Bank Employees (in case of Employee Help Desk); all business partners related to/relevant for the planned usage of the solution (specific department/branch, customer group, etc.) need to be counted. In case of Employee Help Desk (using SAP Solution Manager) this metric needs to be applied for the help desk staff. For employees only reporting problems an Employee User will be charged.

Corporate Loans are defined as highly individualized loans products for the corporate market with a high value.

Customer is defined as the number of active partner records in data base.

Customers Marketed to is calculated as: The number of unique customers who have been part of any active (released) campaign in a given calendar year PLUS the number of unique, active members in loyalty programs in a calendar year. A member is considered active as long as the status of their membership record is "active" in the SAP CRM system, regardless of the number of activities recorded by them.

Dead Weight Tons (DWT) are defined as the amount of weight a ship is carrying or can safely carry. For other modes of transportation, a DWT corresponds to a Ton.

Deposits are defined as the number of deposits accounts (Saving, Money Market, Checking, CDs etc) that will be priced using the price Optimization solution on an annualized basis.

Derivatives are defined as a financial instrument whose value is based on another security.

Device is defined as a Point of Sales Device, or Mobile Device for Mobile POS application.

Employees Scheduled is defined as the maximum number of employees that need to be considered during a scheduling run.

Equipment Items are defined as equipment master records. Each equipment master record which is assigned to Equipment and Tools Management (ETM) is counted for pricing. An equipment master record can be configured as a single item (e.g. a crane), or as a "multi-part equipment" (which could have, e.g., 100 drilling machines in inventory), in both cases only one equipment master record is counted for pricing.

Events are defined as the maximum number of event data records that are processed and stored in database over a one year period.

Finished Items are defined as the total number of additional finished items created or maintained per year by the customer. A finished item represents vehicles and major assemblies, like engines, axles, and transmissions. Warranty claims, which are created by Dealer Business Management DBM service orders, sent or received out of the SAP DBM system and which are not further processed, are covered. In case of extended use of warranty functionalities this exception is not applicable. Pricing of warranty claims (service requests) will follow the pricing of "SAP Aftersales Support for Automotive".

Finished Products are defined as the number of finished items planned in the rapid planning matrix, sequencing table and / or model mix planning.

Full-time Equivalent (FTE) is defined as both employees who are employed by the licensed organization and non-employees who may be engaged on emergency related activities, either on a temporary or permanent basis and who are tasked, deployed or managed by the licensed organization for the purposes of disaster or emergency management.

Full Time Registered Students or Equivalent is defined as:

- Number of Full-time Students: i.e. Student who are registered for a full course load for the current academic year at the institution.
- Number of Equivalent of Full-time Registered Students (for example, a Part Time student could represent a fraction of a Full Time student).

Fundable Assets are defined as Funding Workplace, Mortgage & Leasing.

Funded Assets are defined as all contracts (leasing, loans etc) managed by SAP Funding Management which are currently refinanced. In this context, the effective amount is the sum of all refinancing transactions in status "fixed" or "funded".

Gross written premium (GWP) of an insurance company is defined as the total gross premiums of a fiscal year, insofar processed by the SAP solution.

Gigawatt (GW) is defined as the measurement of installed capacity. Installed capacity is the maximum production capacity of a plant based on the rated capacity. For a power plant both the electrical power as well the thermal power has to be considered. The installed capacity of a power plant is measured in Watt and commonly used as Megawatt (MW) or Gigawatt (GW).

Home Equity Products are defined as the number of home equity loans and lines (such as HELOC, HEL, and FRLO) that will be priced using the price Optimization solution on an annualized basis.

High Value Loans: Number of High Value Loans. High value loans normally have a complex structure and a high level of individualization on customer level in the area of corporate banking. They are possibly included in refinancing via syndications.

Interaction Records are defined as the total number of interaction records created per year by the SAP CRM interaction center.

Joint Venture is defined as a contractual agreement joining together two or more parties for the purpose of executing a particular business undertaking. All parties agree to share in the profits and losses of the enterprise. The maximum number of Joint Ventures per year needs to be considered.

License Revenue is defined as the annual value that a company creates from intellectual property license monetization that is handled within the SAP IPM system. License Revenue includes financial validation for deals which is implemented in SAP IPM but does not result in an incoming payment e.g. barter deal.

Limit Sets are defined as the number of current Limit sets that are used in the system.

Loans Volume in Balance Sheet: Loans Volume in Balance Sheet.

Logistic Locations are defined as plants, distribution centers, customers and suppliers/vendors modeled in SAP APO (Advanced Planning and Optimization) where products or resources are planned.

Location w. Customer Collaboration scenario is defined as a piece of master data that needs to be defined when implementing and using the system. Location refers to any e.g. plant, warehouse, distribution center involved in the collaboration that is part of the collaboration business processes covered within Customer Collaboration. This includes all contract manufacturer owned and managed locations, that e.g. receive goods, and all supplier locations, that e.g. ship goods, or locations that are otherwise necessary to define in the system when running the Customer Collaboration scenarios.

Location w. Outsourced Manufacturing scenario is defined as a piece of master data that needs to be defined when implementing and using the system. Location refers to any e.g. plant, warehouse, distribution center involved in the collaboration that is part of the collaboration business processes covered within Outsourced Manufacturing. This includes all contract manufacturer owned and managed locations as well as all customer side locations that e.g. receive goods or are necessary to define in the system when running the Outsourced Manufacturing scenarios.

Location w. Quality Collaboration scenario is defined as a piece of master data that needs to be defined when implementing and using the system. Location refers to any e.g. plant, warehouse, distribution center involved in the collaboration that is part of the collaboration business processes covered within Quality Collaboration. This includes all supplier owned and managed locations as well as all customer side locations that e.g. receive goods or are necessary to define in the system when running the Quality Collaboration scenarios.

Location w. Supplier Collaboration scenario is defined as a piece of master data that needs to be defined when implementing and using the system. Location refers to any e.g. plant, warehouse, distribution center involved in the collaboration that is part of the collaboration business processes covered within Supplier Collaboration. This includes all supplier owned and managed locations as well as all customer side locations that e.g. receive goods or are necessary to define in the system when running the Supplier Collaboration scenarios.

Location w. Lean Manufacturing scenario is defined as all partner locations (both customer locations and supplier locations) in the master file of the SNC solution (ICH), as well as all connected JIT/JIS-partners (Just-in-time/Just-in-sequence) in the table JITCU. Each licensed partner location additionally contains 50.000 in-bound JIT/JIS calls per year. In this case the connected Partner locations / partners are counted per plant of the customer to calculate the license fee (e.g. 2 supplier plants of one company shipping to one customer plant is to be counted as 2 partner locations).

Maintenance Object is defined as all objects defined in the MSP (Maintenance and Service Planning) master file (major assemblies such as aircraft, engine).

Marketing Transactions are defined as the number of active campaigns defined within the SAP CRM system plus the number of active Market Development Funds (MDF) program memberships per year. An active MDF program membership is one in which a partner has submitted at least one MDF initiative request in that year.

Medium Tickets are defined as the number of objects (assets) financed in leasing contracts in one calendar year. Based on the financed amount, 5 different ticket sizes are defined for SAP Leasing. Medium tickets are e.g. trucks, big cars, construction equipment and forklifts (asset value of 50.001 € - 100.000 €)..

Mortgages are defined as the number of mortgage accounts that will be priced using the Price Optimization solution on an annualized basis.

Micro Loans are defined as highly standardized, low value loans, given by a bank or other institution in emerging countries. Micro loans can be offered, often without collateral, to an individual or through group lending.

Micro Saving Accounts are defined as highly standardized deposit services that allow people to store small amounts of money for future use, often without minimum balance requirements. It cannot be a fixed deposit account.

Number of Cases per year are defined as the related information around a specific event that is processed by a case manager. As a related concept a case would be the information maintained in a physical file folder that is now maintained as a record in the SAP system.

Number of Loyalty Members in the SAP CRM system is defined as the actual 12 months average number.

Number of Partner Organizations is defined as the number of partner organizations maintained in the SAP CRM system.

Number of Records is defined as the actual 12 months average number of business partners and marketing prospects maintained in the SAP CRM System.

Number of Sales Employees are defined as the total number of employees (including contract workers) and business partners using the SAP CRM Sales software.

Objects are defined as contracts for financial products that are sold in the retail market and in OTC (over-the-counter) trading (examples: loans, credit facilities), and standardized products that can be bought and sold in an open market (stock exchange) (e.g. Shares, Listed Options, Bonds).

Outpatient Days in Year: One Outpatient Day is counted when one patient has been treated as an outpatient in one calendar day, independently of the quantity of work done on that day and on how the work was documented in the SAP system (in one or more treatment cases, and within cases as one or more visit movements).

Page Views (per year) are defined as the number of times a web page has been successfully served to a user's browser (in 12 month) as recorded by the log files of the web server. Only web pages, served to the SAP server count towards this metric.

P/C/S Cashflow Based: Cash flow based loans except retail loans are defined as:

1. Private Banking / Complex Individual / SME Banking / Mortgages include products with a certain level of personalization on customer level for individuals and small/medium enterprises.
2. Corporate loans are highly individualized loans products for the corporate market and can also have a complex structure.
3. Securities positions

Participant is defined as a member of an Access Control Context, or a user utilizing Business Context Viewer.

Patients treated in Year: Number of patients treated in one calendar year in the institutions supported by the SAP system. Patients are only counted once, no matter how many times they are treated in the hospital within the year.

Persons in treated Population is defined as the number of persons belonging to the population that is treated in the healthcare network to which the Software is applied.

Physical Locations are defined as all mines, concentrators, processing plants, smelters, refineries, distribution centers (stock piles), and ports.

PoD (Point of Delivery) with an advanced active meter assigned. A Point of Delivery (PoD) is the point to which a utility service or other service is supplied. A meter is advanced if it supports bidirectional communication (also known as "smart meter"); a meter is active if the status in the system has been set to "active" (usually done after the meter has been installed to show the meter is ready); a meter is "assigned" to a PoD if it has been built into an installation and this installation has been assigned to the PoD.

Production Tons: Production Tons is defined as the production volume over the period of a year.

Small Plant: is defined as a plant with up to 500 employees: A plant is a physical site owned or operated by an enterprise supported by the Software. Employees per plant are all employees and contractors working in the plant.

SAP Product Structure Synchronization: Every outsourced manufacturing plant will be considered as small plant. An outsourced manufacturing plant is a physical site owned or operated by a supplier or partner who is part of the engineering to manufacturing scenario supported by Product Structure Synchronization.

Midsize Plant is defined as a plant with 501 up to 5,000 employees. A plant is a physical site owned or operated by an enterprise supported by the Software. Employees per plant are all employees and contractors working in the plant.

Large Plant is defined as a plant with more than 5,000 employees. A plant is a physical site owned or operated by an enterprise supported by the Software. Employees per plant are all employees and contractors working in the plant.

For SAP Operations Management for Mining: Plants are mines, concentrators, processing plants, smelters, refineries, distribution centers (stockpiles) and ports. Employees include own employees in the operations, contractors, administration and maintenance staff.

PoDs: PoD (Point of Delivery) is the point to which a utility service or other service is supplied.

Portfolio Budget managed with SAP Business Planning for T&L or SAP New Product Development and Introduction for CP is defined as the total annual (calendar or fiscal year) budget of combined "active" portfolio items contained in SAP Business Planning for T&L or SAP New Product Development and Introduction for CP.

Point of Sales (POS) is defined as a physical store or shop-in-shop. Pricing is based on the total number of POS entries in the master file.

POS Transactions: Annual number of sales orders based on one-order documents which are triggered by the SAP CRM system and PoS (Point-of-Sale) transaction line items which are executed in the SAP CRM system.

Private Banking / SME Accounts: Private Banking /SME Accounts are defined as the number of Private Banking / SME Accounts. Deposits account products with a certain level of individualization on customer. Private Banking / SME Accounts can be included in a master contract and in this case can be managed by a SAP for Banking application or via an external system.

Private Banking, Complex Individual, SME Loans: Number of Private, Complex Individual or SME Loans. This business type covers the management of products with a certain level of personalization on customer level for individuals and small/medium enterprises. The product spectrum covers the same type of product as retail banking, but having a higher complexity, higher level of individualization and value.

Public Sector Spend Budget: Annual public sector spend budget as published records of budget year procurement obligations.

R&D Spend Volume: Annual expenditure of company or relevant business units on R&D activities from financial statements, including headcount, equipment and related projects.

Retail Accounts: Number of Retail Accounts. Retail Accounts are standardized deposits products with simple structures and small value for the mass market. Internal accounts are also to be classified as retail accounts. Retail Accounts can be included in a master contract.

Retail Cashflow: Cash flow based retail loans are defined as standardized cash flow based loan products for the mass market segment of individuals. The product spectrum covers loans with simple structures and small values for financing consumer products, auto/cars and voyages.

Retail Customers: Number of Customer Files = number of business partners (customers, prospects, contacts, etc.); distinguished between Retail Customers, Corporate Customers and Bank Employees (in case of Employee Help Desk); all business partners related to/relevant for the planned usage of the solution (specific department/branch, customer group, etc.) need to be counted. In case of Employee Help Desk (using SAP Solution Manager) this metric needs to be applied for the help desk staff. For employees only reporting problems an Employee User must be licensed.

Retail Loans: Number of Retail Loans. Retail loans are standardized loan products for the mass market segment of individuals. The product spectrum normally covers loans with simple structures and small values.

Rights Spend: is defined as the total amount of a company's annual expenditure for the acquisition of intellectual property rights. Rights Spend includes financial validation of deals which are implemented in SAP IPM but do not result in outgoing spent e.g. barter deals.

Sales Employees using SAP sales are defined as the total number of employees (including contract workers) and business partners using the SAP CRM Sales Software.

Sales Orders are defined as the annual number of sales orders based on order documents which are executed in and triggered from SAP CRM.

Sales Value is defined as the total estimated sales value generated in SAP Product Sales and Distribution for Media per year.

Secured Corporate Receivables are defined as highly individualized receivables (loan, credit facility ...) product for the corporate market, managed either by a SAP for Banking application or in an external system, secured by one or more collateral objects.

Secured Micro Loans are defined as a small amount of money loaned to a client by a bank or other institution, offered with a collateral, to an individual or through group lending.

Secured Private Banking, Complex Individual, SME Receivables are defined as receivables (loan, credit, facility) with a high level of individualization on customer level, managed either by a SAP for Banking application or in an external system, secured by one or more collateral objects.

Secured Retail Receivables are defined as standardized receivables (loan, credit, facility, etc.) product for the mass market, managed either by a SAP for Banking application or in an external system, secured by a collateral object.

Service Inquiries are defined as the annual number of service related inquiries; including service process types: complaints, service orders, service incidents, service requests, repair order request for changes, warranty claims & problems.

Service Parts Inventory is defined as the current value of service parts stock inventory at the balance sheet key date, in accordance with the ruling accounting principles.

Service Requests and Warranty Claims are defined as the number of service related inquiries per year, including service process types: complaints, service orders, service incidents, service requests, repair order request for changes, warranty claims & problems plus the number of warranty claims (processed within ERP).

Shipment is defined as a physical shipment of cargo from origin to destination. Shipments are consolidated shipments as represented in the software in a one year period.

Logistic Service Providers: Shipments are consolidated shipments (orders/bookings/jobs or item lines) as represented in the system in a one year period. The industry terms "bill of lading" (road, air or sea) also refers to a shipment within the SAP system.

Mill Products: Shipments are consolidated shipments as represented in the system in a one year period. In the mill products industry, shipments correspond to deliveries, shipments, containers, trucks or railcars.

Consumer Products: Shipments are consolidated shipments as represented in the system in a one year period. In the consumer products industry, shipments correspond to deliveries, orders or loads (=vehicles).

Postal: Shipments are consolidated shipments as represented in the system in a one year period. Deliveries are always considered as freight units. Additional to the deliveries, also containers, handling units, orders, vehicles or packets can be freight units.

Small Tickets are defined as the number of objects (assets) financed in leasing contracts in one calendar year. Based on the financed amount, 5 different ticket sizes are defined for SAP Leasing. Small tickets are e.g. small cars, medical devices, IT equipment (asset value of 5.001 € - 50.000 €).

Spare Parts Material Master Records are defined as the current value of service parts stock inventory at the balance sheet key date, in accordance with the ruling accounting principles.

Spend Volume is defined as the total amount of a company's annual expenditure for the procurement of all direct and indirect goods and services.

When licensing SAP BusinessObjects Electronic Invoicing for Brazil (NFE-Inbound), only Spend Volume in Brazil is to be considered.

Subscriptions are defined as an agreement between the customer and the provider for the access to or use of a service provided under certain terms and conditions. One customer or subscriber could have one or many different subscriptions for different or similar services.

In a bundle, every included main service subscription counts as 1 subscription (e.g. in a Triple Play bundle with Mobile, Internet Broadband and IPTV services, 3 subscriptions would be charged)

Syndicated Loans: Syndicated Loans on a wholesale basis, i.e. big tickets (e.g. for infrastructure projects).

Telecom Orders are defined as the total annual number of telecom orders and subscriptions (for individual service products or bundles), change processes (e.g. tariff or subscription changes) and cancellations.

Titles are defined as the Number of titles actively managed during the last three years period, as reported by the publisher.

Tonnage Produced: maximum tonnage produced on one day.

Trips/vehicle related services (per day) are defined as the total number of transactions per day processed by the convergent charging system, which are defined as pricing outputs (where one input as Event Detail Record/Billable item can generate one or several pricing outputs). In case several parties participate to the Trip/vehicle related service, the additional transactions triggered by the SAP Convergent Charging engine for settlement purposes need to be counted in addition to the original transactions.

Transaction per Day: Transactions per day are defined as the total number of transactions per day processed by the convergent charging system, which are defined as pricing outputs (where one input can generate one or several pricing outputs)

The amount of Transactions per Day licensed must be sufficiently large to accommodate for peak load days, i.e. on any given day of the year the actual Transactions per Day volume of pricing outputs must be less than or equal to the licensed Transactions per Day volume.

Prepaid Telecommunications: Pricing or charging outputs for accounts that have paid or were paid in advance for the services consumed.

Postpaid Telecommunications: Pricing or charging outputs for accounts that will pay or be paid for the services consumed after invoice or payment statement generation.

Travel Claims are defined as any Trip or Expense Report that is entered into SAP TM and submitted for claim.

Vehicles: Number of finished items ordered in one year. Finished items are vehicles and major assemblies like engines, axles, and transmissions.

Very Big Tickets are defined as the number of objects (assets) financed in leasing contracts in one calendar year. Based on the financed amount, 5 different ticket sizes are defined for SAP Leasing. Very big tickets are e.g. ships, power stations, oil platforms, aircrafts, complex IT projects (asset value of > 500.000 €)..

Very Small Tickets: Very small Tickets are defined as the number of objects (assets or services without asset) financed in leasing contracts in one calendar year. Based on the financed amount, 5 different ticket sizes are defined for SAP Leasing. Very small tickets are e.g. PC, laptops, copy machines, printers (asset value of 0 € - 5.000 €).

Weighted Size of Organization in FTE: The weighted size of the organization reflects the number of Full Time Equivalents (FTEs) employed in the organization – including military and civilian personnel & reserve.

Warehouse is defined as a building, room, or area within a factory or place of business that is used for storing merchandise, raw materials, or parts (semi-finished products).

Small Warehouse is defined as a Warehouse with up to 5.000 delivery items per day. A Warehouse is a building, room, or area within a factory or place of business that is used for storing merchandise, raw materials, or parts (semi-finished products). For purposes of determining the size of warehouse, a delivery item is the individual inbound or outbound delivery line item of the actual delivery for a goods receipt or a goods issue, which may consist of material, quantity, location specification, put-away or picking date, and batch.

Midsize Warehouse is defined as a Warehouse with 5.001 up to 35.000 delivery items per day. A Warehouse is a building, room, or area within a factory or place of business that is used for storing merchandise, raw materials, or parts (semi-finished products). For purposes of determining the size of warehouse, a delivery item is the individual inbound or outbound delivery line item of the actual delivery for a goods receipt or a goods issue, which may consist of material, quantity, location specification, put-away or picking date, and batch.

Large Warehouse is defined as a Warehouse with more than 35.000 delivery items per day. A Warehouse is a building, room, or area within a factory or place of business that is used for storing merchandise, raw materials, or parts (semi-finished products). For purposes of determining

the size of warehouse, a delivery item is the individual inbound or outbound delivery line item of the actual delivery for a goods receipt or a goods issue, which may consist of material, quantity, location specification, put-away or picking date, and batch.

Web Channel User is defined as employees of external Business Partners who are solely authorized to perform Business to Business sales and/or service management and/or user maintenance activities supported by the web channel software.

Metrics Mainly Used with SAP NetWeaver

CPU: Every CPU that runs at least parts of the licensed software is considered in its entirety.

When counting physical CPUs, each core of a physical CPU that runs at least parts of the licensed software, including those that are temporarily assigned or scheduled to cover peak processing, is considered and counted.

When counting virtual CPUs, each core of a virtual CPU that runs at least parts of the licensed software, including those that are temporarily assigned or scheduled to cover peak processing, is considered and counted. If the software will run in a pure virtual environment, physical CPUs will not be considered.

CPU metric value calculation: For each CPU, the first processor core shall be multiplied by 1, and each incremental processor core is multiplied by 0.5. The sum for all CPUs shall then be rounded up to the next whole number.

Adapter Type: Backend Applications Adapters need to be licensed per adapter usage type (i.e connectivity to Oracle, Siebel, etc.) irrespective of the number of installations or connected systems; no matter whether the adapter is used together with an SAP solution requiring SAP PI or used in a custom developed scenario.

GB per Month is the overall message volume expressed in Gigabytes (GB) per month, which is processed by the respective SAP Application.

Installation: An installation is defined as an instance of the software installed at a designated device.

Blade memory is defined as memory of the blade.

External Community Members are either non-employees of organizations such as schools, universities, charities or governmental entities or business third parties including, but not limited to, customers, employees of distributors and suppliers who are licensed to access solely the SAP Enterprise Portal software. External Community Members are not allowed to access other SAP software and their respective components. Business third party employees participating in collaborative business scenarios that require access beyond SAP Enterprise Portal software need to be licensed as Named Users for the respective SAP software.

Business Partner Objects are defined as the numbers of all business partner type objects stored in the Master Data Management system. This is the sum of all supplier objects, as well as any user defined object of type business partner (Vendor, B2B Customer, B2B Contact, Employee, Business Partner, etc.) User defined objects are created using the MDM tool for management within the MDM repository. A **Business Partner** is a natural person within an organization, a group of persons within an organization, or an organization itself that has any kind of a business relationship with a company.

Consumer Objects are defined as the total numbers of all consumer type objects stored in the Master Data Management system. This is the sum of all B2C Customer, B2C Contact, Citizen objects, plus the total number of any additional Consumer type user defined object. User defined objects are created using the MDM tool for management within the MDM repository. A consumer is a natural person or a group of persons (e.g. household) that has any kind of business relationship with a company.

Master Data Objects are defined as the total number of all master data objects stored in the SAP NetWeaver Master Data Management system, plus the total number of all master data objects stored in the SAP Master Data Governance System.

Product and Other Data Objects are defined as the numbers of all master data objects stored in the Master Data Management system that are not of type Financials, or Business Partner. This is the sum of all material objects, as well as any user defined object of type things (Product, Article, Contract, Location, Asset, etc). User defined objects are created using the MDM tool for management within the MDM repository.

Product in Data Cache: The price is based on the number of products in the Product Data Cache

Internal User Identifiers are defined as the total number of individuals working inside the Ordering Activitys organization (employee, contract worker and outsourcer), whose credentials and/or user information is managed by the functionality of the licensed Package.

External User Identifiers are defined as the total number of individuals being external to the Ordering Activitys organization (other than employee, contract worker and outsourcer), whose credentials and/or user information is managed by the functionality of the licensed Package.

Records are defined as the total number of leading SAP business objects and/or the number of cases in SAP NetWeaver Folders Management. Archived Records (records attached to archived business objects) are not counted. A leading object is the object the record refers to.

When SAP NetWeaver Folders Management is used to manage employee files, employees managed in the SAP HCM system are the leading object to be counted. When it is used for billing, creditors and debtors are the leading objects to be counted. When it is used in SAP Real Estate Management, real estate objects (including but not limited to real estate contracts, business entities, buildings, pieces of land, rental objects architectural objects, and parcels of land) are the leading objects to be counted. When it is used to manage changes of equipment by utilizing cases, the number of change requests is counted.

Port is defined as a communication channel.

Recipients are defined as the number of individuals receiving reports from the licensed software.

Decommissioned Systems are defined as the number of systems that are retired using SAP NetWeaver Information Lifecycle Management.

Service Calls are defined as the total number of HTTP request per calendar year which are processed by SAP NetWeaver Gateway Server. Metadata requests and requests from SAP Software that contains SAP NetWeaver Gateway runtime software are not counted.

LVM Instances are defined as the primary application server used for central application services of the managed SAP application, including the enqueue and message services (e.g. the central instance), any SAP Web AS instances associated with the managed SAP application that is not the central instance (e.g. dialog instances), the primary database of the managed SAP application (e.g. database instance), or any occurrences of TREX or LiveCache associated with the managed SAP application.

For the copy/clone/refresh option, only the primary system database of the source systems are counted. In cases where multiple databases are configured for the managed systems (e.g. shadow DB, DB cluster, LiveCache, etc.), then only one database is counted, regardless of which ones or how many are configured.

For third-party (e.g. non-SAP applications) and custom developed applications the entire application is defined as a single LVM instance in SAP NetWeaver Landscape Virtualization Management, regardless of the software architecture for that application.

Metrics Mainly Used with SAP HANA

Gigabytes of Memory are defined as the total amount of memory that may be used by the HANA Software, as measured in gigabytes. Each unit of HANA licensed contains 64 Gigabyte memory.

Metrics Mainly Used with General Supplementary Products

Customer Interactions are defined as the number of agent-assisted or self-service customer interactions with one or more recommendations made by the RTOM engine per annum. RTOM recommendations might be cross-sell, up-sell or next best action recommendation.

Installations for Enterprise Project Connection are defined as the number of installations to 3rd party products (e.g. the number of 3rd party project system installations that will be connected to SAP systems)

Portfolio Budget managed with SAP Portfolio and Project Management (through Resource and Portfolio Management capabilities) is defined as the total annual (calendar or fiscal year) budget of combined "active" portfolio items contained in SAP Portfolio and Project Management (through Resource and Portfolio Management capabilities).

Contracts are defined as the total number of contracts the company plans to address within the application. The total number of contracts is the number of contracts used in all functions including procurement, sales, legal, partner management, HR, real estate, and all other functions of the organization.

Work-Center is designed as a "Kanban Work-Center" or a "Pacemaker Work-Center". A Work center can be "single" resource or a "group of resources" where a single schedule is created for the line.

Auto-ID Site is defined as a physical location identified by a street address where device(s) are capturing and transmitting data, connected with Auto-ID Enterprise and/or Auto ID Infrastructure software. Multiple separate physical structures with no common walls and which have the same street address will be considered separate sites.

Database Size is defined as the database size of the productive system and is calculated individually for each system that means for each ERP, BI and CRM system.

For SAP NetWeaver Information Lifecycle Management Database Size is defined as the total database size of productive SAP system where SAP NetWeaver ILM Retention Management is run.

Resources are defined as uniquely identified users or pieces of equipment, including machines, tools and scanners that directly or indirectly feed data to or accesses data from the SAP Manufacturing Execution System.

Recommendations are defined as the total number of recommendations created by the RTOM system in a calendar year.

Employees (SAP MII) are defined as the total number of employees in those plants and supporting locations using SAP MII, and where employees are workers, mobile workers, contractors or partners associated with those plants/locations.

BCM multi-channel User is defined as the user (agent and/or supervisor) who works in a contact center environment and handles incoming contacts through multiple communication channels (voice, email and chat) and/or handles outbound campaign calls and/or uses supervisor tools to supervise contact center agents.

BCM voice-only User is defined as the user (agent) who works in a contact center environment and handles incoming contacts through voice channel only or handles outbound campaign calls only.

BCM personal-telephony User is defined as the user who uses the system for office telephony only without access to contact center capabilities.

BCM reporting User is defined as the total number of users (multi-channel user, voice-only user and personal telephony user) in the SAP Business Communications Management customer system that are collected for communication statistics.

BCM Rapid Deployment Edition User is defined as the user (agent and/or supervisor) who works in a contact center environment and handles contacts through voice channel only and views predefined communication statistics within a predefined SAP Business Communications Management Rapid Deployment customer system.

Defined Business Transactions are defined as the annual number of service related transactions; including service process types: service incidents, service requests, problems, request for changes and knowledge article.

Accumulated Database Size is defined as the database size of all productive SAP systems where the customer will use SAP Landscape Transformation.

Items per configuration is defined as the amount of line items in the CRM quotation that have been generated using the solution.

Tons per year for SAP Commodity Sales & Procurement for iron ore, steel and coal are defined as the maximum of the sales or purchasing volume for the following commodities: Iron Ore, steel, coal.

Barrels of Oil Equivalent per day ("BOEPD") for SAP Commodity Sales & Procurement for oil, oil equivalent and gas are defined as the maximum of the sales or purchasing volume for the following commodities: crude oil, natural gas, Nat Gas Liquids NGL, ethanol, gasoline, jet fuel / kerosene, heating oil.

Tons per year for SAP Commodity Sales & Procurement for base metals, cereals and sugar are defined as the maximum of the sales or purchasing volume for the following commodities: tungsten, molybdenum, tantalum, magnesium, cobalt, bismuth, cadmium, titanium, zirconium, antimony, manganese, beryllium, chromium, germanium, vanadium, gallium, hafnium, indium, niobium, rhenium, thallium, uranium, pulp, paper, wheat, corn, rice, sugarcane.

Tons per year for SAP Commodity Sales & Procurement for alu, grains and other major crop are defined as the maximum of the sales or purchasing volume for the following commodities: Aluminum, oats, barley, rye, potatoes, cassava, soybeans.

Tons per year for SAP Commodity Sales & Procurement for non-ferrous base metals are defined as the maximum of the sales or purchasing volume for the following commodities: copper, lead, zinc.

Tons per year for SAP Commodity Sales & Procurement for coffee, oilseeds, meat, dairy are defined as the maximum of the sales or purchasing volume for the following commodities: coffee, rapeseed, canola, sunflower seed, peanuts, oils & fats, oil meal, live cattle, feeder cattle, lean hogs, pork bellies, CME milk, butter, fruits & vegetables, cotton, jute, orange juice, apple juice concentrate, sugar, lumber, tobacco, rubber.

Tons per year for SAP Commodity Sales & Procurement for tin, nickel, cocoa and tea are defined as the maximum of the sales or purchasing volume for the following commodities: tin, nickel, cocoa, tea.

Ounces per year for SAP Commodity Sales & Procurement for silver are defined as the maximum of the sales or purchasing volume for the following commodities: Silver.

Ounces per year for SAP Commodity Sales & Procurement for precious metals except silver are defined as the maximum of the sales or purchasing volume for the following commodities: gold, platinum, palladium, ruthenium, rhodium, osmium, iridium.

Metrics Mainly Used with Third Party Supplementary Products

Process servers are defined as each server (real or virtual) where scheduled jobs are to be managed. A process server is required for every single connected application, server or operating system (OS) instance (virtual or physical) with a unique identification on which processes are executed that need to be monitored, managed and controlled. For each process server purchased the customer is provided with 1 production and 3 non-production environments (i.e. 1 for fail-over for the production instance, 1 for development and 1 for test).

Invoice is defined as each item that flow thru the cockpit for reconciliation per year.

Users and Forms Users are defined as employees accessing Interactive Forms based on Adobe - Enable the Enterprise. Bundles of 40 forms are defined as 40 modified or created Interactive Forms being accessed.

Professional Users are defined as total number of all SAP Professional and SAP Limited Professional named users of the customer irrespectively whether they actually accessing this program or not.

Scenarios are defined as scenarios being used in SAP Process Performance Management by Software AG based on SAP Solution Maps. Details on SAP Solution Maps can be found in sap.com: <http://www.sap.com/solutions/businessmaps/index.epx>

Trucks are defined as vehicles with order management handled in the application.

Monitored users are defined as employees who will be monitored and are authorized to use the reporting consol.

Managed Resources are defined as the number of Client employees, delivery vehicles and/or any other unique resources managed by SAP Workforce Scheduling & Optimization by ClickSoftware.

A Scheduled Public Officer is defined as any employee who is involved in public administration, public security or works for a government agency and which will be planned for the work rosters and/or scheduled for service activities.

Virtual User is defined as each user that is simulated in the software to test the load on the SAP system.

Portal User is defined as the estimated number of licensed users with access to a particular deployment of the SAP Portal, including SAP Professional Users, ESS/MSS Users, and External Community Members.

Loadrunner Controller is defined as the central point for load test design and load test execution.

Loadrunner Enterprise Controller is defined as the central point for load test design and execution, and contains a component that provides for web access and scheduling capabilities.

Testers are defined as employees working with SAP Quality Center by HP products. For use with SAP Test Acceleration and Optimization tester are defined as employees using SAP TAO and testing SAP applications enterprise-wide.

Total Assets are defined as the sum of current and long-term assets owned by the bank.

Message volume (MB) / month / installation is defined as data volume in MB of conversions performed per month and per installation.

Mobile user is defined as each user accessing data from DB2 Everyplace Database.

Devices are defined as all devices accessing data from Sybase SQL Anywhere Database.

VIP User is defined as each user accessing SAP Visual Information for Plants by NRX.

SAP Application Value (SAV) is defined as the sum of list prices for Named Users, External Community Members, (pan-industry and industry specific) Software Engines and Supplementary Products, excluding those items identified in the list of prices and conditions that do not contribute to the SAP Application Value.

Contract Price is defined as the net value of the license contract. Contract Price for partners refers to Partner Buy Price depending on the support delivery model.

Service request is defined as the annual number of service related inquiries, including service process types: cases, complaints, warranty claims and service orders.

Connected System is defined as the total number of productive SAP Solution Manager systems connected to the productive systems of SAP Quality Center by HP, Central Process Scheduling by Redwood, or SAP Productivity Pak by RWD.

Total annual budget is defined as total annual public sector budget of SAP customer (i.e. agency, institution, program or department) based on current budget period.

A **resource contributing to usage volume** is defined as a resource planned during a given calendar year using SAP Multiresource Scheduling or SAP Multiresource Scheduling with Optimizer. A resource is a person (such as a technician, service engineer, or repair engineer), or a production resource (such as a tool, instrument, machine, or room).

Payment item is defined as a single Payment transaction within a payment order. A payment order can have one ordering party item and n recipient party items.

Licensed User is defined an individual user licensed as one of the Named User types defined in the price list.

Employee Files are defined as employee (employees and former employees) folders containing their electronic files.

Profile is defined as an individually produced business mapping document counted for each connected business partner. Each profile is qualified by SAP, example: purchase order inbound, purchase order confirmation outbound, purchase order confirmation inbound, purchase order change and cancellation.

Net Property Plant & Equipment is defined as value of the total property, plant and equipment as disclosed in the balance sheet insofar as processed by the SAP solution.

Cost of Goods Sold is defined as all expenses directly associated with the production of goods or services the company sells (such as material, labor, overhead, and depreciation). It does not include SG&A or R&D. If COGS is unknown then COPGS shall be equal to 70% of total company revenue.

An output transaction means a single instance of a business document that is created, processed, printed or manipulated in some way by the products (e.g. letter, email, PDF, fax, SMS).

Asset retirement obligation cost estimations is defined as the volume of the cost estimations which are handled in the solution. The cost estimation volume is equal to the total of the settlement values (expected costs at the estimated retirement date) of all cost estimation items of the cost estimation plans of all Asset Retirement Obligations, which are handled by SAP Asset Retirement Obligation Management. If the customer is using more than one accounting principle, the cost estimation volume is calculated separately for every accounting principle. The maximum of these values will be used for pricing. The cost estimation volume is determined based on the volume, which is valid at the fiscal year end date. Only asset retirement obligations, which are active at this date, will be considered.

Invoices (outbound) is defined as the number of invoices sent via e-invoicing.

Invoices (inbound) is defined as the number of invoices received via e-invoicing.

Author is defined as someone who can create/edit a visualization using SAP Application Visualization by iRise, the add-on for SRM (if applicable), and add-on for general SAP solutions (if applicable)

Database Objects is a collection of intrinsic and/or customer-defined properties that is defined by a Palantir dynamic ontology and stored in or accessible by the Palantir system.

Metrics mainly used with business intelligence (BI), enterprise information management (EIM) solutions and address directories

Named user License (NUL). Users are also known as Named User License (NUL). Each individual end user must be specifically identified as the sole holder of a NUL. The sharing of the NUL by more than one individual is expressly prohibited. In addition, NUL(s) may not be transferred from one individual to another unless the original end user no longer requires, and is no longer permitted, access to the licensed Software.

There is no license limit on how many individuals are working concurrently with the Software. There is no license limit on number of processors or servers used. Named Users are identified at logon and do not consume a Concurrent Session license. Concurrent Session licenses and NULs can be purchased in combination for a Deployment, but cannot be shared among or between Deployments.

This metric does not replace the overall SAP Named User licensing requirement.

Concurrent Access License or CALs (Important note: this pricing metric is only available through BusinessObjects Value Added Resellers) refers to the aggregate number of end users accessing the licensed Software at any one time. The number of users accessing the licensing Software may not exceed the number of CALs the customer has obtained. CAL(s) are assigned to a particular Deployment, and may not be shared among different Deployments. When using Concurrent Access licenses, customer may not utilize a program or system to cache or queue report requests.

Annual Subscription is defined as a periodic recurring fee that is payable every calendar or fiscal year for the right to use software or services during that calendar or fiscal year. This fee is payable each calendar or fiscal year whether or not the software or service has been used during that year.

Concurrent Session refers to the aggregate number of sessions accessing the licensed Software at any one time. A session refers to the time between logon and logoff or time out where a unique user, application or platform accesses the licensed Software. The number of sessions accessing each licensed Software product may not exceed the Licensed Level for the number of Concurrent Sessions for such licensed Software product. All Concurrent Session licenses for a given Software product must be assigned to the same, single Deployment, and may not be assigned amongst different Deployments. When Using Software licensed by number of Concurrent Session licenses, Ordering Activity may not utilize any program or system to cache or queue report requests.

CPU. Every CPU that runs at least parts of the licensed software is considered in its entirety.

When counting physical CPUs, each core of a physical CPU that runs at least parts of the licensed Software, including those that are temporarily assigned or scheduled to cover peak processing, is considered and counted.

When counting virtual CPUs, each core of a virtual CPU that runs at least parts of the licensed Software, including those that are temporarily assigned or scheduled to cover peak processing, is considered and counted. If the Software will run in a pure virtual environment, physical CPUs will not be considered.

CPU metric value calculation: For each CPU, the first processor core shall be multiplied by 1, and each incremental processor core is multiplied by 0.5. The sum for all CPUs shall then be rounded up to the next whole number

Data Migration Project is defined as a project with a single identified target system where data can be migrated to or from multiple source systems. The package has term limit of 18 months with an initial 6 month maintenance and option to renew maintenance one time for 12 months. Clock starts when the contract is signed.

Deployment is defined as a single installation of no more than one of the following Software modules or files within the BA&T SAP BusinessObjects Business Intelligence Platform Software (for which Ordering Activity must obtain a license): Repository, Security Domain, Central Management Server ("CMS"), CMS Cluster, or Crystal Reports Runtime Engine.

Instance is defined as a single unique connection to a specified application or technology type.

Package Fee is defined as a flat fee to license the software.

Server is defined as a physical computer, case, box or blade that houses the CPUs running the software product. Multiple virtual machines on the same physical box are allowed and do not require additional licenses.

Type License. When Software or Third Party Software is licensed by Type, the Software or Third Party Software may only be used in connection with an unlimited number of connections to a single, specified database or application.

Metrics mainly used with governance, risk, and compliance (GRC) and enterprise performance management (EPM) solutions

Country Exporting is defined as the countries where electronic communications with local customs authorities needs to be established.

When licensing by 'country exporting from': Please note that number of countries where electronic communications is available is currently limited. Please check availability before licensing for a particular country.

Employee is defined as the total number of employees (including contract workers) employed by the company or employed by the legal entity that is licensing the functionality of the package.

When licensing by Employees for EPM or GRC packages: If the licensed package will be restricted to a division, affiliate or subsidiary of the Ordering Activity, it is possible to use the total number of employees employed by such division, affiliate or subsidiary of the Ordering Activity whose activities are being managed by the licensed software.

One Time Fee is defined as a flat fee to license the software.

Monitored Users are defined as employees, contract workers or other individuals whose credentials, permissions, privileges and/or other user information will be monitored, evaluated or managed by the Software

Revenue is defined as income that a company receives from its normal business activities and other revenue from interest, dividends, royalties or other sources.

When licensing by Revenue for SAP BusinessObjects Electronic Invoicing for Brazil (NFE), the Revenue considered is limited to the revenue generated by the company or legal entity located in Brazil.

Recipients are defined as the number of individuals receiving reports from the licensed software.

Metrics mainly used with SAP BusinessObjects solutions for SME

Filing: Each Filing permits one Legal Entity to Use the Software to submit an unlimited number of applications, filings, statements, returns, notices, reports, exemption or such other documents to a single Governmental Entity in each calendar year. Submission of any filing by more than one Legal Entity to the same Governmental Entity or by one Legal Entity to multiple Governmental Entities shall require additional Filing licenses.

“Government Entity” means any federal, state, foreign governmental entity, securities authorities, agency, commission, other regulatory, self-regulatory or enforcement authorities or any courts, administrative agencies or commissions or other governmental authorities or instrumentalities.

“Legal Entity” means any individual, person, partnership, joint venture, corporation, company or other form of enterprise, domestic or foreign.

Flat Fee/Fixed Fee is defined as a fixed package license fee for the software.

Rapid Mart (RM) Module is defined as a separate unit of software that may include a specific subject-oriented repository of data and/or content designed to answer specific questions for a specific set of users. E.g. Sales, Inventory, Purchasing, General Ledger, HR etc.

Available Edge Rapid Marts (RM) Modules: SAP (11 modules available); Oracle E-Business Suite (11 modules available); PeopleSoft (5 modules available); Siebel (3 modules available).

Metrics mainly used with Sybase Products

Application Connection is a single licensed SUP User or SUP & Afaia HDM User or SUP for Consumers User accessing a single Application. “Application” is a set of related functionality developed by an SUP Developer User Using SUP or a single mobile application (limited to those mobile applications that are (i) separately licensed from SAP by Ordering Activity and (ii) prescribed for Use with SUP, if any).

Laptop Device is defined as laptop computer.

Limited Runtime Option Productivity Apps are those licensed SAP Enterprise Integration for SAP Mobile Applications or SAP Partner Certified Mobile Apps stated at <http://www.sap.com/solutions/mobility/sap-mobile-platform-runtime-option-for-productivity-apps/index.epx>

Limited Runtime Option Apps are those licensed SAP Enterprise Integration for SAP Mobile Applications or SAP Partner Certified Mobile Apps stated at <http://www.sap.com/solutions/mobility/sap-mobile-platform-runtime-option/index.epx>

Terabyte (TB) is defined as the amount of data stored in terabytes in the main database of Sybase IQ Server in whole numbers (fractions must be rounded up). If VLDB option is licensed, it must be licensed to match the size of the entire main database of the Sybase IQ Server

Exhibit 3 - Package Restrictions

1. SAP Business Suite and Enterprise Foundation

- 1.1 SAP Business Suite. SAP Business Suite when delivered with embedded analytics capabilities includes SAP provided preconfigured business content, including, but not limited to, preconfigured SAP Crystal Reports and SAP BusinessObjects Xcelsius Enterprise Dashboards that can display data from queries. In order to view, use or modify such preconfigured embedded analytics capabilities shipped with the SAP Business Suite (“Embedded Analytics”), Ordering Activity needs to license the appropriate SAP Business Objects software as well as the required SAP Named User licenses. Ordering Activity may additionally download, install and use the Crystal Reports Viewer for SAP Business Suite Applications to display lists from ALV as SAP Crystal Reports at no added cost under the terms and conditions applicable to SAP Business Suite applications.
- 1.2 Enterprise Foundation. Unlike other Package licenses the Enterprise Foundation package comes with 5 (five) SAP Application Professional Users in addition to the use rights for the scope of Enterprise Foundation capabilities. Any additionally required Named Users need to be licensed separately. The license for data destruction in Human Capital Management is included in the ERP license.
- 1.3 Enhancement Packages for Certain SAP Software. The enhancement packages for certain SAP Software may provide new and improved software functionality. Each SAP enhancement package contains business functions that Ordering Activity can activate separately and independently from each other. The standard licensing model for SAP also applies to business functions shipped as part of SAP enhancement packages. To activate business functions, additional licenses may be required. In each of these cases, the respective license needs to be in place prior to activating and Using the business function. Upon request, SAP account executives can provide additional information about the required licenses.

2. Enterprise Extensions

Enterprise Extension Packages require licensing of the Enterprise Foundation Package.

- 2.1 SAP Payroll Processing. Payroll Processing for the USA requires partner software that is subject to additional license fees.
- 2.2 BSI U.S. Payroll Tax Processing. BSI requires licensing of SAP Payroll Processing. Special maintenance agreement required.
- 2.3 SAP Treasury and Risk Management and SAP Treasury and Risk Management, Public Sector. Use of SAP Treasury and Risk Management is limited to a maximum of a hundred (100) active, investment-related security classes in the securities area*. In case a larger number of security classes are required, the Industry Package SAP Investment Management for Insurance and/ or SAP Investment Controlling for Insurance have to be licensed.

* In the SAP system each security (e.g. stocks) is a class. The class data includes all the structure characteristics of a security. Since the creation of transactions and the management of positions in the transaction manager are based on product types, each class needs to be assigned to a product type.
- 2.4 SAP Environment, Health and Safety (EHS) Management; SAP EHS Management, health and safety; SAP EHS Management, environmental compliance; SAP EHS Management, product safety; SAP EHS Management, product and REACH compliance. The products listed above provide a framework to support customers in achieving compliance with certain environment, health and safety regulatory requirements. This framework needs to be adjusted, configured and/or expanded by the Ordering Activity to meet the specific requirements of the customer. SAP does not warrant or guarantee regulatory or other compliance. Ordering Activity has the obligation to implement those products in a manner such that regulatory or other compliance requirements are adequately reflected.
- 2.5 SAP Environment, Health and Safety (EHS) Management; SAP EHS Management, health and safety. SAP Named Users are not required for employees, contractors, and business partner users that interact with the incident management functionality of SAP EHS Management solely to enter data for initial incident reporting and to provide data for incident investigations. Such data entry may occur asynchronously (off-line) via the Adobe Interactive Form tool, synchronously (on-line) by direct interaction with the SAP system, or via mobile devices. This exception applies only to incident management data entry use, and does not apply to any other uses of the incident management functionality or any other functionality of SAP EHS Management including incident processing, investigation, and performance and regulatory reporting.
- 2.6 SAP Incentive and Commission Management. The list price comprises the management of the basic elements commission recipients and contracts, as well as the basic processes valuation, remuneration, closing, and settlement. The option price comprises further functionalities such as manual commission posting, bonus calculation, and target agreement management. Excluded is the functionalities portfolio assignment, credentialing, and risk reduction strategies (actual commissioning and liability management). In case such functionalities are required the corresponding industry package has to be licensed.
- 2.7 SAP Credit Management, SAP Biller Direct, SAP Collections and Dispute Management. SAP Named Users are required for employees of Ordering Activity and employees of third parties acting as agents on behalf of Ordering Activity who are using the applications listed above. SAP Named Users are not required for employees of Business Partners who are accessing the software on behalf of such Business Partner.

3. Industry Packages

- 3.1 SAP Upstream Contracts Management for Oil & Gas. Functional support for any local or legal requirements for any of these solution components is not covered by the standard maintenance agreement. A separate service agreement must be concluded for this purpose.
- 3.2 SAP Secondary Distribution for Oil & Gas. The license for "SAP Secondary Distribution for Oil & Gas" includes a license of the industry package "SAP Downstream Sales & Logistics for Oil & Gas" for up to 25,000 BOEPD. For these 25,000 BOEPD, customers need to license at least 4 "SAP Secondary Distribution for Oil & Gas" users per 1000 BOEPD (e.g. 10 000 sold BOEPD -> licensing of 40 users minimum). Ordering Activities selling more than 25,000 BOEPD need to license the industry package "SAP Downstream Sales & Logistics for Oil & Gas" separately for the sales volumes above 25,000 BOEPD. Refined product volumes are considered as equal to crude oil volumes, e.g. one barrel of diesel equals one barrel of crude oil.
- 3.3 SAP Military Data Exchange. SAP Military Data Exchange is not available for all countries, for details please see contact information at www.sap.com/defense-security
- 3.4 SAP Customer Financial Information Management for Insurance. For the use within the SAP solutions Policy Management FS-PM, Claims Management FS-CM, Billing and Payment FS-CD, Incentive Management FS-ICM a separate purchase is not required.
- 3.5 SAP Social Services Management for Public Sector and SAP Constituent Services for Public Sector. In Public Sector scenarios, constituents are covered by the respective Package license and do not need to be licensed as a SAP Named User.
- 3.6 SAP Tax and Revenue Management for Public Sector. External users accessing the above packages for a strongly restricted set of tasks (include the viewing of documents, change of address, paying of bills and confirmations of delivery and e-filing) do not require a SAP Named User.
- 3.7 SAP Electronic Toll Collection for Public Sector, SAP ERP Billing. External users accessing the above packages for a strongly restricted set of tasks do not require a user license. These tasks are the viewing of documents, change of address (creation and change of a contract account), paying of bills (e.g. pre-paid top-up process) and confirmations of delivery.

- 3.8 SAP Distribution Monitoring for Postal. External users accessing SAP Distribution Management Postal for the strongly restricted set of tasks of viewing of the status / delivery and confirmations of event messages in Event Management via the Web interface do not require a SAP Named User license.
- 3.9 SAP Convergent Charging for post-paid Telecommunications; SAP Convergent Charging for pre-paid Telecommunications; SAP Charging and Billing for High Tech; SAP Convergent Charging, version for Toll Collection; SAP Billing for TC; SAP Charging and Billing for Banking; SAP Convergent Charging for TC. Convergent Charging and Billing Software included in the referenced products may not be Used for, or in support of, billing or revenue share calculation for pre-paid telecommunications products, services or systems in the Restricted Countries or to remotely support prepaid telecommunication systems in the Restricted Countries (collectively, the "Prohibited Pre-Paid Telecom Usage"). All warranties, including without limitation any warranties of non-infringement of intellectual property rights and any associated indemnities are expressly excluded to the fullest extent provided by applicable law in connection with any Prohibited Pre-Paid Telecom Usage. The Restricted Countries are Australia, Brazil, Canada, China, Korea, Israel, Japan and Mexico and the United States. "Telecommunication" as used herein refers to products, services, or systems that provide mobile, Voice Over IP (VOIP), or other types of telephone calls..

4. SAP NetWeaver

Adapters are only available with a SAP NetWeaver PI license and are licensed for a defined release of a backend system or protocol. Maintenance for adapters covers the support of connectivity to a backend system or compliance to a protocol specification at that given release at the time of licensing. It is within SAP's sole discretion to extend the use rights of an adapter (either partly or fully) to a higher release of the respective backend system or protocol. This applies to change of version of protocols as well.

- 4.1 SAP NetWeaver Process Integration (PI). SAP NetWeaver Process Integration may be used by Ordering Activity to integrate Ordering Activity's SAP applications as part of an application-specific runtime license of SAP NetWeaver Foundation. For any other use (e.g. integration into 3rd party applications or non-SAP Applications), SAP NetWeaver Process Integration needs to be licensed separately.
- 4.2 SAP NetWeaver Process Integration (PI) Adapters. The adapters listed here are available free of charge with the SAP NetWeaver PI or SAP Process Orchestration license: CICS Adapter by iWay, TMS/IMS Adapter by iWay, JD EDWARDS ONE WORLD XE Adapter by iWay, ORACLE Adapter by iWay, PeopleSoft Adapter by iWay, Siebel Adapter by iWay, JDE World Adapter by iWay, SAP NetWeaver Adapter for IDOCs, SAP NetWeaver Adapter for RFCs, SAP NetWeaver Adapter for File/FTP, SAP NetWeaver Adapter for Http(s), SAP NetWeaver Adapter for SOAP, SAP NetWeaver Adapter for JMS, SAP NetWeaver Adapter for JDBC, SAP NetWeaver Adapter for Mail Protocols (pop, imap, smtp), SAP NetWeaver Adapter for SAP BC Protocol.
- 4.3 SAP NetWeaver OpenHub. SAP NetWeaver OpenHub has to be licensed whenever data is being extracted and transferred from SAP NetWeaver BW into third party target systems.
- 4.4 Planning Application Kit. A license is required for either SAP BusinessObjects Planning, version for SAP NetWeaver or SAP BusinessObjects Planning and Consolidation, version for SAP NetWeaver whenever the Planning Applications Kit is Used to develop planning applications that leverage in-memory processing of core planning functions
- 4.5 SAP NetWeaver BeXBroadcaster. Broadcasting recipients accessing SAP solutions or their respective components need to be licensed for such solutions. SAP NetWeaver BeX Broadcaster, provides Ordering Activitys with the ability to broadcast SAP NetWeaver BW information (e.g. BeX reports, BeX Queries and BeX workbooks) to support the distribution of mass information to large audiences in a personalized and secure manner.
- 4.6 SAP NetWeaver Business Warehouse Accelerator. Certain hardware restrictions may apply – details are available upon request.
- 4.7 SAP NetWeaver Enterprise Search. Certain hardware restrictions may apply – details are available upon request.
- 4.8 SAP NetWeaver Master Data Management. For all Enterprise Master Data Management scenarios based on SAP NetWeaver Master Data Management products, a SAP Professional Named User license is required for users maintaining MDM data. In an Enterprise Master Data Management scenario, there is no named user license requirement for users reading/viewing and/or browsing MDM data. This includes, but is not limited to a business user using a search application to identify a record in the MDM repository or catalog users accessing a web catalog.
- 4.9 SAP NetWeaver Master Data Management, product and other data. SAP NetWeaver Master Data Management, product and other data includes the license rights of SAP NetWeaver Master Data Management, printing and Product Content Management (PCM).
- 4.10 SAP Enterprise Master Data Management. SAP NetWeaver MDM, global data synchronization is not included into the scope of SAP Enterprise Master Data Management. For all Enterprise Master Data Management scenarios based on SAP NetWeaver Master Data Management products, a SAP Professional Named User license is required for users maintaining MDM data. In an Enterprise Master Data Management scenario, there is no named user license requirement for users reading/viewing and/or browsing MDM data. This includes, but is not limited to a business user using a search application to identify a record in the MDM repository or catalog users accessing a web catalog. For all embedded master data management scenarios based on SAP Master Data Governance products the appropriate Named User is required.
- 4.11 SAP NetWeaver Master Data Management, data quality option. SAP Master Data Management, data quality option can only be sold and used in combination with SAP NetWeaver Master Data Management or SAP Enterprise Master Data Management. As such, SAP Named User policies for these products apply. SAP Master Data Management, data quality option allows using SAP BusinessObjects DataServices (DataServices) for SAP Master Data Management use cases only. A SAP Master Data Management use case is defined as a scenario where data is (i) cleansed, de-duplicated and loaded via DataServices into SAP NetWeaver MDM (MDM) or SAP Master Data Governance (MDG) or (ii) data is distributed from MDM or MDG to downstream systems via

DataServices. DataServices is used for data management within the MDM repository of SAP NW MDM or SAP MDG. This includes but is not limited to on-entry validation and matching or periodic cleansing and de-duplication of the repository.

- 4.12 SAP NetWeaver Identity Management for employees and SAP NetWeaver Identity Management for non-employees. SAP NetWeaver Identity Management may be used by Ordering Activity to integrate Ordering Activity's SAP applications as part of an application-specific runtime license of SAP NetWeaver Foundation. For any other use (e.g. Integration into 3rd party applications or non-SAP applications), SAP NetWeaver Identity Management needs to be licensed.
- 4.13 SAP NetWeaver Foundation for Third Party Applications. Customers must decide the first time they purchase or license a SAP NetWeaver Foundation for Third Party Applications license which model (user-based or CPU-based) they choose. Switching or mixing CPU-based and user-based licensing for SAP NetWeaver Foundation for Third Party Applications is not permitted.
- 4.14 SAP NetWeaver Portal, enterprise workspaces. SAP NetWeaver Portal enterprise workspaces include the runtime rights of SAP NetWeaver Enterprise Portal. In case SAP NetWeaver Portal enterprise workspaces are used standalone without access to any SAP application SAP Named Users licenses are not required.
- 4.15 Duet Enterprise. Duet Enterprise is delivered with a limited number of Duet Enterprise Starter Services specified in the Documentation and at: https://websmp107.sap-ag.de/~sapdownload/012002523100014103542010E/Duet_Enterprise_services.htm. SAP Platform Standard Users may access Duet Enterprise Starter Services provided (i) Ordering Activity has licensed the package license for Duet Enterprise; and (ii) Duet Enterprise Starter Services are accessed solely through Microsoft SharePoint leveraging Duet Enterprise. Any Use of Duet Enterprise beyond the Duet Enterprise Starter Services requires Ordering Activity to license the applicable SAP Named User type and category. In addition, Ordering Activity is also licensed to Use SAP NetWeaver Gateway but only via MS Sharepoint, MS Office and/or Duet Enterprise for the sole purpose of performing Duet Enterprise functions. Any other Use of SAP NetWeaver Gateway requires a separate SAP NetWeaver Gateway license.
- 4.16 SAP NetWeaver Gateway (embedded license). Certain SAP Software may contain an embedded license of SAP NetWeaver Gateway. Any Use of SAP NetWeaver Gateway (embedded license) beyond the scope of such SAP Software requires separate licensing of SAP NetWeaver Gateway.
- 4.17 SAP NetWeaver Process Orchestration. SAP NetWeaver Process Orchestration includes the rights to use SAP NetWeaver Process Integration (PI), SAP NetWeaver Business Process Management (BPM) and SAP NetWeaver Business Rules Management (BRM).
- 4.18 SAP NetWeaver Single Sign-On Internal User and SAP NetWeaver Single Sign-On External User. Users performing developer or administrative functions require a Named User license in addition to the Package License for the Software.
- 4.19 SAP NetWeaver Landscape Virtualization Management, enterprise edition. Licenses for LVM instances are not permanently assigned to a specific LVM instance, but can be pooled allowing them to be assigned and unassigned to LVM instances as necessary based on the applications being managed by SAP NetWeaver Landscape Virtualization Management. Licenses for the copy/refresh option must be assigned to a specific SAP system/application (e.g. ECC, CRM, SRM, etc.), and can only be reassigned to a different system/application once in a 12 month period. Ordering Activity acknowledges and agrees that it is Ordering Activity's responsibility to ensure that it has all necessary third party license rights required to clone and/or copy an environment using this software, and Ordering Activity has obtained and will maintain all such license rights necessary to use the functionality described herein, including without limitation the license right to operate the target system landscape after cloning and/or copying. Without limiting the materiality of other provisions of this Attachment, the parties agree that any violation by Ordering Activity of third party license rights in this respect will be a material breach of these Attachment A terms.

5. **SAP BusinessObjects**

5.1 **SAP BusinessObjects (BA&T License Model)**

5.1.1 SAP BusinessObjects Business Intelligence

There are two ways to license SAP BusinessObjects Business Intelligence capabilities:

- (1) SAP BusinessObjects Business Intelligence Suite model The BI Suite includes the SAP BusinessObjects BI platform along with engines for the following: the Mobile engine, the Crystal Reports engine, the Web Intelligence engine, the Dashboards engine, the Explorer engine, the Analysis, for Microsoft Office engine, and the Analysis, for OLAP engine. The BI Suite Package engines include rights to view content for the BI clients identified above.
- (2) Component (non-Suite) model. The SAP BusinessObjects Business Intelligence products that comprise the SAP BusinessObjects Business Intelligence Suite can be purchased separately via a component model if preferred. Each of the following (the "Client Engines") can be purchased individually: the SAP BusinessObjects BI platform, the Mobile engine, the Crystal Reports engine, the Web Intelligence engine, the Dashboards engine, the Explorer engine, the Analysis, for Microsoft Office engine, and the Analysis, for OLAP engine. The engines include rights to view content for the BI clients identified above that have been explicitly purchased.

For a single Deployment of SAP BusinessObjects BI platform, either the SAP BusinessObjects Business Intelligence Suite model or the Component Model must be used. They cannot both be used in a single Deployment of SAP BusinessObjects BI platform.

Author/Designer Licenses are available in two ways:

- (a) SAP Application Business Analytics Professional User
- (b) SAP Application BI Limited User

Both the SAP BusinessObjects Business Intelligence Suite and the Component models can be licensed using either the Concurrent Session license metric or the Named User (NUL) license metric.

If purchased using the Component (non-Suite) Model, the Client Engines must be licensed using the same metric (NUL or Concurrent Sessions) as the BI Platform and cannot exceed the number of licenses for the BI Platform using the same license metric.

5.1.2 Dashboard and Visualization

5.1.2.1 SAP BusinessObjects Dashboards software

If you refresh, publish, push or otherwise change data contained in any Dashboards generated SWF file (or SWF file exported to other supported file formats (e.g., PDF, AIR, PPT)), you must have rights to a Dashboards Author/Design License.

5.1.3 BA&T SAP Business Objects Explorer accelerated package

The SAP BusinessObjects Explorer package is intended to support a limited use scenario of search and exploration with SAP BusinessObjects Business Intelligence against both in-memory (accelerated) data sources and traditional data sources. The SAP BusinessObjects Explorer Package includes the rights to use Explorer in the following scenarios (1) search and exploration against data via the SAP BusinessObjects semantic layer associated with this license, (2) search and exploration against data resident in accelerated data sources and (3) search and exploration against data contained within Excel or .csv files.

The BA & T SAP BusinessObjects Explorer accelerated package is comprised of:

1. SAP BusinessObjects Explorer engine
2. SAP BusinessObjects BI platform (to be used only to support SAP BusinessObjects Explorer)
 - a. SAP BusinessObjects BI platform. Ordering Activity is licensed to use only the following features of the SAP BusinessObjects BI platform: (a) Central Management Console (CMC), (b) third party authentication, (c) exploration of in-memory-based indexes with Explorer, (d) Central configuration Manager, (e) information design tool, (f) Translation Manager, (g) Lifecycle Management tool, (h) Upgrade Management tool, (i) BI launch pad
3. SAP BusinessObjects Data Integrator. Use is limited as follows:
 - a. Data Integrator and BusinessObjects BI platform may only be used in conjunction with SAP BusinessObjects Explorer package.
 - b. Data Integrator may not be installed on the same blade as the SAP NetWeaver BWA blade or other data platforms.
 - c. Data Integrator may not be used for standalone ETL (extract, transform and load) projects.

License rights do not include SAP BusinessObjects Mobile engine or specific in-memory platforms (which must be licensed separately).

5.1.4 SAP BusinessObjects Enterprise Information Management Solutions

5.1.4.1 SAP BusinessObjects Enterprise Information Management (EIM) Packages

The total number of CPUs licensed represents the maximum total cumulative CPUs on which all of the Software included in the EIM packages may be installed and Used. Address and Geocoding directories are not included and must be licensed separately.

5.1.5 SAP BusinessObjects Data Services, SAP BusinessObjects Data Integrator, and SAP BusinessObjects Data Quality Management **software**

Address and Geocoding directories are not included and must be licensed separately.

5.1.5.1 SAP BusinessObjects Data Services

The total number of CPUs licensed represents the maximum total cumulative CPUs on which all of the Software included in SAP BusinessObjects Data Services may be installed and Used.

The Use of SAP BusinessObjects Data Insight (except for licenses bundled or otherwise provided in combination with or for use with a third party product) is limited to five Named Users. Data Services includes a runtime license for 2 CPU licenses of SAP BusinessObjects Information Steward. Use of the BusinessObjects Information Steward is limited to Cleansing Package Builder and the Basic and Advanced Profiling capabilities that are contained in Data Insight.

5.1.5.2 SAP BusinessObjects Data Quality Management

The total number of CPUs licensed represents the maximum total cumulative CPUs on which all of the Software included in SAP BusinessObjects Data Services may be installed and Used. The Use of SAP BusinessObjects Data Insight (except for licenses bundled or otherwise provided in combination with or for use with a third party product) is limited to five Named Users. Data Services includes a runtime license for 2 CPU licenses of SAP BusinessObjects Information Steward. Use of the BusinessObjects Information Steward is limited to Cleansing Package Builder and the Basic and Advanced Profiling capabilities that are contained in Data Insight.

5.1.5.3 Data Quality Management (“DQM”) SDK

A license to Data Quality Management SDK may be acquired in two configurations as follows: (1) a stand-alone or non-bundled configuration (“DQM SDK Non-Bundled Configuration”) and (2) bundled with CPU Metric licenses to Data Services and/or DQM Premium (“DQM SDK Bundled Configuration”). If acquired in the DQM SDK Non-Bundled Configuration, then a license to DQM SDK is provided as a Server License. If acquired in the DQM SDK Bundled Configuration, then licenses to DQM SDK are included as part of the CPU Metric licenses of Data Services and/or DQM Premium licensed by Ordering Activity, such that a subset of the number of such CPU licenses licensed by Ordering Activity may be Used to solely run DQM SDK, provided that the aggregate number of licenses deployed for DQM SDK and Data Services and DQM Premium must not exceed the total of Data Services and DQM Premium licenses acquired. For example, if Ordering Activity has in the aggregate licensed six CPU licenses of Data Services and/or DQM Premium, then Ordering Activity may Use two CPU licenses to run DQM SDK and the remaining 4 CPU licenses to run Data Services and/or DQM Premium; or Ordering Activity may Use three CPU licenses to run DQM SDK and the remaining 3 CPU licenses to run Data Services and/or DQM Premium; or Ordering Activity may Use all six CPU licenses to run DQM SDK.

- 5.1.5.4 SAP BusinessObjects Data Quality Management software, version for SAP Solutions
When licensing SAP BusinessObjects Data Quality Management, version for SAP Solutions, the data quality functions must be Used solely with activities initiated within the SAP applications. When licensed this way, the Use of data quality functions for purposes outside the application it was licensed for is strictly prohibited. A separate license of SAP BusinessObjects Data Quality Management or SAP BusinessObjects Data Services must be licensed if the Use of data quality functions is required outside of the SAP application. Deployment of this license means Ordering Activity has the ability to spread the licensed number of CPU's across a single or multiple servers as long as the total number of CPU's Used across the servers add up to the amount of CPUs Ordering Activity is licensed for.
- 5.1.6 SAP BusinessObjects Rapid Marts Products
When licensing SAP BusinessObjects Rapid Marts, a license for SAP BusinessObjects Data Integrator or Data Services must also be obtained. If SAP BusinessObjects Rapid Marts is licensed with SAP BusinessObjects Data Integrator or Data Services, an individual SAP BusinessObjects Rapid Marts license must be obtained for each SAP BusinessObjects Data Integrator or Data Services license. Copying one SAP BusinessObjects Rapid Marts license and then deploying it to other instances is prohibited.
- 5.1.7 SAP BusinessObjects Metadata Management
Metadata Management comes with a limited use license of SAP BusinessObjects BI Platform. Ordering Activity may use SAP BusinessObjects BI Platform only in conjunction with Metadata Management. Accessing data that is not specifically created or Used by Metadata Management is in violation of this license. Furthermore, Ordering Activity may Use only the following features of SAP BusinessObjects BI Platform: (a) Central Management Server (CMS) for user or group authentication purposes and (b) Central Management Console for security related to user management and access to integrator sources, source groups, metapedia, utilities and managing and scheduling integrator source runs and utilities runs.
- 5.1.8 SAP BusinessObjects Data Migration Starter Package
SAP BusinessObjects Data Migration Starter Package is licensed on a Term License basis.
- 5.1.9 SAP BusinessObjects Data Migration Starter Package
SAP BusinessObjects Data Migration Starter Package may only be deployed in conjunction with SAP BusinessObjects Metadata Management and/or Data Services on a single server having a maximum of four CPUs. SAP BusinessObjects Data Migration Starter Package may only be used in conjunction with a single target system instance where the system ID of the target system is provided in writing to SAP at the beginning of the Ordering Activity's implementation project.
- 5.1.10 SAP BusinessObjects Enterprise Performance Management
- 5.1.10.1 SAP BusinessObjects Financial Consolidation. Use of SAP BusinessObjects BI Platform included with SAP BusinessObjects Financial Consolidation is limited solely to the following features: (a) use of the Central Management Server ("CMS") to authenticate and/or authorize users for the applications listed above; (b) use of the Central Management Console ("CMC") to administer user rights and privileges as they pertain to the application and (c) use of Infoview to navigate and launch Analyzer workspaces.
- 5.1.11 SAP BusinessObjects Financial Information Management
When licensing SAP BusinessObjects Financial Information Management, SAP BusinessObjects Data Integrator may be Used:
- solely with certain licensed SAP BusinessObjects solutions for SME, SAP BusinessObjects analytic applications and SAP NetWeaver BW, together with certain licensed SAP BusinessObjects EPM applications, which is specified and Used in accordance with the Documentation; and
 - solely for Use with SAP BusinessObjects Financial Information Management.
- SAP BusinessObjects Financial Information Management is to be licensed whenever data integration with third party systems is required.
Limited functionality of Financial Information Management for which Ordering Activity does not hold a license ("FIM Runtime Software") may be utilized by certain licensed SAP Software as described in the Documentation. Until Ordering Activity has expressly licensed the FIM Runtime Software, Ordering Activity's Use of the FIM Runtime Software is limited to access by and through the licensed SAP Software for the sole purpose of enabling performance of the licensed SAP Software and integrating data from licensed SAP Software as specified in the Documentation.
- 5.1.12 SAP Electronic Invoicing for Brazil (Nota Fiscal Electronica)
SAP Electronic Invoicing for Brazil – Outbound and Inbound (Nota Fiscal Electronica – Outbound or Inbound) includes a runtime license SAP PI.
- 5.1.13 SAP BusinessObjects Governance, Risk and Compliance Solutions.
SAP BusinessObjects Governance, Risk and Compliance (GRC) solutions may utilize limited functionality of Xcelsius Enterprise and Crystal Reports for which Ordering Activity does not hold a license ("Reporting Runtime Software"). Until Ordering Activity has expressly licensed the Reporting Runtime Software, Ordering Activity's Use of such Reporting Runtime Software is limited to access by and through GRC, and any permitted Modifications thereto for the sole purpose of enabling performance of GRC. The Reporting Runtime Software may only be used by licensed SAP Named Users for GRC. Ordering Activity is not licensed to use any Crystal Reports components for .Net application development.
- 5.1.13.1 SAP BusinessObjects Access Control, starter edition
Use of SAP BusinessObjects Access Control, starter edition is limited to the measuring, monitoring and reporting of access risks; and administering and reporting of superuser access.
- 5.1.14 SAP BusinessObjects solutions for SME
- 5.1.14.1 SAP BusinessObjects Edge BI (Edge BI)

Edge BI licensed by Users has a limit of 250 users per server. Edge BI includes publishing up to 1000 Recipients. Edge BI includes one (1) SAP Business Analytics Professional user license and nine (9) SAP BI Limited user licenses for each block of 10 users or 5 Concurrent Sessions licensed exclusively for the use of Edge BI. Edge BI licensed on a Concurrent Session License basis shall not exceed 50 Concurrent Sessions in a single deployment. After Ordering Activity acquired Concurrent Session packages, Ordering Activity may license add-on user licenses of Edge BI in the same quantity as the number of Concurrent Session Licenses.

- 5.1.14.2 SAP BusinessObjects Edge BI, version with data management
SAP BusinessObjects Data Quality Management and SAP BusinessObjects Data Integrator delivered with SAP BusinessObjects Edge BI may only be deployed on a single server (up to 250 named users or 50 Concurrent Sessions) and must be deployed either (a) on the same server where the corresponding SAP BusinessObjects Edge BI product is deployed, or (b) on a separate server having up to three CPUs. SAP BusinessObjects Data Quality Management and SAP BusinessObjects Data Integrator may only be used in conjunction with SAP BusinessObjects Edge BI and may not be used on a stand-alone basis. Ordering Activity shall only be permitted to use up to two database types under the database interfaces and shall only be permitted one target datastore.
- 5.1.14.3 SAP BusinessObjects Edge BI, version with data integration
SAP BusinessObjects Data Integrator delivered with SAP BusinessObjects Edge BI may only be deployed on a single server (up to 250 named users or 50 Concurrent Sessions) and must be deployed either (a) on the same server where the corresponding SAP BusinessObjects Edge BI product is deployed, or (b) on a separate server having up to three CPUs. SAP BusinessObjects Edge BI, version with data integration and SAP BusinessObjects Data Integrator may only be used in conjunction with SAP BusinessObjects Edge BI and may not be used on a stand-alone basis. Ordering Activity shall only be permitted to use up to two database types under the database interfaces and shall only be permitted one target datastore. When SAP BusinessObjects Data Integrator is used with SAP BusinessObjects Edge Rapid Marts, it may be deployed on a server with up to 4 CPUs.
- 5.1.14.4 SAP BusinessObjects Edge Data Services, Edge Data Integrator and Edge Data Quality Management (Edge EIM Solutions)
The total number of CPUs licensed represents the maximum total cumulative CPUs on which all of the Software included in SAP BusinessObjects Edge Data Services may be installed and Used. For SAP BusinessObjects Edge Data Services and Edge Data Quality Management, Use of SAP BusinessObjects Data Insight (except for licenses bundled or otherwise provided in combination with or for use with a third party product) is limited to five Named Users. Edge Data Services and Edge Data Quality Management include a runtime license for 2 CPU licenses of SAP BusinessObjects Information Steward. Use of the BusinessObjects Information Steward is limited to Cleansing Package Builder and the Basic and Advanced Profiling capabilities that are contained in Data Insight. Address and Geocoding directories are not included in any of the Edge EIM Solutions and must be licensed separately. Each deployment of any of the Edge EIM Solutions is limited to a single server, with a minimum of 3 CPUs and a maximum of 5 CPUs. All Edge EIM solutions include the SAP Business Analytics Professional User license exclusively for the use of the applicable Edge EIM Solutions, and do not require additional SAP Application Named Users.
- 5.1.14.5 SAP BusinessObjects Edge Rapid Marts
When licensing the SAP BusinessObjects Edge Rapid Marts Product, a license for SAP BusinessObjects Edge BI, version with Data Integration or SAP BusinessObjects Edge BI, version with Data Management must also be obtained. SAP BusinessObjects Edge Rapid Marts may only be deployed on a single server and must be deployed either (a) on the same server where the corresponding SAP BusinessObjects Edge BI product is deployed, or (b) on a separate server with up to 4 CPU. SAP BusinessObjects Edge Rapid Marts can only be used in conjunction with SAP BusinessObjects Edge BI. Copying one SAP BusinessObjects Edge Rapid Marts license and then deploying it to other instances is prohibited. Each SAP BusinessObjects Edge Rapid Mart includes the related Application Interface license
- 5.1.14.6 SAP BusinessObjects Edge Planning and Consolidation
The licensing of the SAP BusinessObjects Edge Planning and Consolidation is restricted to 100 users maximum on a single server,
- 5.1.14.7 SAP BusinessObjects Edge Strategy Management
License limitation: Maximum deployment of single application server only and not more than 70 users. Each deployment is limited to 25 contexts and 25 data models.
- 5.1.15 SAP BusinessObjects analytic solutions
Limited License: Use of the SAP BusinessObjects analytic solution ("BA Solutions"), and any SAP software licensed as part of the BA Solution ("BA software"), is limited to the BA Solution specific purpose ("Purpose").
BA software: SAP may offer BA software contained in the BA Solution also as a separate SAP software product on the SAP list of prices and conditions. Terms and conditions for, and functionality of BA Software may be different from the separate SAP software product. Additional functionality of such SAP software product may be subject to a separate license agreement and additional license fees.
- 5.1.16 SAP BusinessObjects Enterprise Risk Reporting for Banking.
Use of this Software is limited to measuring and monitoring enterprise risk for Ordering Activity's banking operations.
- 5.1.17 SAP BusinessObjects Trade Promotion Effectiveness Analysis
Use of this Software is limited to performing analysis on trade promotion effectiveness.
- 5.1.18 SAP BusinessObjects Sales Analysis for Retail
Use this Software is limited to performing retail and point of sale data analysis.
- 5.1.19 SAP BusinessObjects Upstream Operations Performance Analysis application
Use of this Software is limited to the analysis surrounding of the operational data supporting upstream production of oil and gas hydrocarbons.

- 5.1.20 SAP BusinessObjects Planning and Consolidation for Banking
Use of this Software is limited to the following for Ordering Activity's banking operations: financial planning, budgeting, forecasting and consolidations, and reporting of financial and other plan data.
- 5.1.21 SAP BusinessObjects Planning and Consolidation for Public Sector
Use of this Software is limited to the following for Ordering Activity's Public Sector business operations: long range business planning, forecasting, financial consolidation and reporting, and performance management.
- 5.1.22 SAP BusinessObjects Planning for Public Sector
Use of this Software is limited to long range planning, budgeting and planning, forecasting and reporting in the Public Sector.
- 5.1.23 SAP BusinessObjects Sales and Operational Planning rapid deployment solution
Use of this Software is limited to the Sales and Operational business planning process such as consensus demand management, supply visibility, rough cut capacity aggregation, and monitoring business process utilizing forecast input from Sales, Marketing, Operations and Finance.
- 5.1.24 Additional License Conditions for Knowledge Accelerator
- 5.1.24.1 SAP BusinessObjects Knowledge Accelerator (other than ON RWD platform. SAP BusinessObjects Knowledge Accelerator may be used to meet Ordering Activity's employee training needs and may not be used by or on behalf of any third party. SAP BusinessObjects Knowledge Accelerator other than on RWD Platform is an older version of Knowledge Accelerator (pre-XI release 3) which will continue to be sold by SAP BusinessObjects. The following statements relate only to this older version of Business Objects Knowledge Accelerator: Any customization tools included with the SAP BusinessObjects Knowledge Accelerator Software (Global Knowledge™ On-Demand-for-Business Objects Software) shall be used only for modifying or customizing the content developed by SAP BusinessObjects Knowledge Accelerator Software, and only by the number of instructional designers and administrators specified in this Order Schedule. Ordering Activity shall not modify, reverse engineer, or distribute for commercial or non-commercial use such tools, or use such tools to develop other content, including content related to other Licensor products.
- 5.1.24.2 Knowledge Accelerator on RWD Platform. SAP BusinessObjects Knowledge Accelerator may be used to meet Ordering Activity's employee training needs and may not be used by or on behalf of any third party. Notwithstanding any other provision of the Training Schedule, NULs of Knowledge Accelerator may not be transferred to other individuals, even if the original user is no longer permitted access to Knowledge Accelerator. If an individual is no longer employed by Ordering Activity, Ordering Activity may transfer such individual's NUL to another user.
- 5.1.25 Predictive Workbench. Predictive Workbench includes an embedded third party product, which must be used in connection with BusinessObjects Enterprise and not on a standalone basis.
- 5.2 SAP BusinessObjects (Classic Solutions Model)
- 5.2.1 SAP BusinessObjects Enterprise
- 5.2.1.1 Dashboard Builder. The software components, tools and utilities supplied with Dashboard Builder may only be used with the product with which they were provided. In addition, the Web Intelligence utilities provided with Dashboard Builder may only be used to view the analytic templates provided with Dashboard Builder.
- 5.2.1.3 SAP BusinessObjects Enterprise. You may not combine licenses for different editions of BusinessObjects Enterprise in a single Deployment (for example, Premium licenses may not be combined with Professional licenses in the same Deployment). You may use BusinessObjects Enterprise Professional to publish and distribute only one of SAP BusinessObjects' proprietary report format types (Crystal Reports, Web Intelligence/Desktop Intelligence/BusinessObjects/Voyager). Web Intelligence and Desktop Intelligence are deemed a single proprietary report format for this purpose. If you wish to publish and distribute more than one report format type, you must acquire BusinessObjects Enterprise Premium. Notwithstanding the foregoing, if Ordering Activity migrates from a combined BusinessObjects and Web Intelligence Deployment to BusinessObjects Enterprise, Ordering Activity may use both BusinessObjects and Web Intelligence report types in that Deployment.
- 5.2.1.3 SAP BusinessObjects Product Options. Options for BusinessObjects Enterprise Professional, Crystal Enterprise Professional, and Crystal Reports Server (collectively, "Underlying Application") are licensed as add-ons to a Deployment. Options may include Crystal Reports Explorer, Auditing, Publishing, Live Office, Integration Kits for third party applications and other products designated as Options for an Underlying Application. If both the Underlying Application and the Options are licensed on a CPU metric, the number and type of Option licenses must match the number and type of the Underlying Application licenses in the Deployment in which the Options are used
- 5.2.1.4 Web Intelligence Interactive Viewing. Keycodes to Web Intelligence Interactive Viewing unlock all features of the full Web Intelligence product. However, Web Intelligence Interactive Viewing is a limited license and may not be utilized to edit or create documents.
- 5.2.2 SAP BusinessObjects BI Package. SAP BusinessObjects BI Package includes a restricted license of SAP BusinessObjects Information Steward. Use of the SAP BusinessObjects Information Steward is limited to the Metadata Management and Metapedia functionality.
- 5.2.3 SAP BusinessObjects BI Starter Package. The licensing of the SAP BusinessObjects BI starter package is restricted to maximum of 100 users maximum on a single server.
- 5.2.4 Dashboard and Visualization

- 5.2.4.1 SAP® BusinessObjects™ Xcelsius® software. If you refresh, publish, push or otherwise change data contained in any Xcelsius generated SWF file (or SWF file exported to other supported file formats (e.g., PDF, AIR, PPT)), you must purchase a Xcelsius Interactive Viewing License. Xcelsius Interactive Viewing is included with and matches the Named User Licenses (“NUL”) of Crystal Reports Server and BusinessObjects Edge. Unlimited Interactive Viewing is included with Xcelsius Engage but limited to SWF files with a maximum of two connections.
- 5.2.5 SAP BusinessObjects Enterprise Information Management Solutions
- 5.2.5.1 SAP BusinessObjects Data Services, SAP BusinessObjects Data Integrator, and SAP BusinessObjects Data Quality Management software.
If Ordering Activity wants to deploy a Data Services, Data Integrator, or Data Quality Management License to access enterprise data sources such as packaged applications, databases, or technology infrastructure products, Ordering Activity must obtain individual interface licenses such as Application Interface, Database Interface, JMS Technology Interface, or Salesforce.com Technology Interface. Address directories are not included and must be licensed separately.
- 5.2.5.2 SAP BusinessObjects Data Services. The following is included in each license of the SAP BusinessObjects Data Services:
- Five Named Users of SAP BusinessObjects Data Insight (except for licenses bundled or otherwise provided in combination with or for use with a third party product)
 - Runtime license for 2 CPU licenses of SAP BusinessObjects Information Steward. Use of the BusinessObjects Information Steward is limited to Cleansing Package Builder and the Basic and Advanced Profiling capabilities that are contained in Data Insight.
 - One license of each of Real Time Transactional Processing, Data Source Web Service Access, Multi-user Team Development and Grid Computing
 - Database Interface licenses to an uncapped number of Types of databases
 - Salesforce.com Technology Interface
 - JMS Technology Interface
- 5.2.6 SAP BusinessObjects Data Integrator
- 5.2.6.1 SAP BusinessObjects Data Integrator Starter. Each license of the Software includes one Database Interface license.
- 5.2.6.2 SAP BusinessObjects Data Integrator Professional. Each license of the Software includes two Database Interface licenses.
- 5.2.6.3 SAP BusinessObjects Data Integrator Premium. Each license of the Software includes one license of each of Real Time Transactional Processing, Data Source Web Service Access, Multi-user Team Development, Grid Computing, Salesforce.com Technology Interface, JMS Technology Interface; and Database Interface licenses to an uncapped number of database Types.
- 5.2.7 SAP BusinessObjects Data Quality Management
- 5.2.7.1 SAP BusinessObjects eDQ Management. Ordering Activity may Use SAP BusinessObjects eDQ Management for transactional or real-time environments only. Each license of the Software includes one license of SAP BusinessObjects DQM, cleansing package option for one language.
- 5.2.7.2 SAP BusinessObjects Data Quality Management Professional. Each license of the Software includes one Database Interface license and one license of SAP BusinessObjects DQM, cleansing package option for one language.
- 5.2.7.3 SAP BusinessObjects Data Quality Management Premium. Each license of the Software includes:
- Five Named Users of SAP BusinessObjects Data Insight (except for licenses bundled or otherwise provided in combination with or for use with a third party product)
 - Runtime license for 2 CPU licenses of SAP BusinessObjects Information Steward. Use of the BusinessObjects Information Steward is limited to Cleansing Package Builder and the Basic and Advanced Profiling capabilities that are contained in Data Insight.
 - Two Database Interface licenses
 - One license of SAP BusinessObjects DQM, cleansing package option for one language
 - SAP BusinessObjects DQM, SDK
 - One license of each of Real Time Transactional Processing, Data Source Web Service Access, Multi-user Team Development and Grid Computing
- 5.2.7.4 Interface licenses. A prerequisite for any Application Interface, Database Interface or Technology Interface license is a Data Services, Data Integrator, or Data Quality Management license. Application Interface is licensed per application Instance. “Instance” means the Software may only be used for one unique connection to a specified application or technology. If multiple instances of an application are accessed by the Application Interface, then one Application Interface License must be acquired for each instance. Application Interface Unlimited, Database Interface, JMS Technology Interface and Salesforce.com Technology Interface are licensed per application, database or technology Type, as applicable. “Type” means an unlimited number of connections to the single, specified application, database or technology.
- 5.2.7.5 Data Quality Management (“DQM”) SDK. A license to Data Quality Management SDK may be acquired in two configurations as follows: (1) a stand-alone or non-bundled configuration (“DQM SDK Non-Bundled Configuration”), and (2) bundled with CPU Metric licenses to Data Services and/or DQM Premium (“DQM SDK Bundled Configuration”). If acquired in the DQM SDK Non-Bundled Configuration, then a license to DQM SDK is provided as a Server License. If acquired in the DQM SDK Bundled Configuration, then licenses to DQM SDK are included as part of the CPU Metric licenses of Data Services and/or DQM Premium licensed by Ordering Activity, such that a subset of the number of such CPU licenses licensed by Ordering Activity may be Used to solely run DQM SDK, provided that the aggregate number of licenses deployed for DQM SDK and Data Services and DQM Premium must not exceed the

total of Data Services and DQM Premium licenses acquired. For example, if Ordering Activity has in the aggregate licensed six CPU licenses of Data Services and/or DQM Premium, then Ordering Activity may Use two CPU licenses to run DQM SDK and the remaining 4 CPU licenses to run Data Services and/or DQM Premium; or Ordering Activity may Use three CPU licenses to run DQM SDK and the remaining 3 CPU licenses to run Data Services and/or DQM Premium; or Ordering Activity may Use all six CPU licenses to run DQM SDK.

5.2.7.6 SAP BusinessObjects Data Quality Management software, versions for use with SAP, Siebel or Informatica applications. When licensing SAP BusinessObjects Data Quality Management, version for SAP solutions, Siebel applications, or Informatica PowerCenter, the data quality functions must be Used solely with activities initiated within the SAP, Siebel, or Informatica application, respectively. When licensed this way, the Use of data quality functions for purposes outside the application it was licensed for is strictly prohibited. A separate license of SAP BusinessObjects Data Quality Management or SAP BusinessObjects Data Services must be licensed if the Use of data quality functions is required outside of the SAP, Siebel, or Informatica application. Deployment of this license means Ordering Activity has the ability to spread the licensed number of CPU's across a single or multiple servers as long as the total number of CPU's Used across the servers add up to the amount of CPUs Ordering Activity is licensed for. Grid computing licenses are not included and require to be licensed separately.

5.2.7.7 SAP BusinessObjects Rapid Marts Products. When licensing SAP BusinessObjects Rapid Marts, a license for SAP BusinessObjects Data Integrator or Data Services must also be obtained. If SAP BusinessObjects Rapid Marts is licensed with SAP BusinessObjects Data Integrator or Data Services, an individual SAP BusinessObjects Rapid Marts license must be obtained for each SAP BusinessObjects Data Integrator or Data Services license. Copying one SAP BusinessObjects Rapid Marts license and then deploying it to other instances is prohibited. In addition to the foregoing, Ordering Activity must license certain applicable Application Interfaces.

5.2.7.8 SAP BusinessObjects Metadata Management. Metadata Management comes with a limited use license of SAP BusinessObjects Enterprise. Ordering Activity may use SAP BusinessObjects Enterprise only in conjunction with Metadata Management. Accessing data that is not specifically created or Used by Metadata Management is in violation of this license. Furthermore, Ordering Activity may Use only the following features of SAP BusinessObjects Enterprise: (a) Central Management Server (CMS) for user or group authentication purposes and (b) Central Management Console for security related to user management and access to integrator sources, source groups, metapedia, utilities and managing and scheduling integrator source runs and utilities runs.

5.2.8 SAP BusinessObjects Explorer

5.2.8.1. Keycodes for Explorer used in conjunction with SAP BusinessObjects Enterprise Professional (for Enterprise Reporting) will unlock all features of the Web Intelligence product. Such Web Intelligence features may be used only by SAP BusinessObjects Explorer.

5.2.8.2 SAP Business Objects Explorer (Data Exploration Component). SAP BusinessObjects Explorer (Data Exploration Component) includes SAP BusinessObjects Data Integrator Premium and SAP BusinessObjects Enterprise. Ordering Activity's use is limited as follows:

- Data Integrator Premium and BusinessObjects Enterprise may only be used in conjunction with SAP BusinessObjects Explorer (Data Exploration Component).
- Data Integrator Premium may not be installed on the same blade as the SAP NetWeaver BWA blade.
- Data Integrator Premium may not be used for standalone ETL (extract, transform and load) projects.
- Ordering Activity is licensed to Use only the following features of SAP BusinessObjects Enterprise: (a) Central Management Console (CMC), (b) third party authentication, (c) exploration of BWA-based indexes with Explorer, (d) Central configuration Manager, and (e) Import Wizard.

5.2.9 SAP BusinessObjects solutions for SME

5.2.9.1 SAP BusinessObjects Edge BI (Edge BI). Edge BI licensed by SAP Named Users has a limit of 250 users per server. Edge BI includes publishing up to 1000 Recipients. Standalone Use of Edge BI standalone does not require SAP Application named users; when used with SAP ERP, the SAP Business Expert named user is not relevant and an SAP Professional named user is sufficient. Edge BI licensed as CAL (Concurrent Access License) through SAP BusinessObjects resellers shall not exceed 50 CALs in a single deployment. After Ordering Activity acquired CAL packages from an SAP BusinessObjects reseller, Ordering Activity may license add-on named user licenses of Edge BI in the same quantity as the number of CAL licensed.

5.2.9.2 SAP BusinessObjects Edge BI, version with data management. SAP BusinessObjects Data Quality Professional and SAP BusinessObjects Data Integrator Starter delivered with SAP BusinessObjects Edge BI may only be deployed on a single server (up to 250 users) and must be deployed either (a) on the same server where the corresponding SAP BusinessObjects Edge BI product is deployed, or (b) on a separate server having up to two CPUs. SAP BusinessObjects Data Quality Professional and SAP BusinessObjects Data Integrator Starter may only be used in conjunction with SAP BusinessObjects Edge BI and may not be used on a stand-alone basis. Ordering Activity shall only be permitted to use up to two database types under the database interfaces and shall only be permitted one target datastore.

5.2.9.3 SAP BusinessObjects Edge BI, version with data integration. SAP BusinessObjects Data Integrator Starter delivered with SAP BusinessObjects Edge BI may only be deployed on a single server (up to 250 users) and must be deployed either (a) on the same server where the corresponding SAP BusinessObjects Edge Series product is deployed, or (b) on a separate server having up to two CPUs. SAP BusinessObjects Edge BI, version with data integration and SAP BusinessObjects Data Integrator Starter may only be used in conjunction with SAP BusinessObjects Edge BI and may not be used on a stand-alone basis. Ordering Activity shall only be permitted to use up to two database types under the database interfaces and shall only be permitted one target datastore. When SAP BusinessObjects Data Integrator Starter is used with SAP BusinessObjects Edge Rapid Marts it may be deployed on a server with up to 4 CPUs.

6 SAP Crystal

6.1 Use Rights for All SAP Crystal Products

6.1.1 Definitions

- 6.1.1.1 “SAP Crystal software” is defined to be the following products: SAP Crystal Reports, SAP Crystal Server, SAP Crystal Reports Server, SAP Crystal Dashboard Design, SAP Crystal Presentation Design, SAP Crystal Interactive Analysis, and Xcelsius Engage Server.
- 6.1.1.2 “Desktop SAP Crystal software” is defined to be all SAP Crystal products except for SAP Crystal Server and SAP Crystal Reports Server.
- 6.1.1.3 “Connected Presentation” means any SWF file created with SAP Crystal Dashboard Design personal edition, SAP Crystal Dashboard Design departmental edition, or Xcelsius Engage Server that refresh, publish, push or otherwise change data contained in such SWF file (or SWF file exported to other supported file formats (e.g., PDF, AIR, PPT)),
- 6.1.1.4 “Self Contained Presentation” means any SWF file created with SAP Crystal Presentation Design, SAP Crystal Dashboard Design personal edition, SAP Crystal Dashboard Design departmental edition, or Xcelsius Engage Server that does not refresh, publish, push or otherwise change data contained in such SWF file (or SWF file exported to other supported file formats (e.g., PDF, AIR, PPT)).
- 6.1.2 SAP Crystal Software Usage. Ordering Activity may use SAP Crystal software to deliver training and consulting services for such SAP Crystal software, provided that each individual receiving the benefits of the training or consulting services has acquired a license separately to Use the applicable SAP Crystal Software.
- 6.1.3 Desktop SAP Crystal Software Usage. With the exception of Connected Presentations, and subject to Section 6.2.8, Ordering Activity may distribute the output files (e.g. PDF, SWF, XLF, WID or RPT file format) generated by the Desktop SAP Crystal software to third parties provided that Ordering Activity complies with the following requirements:
 - (a) the output files reside outside of the Software and do not directly or indirectly access the Software or activate the processing capabilities of the Software, or otherwise employ the Software;
 - (b) Ordering Activity remains solely responsible for support, technical or other assistance, required or requested by anyone receiving such output files;
 - (c) Ordering Activity does not use the name, logo, or trademark of Licensor, or the Software, without prior written permission from SAP;
 - Ordering Activity(d) Ordering Activity shall secure the end user’s (“End User”) consent to terms substantially similar to the terms set forth in Section 6.3.8.
- 6.1.4 Training Workstation License for Desktop SAP Crystal software. When Desktop SAP Crystal software is used on a workstation that is used exclusively for training, the license applies to the workstation and not the named user using the Software. One license is required per training workstation.
- 6.1.5 Use of Screenshots and wordmarks for SAP Crystal software. Ordering Activity may reproduce and distribute screen shots and wordmarks for SAP Crystal software in documents or media provided that:
 - a) The document or media isn’t for commercial training material or third party training material and/or for-profit training material.
 - b) Ordering Activity’s Use may not be obscene or pornographic, and Ordering Activity may not be disparaging, defamatory, or libelous to SAP, any of its software, or any other person or entity.
 - c) Ordering Activity’s Use may not directly or indirectly imply SAP sponsorship, affiliation, or endorsement of Ordering Activity’s product or service.
 - d) Ordering Activity may not Use the screen shot in a comparative advertisement
 - e) Ordering Activity may not alter the screen shot in any way except to resize or crop the screen shot.
 - f) Ordering Activity may not include portions of a screen shot in other product user interface.
 - g) Ordering Activity may not Use screen shots that contain third-party content unless Ordering Activity has obtained the express permission from the third-party.
 - h) Ordering Activity must include the following copyright attribution statement: "SAP product screen shot(s) reprinted with permission from SAP."
 - i) If Ordering Activity’s Use includes references to a SAP Software, Ordering Activity must use the full name of the Software.
 - j) Ordering Activity may not use a screen shot that contains an image of an identifiable individual unless Ordering Activity has obtained permission from the individual.

6.2 SAP Crystal Reports runtime product

- 6.2.1 Scope. This section applies to the runtime product included in SAP Crystal Reports 2008, Crystal Reports XI, SAP Crystal Reports for Visual Studio 2010, and SAP Crystal Reports for Eclipse.
- 6.2.2 Definitions
 - 6.2.2.1 “Client Application” means an application developed by Ordering Activity that a) utilizes the Runtime Product, b) is installed fully on an end user’s machine, with all report processing local to that machine, and c) adds significant and primary functionality to the Runtime Product.
 - 6.2.2.2 “Internal Installation” or “Internally Install” means installing into production Client Applications and/or Server Applications on one or more computers within Ordering Activity’s company or organization only in connection with Ordering Activity’s internal business purposes.

- 6.2.2.3 “Distribution” or “Distribute” means selling, leasing, licensing or redistributing Client Applications and/or Server Applications to third party end users external to Ordering Activity’s company or organization.
- 6.2.2.4 “Runtime Product” means the version specific files and application program interfaces (APIs) specified in the RUNTIME.TXT file provided with SAP Crystal Reports 2008, SAP Crystal Reports for Eclipse 2.0, and SAP Crystal Reports for Visual Studio 2010.
- 6.2.2.5 “Server Application” means an application developed by Ordering Activity that a) utilizes the Runtime Product, b) allows more than one user to access the Runtime Product either directly or indirectly through any middle tier application(s), and c) adds significant and primary functionality to the Runtime Product. A Client Application installed in a Windows terminal server environment (e.g. Citrix or Microsoft Remote Desktop Platform) is a Server Application.
- 6.2.3 Usage. Ordering Activity may install and Use a single copy of the Runtime Product to develop Client Applications and Server Applications. The Distribution and Internal Installation terms and conditions differ based on the type of applications Ordering Activity develops, as described in the following sections.
- 6.2.4 Internal Installation of Client Applications and Server Applications. Licensor grants Ordering Activity a personal, nonexclusive, limited license to Internally Install the Runtime Product with Client Applications and Server Applications.
- 6.2.5 Distribution of Client Applications. Subject to Ordering Activity’s compliance with all of the terms herein, including without limitation section 6.2.7, Licensor grants Ordering Activity a personal, nonexclusive, limited license to Distribute Client Applications.
- 6.2.6 Distribution of Server Applications. Subject to Ordering Activity’s compliance with all of the terms herein, including without limitation section 6.2.7, Licensor grants Ordering Activity a personal, nonexclusive limited license to Distribute Server Applications to third parties provided that either a) Ordering Activity has acquired a licensed copy of Crystal Reports for each Deployment of a Server Application that is Distributed, and the version of the Runtime Product utilized by such Server Application is the same version as Ordering Activity’s licensed copy of Crystal Reports or b) Ordering Activity owns at least one licensed copy of the SAP Crystal Reports runtime server license.
- 6.2.7 Runtime Product Distribution Requirements.
If Ordering Activity distributes the Runtime Product to third parties pursuant to sections 6.2.5 or 6.2.6, Ordering Activity shall comply with the following requirements:
(a) Ordering Activity remains solely responsible for support, service, upgrades, and technical or other assistance, required or requested by anyone receiving such Runtime Product copies or sample applications;
(b) Ordering Activity does not use the name, logo, or trademark of Licensor, or the Software, without prior written permission from SAP;
Ordering Activity
(c) Ordering Activity shall not distribute the Runtime Product with any general-purpose report writing, data analysis or report delivery product or any other product that performs the same or similar functions as SAP’s product offerings; and
(d) Ordering Activity shall secure the end user’s (“End User”) consent to terms substantially similar to the following:
End User agrees not to modify, disassemble, decompile, translate, adapt or reverse-engineer the Runtime Product or the report file (.RPT) format;
End User agrees not to distribute the Runtime Product to any third party or use the Runtime Product on a rental or timesharing basis or to operate a service bureau facility for the benefit of third-parties;
End User agrees not to use the Runtime Product to create for distribution a product that is generally competitive with SAP’s product offerings;
End User agrees not to use the Runtime Product to create for distribution a product that converts the report file (.RPT) format to an alternative report file format used by any general-purpose report writing, data analysis or report delivery product that is not the property of SAP;
- 6.3 SAP Crystal Dashboard Design, departmental edition.
- 6.3.1 Usage. Self Contained Presentations created with the departmental edition of SAP Crystal Dashboard Design may be freely redistributed.
SWF files generated by the departmental edition that access data exclusively with the Crystal Reports connector can be embedded into a Crystal Report and the resulting report can be redistributed without any additional licensing requirements.
- 6.3.2 Viewing License. If you refresh, publish, push or otherwise change data contained in any SWF file generated by the departmental edition (or SWF file exported to other supported file formats such as PDF, AIR, PPT), you must acquire SAP Crystal Dashboard Viewing option for each named user that can view the SWF. This option is included with and matches the Named User Licenses (“NUL”) of SAP Crystal Reports Server and SAP Crystal Server. One named user license of the Dashboard Viewing option is included with the departmental edition license.
- 6.3.3 Restrictions. SWF files generated by the departmental edition:
- Cannot be deployed to SAP BusinessObjects Enterprise or SAP BusinessObjects Edge.
 - Can be deployed standalone only to SAP Crystal Reports Server or SAP Crystal Server.
 - Cannot access any data sources from SAP Software, with the exception of SAP BusinessOne.
 - Cannot be distributed to more than 100 end users.

Connected Presentations may be used only for users internal business purposes and not pursuant to a commercial sale, rental, or lease of the Connected Presentations (whether alone or in combination with another program or product).

- 6.4 SAP Crystal Dashboard Design, personal edition

6.4.1 **Usage.** Self Contained Presentations created with the personal edition of SAP Crystal Dashboard Design may be freely redistributed. SWF files created by the personal edition of SAP Crystal Dashboard Design that access data exclusively with the Crystal Reports connector can be embedded into a Crystal Report and the resulting report can be redistributed without requiring additional licensing.

6.4.2 **Restrictions.** SWF files generated by the personal edition:

- Cannot be deployed to SAP BusinessObjects Enterprise or SAP BusinessObjects Edge.
- Can be deployed standalone only to SAP Crystal Reports Server, or SAP Crystal Server.
- Cannot access any data sources from SAP Software, with the exception of SAP BusinessOne.

Connected Presentations may be used only for users internal business purposes and not pursuant to a commercial sale, rental, or lease of the Connected Presentations (whether alone or in combination with another program or product).

6.5 SAP Crystal Presentation Design

6.5.1 **Usage.** Self Contained Presentations created with all editions of SAP Crystal Presentation Design may be freely redistributed. Ordering Activities of the enterprise edition of SAP Crystal Presentation Design can deploy the Software to any number of employees and contractors, provided those employees and contractors are directly employed by the Ordering Activity. This license does not extend beyond Ordering Activity's corporate entity and excludes all subsidiaries or affiliates of the Ordering Activity.

6.5.2 **Restrictions.** The student edition of SAP Crystal Presentation Design may only be Used by full time or part time students of a secondary or post-secondary educational institution.

6.6 SAP Crystal Server

6.6.1 **Scope.** This section applies to SAP Crystal Reports Server and SAP Crystal Server. Throughout this section, the term 'SAP Crystal Server' shall be defined to include both products.

6.6.2 **Usage.** SAP Crystal Reports which contain SWF files created by either the personal or departmental edition of SAP Crystal Dashboard Design that access data exclusively with the Crystal Reports connector can be viewed by users with either NUL or CAL licenses.

6.6.3 **Restrictions.** For each Deployment, SAP Crystal Server may be installed and Used only on a single Server. Ordering Activity may not attempt to cluster the system across multiple live Servers. Ordering Activity cannot use SAP Crystal Server to access data in SAP applications with the exception of SAP Business One. Ordering Activity shall not make any single dashboard available to more than 100 named users, nor to users covered under a CAL license.

The following software features and functions can only be accessed using NUL licenses:

- Dashboard viewing through the InfoView or BI Launchpad portal,
- Dashboard viewing through any portal integration kit.
- Dashboard Builder
- BI Workspace
- SAP BusinessObjects Explorer (SAP Crystal Server 2011 and later only)

The following integration kits are not licensed for Use with SAP Crystal Server:

- SAP BusinessObjects Integration for PeopleSoft Enterprise
- SAP BusinessObjects Integration for JDE EnterpriseOne
- SAP BusinessObjects Integration for Siebel
- SAP BusinessObjects Integration for Oracle E-Business Suite
- SAP BusinessObjects Integration for SAP

6.7 Xcelsius Engage Server

6.7.1 **Usage.** Self Contained Presentations created with Xcelsius Engage Server may be freely redistributed. A connected presentation that receives its data exclusively from the Crystal Reports connector, and is embedded into a Crystal Report is considered a self-contained presentation.

6.7.2 **Restrictions.** SWF files generated by Xcelsius Engage Server cannot be deployed to SAP BusinessObjects Enterprise or SAP BusinessObjects Edge.

Connected Presentations may be used only for users internal business purposes and not pursuant to a commercial sale, rental, or lease of the Connected Presentations (whether alone or in combination with another program or product).

7. **Third Party Products**

7.1 **Address Directories.** Following are additional license conditions for content for data quality and data services products ("Address Directories")

7.1.1

- Address Directories, any related documentation and any intellectual property rights therein at all times remain the property of SAP and its third party suppliers (as the case may be);

- Ordering Activities are not permitted to resell the data. Address Directories shall not be used within a service bureau environment. In selected cases, the use by an affiliate will require a separate license (see all specific directory restrictions in the "Pass Through Terms for Address Directories" attached hereto as Exhibit 5 which constitute a part of the terms and conditions of Ordering Activity's use of such Address Directories).
- Address Directories may only be used together with the SAP Data Quality and/or Data Services Products; a perpetual license for the SAP Data Quality and Data Services Products is a prerequisite for using Address Directories;
- Address Directories may not be used for creating a mailing list, database or other derivative work, [but may be used to cleanse an existing mailing list or database of an End User](#);
- Address Directories will be updated from time to time: only the current version of an Address Directory may be used;
- SAP may use a software utility mechanism in Address Directories that imposes time limitations to prevent the use of outdated Address Directories;
- SAP's third party suppliers shall have no liability to End User or any third party as a result of End User's use of the Address Directories or any services you receive related to the use of the Address Directories;
- A third-party supplier for Address Directories may elect to terminate SAP's right to distribute Address Directories or to provide updates during the term of your subscription, in which case Ordering Activity's sole remedy will be to receive a refund of fees for the portion of the subscription for which Ordering Activity is unable to use such Address Directories, unless otherwise stated in the Pass-Through Terms.

7.1.2 Licensing Information

- Address Directories are sold on a subscription model basis, therefore no annual maintenance fee is to be charged and, except to the extent the Address Directories content source makes content updates available to SAP, no SAP maintenance or support is provided for these products.
- The Initial Term of this shall be 12 (twelve) calendar months from the Effective Date of the "Initial Term".
- Automatic renewals occur on an annual basis, subject to availability of the licensed Address Directory on the current SAP List of Prices and Conditions, and will be processed and invoiced according to the then current pricing and terms. After the Initial Term, this subscription license may be terminated by either party with 90 days written notice prior to the start of the following Renewal Term. Any termination must be in writing to the affected party and will be effective at the end of the then-current Initial/Renewal Term during which the termination notice is received by SAP.

7.1.3 Geographic Restrictions

- USPS products may only be sold in the US and are not available outside of the US:
- US NATIONAL DIRECTORY PRODUCTS MAY BE SOLD GLOBALLY.
- SPECIALIZED PRODUCTS SUCH AS LACSLINK, SUITELINK, NCOALINK, DPV, USPS DELIVERY SEQUENCE FILE – DSF2 AND RDI MAY ONLY BE SOLD TO US PERSONS OR ENTITIES FOR USE WITHIN THE US.
- THE NCOALINK INTERFACE CAN ONLY BE SOLD TO PERSONS WHO ARE AUTHORIZED BY THE USPS TO PURCHASE NCOALINK DATA. (NOTE: WE ONLY SELL THE NCOALINK INTERFACE AND CUSTOMERS MUST OBTAIN THE NCOALINK DATA DIRECTLY FROM THE USPS AND MUST BE CERTIFIED TO PURCHASE SUCH DATA BY THE USPS.)

7.1.4 USPS Certified Address Directory Option for DPV and Lacslink. In the event Ordering Activity activates the locking features of the Software and wishes to unlock such features, Ordering Activity agrees to provide certain information relating to the list owner, locking record details and the origin of the locking record including but not limited to the type of list, owner of list if rented and other tracking information as requested by the Licensor or the USPS.

7.1.5 In no event shall Contractor's total liability for damages of any kind or nature in any way arising from or related to the licensed Address Directories exceed an amount equal to the annual Subscription Fee paid in the twelve (12) month period prior to the date of the claim.

7.2 Databases

DB2 for Linux, Unix and Windows:

Enterprise Edition Database partitioning, Storage Optimization included

Oracle DB:

Enterprise Edition, Oracle Objects Option, Partitioning, Intermedia, Oracle Advanced Security Option, Oracle Advanced Compression Option, Standard Management Pack, DBA Management Pack, Diagnostic Pack, Tuning Pack, Provisioning Pack and Change Management Pack. For details and possible limitations regarding the support of the licensed options please see SAP support notes.

Oracle Extended Package

Real Application Cluster (RAC), Database Vault

DB2 for z/OS:

DB2 for z/OS and S/390, IBM DB2 Operational Utilities for z/OS, IBM DB2 Diagnostic and Recovery Utilities for z/OS, IBM DB2 Connect Enterprise Edition. Upgrade options for customers having licensed DB2 for OS/390 before October 1, 2003 are available upon request.

Microsoft SQL Server:

Enterprise Edition

7.3 SAP Test Acceleration and Optimization. SAP Test Acceleration and Optimization requires a license of HP Quality Center including the modules Business Process Testing and QuickTest Professional. This can be licensed from HP directly or by licensing "SAP Quality Center by HP" (material number 7010568).

7.4 Supplementary Products

7.4.1 SAP Interactive Forms by Adobe, Enable the Enterprise (includes 40 Interactive Forms) ("Adobe EE"). The total number of SAP Named Users licensed to Use SAP Software may never exceed the License Level for Adobe EE, i.e. all licensed SAP Named Users must contribute to the calculation of the license fee for Adobe EE.

- 7.4.2 Additional Interactive Forms Bundle(s) for Adobe EE or Adobe, Individual User (“Adobe EE and IU”) (40 Forms per Additional Interactive Forms Bundle). Only individuals licensed to Use Adobe EE or IU are permitted to Use the licensed Additional Interactive Forms Bundles for Adobe EE or IU (if any).
- 7.4.3 SAP Interactive Forms by Adobe, External Users (“Adobe EU”). Only those individuals who are licensed to Use specific SAP Software without the requirement of an SAP Named User license may Use licensed Adobe EU, and such Use (of Adobe EU) shall be solely in conjunction with, and to the extent of, such individual’s license to Use such specific SAP Software without the requirement of an SAP Named User license. For avoidance of doubt, no one licensed as an SAP Named User may Use Adobe EU. External users get access to 40 forms or the number of forms licensed for Adobe EE/ Adobe IU if greater than 40.
- 7.4.4 SAP Information Interchange by Crossgate (“IIC”) and Web Based Connectivity Option (“WBC”). A valid license of IIC is a prerequisite for licensing and Using WBC. WBC has to be licensed in accordance with the minimum quantities stated in the price list and require IIC licenses as a prerequisite. Notwithstanding where IIC, or ICC with WBC, is licensed with a runtime database pursuant to an Order Form, a separate mySQL database is still required (in addition to the licensed runtime database) as follows: (i) the Crossgate software licensed hereunder currently requires a mySQL database product, which is a third party product which has either been integrated or pre-installed as part of the Crossgate software, or which must be installed to Use the Crossgate software; (ii) if integrated in the licensed Crossgate software, the integrated mySQL database product functionality may differ from that of a non-integrated mySQL database product; (iii) this Attachment does not contain a license to use the mySQL database, even where integrated or pre-installed as part of the licensed Crossgate software; (iv) the mySQL database product is subject to its respective vendor license agreement; (v) SAP makes no representations or warranties as to the terms of any license or the operation of any database product obtained from a third party by Ordering Activity; and (vi) Ordering Activity is responsible for support and maintenance of any database product obtained from a third party supplier, and SAP has no responsibility in this regard.
- 7.4.5 SAP LoadRunner by HP (“LR”). Ordering Activity’s Use of the LR software is limited solely to testing or monitoring pre-production SAP Software (including any and all software required to operate the particular SAP Software, further including the SAP Software’s associated operating systems, databases, application servers, etc) only in quality assurance and similar non-production environments, and may only be Used on a single server.
- 7.4.6 SAP LoadRunner by HP, Performance Center with Diagnostics (“LR PCD”). Ordering Activity’s Use of the LR PCD software is limited solely to testing or monitoring pre-production SAP Software (including any and all software required to operate the particular SAP Software, further including the SAP Software’s associated operating systems, databases, application servers, etc) or any other pre-production software (so long as the LR PCD software Documentation specifies that the licensed LR PCD software is prescribed for testing and monitoring such other pre-production software) only in quality assurance and similar non-production environments. Use of the Diagnostics for Composite Applications component (“Diagnostics”) included with LR PCD is (i) subject to the forgoing Usage limitation and (ii) further limited to Use with a single Application Instance (as defined below) for every two hundred fifty (250) Virtual Users of LR PCD licensed. “Application Instance” means a monitored, non-production environment running an instance of an application (e.g. an instance of SAP Software, a java virtual machine or a database server counts as one Application Instance).
- 7.4.7 SAP LoadRunner by HP, Performance Center without Diagnostics (“LR PC”). Ordering Activity’s Use of the LR PC software is limited solely to testing or monitoring pre-production SAP Software (including any and all software required to operate the particular SAP Software, further including the SAP Software’s associated operating systems, databases, application servers, etc) or any other pre-production software (so long as the LR PC software Documentation specifies that the licensed LR PC software is prescribed for testing and monitoring such other pre-production software) only in quality assurance and similar non-production environments.
- 7.4.8 SAP Quality Center by HP, Enterprise Edition (“QC EE”). Ordering Activity’s Use of the QC EE software is limited solely to testing or monitoring pre-production SAP Software (including any and all software required to operate the particular SAP Software, further including the SAP Software’s associated operating systems, databases, application servers, etc), and, if the applicable Order Form indicates that QC EE is licensed for “Full Use”, Ordering Activity’s Use of the QC EE software shall also include the right to test or monitor any other pre-production software (so long as the QC EE software Documentation specifies that the licensed QC EE software is prescribed for testing and monitoring such other pre-production software), all in quality assurance and similar non-production environments only. The QC EE Bundle currently includes the SAP Quality Center by HP, Enterprise Edition – QuickTest Professional, TestDirector, Business Process Testing, Requirements Management, and Defects Management components.
- 7.4.9 SAP Quality Center by HP, Premier Edition (“QC PE”). Ordering Activity’s Use of the QC PE software is limited solely to testing or monitoring pre-production SAP Software (including any and all software required to operate the particular SAP Software, further including the SAP Software’s associated operating systems, databases, application servers, etc) or any other pre-production software (so long as the QC PE software Documentation specifies that the licensed QC PE software is prescribed for testing and monitoring such other pre-production software), all in quality assurance and similar non-production environments only. The QC PE Bundle currently includes the SAP Quality Center by HP, Premier Edition – QuickTest Professional, TestDirector, Business Process Testing, Requirements Management, and Defects Management components.
- 7.4.10 SAP Regulatory Report by iBS, Accounts; SAP Regulatory Report by iBS, Derivatives; SAP Regulatory Report by iBS, P/C/S Cashflow; SAP Regulatory Report by iBS, Retail Cashflow. Licensed iBS software may only be Used to support Ordering Activity’s German, Austrian and/or Swiss business operations.
- 7.4.11 Metadata Management Multi-Source Integrators by MITI (CPU). The total number of CPUs of SAP BusinessObjects Metadata Management (CPU) licensed under appendices to this Attachment may never exceed the License Level for the MITI Software licensed above.
- 7.4.12 SAP Employee File Management by OpenText (“EFM”). An individual licensed to Use EFM must be licensed (under separate Order Form to the Schedule contract) as an SAP Business Expert, Professional, Limited Professional, Business Information, Employee or Employee Self-Service, or Solution Extension User. EFM contains a limited use license of SAP Document Access by OpenText that

can only be used in conjunction with the EFM solution to manage employee related documents. Broader usage of Document Access would require separate licensing of that solution.

- 7.4.13 SAP Digital Asset Management by OpenText (“xECM”). An individual licensed to Use DAM must be licensed (under separate Order Form to the Schedule contract) as an SAP Business Expert, Professional, Limited Professional, Business Information, Employee or Employee Self-Service, or Solution Extension User.
- 7.4.14 SAP Extended ECM by OpenText (“xECM”). An individual licensed to Use xECM must be licensed (under separate Order Form to the Schedule Contract) as an SAP Business Expert, Professional, Limited Professional, Business Information, Employee or Employee Self-Service, or Solution Extension User.
- 7.4.15 SAP Document Access by OpenText (“DA”) and **SAP Document Access by OpenText for POS Device (“DA for POS“)**. An individual licensed to Use DA for SAP Business Expert, Professional and Limited Professional Users must be licensed (under separate Order Form to the Schedule contract) as an SAP Business Expert, Professional or Limited Professional User. An individual licensed to Use DA for SAP Business Information, Employee and Employee Self-Service Users must be licensed (under separate Order Form to the Schedule contract) as an SAP Business Information, Employee or Employee Self-Service User. DA may not be Used to archive and/or view any data and/or documents originating from a point-of-sale device. DA for POS may only be Used by individuals licensed as SAP Named Users (under separate Order Form to the Schedule contract, and in accordance with each individual’s respective SAP Named User type) to archive and/or view data and/or documents originating from a point-of-sale device. .
- 7.4.16 SAP Archiving by OpenText (“Archiving”). An individual licensed to Use Archiving for SAP Business Expert, Professional and Limited Professional Users must be licensed (under separate Order Form to the Schedule contract) as an SAP Business Expert, Professional or Limited Professional User. An individual licensed to Use Archiving for SAP Business Information, Employee and Employee Self-Service Users must be licensed (under separate Order Form to the Schedule contract) as an SAP Business Information, Employee or Employee Self-Service User.
- 7.4.17 SAP Invoice Management by OpenText (“IM”). An individual licensed to Use OCR must also be licensed for IM. The OCR is an optional component and there must be at least as many IM licenses as OCR licenses but there can be more IM licenses than OCR license.
- 7.4.18 SAP Dispatching & Planning – Long Term Planning by Prologa; SAP Dispatching & Planning – Operational Planning by Prologa; SAP Legal Requirements by Prologa. An individual licensed to Use any Prologa must be licensed (under separate Order Form to the Schedule contract) as an SAP Business Expert, Professional or Limited Professional User.
- 7.4.19 SAP Central Process Scheduling by Redwood. The license for each process server includes the right to Use the Redwood Software on one each of the following systems: (1) a training system, (2) a test / QA system and (3) a backup / failover system for such process server.
- 7.4.20 SAP User Experience Management by Knoa and SAP User Experience Management by Knoa, version for SAP GUI. SAP User Experience Management by Knoa and SAP User Experience Management by Knoa, version for SAP GUI (collectively, “Knoa”) may be embedded or bundled with the following SAP Business Objects Software: SAP Business Objects Enterprise Premium, WebIntelligence, Xcelsius Enterprise, Xcelsius Enterprise Interactive Viewing (“Runtime Software”). Such Runtime Software may only be Used to access data created or enhanced by Knoa. Runtime Software may not be combined in the same Deployment as SAP BusinessObjects Software licensed independently from Knoa.
- 7.4.21 BSI U.S. Payroll Tax Processing. The BSI software is licensed for Use in conjunction with the payroll functionality contained in the SAP Payroll Software, which must be separately licensed. In addition, the license for the BSI software is limited for Use on a single Platform at a time (with the exception of a Platform migration period as BSI may allow). For purposes herein, the term “Platform” shall mean a single BSI Supported Configuration of the following: a single database, single server, single client software, and single operating system. For purposes herein, “BSI Supported Configuration” shall mean a configuration for which BSI makes support available for SAP Ordering Activities of the BSI software. The BSI software license does not include a license to use any third party database, server, client software, or operating system. If Ordering Activity wishes to change the Platform: (i) Ordering Activity shall provide SAP written notice of the same and complete a Platform Change form (in a format acceptable to BSI); and (ii) SAP shall allow such change to the extent and under the conditions BSI generally makes available to SAP, including without limitation Ordering Activity’s payment of any platform change fees that apply.
- 7.4.22 Additional Third Party Product Terms Applicable to Standalone Use:
 - 7.4.22.1 Metadata Management Multi-Source Integrators by MITI (CPU). SAP BusinessObjects Metadata Management (“BMM”) must be separately licensed by Ordering Activity for Standalone Use, and the total number of BMM CPUs licensed by Ordering Activity may never exceed the License Level for the MITI Software licensed above.
 - 7.4.23 SAP Solution Extension Limited User. The SAP Solution Extension Limited User is solely authorized to Use one (1) third party solution licensed by SAP. The License Agreement needs to expressly specify this third party solution. The SAP Solution Extension Limited User applies to SAV if the assigned third party solution does.
 - 7.4.24 RWD
 - For the following price list items the special term as described below does apply:
 - SAP Productivity Pak by RWD – excl. North America (7009560)
 - SAP Productivity Pak Help Launch Pad by RWD – excl. North America (7009561)
 - SAP Productivity Composer by RWD – excl. North America (7009562)
 - SAP Productivity Composer Help Launch Pad by RWD – excl. North America (7009563)
 - SAP Productivity Pak by RWD – North America (7009639)
 - SAP Productivity Pak Help Launch Pad by RWD – North America (7009640)

SAP Productivity Composer by RWD – North America (7009641)
 SAP Productivity Composer Help Launch Pad by RWD – North America (7009642)

When RWD software is used with standalone SAP BusinessObjects solutions namely Knowledge Accelerator products or to create education offerings for SAP BusinessObjects solutions that do not interface with SAP solutions that require SAP Named Users, such users must be licensed to use SAP BusinessObjects solutions based on either the SAP BusinessObjects Named User or CPU metric and do not need to be licensed as SAP Named User.

The amount of licensed “user” sales units for the SAP Productivity Pak by RWD or SAP Productivity Composer by RWD must match at least the total number of the licensed Named Users for the SAP BusinessObjects Knowledge Accelerator solutions, provided the SAP BusinessObjects Knowledge Accelerator is licensed along with the RWD solutions. SAP BusinessObjects Knowledge Accelerator may be licensed in the Named User or CPU capacity.

- 7.4.25 SAP Extended Enterprise Content Management by OpenText. SAP Application Named users are applicable. SAP Solution Extension Limited User can be licensed if qualified.
- 7.4.26 SAP Multiresource Scheduling, SAP Multiresource Scheduling with Optimizer, SAP Public Budget Formulation, SAP Intercompany Data Exchange for German Metering, SAP Payment Engine, SAP Pricing and Costing for Utilities, SAP Connector to eAgent, SAP Business Process Tracking for Utilities, SAP Application Interface Framework. Special terms & conditions apply. Details on language availability, technical prerequisites to install and to use these SAP Applications, support periods and further terms & conditions can be found at <http://service.sap.com/fbs/availability>.
- 7.4.27 SAP Real-Time Offer Management (Agent-Assisted Channel), SAP Real-Time Offer Management (Self-Service Channel). Special terms & conditions apply. Details on language availability, technical prerequisites to install and to use these SAP Applications, support periods and further terms & conditions can be found at <http://service.sap.com/fbs/availability>.
- 7.4.28 SAP Business Communication Management (BCM), Rapid Deployment Edition
 The usage of SAP Business Communication Management application under this license is restricted to as follows:
 Inbound Contact Center is permitted; no Outbound Contact Center and no Enterprise Telephony.
 Contact channels are limited to the Voice channel only and without Call-back channel while Software-based Interactive Voice Response (IVR) is limit to 1 port per 2 agents
 The Use of the following agent tools are not permitted: IP-desk-phone, Integration to MS Outlook, Switchboard operator tools, Server side recording, Contact Classification Tools, Task Management, Auto Manual Task creation, Task Classification, Task Alarm, monitoring and reporting, Messenger Tools and Outbound dialler softphone.
 A Maximum of one supervisor per five agents is allowed, The Use of the following supervisor tools is not permitted: Chat with Agents, Message broadcasting and outbound campaign management.
 The Use of the following Contact Routing and IVR Tools is not permitted: Skills-based routing, Preferred/last served agent routing, Personal queues, Email routing based on key words and Least cost-based routing.
 The Use of Task Handling reports are not permitted.
 The usage of Mobile Communication Mobile Client (CMC) is not permitted.
- 7.4.29 SAP CRM Rapid Deployment Edition. Ordering Activity’s Use of SAP CRM Rapid Deployment Edition is limited to accessing the following functionality within SAP CRM: Segmentation & List Management, Lead Management, Opportunity Management, Sales Performance Management, Customer Service & Support, Campaign Management and Accounts and Contact Management. Ordering Activity’s Use of the functionality specified herein is limited solely to accessing SAP CRM components. Ordering Activity is entitled to Use SAP NetWeaver Mobile Gateway but only to the extent such Use is required to access the functionality specified herein. Use of other mobile applications may require additional license fees.
- 7.4.30 SAP SRM Rapid Deployment Edition. The SAP SRM Rapid Deployment Edition is based on the SAP SRM application. The SAP SRM Rapid Deployment Edition package enhances the Enterprise Foundation Package by Strategic Sourcing with Request for Quotation. The SAP SRM Rapid Deployment Edition has to be installed as an Add-on in an ERP system using the classic technical scenario.
- 7.4.31 SAP Information Interchange by Crossgate. SAP Information Interchange by Crossgate requires a mySQL database, which needs to be licensed directly from the respective vendor.
- 7.4.32 SAP Interactive Forms by Adobe, external users. External users get access to 40 forms or the number of forms licensed for Enable the License/Individual user if greater than 40.
- 7.4.33 SAP Workforce Scheduling & Optimization by ClickSoftware - Realtime Service. The bundle provides out of the box integration with Pitney Bowes Business Insight-MapInfo, PTV and Microsoft Bing. Each map provider requires a valid license, which needs to be purchased separately. Additional custom integrations with other mapping providers (e.g. ESRI) are possible.
- 7.4.34 SAP BusinessObjects Predictive Workbench by IBM (PW). PW may only be Used with SAP Software, which must be licensed separately by Ordering Activity. All output from PW is restricted to distribution and Use within PW (or export sources provided within PW) and/or Ordering Activity’s licensed SAP Software. Notwithstanding anything to the contrary, for every three (3) users of PW licensed, Ordering Activity shall have the right to deploy the PW server components on one (1) CPU. PW may only be installed, deployed and/or hosted at a Ordering Activity or an authorized Affiliate’s facility.
- 7.4.35 SAP Object Event Repository. SAP Object Event Repository includes use-rights of Auto-ID Infrastructure (All) capabilities; however those capabilities can only be used in conjunction with SAP Object Event Repository. Stand-alone use based on this license is not allowed

8. SYBASE Portfolio Products.

- 8.1 Sybase Product Specific Terms / Use Rules
The Sybase Software licensed hereunder may include certain third party open source and/or other free download components (collectively, the "Free Download Components"). Please refer to <http://www.sybase.com/thirdpartylegal> for certain notices relating to the Free Download Components.
- 8.2 Package Restrictions for Sybase Products.
- 8.2.1 Sybase Unwired Platform ("SUP"). SUP includes a runtime license of Sybase SQL Anywhere, Mobilink, and Ultralite.. These runtime products can be Used solely in conjunction with the Usage of SUP.
- 8.2.2 SUP Additional Application Connections. Additional Application Connections may only be Used by individuals who are also licensed as SUP Users. Each additional Application Connection licensed shall be added to the aggregate total of Application Connections that may be made by individuals who are also licensed as SUP Users.
- 8.2.3 Sybase Afaria Handheld Device Management from SAP (Afaria HDM) and/or Sybase Unwired Platform (SUP) & Afaria Handheld Device Management from SAP (Afaria HDM)
- 8.2.3.1 Afaria HDM license includes the following components, for Use solely on or with handheld devices: Afaria Enterprise Server including Multi-tenancy, Afaria Channel Test/Dev Server, Afaria Session Mgr for Handheld Devices, Afaria Software Mgr for Handheld Devices, Afaria Document Mgr for Handheld Devices, Afaria Security Mgr for Handheld Devices, Afaria Configuration Mgr for Handheld Devices, Afaria Inventory Mgr for Handheld Devices, Afaria OMA DM Client for Handheld Devices, and Afaria Backup Manager for Handheld Devices.
- 8.2.3.2 Use of each non-productive, test and development installation of Afaria HDM shall not exceed ten (10) Afaria HDM Users or ten (10) SUP & Afaria HDM Users. However, there is not a limit on the number of test and development installations provided the number of licensed Afaria HDM Users or SUP & Afaria HDM Users (as applicable) is not exceeded.
- 8.2.3.3 Afaria HDM Users. Any individual Using Afaria HDM must be licensed (i) as an Afaria HDM User or SUP & Afaria HDM Users and (ii) also as an SAP Named User (under separate Order Form to the Schedule contract), and such individual's Use of Afaria HDM shall be subject to such individual's SAP Named User type and the applicable License Level for Afaria HDM or SUP & Afaria HDM.
- 8.2.4 Sybase Afaria Laptop Management from SAP (Afaria LM)
- 8.2.4.1 Afaria LM license includes the following components, for Use solely on or with laptops: Afaria Enterprise Server including Multi-tenancy, Afaria Channel Test/Dev Server, Afaria Session Mgr for Laptop Management, Afaria Document Mgr for Laptop Management, Afaria Software Mgr for Laptop Management, Afaria Backup Mgr for Laptop Management, and Afaria Patch Mgr for Laptop Management.
- 8.2.4.2 Use of each non-productive, test and development installation of Afaria LM shall not exceed ten (10) Afaria LM Users. However, there is not a limit on the number of test and development installations provided the number of licensed Afaria LM Users is not exceeded.
- 8.2.4.3 Afaria LM Users. Any individual Using Afaria LM must be licensed (i) as an Afaria LM User and (ii) also as an SAP Named User (under separate Order Form to the Schedule contract), and such individual's Use of Afaria LM shall be subject to such individual's SAP Named User type and the Afaria LM License Level.
- 8.2.5 Advanced Security Option; Unstructured Data Analytics Option; Multiplex Grid Option; Very Large Database Management Option (VLDB)
Advanced Security Option; Unstructured Data Analytics Option; Multiplex Grid Option; Very Large Database Management Option (VLDB) requires the licensing of Sybase IQ Enterprise Edition.
- 8.2.6 Sybase ASE. Sybase Adaptive Server Enterprise ("ASE") is a runtime database licensed for use by individuals licensed as SAP Named Users solely in conjunction with their use of applicable Software and/or Third Party Software licensed by Ordering Activity from SAP. The Sybase ASE runtime database may not be used to run any software and/or third party software other than applicable Software and/or Third Party Software licensed by Ordering Activity from SAP. For purposes of clarification, see the applicable Software and/or Third Party Software Documentation for information regarding release(s) / version(s) supported on the Sybase ASE runtime database.
- 8.2.7 DB2 Runtime Database in Certain Sybase Licensing Scenarios. Notwithstanding anything to the contrary, the Afaria HDM and Afaria LM Software, if licensed hereunder, may require a database product in addition to any runtime database that may be licensed hereunder. The Attachment does not contain a license to use any database product other than one identified in the Attachment. SAP makes no representations or warranties as to the terms of any license or the operation of any database product obtained (i.e. licensed) directly from a third party vendor by Ordering Activity, and Ordering Activity is responsible for support and maintenance of any database product obtained (i.e. licensed) from a third party vendor, and SAP has no responsibility in this regard.
- 8.2.8 SAP Enterprise Integrations for Mobile Apps Software.
- 8.2.8.1 The SAP Enterprise Integration for Mobile Apps Software may require an additional component downloaded from a third party mobile application store. Each additional component is subject to its respective license agreement. In addition, the following terms apply to specific Software:

8.2.8.2 SAP Enterprise Integrations for Mobile Apps. For the SAP Enterprise Integration Mobile Apps listed below, in addition to fulfilling the underlying SAP Named User license requirement, access to the licensed Enterprise Integrations for Mobile Apps requires one of the following (i) an SAP NetWeaver Gateway license and SUP User license; (ii) an SAP NetWeaver Gateway license and an SUP & Afaria HDM User license; or (iii) SAP Mobile Platform User license.

SAP Enterprise Integration for ERP Quality Issue Mobile App
SAP Enterprise Integration for Employee Lookup Mobile App
SAP Enterprise Integration for Leave Request Mobile App
SAP Enterprise Integration for Travel Receipt Capture Mobile App
SAP Enterprise Integration for Travel Expense Approval Mobile App
SAP Enterprise Integration for HR Approvals Mobile App
SAP Enterprise Integration for Cart Approval Mobile App
SAP Enterprise Integration for Timesheet Mobile App
SAP Enterprise Integration for Sales Order Notification Mobile App
SAP Enterprise Integration for Customer and Contacts Mobile App
SAP Enterprise Integration for Material Availability Mobile App
SAP Enterprise Integration for ERP Order Status Mobile App
SAP Enterprise Integration for GRC Access Approver Mobile App
SAP Enterprise Integration for GRC Policy Survey Mobile App
SAP Enterprise Integration for Payment Approvals Mobile App
SAP Enterprise Integration for Customer Financial Fact Sheet Mobile App
SAP Enterprise Integration for Interview Assistant Mobile App
SAP Enterprise Integration for Transport Notification and Status Mobile App
SAP Enterprise Integration for Transport Tendering Mobile App
SAP Enterprise Integration for Manager Insight Mobile App
SAP Enterprise Integration for Electronic Medical Record on iPad Mobile App

8.2.8.3 Sybase Mobile Workflow Enterprise Integration for SAP, Sybase Mobile Sales Enterprise Integration for SAP CRM, SAP Enterprise Integration for Retail Execution Mobile App, SAP Enterprise Integration for Field Service Mobile App, SAP Enterprise Integration for EAM Work Order Mobile App. The referenced Enterprise Integrations for Mobile Apps include a runtime license of SAP NetWeaver Mobile Gateway and Use of such runtime product is limited solely to enable Ordering Activity's Usage of the licensed Enterprise Integrations for Mobile App. In addition to fulfilling the underlying SAP Named User license requirement, each Enterprise Integration Mobile App User must also be licensed as an SUP User, an SUP & Afaria HDM User or SAP Mobile Platform User.

8.2.8.4 SAP Enterprise Integration for Citizen Connect Mobile App. In addition to fulfilling the underlying SAP Named User license requirement, Use of the licensed SAP Enterprise Integration for Citizen Connect Mobile App requires a license of SAP NetWeaver Gateway or SAP Mobile Platform User.

8.2.9 SAP Mobile Platform. Each SAP Mobile Platform User license is comprised of one (1) Sybase Unwired Platform (SUP) & Afaria Handheld Device Management from SAP (Afaria HDM) User license. Each component comprising the SAP Mobile Platform is subject to the applicable terms stated in the Software Use Rights document. Each such SAP Mobile Platform User may Use SAP NetWeaver Gateway as follows: each SAP Mobile Platform User is licensed to Use SAP NetWeaver Gateway provided with the SAP Mobile Platform for the sole purpose of enabling (i) any SAP Mobile Applications, as set forth on <http://www.sap.com/mobile>, and licensed by Ordering Activity under this Attachment A on a per user basis, solely to interface with the Software and/or third party software licensed under this Attachment and/or (2) any Ordering Activity owned/licensed mobile applications, solely to interface with the Software and/or third party software licensed under this Attachment via SUP. Any other Use of SAP NetWeaver Gateway requires a separate SAP NetWeaver Gateway license.

8.2.10 SAP Mobile Platform for Consumers. Each SAP Mobile Platform for Consumer User license is comprised of Sybase Unwired Platform (SUP) & and SAP Netweaver Gateway. Each component comprising the SAP Mobile Platform for Consumers is subject to the applicable terms stated in the Software Use Rights document. Each such SAP Mobile Platform for Consumer User is licensed to Use SAP NetWeaver Gateway provided with the SAP Mobile Platform for Consumers for the sole purpose of enabling (i) any SAP Mobile Applications, as set forth on <http://www.sap.com/mobile>, and licensed by Ordering Activity under this Attachment A on a per user basis, solely to interface with the Software and/or third party software licensed under this Attachment A and (2) any Ordering Activity owned/licensed mobile applications, solely to interface with the Software and/or third party software licensed under this Attachment A via SUP. Any other Use of SAP NetWeaver Gateway requires a separate SAP NetWeaver Gateway license. Ordering Activity may grant each licensed SAP Mobile Platform for Consumer User the right to make an unlimited number of Application Connections, and there is no requirement for an SAP Mobile Platform for Consumer User to also be licensed as an SAP Named User; and only an individual making Application Connections solely on his or her own behalf as an individual (i.e. not in conjunction with his or her employment or on behalf of any other individual(s) and/or entity(ies)) may be licensed as an SAP Mobile Platform for Consumer User.

8.2.11 **SAP Mobile Platform Limited Runtime License.** Ordering Activity is licensed to Use Sybase Unwired Platform and SAP NetWeaver Gateway ("Mobile Platform Runtime Components") with the licensed Software referenced at the web sites below, for the sole purpose of enabling Ordering Activity's usage of such licensed Software via interface with the Mobile Platform Runtime Components:

- (1) SAP Enterprise Integration for SAP Mobile Application; or
- (2) SAP Partner Certified Mobile Application

both as stated at <http://www.sap.com/solutions/mobility/sap-mobile-platform-runtime-option/index.epx> or <http://www.sap.com/solutions/mobility/sap-mobile-platform-runtime-option-for-productivity-apps/index.epx>. Ordering Activity's Use of SAP NetWeaver Gateway as a Mobile Platform Runtime Component is solely via interface to SUP. Ordering Activity must license the necessary Users / Named Users for its Use of the licensed Software in accord with the Software Use Rights document. Each component comprising the Mobile Platform Runtime Components is subject to the applicable terms stated in the Software Use Rights document. In the event Ordering Activity Uses the Mobile Runtime Platform Components other than as specified in this paragraph, a separate full use license is required.

9. SAP HANA

9.1 Definitions.

9.1.1 **Data Sources.** Any software product(s) and/or database instance(s) for which Ordering Activity has secured an appropriate license.

9.1.2 **Non-SAP Applications.** Any software and/or applications, other than Software or Third Party Software, for which Ordering Activity has secured an appropriate license from an entity other than SAP, SAP AG, and/or any of its/their subsidiaries and/or distributors.

9.2 Where SAP HANA Is Not Contractually Restricted to Standalone Use.

9.2.1 **SAP HANA, Platform Edition.** SAP HANA Platform may be Used with an unlimited number of Data Sources, and such Use is subject to the applicable Licensed Level.

9.2.2 **SAP HANA, Enterprise Edition.** SAP HANA Enterprise may be Used with an unlimited number of Data Sources, and such Use is subject to the applicable Licensed Level. SAP HANA Enterprise currently includes a runtime license of SAP Business Objects Data Integrator ("DI") and SAP System Landscape Transformation ("SLT"), and Use of such runtime products shall be limited solely to extracting data from Data Sources into HANA.

9.2.3 **SAP HANA Extended Enterprise.** SAP HANA Extended Enterprise may be Used with an unlimited number of Data Sources, and such Use is subject to the applicable Licensed Level. SAP HANA Extended Enterprise currently includes a runtime license of SAP Business Objects Data Integrator ("DI"), SAP System Landscape Transformation ("SLT"), Sybase Replication Server ("SRS"), Sybase SQL Anywhere database ("SQL") and Sybase Adaptive Server Enterprise ("ASE"), and Use of such runtime products shall be limited solely to (i) in the case of DI, SLT and SRS, extracting data from Data Sources into SAP HANA, (ii) in the case of SQL, serving as the database repository for SRS and (iii) in the case of ASE, serving as the database repository for DI and/or SRS (with respect to SRS, Ordering Activity may elect, in its discretion, to Use ASE rather than SQL). Notwithstanding anything to the contrary, Ordering Activity may not use SRS to directly or indirectly extract data from any Microsoft, Oracle, IBM Informix, IBM DB2 for z/OS, ASE, and/or MaxDB database product.

9.2.4 Named User Requirements Where SAP HANA Software Is Not Contractually Restricted to Standalone Use.

9.2.4.1 If an individual is Using licensed SAP HANA Software with a specific application that is licensed Software or Third Party Software and requires an SAP Named User license, then the SAP Named User license granting such individual the right to Use such specific application shall also fulfill the SAP Named User license requirement for Use of the licensed SAP HANA Software solely with such specific application, and such individual's Use of the licensed SAP HANA Software with such specific application shall be in accordance with the respective SAP Named User license.

9.2.4.2 If an individual is Using licensed SAP HANA Software with a specific application that is licensed Software or Third Party Software and does not require an SAP Named User license, then Use of the licensed SAP HANA Software solely with such specific application shall not require an SAP Named User license.

9.2.4.3 If an individual is Using licensed SAP HANA Software with Non-SAP Applications, then such individual must be licensed as an SAP Application HANA Administrator Use or an SAP Application HANA Viewer User, and such individual's Use of the licensed SAP HANA Software solely with such Non-SAP Applications shall be in accordance with the respective SAP Named User license.

9.2.4.4 Notwithstanding the foregoing, an SAP Named User license will not be required solely where (i) data is exported directly out of the licensed SAP HANA Extended Enterprise into Non-SAP Applications in an asynchronous, non-real-time manner and (ii) the use of such exported data in such Non-SAP Applications does not result in any updates to and/or trigger any processing capabilities of any licensed Software or Third Party Software. Notwithstanding anything to the contrary, if a runtime database is licensed for Use with the licensed SAP HANA Extended Enterprise Software, then Use of such runtime database to support the export of data from the licensed SAP HANA Enterprise Software in accordance with the immediately preceding sentence shall be limited to standard APIs provided with such runtime database.

9.3. Where SAP HANA Software Is Contractually Restricted to Standalone Use.

- 9.3.1 Standalone Use of HANA Platform. SAP HANA Platform may be Used with an unlimited number of Data Sources, such Use being subject to the Standalone Use restriction and the applicable Licensed Level.
- 9.3.2 Standalone Use of HANA Enterprise. SAP HANA Enterprise may be Used with an unlimited number of Data Sources, such Use being subject to the Standalone Use restriction and the applicable Licensed Level. SAP HANA Enterprise currently includes a runtime license of SAP Business Objects Data Integrator (“DI”) and SAP System Landscape Transformation (“SLT”), and Standalone Use of such runtime products shall be limited solely to extracting data from Data Sources into HANA.
- 9.3.3 Standalone Use of HANA Extended Enterprise Enterprise. SAP HANA Extended Enterprise may be Used with an unlimited number of Data Sources, such Use being subject to the Standalone Use restriction and the applicable Licensed Level. SAP HANA Extended Enterprise currently includes a runtime license of SAP Business Objects Data Integrator (“DI”), SAP System Landscape Transformation (“SLT”), Sybase Replication Server (“SRS”), Sybase SQL Anywhere database (“SQL”) and Sybase Adaptive Server Enterprise (“ASE”), and Standalone Use of such runtime products shall be limited solely to (i) in the case of DI, SLT and SRS, extracting data from Data Sources into SAP HANA, (ii) in the case of SQL, serving as the database repository for SRS and (iii) in the case of ASE, serving as the database repository for DI and/or SRS (with respect to SRS, Ordering Activity may elect, in its discretion, to Use ASE rather than SQL). Notwithstanding anything to the contrary, Ordering Activity may not use SRS to directly or indirectly extract data from any Microsoft, Oracle, IBM Informix, IBM DB2 for z/OS, ASE, and/or MaxDB database product.
- 9.4 Named User Requirements Where SAP HANA Software Is Contractually Restricted to Standalone Use
- 9.4.1 If an individual is Using licensed SAP HANA Software that is contractually restricted to Standalone Use with a specific application that is licensed Software or Third Party Software (also contractually restricted for Standalone Use) and requires an SAP Named User license, then the SAP Named User license granting such individual the right to Use such specific application shall also fulfill the SAP Named User license requirement for Use of the licensed SAP HANA Software solely with such specific application, and such individual’s Use of the licensed SAP HANA Software with such specific application shall be in accordance with the respective SAP Named User license.
- 9.4.2 If an individual is Using licensed SAP HANA Software that is contractually restricted to Standalone Use with (i) a specific application that is licensed Software or Third Party Software (also contractually restricted for Standalone Use) and does not require an SAP Named User license and/or (ii) Non-SAP Applications (subject to the contractual Standalone Use restriction), then such individual must be licensed as an SAP Application Standalone HANA Administrator User or an SAP Application Standalone HANA Viewer User, and such individual’s Use of the licensed SAP HANA Software solely with such application(s) shall be in accordance with the respective SAP Named User license.
- 9.4.3 Notwithstanding the foregoing, an SAP Named User license will not be required solely where (i) data is exported directly out of the licensed HANA Extended Enterprise Software into Non-SAP Applications in an asynchronous, non-real-time manner and (ii) the use of such exported data in such Non-SAP Applications does not result in any updates to and/or trigger any processing capabilities of any licensed Software or Third Party Software.
- 9.5 SAP HANA DB Edition for SAP NetWeaver BW (“HANA DB for BW”). HANA DB for BW is a database licensed solely to support Ordering Activity’s Use of SAP NetWeaver Business Warehouse (SAP BW) and Use is limited to communications between SAP BW and HANA DB for BW. HANA DB for BW may support an unlimited number of data sources (i.e. any software product(s) and/or database instance(s), for which Ordering Activity has secured an appropriate license), subject to the applicable Licensed Level. Any access to HANA DB for BW, including but not limited to data loading, modeling, reporting and distribution, must take place via SAP BW. HANA DB for BW may not be used as a database for any other purpose except as specified in this footnote. HANA DB for BW includes a runtime license of HANA Studio and access is solely to administer and manage HANA DB for BW. HANA DB for BW does not include a license for SAP BW. HANA DB for BW cannot be deployed on the same installation as any other SAP HANA software. The SAP Named User requirements for HANA Software apply to HANA DB for BW.
- 9.6 The Sybase runtime components included with HANA Extended Enterprise licensed hereunder may include certain third party open source and/or other free download components (collectively, the “Free Download Components”). Please refer to <http://www.sybase.com/thirdpartylegal> for certain notices relating to the Free Download Components.
10. Focused Business Solutions.
- 10.1 If licensed Software is identified as a Focused Business Solution (“FBS Software”), special support strategy and conditions apply. SAP Support for FBS Software shall be provided in accordance with the applicable SAP Support terms as amended by the then current support strategy and conditions found at <http://service.sap.com/fbs/availability> (inclusive of any successor site(s) made known by SAP, the “Strategy & Conditions Site”).
- 10.2 The Strategy & Conditions Site is hereby amended to include the following terms:
- 10.2.1 FBS Software requires, as a prerequisite to its Use and installation, a specific version (e.g. release, service level pack, and/or enhancement pack) of certain SAP Software (the “Base Software”), which is identified on the Strategy & Conditions Site and must be separately licensed and installed by Ordering Activity.
- 10.2.2 In the future, should SAP elect, in its sole and exclusive discretion, to make new release(s) of FBS Software commercially available as part of SAP Support, such new release(s) may (a) differ functionally, (b) have different supported language(s) and/or (c) have different Base Software requirements from prior FBS Software release(s).
- 10.2.3 Mainstream and extended maintenance dates for FBS Software are targets, and therefore subject to change by SAP.

10.2.4 Maintenance and extended maintenance for any FBS Software release is contingent upon Ordering Activity remaining subscribed to, and current on, payment for maintenance for the applicable Base Software.

10.2.5 In no event will maintenance or extended maintenance for any FBS Software release be provided following the expiration or termination of mainstream or extended (as applicable) maintenance on the underlying Base Software.

Exhibit 4 - Pass Through Terms for Third Party Databases

SAP may deliver SAP software containing a database product where the end user is not entitled to use the database unless he/she has acquired the requisite number of licenses from the database vendor or its authorized distributor. Such deliveries are reported to the database vendor.

Conditions for the use of ORACLE® Database Software when licensed from SAP

1. Copyright

- 1.1 The comprehensive copyright to Oracle software is the sole property of the Oracle Corporation, Redwood Shores, CA, USA.
- 1.2 Third party database applications for system administration, monitoring and management may directly access the Oracle database.
- 1.3 The customer shall only use the Oracle software in connection with the SAP Software and only for the purposes of its own internal data processing which includes access of third party user such as contractor, supply chain vendor or supplier, customer, or third party individual authorized by the customer. It is allowed to customize the SAP software or to create additional functionality, new applications, or to support third party database applications which only interface with them (example: via RFC, BAPI) Third party database applications or new functionality or new applications which may directly access the Oracle database or indirectly access information contained therein are not allowed.
- 1.4 The customer shall assign the Oracle software only to wholly owned or majority owned subsidiaries. Assignment to competitors of Oracle is prohibited.
- 1.5 In view of its limited rights of use, the customer shall neither modify, decompile nor reverse engineer the Oracle software except and to the extent that it is expressly permitted by applicable law.
- 1.6 The Oracle software may only be used in the country or countries for which the customer has acquired a license. The customer hereby undertakes to adhere to all regulations of the US Department of Commerce and the American export authorities.
- 1.7 The use of Oracle software for the planning, production, control or monitoring of nuclear power stations, air traffic, means of mass transportation or medical equipment is not permitted, unless such use is limited to commercial or purely administrative applications.
- 1.8 The customer is not entitled to receive the source code for the Oracle software.

2. Other Conditions

- 2.1 The publication of benchmark tests for the Oracle software is not permitted.

Conditions for the Use of the Microsoft SQL-Server

Conditions for the Use of the Microsoft SQL-Server when licensed by SAP

For the purpose of this Section “Integrated Application” shall be defined as SAP software integrating the Microsoft SQL Server Database.

The Microsoft SQL Server Database may contain the following software:

“Server Software” provides services or functionality on your server (your computers capable of running the Server Software are “Servers”); “Client Software” allows an electronic device (“Device”) to access or utilize the Server Software.

1. GRANT OF LICENSE.

This Third-Party Database is licensed and delivered to you solely for use as part of the SAP software. Contractor, through SAP, grants you the following rights to the Microsoft SQL Server Database, provided you comply with all of the terms and conditions of this license:

Installation -- Server Software. You may install and use one copy of the Server Software, as part of the SAP Software, on each single Server on which you install the Integrated Application.

SQL Server, Enterprise Edition. If you have acquired the Enterprise Edition of the Server Software, which must be indicated on your license to use the SAP software, you may install any number of instances of the Server Software on that Server. An “instance” shall mean a running copy of the Server Software.

Client Software. You may install the Client Software (SQL Server Personal Edition) on any internal Device, provided that you acquire the access license rights required for each use of the Integrated Application utilizing the Client Software on such Device as specified below.

SQL Server Access Requirements. You may use the Client Software only to access, configure, administer, or otherwise use the Server Software in conjunction with and as part of the SAP Software. You must acquire a Third-Party Database access license right for each use of any Device that:

- accesses or otherwise utilizes the services of the Server Software (including Devices using MSDE for such access), or
- installs and uses SQL Server Personal Edition, or

- uses the Management Tools, Books-Online, and Development Tools components of Microsoft SQL Server (collectively "Tools"). You may only use the Tools for internal use in conjunction with your Server Software.

Reservation of Rights. SAP and Microsoft reserve all rights not expressly granted to you in this license.

Benchmark Testing. You must obtain Microsoft's prior written approval to disclose to a third party the results of any benchmark test of the software. However, this does not apply to the Windows components.

Downgrades. Instead of installing and using the Server Software, you may install and use an earlier version of the Server Software in accordance with this license, provided that you completely remove such earlier version and install the original Server Software within a reasonable time. Your use of such earlier version shall be governed by this license, and your rights to use such earlier version shall terminate when you install the original Server Software.

Runtime-Restricted Use Software. This Microsoft SQL Server Database is "Runtime-Restricted Use" software; as such, the Microsoft SQL Server Database may only be used to run the SAP Application. The Microsoft SQL Server Database may not be used either (i) to develop any new software applications, (ii) in conjunction with any software applications, databases or tables other than those contained in the SAP Software, and/or (iii) as a standalone software application. The foregoing provision, however, does not prohibit you from using a tool to run queries or reports from existing tables, and/or from using a development environment or workbench which is part of the SAP Software to configure or extend such SAP Software.

2. SCOPE OF LICENSE.

The software is licensed, not sold. This agreement only gives you some rights to use the software. SAP and Microsoft reserve all other rights. Unless applicable law gives you more rights despite this limitation, you may use the software only as expressly permitted in this agreement. In doing so, you must comply with any technical limitations in the software that only allow you to use it in certain ways. For more information, see www.microsoft.com/licensing/userights. You may not:

- work around any technical limitations in the software;
- reverse engineer, decompile or disassemble the software, except and only to the extent that applicable law expressly permits, despite this limitation;
- make more copies of the software than specified in this agreement or allowed by applicable law, despite this limitation;
- publish the software for others to copy;
- rent, lease or lend the software; or
- use the software for commercial software hosting services.

Rights to access the software on any device do not give you any right to implement Microsoft patents or other Microsoft intellectual property in software or devices that access that device.

3. NO HIGH RISK USAGE.

The Products are not fault-tolerant and are not guaranteed to be error free or to operate uninterrupted. You may not use the Products in any application or situation where the Product(s) failure could lead to death or serious bodily injury of any person, or to severe physical or environmental damage ("High Risk Use"). Examples of High Risk Use include, but are not limited to:

- aircraft or other modes of human mass transportation,
- nuclear or chemical facilities,
- life support systems,
- implantable medical equipment,
- motor vehicles, or
- weaponry systems.

High Risk Use does not include utilization of Products for administrative purposes, to store configuration data, engineering and/or configuration tools, or other non-control applications, the failure of which would not result in death, personal injury, or severe physical or environmental damage. These non-controlling applications may communicate with the applications that perform the control, but must not be directly or indirectly responsible for the control function.

4. TRANSFER – Internal.

You may move the Server Software to a different Server, provided that it is removed from the Server from which it is transferred and provided that it is transferred as part of the Integrated Application.

Transfer to Third Party. The initial user of the Microsoft SQL Server Database may make a one-time transfer of the Third-Party Database to another end user, provided that it is transferred as part of the SAP Software. The transfer has to include all component parts, media, printed materials, this license, and if applicable, the Certificate of Authenticity. The transfer may not be an indirect transfer, such as a consignment. Prior to the transfer, the end user receiving the transferred Microsoft SQL Server Database must agree to all the license terms.

5. LIMITATION ON REVERSE ENGINEERING, DECOMPIATION, AND DISASSEMBLY.

You may not reverse engineer, decompile, or disassemble the Microsoft SQL Server Database, except and only to the extent that it is expressly permitted by applicable law notwithstanding this limitation.

6. TERMINATION.

Without prejudice to any other rights, Licensor may cancel this license if you do not abide by the terms and conditions of this license, in which case you must destroy all copies of the Microsoft SQL Server Database and all of its component parts.

7. EXPORT RESTRICTIONS.

You acknowledge that Software is subject to U.S. export jurisdiction unless otherwise indicated by Microsoft. You agree to comply with all applicable international and national laws that apply to the Software, including the U.S. Export Administration Regulations, as well as end-user, end-use and destination restrictions issued by U.S. and other governments. For additional information, see <http://www.microsoft.com/exporting/>.

8. U.S. GOVERNMENT LICENSE RIGHTS.

All Microsoft SQL Server Databases provided to the U.S. Government pursuant to solicitations issued on or after December 1, 1995 is provided with the commercial license rights and restrictions described elsewhere herein. All Microsoft SQL Server Databases provided to the U.S. Government pursuant to solicitations issued prior to December 1, 1995 is provided with "Restricted Rights" as provided for in FAR, 48 CFR 52.227-14 (JUNE 1987) or DFAR, 48 CFR 252.227-7013 (OCT 1988), as applicable.

9. COPYRIGHT and OTHER INTELLECTUAL PROPERTY LAWS AND TREATIES

The Microsoft SQL Server Database is protected by copyright and other intellectual property laws and treaties. Microsoft or its suppliers own the title, copyright, and other intellectual property rights in the Microsoft SQL Server Database. The Microsoft SQL Server is licensed, not sold.

10. NOT FAULT TOLERANT. THE SOFTWARE IS NOT FAULT TOLERANT. SAP HAS INDEPENDENTLY DETERMINED HOW TO USE THE MS SQL SERVER DATABASE IN THE INTEGRATED APPLICATION THAT IT IS LICENSING TO YOU, AND MICROSOFT HAS RELIED ON SAP TO CONDUCT SUFFICIENT TESTING TO DETERMINE THAT THE MS SQL SERVER DATABASE IS SUITABLE FOR SUCH USE.

11. NO WARRANTIES BY MICROSOFT. YOU AGREE THAT IF YOU HAVE RECEIVED ANY WARRANTIES WITH REGARD TO EITHER (A) THE MS SQL SERVER DATABASE, OR (B) THE INTEGRATED APPLICATION, THEN THOSE WARRANTIES ARE PROVIDED SOLELY BY SAP AND DO NOT ORIGINATE FROM, AND ARE NOT BINDING ON, MICROSOFT.

12. NO LIABILITY OF MICROSOFT FOR CERTAIN DAMAGES. TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, MICROSOFT SHALL HAVE NO LIABILITY FOR ANY INDIRECT, SPECIAL, CONSEQUENTIAL OR INCIDENTAL DAMAGES ARISING FROM OR IN CONNECTION WITH THE USE OR PERFORMANCE OF THE MS SQL SERVER DATABASE OR THE INTEGRATED APPLICATION. THIS LIMITATION WILL APPLY EVEN IF ANY REMEDY FAILS OF ITS ESSENTIAL PURPOSE. IN NO EVENT SHALL MICROSOFT BE LIABLE FOR ANY AMOUNT IN EXCESS OF TWO HUNDRED FIFTY U.S. DOLLARS (US\$250.00).

13. SEVERABILITY. If a court holds any provision of this agreement to be illegal, invalid or unenforceable, the remaining provisions will continue in full force and effect and the parties will amend this agreement to give effect to the stricken clause to the maximum extent possible.

Conditions for the Use of the Microsoft SQL-Server when previously licensed by Microsoft or Microsoft Distributor

The SAP software containing a copy of the Microsoft SQL-Server, which has been integrated or installed as a component of this SAP software. All Microsoft products are subject to the terms of the Microsoft License Agreement with end users which is included in the software package or the license agreements shipped with the Microsoft SQL-Server. An exception hereto is that the functionality of a Microsoft product as an integrated part of an SAP solution can differ from the functionality of a non-integrated Microsoft product. All inquiries relating to the functionality or performance of the SAP solution with Microsoft products should therefore be addressed to SAP and not to Microsoft. The SAP product does not contain a license for the integrated Microsoft product. You are therefore not entitled to use the copy of the Microsoft SQL-Server contained in this product and you will not receive a license for such use unless you have acquired or otherwise have at your disposal the same number of client/server licenses as user licenses acquired for the SAP software. By concluding this contract with SAP you represent and warrant that you have previously acquired a Microsoft license for SQL-Server end users and to conclude a corresponding license agreement.

When SAP delivers an updated version of the SAP software containing an updated version of the integrated Microsoft product, the end user is not entitled to use the updated version of the Microsoft product unless he/she has acquired the requisite number of client/server licenses from an authorized Microsoft distributor.

Conditions for Use of Sybase ASE

SAP is licensing Sybase ASE as a runtime license for Software licensed by SAP. A full use license for Sybase ASE is available from Sybase directly.

Ordering Activity shall only use the Sybase ASE in connection with the Software licensed for the Use with Sybase ASE and only for the purposes of its own internal data processing which includes access of third party user such as contractor, supply chain vendor or supplier, customer, or third party individual authorized by the customer. Ordering Activity may not Use Sybase ASE with any non-SAP branded or custom developed applications.

Third party database applications for system administration, monitoring and management may directly access Sybase ASE.

Third party database applications or new functionality or new applications which may directly access the Sybase ASE or indirectly access information contained therein are not allowed.

The foregoing provision, however, does not prohibit you from using a development environment or workbench which is part of the SAP Software to configure or modify the SAP software for which the database is licensed.

(NAVTEQ):

The data ("Data") is provided for Ordering Activity's internal use only and not for resale. It is protected by copyright, and is subject to the following terms and conditions which are agreed to by you, on the one hand, NAVTEQ and NAVTEQ Suppliers on the other hand.

© 2008 NAVTEQ. All rights reserved.

The Data for areas of Canada includes information taken with permission from Canadian authorities, including: © Her Majesty the Queen in Right of Canada, © Queen's Printer for Ontario, © Canada Post Corporation, GeoBase© Department of Natural Resources Canada

NAVTEQ holds a non-exclusive license from the United States Postal Service® to publish and sell ZIP+4® information.

©United States Postal Service® 2008. Prices are not established, controlled or approved by the United States Postal Service®. The following trademarks and registrations are owned by the USPS: United States Postal Service, USPS, and ZIP+4.

Scope of Use. Ordering Activity agrees to use this Data together with SAP Applications solely for your internal business operations purposes for which Ordering Activity was licensed, and not for service bureau, time-sharing or other similar purposes. Accordingly, but subject to the restrictions set forth in the following paragraphs, Ordering Activity may copy this Data only as necessary for Ordering Activity's business use to (i) view it, and (ii) save it, provided that Ordering Activity does not remove any copyright notices that appear and do not modify the Data in any way. Ordering Activity agrees not to otherwise reproduce copy, modify, decompile, disassemble or reverse engineer any portion of this Data, and may not transfer or distribute it in any form except to your affiliates, for any purpose, except to the extent permitted by mandatory laws. Multi-disc sets may only be transferred or sold as a complete set as provided by SAP and not as a subset thereof.

Restrictions. Except where Ordering Activity has been specifically licensed to do so by SAP, and without limiting the preceding paragraph, Ordering Activity may not (a) use this Data with any products, systems, or applications installed or otherwise connected to or in communication with vehicles, capable of vehicle navigation, positioning, dispatch, real time route guidance, fleet management or similar applications; or (b) with or in communication with any positioning devices or any mobile or wireless-connected electronic or computer devices, including without limitation cellular phones, palmtop and handheld computers, pagers, and personal digital assistants or PDAs.

Warning. The Data may contain inaccurate or incomplete information due to the passage of time, changing circumstances, sources used and the nature of collecting comprehensive geographic data, any of which may lead to incorrect results.

No Warranty. This Data is provided to you "as is," and Ordering Activity agrees to use it at its own risk. NAVTEQ and NAVTEQ SUPPLIERS make no guarantees, representations or warranties of any kind, express or implied, arising by law or otherwise, including but not limited to, content, quality, accuracy, completeness, effectiveness, reliability, fitness for a particular purpose, usefulness, use or results to be obtained from this Data, or that the Data or server will be uninterrupted or error-free.

Disclaimer of Warranty: NAVTEQ and NAVTEQ SUPPLIERS DISCLAIM ANY WARRANTIES, EXPRESS OR IMPLIED, OF QUALITY, PERFORMANCE, MERCHANTABILITY, AND FITNESS FOR A PARTICULAR PURPOSE OR NON-INFRINGEMENT. Some States, Territories and Countries do not allow certain warranty exclusions, so to that extent the above exclusion may not apply to you.

Disclaimer of Liability: NAVTEQ and NAVTEQ SUPPLIERS SHALL NOT BE LIABLE TO YOU: IN RESPECT OF ANY CLAIM, DEMAND OR ACTION, IRRESPECTIVE OF THE NATURE OF THE CAUSE OF THE CLAIM, DEMAND OR ACTION ALLEGING ANY LOSS, INJURY OR DAMAGES, DIRECT OR INDIRECT, WHICH MAY RESULT FROM THE USE OR POSSESSION OF THE INFORMATION; OR FOR ANY LOSS OF PROFIT, REVENUE, CONTRACTS OR SAVINGS, OR ANY OTHER DIRECT, INDIRECT, INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF LICENCEE'S USE OF OR INABILITY TO USE THIS INFORMATION, ANY DEFECT IN THE INFORMATION, OR THE BREACH OF THESE TERMS OR CONDITIONS, WHETHER IN AN ACTION IN CONTRACT OR TORT OR BASED ON A WARRANTY, EVEN IF CLIENT OR ITS LICENSORS HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. Some States, Territories and Countries do not allow certain liability exclusions or damages limitations, so to that extent the above may not apply to Ordering Activity.

Government End Users. If the Data is being acquired by or on behalf of the United States government or any other entity seeking or applying rights similar to those customarily claimed by the United States government, the Data is a "commercial item" as that term is defined at 48 C.F.R. ("FAR") 2.101, is licensed in accordance with these Pass Through Terms, and each copy of Data delivered or otherwise furnished shall be marked and embedded as appropriate with the following "Notice of Use," and shall be treated in accordance with such Notice:

Notice of Use

Contractor (Manufacturer/ Supplier) Name: NAVTEQ

Contractor (Manufacturer/Supplier) Address: 425 W. Randolph Street, Chicago, Illinois 60606

This Data is a commercial item as defined in FAR 2.101 and is subject to these End-User Term under which this Data was provided.

© 2008 NAVTEQ – All rights reserved.

If Data for additional countries is included or distributed in connection with software products of SAP, or if Ordering Activity uses data from relevant countries the following supplier terms/copyright notices shall be included in the End-User Terms as applicable:

10. USPS SUITELINK:

- 1. Ordering Activity's right to use the CASS Certified Interface and the SuiteLink Product shall be strictly limited to use only within the United States of America;
- 2. Ordering Activity's right to use the CASS Certified Interface and the SuiteLink Product shall be strictly limited to improving business delivery addresses in multi-occupation buildings for use on letters, flats, postcards, packages, leaflets, magazines, postcards, advertisements, books, and other printed material, and any other item that will be delivered by USPS.
- 3. Ordering Activity have no right to sublicense, sell or otherwise distribute, reproduce, perform, or prepare derivative works of the Interface or the SuiteLink Product.
- 4. Ordering Activity acknowledges that:
 - a. the CASS Certified Interface and the SuiteLink Product under license from USPS;
 - b. You are a subOrdering Activity under SAP's license from USPS and obtain from Licensor no broader right than permitted under SAP's license agreement with USPS;
- 5. You shall be strictly limited to using the CASS Certified Interface and the SuiteLink Product only as a component of SAP's Data Quality or Data Services products.

11. USPS NCOALINK

- 1. Ordering Activity has no rights as to the NCOALink Interface under this agreement beyond using it as a component of Licensor's Data Quality and Data Services products in conjunction with the NCOALink data product to update a list, system, group or other collection of at least 100 unique names and addresses (herein "Mailing Lists") used for addressing letters, flats, postcards, packages, leaflets, magazines, advertisements, books and other printed material, and any other deliverable item handled by the United States Postal Service (herein "Deliverables") for delivery by the United States Postal Service (herein "USPS").
- 2. Ordering Activity has no right to develop or use any NCOALink product, service, interface, or any related item or technology to compile or maintain a list or collection of names and addresses or addresses only of new movers or to create other products or data bases or collections of information concerning new movers, histories of address changes, lists or histories of residents, or other informational or data sources based upon information received from or through the NCOALink data or technology for the purpose of renting, selling, transferring, disclosing, making available or otherwise providing such information to an entity unrelated to Ordering Activity.
- 3. For the purposes of communicating with addressees on Ordering Activity's Mailing Lists and for the purpose of record-keeping, however, Ordering Activity is permitted to retain updated addresses so long as not used in violation of paragraph 2 above, for individuals and entities with whom Ordering Activity has or had a business relationship, in connection with which Ordering Activity will use the updated address; however, these updated addresses may only be used by Ordering Activity and Ordering Activity may use them only for carrying out your

organizational purposes in connection with that individual or entity and may not transfer, disclose, license or distribute to, or be used by any other entity or individual whatsoever.

4. No proprietary Mailing List that contains both old and corresponding updated address records, or any service product or system of lists that can be used to link old and corresponding updated address records, if updated by use of NCOALink, shall be rented, sold, transferred, disclosed, made available, or otherwise provided, in whole or in part to your customers or any other individual or entity.
5. Ordering Activity's right to use the NCOALink Interface is strictly limited to use only within the United States, its territories, and possessions.
6. As to the Interface, Ordering Activity has the right only to update Mailing Lists used to prepare Deliverables that will be deposited with the USPS.
7. Ordering Activity has no right to sublicense, sell, assign, or otherwise transfer rights in, reproduce, perform, attempt to improve, reverse engineer, modify or otherwise change, or prepare derivative works of the Interface. Any attempt to sublicense, sell, assign, or otherwise transfer rights in, or otherwise distribute the Interface shall be void.
8. Ordering Activity acknowledges that:
 - a. USPS owns the NCOALink data, technology, and system in its entirety including that used in the development of the Interface;
 - b. USPS owns and retains rights in the trademark of NCOALink and in the registered trademarks UNITED STATES POSTAL SERVICE®, POSTAL SERVICE®, US POSTAL SERVICE®, AND USPS® ;
 - c. SAP is providing the Interface as a component of its products to Ordering Activity solely for use with the NCOALink Product under a nonexclusive, limited distribution license from USPS; and
 - d. the rights Ordering Activity obtains in this license are derived from SAP's agreement with USPS and you obtain from SAP no broader right than SAP obtains from USPS, except as to Ordering Activity's specific right to use the NCOALink Interface to access the NCOALink data.
9. Ordering Activity is strictly limited to using the Interface only as a component of SAP's Data Quality and Data Services products.
10. Ordering Activity acknowledges and agrees that Ordering Activity has no right to sublicense, sell, distribute, reproduce, or display USPS trademarks or sell the Interface or other products under USPS's trademarks.

12. USPS SUBLICENSE AGREEMENTS:

DPV SUBLICENSE AGREEMENT

This Sublicense Agreement ("Sublicense") between Contractor and Ordering Activity sets forth additional terms required by the United States Postal Service ("USPS") regarding Ordering Activity's use of the DPV option with other SAP CASS certified software.

For purposes of this Sublicense, Delivery Point Validation ("DPV") means the new USPS proprietary technology product designed to help mailers validate the accuracy of address data, right down to the physical delivery point. The DPV process cannot assign a ZIP+4 Code nor will it respond to a non-ZIP+4 coded address.

1. Ordering Activity understands that the USPS provides the DPV Product through special licensing in order to protect the USPS' proprietary intellectual property and its compliance with restrictions of Title 39 USC § 412.
2. Ordering Activity acknowledges that the address information contained within the DPV Product is subject to Title 39 USC § 412. Ordering Activity shall take all steps necessary to secure the DPV Product in a manner that fully complies with Section 412 constraints prohibiting the disclosure of address lists.
3. Ordering Activity acknowledges that the DPV Product is confidential and the proprietary property of the USPS. Ordering Activity further acknowledges that the USPS represents that it is the sole owner of copyrights and other proprietary rights in the DPV Product.
4. Ordering Activity shall not use the DPV Product technology to artificially compile a list of delivery points not already in Ordering Activity's possession or to create other derivative products based upon information received from or through the DPV Product technology.
5. No proprietary Ordering Activity address list(s) or service products or other system of records that contain(s) address attributes updated through DPV processing shall be rented, sold, distributed or otherwise provided in whole or in part to any third party for any purpose containing address attributes derived from DPV processing. Ordering Activity may not use the DPV technology to artificially generate address records or to create mailing lists.
6. The DPV Product processing requires Ordering Activity to have access to address information that appears on mail pieces. To ensure the confidentiality of this address information, no employee or former employee of Ordering Activity may, at any time, disclose to any third party any address information obtained in the performance of this agreement. Ordering Activity agrees to control and restrict access to address information to persons who need it to perform work under this agreement and prohibit the unauthorized reproduction of this information. Due to the sensitive nature of the confidential and proprietary information contained in the DPV Product, Ordering Activity acknowledges that unauthorized use and/or disclosure of the DPV will irreparably harm the USPS' intellectual property. Therefore, Ordering Activity (i) agrees to reimburse the USPS for any unauthorized use and/or disclosure at a rate of treble (3 times) the current annual fee charged to Ordering Activity hereunder; and (ii) consents to such injunctive or other equitable relief as a court of competent jurisdiction may deem proper.

7. CONTRACTOR, SAP AND THE USPS SHALL NOT BE LIABLE FOR ANY DESIGN, PERFORMANCE OR OTHER FAULT OR INADEQUACY OF DPV, OR FOR DAMAGES OF ANY KIND ARISING OUT OF OR IN ANY WAY RELATED TO OR CONNECTED WITH SUCH FAULT OR INADEQUACY. IN NO EVENT SHALL SAP'S OR THE USPS' LIABILITY TO ORDERING ACTIVITY HEREUNDER, IF ANY, EXCEED THE PRO RATA PORTION OF THE ANNUAL LICENSE FEE FOR DPV.

8. Reserved.

9. Ordering Activity acknowledges that the USPS reserves the right to stop DPV processing in the USPS' sole discretion. SAP will not be liable or responsible for any decision the USPS makes in canceling Ordering Activity's Sublicense, including, but not limited to, arbitrating the cancellation decision on behalf of the customer. In the event the USPS cancels Ordering Activity's DPV processing, (i) Ordering Activity shall not be entitled to any refund or credit from SAP; and, (ii) SAP will discontinue shipping DPV directories to Ordering Activity.

10. Ordering Activity agrees that the USPS or its designated representatives, on an announced or unannounced basis, shall have the right to visit and examine Ordering Activity's sites. USPS or its designated representatives shall have the right examine, on or off Ordering Activity's premises, Ordering Activity's computer systems, processing files, documents, administrative records, and other materials to ensure Ordering Activity's compliance with the provisions of this agreement.

11. Ordering Activity further agrees that the USPS or its authorized representatives will, until three (3) years after final payment under this agreement, have access to and the right to examine any directly pertinent books, documents, papers, records or other materials of Ordering Activity involving transactions related to this agreement.

12. Ordering Activity shall not export the DPV Product outside of the United States or its territories without prior written approval of the USPS.

13. This Sublicense shall be governed by the federal laws of the United States of America.

14. This Sublicense shall not be transferable, in whole or in part.

15. All obligations of Ordering Activity referred to in this Sublicense inure to the benefit of USPS.

13. USPS LACSLINK SOFTWARE SUBLICENSE

This Sublicense Agreement ("Sublicense") between Contractor and Ordering Activity sets forth additional terms required by the United States Postal Service ("USPS") regarding Ordering Activity's use of the LACSLink option with other CASS certified software.

1. For purposes of this document, the following terms shall be defined as set forth below:

- "USPS" means the United States Postal Service.
- "Deliverables" means letters, flats, postcards, packages, leaflets, magazines, postcards, advertisements, books, and other printed material, and any other item delivered by USPS.
- "Interface" means one or more SAP interfaces developed for use with the LACSLink Product. "LACSLink Product" means the confidential and proprietary database concerning the conversion of existing addresses to their new or update or replacement address or the like, provide by USPS in a highly and uniquely secured environment.

2. Ordering Activity's right to use the Interface shall be strictly limited to use only within the geographic boundaries governed by the United States, its territories, and possessions, and only for updating addresses and mailing lists used to prepare Deliverables for deposit with USPS in conformance with USPS requirements

Ordering Activity shall have no right to sublicense, sell or otherwise distribute, reproduce, perform, or prepare derivative works of the Interface. Ordering Activity hereby acknowledges that:

- USPS owns the LACSLink Product and USPS marks;
- SAP provides the SAP product in part under license from USPS;
- Ordering Activity is a Licensee under SAP's license from USPS and obtains from SAP no broader right than granted to SAP in such license from USPS;
- Ordering Activity shall be strictly limited to using the Interface only as a component of the SAP product; and Ordering Activity agrees that it does not have a right to sublicense, distribute, reproduce, perform, display, or sell the Interface or USPS's marks.

3. CONTRACTOR, SAP AND THE USPS SHALL NOT BE LIABLE FOR ANY DESIGN, PERFORMANCE OR OTHER FAULT OR INADEQUACY OF LACSLink, OR FOR DAMAGES OF ANY KIND ARISING OUT OF OR IN ANY WAY RELATED TO OR CONNECTED WITH SUCH FAULT OR INADEQUACY. IN NO EVENT SHALL SAP'S OR THE USPS' LIABILITY TO ORDERING ACTIVITY HEREUNDER, IF ANY, EXCEED THE PRO RATA PORTION OF THE ANNUAL LICENSE FEE FOR LACSLink BASED ON THE EFFECTIVE DATE OF CANCELLATION WITHIN THIRTY (30) CALENDAR DAYS OF THE DATE OF CANCELLATION.

4. Reserved

5. Ordering Activity acknowledges that the USPS reserves the right to stop LACSLink Product processing in the USPS' sole discretion. SAP will not be liable or responsible for any decision the USPS makes in canceling Ordering Activity's Sublicense, including, but not limited to, arbitrating the cancellation decision on behalf of the customer. In the event the USPS cancels Ordering Activity's LACSLink Product processing, (i) Ordering Activity shall not be entitled to any refund or credit from SAP; and, (ii) SAP will discontinue shipping LACSLink Product directories to Ordering Activity.

6. Ordering Activity agrees that the USPS or its designated representatives, on an announced or unannounced basis, shall have the right to visit and examine Ordering Activity's sites. USPS or its designated representatives shall have the right examine, on or off SubOrdering Activity's premises, Ordering Activity's computer systems, processing files, documents, administrative records, and other materials to ensure Ordering Activity's compliance with the provisions of this agreement.

7. Ordering Activity further agrees that the USPS or its authorized representatives will, until three (3) years after final payment under this agreement, have access to and the right to examine any directly pertinent books, documents, papers, records or other materials of Ordering Activity involving transactions related to this agreement.
8. Ordering Activity shall not export the LACSLink Product outside of the United States or its territories without prior written approval of the USPS.
9. This Sublicense shall be governed by the federal laws of the United States of America.
10. This Sublicense shall not be transferable, in whole or in part.
11. All obligations of Ordering Activity referred to in this Sublicense inure to the benefit of USPS.
14. DSF2 Interface (USPS Delivery Sequence File - DSF2)
 1. Ordering Activity has no rights as to the DSF2 Interface under this agreement beyond using it in conjunction with the DSF2 data product to update a list, system, group or other collection of addresses (herein "Mailing Lists") used for addressing letters, flats, postcards, packages, leaflets, magazines, advertisements, books and other printed material, and any other deliverable item handled by the United States Postal Service (herein "Deliverables") for delivery by the United States Postal Service (herein "USPS").
 2. Ordering Activity's right to use the DSF2 Interface is strictly limited to use only within the United States, its territories, and possessions.
 3. As to the Interface, Ordering Activity has the right only to sequence and/or update Mailing Lists used to prepare Deliverables that will be deposited with the USPS.
 4. Ordering Activity has no right to sublicense, sell, assign, or otherwise transfer rights in, reproduce, perform, attempt to improve, reverse engineer, modify or otherwise change, or prepare derivative works of the Interface. Any attempt to sublicense, sell, assign, or otherwise transfer rights in, or otherwise distribute the Interface shall be void.
 5. Ordering Activity acknowledges
 - a. that USPS owns the DSF2 data, technology, and system in its entirety including that used in the development of the Interface;
 - b. that USPS owns and retains rights in the trademark of DSF2 and in the registered trademarks UNITED STATES POSTAL SERVICE®, POSTAL SERVICE®, US POSTAL SERVICE®, AND USPS® ;
 - c. that Licensee is providing the Interface to Ordering Activity solely for use with the DSF2 Product under a nonexclusive, limited distribution license from USPS; and
 - d. that the rights Ordering Activity obtains in this license are derived from Licensee's agreement with USPS and Ordering Activity obtains from Licensee no broader right than Licensee obtains from USPS, except as to Sublicensee's specific right to use the DSF2 Interface to access the DSF2 data.
 6. Ordering Activity is strictly limited to using the Interface only with the DSF2 Product; and
 7. Ordering Activity acknowledges and agrees that Ordering Activity has no right to sublicense, sell, distribute, reproduce, or display USPS trademarks or sell the Interface or other products under USPS's trademarks.

EXHIBIT 2 TO ATTACHMENT A - "PROFESSIONAL SERVICES SCHEDULE"

The parties agree that this Exhibit 2 is hereby annexed to and made a part of the Attachment A. WHEREAS, Ordering Activity licensed from Contractor the right to Use SAP Software pursuant to the Schedule Contract and Contractor, through SAP, provides, consulting and professional services ("Services") including support of installation and implementation of the licensed Software in the United States.

1. **Services.** Upon request by Ordering Activity, Contractor, through SAP, will provide a Consultant(s) to perform, at Ordering Activity's direction, consulting and professional services including support of installation and implementation of the applicable SAP Software ("Services"). Any Statement(s) of Work ("SOW") more fully describing the project assumptions, scope, duration and fees for the Services shall reference this Exhibit. All Services of the SAP Consultant(s) will be coordinated with the designated Ordering Activity representative. Ordering Activity is responsible for making the necessary internal arrangements for the carrying out of the Services on a non-interference basis.
2. **Satisfaction with Performance.** If at any time Ordering Activity or Contractor is dissatisfied with the material performance of an assigned Consultant or an Ordering Activity project team member, the dissatisfied party shall immediately report such dissatisfaction to the other party in writing and may request a replacement. The other party shall use its reasonable discretion in accomplishing any such change.
3. Reserved
4. Reserved.
5. **Work Product.** Unless otherwise agreed to in writing by the parties in a SOW, SAP shall have the right, title and ownership to any and all ideas, concepts, or other intellectual property rights related in any way to the techniques, knowledge or processes of the SAP Services and deliverables, whether or not developed for Ordering Activity.
6. **Warranty.** Contractor warrants that its Services shall be performed consistent with generally accepted industry standards. CONTRACTOR MAKES NO WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, NOR ANY OTHER WARRANTIES, EXPRESS, IMPLIED OR STATUTORY, IN CONNECTION WITH THIS SCHEDULE AND THE SERVICES PROVIDED HEREUNDER.

7. Reserved.
8. Reserved.
9. General Provisions.
 - 9.1 Contractor may subcontract all or part of the Services to be performed to a qualified third party.

SAP STANDARD SUPPORT SCHEDULE

This Schedule governs the provision of support services by Contractor, through SAP as further defined herein (“SAP Standard Support”) for all software licensed by Ordering Activity (hereunder also referred to as “Licensee”) under the Schedule contract (hereinafter collectively referred to as the “Standard Support Solutions”), excluding software to which special support agreements apply exclusively.

1. Definitions

- 1.1 “Production System” shall mean a live SAP system used for running Licensee’s internal business operations and where Licensee’s data is recorded.
- 1.2 “Service Session” shall mean a sequence of support activities and tasks carried out remotely to collect further information by interview or by analysis of a Production System resulting in a list of recommendations. A Service Session could run manually, as a self-service or fully automated.

2. Scope of SAP Standard Support

Licensee may request and SAP shall provide, to such degree as SAP makes such services generally available, SAP Standard Support services. SAP Standard Support currently includes:

Continuous Improvement and Innovation

- New software releases of the licensed Standard Support Solutions, as well as tools and procedures for upgrades.
- Support packages - correction packages to reduce the effort of implementing single corrections. Support packages may also contain corrections to adapt existing functionality to changed legal and regulatory requirements.
- For releases of the SAP Business Suite 7 core applications (starting with SAP ERP 6.0 and with releases of SAP CRM 7.0, SAP SCM 7.0, SAP SRM 7.0 and SAP PLM 7.0 shipped in 2008), SAP may provide enhanced functionality and/or innovation through enhancement packages or by other means as available. During mainstream maintenance for an SAP core application release, SAP’s current practice is to provide one enhancement package or other update per calendar year.
- Technology updates to support third-party operating systems and databases.
- Available ABAP source code for SAP software applications and additionally released and supported function modules.
- Software change management, such as changed configuration settings or Standard Support Solutions upgrades, is supported for example with content and information material, tools for client copy and entity copy, and tools for comparing customization.

Message Handling

- SAP Notes on the SAP Service Marketplace document software malfunctions and contain information on how to remedy, avoid and bypass errors. SAP Notes may contain coding corrections that licensees can implement into their SAP system. SAP Notes also document related issues, licensee questions, and recommended solutions (e.g. customizing settings).
- SAP Note Assistant - a tool to install specific corrections and improvements to SAP components.
- Global message handling by SAP for problems related to Standard Support Solutions. When Licensee reports malfunctions, SAP supports Licensee by providing information on how to remedy, avoid or bypass errors. The main channel for such support will be the support infrastructure provided by SAP. Licensee may send an error message at any time. All persons involved in the message solving process can access the status of the message at any time. In exceptional cases, Licensee may also contact SAP by telephone. For such contact (and as otherwise provided) SAP requires that Licensee provides remote access as specified in Section 3.2(iii). SAP will commence message handling on errors of very high priority (for a definition of priorities, see SAP Note 67739) within 24 hours, 7 days a week provided that the following conditions are met: (i) The error must be reported in English and (ii) Licensee must have a suitably skilled English-speaking employee at hand so that Licensee and SAP can communicate if SAP assigns the problem message to an overseas SAP support center. If either or both of these conditions are not fulfilled, SAP may not be able to start message handling or to continue message handling until these conditions are fulfilled.
- Global 24x7 escalation procedures.

Remote Services

- SAP Standard Support currently includes a choice of one of the following remote services per live installation per calendar year:
 - One GoingLive Check e.g. in case the customer decides to implement new SAP Software and use it productively;
 - One GoingLive Upgrade Check for an upgrade to a higher release; or
 - One GoingLive OS/DB Migration Check. This OS/DB Migration Check assists the Licensee in preparing for a migration of an operating system or database. Migration is the responsibility of the Licensee.
- In case of vital alerts reported by SAP EarlyWatch® Alert, up to two (2) SAP EarlyWatch® Checks may be performed per calendar year for a Production System if required.
- A service can consist of one or more Service Sessions.
- In order to meet the requested delivery date for a remote service, the remote service has to be ordered at least two months in advance of the desired remote service delivery date. The right to remote services only exists for a specific installation and is not transferable to other installations.
- Further information and detail about individual remote services can be found in SAP Service Marketplace at <http://service.sap.com/standardsupport>.

SAP Solution Manager Enterprise Edition under Standard Support

- SAP Solution Manager Enterprise Edition (and any successor to SAP Solution Manager Enterprise Edition provided hereunder) shall be subject to the Schedule contract and is for the following purposes only under SAP Standard Support: (i) delivery of SAP Standard Support, including delivery and installation, upgrade and maintenance of Standard Support Solutions and (ii) re-active support upon request from Licensee, including without limitation application of break fixes (e.g. patches, notes, etc.) and root cause analysis for Standard Support Solutions (iii) management of Standard Support Solutions using only those scenarios which are part of the functional baseline as defined on the SAP Service Marketplace <http://service.sap.com/solutionmanager>
- SAP – in its sole discretion – may update from time to time, on the SAP Service Marketplace under <http://service.sap.com/solutionmanager>, the use cases for SAP Solution Manager Enterprise Edition under SAP Standard Support.
- SAP Solution Manager Enterprise Edition shall only be used for SAP Standard Support during the term of this Schedule and by the Named Users licensed by Licensee subject to the licensed rights for the Software and exclusively for Licensee's SAP-related support purposes in support of Licensee's internal business operations. The right to use any SAP Solution Manager Enterprise Edition capabilities under SAP Standard Support other than those listed above is subject to a separate written agreement with SAP, even if such capabilities are accessible through or related to SAP Solution Manager Enterprise Edition. SAP Solution Manager must explicitly not be used for 3rd party applications not licensed via SAP or any other components or IT assets operated in conjunction with SAP software.
- In the event Licensee terminates SAP Standard Support and receives SAP Enterprise Support in accordance with Section 6, Licensee's use of SAP Solution Manager Enterprise Edition shall be governed by the terms and conditions of the SAP Enterprise Support Schedule.

Other Components, Methodologies, Content and Community Participation

- Monitoring components and agents for systems to monitor available resources and collect system status information of the Standard Support Solutions (e.g., SAP EarlyWatch Alert).
- Administrative integration of distributed systems through SAP Solution Manager Enterprise Edition for the purposes of SAP EarlyWatch Alert
- Content and supplementary tools designed to help increase efficiency, which may include implementation methodologies and standard procedures, an Implementation Guide (IMG) and Business Configuration (BC) Sets.
- Access to guidelines via the SAP Service Marketplace, which may include implementation and operations processes and content designed to help reduce costs and risks.
- Participation in SAP's customer and partner community (via SAP Service Marketplace), which provides information about best business practices, service offerings, etc.

3. Licensee's Responsibilities

3.1 SAP Standard Support Program Management

In order to receive SAP Standard Support hereunder, Licensee shall designate a qualified English speaking contact within its SAP Customer Center of Expertise ("Customer COE") (the "Contact Person") and shall provide contact details (in particular e-mail address and telephone number) by means of which the Contact Person or the authorized representative of such Contact Person can be contacted at any time. Licensee's Contact Person shall be Licensee's authorized representative empowered to make necessary decisions for Licensee or bring about such decision without undue delay.

3.2 Other Requirements

Licensee must further satisfy the following requirements:

- (i) Continue to pay all Standard Support Fees in accordance with the Schedule contract and this Schedule.
- (ii) Otherwise fulfill its obligations under the Schedule contract and this Schedule.
- (iii) Provide and maintain remote access via a technical standard procedure as defined by SAP and grant SAP all necessary authorizations, in particular for remote analysis of issues as part of message handling. Such remote access shall be granted without restriction regarding the nationality of the SAP employee(s) who process support messages or the country in which they are located. Licensee acknowledges that failure to grant access may lead to delays in message handling and the provision of corrections, or may render SAP unable to provide help in an efficient manner. The necessary software components must also be installed for support services. For more details, see SAP Note 91488.
- (iv) Establish and maintain an SAP certified Customer COE meeting the requirements specified in Section 4.
- (v) Have installed, configured and be using productively, an SAP Solution Manager Enterprise Edition Software system, with the latest patch levels for Basis and the latest SAP Solution Manager Enterprise Edition support packages.
- (vi) Activate SAP EarlyWatch Alert for the Production Systems and transmit data to Licensee's productive SAP Solution Manager Enterprise Edition system. See SAP Note 1257308 for information on setting up this service.
- (vii) Establish a connection between Licensee's SAP Solution Manager Enterprise Edition installation and SAP and a connection between the Standard Support Solutions and Licensee's SAP Solution Manager Enterprise Edition installation.
- (viii) Licensee shall maintain the solution landscape and core business processes in Licensee's SAP Solution Manager Enterprise Edition system at least for the Production Systems and systems connected to the Production Systems. Licensee shall document any implementation or upgrade projects in Licensee's SAP Solution Manager Enterprise Edition system.
- (ix) To fully enable and activate the SAP Solution Manager Enterprise Edition, Licensee shall adhere to the applicable documentation.
- (x) Licensee agrees to maintain adequate and current records of all modifications and, if needed, promptly provide such records to SAP.
- (xi) Submit all error messages via the then current SAP support infrastructure as made available by SAP from time to time via updates, upgrades or add-ons.
- (xii) Inform SAP without undue delay of any changes to Licensee's installations and Named Users and all other information relevant to the Standard Support Solutions.

4. Customer Center of Expertise

4.1 Role of the Customer COE

The Customer COE is designated by Licensee as a central point of contact for interaction with the SAP support organization. SAP recommends starting the implementation of the Customer COE as a project that runs in parallel with the functional and technical implementation projects.

4.2 Basic Functions of the Customer COE

The Customer COE must fulfill the following basic functions:

- Support Desk: Set-up and operation of a support desk with a sufficient number of support consultants for infrastructure/application platforms and the related applications during regular local working hours (at least 8 hours a day, 5 days (Monday through Friday) a week). Licensee support process and skills will be reviewed in the framework of the certification audit.
- Contract administration: Contract and license processing in conjunction with SAP (license audit, maintenance billing, release order processing, user master and installation data management).
- Coordination of innovation requests: Collection and coordination of development requests from Licensee and/or affiliates provided such affiliates are entitled to use the Standard Support Solutions under the Schedule contract. In this role the Customer COE shall also be empowered to function as an interface to SAP to take all action and decisions needed to avoid unnecessary modification of Standard Support Solutions and to ensure that planned modifications are in alignment with the SAP software and release strategy. The Customer COE shall also coordinate Licensee's modification notification and disclosure requirements.
- Information management: Distribution of information (e.g. internal demonstrations, information events and marketing) about Standard Support Solutions and the Customer COE within Licensee's organization.
- Remote Service Planning: coordination of remote service delivery with SAP

4.3 Customer COE Certification

If Licensee does not already have a certified Customer COE upon the Effective Date, Licensee must establish a certified Customer COE upon the later of the following: (i) within twelve (12) months after the Effective Date, or (ii) within six (6) months after Licensee has started using at least one of the Standard Support Solutions in live mode for normal business operations. To obtain the then-current primary Customer COE certification or re-certification by SAP, the Customer COE undergoes an audit procedure. Detailed information on the initial certification and re-certification process and conditions, as well as information on the available certification levels is available in SAP Service Marketplace at <http://service.sap.com/coe>.

5. Fees for SAP Standard Support

SAP Standard Support Fees shall be paid annually in advance and shall be specified in order documents to the Schedule contract. After the Initial Term (as defined in appendices or order documents to the Schedule contract), any limitations on increases to the SAP Standard Support Fees are subject to Licensee's compliance with the Customer COE requirements specified above.

6. Termination

6.1 Licensee may select SAP Enterprise Support with 3 months notice to SAP either (i) with respect to all orders for support that are solely on a calendar year renewal basis, prior to the beginning of any calendar month; or (ii) with respect to all orders for support that are not solely on a calendar year renewal basis, prior to any monthly anniversary of the renewal date of such order. Such selection shall be stated by Licensee in the notice letter, and shall terminate SAP Standard Support effective with the commencement of SAP Enterprise Support. Any such selection shall apply to all Standard Support Solutions, and shall be on SAP's terms and conditions for SAP Enterprise Support, including without limitation GSA pricing. SAP and Licensee shall execute an amendment or other document to the Schedule contract memorializing Licensee's selection and SAP's maintenance terms and conditions.

6.2 For the avoidance of any doubt, termination of SAP Standard Support or selection to enroll in another type of SAP Support Services by Licensee pursuant to Support Services selection provisions under the Schedule contract shall strictly apply to all licenses under the Schedule contract, its appendices, schedules, addenda and order documents and any partial termination of SAP Standard Support or partial selection of SAP Standard Support by Licensee shall not be permitted in respect of any part of the Schedule contract, its appendices, schedules, addenda, order documents or this Schedule.

7. Other Terms and Conditions

7.1 The scope of SAP Standard Support offered by SAP may be changed annually by SAP at any time upon three months prior written notice.

7.2 Licensee hereby confirms that Licensee has obtained all licenses for the Standard Support Solutions.

7.3 In the event that Licensee is entitled to receive one or more remote services per calendar year, (i) Licensee shall not be entitled to receive such remote services in the first calendar year if the Effective Date of this Schedule is after September 30 and (ii) Licensee shall not be entitled to transfer a remote service to the next year if Licensee has not utilized such remote service.

7.4 FAILURE TO UTILIZE SAP STANDARD SUPPORT PROVIDED BY SAP MAY PREVENT SAP FROM BEING ABLE TO IDENTIFY AND ASSIST IN THE CORRECTION OF POTENTIAL PROBLEMS WHICH, IN TURN, COULD RESULT IN UNSATISFACTORY SOFTWARE PERFORMANCE FOR WHICH SAP CANNOT BE HELD RESPONSIBLE.

7.5 In the event SAP licenses third party software to Licensee under the Schedule contract, SAP shall provide SAP Standard Support on such third party software to the degree the applicable third party makes such support available to SAP. Licensee may be required to upgrade to more recent versions of its operating systems and databases to receive SAP Standard Support. If the respective vendor offers an extension of support for its product, SAP may offer such extension of support under a separate written agreement for an additional fee.

7.6 SAP Standard Support is provided according to the current maintenance phases of SAP software releases as stated in <http://service.sap.com/releasestrategy>.

SAP ENTERPRISE SUPPORT SCHEDULE

This Schedule governs the provision of support services by Contractor, through SAP, as further defined herein (“SAP Enterprise Support”) for all software licensed by Ordering Activity (hereunder also referred to as “Licensee”) under the Schedule contract (hereinafter collectively referred to as the “Enterprise Support Solutions”), excluding software to which special support agreements apply exclusively.

1. Definitions:

- 1.1 “Go-Live” marks the point in time from when, after implementation of the Enterprise Support Solutions or an upgrade of the Enterprise Support Solutions, the Enterprise Support Solutions can be used by Licensee for processing real data in live operation mode and for running Licensee’s internal business operations in accordance with the Schedule contract.
- 1.2 “Licensee Solution(s)” shall mean Enterprise Support Solutions and any other software licensed by Licensee from third parties provided such third party software is operated in conjunction with Enterprise Support Solutions.
- 1.3 “Production System” shall mean a live SAP system used for running Licensee’s internal business operations and where Licensee’s data is recorded.
- 1.4 “SAP Software Solution(s)” shall mean a group of one or multiple Production Systems running Licensee Solutions and focusing on a specific functional aspect of Licensee’s business. Details and examples can be found on the SAP Service Marketplace (as specified in SAP Note 1324027 or any future SAP Note which replaces SAP Note 1324027).
- 1.5 “Service Session” shall mean a sequence of support activities and tasks carried out remotely to collect further information by interview or by analysis of a Production System resulting in a list of recommendations. A Service Session could run manually, as a self-service or fully automated.
- 1.6 “Top-Issue” shall mean issues and/or failures identified and prioritized jointly by SAP and Licensee in accordance with SAP standards which (i) endanger Go-Live of a pre-production system or (ii) have a significant business impact on a Production System.
- 1.7 “Local Office Time” shall mean regular working hours (8.00 a.m. to 6.00 p.m.) during regular working days, in accordance with the applicable public holidays observed by SAP’s registered office. With regard to SAP Enterprise Support only, both parties can mutually agree upon a different registered office of one of SAP’s affiliates to apply and serve as reference for the Local Office Time.

2. Scope of SAP Enterprise Support. Licensee may request and SAP shall provide, to such degree as SAP makes such services generally available in the Territory, SAP Enterprise Support services. SAP Enterprise Support currently includes:

Continuous Improvement and Innovation

- New software releases of the licensed Enterprise Support Solutions, as well as tools and procedures for upgrades.
- Support packages - correction packages to reduce the effort of implementing single corrections. Support packages may also contain corrections to adapt existing functionality to changed legal and regulatory requirements.
- For releases of the SAP Business Suite 7 core applications (starting with SAP ERP 6.0 and with releases of SAP CRM 7.0, SAP SCM 7.0, SAP SRM 7.0 and SAP PLM 7.0 shipped in 2008), SAP may provide enhanced functionality and/or innovation through enhancement packages or by other means as available. During mainstream maintenance for an SAP core application release, SAP’s current practice is to provide one enhancement package or other update per calendar year.
- Technology updates to support third-party operating systems and databases. Available ABAP source code for SAP software applications and additionally released and supported function modules.
- Software change management, such as changed configuration settings or Enterprise Support Solutions upgrades, is supported for example with content and information material, tools for client copy and entity copy, and tools for comparing customization.
- SAP provides Licensee with up to five days remote support services per calendar year from SAP solution architects
 - to assist Licensee in evaluating the innovation capabilities of the latest SAP enhancement package and how it may be deployed for Licensee’s business process requirements.
 - to give Licensee guidance in form of knowledge transfer sessions, weighted one day, for defined SAP software/applications or Global Support Backbone components. Currently, content and session schedules are stated at <http://service.sap.com/enterprisesupport>. Scheduling, availability and delivery methodology is at SAP’s discretion.
- SAP gives Licensee access to guided self services as part of SAP Solution Manager Enterprise Edition, helping the Licensee to optimize technical solution management of selected Enterprise Support Solutions.
- Configuration guidelines and content for Enterprise Support Solutions are usually shipped via SAP Solution Manager Enterprise Edition. Best practices for SAP System Administration and SAP Solution Operations for SAP Software.
- SAP configuration and operation content is supported as integral parts of Enterprise Support Solutions.
- Content, tools and process descriptions for SAP Application Lifecycle Management are part of the SAP Solution Manager Enterprise Edition, the Enterprise Support Solutions and/or the applicable Documentation for the Enterprise Support Solutions.

Advanced Support for Enhancement Packages and other SAP Software Updates

SAP offers special remote checks delivered by SAP solution experts to analyze planned or existing modifications and identify possible conflicts between Licensee custom code and enhancement packages and other Enterprise Support Solutions updates. Each check is conducted for one specific modification in one of Licensee’s core business process steps. Licensee is entitled to receive two services from one of the following categories per calendar year per SAP Software Solution.

- Modification Justification: Based on Licensee’s provision of SAP required documentation of the scope and design of a planned or existing custom modification in SAP Solution Manager Enterprise Edition, SAP identifies standard functionality of Enterprise Support Solutions which may fulfill the Licensee’s requirements (for details see <http://service.sap.com/>).

- Custom Code Maintainability: Based on Licensee's provision of SAP required documentation of the scope and design of a planned or existing custom modification in SAP Solution Manager Enterprise Edition, SAP identifies which user exits and services may be available to separate custom code from SAP code (for details see <http://service.sap.com/>).

Global Support Backbone

- SAP Service Marketplace - SAP's knowledge database and SAP's extranet for knowledge transfer on which SAP makes available content and services to licensees and partners of SAP only.
- SAP Notes on the SAP Service Marketplace document software malfunctions and contain information on how to remedy, avoid and bypass errors. SAP Notes may contain coding corrections that licensees can implement into their SAP system. SAP Notes also document related issues, licensee questions, and recommended solutions (e.g. customizing settings).
- SAP Note Assistant - a tool to install specific corrections and improvements to SAP components.
- SAP Solution Manager Enterprise Edition – as described in Section 2.4

Mission Critical Support

- Global message handling by SAP for problems related to Enterprise Support Solutions, including Service Level Agreements for Initial Reaction Time and Corrective Action (for more information refer to Section 2.1.1).
- SAP Support Advisory Center – as described in Section 2.2.
- Continuous Quality Checks – as described in Section 2.3.
- Global 24x7 root cause analysis and escalation procedures in accordance with section 2.1 below.
- Root Cause Analysis for Custom Code: For Licensee custom code built with the SAP development workbench, SAP provides mission-critical support root-cause analysis, according to the Global Message Handling process and Service Level Agreements stated in Sections 2.1.1, 2.1.2 and 2.1.3, applicable for priority "very high" and priority "high" messages. If the Licensee custom code is documented according to SAP's then-current standards (for details see <http://service.sap.com/>), SAP may provide guidance to assist Licensee in issue resolution

Other Components, Methodologies, Content and Community Participation

- Monitoring components and agents for systems to monitor available resources and collect system status information of the Enterprise Support Solutions (e.g. SAP EarlyWatch Alert).
- Pre-configured test templates and test cases are usually delivered via the SAP Solution Manager Enterprise Edition. In addition the SAP Solution Manager Enterprise Edition assists Licensee's testing activities with functionalities that currently include:
 - Test administration for Enterprise Support Solutions by using the functionality provided as part of the SAP Solution Manager Enterprise Edition
 - Quality Management for management of "Quality-Gates"
 - SAP-provided tools for automatic testing
 - SAP-provided tools to assist with optimizing regression test scope. Such tools support identifying the business processes that are affected by a planned SAP Software Solutions change and make recommendations for the test scope as well as generating test plans (for details see <http://service.sap.com/>).
- Content and supplementary tools designed to help increase efficiency, which may include implementation methodologies and standard procedures, an Implementation Guide (IMG) and Business Configuration (BC) Sets.
- Access to guidelines via the SAP Service Marketplace, which may include implementation and operations processes and content designed to help reduce costs and risks. Such content currently includes:
 - End-to-End Solution Operations: Assists Licensee with the optimization of the end-to-end operations of Licensee's SAP Software Solution.
 - Run SAP Methodology: Assists Licensee with application management, business process operations, and administration of the SAP NetWeaver® technology platform, and currently includes:
 - The SAP standards for solution operations
 - The road map of Run SAP to implement end-to-end solution operations
 - Tools, including the SAP Solution Manager Enterprise Edition application management solution. For more information on the Run SAP methodology, refer to <http://service.sap.com/runsap>
- Participation in SAP's customer and partner community (via SAP Service Marketplace), which provides information about best business practices, service offerings, etc.

2.1. Global Message Handling and Service Level Agreement (SLA). When Licensee reports malfunctions, SAP supports Licensee by providing information on how to remedy, avoid or bypass errors. The main channel for such support will be the support infrastructure provided by SAP. Licensee may send an error message at any time. All persons involved in the message solving process can access the status of the message at any time. For further details on definition of message priorities see SAP Note 67739.

In exceptional cases, Licensee may also contact SAP by telephone. For such contact (and as otherwise provided) SAP requires that Licensee provide remote access as specified in Section 3.2(iii).

The following Service Level Agreements ("SLA" or "SLAs") shall apply to all Licensee support messages that SAP accepts as being Priority 1 or 2 and which fulfill the prerequisites specified herein. Such SLAs shall commence in the first full Calendar Quarter following the Effective Date of this Schedule. As used herein, "Calendar Quarter" is the three month period ending on March 31, June 30, September 30 and December 31 respectively of any given calendar year.

2.1.1 SLA for Initial Response Times:

a. **Priority 1 Support Messages ("Very High").** SAP shall respond to Priority 1 support messages within one (1) hour of SAP's receipt (twenty-four hours a day, seven days a week) of such Priority 1 support messages. A message is assigned Priority 1 if the problem has very serious consequences for normal business transactions and urgent, business critical work cannot be performed. This is generally caused by the following circumstances: complete system outage, malfunctions of central SAP functions in the Production System, or Top-Issues.

b. **Priority 2 Support Messages (“High”).** SAP shall respond to Priority 2 support messages within four (4) hours of SAP’s receipt except for SAP’s Local Office Time of such Priority 2 support messages. A message is assigned Priority 2 if normal business transactions in a Production System are seriously affected and necessary tasks cannot be performed. This is caused by incorrect or inoperable functions in the SAP system that are required to perform such transactions and/or tasks.

2.1.2 SLA for Corrective Action Response Time for Priority 1 Support Messages: SAP shall provide a solution, work around or action plan for resolution (“Corrective Action”) of Licensee’s Priority 1 support message within four (4) hours of SAP’s receipt (twenty-four hours a day, seven days a week) of such Priority 1 support message (“SLA for Corrective Action”). In the event an action plan is submitted to Licensee as a Corrective Action, such action plan shall include: (i) status of the resolution process; (ii) planned next steps, including identifying responsible SAP resources; (iii) required Licensee actions to support the resolution process; (iv) to the extent possible, planned dates for SAP’s actions; and (v) date and time for next status update from SAP. Subsequent status updates shall include a summary of the actions undertaken so far; planned next steps; and date and time for next status update. The SLA for Corrective Action only refers to that part of the processing time when the message is being processed at SAP (“Processing Time”). Processing Time does not include the time when the message is on status “Customer Action” or “SAP Proposed Solution”, whereas (a) the status Customer Action means the support message was handed over to Licensee; and (b) the status SAP Proposed Solution means SAP has provided a Corrective Action as outlined herein. The SLA for Corrective Action shall be deemed met if within four (4) hours of processing time: SAP proposes a solution, a workaround or an action plan; or if Licensee agrees to reduce the priority level of the message.

2.1.3 Prerequisites and Exclusions.

2.1.3.1 Prerequisites. The SLAs shall only apply when the following prerequisites are met for support messages: (i) in all cases except for Root Cause Analysis for Custom Code under Section 2, support messages are related to releases of Enterprise Support Solutions which are classified by SAP with the shipment status “unrestricted shipment”; (ii) support messages are submitted by Licensee in English via the SAP Solution Manager Enterprise Edition in accordance with SAP’s then current support message processing log-in procedure which contain the relevant details necessary (as specified in SAP Note 16018 or any future SAP Note which replaces SAP Note 16018) for SAP to take action on the reported error; (iii) support messages are related to a product release of Enterprise Support Solutions which falls into Mainstream Maintenance or Extended Maintenance.

For Priority 1 support messages, the following additional prerequisites must be fulfilled by Licensee: (a) the issue and its business impact are described in detail sufficient to allow SAP to assess the issue; (b) Licensee makes available for communications with SAP, twenty four (24) hours a day, seven (7) days a week, an English speaking contact person with training and knowledge sufficient to aid in the resolution of the Priority 1 message consistent with Licensee’s obligations hereunder; and (c) a Licensee contact person is provided for opening a remote connection to the system and to provide necessary log-on data to SAP.

2.1.3.2 Exclusions. For SAP Enterprise Support in particular the following types of Priority 1 messages are excluded from the SLAs: (i) support messages regarding a release, version and/or functionalities of Enterprise Support Solutions developed specifically for Licensee (including without limitation those developed by SAP Custom Development and/or by SAP subsidiaries) except for custom code built with the SAP development workbench; (ii) support messages regarding country versions that are not part of the Enterprise Support Solutions and instead are realized as partner add-ons, enhancements, or modifications is expressly excluded even if these country versions were created by SAP or an affiliate of SAP; (iii) the root cause behind the support message is not a malfunction, but a missing functionality (“development request”) or the support message is ascribed to a consulting request

2.1.4 Service Level Credit.

2.1.4.1 SAP shall be deemed to have met its obligations pursuant to the SLAs as stated above by reacting within the allowed time frames in ninety-five percent (95%) of the aggregate cases for all SLAs within a Calendar Quarter. In the event Licensee submits less than twenty (20) messages (in the aggregate for all SLAs) pursuant to the SLAs stated above in any Calendar Quarter during the Enterprise Support term, Licensee agrees that SAP shall be deemed to have met the its obligations pursuant to the SLAs stated above if SAP has not exceeded the stated SLA time-frame in more than one support message during the applicable Calendar Quarter.

2.1.4.2. Subject to Section 2.1.4.1 above, in the event that the timeframes for the SLA’s are not met (each a “Failure”), the following rules and procedures shall apply: (i) Licensee shall inform SAP in writing of any alleged Failure; (ii) SAP shall investigate any such claims and provide a written report proving or disproving the accuracy of Licensee’s claim; (iii) Licensee shall provide reasonable assistance to SAP in its efforts to correct any problems or processes inhibiting SAP’s ability to reach the SLAs; (iv) subject to this Section 2.1.4, if based on the report, an SAP Failure is proved, SAP shall apply a Service Level Credit (“SLC”) to Licensee’s next SAP Enterprise Support Fee invoice equal to one quarter percent (0.25%) of Licensee’s SAP Enterprise Support Fee for the applicable Calendar Quarter for each Failure reported and proved, subject to a maximum SLC cap per Calendar Quarter of five percent (5%) of Licensee’s SAP Enterprise Support Fee for such Calendar Quarter. Licensee bears the responsibility of notifying SAP of any SLCs within one month after the end of a Calendar Quarter in which a Failure occurs. No penalties will be paid unless notice of Licensee’s well-founded claim for SLC(s) is received by SAP in writing. The SLC stated in this Section 2.1.4 is Licensee’s sole and exclusive remedy with respect to any alleged or actual Failure.

2.2 SAP Support Advisory Center. For Priority 1 and Top-Issues directly related to the Enterprise Support Solutions, SAP shall make available a global unit within SAP’s support organization for mission critical support related requests (the “Support Advisory Center”). The Support Advisory Center will perform the following mission critical support tasks: (i) remote support for Top-Issues – the Support Advisory Center will act as an additional escalation level, enabling 24X7 root cause analysis for problem identification; (ii) Continuous Quality Check service delivery planning in collaboration with Licensee’s IT, including scheduling and delivery coordination; (iii) provides one SAP Enterprise Support report on request per calendar year; (iv) remote primary certification of the SAP Customer Center of Expertise if requested by Licensee; and (v) providing guidance in cases in which Continuous Quality Checks (as defined in Section 2.3 below), an action plan and/or written recommendations of SAP show a critical status (e.g. a red CQC report) of the Enterprise Support Solutions.

As preparation for the Continuous Quality Check delivery through SAP Solution Manager Enterprise Edition, Licensee's Contact Person and SAP shall jointly perform one mandatory setup service ("Initial Assessment") for the Enterprise Support Solutions. The Initial Assessment shall be based upon SAP standards and documentation.

The designated SAP Support Advisory Center will be English speaking and available to Licensee's Contact Person (as defined below) or its authorized representative twenty-four hours a day, seven days a week for mission critical support related requests. The available local or global dial-in numbers are shown in SAP Note 560499.

The Support Advisory Center is only responsible for the above mentioned mission critical support related tasks to the extent these tasks are directly related to issues or escalations regarding the Enterprise Support Solutions.

2.3 SAP Continuous Quality Check. In case of critical situations related to the SAP Software Solution (such as Go Live, upgrade, migration or Top Issues), SAP will provide at least one Continuous Quality Check (the "Continuous Quality Check" or "CQC") per calendar year for each SAP Software Solution.

The CQC may consist of one or more manual or automatic remote Service Sessions. SAP may deliver further CQC's in cases where vital alerts are reported by SAP EarlyWatch Alert or in those cases where Licensee and the SAP Advisory Center mutually agree that such a service is needed to handle a Top-Issue. Details, such as the exact type and priorities of a CQC and the tasks of SAP and cooperation duties of Licensee, shall be mutually agreed upon between the parties. At the end of a CQC, SAP will provide Licensee with an action plan and/or written recommendations.

Licensee acknowledges that all or part of the CQC sessions may be delivered by SAP and/or a certified SAP partner acting as SAP's subcontractor and based on SAP's CQC standards and methodologies. Licensee agrees to provide appropriate resources, including but not limited to equipment, data, information, and appropriate and cooperative personnel, to facilitate the delivery of CQC's hereunder. Licensee acknowledges that SAP limits CQC re-scheduling to a maximum of three times per year. Re-scheduling must take place at least 5 working days before the planned delivery date. If Licensee fails to follow these guidelines, SAP is not obliged to deliver the yearly CQC to the Licensee.

2.4 SAP Solution Manager Enterprise Edition under SAP Enterprise Support.

2.4.1 SAP Solution Manager Enterprise Edition (and any successor to SAP Solution Manager Enterprise Edition provided hereunder) shall be subject to the Schedule contract and is solely for the following purposes under SAP Enterprise Support: (i) delivery of SAP Enterprise Support and support services for Licensee Solutions including delivery and installation of software and technology maintenance for Enterprise Support Solutions; and (ii) application lifecycle management for Licensee Solutions and for any other software components and IT assets licensed or otherwise obtained by Licensee from third parties provided such third party software, software components and IT assets are operated in conjunction with Enterprise Support Solutions and are required to complete the Licensee's business processes as documented in the solution documentation in SAP Solution Manager Enterprise Edition ("Additional Supported Assets"). Such application lifecycle management is limited solely to the following purposes:

- implementation, configuration, testing, operations, continuous improvement and diagnostics
- incident management (service desk), problem management and change request management as enabled using SAP CRM technology integrated in SAP Solution Manager Enterprise Edition
- administration, monitoring, reporting and business intelligence as enabled using SAP NetWeaver technology integrated in SAP Solution Manager Enterprise Edition. Business intelligence may also be performed provided the appropriate SAP BI software is licensed by Licensee as part of the Enterprise Support Solutions.

For application lifecycle management as outlined under section 2.4.1(ii) above, Licensee does not require a separate Package license to SAP CRM. Licensee must hold appropriate Named User licenses to Use SAP Solution Manager.

2.4.2 SAP Solution Manager Enterprise Edition may not be used for purposes other than those stated above. Without limiting the foregoing restriction, Licensee shall not use SAP Solution Manager Enterprise Edition for (i) CRM scenarios such as service plans, contracts, service confirmation management, except as CRM scenarios are expressly stated in Section 2.4.1; (ii) SAP NetWeaver usage types other than those stated above or (iii) application life-cycle management and in particular incident management (service desk) except for Licensee Solutions and Additional Supported Assets and (iv) non-IT shared services capabilities, including without limitation HR, Finance or Procurement.

2.4.3 SAP – in its sole discretion – may update from time to time on the SAP Service Marketplace under <http://service.sap.com/solutionmanager> the use cases for SAP Solution Manager Enterprise Edition under this Section 2.4.

2.4.4 SAP Solution Manager Enterprise Edition shall only be used during the term of this Schedule and by Named Users licensed by Licensee subject to the licensed rights for the Software and exclusively for Licensee's SAP-related support purposes in support of Licensee's internal business operations. The right to use any SAP Solution Manager Enterprise Edition capabilities under SAP Enterprise Support other than those listed above is subject to a separate written agreement with SAP, even if such capabilities are accessible through or related to SAP Solution Manager Enterprise Edition. Notwithstanding the foregoing limitation on Named Users, Licensee shall be entitled to allow any of its employees to use web self service in the SAP Solution Manager Enterprise Edition during the term of this Schedule for the sole purpose of creating support tickets, requesting support ticket status and ticket confirmation directly related to the Licensee Solutions and Additional Supported Assets.

2.4.5 In the event Licensee terminates SAP Enterprise Support and receives SAP Standard Support in accordance with Section 6, Licensee's use of SAP Solution Manager Enterprise Edition under SAP Enterprise Support shall cease. Thereafter, Licensee's use of SAP Solution Manager Enterprise Edition shall be governed by the terms and conditions of the SAP Standard Support Schedule.

2.4.7 Use of SAP Solution Manager Enterprise Edition may not be offered by Licensee as a service to third parties even if such third parties have licensed SAP Software and have licensed Named Users; provided, third parties authorized to access the SAP Software under the Schedule contract may have access to SAP Solution Manager Enterprise Edition solely for SAP-related support purposes in support of Licensee's internal business operations under and in accordance with the terms of this Schedule.

3. Licensee's Responsibilities.

3.1 SAP Enterprise Support Program Management. In order to receive SAP Enterprise Support hereunder, Licensee shall designate a qualified English speaking contact within its SAP Customer Center of Expertise for the Support Advisory Center (the "Contact Person") and shall provide contact details (in particular e-mail address and telephone number) by means of which the Contact Person or the authorized representative of such Contact Person can be contacted at any time. Licensee's Contact Person shall be Licensee's authorized representative empowered to make necessary decisions for Licensee or bring about such decision without undue delay.

3.2 Other Requirements. In order to receive SAP Enterprise Support hereunder, Licensee must further satisfy the following requirements:

- (i) Continue to pay all Enterprise Support Service Fees in accordance with the Schedule contract and this Schedule.
- (ii) Otherwise fulfill its obligations under the Schedule contract and this Schedule.
- (iii) Provide and maintain remote access via a technical standard procedure as defined by SAP and grant SAP all necessary authorizations, in particular for remote analysis of issue as part of message handling. Such remote access shall be granted without restriction regarding the nationality of the SAP employee(s) who process support messages or the country in which they are located. Licensee acknowledges that failure to grant access may lead to delays in message handling and the provision of corrections, or may render SAP unable to provide help in an efficient manner. The necessary software components must also be installed for support services. For more details, see SAP Note 91488.
- (iv) Establish and maintain an SAP certified Customer COE meeting the requirements specified in Section 4 below.
- (v) Have installed, configured and be using productively, an SAP Solution Manager Enterprise Edition Software system, with the latest patch levels for Basis, and the latest SAP Solution Manager Enterprise Edition support packages.
- (vi) Activate SAP EarlyWatch Alert for the Production Systems and transmit data to Licensee's productive SAP Solution Manager Enterprise Edition system. See SAP Note 1257308 for information on setting up this service.
- (vii) Perform the Initial Assessment as described in Section 2.2 and implement all the recommendations of SAP classified as mandatory.
- (viii) Establish a connection between Licensee's SAP Solution Manager Enterprise Edition installation and SAP and a connection between the Enterprise Support Solutions and Licensee's SAP Solution Manager Enterprise Edition installation. Licensee shall maintain the solution landscape and core business processes in Licensee's SAP Solution Manager Enterprise Edition system for all Production Systems and systems connected to the Production Systems. Licensee shall document any implementation or upgrade projects in Licensee's SAP Solution Manager Enterprise Edition system.
- (ix) To fully enable and activate the SAP Solution Manager Enterprise Edition, Licensee shall adhere to the applicable documentation.
- (x) Licensee agrees to maintain adequate and current records of all modifications and, if needed, promptly provide such records to SAP.
- (xi) Submit all error messages via the then current SAP support infrastructure as made available by SAP from time to time via updates, upgrades or add-ons.
- (xii) Inform SAP without undue delay of any changes to Licensee's installations and Named Users and all other information relevant to the Enterprise Support Solutions.

4. Customer Center of Expertise.

4.1 Role of the Customer Center of Expertise. In order to leverage the full potential value delivered as part of SAP Enterprise Support, Licensee is required to establish a Customer Center of Expertise ("Customer Center of Expertise", or "Customer COE"). The Customer COE is designated by Licensee as a central point of contact for interaction with the SAP support organization. As a permanent center of expertise, the Customer COE supports Licensee's efficient implementation, innovation, operation and quality of business processes and systems related to the SAP Software Solution based on the Run SAP methodology provided by SAP (for more information on the Run SAP methodology, refer to <http://service.sap.com/runsap>). The Customer COE should cover all core business process operations. SAP recommends starting the implementation of the Customer COE as a project that runs in parallel with the functional and technical implementation projects.

4.2 Basic Functions of the Customer COE. The Customer COE must fulfill the following basic functions:

- Support Desk: Set-up and operation of a support desk with a sufficient number of support consultants for infrastructure/application platforms and the related applications during regular local working hours (at least 8 hours a day, 5 days (Monday through Friday) a week). Licensee support process and skills will be jointly reviewed in the framework of the service planning process and the certification audit.
- Contract administration: Contract and license processing in conjunction with SAP (license audit, maintenance billing, release order processing, user master and installation data management).
- Coordination of innovation requests: Collection and coordination of development requests from the Licensee and/or any of its affiliates provided such affiliates are entitled to use the Enterprise Support Solutions under the Schedule contract. In this role the Customer COE shall also be empowered to function as an interface to SAP to take all action and decisions needed to avoid unnecessary modification of Enterprise Support Solutions and to ensure that planned modifications are in alignment with the SAP software and release strategy.
- Information management: Distribution of information (e.g. internal demonstrations, information events and marketing) about Enterprise Support Solutions and the Customer COE within the Licensee's organization.
- CQC and other remote services planning: Licensee regularly engages in a service planning process with SAP. The service planning starts during the initial implementation and will then be continued regularly.

4.3 Customer COE Certification. Licensee must establish a certified Customer COE upon the later to occur of the following: (i) within twelve (12) months after the Effective Date; or (ii) within six (6) months after Licensee has started using at least one of the Enterprise Support Solutions in live mode for normal business operations. To obtain the then-current primary Customer COE certification or re-certification by SAP, the Customer COE undergoes an audit procedure. Detailed information on the initial certification and re-certification

process and conditions, as well as information on the available certification levels, is available on the SAP Service Marketplace (<http://service.sap.com/coe>).

5. Enterprise Support Fees. SAP Enterprise Support Fees shall be paid annually in advance and shall be specified in appendices or order documents to the Schedule contract. After the Initial Term (as defined in the applicable appendices or order documents), any limitations on increases to the SAP Enterprise Support Fees are subject to Licensee's compliance with the Customer COE requirements specified above.

6. Termination

6.1 Licensee may select SAP Standard Support with 3 months written notice to SAP either (i) with respect to all orders for support that are solely on a calendar year renewal basis, prior to the start of the renewal period that follows the Initial Term that commenced as of Licensee's first order for SAP Enterprise Support; or (ii) with respect to all orders for support that are not solely on a calendar year renewal basis, prior to the start of the first renewal period in any calendar year that follows the Initial Term that commenced as of Licensee's first order for SAP Enterprise Support. Such selection shall be stated by Licensee in the notice letter, and shall terminate SAP Enterprise Support effective with the commencement of SAP Standard Support. Any such selection shall apply to all Enterprise Support Solutions and shall be on SAP's terms and conditions for SAP Standard Support, including without limitation GSA pricing. SAP and Licensee shall execute an amendment or other document to the Schedule contract memorializing Licensee's selection and SAP's maintenance terms and conditions.

6.3 For the avoidance of any doubt, termination of SAP Enterprise Support or selection to enroll in another type of SAP Support Services by Licensee pursuant to Support Services selection provisions under the Schedule contract shall strictly apply to all licenses under the Schedule contract, its appendices, schedules, addenda and order documents and any partial termination of SAP Enterprise Support or partial selection of SAP Enterprise Support by Licensee shall not be permitted in respect of any part of the Schedule contract, its appendices, schedules, addenda, order documents or this Schedule.

7. Other Terms and Conditions.

7.1 The scope of SAP Enterprise Support offered by SAP may be changed annually by SAP at any time upon three months prior written notice.

7.2 Licensee hereby confirms that Licensee has obtained all licenses for the Licensee Solutions.

7.3 In the event that Licensee is entitled to receive one or more services per calendar year, (i) Licensee shall not be entitled to receive such services in the first calendar year if the Effective Date of this Schedule is after September 30 and (ii) Licensee shall not be entitled to transfer a service to the next year if Licensee has not utilized such service.

7.4 FAILURE TO UTILIZE SAP ENTERPRISE SUPPORT PROVIDED BY SAP MAY PREVENT SAP FROM BEING ABLE TO IDENTIFY AND ASSIST IN THE CORRECTION OF POTENTIAL PROBLEMS WHICH, IN TURN, COULD RESULT IN UNSATISFACTORY SOFTWARE PERFORMANCE FOR WHICH SAP CANNOT BE HELD RESPONSIBLE.

7.5 In the event SAP licenses third party software to Licensee under the Schedule contract, SAP shall provide SAP Enterprise Support on such third party software to the degree the applicable third party makes such support available to SAP. Licensee may be required to upgrade to more recent versions of its operating systems and databases to receive SAP Enterprise Support. If the respective vendor offers an extension of support for its product, SAP may offer such extension of support under a separate written agreement for an additional fee.

7.6 SAP Enterprise Support is provided according to the current maintenance phases of SAP software releases as stated in <http://service.sap.com/releasestrategy>.

SAP PRODUCT SUPPORT FOR LARGE ENTERPRISES SCHEDULE

This Schedule governs the provision of support services by Contractor, through SAP, for certain large enterprises as further defined herein ("SAP Product Support for Large Enterprises" or "SAP PSLE") for all software licensed by Ordering Activity (hereunder also referred to as "Licensee") under the Schedule contract (hereinafter collectively referred to as the "PSLE Solutions"), excluding software to which special support agreements apply exclusively.

1. Definitions:

1.1 "Go-Live" marks the point in time from when, after implementation of Licensee's PSLE Solutions or an upgrade of PSLE Solutions, can be used by Licensee for processing real data in live operation mode and for running Licensee's business in accordance with the Schedule contract.

1.2 "Net License Value" shall mean the undiscounted license fees for PSLE Solutions licensed by Licensee and Licensee Affiliates under the Schedule contract minus all discounts granted by SAP but before any migration credit is applied.

1.3 "Licensee Solution(s)" shall mean PSLE Solutions and any other software licensed by Licensee from third parties, provided such third party software is operated in conjunction with PSLE Solutions.

1.4 "Production System(s)" shall mean a live SAP system used for running Licensee's internal business operations and where Licensee's data is recorded.

1.5 "SAP Software Solution(s)" shall mean a group of one or multiple Production Systems running Licensee Solutions and focusing on a specific functional aspect of Licensee's business. Details and examples can be found on the SAP Service Marketplace (as specified in SAP Note 1324027 or any future SAP Note which replaces SAP Note 1324027).

1.6 "Top-Issues" shall mean issues and/or failures identified and prioritized jointly by SAP and Licensee in accordance with the SAP standards which (i) endanger Go-Live of a pre-production system or (ii) have a significant business impact on a Licensee's core Production System.

1.7 "SAP Support Services" shall mean SAP Product Support for Large Enterprises, SAP Enterprise Support or SAP Standard Support.

2. **Scope of SAP Product Support for Large Enterprises.** Licensee may request and SAP shall provide, to such degree as SAP makes such services generally available in the Territory, SAP Product Support for Large Enterprises services. SAP Product Support for Large Enterprises currently includes:

Continuous Improvement and Innovation

- New software releases of the licensed PSLE Solutions, as well as tools and procedures for upgrades.
- Support packages - correction packages to reduce the effort of implementing single corrections. Support packages may also contain corrections to adapt existing functionality to changed legal and regulatory requirements.
- For releases of the SAP Business Suite 7 core applications (starting with SAP ERP 6.0 and with releases of SAP CRM 7.0, SAP SCM 7.0, SAP SRM 7.0 and SAP PLM 7.0 shipped in 2008), SAP may provide enhanced functionality and/or innovation through enhancement packages or by other means as available. During mainstream maintenance for an SAP core application release, SAP's current practice is to provide one enhancement package or other update per calendar year.
- Technology updates to support third-party operating systems and databases.
- Available ABAP source code for SAP software applications and additionally released and supported function modules.
- Software change management, such as changed configuration settings or PSLE Solutions upgrades, is supported for example with content and information material, tools for client copy and entity copy, and tools for comparing customization.
- SAP gives Licensee access to guided self services as part of SAP Solution Manager Enterprise Edition, helping Licensee to optimize technical solution management of selected PSLE Solutions.
- Configuration guidelines and content for PSLE Solutions are usually shipped via SAP Solution Manager Enterprise Edition
- Best practices for SAP System Administration and SAP Solution Operations for SAP Software.
- SAP configuration and operation content is supported as part of PSLE Solutions.
- Content, tools and process descriptions for SAP Application Lifecycle Management are part of the SAP Solution Manager Enterprise Edition, the PSLE Solutions and/or the applicable documentation for the PSLE Solutions.

Message Handling

- SAP Notes on the SAP Service Marketplace document software malfunctions and contain information on how to remedy, avoid and bypass errors. SAP Notes may contain coding corrections that licensees can implement into their SAP system. SAP Notes also document related issues, licensee questions, and recommended solutions (e.g. customizing settings).
- SAP Note Assistant - a tool to install specific corrections and improvements to SAP components.
- Global message handling by SAP for problems related to PSLE Solutions (for more information refer to Section 2.1).
- Global 24x7 escalation procedures.

Access to Services Content

- SAP shall provide Licensee with access to SAP's remote services methodology. Licensee may use this content to perform proactive support services for the PSLE Solutions.

SAP Product Support for Large Enterprises Roadmap Planning

- Up to two times per calendar year, Licensee and SAP will perform a joint telephone conference to exchange information about Licensee's current or planned global projects to implement or upgrade PSLE Solutions, to review Top-Issues and risk mitigation plans and to discuss quality assurance topics with regard to end-to-end operations of and support for Licensee's SAP Software Solutions, and to generally align on collaboration between Licensee and SAP in the area of support activities and delivery of SAP Product Support for Large Enterprises services for Licensee's SAP Software Solutions.
- Licensee can contact the local support manager of SAP to request a scheduling of such telephone conference.
- If mutually agreed between Licensee and SAP, such planning can also take place in the course of an onsite meeting at a mutually agreed location.
- Licensee acknowledges that a successful planning requires the support of Licensee's Customer Center of Expertise.

SAP Solution Manager Enterprise Edition as described in Section 2.2

Other Components, Methodologies, Content and Community Participation

- Monitoring components and agents for systems - to monitor available resources and collect system status information of the PSLE Solutions (e.g. SAP EarlyWatch Alert).
- Pre-configured test templates and test cases are usually delivered via the SAP Solution Manager Enterprise Edition. In addition the SAP Solution Manager Enterprise Edition assists Licensee's testing activities with functionalities that currently include:
 - Test administration for PSLE Solutions by using the functionality provided as part of the SAP Solution Manager Enterprise Edition
 - Quality Management for management of "Quality-Gates"
 - SAP-provided tools for automatic testing
 - SAP-provided tools to assist with optimizing regression test scope. Such tools support identifying the business processes that are affected by a planned SAP Software Solutions change and make recommendations for the test scope as well as generating test plans (for details see <http://service.sap.com/>).
- Content and supplementary tools designed to help increase efficiency, which may include implementation methodologies and standard procedures, an Implementation Guide (IMG) and Business Configuration (BC) Sets.
- Access to guidelines via the SAP Service Marketplace, which may include implementation and operations processes and content designed to help reduce costs and risks. Such content currently includes:
 - End-to-End Solution Operations: Assists Licensee with the optimization of the end-to-end operations of Licensee's SAP Software Solution.
 - Run SAP Methodology: Assists Licensee with application management, business process operations, and administration of the SAP NetWeaver® technology platform, and currently includes:
 - The SAP standards for solution operations
 - The road map of Run SAP to implement end-to-end solution operations
 - Tools, including the SAP Solution Manager Enterprise Edition application management solution.

For more information on the Run SAP methodology, refer to <http://service.sap.com/runsap>

- Participation in SAP's customer and partner community (via SAP Service Marketplace), which provides information about best business practices, service offerings, etc.

2.1. Global Message Handling. When Licensee reports malfunctions, SAP supports Licensee by providing information on how to remedy, avoid or bypass errors. The main channel for such support will be the support infrastructure provided by SAP. Licensee may send an error message at any time. All persons involved in the message solving process can access the status of the message at any time.

In exceptional cases, Licensee may also contact SAP by telephone. For such contact (and as otherwise provided) SAP requires that Licensee provides remote access as specified in Section 3.2(iii).

SAP will commence message handling on errors of very high priority (for a definition of priorities, see SAP Note 67739) within 24 hours, 7 days a week provided that the following conditions are met: (i) The error must be reported in English and (ii) Licensee must have a suitably skilled English-speaking employee at hand so that Licensee and SAP can communicate if SAP assigns the problem message to an overseas SAP support center. Until these conditions are fulfilled, SAP may not be able to start message handling or to continue message handling.

2.2 SAP Solution Manager Enterprise Edition under SAP Product Support for Large Enterprises

2.2.1 SAP Solution Manager Enterprise Edition (and any successor to SAP Solution Manager Enterprise Edition provided hereunder) shall be subject to the Schedule contract and is solely for the following purposes under SAP PSLE: (i) delivery of SAP PSLE and support services for Licensee Solutions including delivery and installation of software and technology maintenance for PSLE Solutions; and (ii) application lifecycle management for Licensee Solutions and for any other software components and IT assets licensed or otherwise obtained by Licensee from third parties provided such third party software, software components and IT assets are operated in conjunction with PSLE Solutions and are required to complete the Licensee's business processes as documented in the solution documentation in SAP Solution Manager Enterprise Edition ("Additional Supported Assets"). Such application lifecycle management is limited solely to the following purposes:

- implementation, configuration, testing, operations, continuous improvement and diagnostics
- incident management (service desk), problem management and change request management as enabled using SAP CRM technology integrated in SAP Solution Manager Enterprise Edition
- administration, monitoring, reporting and business intelligence as enabled using SAP NetWeaver technology integrated in SAP Solution Manager Enterprise Edition. Business intelligence may also be performed provided the appropriate SAP BI software is licensed by Licensee as part of the PSLE Solutions.

For application lifecycle management as outlined under section 2.2.1(ii) above, Licensee does not require a separate Package license to SAP CRM. Licensee must hold appropriate Named User licenses to Use SAP Solution Manager.

2.2.2 SAP Solution Manager Enterprise Edition may not be used for purposes other than those stated above. Without limiting the foregoing restriction, Licensee shall not use SAP Solution Manager Enterprise Edition for (i) CRM scenarios such as service plans, contracts, service confirmation management, except as CRM scenarios are expressly stated in Section 2.2.1; (ii) SAP NetWeaver usage types other than those stated above or (iii) application life-cycle management and in particular incident management (service desk) except for Licensee Solutions and Additional Supported Assets and (iv) non-IT shared services capabilities, including without limitation HR, Finance or Procurement.

2.2.3 SAP – in its sole discretion – may update from time to time on the SAP Service Marketplace under <http://service.sap.com/solutionmanager> the use cases for SAP Solution Manager Enterprise Edition under this Section 2.2.

2.2.4 SAP Solution Manager Enterprise Edition shall only be used during the term of this Schedule by Named Users licensed by Licensee subject to the licensed rights for the Software and exclusively for Licensee's SAP-related support purposes in support of Licensee's internal business operations. The right to use any SAP Solution Manager Enterprise Edition capabilities under SAP PSLE other than those listed above is subject to a separate written agreement with SAP, even if such capabilities are accessible through or related to SAP Solution Manager Enterprise Edition. Notwithstanding the foregoing limitation on Named Users, Licensee shall be entitled to allow any of its employees to use web self service in the SAP Solution Manager Enterprise Edition during the term of this Schedule for the sole purpose of creating support tickets, requesting support ticket status and ticket confirmation directly related to the Licensee Solutions and Additional Supported Assets.

2.2.5 In the event Licensee terminates SAP PSLE and receives SAP Standard Support in accordance with Section 7, Licensee's use of SAP Solution Manager Enterprise Edition under SAP PSLE shall cease. Thereafter, Licensee's use of SAP Solution Manager Enterprise Edition shall be governed by the terms and conditions of the SAP Standard Support Schedule.

2.2.6 Use of SAP Solution Manager Enterprise Edition may not be offered by Licensee as a service to third parties even if such third parties have licensed SAP Software and have licensed Named Users; provided, third parties authorized to access the SAP Software under the Schedule contract may have access to SAP Solution Manager Enterprise Edition solely for SAP-related support purposes in support of Licensee's internal business operations under and in accordance with the terms of this Schedule.

3. Licensee's Responsibilities.

3.1 SAP Product Support for Large Enterprises Program Management. In order to receive SAP Product Support for Large Enterprises hereunder, Licensee shall designate a qualified English speaking contact within its SAP Customer Center of Expertise (the "Contact Person") and shall provide contact details (in particular e-mail address and telephone number) by means of which the Contact Person or the authorized representative of such Contact Person can be contacted at any time. Licensee's Contact Person shall be Licensee's authorized representative empowered to make necessary decisions for Licensee or bring about such decision without undue delay.

3.2 Other Requirements. In order to receive SAP Product Support for Large Enterprises hereunder, Licensee must further satisfy the following requirements:

- (i) Continue to pay all SAP Product Support for Large Enterprise Service Fees in accordance with the Schedule contract and this Schedule.
- (ii) Otherwise fulfill its obligations under the Schedule contract and this Schedule.
- (iii) Provide and maintain remote access via a technical standard procedure as defined by SAP and grant SAP all necessary authorizations, in particular for remote analysis of issues as part of message handling. Such remote access shall be granted without restriction regarding the nationality of the SAP employee(s) who process support messages or the country in which they are located. Licensee acknowledges that failure to grant access may lead to delays in message handling and the provision of corrections, or may render SAP unable to provide help in an efficient manner. The necessary software components must also be installed for support services. For more details, see SAP Note 91488.
- (iv) Establish and maintain an SAP certified Customer COE meeting the requirements specified in Section 4 below.
- (v) Have installed, configured and be using productively, an SAP Solution Manager Enterprise Edition system, with the latest patch levels for Basis, and the latest SAP Solution Manager Enterprise Edition support packages.
- (vi) Activate SAP EarlyWatch Alert for the Production Systems and transmit data to Licensee's productive SAP Solution Manager Enterprise Edition system. See SAP Note 1257308 for information on setting up this service.
- (vii) Establish a connection between Licensee's SAP Solution Manager Enterprise Edition installation and SAP and a connection between the PSLE Solutions and Licensee's SAP Solution Manager Enterprise Edition installation. Licensee shall maintain the solution landscape and core business processes in Licensee's SAP Solution Manager Enterprise Edition system for all Production Systems and systems connected to the Production Systems. Licensee shall document any implementation or upgrade projects in Licensee's SAP Solution Manager Enterprise Edition system.
- (viii) To fully enable and activate the SAP Solution Manager Enterprise Edition, Licensee shall adhere to the applicable documentation.
- (ix) Licensee agrees to maintain adequate and current records of all modifications and, if needed, promptly provide such records to SAP.
- (x) Submit all error messages via the then current SAP support infrastructure as made available by SAP from time to time via updates, upgrades or add-ons.
- (xi) Inform SAP without undue delay of any changes to Licensee's installations and Named Users and all other information relevant to the PSLE Solutions.

4. Customer Center of Expertise.

4.1 Role of the Customer Center of Expertise In order to leverage the full potential value delivered as part of SAP Product Support for Large Enterprises, Licensee is required to establish a Customer Center of Expertise ("Customer Center of Expertise", or "Customer COE"). The Customer COE is designated by Licensee as a central point of contact for interaction with the SAP support organization. As a permanent center of expertise, the Customer COE supports Licensee's efficient implementation, innovation, operation and quality of business processes and systems related to the SAP Software Solution based on the Run SAP methodology provided by SAP (for more information on the Run SAP methodology, refer to <http://service.sap.com/runsap>). The Customer COE should cover all core business process operations. SAP recommends starting the implementation of the Customer COE as a project that runs in parallel with the functional and technical implementation projects.

4.2 Basic Functions of the Customer COE: The Customer COE must fulfill the following basic functions:

- Support Desk: Set-up and operation of a support desk with a sufficient number of support consultants for infrastructure/application platforms and the related applications during regular local working hours (at least 8 hours a day, 5 days (Monday through Friday) a week). Licensee support process and skills will be jointly reviewed in the framework of the service planning process and the certification audit.
- Contract administration: Contract and license processing in conjunction with SAP (license audit, maintenance billing, release order processing, user master and installation data management).
- Coordination of innovation requests: Collection and coordination of development requests from Licensee and/or affiliates provided such affiliates are entitled to use the PSLE Solutions under the Schedule contract. In this role the Customer COE shall also be empowered to function as an interface to SAP to take all action and decisions needed to avoid unnecessary modification of PSLE Solutions and to ensure that planned modifications are in alignment with the SAP software and release strategy. The Customer COE shall also coordinate Licensee's modification notification and disclosure requirements.
- Information management: Distribution of information (e.g. internal demonstrations, information events and marketing) about PSLE Solutions and the Customer COE within Licensee's organization.
- Service Planning: Licensee regularly engages in a service planning process with SAP. The service planning starts during the initial implementation and will then be continued regularly.

4.3 Customer COE Certification. If Licensee does not already have a certified Customer COE upon the Effective Date, Licensee must establish a certified Customer COE upon the later to occur of the following: (i) within twelve (12) months after the Effective Date; or (ii) within six (6) months after Licensee has started using at least one of the PSLE Solutions in live mode for normal business operations. To obtain the then-current primary Customer COE certification or re-certification by SAP, the Customer COE undergoes an audit procedure that covers the basic functions (primary certification). Licensee has the option to pursue advanced certification of their Customer COE. Detailed information on the initial certification and re-certification process and conditions, as well as information on the available certification levels, is available on the SAP Service Marketplace (<http://service.sap.com/coe>).

5. Revenue Thresholds.

5.1 Licensee shall be eligible to receive SAP Product Support for Large Enterprises from the date at which Licensee informs SAP in writing about the meeting of both of the following criteria: (i) the aggregate of the overall yearly expenditure of Licensee and all Licensee Affiliates under the Schedule contract on the following exceeds or is equal to USD 7,000,000. (seven million dollars) (the "Maintenance Threshold"): (a) SAP Enterprise Support, whereas, for purposes of this paragraph, yearly expenditures shall be deemed to be the product of seventeen percent (17%) times the applicable Net License Value, irrespective of the then current SAP Enterprise Support Factor in effect, (b) SAP Product Support for Large Enterprises (currently 17%) times the applicable Net License Value, (c) SAP Standard Support, whereas, for purposes of this paragraph, yearly expenditures shall be deemed to be the product of seventeen percent (17%)

times the applicable Net License Value, irrespective of the then current SAP Standard Support Factor in effect, (d) Maintenance for software licensed from Business Objects; and (e) MaxAttention; and (ii) the Net License Value exceeds or is equal to USD 40,000,000 (forty million dollars) (the "License Threshold").

5.2 During the term of this Schedule, Licensee shall be responsible for advising SAP if Licensee falls below the Maintenance Threshold and/or the License Threshold. Upon Licensee's request, SAP will assist Licensee in this determination. If Licensee falls below either or both of these thresholds Licensee shall inform SAP thereof immediately and from the date Licensee falls below the Maintenance Threshold and/or the License Threshold the following shall apply: (a) the SAP Product Support for Large Enterprises Factor for Licensee's and Licensee's Affiliates PSLE Solutions under Appendices to the Schedule contract is replaced by an SAP Product Support for Large Enterprises Factor of 21.42% in 2011; 22% in 2012 through 2016 and thereafter the then current SAP Enterprise Support Factor according to SAP's then current price list ; (b) the scope of SAP's support shall remain as defined in Section 2 above; (c) the SAP Product Support for Large Enterprises Factor for any additional purchases of software licenses subsequent to falling below the Maintenance Threshold and/or the License Threshold will be 22% through 2016; and thereafter the then current SAP Enterprise Support Factor according to SAP's then current price list;

SAP will offer to Licensee the option to select SAP Enterprise Support or SAP Standard Support in accordance with its then current terms. If Licensee selects SAP Enterprise Support, the following shall apply: The SAP Enterprise Support Factor shall be 18.9% in 2011, 19.5% in 2012, 20.1% in 2013, 20.8% in 2014, 21.4% in 2015, 22% in 2016, and the SAP Enterprise Support Factor for additional purchases of software licenses subsequent to switching to SAP Enterprise Support will be 22% through 2016. Thereafter the then-current SAP Enterprise Support Factor according to SAP's then current price list. If Licensee selects SAP Standard Support, such services shall be provided in accordance with SAP's terms and conditions including without limitation GSA pricing. In either case, SAP and Licensee shall execute an amendment to the Schedule contract memorializing Licensee's selection and SAP's the maintenance terms and conditions.

In addition, in the event Licensee notifies SAP on the day of, or prior to its falling below the Maintenance and/or License Threshold, that Licensee is switching to SAP Enterprise Support or SAP Standard Support, then Licensee shall be permitted to stay on SAP Product Support for Large Enterprises at a Factor of 17% for the period until the switch to SAP Enterprise Support or SAP Standard Support is contractually executed, for a maximum a period of 90 days, after which time the Factors set forth in 5.2 (a) shall apply.**5.3** Licensee is not eligible for SAP Product Support for Large Enterprises: (i) during the period between meeting the criteria under 5.1 and the date at which SAP receives written notice from Licensee that Licensee meets these criteria; and (ii) during the period between the date at which Licensee falls below the criteria under 5.1 and the date at which Licensee informs SAP accordingly, if the date of Licensee's notification to SAP is after the date at which Licensee fell below the criteria under 5.1.

5.4 Licensee shall not receive any refund, including, but not limited to, previously paid maintenance fees, e.g. fees paid for SAP Enterprise Support.

6. Fees for SAP Product Support for Large Enterprises. SAP Product Support for Large Enterprises Fees shall be paid annually in advance and shall be specified in Appendices to the Schedule contract. After the Initial Term (as defined in the applicable appendices, software agreements or order documents), the SAP Product Support for Large Enterprises Fees and any limitations on increases are subject to Licensee's compliance with the Customer COE requirements specified above.

7. Termination

7.1 Licensee may select either SAP Enterprise Support or SAP Standard Support in accordance with the following provisions.

7.1.1 SAP Enterprise Support. Licensee may select SAP Enterprise Support with three (3) months' written notice to SAP either (i) with respect to all orders for support that are solely on a calendar year renewal basis, prior to the beginning of any calendar month; or (ii) with respect to all orders for support that are not solely on a calendar year renewal basis, prior to any monthly anniversary of the renewal date of such order. Such selection shall be stated by Licensee in the notice letter, and shall terminate SAP Product Support for Large Enterprise effective with the commencement of SAP Enterprise Support. Any such selection shall apply to all PSLE Solutions, and shall be on SAP's terms and conditions for SAP Enterprise Support, including without limitation GSA pricing. SAP and Licensee shall execute an amendment or other document to the Schedule contract memorializing Licensee's selection and SAP's maintenance terms and conditions.

7.1.2 SAP Standard Support. Licensee may select SAP Standard Support with three (3) months' written notice either (i) with respect to all orders for support that are solely on a calendar year renewal basis, prior to the start of the renewal period that follows the Initial Term that commenced as of Licensee's first order for SAP Product Support for Large Enterprises; or (ii) with respect to all orders for support that are not solely on a calendar year renewal basis, prior to the start of the first renewal period in any calendar year that follows the Initial Term that commenced as of Licensee's first order for SAP PSLE. Such selection shall be stated by Licensee in the notice letter, and shall terminate SAP Product Support for Large Enterprises effective with the commencement of SAP Standard Support. Any such selection shall apply to all PSLE Solutions and shall be on SAP's terms and conditions for SAP Standard Support, including without limitation GSA pricing. SAP and Licensee shall execute an amendment or other document to the Schedule contract memorializing Licensee's selection and SAP's maintenance terms and conditions.

7.2 For the avoidance of doubt, termination of SAP Product Support for Large Enterprises or selection to enroll in another type of SAP Support Services by Licensee pursuant to Support Services selection provisions under the Schedule contract shall strictly apply to all licenses under the Schedule contract, its appendices, schedules, addenda and order documents and any partial termination of SAP Product Support for Large Enterprise or partial selection of any one type of SAP Support Services by Licensee shall not be permitted in respect of any part of the Schedule contract, its appendices, schedules, addenda, order documents or this Schedule.

8. Other Terms and Conditions.

8.1 The scope of SAP Product Support for Large Enterprises offered by SAP may be changed annually by SAP at any time upon three months prior written notice.

8.2 Licensee hereby confirms that Licensee has obtained all licenses for the Licensee Solutions.

8.3 FAILURE TO UTILIZE SAP PRODUCT SUPPORT FOR LARGE ENTERPRISES PROVIDED BY SAP MAY PREVENT SAP FROM BEING ABLE TO IDENTIFY AND ASSIST IN THE CORRECTION OF POTENTIAL PROBLEMS WHICH, IN TURN, COULD RESULT IN UNSATISFACTORY SOFTWARE PERFORMANCE FOR WHICH SAP CANNOT BE HELD RESPONSIBLE.

8.4 In the event SAP licenses third party software to Licensee under the Schedule contract, SAP shall provide SAP Product Support for Large Enterprises on such third party software to the degree the applicable third party makes such support available to SAP. Licensee may be required to upgrade to more recent versions of its operating systems and databases to receive SAP Product Support for Large Enterprises. If the respective vendor offers an extension of support for its product, SAP may offer such extension of support under a separate written agreement for an additional fee.

8.5 SAP PSLE is provided according to the current maintenance phases of SAP software releases as stated in <http://service.sap.com/releasestrategy>.

Seceon Inc.
238 Littleton Rd, Suite 202
Westford, MA 01886

**EC America Rider to Product Specific License Terms and Conditions
(for U.S. Government End Users)**

1. **Scope.** This Rider and the attached **Seceon Inc.** (“Manufacturer”) product specific license terms establish the terms and conditions enabling EC America (“Contractor”) to provide Manufacturer’s information technology products and services to Ordering Activities under EC America’s GSA MAS IT70 contract number GS-35F-0511T (the “Schedule Contract”). Installation and use of the information technology shall be in accordance with this Rider and Manufacturer Specific Terms attached hereto, unless an Ordering Activity determines that it requires different terms of use and Manufacturer agrees in writing to such terms in a valid delivery order placed pursuant to the Schedule Contract.
2. **Applicability.** Whereas GSA and EC America agreed at the time of Schedule Contract award upon a base set of terms and conditions applicable to all manufacturers and items represented on the Schedule Contract; and Whereas, the parties further agreed that all product specific license, warranty and software maintenance terms and conditions would be submitted at the time each new manufacturer was to be added to the Schedule Contract; Now, Therefore, the parties hereby agree that the product specific license, warranty and software maintenance terms set forth in Attachment A hereto (the “Manufacturer Specific Terms” or the “Attachment A Terms”) are incorporated into the Schedule Contract, but only to the extent that they are consistent with federal law (e.g., the Anti-Deficiency Act (31 U.S.C. § 1341), the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 *et seq.*), the Prompt Payment Act (31 U.S.C. §§ 3901 *et seq.*), the Anti-Assignment statutes (31 U.S.C. § 3727 and 41 U.S.C. § 15), DOJ’s jurisdictional statute 28 U.S.C. § 516 (Conduct of Litigation Reserved to the Department of Justice (DOJ)), and 28 U.S.C. § 1498 (Patent and copyright cases)). To the extent any Attachment A Terms are inconsistent with federal law (See, FAR 12.212(a)), such inconsistent terms shall be superseded, unenforceable and of no legal force or effect in all resultant orders under the Schedule Contract, including but not limited to the following provisions:
 - a) **Contracting Parties.** The GSA Customer (“Licensee”) is the “Ordering Activity”, defined as the entity authorized to order under GSA MAS contracts as set forth in GSA ORDER ADM 4800.2G (Feb 2011), as may be revised from time to time.
 - b) **Changes to Work and Delays.** Subject to GSAR Clause 552.243-72, Modifications (Federal Supply Schedule) (July 2000) (Deviation I – SEPT 2010), and 52.212-4(f) Excusable Delays (JUN 2010) regarding which the GSAR and the FAR provisions take precedence.
 - c) **Contract Formation.** Subject to FAR 1.601(a) and FAR 43.102, the GSA Customer Purchase Order must be signed by a duly warranted Contracting Officer, in writing. The same requirement applies to contract modifications affecting the rights of the parties. All terms and conditions intended to bind the Government must be included within the contract signed by the Government.
 - d) **Termination.** Clauses in the Manufacturer Specific Terms referencing termination, suspension and/ or cancellation are superseded and not applicable to any GSA Customer order. Termination shall be governed by the FAR, the underlying GSA Schedule Contract and the terms in any applicable GSA Customer Purchase Orders. If the Contractor believes the GSA Customer to be in breach, it must file a claim with the Contracting Officer and continue to diligently pursue performance. In commercial item contracting under FAR 12.302(b), the FAR provisions dealing with disputes and continued performance cannot be changed by the Contracting Officer.
 - e) **Choice of Law.** Subject to the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 *et seq.*), the validity, interpretation and enforcement of this Rider shall be governed by and construed in accordance with the federal laws of the United States. In the event the Uniform Computer Information Transactions Act (UCITA) or any similar federal laws or regulations are enacted, to the extent allowed by federal law, they will not apply to this Rider or the underlying Schedule Contract.
 - f) **Equitable remedies.** Equitable remedies are generally not awarded against the Government absent an express statute providing therefore. In the absence of a direct citation to such a statute, all clauses in the Manufacturer Specific Terms referencing equitable remedies are superseded and not applicable to any GSA Customer order.
 - g) **Unilateral Termination.** Unilateral termination by the Contractor does not apply to a GSA Customer Purchase Order and all clauses in the Manufacturer Specific Terms referencing unilateral termination rights of the Manufacturer are hereby superseded.
 - h) **Unreasonable Delay.** Subject to FAR 52.212-4(f) Excusable delays, the Contractor shall be liable for default unless the nonperformance is caused by an occurrence beyond the reasonable control of the Contractor and without its fault or negligence such as, acts of God or the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, unusually severe weather, and delays of common carriers. The Contractor shall notify the Contracting Officer in writing as soon as it is reasonably possible after commencement of any excusable delay, setting forth the full particulars in connection therewith, shall remedy such occurrence with all reasonable dispatch and shall promptly give written notice to the Contracting Officer of the cessation of such occurrence.
 - i) **Assignment.** All clauses regarding the Contractor’s assignment are subject to FAR 52.232-23, Assignment of Claims (JAN 1986) and FAR 42.12 Novation and Change-of-Name Agreements (Sep. 2013). All clauses governing the Contractor’s assignment in the Manufacturer Specific Terms are hereby superseded.
 - j) **Waiver of Jury Trial.** Waivers of Jury Trials are subject to FAR 52.233-1 Disputes (JULY 2002). The Government will not agree to waive any right that it may have under federal law. All clauses governing a waiver of jury trial in the Manufacturer Specific Terms are hereby superseded.
 - k) **Government Indemnities.** This is an obligation in advance of an appropriation that violates anti-deficiency laws (31 U.S.C. § 1341 and 41 U.S.C. § 6301), since the GSA Customer commits to pay an unknown amount at an unknown future time. The

violation occurs when the commitment is made, i.e., when the agreement featuring this clause is incorporated into a Government contract, and not when the clause is triggered. The FAR 12.216 prohibit such indemnifications. All Manufacturer Specific Terms referencing customer indemnities are hereby superseded.

- l) **Contractor Indemnities.** All Manufacturer Specific Terms that violate DOJ's jurisdictional statute (28 U.S.C. § 516) by requiring that the Government give sole control over the litigation and/or settlement to the Contractor are hereby superseded. Nothing contained in the Manufacturer's Specific terms shall be construed in derogation of the U.S. Department of Justice's right to defend any claim or action brought against the U.S., pursuant to its jurisdictional statute.
- m) **Renewals.** All Manufacturer Specific Terms that provide for automatic renewals violate the Anti-Deficiency Act and are hereby superseded. This is an obligation in advance of an appropriation that violates anti-deficiency laws (31 U.S.C. § 1341 and 41 U.S.C. § 6301), since the GSA Customer commits to pay an unknown amount at an unknown future time. The violation occurs when the commitment is made, i.e., when the agreement featuring this clause is incorporated into a Government contract, and not when the clause is triggered.
- n) **Future Fees or Penalties.** All Manufacturer Specific Terms that require the Government to pay any future fees, charges or penalties are hereby superseded unless specifically authorized by existing statutes, such as the Prompt Payment Act (31 U.S.C. § 3901 et seq.) or Equal Access To Justice Act (5 U.S.C. § 504; 28 U.S.C. § 2412).
- o) **Taxes.** Taxes are subject to FAR 52.212-4(k), which provides that the contract price includes all applicable federal, state, local taxes and duties. Notwithstanding the foregoing, Contractor shall state separately on its invoices, taxes excluded from the fees, and the GSA Customer agrees to either pay the amount of the taxes (based on the current value of the equipment or services) to Contractor or provide it evidence necessary to sustain an exemption, in accordance with FAR 52.229-1 and FAR 52.229-3.
- p) **Third Party Terms.** When the end user is an instrumentality of the U.S., no license terms bind the GSA Customer unless included verbatim (not by reference) in the EULA, and the EULA is made an attachment to the underlying GSA Schedule Contract. All terms and conditions affecting the GSA Customer must be contained in a writing signed by a duly warranted Contracting Officer. Any third party manufacturer shall be brought into the negotiation, or the components acquired separately under federally-compatible agreements, if any. All Manufacturer Specific Terms that incorporate third party terms by reference are hereby superseded.
- q) **Dispute Resolution and Standing.** Any disputes relating to the Manufacturer Specific Terms or to this Rider shall be resolved in accordance with the FAR, the underlying GSA Schedule Contract, any applicable GSA Customer Purchase Orders, and the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 et seq.). The Ordering Activity expressly acknowledges that EC America as contractor, on behalf of the Manufacturer, shall have standing to bring such claim under the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 et seq.).
- r) **Advertisements and Endorsements.** Pursuant to GSAR 552.203-71, use of the name or logo of any U.S. Government entity is prohibited. All Manufacturer Specific Terms that allow the Contractor to use the name or logo of a Government entity are hereby superseded.
- s) **Public Access to Information.** EC America agrees that the attached Manufacturer Specific Terms and this Rider contain no confidential or proprietary information and acknowledges the Rider shall be available to the public.
- t) **Confidentiality.** Any provisions in the attached Manufacturer Specific Terms that require the Ordering Activity to keep certain information confidential are subject to the Freedom of Information Act (5 U.S.C. § 552), and any order by a United States Federal Court. When the end user is an instrumentality of the U.S. Government, neither this Rider, the Manufacturer's Specific Terms nor the Schedule Price List shall be deemed "confidential information" notwithstanding marking to that effect. Notwithstanding anything in this Rider, the Manufacturer's Specific Terms or the Schedule Contract to the contrary, the GSA Customer may retain such Confidential Information as required by law, regulation or its bonafide document retention procedures for legal, regulatory or compliance purposes; provided however, that such retained Confidential Information will continue to be subject to the confidentiality obligations of this Rider, the Manufacturer's Specific Terms and the Schedule Contract.
- u) **Alternate Dispute Resolution.** The GSA Customer cannot be forced to mediate or arbitrate. Arbitration requires prior guidance by the head of a federal agency promulgated via administrative rulemaking according to 5 U.S.C. § 575(c). GSA has not issued any because it considers the Board of Contract Appeals to be an adequate, binding ADR alternative. All Manufacturer Specific Terms that allow the Contractor to choose arbitration, mediation or other forms of alternate dispute resolution are hereby superseded.
- v) **Ownership of Derivative Works.** Provisions purporting to vest exclusive ownership of all derivative works in the licensor of the standard software on which such works may be based are superseded. Ownership of derivative works should be as set forth in the copyright statute, 17 U.S.C. § 103 and the FAR clause at 52.227-14, but at a minimum, the GSA Customer shall receive unlimited rights to use such derivative works at no further cost.

3. Order of Precedence/Conflict. To the extent there is a conflict between the terms of this Rider and the terms of the underlying Schedule Contract or a conflict between the terms of this Rider and the terms of an applicable GSA Customer Purchase Order, the terms of the GSA Schedule Contract or any specific, negotiated terms on the GSA Customer Purchase Order shall control over the terms of this Rider. Any capitalized terms used herein but not defined, shall have the meaning assigned to them in the underlying Schedule Contract.

**ATTACHMENT A
CONTRACTOR SUPPLEMENTAL PRICELIST INFORMATION AND TERMS**

SECEON INC.

SECEON INC. WARRANTY AND SUPPORT TERMS

Attachment A – Seceon

End User License Agreement

1) Definitions.

- a) "Authorized Partner" means any of Seceon's distributors, resellers or other business partners.
- b) "Grant Letter" means a confirmation notice letter issued electronically by Seceon to you, confirming Software and Support purchased by you, including the applicable product entitlement, as defined in the Product Entitlement Definitions (further described at Section 3(a) below) and also containing download details.
- c) "Documentation" means explanatory materials in printed, electronic or online form accompanying the Software in English and other languages, if available.
- d) "Seceon" means (a) Seceon, Inc., a Massachusetts corporation, with an office located at 238 Littleton Rd., Suite 202, Westford, MA 01886 USA) "Node" means any kind of device capable of processing data and includes any of the following types of computer devices: diskless workstations, personal computer workstations, networked computer workstations, homeworke/teleworker homebased systems, file and print servers, email servers, Internet gateway devices, storage area network servers (SANS), terminal servers or portable workstations connected or connecting to the server(s) or network.
- e) "Software" means each Seceon software program in object code format licensed by Seceon and purchased from Seceon or its Authorized Partners, including Upgrades.
- f) "Subsidiary" refers to any entity controlled by you through greater than fifty per cent (50%) ownership of the voting securities.
- g) "Support" or "Technical Support" means the support services offered by Seceon for the support and maintenance of the Software and Seceon brand hardware further specified in the Seceon Technical Support and Maintenance Terms. i) "Updates" are related to content and include without limitation all DATs, signature sets, policy updates, database updates for the Software which are made generally available to Seceon's customer base as a part of purchased Support and which are not separately priced or marketed by Seceon.
- h) "Upgrade" means any and all improvements in the Software which are made generally available to Seceon's customer base as part of purchased Support and which are not separately priced or marketed by Seceon.

2) License Grant. Subject to the terms and conditions of this Agreement and the applicable ordering document, Seceon hereby grants to you a non-exclusive, non-transferable right to use the Software (for the purpose of this Agreement, use of the Software means to access, install, download, copy or otherwise benefit from using the Software) for your own internal business operations. You acknowledge that the Software and all related information are proprietary to Seceon and its suppliers. You are not granted rights to Updates and Upgrades unless you have purchased Support or a service subscription.

3) Copy and Use terms.

- a) Product entitlement: The use of the Software depends on the licenses purchased (e.g. Nodes). Software is installed may not exceed your product entitlement. Certain Software licensed as part of a suite-based Seceon product may also require the purchase of a separate Seceon server license in order to use the Software on certain types of servers, in each case as specified in the Documentation.
- b) Term: The license is effective for a limited period of time ("Term") in the event that such Term is set forth in the Grant Letter and the applicable ordering document, otherwise the licenses shall be perpetual.
- c) Copies: You may copy the Software as reasonably necessary for back-up, archival or disaster recovery purposes.
- d) Managing Party: If you enter into a contract with a third party in which the third party manages your information technology resources ("Managing Party"), you may transfer all your rights to use the Software to such Managing Party, provided that (a) the Managing Party only uses the Software for your internal operations and not for the benefit of another third party or the Managing Party, (b) the Managing Party agrees to comply with the terms and conditions of this Agreement and (c) you provide Seceon with written notice that a Managing Party will be using the Software on your behalf.
- e) Subsidiaries: You may permit use of the Software in accordance with the terms of this Agreement by a Subsidiary only for so long as such entity remains your Subsidiary. You shall be responsible and fully liable for each Subsidiary's compliance with or breach of the terms of this Agreement.
- f) General Restrictions: You may not, nor allow any third party to:
 - (i) decompile, disassemble or reverse-engineer the Software, except to the extent expressly permitted by applicable law, without Seceon's prior written consent;
 - (ii) remove any product identification or proprietary rights notices of the Software or Documentation;
 - (iii) lease, lend or use the Software for timesharing or service bureau purposes;
 - (iv) modify or create derivative works of the Software,
 - (v) except with Seceon's prior written permission, publish any performance or benchmark tests or analysis relating to the Software or
 - (vi) otherwise use or copy the Software except as expressly provided herein.

- 4) Technical Support and Maintenance. The Seceon Technical Support and Maintenance Terms apply if you have purchased Support. The Seceon Technical Support and Maintenance Terms are incorporated by reference. After the support or service subscription period specified in a Grant Letter has expired, you have no further rights to receive any Support including Upgrades, Updates and telephone support.
- 5) Limited Warranty and Disclaimer.
- a) Limited Warranty: Seceon warrants that, for a period of 1 year from the purchase date ("Warranty Period"), the Software licensed hereunder (including Upgrades provided within the Warranty Period for the remainder of the Warranty Period) will perform substantially in accordance with the Documentation.
- b) Exclusive Remedy: In case of any breach of the above limited warranty, Seceon will (a) repair or replace the Software or (b) if such repair or replacement would in Seceon's opinion be commercially unreasonable, refund the price paid by you for the applicable Software.
- c) Exclusion of Warranty: The above Limited Warranty will not apply if: (i) the Software is not used in accordance with this Agreement or the Documentation, (ii) the Software or any part thereof has been modified by any entity other than Seceon or (iii) a malfunction in the Software has been caused by any equipment or software not supplied by Seceon.
- d) Disclaimer: THE ABOVE WARRANTIES ARE YOUR EXCLUSIVE WARRANTIES AND REPLACE ALL OTHER WARRANTIES OR CONDITIONS, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO WARRANTIES OR CONDITIONS OF MERCHANTABILITY, SATISFACTORY QUALITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE AND NON-INFRINGEMENT. EXCEPT FOR THE LIMITED WARRANTY SET FORTH ABOVE, THE SOFTWARE IS PROVIDED "AS IS" AND SECEON MAKES NO WARRANTY OR GUARANTEE AS TO ITS USE OR PERFORMANCE AND DOES NOT WARRANT OR GUARANTEE THAT THE OPERATION OF THE SOFTWARE WILL BE FAIL SAFE, UNINTERRUPTED OR FREE FROM ERRORS OR DEFECTS OR THAT THE SOFTWARE WILL PROTECT AGAINST ALL POSSIBLE THREATS.
- e) Reserved.
- 6) Reserved.
- 7) Intellectual Property Indemnity.
- a) Third-party claims: Subject to 28 U.S.C. § 516, Seceon shall defend and hold you harmless from any claim by a third party that the Software infringes, whether a patent, copyright or trade secret of that third party, provided that: (i) Seceon is notified promptly, and in any event no later than within 14 days of your receipt of notice of the claim, (ii) Seceon receives the required level of reasonable cooperation from you in order to perform Seceon's obligations hereunder and (iii) Seceon has control over the defense and all negotiations for a settlement or compromise of the claim. The foregoing obligation of Seceon does not apply with respect to Software or portions or components thereof that are: (i) not supplied by Seceon, (ii) used in a manner not expressly authorized by this Agreement or the relevant Documentation, (iii) made in accordance with your specifications, (iv) modified by anyone other than Seceon, if the alleged infringement relates to such modification, (v) combined with other products, processes or materials where the alleged infringement would not exist but for such combination or (vi) where you continue the allegedly infringing activity after being notified thereof and provided with modifications that would have avoided the alleged infringement.
- b) Remedy and Liability: In the event that the Software is held by a court of competent jurisdiction to constitute an infringement or use of the Software is enjoined, Seceon shall, at its sole discretion, do one of the following: (i) procure for you the right to continue use of the Software, (ii) provide a modification to the Software so that its use becomes non-infringing, (iii) replace the Software with software that is substantially similar in functionality and performance or (iv), if none of the foregoing alternatives is reasonably available to Seceon, Seceon shall refund the residual value of the purchase price paid by you for the infringing Software, depreciated using a straight-line method of depreciation over a three (3) year period from the date of delivery of the Software to you. This Section 7 states Seceon's sole liability and your exclusive remedy for intellectual property infringement claims.
- 8) Reserved.
- 9) Additional Terms.
- a) Reserved.
- b) Reserved.
- c) "Free" or "Open-Source" Software: The product may include programs or code that are licensed under an OpenSource Software ("OSS") license model. OSS programs and code are subject to the terms, conditions and obligations of the applicable OSS license and are SPECIFICALLY EXCLUDED FROM ALL WARRANTY AND SUPPORT OBLIGATIONS DESCRIBED ELSEWHERE IN THIS AGREEMENT.
- 10) Notice to United States Government End Users. The Software and accompanying Documentation are deemed to be "commercial computer software" and "commercial computer software documentation", respectively, pursuant to DFAR Section 227.7202 and FAR Section 12.212, as applicable. Any use, modification, reproduction, release, performance, display or disclosure of the Software and accompanying Documentation by the United States Government shall be governed solely by the terms of this Agreement and shall be prohibited except to the extent expressly permitted by the terms of this Agreement.
- 11) Privacy and Collection of Personal or System Information.

- a) The Software, Support or service subscription may employ applications and tools to collect personally identifiable, sensitive or other information about you and users (e.g., including, without limitation, your and users' name, address, e-mail address and payment details), their computers, files stored on their computers, or their computers' interactions with other computers (e.g., including, without limitation, information regarding network, licenses used, hardware type, model, hard disk size, CPU type, disk type, RAM size, 32 or 64 bit architecture, operating system types, versions, locale, BIOS version, BIOS model, total scanners deployed, database size, system telemetry, device ID, IP address, location, content, Seceon products installed, Seceon components, processes and services information, frequency and details of update of Seceon components, information about third party products installed, extracts of logs created by Seceon, usage patterns of Seceon products and specific features, etc.) (collectively, "Data").
- b) The collection of this Data may be necessary to provide you and users with the relevant Software, Support or service subscription functionalities as ordered (e.g., including, without limitation, detecting and reporting threats and vulnerabilities on your and users' computer network), enable Seceon to improve our Software, Support or service subscription (e.g., including, without limitation, content synchronization, device tracking, troubleshooting, etc.) and to further or improve overall security for you and users. You may be required to uninstall the Software or disable Support or its service subscription to stop further Data collection that supports these functions.
- c) You are solely responsible for securing any privacy-related rights and permissions from your users as may be required by local law or by your internal policies. Seceon will only collect, process, copy, backup, store, transfer and use personally identifiable information.
- 12) Audit. Subject to your security requirements, Seceon may, at its expense, upon reasonable prior written notice to you and during standard business hours, audit you with respect to your compliance with the terms of this Agreement no more than once per year. You understand and acknowledge that Seceon utilizes a number of methods to verify and support software use by its customers. These methods may include technological features of the Software that prevent unauthorized use and provide Software deployment verification. Upon reasonable request, you will provide a system-generated report verifying your Software deployment, such request to occur no more than two (2) times per year. Seceon will not unreasonably interfere with the conduct of your business.
- 13) Export Controls. You acknowledge that the Software is subject to US export regulations. You shall comply with applicable export and import laws and regulations for the jurisdiction in which the Software will be imported and/or exported. You shall not export the Software to any individual, entity or country prohibited by applicable law or regulation. You are responsible, at your own expense, for any local government permits, licenses or approvals required for importing and/or exporting the Software. For additional information regarding exporting and importing the Software, see http://Seceon.com/us/about/export_compliance/index.html (then click on US Export Compliance. Seceon reserves the right to update this website from time to time, at its sole discretion.)

Irvine, CA 92618

**EC America Rider to Product Specific License Terms and Conditions
(for U.S. Government End Users)**

1. **Scope.** This Rider and the attached **Secure Channels Inc.** (“Manufacturer”) product specific license terms establish the terms and conditions enabling EC America (“Contractor”) to provide Manufacturer’s information technology products and services to Ordering Activities under EC America’s GSA MAS IT70 contract number GS-35F-0511T (the “Schedule Contract”). Installation and use of the information technology shall be in accordance with this Rider and Manufacturer Specific Terms attached hereto, unless an Ordering Activity determines that it requires different terms of use and Manufacturer agrees in writing to such terms in a valid delivery order placed pursuant to the Schedule Contract.
2. **Applicability.** Whereas GSA and EC America agreed at the time of Schedule Contract award upon a base set of terms and conditions applicable to all manufacturers and items represented on the Schedule Contract; and Whereas, the parties further agreed that all product specific license, warranty and software maintenance terms and conditions would be submitted at the time each new manufacturer was to be added to the Schedule Contract; Now, Therefore, the parties hereby agree that the product specific license, warranty and software maintenance terms set forth in Attachment A hereto (the “Manufacturer Specific Terms” or the “Attachment A Terms”) are incorporated into the Schedule Contract, but only to the extent that they are consistent with federal law (e.g., the Anti-Deficiency Act (31 U.S.C. § 1341), the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 *et seq.*), the Prompt Payment Act (31 U.S.C. §§ 3901 *et seq.*), the Anti-Assignment statutes (31 U.S.C. § 3727 and 41 U.S.C. § 15), DOJ’s jurisdictional statute 28 U.S.C. § 516 (Conduct of Litigation Reserved to the Department of Justice (DOJ)), and 28 U.S.C. § 1498 (Patent and copyright cases)). To the extent any Attachment A Terms are inconsistent with federal law (See, FAR 12.212(a)), such inconsistent terms shall be superseded, unenforceable and of no legal force or effect in all resultant orders under the Schedule Contract, including but not limited to the following provisions:
 - a) **Contracting Parties.** The GSA Customer (“Licensee”) is the “Ordering Activity”, defined as the entity authorized to order under GSA MAS contracts as set forth in GSA ORDER ADM 4800.2G (Feb 2011), as may be revised from time to time.
 - b) **Changes to Work and Delays.** Subject to GSAR Clause 552.243-72, Modifications (Federal Supply Schedule) (July 2000) (Deviation I – SEPT 2010), and 52.212-4(f) Excusable Delays (JUN 2010) regarding which the GSAR and the FAR provisions take precedence.
 - c) **Contract Formation.** Subject to FAR 1.601(a) and FAR 43.102, the GSA Customer Purchase Order must be signed by a duly warranted Contracting Officer, in writing. The same requirement applies to contract modifications affecting the rights of the parties. All terms and conditions intended to bind the Government must be included within the contract signed by the Government.
 - d) **Termination.** Clauses in the Manufacturer Specific Terms referencing termination, suspension and/ or cancellation are superseded and not applicable to any GSA Customer order. Termination shall be governed by the FAR, the underlying GSA Schedule Contract and the terms in any applicable GSA Customer Purchase Orders. If the Contractor believes the GSA Customer to be in breach, it must file a claim with the Contracting Officer and continue to diligently pursue performance. In commercial item contracting under FAR 12.302(b), the FAR provisions dealing with disputes and continued performance cannot be changed by the Contracting Officer.
 - e) **Choice of Law.** Subject to the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 *et seq.*), the validity, interpretation and enforcement of this Rider shall be governed by and construed in accordance with the federal laws of the United States. In the event the Uniform Computer Information Transactions Act (UCITA) or any similar federal laws or regulations are enacted, to the extent allowed by federal law, they will not apply to this Rider or the underlying Schedule Contract.
 - f) **Equitable remedies.** Equitable remedies are generally not awarded against the Government absent an express statute providing therefore. In the absence of a direct citation to such a statute, all clauses in the Manufacturer Specific Terms referencing equitable remedies are superseded and not applicable to any GSA Customer order.
 - g) **Unilateral Termination.** Unilateral termination by the Contractor does not apply to a GSA Customer Purchase Order and all clauses in the Manufacturer Specific Terms referencing unilateral termination rights of the Manufacturer are hereby superseded.
 - h) **Unreasonable Delay.** Subject to FAR 52.212-4(f) Excusable delays, the Contractor shall be liable for default unless the nonperformance is caused by an occurrence beyond the reasonable control of the Contractor and without its fault or negligence such as, acts of God or the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, unusually severe weather, and delays of common carriers. The Contractor shall notify the Contracting Officer in writing as soon as it is reasonably possible after commencement of any excusable delay, setting forth the full particulars in connection therewith, shall remedy such occurrence with all reasonable dispatch and shall promptly give written notice to the Contracting Officer of the cessation of such occurrence.
 - i) **Assignment.** All clauses regarding the Contractor’s assignment are subject to FAR 52.232-23, Assignment of Claims (JAN 1986) and FAR 42.12 Novation and Change-of-Name Agreements (Sep. 2013). All clauses governing the Contractor’s assignment in the Manufacturer Specific Terms are hereby superseded.
 - j) **Waiver of Jury Trial.** Waivers of Jury Trials are subject to FAR 52.233-1 Disputes (JULY 2002). The Government will not agree to waive any right that it may have under federal law. All clauses governing a waiver of jury trial in the Manufacturer Specific Terms are hereby superseded.
 - k) **Government Indemnities.** This is an obligation in advance of an appropriation that violates anti-deficiency laws (31 U.S.C. § 1341 and 41 U.S.C. § 6301), since the GSA Customer commits to pay an unknown amount at an unknown future time. The

violation occurs when the commitment is made, i.e., when the agreement featuring this clause is incorporated into a Government contract, and not when the clause is triggered. The FAR 12.216 prohibit such indemnifications. All Manufacturer Specific Terms referencing customer indemnities are hereby superseded.

- l) **Contractor Indemnities.** All Manufacturer Specific Terms that violate DOJ's jurisdictional statute (28 U.S.C. § 516) by requiring that the Government give sole control over the litigation and/or settlement to the Contractor are hereby superseded. Nothing contained in the Manufacturer's Specific terms shall be construed in derogation of the U.S. Department of Justice's right to defend any claim or action brought against the U.S., pursuant to its jurisdictional statute.
 - m) **Renewals.** All Manufacturer Specific Terms that provide for automatic renewals violate the Anti-Deficiency Act and are hereby superseded. This is an obligation in advance of an appropriation that violates anti-deficiency laws (31 U.S.C. § 1341 and 41 U.S.C. § 6301), since the GSA Customer commits to pay an unknown amount at an unknown future time. The violation occurs when the commitment is made, i.e., when the agreement featuring this clause is incorporated into a Government contract, and not when the clause is triggered.
 - n) **Future Fees or Penalties.** All Manufacturer Specific Terms that require the Government to pay any future fees, charges or penalties are hereby superseded unless specifically authorized by existing statutes, such as the Prompt Payment Act (31 U.S.C. § 3901 et seq.) or Equal Access To Justice Act (5 U.S.C. § 504; 28 U.S.C. § 2412).
 - o) **Taxes.** Taxes are subject to FAR 52.212-4(k), which provides that the contract price includes all applicable federal, state, local taxes and duties. Notwithstanding the foregoing, Contractor shall state separately on its invoices, taxes excluded from the fees, and the GSA Customer agrees to either pay the amount of the taxes (based on the current value of the equipment or services) to Contractor or provide it evidence necessary to sustain an exemption, in accordance with FAR 52.229-1 and FAR 52.229-3.
 - p) **Third Party Terms.** When the end user is an instrumentality of the U.S., no license terms bind the GSA Customer unless included verbatim (not by reference) in the EULA, and the EULA is made an attachment to the underlying GSA Schedule Contract. All terms and conditions affecting the GSA Customer must be contained in a writing signed by a duly warranted Contracting Officer. Any third-party manufacturer shall be brought into the negotiation, or the components acquired separately under federally-compatible agreements, if any. All Manufacturer Specific Terms that incorporate third party terms by reference are hereby superseded.
 - q) **Dispute Resolution and Standing.** Any disputes relating to the Manufacturer Specific Terms or to this Rider shall be resolved in accordance with the FAR, the underlying GSA Schedule Contract, any applicable GSA Customer Purchase Orders, and the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 et seq.). The Ordering Activity expressly acknowledges that EC America as contractor, on behalf of the Manufacturer, shall have standing to bring such claim under the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 et seq.).
 - r) **Advertisements and Endorsements.** Pursuant to GSAR 552.203-71, use of the name or logo of any U.S. Government entity is prohibited. All Manufacturer Specific Terms that allow the Contractor to use the name or logo of a Government entity are hereby superseded.
 - s) **Public Access to Information.** EC America agrees that the attached Manufacturer Specific Terms and this Rider contain no confidential or proprietary information and acknowledges the Rider shall be available to the public.
 - t) **Confidentiality.** Any provisions in the attached Manufacturer Specific Terms that require the Ordering Activity to keep certain information confidential are subject to the Freedom of Information Act (5 U.S.C. § 552), and any order by a United States Federal Court. When the end user is an instrumentality of the U.S. Government, neither this Rider, the Manufacturer's Specific Terms nor the Schedule Price List shall be deemed "confidential information" notwithstanding marking to that effect. Notwithstanding anything in this Rider, the Manufacturer's Specific Terms or the Schedule Contract to the contrary, the GSA Customer may retain such Confidential Information as required by law, regulation or its bonafide document retention procedures for legal, regulatory or compliance purposes; provided however, that such retained Confidential Information will continue to be subject to the confidentiality obligations of this Rider, the Manufacturer's Specific Terms and the Schedule Contract.
 - u) **Alternate Dispute Resolution.** The GSA Customer cannot be forced to mediate or arbitrate. Arbitration requires prior guidance by the head of a federal agency promulgated via administrative rulemaking according to 5 U.S.C. § 575(c). GSA has not issued any because it considers the Board of Contract Appeals to be an adequate, binding ADR alternative. All Manufacturer Specific Terms that allow the Contractor to choose arbitration, mediation or other forms of alternate dispute resolution are hereby superseded.
 - v) **Ownership of Derivative Works.** Provisions purporting to vest exclusive ownership of all derivative works in the licensor of the standard software on which such works may be based are superseded. Ownership of derivative works should be as set forth in the copyright statute, 17 U.S.C. § 103 and the FAR clause at 52.227-14, but at a minimum, the GSA Customer shall receive unlimited rights to use such derivative works at no further cost.
4. **Order of Precedence/Conflict.** To the extent there is a conflict between the terms of this Rider and the terms of the underlying Schedule Contract or a conflict between the terms of this Rider and the terms of an applicable GSA Customer Purchase Order, the terms of the GSA Schedule Contract or any specific, negotiated terms on the GSA Customer Purchase Order shall control over the terms of this Rider. Any capitalized terms used herein but not defined, shall have the meaning assigned to them in the underlying Schedule Contract.

**ATTACHMENT A
CONTRACTOR SUPPLEMENTAL PRICELIST INFORMATION AND TERMS**

Secure Channels Inc.

All references to Secure Channels, Inc. ("SCI") in these Terms and Conditions should be read as "Contractor (immixTechnology, Inc.), acting by and through its supplier, SCI."

**SECURE CHANNELS, INC.'S END USER LICENSE
AND TECHNICAL SUPPORT AND MAINTENANCE AGREEMENT**

This End User License and Technical Support and Maintenance Agreement ("EULA") is a legal agreement between the Customer ("you") either a Government agency or instrumentality and Secure Channels, Inc. and its subsidiaries (collectively, "SCI") for SCI's Software, which includes computer software and may include associated media, printed materials, and "online" or electronic documentation (collectively "Licensed Software") as well as technical support and maintenance services for the Licensed Software ("Technical Support and Maintenance") if acquired from SCI. The Licensed Software also includes any updates and supplements to the original Licensed Software which may be provided to you by SCI.

The Licensed Software is protected by copyright laws and international copyright treaties, as well as other intellectual property laws and treaties. The Licensed Software is licensed, not sold.

1. Grant of License; License Keys.

- A. Grant.** Under this EULA, SCI grants to you a non-exclusive license to use the version of the Licensed Software provided to you by SCI, and to receive Technical Support and Maintenance if acquired, solely for your own internal purposes and subject to the terms of this EULA. Your use of the Licensed Software shall also be in accordance with the documentation for the Licensed Software and the applicable License Key and License Configuration as defined herein. Your license rights as specified herein may be perpetual ("**Perpetual License**"), or limited to a subscription period, if applicable ("**Subscription License**"). You may allow your employees, agents, consultants and/or independent contractors (collectively referred to as "personnel," hereinafter) to use the Licensed Software for your internal purposes and you are responsible for their compliance with the terms of this EULA in such use. Unless otherwise provided in this EULA, you may only make copies of the Licensed Software for archive purposes. The Licensed Software is deemed accepted as provided in the Federal Acquisitions Regulations ("FAR") and the underlying ordering document.
- B. License Keys.** The Licensed Software may require an applicable license key in order to access its functionality ("**License Key**"). In order to access the full functionality of the Licensed Software, each copy of the Licensed Software may require an applicable License Key issued by SCI for a limited number of servers or users, specifically identified computers, fixed subscription period and/or other usage rights or limitations ("**License Configuration**") specified in an applicable ordering document ("**Order**").

2. Other Rights and Limitations.

- A. Limitations on Reverse Engineering, Decompilation and Disassembly.** You shall not cause or permit the reverse engineering, decompilation, or disassembly of the Licensed Software or any portion thereof, except and only to the extent that such activity is expressly permitted by applicable federal law.
- B. Marks.** This EULA does not grant you any rights in connection with any trademarks or service marks of SCI. You shall not remove or modify any Licensed Software markings or any notice of SCI's proprietary rights.
- C. Third Party Use.** You shall not rent, lease or lend the Licensed Software, or make the Licensed Software available in any manner to any third party for use in the third party's business operations (unless such access is expressly permitted in writing by SCI).
- D. Actual License Limits.** You may not use software or hardware that (i) reduces the number of users directly accessing or utilizing the Licensed Software; (ii) allows you to exceed the number of processors ("CPUs") or servers for which the Licensed Software is licensed to you; or (iii) otherwise prevents the Licensed Software from keeping an accurate count of the number of users, CPUs or servers actually accessing or utilizing the Licensed Software.
- E. Benchmarks and Competitive Use.** You shall not disclose results of any Licensed Software benchmark tests without SCI's prior written consent. The Licensed Software may not be used for purposes of competitive analysis or development of a competitive product.
- F. Proprietary Rights.** All rights, title, interest and copyrights in and to the Licensed Software are owned by SCI or its licensors.

3. Technical Support and Maintenance Services. This EULA does not entitle you to receive any enhancements, improvements or modifications to the Licensed Software. SCI may provide you with Technical Support and Maintenance if you have ordered such services from SCI, subject to the execution of an applicable Order. Use of Technical Support and Maintenance is governed by SCI's policies and programs. Any enhancements, improvements, modifications or other supplemental software provided to you as part of Technical Support and Maintenance shall be considered part of the Licensed Software and subject to the terms and conditions of this EULA. With respect to technical information you provide to SCI as part of Technical Support and Maintenance, SCI may use such information for its business purposes, including for product support and development.

4. Inspection/Acceptance. The Contractor (immixTechnology, Inc.) can only, and shall only tender for acceptance those items that substantially conform to the software manufacturer's ("SCI") published specifications. Therefore, items delivered shall be considered accepted upon delivery. The Government reserves the right to inspect or test any supplies or services that have been delivered. The Government may require repair or replacement of nonconforming supplies or re-performance of nonconforming services at no increase in contract price. If repair/replacement or re-performance will not correct the defects or is not possible, the Government may seek an equitable price reduction or adequate consideration for acceptance of nonconforming supplies or services. The Government must exercise its post-acceptance rights- (1) Within the warranty period; and (2) Before any substantial change occurs in the condition of the item, unless the change is due to the defect in the item.

5. Warranties, Disclaimers and Remedies.

If you have acquired a Perpetual License for the Licensed Software, SCI warrants for 90 days after acceptance in accordance with the FAR and the underlying ordering document, (the “**Warranty Period**”) that the Licensed Software will function in all material respects as described in the documentation for the Licensed Software, subject to compliance with the License Configuration.

If you have acquired a Subscription License for the Licensed Software, SCI warrants for 90 days after the start of your subscription, or an annual renewal of such subscription, if applicable (“**Subscription Warranty Period**”) that the Licensed Software will function in all material respects as described in the documentation for the Licensed Software, subject to compliance with the License Configuration.

You must notify SCI of any Licensed Software warranty deficiency during the applicable Warranty Period. SCI also warrants that if you contracted and paid for Technical Support and Maintenance, it will be provided in a professional manner consistent with industry standards. You must notify SCI of any Technical Support and Maintenance warranty deficiencies within 60 days of the performance of the deficient Technical Support and Maintenance.

SCI DOES NOT WARRANT OR GUARANTEE THAT THE LICENSED SOFTWARE WILL MEET YOUR REQUIREMENTS, WILL OPERATE ERROR-FREE OR UNINTERRUPTED OR THAT SCI WILL CORRECT ALL ERRORS IN THE LICENSED SOFTWARE. TO THE EXTENT PERMITTED BY LAW, THESE WARRANTIES ARE EXCLUSIVE AND SCI EXPRESSLY DISCLAIMS ANY EXPRESS OR IMPLIED WARRANTIES OR CONDITIONS, INCLUDING WARRANTIES OR CONDITIONS OF MERCHANTABILITY, TITLE, NON-INFRINGEMENT, QUALITY AND FITNESS FOR A PARTICULAR PURPOSE. FOR ANY BREACH OF THE ABOVE WARRANTIES, YOUR EXCLUSIVE REMEDY AND SCI'S ENTIRE LIABILITY, SHALL BE, AT SCI'S DISCRETION, AS APPLICABLE, FOR THE LICENSED SOFTWARE, (A) THE CORRECTION OF ERRORS IN THE LICENSED SOFTWARE THAT CAUSE BREACH OF THE WARRANTY; OR (B) TERMINATION OF YOUR LICENSE AND REFUND OF THE FEES YOU PAID TO SCI FOR THE SPECIFIC LICENSED SOFTWARE (IN THE CASE OF SUBSCRIPTIONS, SUCH REFUND SHALL BE LIMITED TO THE THEN-CURRENT SUBSCRIPTION PERIOD) AND ANY UNUSED, PREPAID TECHNICAL SUPPORT AND MAINTENANCE FEES YOU HAVE PAID FOR THE SPECIFIC LICENSED SOFTWARE; AND FOR TECHNICAL SUPPORT AND MAINTENANCE, (C) THE REPERFORMANCE OF DEFICIENT TECHNICAL SUPPORT AND MAINTENANCE; OR (D) TERMINATION OF THE RELEVANT TECHNICAL SUPPORT AND MAINTENANCE AND REFUND ANY UNUSED PREPAID TECHNICAL SUPPORT AND MAINTENANCE FEES YOU HAVE PAID TO SCI FOR THE DEFICIENT TECHNICAL SUPPORT AND MAINTENANCE.

The Licensed Software is not fault-tolerant and is not designed or intended for use in hazardous environments requiring fail-safe performance, including without limitation, in the operation of nuclear facilities, aircraft navigation or communications systems, air traffic control, weapons systems, direct life-support machines, or any other application in which the failure of the Licensed Software could lead directly to death, personal injury or sever physical or property damage (collectively, “High Risk Activities”). SCI EXPRESSLY DISCLAIMS ANY EXPRESS OR IMPLIED WARRANTY OR FITNESS FOR HIGH RISK ACTIVITIES.

6. **Reserved.**

7. **Reserved.**

8. **Indemnification.** If someone makes a claim against you that the Licensed Software provided to you by SCI under this EULA and used by you according to the documentation for the Licensed Software infringes that party's intellectual property rights, SCI will indemnify and hold you harmless against the claim provided you: (a) notify SCI promptly in writing, not later than 30 days after you receive notice of the claim;(b) provide SCI with the opportunity to intervene in any litigation, at its own expense, through counsel of its choosing SCI and (c) SCI will provide the Government with the information, assistance and authority as required to defend against or settle the claim. Nothing contained herein shall be construed in derogation of the U.S. Department of Justice's right to defend any claim or action brought against the U.S., pursuant to its jurisdictional statute 28 U.S.C. §516. If SCI believes or it is determined that the Licensed Software violated someone else's intellectual property rights, SCI may choose in its discretion to: (i) modify the Licensed Software to be non-infringing; (ii) work with the Government to obtain a license for you to allow for continued use; or (iii) terminate the license for the Licensed Software and require its return, and refund a prorated portion of any fees you may have paid for the Licensed Software. SCI has no obligation to indemnify or hold you harmless: (A) if you alter the Licensed Software or use it outside the scope of the License Configuration; (B) if you continue to use a version of the Licensed Software which has been superseded, if the infringement claim could have been avoided by using an unaltered current version of the Licensed Software which was provided to you; (C) to the extent that an infringement claim is based upon any software, design, specification, instruction, data or other material not furnished by SCI; or (D) to the extent an infringement claim is based upon the combination of the Licensed Software with any products or services not provided to you by SCI.

9. **Reserved.**

10. **Reserved.**

11. **Other.**

A. **Audit.** Upon 30 days written notice, and subject to Government security requirements, SCI may audit your use of the Licensed Software, but no more than once-during a 12-month period. During standard business hours and upon prior written notice, SCI may visit you and you shall cooperate with SCI's audit and provide reasonable assistance and access to information. SCI shall comply with all security requirements of your facility and shall not interfere with you normal business operations.

B. **U.S. Government Restricted Rights.**

All Licensed Software provided to the U.S. Government is provided only with the rights described as stated in DFAR Section 227.7202, FAR Section 12.212, FAR 52.227-14 and DFARS 252.227.7015, as applicable. Any use, modification, reproduction, release, performance, display or disclosure of the Software and accompanying Documentation by the United States Government shall be governed by the terms of this Agreement and the applicable ordering document and shall be prohibited except to the extent expressly permitted by the terms of this Agreement.

- C. Export Restrictions.** You acknowledge that the Licensed Software is subject to U.S. export jurisdiction. You shall comply with all applicable federal laws that apply to the Licensed Software, including the U.S. Export Administration Regulations, as well as end-user, end-use and destination restrictions issued by U.S. Government.
- D. Transfer Restrictions.** You shall not assign or otherwise transfer this EULA or any portion of the Licensed Software, or any copies thereof or any of your interests in any of the foregoing, without SCI's prior written consent. Assignment by SCI is subject to FAR 52.232-23 "Assignment of Claims" (Jan. 1986) and FAR subpart 42.12 "Novation and Change-of-Name Agreements" (Sep. 2013). This EULA will inure to the benefit of and be binding upon the parties, their successors, administrators, heirs and permitted assigns.

Siemens Industry, Inc.
1911 Harrison Street
Hollywood, FL 33020

**EC America Rider to Product Specific License Terms and Conditions
(for U.S. Government End Users)**

1. **Scope.** This Rider and the attached **Siemens Industry, Inc.** (“Manufacturer”) product specific license terms establish the terms and conditions enabling EC America (“Contractor”) to provide Manufacturer’s information technology products and services to Ordering Activities under EC America’s GSA MAS IT70 contract number GS-35F-0511T (the “Schedule Contract”). Installation and use of the information technology shall be in accordance with this Rider and Manufacturer Specific Terms attached hereto, unless an Ordering Activity determines that it requires different terms of use and Manufacturer agrees in writing to such terms in a valid delivery order placed pursuant to the Schedule Contract.
2. **Applicability.** Whereas GSA and EC America agreed at the time of Schedule Contract award upon a base set of terms and conditions applicable to all manufacturers and items represented on the Schedule Contract; and Whereas, the parties further agreed that all product specific license, warranty and software maintenance terms and conditions would be submitted at the time each new manufacturer was to be added to the Schedule Contract; Now, Therefore, the parties hereby agree that the product specific license, warranty and software maintenance terms set forth in Attachment A hereto (the “Manufacturer Specific Terms” or the “Attachment A Terms”) are incorporated into the Schedule Contract, but only to the extent that they are consistent with federal law (e.g., the Anti-Deficiency Act (31 U.S.C. § 1341), the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 *et seq.*), the Prompt Payment Act (31 U.S.C. §§ 3901 *et seq.*), the Anti-Assignment statutes (31 U.S.C. § 3727 and 41 U.S.C. § 15), DOJ’s jurisdictional statute 28 U.S.C. § 516 (Conduct of Litigation Reserved to the Department of Justice (DOJ)), and 28 U.S.C. § 1498 (Patent and copyright cases)). To the extent any Attachment A Terms are inconsistent with federal law (See, FAR 12.212(a)), such inconsistent terms shall be superseded, unenforceable and of no legal force or effect in all resultant orders under the Schedule Contract, including but not limited to the following provisions:
 - w) **Contracting Parties.** The GSA Customer (“Licensee”) is the “Ordering Activity”, defined as the entity authorized to order under GSA MAS contracts as set forth in GSA ORDER ADM 4800.2G (Feb 2011), as may be revised from time to time.
 - x) **Changes to Work and Delays.** Subject to GSAR Clause 552.243-72, Modifications (Federal Supply Schedule) (July 2000) (Deviation I – SEPT 2010), and 52.212-4(f) Excusable Delays (JUN 2010) regarding which the GSAR and the FAR provisions take precedence.
 - y) **Contract Formation.** Subject to FAR 1.601(a) and FAR 43.102, the GSA Customer Purchase Order must be signed by a duly warranted Contracting Officer, in writing. The same requirement applies to contract modifications affecting the rights of the parties. All terms and conditions intended to bind the Government must be included within the contract signed by the Government.
 - z) **Termination.** Clauses in the Manufacturer Specific Terms referencing termination, suspension and/ or cancellation are superseded and not applicable to any GSA Customer order. Termination shall be governed by the FAR, the underlying GSA Schedule Contract and the terms in any applicable GSA Customer Purchase Orders. If the Contractor believes the GSA Customer to be in breach, it must file a claim with the Contracting Officer and continue to diligently pursue performance. In commercial item contracting under FAR 12.302(b), the FAR provisions dealing with disputes and continued performance cannot be changed by the Contracting Officer.
 - aa) **Choice of Law.** Subject to the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 *et seq.*), the validity, interpretation and enforcement of this Rider shall be governed by and construed in accordance with the federal laws of the United States. In the event the Uniform Computer Information Transactions Act (UCITA) or any similar federal laws or regulations are enacted, to the extent allowed by federal law, they will not apply to this Rider or the underlying Schedule Contract.
 - bb) **Equitable remedies.** Equitable remedies are generally not awarded against the Government absent an express statute providing therefore. In the absence of a direct citation to such a statute, all clauses in the Manufacturer Specific Terms referencing equitable remedies are superseded and not applicable to any GSA Customer order.
 - cc) **Unilateral Termination.** Unilateral termination by the Contractor does not apply to a GSA Customer Purchase Order and all clauses in the Manufacturer Specific Terms referencing unilateral termination rights of the Manufacturer are hereby superseded.
 - dd) **Unreasonable Delay.** Subject to FAR 52.212-4(f) Excusable delays, the Contractor shall be liable for default unless the nonperformance is caused by an occurrence beyond the reasonable control of the Contractor and without its fault or negligence such as, acts of God or the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, unusually severe weather, and delays of common carriers. The Contractor shall notify the Contracting Officer in writing as soon as it is reasonably possible after commencement of any excusable delay, setting forth the full particulars in connection therewith, shall remedy such occurrence with all reasonable dispatch and shall promptly give written notice to the Contracting Officer of the cessation of such occurrence.
 - ee) **Assignment.** All clauses regarding the Contractor’s assignment are subject to FAR 52.232-23, Assignment of Claims (JAN 1986) and FAR 42.12 Novation and Change-of-Name Agreements (Sep. 2013). All clauses governing the Contractor’s assignment in the Manufacturer Specific Terms are hereby superseded.
 - ff) **Waiver of Jury Trial.** Waivers of Jury Trials are subject to FAR 52.233-1 Disputes (JULY 2002). The Government will not agree to waive any right that it may have under federal law. All clauses governing a waiver of jury trial in the Manufacturer Specific Terms are hereby superseded.

- gg) **Government Indemnities.** This is an obligation in advance of an appropriation that violates anti-deficiency laws (31 U.S.C. § 1341 and 41 U.S.C. § 6301), since the GSA Customer commits to pay an unknown amount at an unknown future time. The violation occurs when the commitment is made, i.e., when the agreement featuring this clause is incorporated into a Government contract, and not when the clause is triggered. The FAR 12.216 prohibit such indemnifications. All Manufacturer Specific Terms referencing customer indemnities are hereby superseded.
- hh) **Contractor Indemnities.** All Manufacturer Specific Terms that violate DOJ's jurisdictional statute (28 U.S.C. § 516) by requiring that the Government give sole control over the litigation and/or settlement to the Contractor are hereby superseded. Nothing contained in the Manufacturer's Specific terms shall be construed in derogation of the U.S. Department of Justice's right to defend any claim or action brought against the U.S., pursuant to its jurisdictional statute.
- ii) **Renewals.** All Manufacturer Specific Terms that provide for automatic renewals violate the Anti-Deficiency Act and are hereby superseded. This is an obligation in advance of an appropriation that violates anti-deficiency laws (31 U.S.C. § 1341 and 41 U.S.C. § 6301), since the GSA Customer commits to pay an unknown amount at an unknown future time. The violation occurs when the commitment is made, i.e., when the agreement featuring this clause is incorporated into a Government contract, and not when the clause is triggered.
- jj) **Future Fees or Penalties.** All Manufacturer Specific Terms that require the Government to pay any future fees, charges or penalties are hereby superseded unless specifically authorized by existing statutes, such as the Prompt Payment Act (31 U.S.C. § 3901 et seq.) or Equal Access To Justice Act (5 U.S.C. § 504; 28 U.S.C. § 2412).
- kk) **Taxes.** Taxes are subject to FAR 52.212-4(k), which provides that the contract price includes all applicable federal, state, local taxes and duties. Notwithstanding the foregoing, Contractor shall state separately on its invoices, taxes excluded from the fees, and the GSA Customer agrees to either pay the amount of the taxes (based on the current value of the equipment or services) to Contractor or provide it evidence necessary to sustain an exemption, in accordance with FAR 52.229-1 and FAR 52.229-3.
- ll) **Third Party Terms.** When the end user is an instrumentality of the U.S., no license terms bind the GSA Customer unless included verbatim (not by reference) in the EULA, and the EULA is made an attachment to the underlying GSA Schedule Contract. All terms and conditions affecting the GSA Customer must be contained in a writing signed by a duly warranted Contracting Officer. Any third party manufacturer shall be brought into the negotiation, or the components acquired separately under federally-compatible agreements, if any. All Manufacturer Specific Terms that incorporate third party terms by reference are hereby superseded.
- mm) **Dispute Resolution and Standing.** Any disputes relating to the Manufacturer Specific Terms or to this Rider shall be resolved in accordance with the FAR, the underlying GSA Schedule Contract, any applicable GSA Customer Purchase Orders, and the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 et seq.). The Ordering Activity expressly acknowledges that EC America as contractor, on behalf of the Manufacturer, shall have standing to bring such claim under the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 et seq.).
- nn) **Advertisements and Endorsements.** Pursuant to GSAR 552.203-71, use of the name or logo of any U.S. Government entity is prohibited. All Manufacturer Specific Terms that allow the Contractor to use the name or logo of a Government entity are hereby superseded.
- oo) **Public Access to Information.** EC America agrees that the attached Manufacturer Specific Terms and this Rider contain no confidential or proprietary information and acknowledges the Rider shall be available to the public.
- pp) **Confidentiality.** Any provisions in the attached Manufacturer Specific Terms that require the Ordering Activity to keep certain information confidential are subject to the Freedom of Information Act (5 U.S.C. § 552), and any order by a United States Federal Court. When the end user is an instrumentality of the U.S. Government, neither this Rider, the Manufacturer's Specific Terms nor the Schedule Price List shall be deemed "confidential information" notwithstanding marking to that effect. Notwithstanding anything in this Rider, the Manufacturer's Specific Terms or the Schedule Contract to the contrary, the GSA Customer may retain such Confidential Information as required by law, regulation or its bonafide document retention procedures for legal, regulatory or compliance purposes; provided however, that such retained Confidential Information will continue to be subject to the confidentiality obligations of this Rider, the Manufacturer's Specific Terms and the Schedule Contract.
- qq) **Alternate Dispute Resolution.** The GSA Customer cannot be forced to mediate or arbitrate. Arbitration requires prior guidance by the head of a federal agency promulgated via administrative rulemaking according to 5 U.S.C. § 575(c). GSA has not issued any because it considers the Board of Contract Appeals to be an adequate, binding ADR alternative. All Manufacturer Specific Terms that allow the Contractor to choose arbitration, mediation or other forms of alternate dispute resolution are hereby superseded.
- rr) **Ownership of Derivative Works.** Provisions purporting to vest exclusive ownership of all derivative works in the licensor of the standard software on which such works may be based are superseded. Ownership of derivative works should be as set forth in the copyright statute, 17 U.S.C. § 103 and the FAR clause at 52.227-14, but at a minimum, the GSA Customer shall receive unlimited rights to use such derivative works at no further cost.
- 3. Order of Precedence/Conflict.** To the extent there is a conflict between the terms of this Rider and the terms of the underlying Schedule Contract or a conflict between the terms of this Rider and the terms of an applicable GSA Customer Purchase Order, the terms of the GSA Schedule Contract or any specific, negotiated terms on the GSA Customer Purchase Order shall control over the terms of this Rider. Any capitalized terms used herein but not defined, shall have the meaning assigned to them in the underlying Schedule Contract.

**ATTACHMENT A
CONTRACTOR SUPPLEMENTAL PRICELIST INFORMATION AND TERMS**

SIEMENS INDUSTRY, INC.

SIEMENS INDUSTRY, INC. LICENSE, WARRANTY AND SUPPORT TERMS

1. Buyer's Requirements. Timely performance by Contractor through Siemens is contingent upon Ordering Activity's supplying to Siemens all required technical information and data, including drawing approvals, and all required commercial documentation.

2. Limited Warranty. (a.) Limited Product Warranty Statements. For each Product purchased from Contractor or an authorized reseller, Contractor makes the following limited warranties: (i) the Product is free from defects in material and workmanship, (ii) the Product materially conforms to Siemens' specifications that are attached to, or expressly incorporated by reference into, these terms, and (iii) at the time of delivery, Siemens has title to the Product free and clear of liens and encumbrances (collectively, the "Limited Warranties"). Warranties with respect to software which may be furnished by Contractor as part of the Product, if any, are expressly set forth elsewhere in these terms. The Limited Warranties set forth herein do not apply to any software furnished by Contractor. If software is furnished by Contractor, then the attached Software License/Warranty Addendum shall apply.

(b.) Conditions to the Limited Warranties. The Limited Warranties are conditioned on (i) Ordering Activity storing, installing, operating and maintaining the Product in accordance with Siemens' instructions, (ii) no repairs, modifications or alterations being made to the Product other than by Contractor through Siemens or its authorized representatives, (iii) using the Product within any conditions or in compliance with any parameters set forth in specifications that are attached to, or expressly incorporated by reference into, these terms, (iv) Ordering Activity discontinuing use of the Product after it has, or should have had, knowledge of any defect in the Product, (v) Ordering Activity providing prompt written notice of any warranty claims within the warranty period described below, (vi) at Contractor's discretion, Ordering Activity either removing and shipping the Product or non-conforming part thereof to Contractor through Siemens, at Ordering Activity's expense, or Ordering Activity granting Contractor through Siemens access to the Products at all reasonable times and locations to assess the warranty claims, and (vii) Ordering Activity not being in default of any payment obligation to Contractor under these terms.

(c.) Exclusions from Limited Warranty Coverage. The Limited Warranties specifically exclude any equipment comprising part of the Product that is not manufactured by Siemens or not bearing its nameplate. To the extent permitted, Contractor hereby assigns any warranties made to Siemens for such non-Siemens equipment. Contractor shall have no liability to Ordering Activity under any legal theory for such non-Siemens equipment or any related assignment of warranties. Additionally, any Product that is described as being experimental, developmental, prototype, or pilot is specifically excluded from the Limited Warranties and is provided to Ordering Activity "as is" with no warranties of any kind. Also excluded from the Limited Warranties are normal wear and tear items including any expendable items that comprise part of the Product, such as fuses and light bulbs and lamps.

(d.) Limited Warranty Period. Ordering Activity shall have 12 months from initial operation of the Product or 18 months from shipment, whichever occurs first, to provide Contractor with prompt, written notice of any claims of breach of the Limited Warranties. Continued use or possession of the Product after expiration of the warranty period shall be conclusive evidence that the Limited Warranties have been fulfilled to the full satisfaction of Ordering Activity, unless Ordering Activity has previously provided Contractor with notice of a breach of the Limited Warranties.

(e.) Remedies for Breach of Limited Warranty. Buyer's sole and exclusive remedies for any breach of the Limited Warranties are limited to Siemens' choice of repair or replacement of the Product, or non-conforming parts thereof, or refund of all or part of the purchase price. The warranty on repaired or replaced parts of the Product shall be limited to the remainder of the original warranty period. Unless otherwise agreed to in writing by Siemens, (i) Contractor shall be responsible for any labor required to gain access to the Product so that Siemens can assess the available remedies and (ii) Contractor shall be responsible for all costs of installation of repaired or replaced Products. All exchanged Products replaced under this Limited Warranty will become the property of Siemens.

(f.) Transferability. The Limited Warranties shall be transferable during the warranty period to the initial end-user of the Product. THE LIMITED WARRANTIES SET FORTH IN THIS SECTION ARE SIEMENS' SOLE AND EXCLUSIVE WARRANTIES AND ARE SUBJECT TO THE LIMITS OF LIABILITY SET FORTH IN SECTION 8 BELOW. SIEMENS MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING, WITHOUT LIMITATION, WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, COURSE OF DEALING AND USAGE OF TRADE.

3. Patent and Copyright Infringement. Siemens will, at its own expense, defend or at its option settle any suit or proceeding brought against Buyer in so far as it is based on an allegation that any Product (including parts thereof), or use thereof for its intended purpose, constitutes an infringement of any United States patent or copyright, if Siemens is promptly provided notice and given authority, information, and assistance in a timely manner for the defense of said suit or proceeding to the extent permitted by 28 U.S.C. 516. Siemens will pay the damages and costs awarded in any suit or proceeding so defended. Siemens will not be responsible for any settlement of such suit or proceeding made without its prior written consent. In case the Product, or any part thereof, as a result of any suit or proceeding so defended is held to constitute infringement or its use by Buyer is enjoined, Siemens will, at its option and its own expense, either: (a) procure for Buyer the right to continue using said Product; (b) replace it with substantially equivalent non-infringing Product; or (c) modify the Product so it becomes noninfringing.

Siemens will have no duty or obligation to Buyer under this Article to the extent that the Product is (a) supplied according to Buyer's design or instructions wherein compliance therewith has caused Siemens to deviate from its normal course of performance, (b) modified by Buyer or its contractors after delivery, (c) combined by Buyer or its contractors with devices, methods, systems or processes not furnished hereunder and by reason of said design, instruction, modification, or combination a suit is brought against Buyer. In addition, if by reason of such design, instruction, modification or combination, a suit or proceeding is brought against Siemens, Buyer shall protect Siemens in the same manner and to the same extent that Siemens has agreed to protect Buyer under the provisions of the Section above.

THIS ARTICLE IS AN EXCLUSIVE STATEMENT OF ALL THE DUTIES OF THE PARTIES RELATING TO PATENTS AND COPYRIGHTS, AND DIRECT OR CONTRIBUTORY PATENT OR COPYRIGHT AND OF ALL THE REMEDIES OF BUYER RELATING TO ANY CLAIMS, SUITS, OR PROCEEDINGS INVOLVING PATENTS AND COPYRIGHTS.

SunView Software, Inc.

Tampa, FL 33610

**EC America Rider to Product Specific License Terms and Conditions
(for U.S. Government End Users)**

1. **Scope.** This Rider and the attached **Sunview Software, Inc.** (“Manufacturer”) product specific license terms establish the terms and conditions enabling EC America (“Contractor”) to provide Manufacturer’s information technology products and services to Ordering Activities under EC America’s GSA MAS IT70 contract number GS-35F-0511T (the “Schedule Contract”). Installation and use of the information technology shall be in accordance with this Rider and Manufacturer Specific Terms attached hereto, unless an Ordering Activity determines that it requires different terms of use and Manufacturer agrees in writing to such terms in a valid delivery order placed pursuant to the Schedule Contract.

2. **Applicability.** Whereas GSA and EC America agreed at the time of Schedule Contract award upon a base set of terms and conditions applicable to all manufacturers and items represented on the Schedule Contract; and Whereas, the parties further agreed that all product specific license, warranty and software maintenance terms and conditions would be submitted at the time each new manufacturer was to be added to the Schedule Contract; Now, Therefore, the parties hereby agree that the product specific license, warranty and software maintenance terms set forth in Attachment A hereto (the “Manufacturer Specific Terms” or the “Attachment A Terms”) are incorporated into the Schedule Contract, but only to the extent that they are consistent with federal law (e.g., the Anti-Deficiency Act (31 U.S.C. § 1341), the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 *et seq.*), the Prompt Payment Act (31 U.S.C. §§ 3901 *et seq.*), the Anti-Assignment statutes (31 U.S.C. § 3727 and 41 U.S.C. § 15), DOJ’s jurisdictional statute 28 U.S.C. § 516 (Conduct of Litigation Reserved to the Department of Justice (DOJ), and 28 U.S.C. § 1498 (Patent and copyright cases)). To the extent any Attachment A Terms are inconsistent with federal law (See, FAR 12.212(a)), such inconsistent terms shall be superseded, unenforceable and of no legal force or effect in all resultant orders under the Schedule Contract, including but not limited to the following provisions:
 - a) **Contracting Parties.** The GSA Customer (“Licensee”) is the “Ordering Activity”, defined as the entity authorized to order under GSA MAS contracts as set forth in GSA ORDER ADM 4800.2G (Feb 2011), as may be revised from time to time.
 - b) **Changes to Work and Delays.** Subject to GSAR Clause 552.243-72, Modifications (Federal Supply Schedule) (July 2000) (Deviation I – SEPT 2010), and 52.212-4(f) Excusable Delays (JUN 2010) regarding which the GSAR and the FAR provisions take precedence.
 - c) **Contract Formation.** Subject to FAR 1.601(a) and FAR 43.102, the GSA Customer Purchase Order must be signed by a duly warranted Contracting Officer, in writing. The same requirement applies to contract modifications affecting the rights of the parties. All terms and conditions intended to bind the Government must be included within the contract signed by the Government.
 - d) **Termination.** Clauses in the Manufacturer Specific Terms referencing termination, suspension and/ or cancellation are superseded and not applicable to any GSA Customer order. Termination shall be governed by the FAR, the underlying GSA Schedule Contract and the terms in any applicable GSA Customer Purchase Orders. If the Contractor believes the GSA Customer to be in breach, it must file a claim with the Contracting Officer and continue to diligently pursue performance. In commercial item contracting under FAR 12.302(b), the FAR provisions dealing with disputes and continued performance cannot be changed by the Contracting Officer.
 - e) **Choice of Law.** Subject to the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 *et seq.*), the validity, interpretation and enforcement of this Rider shall be governed by and construed in accordance with the federal laws of the United States. In the event the Uniform Computer Information Transactions Act (UCITA) or any similar federal laws or regulations are enacted, to the extent allowed by federal law, they will not apply to this Rider or the underlying Schedule Contract.
 - f) **Equitable remedies.** Equitable remedies are generally not awarded against the Government absent an express statute providing therefore. In the absence of a direct citation to such a statute, all clauses in the Manufacturer Specific Terms referencing equitable remedies are superseded and not applicable to any GSA Customer order.
 - g) **Unilateral Termination.** Unilateral termination by the Contractor does not apply to a GSA Customer Purchase Order and all clauses in the Manufacturer Specific Terms referencing unilateral termination rights of the Manufacturer are hereby superseded.
 - h) **Unreasonable Delay.** Subject to FAR 52.212-4(f) Excusable delays, the Contractor shall be liable for default unless the nonperformance is caused by an occurrence beyond the reasonable control of the Contractor and without its fault or negligence such as, acts of God or the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, unusually severe weather, and delays of common carriers. The Contractor shall notify the Contracting Officer in writing as soon as it is reasonably possible after commencement of any excusable delay, setting forth the full particulars in connection therewith, shall remedy such occurrence with all reasonable dispatch and shall promptly give written notice to the Contracting Officer of the cessation of such occurrence.
 - i) **Assignment.** All clauses regarding the Contractor’s assignment are subject to FAR 52.232-23, Assignment of Claims (JAN 1986) and FAR 42.12 Novation and Change-of-Name Agreements (Sep. 2013). All clauses governing the Contractor’s assignment in the Manufacturer Specific Terms are hereby superseded.

- j) **Waiver of Jury Trial.** Waivers of Jury Trials are subject to FAR 52.233-1 Disputes (JULY 2002). The Government will not agree to waive any right that it may have under federal law. All clauses governing a waiver of jury trial in the Manufacturer Specific Terms are hereby superseded.
- k) **Government Indemnities.** This is an obligation in advance of an appropriation that violates anti-deficiency laws (31 U.S.C. § 1341 and 41 U.S.C. § 6301), since the GSA Customer commits to pay an unknown amount at an unknown future time. The violation occurs when the commitment is made, i.e., when the agreement featuring this clause is incorporated into a Government contract, and not when the clause is triggered. The FAR 12.216 prohibit such indemnifications. All Manufacturer Specific Terms referencing customer indemnities are hereby superseded.
- l) **Contractor Indemnities.** All Manufacturer Specific Terms that violate DOJ's jurisdictional statute (28 U.S.C. § 516) by requiring that the Government give sole control over the litigation and/or settlement to the Contractor are hereby superseded. Nothing contained in the Manufacturer's Specific terms shall be construed in derogation of the U.S. Department of Justice's right to defend any claim or action brought against the U.S., pursuant to its jurisdictional statute.
- m) **Renewals.** All Manufacturer Specific Terms that provide for automatic renewals violate the Anti-Deficiency Act and are hereby superseded. This is an obligation in advance of an appropriation that violates anti-deficiency laws (31 U.S.C. § 1341 and 41 U.S.C. § 6301), since the GSA Customer commits to pay an unknown amount at an unknown future time. The violation occurs when the commitment is made, i.e., when the agreement featuring this clause is incorporated into a Government contract, and not when the clause is triggered.
- n) **Future Fees or Penalties.** All Manufacturer Specific Terms that require the Government to pay any future fees, charges or penalties are hereby superseded unless specifically authorized by existing statutes, such as the Prompt Payment Act (31 U.S.C. § 3901 *et seq.*) or Equal Access To Justice Act (5 U.S.C. § 504; 28 U.S.C. § 2412).
- o) **Taxes.** Taxes are subject to FAR 52.212-4(k), which provides that the contract price includes all applicable federal, state, local taxes and duties. Notwithstanding the foregoing, Contractor shall state separately on its invoices, taxes excluded from the fees, and the GSA Customer agrees to either pay the amount of the taxes (based on the current value of the equipment or services) to Contractor or provide it evidence necessary to sustain an exemption, in accordance with FAR 52.229-1 and FAR 52.229-3.
- p) **Third Party Terms.** When the end user is an instrumentality of the U.S., no license terms bind the GSA Customer unless included verbatim (not by reference) in the EULA, and the EULA is made an attachment to the underlying GSA Schedule Contract. All terms and conditions affecting the GSA Customer must be contained in a writing signed by a duly warranted Contracting Officer. Any third party manufacturer shall be brought into the negotiation, or the components acquired separately under federally-compatible agreements, if any. All Manufacturer Specific Terms that incorporate third party terms by reference are hereby superseded.
- q) **Dispute Resolution and Standing.** Any disputes relating to the Manufacturer Specific Terms or to this Rider shall be resolved in accordance with the FAR, the underlying GSA Schedule Contract, any applicable GSA Customer Purchase Orders, and the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 *et seq.*). The Ordering Activity expressly acknowledges that EC America as contractor, on behalf of the Manufacturer, shall have standing to bring such claim under the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 *et seq.*).
- r) **Advertisements and Endorsements.** Pursuant to GSAR 552.203-71, use of the name or logo of any U.S. Government entity is prohibited. All Manufacturer Specific Terms that allow the Contractor to use the name or logo of a Government entity are hereby superseded.
- s) **Public Access to Information.** EC America agrees that the attached Manufacturer Specific Terms and this Rider contain no confidential or proprietary information and acknowledges the Rider shall be available to the public.
- t) **Confidentiality.** Any provisions in the attached Manufacturer Specific Terms that require the Ordering Activity to keep certain information confidential are subject to the Freedom of Information Act (5 U.S.C. § 552), and any order by a United States Federal Court. When the end user is an instrumentality of the U.S. Government, neither this Rider, the Manufacturer's Specific Terms nor the Schedule Price List shall be deemed "confidential information" notwithstanding marking to that effect. Notwithstanding anything in this Rider, the Manufacturer's Specific Terms or the Schedule Contract to the contrary, the GSA Customer may retain such Confidential Information as required by law, regulation or its bonafide document retention procedures for legal, regulatory or compliance purposes; provided however, that such retained Confidential Information will continue to be subject to the confidentiality obligations of this Rider, the Manufacturer's Specific Terms and the Schedule Contract.
- u) **Alternate Dispute Resolution.** The GSA Customer cannot be forced to mediate or arbitrate. Arbitration requires prior guidance by the head of a federal agency promulgated via administrative rulemaking according to 5 U.S.C. § 575(c). GSA has not issued any because it considers the Board of Contract Appeals to be an adequate, binding ADR alternative. All Manufacturer Specific Terms that allow the Contractor to choose arbitration, mediation or other forms of alternate dispute resolution are hereby superseded.
- v) **Ownership of Derivative Works.** Provisions purporting to vest exclusive ownership of all derivative works in the licensor of the standard software on which such works may be based are superseded. Ownership of derivative works should be as set forth in the copyright statute, 17 U.S.C. § 103 and the FAR clause at 52.227-14, but at a minimum, the GSA Customer shall receive unlimited rights to use such derivative works at no further cost.

3. Order of Precedence/Conflict. To the extent there is a conflict between the terms of this Rider and the terms of the underlying Schedule Contract or a conflict between the terms of this Rider and the terms of an applicable GSA Customer Purchase Order, the terms of the GSA Schedule Contract or any specific, negotiated terms on the GSA Customer Purchase Order shall control over the terms of this Rider. Any capitalized terms used herein but not defined, shall have the meaning assigned to them in the underlying Schedule Contract.

CONTRACTOR SUPPLEMENTAL PRICELIST INFORMATION AND TERMS**

SunView Software, Inc.

SunView Software, Inc. LICENSE, WARRANTY AND SUPPORT TERMS

Section 1 - Definitions:

The following definitions apply throughout this Agreement: "Software" means SunView Software ChangeGear Software Enterprise Versions, the computer software and all associated printed materials, which may include "online" or electronic documentation; "Use" means storing, loading, installing, executing or displaying the Software; "Computer" means a central processing unit ("CPU") or group of CPU's that accesses its or their own individual non-cache Random Access Memory; "Server" means a Computer that permits Concurrent Use by multiple users; "Client" means a Computer used to access a Server; "Concurrent Use" means access, directly or indirectly, by a licensed user of the Software executing on a Server; "Professional Services" means training, implementation, installation, on-site assistance, customization and configuration of the Software.

Section 2 - License Grant - Usage in General:

Ordering Activity may Use the Software pursuant to the terms of the particular license(s) Ordering Activity have acquired as specified in an applicable order.

SunView Software grants to Ordering Activity, and Ordering Activity accepts, the non-exclusive, nontransferable limited right to Use the Software in object code form only, and only on a single Computer.

SunView Software may grant Ordering Activity either a Named User License or a Concurrent User License, subject to the terms below.

- (a) **Named User License:** If SunView Software grants Ordering Activity a "Named User License," the Software may only be used by the individual designated by the administrator as the "Named User" for that copy of the Software. The Named User may Use that particular copy of the Software on any Computer.
- (b) **Concurrent User License:** If SunView Software grants Ordering Activity a "Concurrent User License," Ordering Activity is only authorized to permit the Concurrent Use of the Software installed on a Server by the number of Clients for which Ordering Activity has purchased Concurrent Use Licenses. The Software may contain codes that enforce Concurrent Use restrictions. Ordering Activity may only Use the Software installed on the Server if the Use of the Software on such Server is properly licensed and complies with the conditions and restrictions (including any Concurrent Use restrictions) of such Server license.

Section 3 - License Rights and Restrictions:

- (a) **Ownership:** Ordering Activity acknowledges and agrees that the Software is owned and copyrighted by SunView Software or its third party suppliers and/or licensors. Ordering Activity license confers no title or ownership in the Software and is not a sale of any rights in the Software. All ownership rights remain in SunView Software or its third party suppliers and/or licensors, as the case may be. SunView Software and ChangeGear are trademarks or service marks or registered trademarks of SunView Software in the United States of America and/or in other countries. All other marks in the Software are the marks of their respective owners.
- (b) **Copies:** Ordering Activity may only make one (1) copy of the object code of the Software, which Ordering Activity may Use, subject to the terms of this Agreement, solely for (i) backup or archival purposes and (ii) development and testing purposes, or when copying is an essential step in the authorized Use of the Software. Ordering Activity must reproduce all copyright and other proprietary or restricted rights notices in the original Software on the authorized copy. Ordering Activity may not copy any of the books or printed materials provided in connection with the Software.
- (c) **Additional Restrictions:** The Software contains SunView Software trade secrets, which Ordering Activity may not disclose. Ordering Activity may also not decompile, reverse engineer, disassemble, copy, modify, translate, or adapt the Software, or create derivative works based on the Software, or otherwise reduce the Software to human-perceivable form except to the extent that such rights cannot be excluded by mandatory applicable law. Ordering Activity may not disable any licensing, anti-piracy or other control features of the Software. Except to the extent expressly permitted herein, Ordering Activity may not: permit other individuals to Use the Software; rent, resell for profit, distribute, sublicense, lease, grant a security interest in, or otherwise transfer or assign any rights to the Software; or remove any proprietary notices or labels on the Software. Ordering Activity may not combine or integrate the Software with or into any other software programs or services. Ordering Activity may not use the Software to create competitive products or applications or to create software or products using similar features, functions or graphics of the Software. Ordering Activity may not disclose to third parties any benchmark tests or other evaluations of the Software. Ordering Activity have no rights to the Software except as explicitly granted to Ordering Activity by SunView Software in this Agreement.
- (d) **Upgrades:** If the Software Ordering Activity purchased is an upgrade of a SunView Software product, Ordering Activity may Use that upgraded product only in accordance with this Agreement. If the Software is an upgrade of a component of a package of software

programs that Ordering Activity licensed as a single product, the Software may be Used and transferred only as part of that single product package and may not be separated for Use on more than one Computer. Ordering Activity may not loan, rent, lease, or otherwise transfer the original non-upgraded product to another user.

(e) Content: Any non-SunView Software materials ("Third-Party Content") Ordering Activity access via the Software (on-line or otherwise) is the property of the applicable owner and may be protected by applicable copyright law. This Agreement grants Ordering Activity no rights to Third-Party Content.

Section 4 – Reserved.

Section 5 - Remedies & Limitations of Liability:

(a) Limited Warranty:

SunView Software represents and warrants that, when delivered and for a period of sixty (60) days thereafter (the "Warranty Period"), the Software (i) will materially conform to SunView Software's current documentation; (ii) will be of merchantable quality; and (iii) will be fit for the particular purpose (if any) described in this Agreement. The preceding warranty will only apply to problems reported to SunView Software during the Warranty Period and will not apply: (i) where the Software is not used in accordance with the documentation; (ii) if the Software or any part thereof has been altered or modified without the prior written consent of SunView Software; or (iii) where a defect in the Software has been caused by any of Ordering Activity's malfunctioning equipment. For any breach of this warranty, Ordering Activity's entire remedy and SunView Software's entire liability shall be limited to repair or replacement of the Software or, if such repair or replacement is inadequate as a remedy or, in SunView Software's opinion, not commercially reasonable, to a refund of the license fees paid for the Software.

THIS SECTION 5(a) SETS FORTH SUNVIEW SOFTWARE'S ENTIRE LIABILITY AND ORDERING ACTIVITY'S EXCLUSIVE REMEDIES IN RELATION TO SOFTWARE DEFECTS OR ORDERING ACTIVITY'S DISSATISFACTION WITH THE SOFTWARE.

(b) Disclaimers:

(i) EXCEPT AS EXPRESSLY PROVIDED IN THIS AGREEMENT AND TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAWS, SUNVIEW SOFTWARE, FOR ITSELF AND ITS SUPPLIERS, DISCLAIMS ALL WARRANTIES OR CONDITIONS, EXPRESS OR IMPLIED, REGARDING THE SOFTWARE, RELATED DOCUMENTATION AND OTHER MATERIALS AND PROFESSIONAL SERVICES, INCLUDING BUT NOT LIMITED TO WARRANTIES OR CONDITIONS OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. IN PARTICULAR, SUNVIEW SOFTWARE DOES NOT WARRANT THAT THE SOFTWARE SHALL PERFORM WITHOUT INTERRUPTION OR BE ERROR FREE, OR THAT IT IS FREE FROM BUGS, VIRUSES, ERRORS, OR OTHER PROGRAM LIMITATIONS. ORDERING ACTIVITY ACKNOWLEDGE THAT THE SOFTWARE IS PROVIDED "AS IS" AND ORDERING ACTIVITY ACCEPT THE ENTIRE RISK AS TO THE SOFTWARE'S QUALITY AND PERFORMANCE.

(ii) TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAWS, NO ORAL OR WRITTEN INFORMATION OR ADVICE GIVEN BY SUNVIEW SOFTWARE AND ITS LICENSORS, THEIR RESPECTIVE EMPLOYEES, DISTRIBUTORS, DEALERS OR AGENTS SHALL INCREASE THE SCOPE OF THE ABOVE REPRESENTATIONS, WARRANTIES, TERMS OR CONDITIONS IN CONNECTION WITH THE SOFTWARE OR ANY SERVICE RELATED THERETO.

(iii) SOME JURISDICTIONS MAY NOT ALLOW THE EXCLUSION OF IMPLIED REPRESENTATIONS, WARRANTIES, AND/OR TERMS OR CONDITIONS, SO THE ABOVE EXCLUSIONS MAY NOT APPLY TO ORDERING ACTIVITY. IN THAT EVENT, TO THE EXTENT ORDERING ACTIVITY'S JURISDICTION PERMITS SUCH LIMITATIONS, ANY IMPLIED REPRESENTATIONS, WARRANTIES, AND/OR TERMS OR CONDITIONS ARE LIMITED IN DURATION TO SIXTY (60) DAYS FROM THE DATE ORDERING ACTIVITY PURCHASED OR SUBSCRIBED TO THE SOFTWARE OR TO THE SHORTEST PERIOD PERMITTED BY APPLICABLE LAW, IF LONGER. THIS WARRANTY GIVES ORDERING ACTIVITY SPECIFIC LEGAL RIGHTS, AND ORDERING ACTIVITY MAY HAVE OTHER RIGHTS AS WELL, WHICH MAY VARY ACCORDING TO JURISDICTION.

Section 6 - Export Controls:

None of the Software or underlying information or technology may be downloaded or otherwise exported or re-exported (i) into (or to a national or resident of) any country to which the United States of America has embargoed goods; and/or (ii) to anyone on the United States of America's Treasury Department's list of Specially Designated Nationals or the United States of America's Commerce Department's Table of Denial Orders and/or (iii) otherwise in breach of United States laws and regulations related to exports and to all administrative acts of the US Government pursuant to such laws and regulations. By downloading and/or installing and/or Using the Software, Ordering Activity agrees to the foregoing and represent and warrant that Ordering Activity are not located in, under the control of, or a national or resident of any country or on a list in breach of this Section 6. In addition, Ordering Activity are responsible for complying with any local laws in Ordering Activity's jurisdiction which may impact Ordering Activity's right to import, export or Use the Software, and Ordering Activity represent that Ordering Activity have complied with any regulations or registration procedures required by applicable law to make this license enforceable.

Section 7 - U.S. Government End Users:

The Software is a "commercial item," as that term is defined in 48 C.F.R. 12.101 (Oct. 1995), consisting of "commercial computer software" and "commercial computer software documentation," as such terms are used in 48 C.F.R. 12.212 (Sept. 1995) and the Department of Defense Federal Acquisition Regulations Sections

252.227-7014(a)(1), (5). Consistent with 48 C.F.R. 12.212 and 48 C.F.R. 227.7202-1 through 227.7202-4 (June 1995), all U.S. Government End Users acquire the Software with only those rights set forth herein. The manufacturer is SunView Software Inc., 10210 Highland Manor Drive Suite 275, Tampa, FL 33610.

Section 8 – Reserved.

Section 9 - Technical Support:

SunView Software shall provide Software support and maintenance to Ordering Activity in accordance with Exhibit A attached hereto, subject to the terms below. Software support and maintenance is offered on no less than an annual basis.

Section 10 – Professional Services:

SunView Software shall perform any Professional Services as set forth in an applicable order in a professional manner in accordance with industry standards. Professional Services will be conducted at SunView Software's facility and/or at Ordering Activity's location.

Exhibit A: Support and Maintenance

SunView Software shall provide the Software support and maintenance described in this Exhibit A in order to ensure that the Software remains in good working order and operates in accordance with its documentation and specifications.

SunView Software shall advise Ordering Activity on the use of the Software and shall assist Ordering Activity in identifying and solving any problems encountered in such use and reported by Ordering Activity by rendering the following support and maintenance:

- (i) Corrective maintenance. Corrective maintenance includes diagnosis and correction by SunView Software of actual errors or defects in the program codes of the Software and in the documentation. An error or defect is the failure of the Software to operate materially in accordance with the documentation and its specifications.
- (ii) Perfective maintenance. Perfective maintenance includes the modification of the Software in order to improve and extend its functionality.
- (iii) Releases. All permanent solutions developed for problems encountered in the Use of the Software, all corrections of errors and defects in the Software and all enhancements, improvements and modifications of the Software referred to hereinabove shall be incorporated by SunView Software as soon as reasonably possible in a release, a copy of which shall be provided to Ordering Activity as soon as it is ready for release together with the updated documentation.

A release of any particular item of the Software shall be based on the previously offered version and shall have equivalent or enhanced functionality with such corrections and amendments as SunView Software reasonably decides to include.

Ordering Activity are free to adopt a new release or to continue to Use the current release.

Following the resolution of any problems that have a material or adverse effect on Ordering Activity's use of the Software, SunView Software shall provide to Ordering Activity a report describing the apparent cause, the response time and repair time.

SyferLock Technology Corporation
917 Bridgeport Avenue
Shelton, CT 06484

EC America Rider to Product Specific License Terms and Conditions

All references to Syferlock in these Terms and Conditions should be read as "Contractor (immixTechnology, Inc.), acting by and through its supplier, Syferlock."

Section - TERMS AND CONDITIONS FOR SYFERLOCK PRODUCTS AND SERVICES

1. Definitions

Defined terms are capitalized and have the meanings indicated in Definitions section below

2. Right to Use Software

SyferLock hereby grants to Customer a non-exclusive, royalty-free, non-assignable license to use the Software, subject to the terms and conditions set forth herein and in the applicable Attachment(s). SyferLock hereby grants to Customer a nonexclusive, royalty-free, non-assignable license to use, subject to the terms and conditions set forth herein, SyferLock's trademarks and trade names set forth on Attachment H hereof ("SyferLock Marks") solely for the purpose of using the Software in accordance with this Agreement. Customer shall comply with SyferLock's trademark guidelines as provided from time to time by SyferLock. Customer agrees to use no other trademarks or trade names in connection with the Software, except for the use, in addition to the SyferLock Marks, of its own trademark as approved in writing by SyferLock. To the extent that SyferLock will authorize any use of a composite trademark comprised out of SyferLock Mark(s) and other trademarks or expressions, such composite trademark shall only be used for the purpose of using the Software in accordance with this Agreement and upon termination of the right to use the Software any use of such composite trademark shall immediately cease and be prohibited. Any use of Customer's trademarks with the SyferLock Marks must maintain the distinctness of each trademark. Subject to the foregoing, the SyferLock Marks are the only trademarks and trade names that Customer is authorized by SyferLock to employ in connection with the Software and Customer agrees that it has no rights therein other than those specifically granted herein. All benefit and goodwill arising from Customer's use of the SyferLock Marks shall inure to the benefit of SyferLock. The license set forth in this Section 2 is not sub-licensable.

3. Restrictions on Use of Software

Customer's use of the Software is subject to the following restrictions. Except as expressly permitted in this Agreement, Customer shall not, and shall not permit others to, (a) use, modify, copy (except for one back-up copy containing SyferLock's copyright notices and other SyferLock Marks), or otherwise reproduce the Software in whole or in part; (b) reverse engineer, decompile, disassemble, or otherwise attempt to derive the source code form or structure of the Software; (c) distribute, sublicense, assign, share, timeshare, sell, rent, lease, grant a security interest in, use for Service Bureau purposes, or otherwise transfer the Software or Customer's right to use the Software; or (d) remove any copyright, trademark, proprietary rights, disclaimer, warning notice or other SyferLock Marks included on or embedded in any part of the Software, (e) install, reconfigure or uninstall any Software on any CPU or Server other than by its IT personnel who have been pre-approved in writing by SyferLock (such that no end-user of the Software installed on a mobile or stationary device used by such user, such as a PDA, lap top computer, tablet computer, Server or desktop computer, will be permitted or able to carry out such installation, reconfiguration or un-installation), (f) reserved, or (g) distribute copies of the Software, or electronically transfer the Software from one CPU or Server to another or over a network. All rights not expressly granted to Customer are reserved by SyferLock. There are no implied rights. Customer shall install the Software only on Enterprise Servers and/or CPUs, as the case may be, located in the country specified on the Cover page.

4. Third Parties

Customer's use and disclosure of the Software is restricted solely to its employees, professional advisors who acknowledge the confidential nature of the Software and agents and independent contractors who agree in writing to be bound by the

Confidentiality Provisions set forth in this Agreement. Customer agrees that it is fully responsible for the actions of each of its employees, professional advisors, agents and independent contractors with respect to the proper use and protection of the Software, whether or not such individual is or was acting within the scope of his or her employment or authority. The rights granted to Customer herein expressly exclude the right (i) to provide training to third parties in the use of the Software unless pre-approved in writing by SyferLock, (ii) to enter into time-sharing arrangements for use of the Software with third parties, (iii) to rent the Software to third parties, or (iv) to distribute or sublicense the Software to third parties. Customer shall not use the Software in any manner other than as expressly provided for in this Agreement.

5. Reserved.

a)

6. Effect of Termination or Expiration

a) Reserved.

b) Reserved.

c) Each party shall immediately cease using and return all property in its possession belonging to the other party, including without limitation all Software, Documentation, and tangible embodiments of Confidential Information.

d) Customer shall not, in advertising or otherwise, use or display any of SyferLock Marks or any name, mark, or logo that is the same as or similar to SyferLock Marks, represent itself to be a licensee of SyferLock, or in any way identify itself with SyferLock or contains any portion of a SyferLock Mark.

e) Reserved.

f) Sections 5, 6, 7(a), 7(b), 7(e), 8, 10-14, and 15 hereof, will survive termination or expiration of this Agreement. g) Reserved.

7. Inspection/Acceptance

The Contractor (immixTechnology, Inc.) can only, and shall only tender for acceptance those items that substantially conform to the software manufacturer's ("SYFERLOCK") published specifications. Therefore, items delivered shall be considered accepted upon delivery. The Government reserves the right to inspect or test any supplies or services that have been delivered. The Government may require repair or replacement of nonconforming supplies or re-performance of nonconforming services at no increase in contract price. If repair/replacement or re-performance will not correct the defects or is not possible, the Government may seek an equitable price reduction or adequate consideration for acceptance of nonconforming supplies or services. The Government must exercise its post-acceptance rights- (1) Within the warranty period; and (2) Before any substantial change occurs in the condition of the item, unless the change is due to the defect in the item.

8. Proprietary Rights

As between SyferLock and Customer, SyferLock shall have sole and exclusive ownership of all right, title, and interest in and to the Software and Documentation, including all associated intellectual property rights therein and thereto and in and to any other deliverable made available by SyferLock to Customer in connection with this Agreement. Customer acknowledges that, as between SyferLock and Customer, the Software, including associated screen displays and menu features, the SyferLock Marks and Documentation constitutes the valuable trade secrets of SyferLock and are copyrighted works owned by SyferLock and protected by federal and international copyright laws. Customer shall not permit any personnel to remove any SyferLock Marks or any other proprietary or other legends or restrictive notices contained or included in any materials provided by SyferLock. In partial consideration of SyferLock granting Customer the rights set forth in this Agreement, Customer agrees that all intellectual property rights and all other ownership in any ideas, feedbacks, modifications, enhancements, improvements, inventions, works of authorship or any suggestion Customer or any of Customer personnel or third party proposes, creates, authors or develops relating to the Software, Documentation, SyferLock Marks or any other deliverable made available by SyferLock in connection with this Agreement or any portion of any of the foregoing (collectively, the "Suggestions") are hereby assigned to SyferLock, shall be the sole and exclusive property of SyferLock and shall be considered SyferLock Confidential Information for all purposes hereof. At SyferLock's expense, Customer agrees to take any action (and to cause its personnel to take any action) SyferLock requests to perfect SyferLock's ownership in the Software and/or any Suggestion.

9. Software Maintenance and Support Services; Other Services

Customer may purchase Maintenance and Support Services, and installation, training, and development and/or consulting services together with the license of any Software. SyferLock shall provide the Standard Maintenance and Support Services described on Attachment E during the Warranty Period at no charge and thereafter during each maintenance term for the fees set forth on the Cover Page. If selected by Customer on the Cover Page, all such services will be provided by SyferLock in accordance with the terms set forth hereunder and applicable Statement(s) of Work. Customer will be entitled to receive Updates only if Customer is a paid-up Maintenance and Support Services customer at the time an Update is commercially released. Customer shall have the option to purchase Upgrades in accordance with SyferLock's pricing structure in effect at the time an Upgrade is commercially released.

10. SyferLock's Duty of Indemnification

To the extent permitted by federal law, SyferLock, at its expense, shall defend any action, suit or proceeding brought against Customer which alleges that any Software infringes any United States copyright and SyferLock shall pay damages finally awarded against Customer (including attorneys' reasonable fees), provided that (a) Customer notifies SyferLock promptly in writing of the claim, (b) SyferLock has sole control of the defense and all related settlement negotiations, and (c) Customer provides SyferLock with all requested assistance, information and authority to perform the above at SyferLock's expense. In the event that Customer's use of the Software is enjoined by a court of competent authority, SyferLock shall, at its sole option and at its expense, either: (i) procure for Customer the right to use the Software or (ii) modify the Software to avoid infringement without material impairment of its functionality or (iii) if neither of the foregoing remedies can be obtained upon terms commercially reasonable in the judgment of SyferLock, require Customer to remove and return to SyferLock the Software involved and, if Perpetual Term is selected on the Cover Page, refund Customer a portion of the price thereof as depreciated over a three (3) year life of the Software commencing on the date of delivery. The foregoing indemnity shall not apply if the alleged infringement is attributable to (i) any adjustment, enhancement, revision, development or addition to the Software based on Customer provided guidelines, requests and/or specifications, (ii) the combination of the Software and products and/or other materials not provided by SyferLock under this Agreement, (iii) if the Software is modified or altered by any person or entity other than SyferLock, (iv) if the Software is used in any way other than as set forth in the Documentation, or (v) if the Software is otherwise used outside the scope of this Agreement. THIS SECTION STATES SYFERLOCK'S SOLE LIABILITY HEREUNDER WITH RESPECT TO INFRINGEMENT OF ANY INTELLECTUAL PROPERTY AND PROPRIETARY RIGHTS.

11. Reserved

12. Limited Warranty

- a) SyferLock warrants that for a period of thirty (30) days following initial delivery of the Software to Customer ("Warranty Period"), SyferLock will use commercially reasonable efforts to resolve programming errors in the Software or Documentation to make the Software function in material conformity with the Documentation, provided that SyferLock receives a written claim from Customer under this limited warranty within the Warranty Period. This

Warranty does not apply if Customer or any third party changes or modifies the Software without the authorization of SyferLock. SyferLock does not warrant that the Software will be error free or that all errors can be remedied.

SyferLock warrants that the services provided by SyferLock in connection with this Agreement will be rendered by qualified personnel and consistent with commercial practices standard in the industry. The foregoing shall be SyferLock's entire liability and Customer's sole and exclusive remedy under this warranty.

- b) THE EXPRESS WARRANTIES GRANTED UNDER THIS AGREEMENT ARE THE ONLY WARRANTIES MADE BY SYFERLOCK WITH RESPECT TO THE SOFTWARE, DOCUMENTATION, ANY SERVICES PROVIDED HEREUNDER OR ANY DELIVERABLE MADE AVAILABLE HEREUNDER, EXPRESS OR IMPLIED, AND THEY ARE MADE IN LIEU OF ALL OTHER WARRANTIES OR REMEDIES. SYFERLOCK HEREBY EXPRESSLY DISCLAIMS ALL IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, NON-INFRINGEMENT, AND WARRANTIES ARISING BY STATUTE OR OTHERWISE IN LAW OR

FROM A COURSE OF DEALING OR USE OF TRADE, AS TO ANY MATTER, INCLUDING BUT NOT LIMITED TO, FEATURES OR CAPABILITIES OF THE SOFTWARE, SYFERLOCK'S COMPUTERS AND SERVERS, INFORMATION, REPORTS OR OTHER MATTERS PRODUCED OR PROVIDED IN CONNECTION WITH THIS AGREEMENT, EXCEPT AS REQUIRED BY THE LOCAL LAW OF CUSTOMER. IN ADDITION TO AND WITHOUT LIMITATION OF THE FOREGOING, SYFERLOCK SPECIFICALLY DOES NOT WARRANT, GUARANTEE, OR MAKE ANY REPRESENTATIONS REGARDING THE USE, OR THE RESULTS OF THE USE, OF ANY SOFTWARE OR FEATURE OR CAPABILITY OF THE SOFTWARE, IN TERMS OF CORRECTNESS, ACCURACY, RELIABILITY, CURRENTNESS, SECURITY, OR OTHERWISE. SYFERLOCK EXPRESSLY DISCLAIMS ANY WARRANTY WITH RESPECT TO THE QUALITY OR CONTINUITY OF CUSTOMER OR ANY THIRD-PARTY TELECOMMUNICATION OR INFORMATION SYSTEMS OR SERVICES, SERVER CONNECTION SPEEDS, OR THE FUNCTIONALITY, OPERABILITY, OR RELIABILITY OF SYFERLOCK'S OR ANY THIRD PARTY'S DATA SECURITY FEATURES OR SYSTEMS. THIS DISCLAIMER OF WARRANTY CONSTITUTES AN ESSENTIAL PART OF THIS AGREEMENT.

13. Limitation of Liability

CUSTOMER'S SOLE REMEDY AND SYFERLOCK'S SOLE OBLIGATION WITH RESPECT TO ANY CLAIMS, WHETHER IN CONTRACT, TORT (INCLUDING NEGLIGENCE AND PRODUCT LIABILITY) OR OTHERWISE, ARISING OUT OF, CONNECTED WITH, OR RESULTING FROM THIS AGREEMENT SHALL BE GOVERNED BY THIS AGREEMENT, AND IN ALL CASES CUSTOMER'S REMEDY SHALL BE LIMITED TO THE LESSER OF (A) THE ACTUAL MONEY DAMAGES, OR (B) AN AMOUNT NOT EXCEEDING THE SOFTWARE LICENSE FEES PAID TO SYFERLOCK BY CUSTOMER DURING THE 12-MONTH PERIOD IMMEDIATELY PRECEDING THE EVENT GIVING RISE TO SUCH DAMAGES. WITHOUT LIMITING THE FOREGOING, IT IS EXPRESSLY AGREED THAT IN NO EVENT SHALL SYFERLOCK OR ITS SUPPLIERS OR ANYONE ELSE WHO HAS BEEN INVOLVED IN THE PERFORMANCE OF THIS AGREEMENT ON BEHALF OF SYFERLOCK, INCLUDING ITS EMPLOYEES, AGENTS, PARTNERS, REPRESENTATIVES, OR SUBCONTRACTORS, BE LIABLE FOR ANY (A) DAMAGES CAUSED BY CUSTOMER'S FAILURE TO PERFORM ITS OBLIGATIONS UNDER THIS AGREEMENT, (B) INDIRECT, INCIDENTAL, SPECIAL, RELIANCE, INCIDENTAL, EXEMPLARY, COVER OR CONSEQUENTIAL DAMAGES, INCLUDING BUT NOT LIMITED TO LOST PROFITS OR REVENUE, LOST BUSINESS OPPORTUNITIES, LOST SAVINGS, LOST DATA, LOSSES CAUSED BY DELAY OR THE DOWNTIME OF SYFERLOCK COMPUTERS OR SERVERS, OR LOSSES FROM INTERRUPTION, TERMINATION, OR FAILED OPERATION OF THE INTERNET OR THIRD-PARTY TELECOMMUNICATION SERVICES, EVEN IF SYFERLOCK HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES, (C) CLAIMS AGAINST CUSTOMER BY ANY THIRD PARTY OTHER THAN THOSE DETERMINED TO BE INDEMNIFIABLE CLAIMS UNDER SECTION 10 BY AN UNAPPEALABLE COURT RULING AND ONLY TO THE EXTENT PROVIDED FOR ABOVE, OR (D) DAMAGES, INCLUDING PRODUCT LIABILITY DAMAGES, CAUSED BY ANY NON-SYFERLOCK PRODUCT, SERVICES OR DELIVERABLES. CUSTOMER RECOGNIZES THAT THE FEES HEREUNDER ARE BASED IN PART ON THE LIMITED WARRANTY AND LIMITATION OF LIABILITY AND REMEDIES SET FORTH HEREIN.

14. Confidentiality

Each party acknowledges that by reason of its relationship to the other party under this Agreement it may have access to Confidential Information. Each party agrees to maintain in confidence and use only as expressly permitted in this Agreement all Confidential Information received from the other, both orally and in writing, provided that the parties' obligations of nondisclosure under this Agreement shall not apply to Confidential Information which the receiving party can demonstrate: (i) is or becomes a matter of public knowledge through no fault of the receiving party; (ii) was rightfully in the receiving party's possession prior to disclosure by the disclosing party; (iii) subsequent to disclosure, is rightfully obtained by the receiving party from a third party in lawful possession of such Confidential Information; or (iv) is independently developed by the receiving party without reference to Confidential Information. In the event a subpoena or other legal process is served upon a party receiving Confidential Information of the other party hereunder that, pursuant to the requirement of a governmental agency or law of the United States or any state thereof (or any governmental or political subdivision thereof), requires the disclosure of such Confidential Information, the receiving party will notify the disclosing party promptly upon receipt of such subpoena or other request for legal process, and will cooperate with the disclosing party, at the disclosing party's expense, in any lawful effort by the disclosing party to contest the legal validity or scope of such subpoena or other legal process.

15. Miscellaneous

- a) Assignment
Customer may not sublicense, assign (by operation of law or otherwise) or otherwise transfer this Agreement or any license or any right, duty or obligation under this Agreement without SyferLock's prior written consent, and any attempt to do so shall be null and void. Subject to the foregoing limitations, this Agreement will mutually benefit and be binding upon the parties, their successors and assigns.
- b) Export Control
Customer acknowledges that the export of any Software is or may be subject to export or import control and Customer agrees that any Software or the direct or indirect product thereof will not be exported (or re-exported from a country of installation) directly or indirectly, unless Customer obtains all necessary licenses from the U.S. Department of Commerce or other agency as required by law.
- c) U.S. Government Restricted Rights
Use, duplication, or disclosure of the Software by the U.S. government is subject to the restrictions set forth in subparagraph (C)(1)(ii) of the Rights in Technical Data and Computer Software clause at DFARS 252.227-7013, and subparagraphs (C)(1) and (2) of the Commercial Computer Software-Restricted Rights at 48 CFR 52.227-19, as applicable.
- d) License subject to Licensor's Rights

Customer acknowledges that portions of the Software may have been licensed to SyferLock by one or more third parties. All rights and obligations provided by SyferLock to Customer under this Agreement shall be limited to the extent that such underlying rights and obligations have been provided to SyferLock. e) Reserved

f) Reserved

g) Waiver

A failure or delay by either party to enforce any right under this Agreement shall not at any time constitute a waiver of such right or any other right, and shall not modify the rights or obligations of either party under this Agreement. Any waiver by either party of any right under this Agreement shall not constitute a waiver of such right in the future. All rights and remedies evidenced hereby are in addition to and cumulative to rights and remedies available at law or equity or otherwise available under any other contract.

h) Severability

If any provision or portion of this Agreement is held to be unenforceable or invalid, the remaining provisions and portions shall nevertheless be given full force and effect, and the parties agree to negotiate, in good faith, a substitute valid provision which most nearly affects the parties' intent in entering this Agreement. i) Force Majeure

Excluding the payment of money, neither party will be deemed in default of any obligation hereunder nor be liable for any failure or delay in performance which results directly or indirectly from any cause beyond its reasonable control, including without limitation, "Acts of God," delays or failures in the Internet or related carriers and third-party equipment, acts of civil or military authority, strikes, fire, theft, delays by suppliers, or action or inaction by the other party or any third party.

j) Reserved

k) Reserved

l) Compliance with Law

Customer is solely responsible for ensuring that its use of the Software is in compliance with all foreign, federal, state, and local laws and regulations, and Customer represents and warrants to SyferLock that it will comply with this subsection.

m) Counterparts

This Agreement may be executed in two or more counterparts, each of which shall be deemed an original and all of which together shall constitute one instrument.

n) Reserved

o) Reserved

p) No Third Party Beneficiaries

Except as set forth herein, no person or entity who is not a party to this Agreement shall derive any rights whatsoever hereunder as a third party beneficiary of this Agreement.

q) Reserved

DEFINITIONS

"Agreement" means this License Agreement, together with agreed upon terms in the ordering documents.

"Confidential Information" means non-public information or materials (including all deliverables made available hereunder) that, if disclosed in written form, is labeled "confidential" or, if disclosed orally, is identified as confidential and submitted to the other party within thirty (30) days in a writing labeled "confidential" or by a similar legend, provided, however, that the following types of information are always to be considered Confidential Information, regardless of compliance with the foregoing marking requirements, regardless of format, written or oral): the Documentation, the Software, the terms of this Agreement, information relating to the Company's products and the marketing thereof, product development plans and general business strategies, forecasts, research activities, pricing models, training materials, training tools, personnel information, customer data, trade secrets, techniques, know-how, formulas, processes, product ideas, inventions, improvements, copyrightable or patentable materials, schematics, and other technical, business and financial information relating to Company and the Software.

"Cover Page" means the quote.

"CPU" means the single processing system consisting of either a single or multiple processor unit and its associated RAM memory and disk storage units, regardless of platform or operating environment, on which Customer will load, execute, and use the Software. For all purposes hereof, each virtual machine functioning as a single CPU that can be identified by an IP address shall also be considered a CPU, shall be priced as a single CPU and shall be listed on the quote as a single CPU.

"Documentation" means end user materials, including manuals and training materials, in any form or medium, provided by SyferLock for use with the Software.

"Effective Date" means the effective date indicated on the Cover Page.

"Maintenance and Support Services" means the services provided to Customer by SyferLock in accordance with the terms set forth herein.

"Response (Time)" means contact to Customer via phone or an electronic means.

"Resolution (Time)" means a corrective measure(s) to address an Error.

"Server" or "Enterprise Server" means a central a computing system which hosts one or more of the applications listed on the Cover Page and is accessed by one or more named users.

"Service Bureau" means a person or entity that uses the Software to deliver services or the functionality of the Software to a third party where such person or entity receives directly or indirectly in return anything of value.

"Severity Level" means a reported anomaly or error isolated to software, and as defined herein.

"Severity Level 1 (SL1)" means an error isolated to software that renders product inoperative or causes the product to fail catastrophically, major system impact or system down (e.g. users cannot logon to their system).

"Severity Level 2 (SL2)" means an error isolated to software which causes one of the GridCore servers to fail. The user can still logon onto their system due to the failover process.

“**Severity Level 3 (SL3)**” means an error isolated to software that substantially degrades the performance of the product or materially restricts business with no work around, moderate system impact, system hanging.

“**Severity Level 4 (SL4)**” means a reported anomaly in the licensed product which does not substantially restrict the use of one or more features of the licensed product to perform necessary business functions. Additionally, an error isolated to software which materially restricts business which has a work around.

“**Severity Level 5 (SL5)**” means an enhancement request.

“**Software**” means one or more of the commercially available software products, available from SyferLock, as specified on the Cover Page.

“**Update**” or “**Upgrade**” means an improved and enhanced version of the Software released by SyferLock subsequent to the version licensed by Customer hereunder that SyferLock may make available to licensees of the Software for an additional fee.

“**Version**” means any update, version, release, revision, patch, bug fix or modified form of the Software that SyferLock, in its sole discretion, elects to make available at no additional charge to licensees of the Software that have purchased Maintenance and Support Services.

“**Warranty Period**” has the meaning set forth in Section 12(a).

Section - STANDARD SOFTWARE MAINTENANCE AND SUPPORT SERVICES

E-1) Maintenance and Support Services

SyferLock will provide Customer with the Software Maintenance and Support Services set forth in the table below for the most current release of the Software and the most current previous release of the Software. The Maintenance and Support Services shall apply only to the Software licensed by Customer as specified on the Cover Page; SyferLock is not responsible for the configuration, maintenance or correction of third-party software, hardware or communications facilities. SyferLock shall not be obligated to provide Maintenance and Support Services if such services are required as a result of (a) Customer’s neglect or misuse of the Software, (b) modification of the Software by a person or entity than other than SyferLock without the prior written consent of SyferLock, or (c) any other cause beyond the reasonable control of SyferLock. SyferLock shall not be obligated to respond to requests for support from any person or entity other than a representative of Customer’s IT department that have been pre-approved in writing by SyferLock. SyferLock shall have no liability to any third party with respect to the Maintenance and Support Services.

E-2) Versions

Upon commercial release of a new Version, SyferLock shall provide such Version to paid-up Maintenance and Support Services Customers.

E-3) Error Correction

Customer may call to report an “Error” in the Software (i.e., a failure of the Software to function in material conformity with the Documentation) that requires at least Second Tier (as defined below) support services during the hours specified in the table below and shall provide SyferLock all information necessary for diagnosis of the Error. SyferLock will use commercially reasonable efforts to contact Customer with respect to such reported Error within one (1) business day following the business day upon which it was submitted. SyferLock shall make commercially reasonable efforts to either: provide a software solution or workaround; provide an avoidance procedure; address the request in the next revision/iteration; or discuss with Customer possible custom professional services to resolve Customer’s request. The foregoing support services during the hours specified in the table below are unlimited in any given month.

E-4) Reserved

E-5) Reserved

E-6) SyferLock Personnel

In the performance of the Maintenance and Support Services, SyferLock reserves the right to determine the assignment of SyferLock personnel, to replace or reassign such personnel and to subcontract with qualified third persons for part or all of the services. No person performing services on behalf of SyferLock hereunder shall be restricted or prevented from performing services for others that are similar to the services provided under this Agreement.

E-7) On-Site Visits

For purposes of performing the Maintenance and Support Services, Customer shall permit authorized SyferLock service engineers to inspect periodically during normal business hours Customer’s computer systems operating the Software (it is agreed that such inspection shall be done, to the extent commercially reasonable, concurrently with on-site visits initiated following a reported Error (or other service request) by Customer). If SyferLock is unable by remote telephone or on-line support to address an Error, then SyferLock, at its sole discretion, may dispatch a software engineer to Customer’s site to address the Error. The travel and other reasonably-incurred expenses of such on-site assistance (excluding the personnel cost) shall be borne by Customer. Dispatch shall be within two (2) business days after SyferLock has determined at its sole discretion that telephone or on-line assistance is not sufficient. If Customer requests an on-site software support visit and SyferLock reasonably determines that the reported problem is not the responsibility of SyferLock, Customer shall work with SyferLock to determine the costs reasonably incurred by the SyferLock personnel in making such visit.

Deliverable	Support
Support Provided	Second Tier*, On-Line and Phone Support during Support Hours
Support Hours	Monday – Friday 9 A.M. to 5 P.M. Eastern time Excluding National Holidays. SyferLock will reply to Customer’s call or email/on-line Error report within the time frames set forth in Section E-3 above.
Staff	Access to technical support staff
Diagnostics & Resolution	Services shall include making commercially reasonable efforts for the purposes of (i) diagnosis of the Error and (ii) a resolution of the Error. Diagnostics & Resolution shall be conducted via remote assistance where possible.

* Second Tier Support shall mean support requests that have been reviewed and assessed by one or more members of the Customer IT staff identified pre-approved for such purpose in writing by SyferLock. It is agreed and clarified that First Tier Support (defined as support request

originating from end users) shall be rendered by Customer personnel trained for such purpose and that no First Tier Support shall be rendered by SyferLock.

**ATTACHMENT A
CONTRACTOR SUPPLEMENTAL PRICELIST INFORMATION AND TERMS**

SYFERLOCK TECHNOLOGY CORPORATION

SYFERLOCK TECHNOLOGY CORPORATION LICENSE, WARRANTY AND SUPPORT TERMS

1. Definitions

Defined terms are capitalized and have the meanings indicated in the Definitions section hereunder.

2. Right to Use Software

Contractor hereby grants to Ordering Activity a non-exclusive, royalty-free, non-assignable license to use the Software, subject to the terms and conditions set forth herein. Contractor hereby grants to Ordering Activity a non-exclusive, royalty-free, non-assignable license to use, subject to the terms and conditions set forth herein, Contractor's trademarks and trade names set forth ("Contractor Marks") solely for the purpose of using the Software in accordance with these terms. Ordering Activity agrees to use no other trademarks or trade names in connection with the Software, except for the use, in addition to the Contractor Marks, of its own trademark as approved in writing by Contractor. To the extent that Contractor will authorize any use of a composite trademark comprised out of Contractor Mark(s) and other trademarks or expressions, such composite trademark shall only be used for the purpose of using the Software in accordance with these terms and upon termination of the right to use the Software any use of such composite trademark shall immediately cease and be prohibited. Any use of Ordering Activity's trademarks with the Contractor Marks must maintain the distinctness of each trademark. Subject to the foregoing, The Contractor Marks are the only trademarks and trade names that Ordering Activity is authorized by Contractor to employ in connection with the Software and Ordering Activity agrees that it has no rights therein other than those specifically granted herein. All benefit and goodwill arising from Ordering Activity's use of the Contractor Marks shall inure to the benefit of Contractor. The license set forth in this Section 2 is not sub-licensable.

3. Restrictions on Use of Software

Ordering Activity's use of the Software is subject to the following restrictions. Except as expressly permitted in these terms, Ordering Activity shall not, and shall not permit others to, (a) use, modify, copy (except for one back-up copy containing Contractor's copyright notices and other Contractor Marks), or otherwise reproduce the Software in whole or in part; (b) reverse engineer, decompile, disassemble, or otherwise attempt to derive the source code form or structure of the Software; (c) distribute, sublicense, assign, share, timeshare, sell, rent, lease, grant a security interest in, use for Service Bureau purposes, or otherwise transfer the Software or Ordering Activity's right to use the Software; or (d) remove any copyright, trademark, proprietary rights, disclaimer, warning notice or other Contractor Marks included on or embedded in any part of the Software, (e) install, reconfigure or uninstall any Software on any CPU or Server other than by its IT personnel who have been pre-approved in writing by Contractor (such that no end-user of the Software installed on a mobile or stationary device used by such user, such as a PDA, lap top computer, tablet computer, Server or desktop computer, will be permitted or able to carry out such installation, reconfiguration or un-installation), (f) reserved or (g) distribute copies of the Software, or electronically transfer the Software from one CPU or Server to another or over a network. All rights not expressly granted to Ordering Activity are reserved by Contractor. There are no implied rights. Ordering Activity shall install the Software only on Enterprise Servers and/or CPUs, as the case may be, located in the country specified on the quote.

4. Third Parties

Ordering Activity's use and disclosure of the Software is restricted solely to its employees, agents, consultants and/or independent contractors (collectively referred to as "employees," hereinafter) who acknowledge the confidential nature of the Software and agents, consultants and independent contractors who agree in writing to be bound by the Confidentiality Provisions set forth herein. Ordering Activity agrees that it is fully responsible for the actions of each of its employees, professional advisors, agents and independent contractors with respect to the proper use and protection of the Software, whether or not such individual is or was acting within the scope of his or her employment or authority. The rights granted to Ordering Activity herein expressly exclude the right (i) to provide training to third parties in the use of the Software unless pre-approved in writing by Contractor, (ii) to enter into time-sharing arrangements for use of the Software with third parties, (iii) to rent the Software to third parties, or (iv) to distribute or sublicense the Software to third parties. Ordering Activity shall not use the Software in any manner other than as expressly provided for herein these terms.

5. Terms of Agreement Termination

The Order shall commence upon the Effective Date and, unless terminated in accordance with the FAR, the underlying GSA Schedule Contract, and/or any applicable GSA Customer Purchase Orders. and shall remain in effect for the term specified on the Order (either perpetual or yearly subscription, each as defined below).

- a) Yearly Subscription Term. If yearly subscription term is ordered, this License shall have an initial term of 12 (twelve) months.
- b) Perpetual Term. If perpetual term is ordered, the term of this License shall be perpetual with respect to the version of the Software licensed hereunder.

6. Effect of Termination or Expiration

- a) Each party shall immediately surrender all rights, licenses, and privileges granted under this Attachment A.
- b) Each party shall immediately cease using and return all property in its possession belonging to the other party, including without limitation all Software, Documentation, and tangible embodiments of Confidential Information.

7. Reserved

8. Proprietary Rights

As between SyferLock and Ordering Activity, SyferLock shall have sole and exclusive ownership of all right, title, and interest in and to the Software and Documentation, including all associated intellectual property rights therein and thereto and in and to any other deliverable made available by SyferLock to Ordering Activity in connection with these terms. Ordering Activity acknowledges that, as between SyferLock and Ordering Activity, the Software, including associated screen displays and menu features, the SyferLock Marks and Documentation constitutes the valuable trade secrets of SyferLock and are copyrighted works owned by SyferLock and protected by federal and international copyright laws. Ordering Activity shall not permit any personnel to remove any SyferLock Marks or any other proprietary or other legends or restrictive notices contained or included in any materials provided by SyferLock. In partial consideration of Contractor through SyferLock granting Ordering Activity the rights set forth herein, Ordering Activity agrees that all intellectual property rights and all other ownership in any ideas, feedbacks, modifications and enhancements.

9. Software Maintenance and Support Services; Other Services

Ordering Activity may purchase Maintenance and Support Services, and installation, training, and development and/or consulting services together with the license of any Software. Contractor through SyferLock shall provide the Standard Maintenance and Support Services described herein below during the Warranty Period at no charge and thereafter during each maintenance term for the fees set forth in the GSA Customer Purchase Order.. If selected by Ordering Activity, all such services will be provided by Contractor in accordance with the terms herein below (Software Maintenance and Support Services), and applicable Statement(s) of Work. Ordering Activity will be entitled to receive Updates only if Ordering Activity is a paid-up Maintenance and Support Services Ordering Activity at the time an Update is commercially released. Ordering Activity shall have the option to purchase Upgrades pursuant to the execution of a new GSA Customer Purchase Order.

10. Reserved

11. Reserved

12. Limited Warranty

a) Contractor warrants that for a period of thirty (30) days following initial delivery of the Software to Ordering Activity ("Warranty Period"), Contractor will use commercially reasonable efforts to resolve programming errors in the Software or Documentation to make the Software function in material conformity with the Documentation, provided that Contractor receives a written claim from Ordering Activity under this limited warranty within the Warranty Period. This Warranty does not apply if Ordering Activity or any third party changes or modifies the Software without the authorization of Contractor. Contractor does not warrant that the Software will be error free or that all errors can be remedied. Contractor warrants that the services provided by Contractor in connection with these terms will be rendered by qualified personnel and consistent with commercial practices standard in the industry. The foregoing shall be Contractor's entire liability and Ordering Activity's remedy under this warranty.

b) THE EXPRESS WARRANTIES GRANTED HERUNDER ARE THE ONLY WARRANTIES MADE BY CONTRACTOR WITH RESPECT TO THE SOFTWARE, DOCUMENTATION, ANY SERVICES PROVIDED HEREUNDER OR ANY DELIVERABLE MADE AVAILABLE HEREUNDER, EXPRESS OR IMPLIED, AND THEY ARE MADE IN LIEU OF ALL OTHER WARRANTIES OR REMEDIES. CONTRACTOR HEREBY EXPRESSLY DISCLAIMS ALL IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, NON INFRINGEMENT, AND WARRANTIES ARISING BY STATUTE OR OTHERWISE IN LAW OR FROM A COURSE OF DEALING OR USE OF TRADE, AS TO ANY MATTER, INCLUDING BUT NOT LIMITED TO, FEATURES OR CAPABILITIES OF THE SOFTWARE, CONTRACTOR'S COMPUTERS AND SERVERS, INFORMATION, REPORTS OR OTHER MATTERS PRODUCED OR PROVIDED IN CONNECTION WITH THESE TERMS, EXCEPT AS REQUIRED BY FEDERAL LAW.. IN ADDITION TO AND WITHOUT LIMITATION OF THE FOREGOING, CONTRACTOR SPECIFICALLY DOES NOT WARRANT, GUARANTEE, OR MAKE ANY REPRESENTATIONS REGARDING THE USE, OR THE RESULTS OF THE USE, OF ANY SOFTWARE OR FEATURE OR CAPABILITY OF THE SOFTWARE, IN TERMS OF CORRECTNESS, ACCURACY, RELIABILITY, CURRENTNESS, SECURITY, OR OTHERWISE. CONTRACTOR EXPRESSLY DISCLAIMS ANY WARRANTY WITH RESPECT TO THE QUALITY OR CONTINUITY OF ORDERING ACTIVITY OR ANY THIRD-PARTY TELECOMMUNICATION OR INFORMATION SYSTEMS OR SERVICES, SERVER CONNECTION SPEEDS, OR THE FUNCTIONALITY, OPERABILITY, OR RELIABILITY OF CONTRACTOR'S OR ANY THIRD PARTY'S DATA SECURITY FEATURES OR SYSTEMS. THIS DISCLAIMER OF WARRANTY CONSTITUTES AN ESSENTIAL PART OF THESE TERMS.

b) Export Control

Ordering Activity acknowledges that the export of any Software is or may be subject to export or import control and Ordering Activity agrees that any Software or the direct or indirect product thereof will not be exported (or re exported from a country of installation) directly or indirectly, unless Ordering Activity obtains all necessary licenses from the U.S. Department of Commerce or other agency as required by law.

c) U.S. Government Restricted Rights

Use, duplication, or disclosure of the Software by the U.S. government is subject to the restrictions set forth in subparagraph (C)(1)(ii) of the Rights in Technical Data and Computer Software clause at DFARS 252.227-7013, and subparagraphs (C)(1) and (2) of the Commercial Computer Software-Restricted Rights at 48 CFR 52.227-19, as applicable.

d) License subject to Licensor's Rights

Ordering Activity acknowledges that portions of the Software may have been licensed to Contractor by one or more third parties. All rights and obligations provided by Contractor to Ordering Activity hereunder shall be limited to the extent that such underlying rights and obligations have been provided to Contractor.

DEFINITIONS

“Agreement” means this License Agreement.

“Confidential Information” means non-public information or materials (including all deliverables made available hereunder) that, if disclosed in written form, is labeled “confidential” or, if disclosed orally, is identified as confidential and submitted to the other party within thirty (30) days in a writing labeled “confidential” or by a similar legend, provided, however, that the following types of information are always to be considered Confidential Information, regardless of compliance with the foregoing marking requirements, regardless of format, written or oral): the Documentation, the Software, , information relating to the Company’s products and the marketing thereof, product development plans and general business strategies, forecasts, research activities, pricing models, training materials, training tools, personnel information, Ordering Activity data, trade secrets, techniques, know-how, formulas, processes, product ideas, inventions, improvements, copyrightable or patentable materials, schematics, and other technical, business and financial information relating to Company and the Software.

“Cover Page” means the first two pages of this Agreement.

“CPU” means the single processing system consisting of either a single or multiple processor unit and its associated RAM memory and disk storage units, regardless of platform or operating environment, on which Ordering Activity will load, execute, and use the Software. For all purposes hereof, each virtual machine functioning as a single CPU that can be identified by an IP address shall also be considered a CPU, shall be priced as a single CPU and shall be listed in ordering documents as a single CPU.

“Documentation” means end user materials, including manuals and training materials, in any form or medium, provided by Contractor for use with the Software.

“Effective Date” means the effective date indicated on the quote.

“Maintenance and Support Services” means the services provided to Ordering Activity by Contractor in accordance with the terms set forth herein.

“Response (Time)” means contact to Ordering Activity via phone or an electronic means.

“Resolution (Time)” means a corrective measure(s) to address an Error.

“Server” or “Enterprise Server” means a central a computing system which hosts one or more of the applications listed on the Cover Page and is accessed by one or more named users.

“Service Bureau” means a person or entity that uses the Software to deliver services or the functionality of the Software to a third party where such person or entity receives directly or indirectly in return anything of value.

“Severity Level” means a reported anomaly or error isolated to software, and as defined and set for the in section G-8 of herein.

“Severity Level 1 (SL1)” means an error isolated to software that renders product inoperative or causes the product to fail catastrophically, major system impact or system down (e.g. users cannot logon to their system).

“Severity Level 2 (SL2)” means an error isolated to software which causes one of the GridCore servers to fail. The user can still logon onto their system due to the failover process.

“Severity Level 3 (SL3)” means an error isolated to software that substantially degrades the performance of the product or materially restricts business with no work around, moderate system impact, system hanging.

“Severity Level 4 (SL4)” means a reported anomaly in the licensed product which does not substantially restrict the use of one or more features of the licensed product to perform necessary business functions. Additionally, an error isolated to software which materially restricts business which has a work around.

“Severity Level 5 (SL5)” means an enhancement request.

“Software” means one or more of the commercially available software products, available from Contractor, as specified on the Cover Page.

“Update” or “Upgrade” means an improved and enhanced version of the Software released by Contractor subsequent to the version licensed by Ordering Activity hereunder that Contractor may make available to licensees of the Software for an additional fee.

“Version” means any update, version, release, revision, patch, bug fix or modified form of the Software that Contractor, in its sole discretion, elects to make available at no additional charge to licensees of the Software that have purchased Maintenance and Support Services.

“Warranty Period” has the meaning set forth in Section 12(a).

STANDARD SOFTWARE MAINTENANCE AND SUPPORT SERVICES

E-1) Maintenance and Support Services

Contractor through SyferLock will provide Ordering Activity with the Software Maintenance and Support Services set forth in the table below for the most current release of the Software and the most current previous release of the Software. The Maintenance and Support Services shall apply only to the Software licensed by Ordering Activity as specified on the Cover Page; Contractor is not responsible for the configuration, maintenance or correction of third-party software, hardware or communications facilities. Contractor shall not be obligated to provide Maintenance and Support Services if such services are required as a result of (a) Ordering Activity’s neglect or misuse of the Software, (b) modification of the Software by a person or entity other than Contractor without the prior written consent of Contractor, or (c) any other cause beyond the reasonable control of Contractor. Contractor shall not be obligated to respond to requests for support from any person or entity other than a representative of Ordering Activity’s IT department that have been pre-approved in writing by Contractor. Contractor shall have no liability to any third party with respect to the Maintenance and Support Services.

E-2) Versions

Upon commercial release of a new Version, Contractor through SyferLock shall provide such Version to paid-up Maintenance and Support Services Ordering Activities.

E-3) Error Correction

Ordering Activity may call to report an “Error” in the Software (i.e., a failure of the Software to function in material conformity with the Documentation) that requires at least Second Tier (as defined below) support services during the hours specified in the table below and shall provide Contractor through SyferLock all information necessary for diagnosis of the Error. Contractor will use commercially reasonable efforts to contact Ordering Activity with respect to such reported Error within one (1) business day following the business day upon which it was submitted. Contractor shall make commercially reasonable efforts to either: provide a software solution or workaround; provide an avoidance procedure; address the request in the next revision/iteration; or discuss with Ordering Activity possible custom professional services to resolve Ordering Activity’s request. The foregoing support services during the hours specified in the table below are unlimited in any given month.

E-4) Term

E-5) The initial term of Maintenance and Support Services shall be one year (the “Term”) commencing on the expiration of the Warranty Period if Ordering Activity has elected a perpetual term on the Cover Page, and commencing on the Effective Date if Ordering Activity has elected a Yearly Subscription term on the Cover Page. In the event that Ordering Activity elects to reinstate Maintenance and Support Services following termination of such services by Ordering Activity, execution of a new GSA Customer Purchase Order will be required.

E-6) Contractor Personnel

In the performance of the Maintenance and Support Services, Contractor through SyferLock reserves the right to determine the assignment of Contractor personnel, to replace or reassign such personnel and to subcontract with qualified third persons for part or all of the services. No person performing services on behalf of Contractor hereunder shall be restricted or prevented from performing services for others that are similar to the services provided hereunder.

E-7) On-Site Visits

For purposes of performing the Maintenance and Support Services, Ordering Activity shall permit authorized Contractor through SyferLock service engineers to inspect periodically during normal business hours Ordering Activity’s computer systems operating the Software (it is agreed that such inspection shall be done, to the extent commercially reasonable, concurrently with on-site visits initiated following a reported Error (or other service request) by Ordering Activity). If Contractor is unable by remote telephone or on-line support to address an Error, then Contractor, at its sole discretion, may dispatch a software engineer to Ordering Activity’s site to address the Error. The travel and other reasonably-incurred expenses of such on-site assistance (excluding the personnel cost) shall be borne by Ordering Activity and shall be billed to Ordering Activity in accordance with the Federal Joint Travel Regulations. Dispatch shall be within two (2) business days after Contractor has determined at its sole discretion that telephone or on-line assistance is not sufficient.

Deliverable Support

Support Provided Second Tier*, On-Line and Phone Support during Support Hours

Support Hours Monday – Friday 9 A.M. to 5 P.M. Eastern time Excluding National Holidays. Contractor will reply to Ordering Activity’s call or email/on-line Error report within the time frames set forth in Section E-3 above.

Staff Access to technical support staff

Diagnostics & Resolution Services shall include making commercially reasonable efforts for the purposes of (i) diagnosis of the Error and (ii) a resolution of the Error. Diagnostics & Resolution shall be conducted via remote assistance where possible.

* Second Tier Support shall mean support requests that have been reviewed and assessed by one or more members of the Ordering Activity IT staff identified pre-approved for such purpose in writing by Contractor. It is agreed and clarified that First Tier Support (defined as support request originating from end users) shall be rendered by Ordering Activity personnel trained for such purpose and that no First Tier Support shall be rendered by Contractor.

SyncDog, Inc.
1818 Library Street, Suite 500
Reston, VA 20190

**EC America Rider to Product Specific License Terms and Conditions
(for U.S. Government End Users)**

1. **Scope.** This Rider and the attached SyncDog, Inc. (“Manufacturer”) product specific license terms establish the terms and conditions enabling EC America (“Contractor”) to provide Manufacturer’s information technology products and services to Ordering Activities under EC America’s GSA MAS IT70 contract number GS-35F-0511T (the “Schedule Contract”). Installation and use of the information technology shall be in accordance with this Rider and Manufacturer Specific Terms attached hereto, unless an Ordering Activity determines that it requires different terms of use and Manufacturer agrees in writing to such terms in a valid delivery order placed pursuant to the Schedule Contract.
2. **Applicability.** Whereas GSA and EC America agreed at the time of Schedule Contract award upon a base set of terms and conditions applicable to all manufacturers and items represented on the Schedule Contract; and Whereas, the parties further agreed that all product specific license, warranty and software maintenance terms and conditions would be submitted at the time each new manufacturer was to be added to the Schedule Contract; Now, Therefore, the parties hereby agree that the product specific license, warranty and software maintenance terms set forth in Attachment A hereto (the “Manufacturer Specific Terms” or the “Attachment A Terms”) are incorporated into the Schedule Contract, but only to the extent that they are consistent with federal law (e.g., the Anti-Deficiency Act (31 U.S.C. § 1341), the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 *et seq.*), the Prompt Payment Act (31 U.S.C. §§ 3901 *et seq.*), the Anti-Assignment statutes (31 U.S.C. § 3727 and 41 U.S.C. § 15), DOJ’s jurisdictional statute 28 U.S.C. § 516 (Conduct of Litigation Reserved to the Department of Justice (DOJ), and 28 U.S.C. § 1498 (Patent and copyright cases)). To the extent any Attachment A Terms are inconsistent with federal law (See, FAR 12.212(a)), such inconsistent terms shall be superseded, unenforceable and of no legal force or effect in all resultant orders under the Schedule Contract, including but not limited to the following provisions:
 - w) **Contracting Parties.** The GSA Customer (“Licensee”) is the “Ordering Activity”, defined as the entity authorized to order under GSA MAS contracts as set forth in GSA ORDER ADM 4800.2G (Feb 2011), as may be revised from time to time.
 - x) **Changes to Work and Delays.** Subject to GSAR Clause 552.243-72, Modifications (Federal Supply Schedule) (July 2000) (Deviation I – SEPT 2010), and 52.212-4(f) Excusable Delays (JUN 2010) regarding which the GSAR and the FAR provisions take precedence.
 - y) **Contract Formation.** Subject to FAR 1.601(a) and FAR 43.102, the GSA Customer Purchase Order must be signed by a duly warranted Contracting Officer, in writing. The same requirement applies to contract modifications affecting the rights of the parties. All terms and conditions intended to bind the Government must be included within the contract signed by the Government.
 - z) **Termination.** Clauses in the Manufacturer Specific Terms referencing termination or cancellation are superseded and not applicable to any GSA Customer order. Termination shall be governed by the FAR, the underlying GSA Schedule Contract and the terms in any applicable GSA Customer Purchase Orders. If the Contractor believes the GSA Customer to be in breach, it must file a claim with the Contracting Officer and continue to diligently pursue performance. In commercial item contracting under FAR 12.302(b), the FAR provisions dealing with disputes and continued performance cannot be changed by the Contracting Officer.
 - aa) **Choice of Law.** Subject to the Contracts Disputes Act, the validity, interpretation and enforcement of this Rider shall be governed by and construed in accordance with the laws of the United States. In the event the Uniform Computer Information Transactions Act (UCITA) or any similar federal laws or regulations are enacted, to the extent allowed by federal law, they will not apply to this Rider or the underlying Schedule Contract.
 - bb) **Equitable remedies.** Equitable remedies are generally not awarded against the Government absent a statute providing therefore. In the absence of a direct citation to such a statute, all clauses in the Manufacturer Specific Terms referencing equitable remedies are superseded and not applicable to any GSA Customer order.
 - cc) **Unilateral Termination.** Unilateral termination by the Contractor does not apply to a GSA Customer Purchase Order and all clauses in the Manufacturer Specific Terms referencing unilateral termination rights of the Manufacturer are hereby superseded.
 - dd) **Unreasonable Delay.** Subject to FAR 52.212-4(f) Excusable delays, the Contractor shall be liable for default unless the nonperformance is caused by an occurrence beyond the reasonable control of the Contractor and without its fault or negligence such as, acts of God or the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, unusually severe weather, and delays of common carriers. The Contractor shall notify the Contracting Officer in writing as soon as it is reasonably possible after commencement of any excusable delay, setting forth the full particulars in connection therewith, shall remedy such occurrence with all reasonable dispatch and shall promptly give written notice to the Contracting Officer of the cessation of such occurrence.
 - ee) **Assignment.** All clauses regarding the Contractor’s assignment are subject to FAR 52.232-23, Assignment of Claims (JAN 1986) and FAR 42.12 Novation and Change-of-Name Agreements (Sep. 2013). All clauses governing the Contractor’s assignment in the Manufacturer Specific Terms are hereby superseded.
 - ff) **Waiver of Jury Trial.** Waivers of Jury Trials are subject to FAR 52.233-1 Disputes (JULY 2002). The Government will not agree to waive any right that it may have under federal law. All clauses governing a waiver of jury trial in the Manufacturer Specific Terms are hereby superseded.

- gg) **Government Indemnities.** This is an obligation in advance of an appropriation that violates anti-deficiency laws (31 U.S.C. § 1341 and 41 U.S.C. § 6301), since the GSA Customer commits to pay an unknown amount at an unknown future time. The violation occurs when the commitment is made, i.e., when the agreement featuring this clause is incorporated into a Government contract, and not when the clause is triggered. The Interim FAR Rule dated June 21, 2013 and the Office of Legal Counsel opinion dated March 12, 2012 prohibit such indemnifications. All Manufacturer Specific Terms referencing customer indemnities are hereby superseded.
- hh) **Contractor Indemnities.** All Manufacturer Specific Terms that violate DOJ's jurisdictional statute (28 U.S.C. § 516) by requiring that the Government give sole control over the litigation and/or settlement to the Contractor are hereby superseded. Nothing contained in the Manufacturer's Specific terms shall be construed in derogation of the U.S. Department of Justice's right to defend any claim or action brought against the U.S., pursuant to its jurisdictional statute.
- ii) **Renewals.** All Manufacturer Specific Terms that provide for automatic renewals violate the Anti-Deficiency Act and are hereby superseded. This is an obligation in advance of an appropriation that violates anti-deficiency laws (31 U.S.C. § 1341 and 41 U.S.C. § 6301), since the GSA Customer commits to pay an unknown amount at an unknown future time. The violation occurs when the commitment is made, i.e., when the agreement featuring this clause is incorporated into a Government contract, and not when the clause is triggered.
- jj) **Future Fees or Penalties.** All Manufacturer Specific Terms that require the Government to pay any future fees, charges or penalties are hereby superseded unless specifically authorized by existing statutes, such as the Prompt Payment Act (31 U.S.C. § 3901 et seq.) or Equal Access To Justice Act (5 U.S.C. § 504; 28 U.S.C. § 2412).
- kk) **Taxes.** Taxes are subject to FAR 52.212-4(k), which provides that the contract price includes all applicable federal, state, local taxes and duties. Contractor shall state separately on its invoices, taxes excluded from the fees, and the GSA Customer agrees to either pay the amount of the taxes (based on the current value of the equipment or services) to Contractor or provide it evidence necessary to sustain an exemption, in accordance with FAR 52.229-1 and FAR 52.229-3.
- ll) **Third Party Terms.** When the end user is an instrumentality of the U.S., no license terms bind the GSA Customer unless included verbatim (not by reference) in the EULA, and the EULA is made an attachment to the underlying GSA Schedule Contract. All terms and conditions affecting the GSA Customer must be contained in a writing signed by a duly warranted Contracting Officer. Any third party manufacturer shall be brought into the negotiation, or the components acquired separately under federally-compatible agreements, if any. All Manufacturer Specific Terms that incorporate third party terms by reference are hereby superseded.
- mm) **Dispute Resolution and Standing.** Any disputes relating to the Manufacturer Specific Terms or to this Rider shall be resolved in accordance with the FAR, the underlying GSA Schedule Contract, any applicable GSA Customer Purchase Orders, and the Contract Disputes Act. The Ordering Activity expressly acknowledges that EC America as contractor, on behalf of the Manufacturer, shall have standing to bring such claim under the Contract Disputes Act.
- nn) **Advertisements and Endorsements.** Pursuant to GSAR 552.203-71, use of the name or logo of any U.S. Government entity is prohibited. All Manufacturer Specific Terms that allow the Contractor to use the name or logo of a Government entity are hereby superseded.
- oo) **Public Access to Information.** EC America agrees that the attached Manufacturer Specific Terms and this Rider contain no confidential or proprietary information and acknowledges the Rider shall be available to the public.
- pp) **Confidentiality.** Any provisions in the attached Manufacturer Specific Terms that require the Ordering Activity to keep certain information confidential are subject to the Freedom of Information Act (5 U.S.C. § 552), and any order by a United States Federal Court. When the end user is an instrumentality of the U.S. Government, neither this Rider, the Manufacturer's Specific Terms nor the Schedule Price List shall be deemed "confidential information" notwithstanding marking to that effect. Notwithstanding anything in this Rider, the Manufacturer's Specific Terms or the Schedule Contract to the contrary, the GSA Customer may retain such Confidential Information as required by law, regulation or its bonafide document retention procedures for legal, regulatory or compliance purposes; provided however, that such retained Confidential Information will continue to be subject to the confidentiality obligations of this Rider, the Manufacturer's Specific Terms and the Schedule Contract.
- qq) **Alternate Dispute Resolution.** The GSA Customer cannot be forced to mediate or arbitrate. Arbitration requires prior guidance by the head of a federal agency promulgated via administrative rulemaking according to 5 U.S.C. § 575(c). GSA has not issued any because it considers the Board of Contract Appeals to be an adequate, binding ADR alternative. All Manufacturer Specific Terms that allow the Contractor to choose arbitration, mediation or other forms of alternate dispute resolution are hereby superseded.
- rr) **Ownership of Derivative Works.** Provisions purporting to vest exclusive ownership of all derivative works in the licensor of the standard software on which such works may be based are superseded. Ownership of derivative works should be as set forth in the copyright statute, 17 U.S.C. § 103 and the FAR clause at 52.227-14, but at a minimum, the GSA Customer shall receive unlimited rights to use such derivative works at no further cost.
14. **Order of Precedence/Conflict.** To the extent there is a conflict between the terms of this Rider and the terms of the underlying Schedule Contract or a conflict between the terms of this Rider and the terms of an applicable GSA Customer Purchase Order, the terms of the GSA Schedule Contract or any specific, negotiated terms on the GSA Customer Purchase Order shall control over the terms of this Rider. Any capitalized terms used herein but not defined, shall have the meaning assigned to them in the underlying Schedule Contract.

**ATTACHMENT A
CONTRACTOR SUPPLEMENTAL PRICELIST INFORMATION AND TERMS
SYNCDOG, INC**

SYNCDOG, INC. LICENSE, WARRANTY AND SUPPORT TERMS

SYNCDOG LICENSE AGREEMENT

1. SyncDog Software; Ordering.

1.1 SyncDog Software. SyncDog licenses its software products on a subscription basis. Software is made available as a software-only (or “virtual”) solution, as a hosted solution, or on a physical appliance. Ordering Activity’s rights to use SyncDog software apply only to the SyncDog software licensed under an applicable Order.

1.2 Reserved.

1.3 Delivery. For downloadable versions of the SyncDog software, Ordering Activity may download the software from a link provided by SyncDog. For hosted versions of the SyncDog Solution, access shall be provided through a password-protected web interface.

2. Definitions. Unless otherwise specified, capitalized terms used in this Agreement will have the meanings attributed to them in this Section 2.

“**SyncDog Solution**” means the object code versions of the SyncDog software identified on an Order and includes related Server Software, Client Software, Updates, and Documentation, but does not include Open Source Software, which is provided pursuant to Section 3.5.

“**Affiliate**” means an entity, which directly or indirectly controls, is controlled by or is under common control with a Party to this Agreement.

“**Client Software**” means the object code versions of the desktop client software for the licensed SyncDog Solution.

“**Designated User**” means the number of users for whom Ordering Activity has purchased rights to use the SyncDog Solution, as set forth on the applicable Order, plus any additional True-Up Users added pursuant to Section 5.3 below. Designated Users may consist of: (i) employees and independent contractors of Ordering Activity and its Affiliates, and (ii) individual representatives of vendors and/or service providers of Ordering Activity and its Affiliates.

“**Documentation**” means SyncDog’s standard written materials and specifications for the SyncDog Solution licensed by Ordering.

“**Effective Date**” means (i) for Orders submitted to SyncDog, the date that SyncDog accepts the Order; or (ii) for orders submitted to a Channel Partner on a form other than an SyncDog Order form, the date SyncDog makes the software available to Ordering Activity for download or, for software provided on a physical appliance, the date of shipment.

“**Hardware**” means computer equipment, if any, purchased from SyncDog by Ordering.

“**Hosted Services**” means the remote access and use of a hosted version of the SyncDog Solution as hosted by SyncDog.

“**License Term**” means the subscription period for use of the SyncDog Solution, as identified on the applicable Order.

“**Maintenance Support Services**” means the support services provided by SyncDog as described in Section 4.

“**Release**” means a version of the SyncDog Solution for which SyncDog charges a separate fee.

“**Server Software**” means the object code server software version of the SyncDog Solution, as identified on the applicable Order.

“**Update**” means additions, upgrades, or modifications to the SyncDog Solution. Updates do not include Releases.

3. License Terms.

3.1 License Grant. SyncDog hereby grants to Ordering Activity during the License Term, a non-exclusive, non-transferable and non-sublicenseable license to: (a) install and use the Client Software on supported environments for up to the number of Designated Users; and (b) use, access, and for SyncDog not hosted by SyncDog, copy the Server Software on supported environments for up to the number of copies identified on the Order for Ordering Activity’s internal business purposes.

3.2 License Restrictions. Ordering Activity shall not copy the SyncDog Solution except to make a reasonable number of copies for the purposes of security back-up, relocation or disaster recovery; provided, however, that Ordering Activity may make and use the number of copies of Client Software that it deems appropriate unless the number of copies of Client Software is restricted as set forth on the applicable Order. The SyncDog Solution may not be modified, disclosed, reverse-engineered, disassembled, or decompiled except and to the extent allowed by applicable law. Ordering Activity shall not

transfer, sell, license, sublicense, outsource, rent or lease the SyncDog Solution or use it for service bureau or other third-party use. All rights not expressly granted hereunder are reserved. Ordering Activity is solely responsible and liable for the use of and access to the SyncDog Solution by Designated Users and for all files and data transmitted, shared, or stored using the SyncDog Solution. Ordering Activity acknowledges and agrees that the licenses granted herein are neither contingent upon the delivery of any future functionality or features nor dependent upon any oral or written public comments made by SyncDog with respect to future functionality or features.

3.3 **Ownership.** All right, title, and interest, including without limitation all intellectual property rights, in and to the SyncDog Solution, including any and all modifications, enhancements, derivative works, Updates and Releases, are the sole and exclusive property of SyncDog and its licensors. Ordering Activity shall not remove, and shall reproduce on any permitted copies, all proprietary, copyright, trademark and trade secret notices contained in or placed upon the SyncDog Solution. Ordering Activity will take reasonable precautions (including the precautions used for Ordering Activity's own confidential information) to prevent the unauthorized use or disclosure of the SyncDog Solution, the Documentation, or the results of any performance or benchmark tests of the SyncDog Solution.

4. **Maintenance Support Services.** SyncDog provides Maintenance and Support Services for the License Term at no additional charge. As part of Maintenance Support Services, SyncDog will make available to Ordering Activity all Updates that SyncDog makes generally available to its other Ordering Activities.

5. **Reports.**

5.4 **Automated Reporting.** The Server Software periodically transmits technical data to SyncDog. That data does not include the content of any emails or attachments, file names or any personally identifiable information. The transmitted information contains aggregate non-personal usage information for each day the SyncDog Solution is in use, including but not limited to: (i) the number and type of messaging senders and recipients, (ii) account usage information, (iii) technical data about messaging transmissions and management; and (iv) the type of SyncDog Solution features used and related data. Ordering Activity will not in any way attempt to prevent the transmission or delivery of such usage data. SyncDog uses such data only for SyncDog's own internal business purposes. SyncDog only discloses such data (a) in an aggregated form with data from other Ordering Activities in which neither Ordering Activity's identity nor that of Designated Users are revealed, or (b) as required by applicable law.

6. **Reserved.**

=

7. **Limited Warranties and Disclaimer.**

7.1 **Limited SyncDog Solution and Hardware Performance Warranty.**

(a) **Warranty.** SyncDog warrants to Ordering Activity that: (i) the media on which the SyncDog Solution is furnished under normal use will be free from material defects in materials and workmanship for a period of thirty (30) days after the delivery date; (ii) the Hardware sold to Ordering Activity, if any, will be free from defects in materials and workmanship for a period of one (1) year from the date it is furnished to Ordering Activity; and (iii) the SyncDog Solution and Open Source Software will operate in substantial conformance with the Documentation for a period of thirty (30) days after the delivery date.

(b) **Remedy.** Any warranty claim must be made by written notice to SyncDog within the applicable warranty period. SyncDog's liability and Ordering Activity's remedy under the warranty in subsection (a) above shall be replacement or repair of the defective media, Hardware or SyncDog Solution that does not meet SyncDog's limited warranty and if SyncDog is unable to repair or replace defective components of the SyncDog Solution within a reasonable period of time (not to exceed thirty (30) days from SyncDog's receipt of Ordering Activity's notice), this Agreement shall terminate, in which case: (i) SyncDog shall (a) refund all license fees received by SyncDog for the SyncDog Solution (and Hardware fees, if any); and (b) the fees received by SyncDog for the unexpired term of Maintenance Support Services, and (ii) Ordering Activity shall (a) uninstall and destroy the nonconforming SyncDog Solution and certify in writing that it has done the same; and (b) return the Hardware, if any, at SyncDog's expense. SyncDog is not liable under any warranty or otherwise for defects or liability caused by the use of the SyncDog Solution or Hardware in any manner or for any purpose other than that for which it was licensed to Ordering Activity, or for causes not within SyncDog's reasonable control. Warranties are void if failures are caused in whole or in part by accident, abuse, misuse, or modifications not authorized in writing by SyncDog.

7.2 **Virus Protection.** SyncDog warrants to Ordering Activity that, to the best of SyncDog's knowledge as of the date of delivery, the SyncDog Solution will be free from any viruses, spyware, trojans, or disabling or malicious code, provided that Server Software includes disabling mechanisms that prevent access to the Server Software following expiration of the License Term.

7.3 **Limited Services Warranty.** SyncDog warrants that for a period of thirty (30) days following installation or professional services, such services will be provided in a professional and workmanlike manner consistent with generally accepted industry standards. As Ordering Activity's sole and exclusive remedy and SyncDog's sole and exclusive liability for breach of the foregoing warranty, SyncDog will, at its sole option and expense, and provided that SyncDog is notified of any such breach during the warranty period,

re-perform the services, or if SyncDog is unable to perform the services as warranted, refund the fees paid to SyncDog for the services.

7.4 **Disclaimer.** THE EXPRESS LIMITED WARRANTIES IN THIS SECTION ARE IN LIEU OF ALL OTHER WARRANTIES AND CONDITIONS EXPRESS OR IMPLIED, CONTRACTUAL OR STATUTORY, INCLUDING BUT NOT LIMITED TO, ANY IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE AND NON-INFRINGEMENT. SYNCDOG DOES NOT WARRANT THAT THE USE OF THE SYNCDOG SOLUTION WILL BE UNINTERRUPTED OR ERROR FREE OR THAT ALL NONMATERIAL DEFICIENCIES OR ERRORS ARE CAPABLE OF BEING CORRECTED. SYNCDOG. MAKES NO REPRESENTATIONS OR WARRANTIES CONCERNING THE PRODUCTS OR SERVICES PROVIDED BY ITS CHANNEL PARTNERS OR ANY HOSTED SERVICES PROVIDERS, AND SHALL HAVE NO LIABILITY WITH RESPECT TO ANY ACT OR OMISSION OF ANY CHANNEL PARTNER OR HOSTED SERVICES PROVIDERS. NO CHANNEL PARTNER OR HOSTED SERVICES PROVIDER SHALL HAVE ANY AUTHORITY TO BIND SYNCDOG TO ANY TERMS OR CONDITIONS OTHER THEN THOSE EXPRESSLY SET FORTH HEREIN

8. **Reserved.**

9. **Reserved.**

10. **Reserved.**

11. **Government Licensing.** If the SyncDog Solution is accessed or used by any agency or other part of the U.S. Government, the U.S. Government acknowledges that (i) the SyncDog Solution and accompanying materials constitute “commercial computer software” and “commercial computer software documentation” under paragraphs 252.227.14 of the DoD Supplement to the Federal Acquisition Regulations (“DFARS”) or any successor regulations, and the Government is acquiring only the usage rights specifically granted in this Agreement; (ii) the SyncDog Solution constitutes “restricted computer software” under paragraph 52.227-14 of the Federal Acquisition Regulations (“FAR”) or any successor regulations and the government’s usage rights are defined in this Agreement and the FAR.

Symantec
420 N. Mary Avenue
Sunnyvale, CA 94085

**EC America Rider to Product Specific License Terms and Conditions
(for U.S. Government End Users)**

1. **Scope.** This Rider and the attached **Symantec Systems** (“Manufacturer”) product specific license terms establish the terms and conditions enabling EC America (“Contractor”) to provide Manufacturer’s information technology products and services to Ordering Activities under EC America’s GSA MAS IT70 contract number GS-35F-0511T (the “Schedule Contract”). Installation and use of the information technology shall be in accordance with this Rider and Manufacturer Specific Terms attached hereto, unless an Ordering Activity determines that it requires different terms of use and Manufacturer agrees in writing to such terms in a valid delivery order placed pursuant to the Schedule Contract.

2. **Applicability.** Whereas GSA and EC America agreed at the time of Schedule Contract award upon a base set of terms and conditions applicable to all manufacturers and items represented on the Schedule Contract; and Whereas, the parties further agreed that all product specific license, warranty and software maintenance terms and conditions would be submitted at the time each new manufacturer was to be added to the Schedule Contract; Now, Therefore, the parties hereby agree that the product specific license, warranty and software maintenance terms set forth in Attachment A hereto (the “Manufacturer Specific Terms” or the “Attachment A Terms”) are incorporated into the Schedule Contract, but only to the extent that they are consistent with federal law (e.g., the Anti-Deficiency Act (31 U.S.C. § 1341), the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 *et seq.*), the Prompt Payment Act (31 U.S.C. §§ 3901 *et seq.*), the Anti-Assignment statutes (31 U.S.C. § 3727 and 41 U.S.C. § 15), DOJ’s jurisdictional statute 28 U.S.C. § 516 (Conduct of Litigation Reserved to the Department of Justice (DOJ), and 28 U.S.C. § 1498 (Patent and copyright cases)). To the extent any Attachment A Terms are inconsistent with federal law (See, FAR 12.212(a)), such inconsistent terms shall be superseded, unenforceable and of no legal force or effect in all resultant orders under the Schedule Contract, including but not limited to the following provisions:
 - a) **Contracting Parties.** The GSA Customer (“Licensee”) is the “Ordering Activity”, defined as the entity authorized to order under GSA MAS contracts as set forth in GSA ORDER ADM 4800.2G (Feb 2011), as may be revised from time to time.
 - b) **Changes to Work and Delays.** Subject to GSAR Clause 552.243-72, Modifications (Federal Supply Schedule) (July 2000) (Deviation I – SEPT 2010), and 52.212-4(f) Excusable Delays (JUN 2010) regarding which the GSAR and the FAR provisions take precedence.
 - c) **Contract Formation.** Subject to FAR 1.601(a) and FAR 43.102, the GSA Customer Purchase Order must be signed by a duly warranted Contracting Officer, in writing. The same requirement applies to contract modifications affecting the rights of the parties. All terms and conditions intended to bind the Government must be included within the contract signed by the Government.
 - d) **Termination.** Clauses in the Manufacturer Specific Terms referencing termination, suspension and/ or cancellation are superseded and not applicable to any GSA Customer order. Termination shall be governed by the FAR, the underlying GSA Schedule Contract and the terms in any applicable GSA Customer Purchase Orders. If the Contractor believes the GSA Customer to be in breach, it must file a claim with the Contracting Officer and continue to diligently pursue performance. In commercial item contracting under FAR 12.302(b), the FAR provisions dealing with disputes and continued performance cannot be changed by the Contracting Officer.
 - e) **Choice of Law.** Subject to the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 *et seq.*), the validity, interpretation and enforcement of this Rider shall be governed by and construed in accordance with the federal laws of the United States. In the event the Uniform Computer Information Transactions Act (UCITA) or any similar federal laws or regulations are enacted, to the extent allowed by federal law, they will not apply to this Rider or the underlying Schedule Contract.
 - f) **Equitable remedies.** Equitable remedies are generally not awarded against the Government absent an express statute providing therefore. In the absence of a direct citation to such a statute, all clauses in the Manufacturer Specific Terms referencing equitable remedies are superseded and not applicable to any GSA Customer order.
 - g) **Unilateral Termination.** Unilateral termination by the Contractor does not apply to a GSA Customer Purchase Order and all clauses in the Manufacturer Specific Terms referencing unilateral termination rights of the Manufacturer are hereby superseded.
 - h) **Unreasonable Delay.** Subject to FAR 52.212-4(f) Excusable delays, the Contractor shall be liable for default unless the nonperformance is caused by an occurrence beyond the reasonable control of the Contractor and without its fault or negligence such as, acts of God or the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, unusually severe weather, and delays of common carriers. The Contractor shall notify the Contracting Officer in writing as soon as it is reasonably possible after commencement of any excusable delay, setting forth the full particulars in connection therewith, shall remedy such occurrence with all reasonable dispatch and shall promptly give written notice to the Contracting Officer of the cessation of such occurrence.
 - i) **Assignment.** All clauses regarding the Contractor’s assignment are subject to FAR 52.232-23, Assignment of Claims (JAN 1986) and FAR 42.12 Novation and Change-of-Name Agreements (Sep. 2013). All clauses governing the Contractor’s assignment in the Manufacturer Specific Terms are hereby superseded.
 - j) **Waiver of Jury Trial.** Waivers of Jury Trials are subject to FAR 52.233-1 Disputes (JULY 2002). The Government will not agree to waive any right that it may have under federal law. All clauses governing a waiver of jury trial in the Manufacturer Specific Terms are hereby superseded.

- k) **Government Indemnities.** This is an obligation in advance of an appropriation that violates anti-deficiency laws (31 U.S.C. § 1341 and 41 U.S.C. § 6301), since the GSA Customer commits to pay an unknown amount at an unknown future time. The violation occurs when the commitment is made, i.e., when the agreement featuring this clause is incorporated into a Government contract, and not when the clause is triggered. The FAR 12.216 prohibit such indemnifications. All Manufacturer Specific Terms referencing customer indemnities are hereby superseded.
- l) **Contractor Indemnities.** All Manufacturer Specific Terms that violate DOJ's jurisdictional statute (28 U.S.C. § 516) by requiring that the Government give sole control over the litigation and/or settlement to the Contractor are hereby superseded. Nothing contained in the Manufacturer's Specific terms shall be construed in derogation of the U.S. Department of Justice's right to defend any claim or action brought against the U.S., pursuant to its jurisdictional statute.
- m) **Renewals.** All Manufacturer Specific Terms that provide for automatic renewals violate the Anti-Deficiency Act and are hereby superseded. This is an obligation in advance of an appropriation that violates anti-deficiency laws (31 U.S.C. § 1341 and 41 U.S.C. § 6301), since the GSA Customer commits to pay an unknown amount at an unknown future time. The violation occurs when the commitment is made, i.e., when the agreement featuring this clause is incorporated into a Government contract, and not when the clause is triggered.
- n) **Future Fees or Penalties.** All Manufacturer Specific Terms that require the Government to pay any future fees, charges or penalties are hereby superseded unless specifically authorized by existing statutes, such as the Prompt Payment Act (31 U.S.C. § 3901 et seq.) or Equal Access To Justice Act (5 U.S.C. § 504; 28 U.S.C. § 2412).
- o) **Taxes.** Taxes are subject to FAR 52.212-4(k), which provides that the contract price includes all applicable federal, state, local taxes and duties. Notwithstanding the foregoing, Contractor shall state separately on its invoices, taxes excluded from the fees, and the GSA Customer agrees to either pay the amount of the taxes (based on the current value of the equipment or services) to Contractor or provide it evidence necessary to sustain an exemption, in accordance with FAR 52.229-1 and FAR 52.229-3.
- p) **Third Party Terms.** When the end user is an instrumentality of the U.S., no license terms bind the GSA Customer unless included verbatim (not by reference) in the EULA, and the EULA is made an attachment to the underlying GSA Schedule Contract. All terms and conditions affecting the GSA Customer must be contained in a writing signed by a duly warranted Contracting Officer. Any third party manufacturer shall be brought into the negotiation, or the components acquired separately under federally-compatible agreements, if any. All Manufacturer Specific Terms that incorporate third party terms by reference are hereby superseded.
- q) **Dispute Resolution and Standing.** Any disputes relating to the Manufacturer Specific Terms or to this Rider shall be resolved in accordance with the FAR, the underlying GSA Schedule Contract, any applicable GSA Customer Purchase Orders, and the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 et seq.). The Ordering Activity expressly acknowledges that EC America as contractor, on behalf of the Manufacturer, shall have standing to bring such claim under the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 et seq.).
- r) **Advertisements and Endorsements.** Pursuant to GSAR 552.203-71, use of the name or logo of any U.S. Government entity is prohibited. All Manufacturer Specific Terms that allow the Contractor to use the name or logo of a Government entity are hereby superseded.
- s) **Public Access to Information.** EC America agrees that the attached Manufacturer Specific Terms and this Rider contain no confidential or proprietary information and acknowledges the Rider shall be available to the public.
- t) **Confidentiality.** Any provisions in the attached Manufacturer Specific Terms that require the Ordering Activity to keep certain information confidential are subject to the Freedom of Information Act (5 U.S.C. § 552), and any order by a United States Federal Court. When the end user is an instrumentality of the U.S. Government, neither this Rider, the Manufacturer's Specific Terms nor the Schedule Price List shall be deemed "confidential information" notwithstanding marking to that effect. Notwithstanding anything in this Rider, the Manufacturer's Specific Terms or the Schedule Contract to the contrary, the GSA Customer may retain such Confidential Information as required by law, regulation or its bonafide document retention procedures for legal, regulatory or compliance purposes; provided however, that such retained Confidential Information will continue to be subject to the confidentiality obligations of this Rider, the Manufacturer's Specific Terms and the Schedule Contract.
- u) **Alternate Dispute Resolution.** The GSA Customer cannot be forced to mediate or arbitrate. Arbitration requires prior guidance by the head of a federal agency promulgated via administrative rulemaking according to 5 U.S.C. § 575(c). GSA has not issued any because it considers the Board of Contract Appeals to be an adequate, binding ADR alternative. All Manufacturer Specific Terms that allow the Contractor to choose arbitration, mediation or other forms of alternate dispute resolution are hereby superseded.
- v) **Ownership of Derivative Works.** Provisions purporting to vest exclusive ownership of all derivative works in the licensor of the standard software on which such works may be based are superseded. Ownership of derivative works should be as set forth in the copyright statute, 17 U.S.C. § 103 and the FAR clause at 52.227-14, but at a minimum, the GSA Customer shall receive unlimited rights to use such derivative works at no further cost.

3. Order of Precedence/Conflict. To the extent there is a conflict between the terms of this Rider and the terms of the underlying Schedule Contract or a conflict between the terms of this Rider and the terms of an applicable GSA Customer Purchase Order, the terms of the GSA Schedule Contract or any specific, negotiated terms on the GSA Customer Purchase Order shall control over the terms of this Rider. Any capitalized terms used herein but not defined, shall have the meaning assigned to them in the underlying Schedule Contract.

CONTRACTOR SUPPLEMENTAL PRICELIST INFORMATION AND TERMS**

Symantec

Symantec LICENSE, WARRANTY AND SUPPORT TERMS

This GSA License Agreement (“Agreement”) is entered into by an authorized representative of the party entering into this Agreement (“Customer”) and the Symantec Systems, Inc. (“Symantec”) and is effective upon Customer’s execution of an applicable Purchase Order (“Order”).

1. License Terms.

1.1 Introduction. Any products and services made available to Customer by Symantec (“Products”) under this Agreement may be, or may include, a physical appliance or other hardware (“Hardware”), software (“Software”) and/or proprietary data (“BC Data”). Software and/or BC Data, whether embedded in memory or otherwise incorporated or loaded onto Hardware or made available via electronic delivery, are hereafter referred to as “Licensed Products”.

1.2 License. Subject to the terms and conditions of this Agreement, Symantec grants to Customer, during the applicable license term, a non-transferable, nonexclusive, worldwide license, subject to additional limitations set forth in this Section 1, to use the Licensed Products solely: (i) for internal purposes; (ii) in accordance with the Product license type (e.g., subscription or perpetual) and user type (for which the applicable fees have been paid) as set forth in the Purchase Order. Symantec’s current Product Licensing guide in effect as of July 1, 2014, is attached hereto as Exhibit A, which sets forth the license type and any specific restrictions associated with the Products.

1.3 Ownership. The Products are proprietary to Symantec or its licensors or suppliers. Customer acknowledges and agrees that: (a) the Products are protected under U.S. and international copyright and other intellectual property laws; (b) Symantec and its licensors retain all copyrights and other intellectual property rights in the Products; (c) there are no implied licenses under this license and any rights not expressly granted to Customer hereunder are reserved by Symantec; (d) Customer acquires no ownership or other interest (other than Customer license rights set forth above in Section 1.2) in or to the Licensed Products or any Hardware loaned to Customer; and (e) BC Data is confidential information of Symantec. Customer agrees that any suggestions, comments or other feedback provided by Customer to Symantec or its licensors with respect to the Products (“Feedback”) shall not be deemed to constitute confidential information of Customer or impose any confidentiality obligations on Symantec. Symantec shall be free to use, disclose, reproduce, license or otherwise distribute and exploit anonymized Feedback without any obligation, restriction or duty to account.

1.4 License Restrictions. Customer will not (a) copy the Licensed Products (except for a reasonable number of copies for back-up purposes), (b) modify, create derivative works of or translate the Licensed Products, (c) publish, distribute, rent, lease, sell, sublicense, assign or otherwise transfer the Products or any part thereof, (d) use or permit use of the Products for purposes of application development, (e) remove or obscure any Symantec or licensors’ copyright, trademark or other proprietary notices or legends from any portion of the Products or any associated documentation, (f) modify, block, circumvent or otherwise interfere with any authentication, license key or security measures in the Products, (g) reverse engineer, decompile, disassemble, or otherwise attempt to derive source code from the Products (the interface information necessary to achieve interoperability of the Licensed Products with independently created computer programs will be provided by Symantec in the required jurisdictions, if requested, subject to the execution of a new GSA Customer Purchase Order, (h) use or permit use of the Products for on-line control equipment in hazardous environments requiring fail-safe performance, such as in the operation of nuclear facilities, aircraft navigation or aircraft communications systems, air traffic control, life support systems, human implantation, nuclear facilities or systems or weapons systems, or any other application known to Customer where product failure would lead to loss of life or catastrophic property damage, in which the failure of the program could lead directly to death, personal injury, or severe physical or environmental damage (“High Risk Activities”), (i) permit any Product export, re-export, download, resale or transfer, directly or indirectly: (x) into (or to a national, resident or government of) any prohibited destination or other countries subject to U.S. trade embargoes imposed by the U.S. Department of Treasury’s Office of Foreign Assets Control (OFAC) from time to time) or other destination for which specific authorization would otherwise be required under the Export Administration Regulations (EAR) administered by the US Department of Commerce’s Bureau of Industry and Security (BIS) or other applicable laws, or (y) to any person identified on the OFAC List of Specially Designated Nationals and Blocked Persons, the BIS Denied Parties List, BIS Entity List or BIS Unverified List (see: <http://www.bis.doc.gov/index.php/policy-guidance/lists-of-parties-of-concern>), or (j) use the Products for any proliferation or terrorist-related end-use. In addition, with respect to BC Data, Customer will not (i) repackage, redistribute, divert, license, sublicense, rent, disclose or resell BC Data to, or for the benefit of, any third party, (ii) use the BC Data on behalf of third parties, other than duly authorized employees, agents, consultants and/or independent contractors (collectively referred to as “personnel,” hereinafter) including through file sharing, hosting, application services provider, service bureau, or any other type of service), (iii) use the BC Data other than in connection with the authorized use of Products, (iv) display the BC Data on any web site or application, (v) use the BC Data to develop products or for any other purposes not described in the documentation or (vi) allow the BC Data to become subject to any lien.

1.5 License Type Restrictions. If Symantec provides a Licensed Product that is (i) embedded, incorporated or loaded onto Hardware or (ii) made available for download to designated Hardware, then the license is restricted to use on that Hardware and subject to any additional applicable usage based restrictions. Licenses based on usage such as per computer, per node, per user (concurrent, active, authorized or other) or per instance are restricted to the terms of the applicable usage license as such terms are defined in the associated documentation. If a Licensed Product is licensed for a specified term or on a subscription basis, rather than on a perpetual basis, then Customer is only permitted to use such Licensed Product during the applicable term. If a Licensed Product is provided to Customer for evaluation, the license term shall commence upon Symantec’s shipment (for Hardware and Software thereon) or electronic delivery (for Software downloaded from Symantec) of the Product, and shall last for the duration of the license set by Symantec or, if none was set, sixty (60) days. If a Licensed Product is provided under a subscription and is provided with loaned Hardware, the license term shall commence upon Symantec’s shipment (for Hardware and Software thereon) or electronic delivery (for Software downloaded from Symantec) of the Product, and shall last for the duration of the subscription term.

1.6 Registration Requirements. Symantec may require registration in order to establish license entitlements for certain Products. Within sixty (60) days after the date a Product is first installed (“Registration Period”), Customer must complete registration requirements as instructed by the Products in order to continue to use all of the features of the Product. If Customer fails to complete the registration

requirements prior to the expiration of the Registration Period, Product features may become inoperable and Customer may be unable to use such features until Customer has completed registration.

1.7 Support. Any updates, upgrades and bug fixes to the Products are available through the separate purchase of support services.

1.8 Loaned Products. Symantec retains all ownership rights to loaned Products. Customer will safeguard all loaned Products, will protect them from possible damage, will not loan them to others, and will not allow any lien to be imposed upon them. If there is any damage to a loaned Product beyond normal wear or if a loaned Product is lost or stolen, Customer will be liable for the costs of repair or replacement.

2. Audit Rights. Subject to Government security requirements, Customer agrees to maintain and make available to Symantec accurate and complete records of Customer's installation/use of the Products for periodic audit as requested by Symantec during reasonable business hours. In addition, Customer acknowledges and agrees that Symantec may conduct periodic audits, to verify Customer's installation, deployment and usage of the Licensed Products. If any such audit should disclose any unlicensed usage by the GSA Customer, Symantec will provide prompt notice to the GSA Customer of the alleged deficiency and may invoice the GSA Customer for the number of licenses required to bring it into compliance under this Agreement.

3. Data.

3.1 Communication between Products and Symantec. Certain Products may require (or be pre-configured for) communication with Symantec, or the delivery of information to Symantec about the Product (e.g., IP address, serial number, application identification, and other similar data), either upon installation or periodically. Subject to Government security requirements, Customer hereby consents to such communication and transmission of information.

3.2 Consent to Use of Data. Customer agrees that Symantec may collect, maintain, process and use diagnostic, technical, usage, authentication, location and other information, including but not limited to information about the Product, system and related peripherals, which is gathered periodically to facilitate the provision of services, Software updates, Product support and other services, to verify compliance with the terms of this Agreement, to comply with legal, governmental or contractual terms, and to otherwise analyze and improve Symantec's products and services.

3.3 Safeguarding Personally Identifiable Information. If and when Customer submits any web or application use data to Symantec, Customer shall do so without submitting any information identifying any particular individual who attempted to access or actually accessed a specific URL address or application or any other data that might identify any particular user.

4. Customer's Use of Products. Customer represents, warrants and covenants that:

4.1 Privacy Rights. Customer will take all appropriate measures to avoid violating any privacy rights of individuals in connection with Customer's use of the Products.

4.2 Notice to End Users. As between Symantec and Customer, Customer shall have the sole obligation to provide notices to users of the Products that their use of Customer's computers, electronic appliances and devices (and those of users on Customer's network) may be monitored, inspected, decrypted, and/or re-encrypted and that the users should have no expectation of privacy or security when accessing the Internet or other applications.

4.3 [Intentionally Omitted].

5. Embedded Third Party Products. Certain components of the Products may incorporate third-party software programs, data and/or libraries ("Third Party Components").

6. Open Source Software. Certain of the Products may include open source software. Notwithstanding any clause herein, all open source software is provided WITHOUT ANY WARRANTY INCLUDING WITHOUT LIMITATION ANY IMPLIED WARRANTY OF NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Symantec will make available the required source code for the applicable open source software in response to Customer's request emailed to opensource@Symantec.com.

7. Commercial Third Party Applications. As a convenience to Customer, Symantec may from time to time provide a copy of, or access to, third party products that are not available for licensing from Symantec ("Commercial Third Party Applications"), and which must be licensed by Customer directly from the applicable vendor of that Commercial Third Party Application. This Agreement does not create any right for Customer to use or access in any way such Commercial Third Party Applications. SYMANTEC MAKES NO WARRANTIES AND ASSUMES NO LIABILITY WITH RESPECT TO COMMERCIAL THIRD PARTY APPLICATIONS.

8. Export Control; Government Regulations. Customer hereby acknowledges and agrees that the Products, documents, technical data and any other materials delivered under this Agreement may be subject to U.S. export control and trade sanctions laws, regulations, legislative and regulatory requirements, rules and licenses, ("Export Control and Sanctions Rules"). Customer shall comply with the Export Control and Sanctions Rules including but not limited to the specific regulatory prohibitions of OFAC and the EAR as referenced in Section 1.4(i) herein and agrees that it alone is responsible for ensuring its compliance with Export Control and Sanctions Rules. Customer shall not do anything that would cause Symantec to be in breach of the Export Control and Sanctions Rules. As defined in FAR section 2.101, DFARS section 252.227-7014(a)(1) and DFARS section 252.227-7014(a)(5) or otherwise, all Licensed Products and associated documentation provided in connection with this Agreement are "commercial items," "commercial computer software" and/or "commercial computer software documentation." Consistent with DFARS 252.227.7015 "Technical Data-Commercial Items" (Jun. 2013), FAR 52.227-14 "Rights in Data" (Dec. 2007),d FAR section 12.212, and other applicable DFARS provisions any use, modification, reproduction, release, performance, display, disclosure or distribution thereof by or for the Government shall be governed solely by the terms of this Agreement.

9. **Termination.** When the end user is an instrumentality of the U.S., recourse against the United States for any alleged breach of this Agreement must be made as a dispute under the Contract Disputes Clause (Contract Disputes Act). During any dispute under the Disputes Clause, Symantec shall proceed diligently with performance of this Agreement, pending final resolution of any request for relief, claim, appeal, or action arising under the Agreement, and comply with any non-appealable decision of the Contracting Officer.

10. **Effect of Termination.** Upon termination of this Agreement pursuant to the FAR, the Schedule Pricelist and any applicable Order, Customer agrees to cease all use of the Products and associated documentation, installed or otherwise, and within a reasonable time after termination, verify in writing to Symantec (if requested by Symantec) that the Licensed Products have been uninstalled, and for Hardware (e.g., loaned Hardware), return the Hardware to Symantec by using an RMA number obtained from Symantec or through its authorized reseller.

11. **Warranties and Disclaimer.**

11.1 **Hardware.** Symantec warrants that Hardware will be free from material defects in manufacturing and materials and perform substantially in conformance with their published specifications in the documentation for a period of twelve (12) months from shipment. Customer's exclusive remedy and Symantec's sole liability for breach of this warranty is that Symantec will repair or replace any such non-conforming or defective Hardware. If the Hardware fails during the warranty period, Customer shall promptly notify its reseller of the warranty claim for processing through Symantec via standard RMA Procedures as set forth in the attached Exhibit B, and Symantec will repair or replace the Product in accordance with the applicable warranty procedures. Symantec warrants replacement Hardware for a period of ninety (90) days from shipment. Prior to returning any Hardware to Symantec, Customer shall completely erase all of Customer's confidential information from any storage media. Replacement products and parts, including parts used in hardware repair, may be new or refurbished in Symantec's sole discretion. The warranties set forth herein shall not apply in the event of improper installation, use other than in accordance with the instructions in the associated documentation, or unauthorized modification, alteration, addition or attempts to repair the Hardware.

11.2 **Software.** Symantec warrants that Software will substantially conform to the published specifications contained in the associated documentation for a period of ninety (90) days from the time the Software is shipped or made available for download to Customer. At Symantec's own expense and as its sole obligation and Customer's exclusive remedy for any breach of the foregoing warranty, Symantec shall use commercially reasonable efforts or endeavors to remedy any significant reproducible error in the Software that is reported to Symantec within the warranty period that Symantec can reasonably identify and confirm. The warranty set forth herein shall not apply in the event of improper installation, use other than in accordance with the instructions in the documentation, or unauthorized modification, alteration, addition or attempts to repair the Software.

11.3 **Services and BC Data.** Symantec makes no warranty with respect to Services or any BC Data.

11.4 **Reseller Warranties.** In the event that a Symantec reseller provides any additional or separate warranties or commitments with respect to the Products, such warranties are solely between Customer and its reseller, and Customer shall not attempt to enforce any such warranties or commitments against Symantec.

12. **Warranty Disclaimers and Exclusions.**

12.1 EXCEPT AS OTHERWISE PROVIDED IN SECTIONS 11.1 AND 11.2, CUSTOMER ACKNOWLEDGES THAT THE PRODUCTS ARE PROVIDED ON AN "AS IS" AND "AS AVAILABLE" BASIS, WITHOUT WARRANTY, REPRESENTATION OR CONDITION OF ANY KIND, EXPRESS, STATUTORY, OR IMPLIED, INCLUDING AS TO, BUT NOT LIMITED TO MERCHANTABILITY, NON-INFRINGEMENT, FITNESS FOR A PARTICULAR PURPOSES, SATISFACTORY QUALITY OR ARISING FROM A COURSE OF DEALING, USAGE, OR TRADE PRACTICE.

12.2 CUSTOMER ACKNOWLEDGES AND AGREES THAT SYMANTEC DOES NOT WARRANT THAT: (A) THE PRODUCTS WILL BE UNINTERRUPTED OR ERROR FREE, OR FREE OF VIRUSES OR OTHER HARMFUL COMPONENTS; (B) THE PRODUCTS ARE NOT VULNERABLE TO FRAUD OR UNAUTHORIZED USE; (C) the PRODUCTS, AS APPLICABLE, will always block access to the addresses and applications that are contained therein; (D) the PRODUCTS, AS APPLICABLE, will contain every foreseeable URL address, VIRUS or application that should potentially be blocked; (E) addresses, PATTERN FILES and applications contained in the PRODUCTS, AS APPLICABLE, will be appropriately categorized; (F) THE BC DATA WILL BE ACCURATE OR COMPLETE; OR (G) THE FEATURES, CATEGORIES, OR FUNCTIONALITIES OF THE PRODUCTS WILL BE AVAILABLE AT ANY TIME IN THE FUTURE. CUSTOMER FURTHER ACKNOWLEDGES AND AGREES THAT THE PRODUCTS (i) DO NOT VERIFY THE VALIDITY OF CERTIFICATES FOR WEBSITES IF CUSTOMER ENABLES SSL INSPECTION FUNCTIONALITY AND (ii) MAY DELIVER WEBSITES WITHOUT NOTIFYING CUSTOMER IF THE WEBSITE CERTIFICATES HAVE EXPIRED OR ARE OTHERWISE INVALID, AND THAT SYMANTEC HAS NO LIABILITY FOR EACH OF THE FOREGOING.

12.3 NOTWITHSTANDING ANY OTHER TERM HEREIN, Symantec makes no representations AND UNDERTAKES NO INDEMNIFICATION OBLIGATIONS REGARDING, ARISING FROM OR RELATED TO the legality of monitoring, INSPECTION, DECRYPTION AND/OR RE-ENCRYPTION OF INFORMATION in any particular jurisdiction, and CUSTOMER shall be SOLELY responsible, and Symantec shall have no responsibility for determining that CUSTOMER'S proposed OR ACTUAL use of PRODUCTS OR SERVICES complies with applicable FEDERAL laws. CUSTOMER acknowledgeS and agreeS that IT IS solely responsible for selecting configurations, POLICIES AND PROCEDURES IN PRODUCTS THAT ARE CONFIGURABLE INCLUDING, WITHOUT LIMITATION, THE SELECTION OF FILTERED CATEGORIES AND WEB APPLICATION CONTROLS, AND FOR ASSURING THAT THE SELECTION (A) conforms to CUSTOMER'S policies and procedures and (B) complies with all applicable FEDERAL law.

12.4 CUSTOMER ACKNOWLEDGES AND AGREES THAT SYMANTEC WILL HAVE NO LIABILITY WHATSOEVER FOR ANY CLAIMS, LOSSES, ACTIONS, DAMAGES, SUITS, OR PROCEEDINGS RESULTING FROM: (A) THE MISUSE OF THE PRODUCTS OR SERVICES BY CUSTOMER OR BY THIRD PARTIES, EXCEPT AS PROVIDED BY FEDERAL LAW THAT WOULD OTHERWISE SUPERSEDE THE TERMS OF THIS AGREEMENT, (B) SECURITY BREACHES; (C) EAVESDROPPING, INTERCEPTION, FAILURE OF DELIVERY OR LOSS OF DATA SENT, STORED, OR RECEIVED USING THE PRODUCTS OR SERVICES; OR (D) USE OR LOSS OF CUSTOMER'S SOFTWARE, FIRMWARE, INFORMATION OR MEMORY DATA CONTAINED IN, STORED ON, OR INTEGRATED WITH ANY HARDWARE

OR SOFTWARE RETURNED TO SYMANTEC UNDER THIS AGREEMENT. THESE LIMITATIONS SHALL APPLY EVEN IF SYMANTEC HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES AND NOTWITHSTANDING ANY FAILURE OF ESSENTIAL PURPOSE OF ANY LIMITED REMEDY.

12.5 CUSTOMER may link to third party sites through the use of the PRODUCTS. Third party sites are not under the control of Symantec, and Symantec is not responsible for the contents AND TRANSMISSIONS of any third party sites, any links contained in third party sites, or any changes or updates to third party sites.

12.6 The Products are not designed, manufactured or intended for use in High Risk Activities. Symantec specifically disclaimS any express or implied warranty of fitness for High Risk Activities.

13. **Disclaimers of Liability.** CUSTOMER ACKNOWLEDGES AND AGREES THAT SYMANTEC WILL HAVE NO LIABILITY WHATSOEVER AND SPECIFICALLY excludes liability for (A) any indirect, incidental, special, or consequential damages or loss, (b) loss of profits, (c) loss of data, (d) BUSINESS INTERRUPTION) AND (E) costs of procuring substitute goods, software or services, even if it has been advised of the possibility of such damages, arising out of or in connection with this Agreement.

14. **Limitation of Liability.** Symantec's maximum liability whether for breach of this Agreement or in tort (including negligence) or for any other common law or statutory cause of action arising out of or in connection with this Agreement is limited in the aggregate to two times the fees paid for the SPECIFIC PRODUCT OR Service giving rise to such liability. The foregoing exclusion/limitation of liability shall not apply (1) to personal injury or death caused by Symantec's negligence; (2) for fraud; (3) for express remedies under the law that expressly supersede the terms of this Agreement; or (4) for any other matter for which liability cannot be excluded by law.

15. **[Intentionally Omitted]**

16. **Miscellaneous.** Neither the license to use nor this Agreement are assignable or transferable by Customer without prior written notice, to and written consent from, Symantec; any attempt to do so shall be void. Any consent granted by Symantec shall be subject to the restrictions set forth in this Agreement, including without limitation sub-section 4.3. Assignment by Symantec is subject to FAR 52.232-23 "Assignment of Claims" (Jan. 1986) and FAR 42.12 "Novation and Change-of-Name Agreements" (Sep. 2013). Any notice, report, approval or consent required or permitted hereunder shall be in writing. If any provision of this Agreement shall be adjudged by any court of competent jurisdiction to be unenforceable or invalid, that provision shall be limited or eliminated to the minimum extent necessary so that this Agreement shall otherwise remain in full force and effect and enforceable. The United Nations Convention on Contracts for the International Sale of Goods or the Uniform Commercial Code or similar statutes shall not apply with respect to this Agreement. Any waivers or amendments shall be effective only if made in writing by non-preprinted agreements clearly understood by both parties to be an amendment or waiver and signed by an authorized representative of the respective parties. Both parties agree that this Agreement, the Schedule Pricelist and any applicable GSA Customer Purchase Orders are the complete and exclusive statement of mutual understanding of the parties in regards to the Products and takes precedence over all previous agreements relating to the Products. This Agreement, however shall not take precedence over the terms of the Schedule Pricelist or any specific, negotiated terms on the GSA Customer's Purchase Order.

IN WITNESS WHEREOF, the parties have entered into this Agreement as of the Effective Date.

**Symantec Systems, Inc.
Product Use Guide –
Product-Specific Usage Rights and Restrictions
20 February 2014**

General Comments

Subscription Software with Loaned Hardware Some physical appliances (e.g. some CacheFlow appliances) may be available under a subscription software license with loaned hardware. At the end of the subscription term, customers must either renew their subscription or remove the appliance from service. If the subscription is not renewed or expires, customers shall return the physical appliance and software thereon promptly upon request.

Subscriptions are purchased on a term basis. Standard support is included as part of a subscription. For clarification, but without limitation, if a customer's usage (such as number of users) increases in the middle of a subscription term, the customer must execute a new GSA Customer Purchase Order for the additional usage. In addition, if a subscription expires, services may cease to function. Customers must renew their Subscriptions to avoid loss of functionality.

The customer is responsible for supplying the hardware for software and virtual appliances.

Common Definitions and Terms

"Instance" means an instance of software created by executing the software's setup or install procedure or by duplicating an existing Instance. To "run an Instance" means to load an Instance of the software into memory and execute one or more of its instructions. Once running, an "Instance" is considered to be running (whether or not its instructions continue to execute) until it is removed from memory.

ProxySG

The ProxySG is an appliance ("ProxySG") sold with a perpetual software license. The ProxySG is available as either MACH5 Edition or Proxy Edition. The Proxy Edition includes the MACH5 capabilities, with additional functionality. Certain ProxySG models (SG300-5, SG300-10, SG600-10, SG600-20, SG900-10, SG900-10B, SG900-20, SG510-5, SG510-10, SG510-20, SG810-5, SG810-10, SG810-20) are restricted by maximum concurrent client IP addresses as set forth in the product descriptions. For these platforms, when the maximum number of client IPs is reached, the appliance will (depending on the user configuration) either bypass new connections or queue new connections for later handling. The platforms not specifically listed above will not cap the number of client IPs, but will process traffic from devices until the appliance exhausts available resources.

Several optional add-on features are licensed separately subject to the execution of new or modified Orders. The following options are for use only on the specific ProxySG for which the option is licensed, unless otherwise noted.

- Symantec WebFilter (BCWF). BCWF is available as either a perpetual or a subscription license as set forth below. Both license types are sold on a per user basis. BCWF may be used for no more than the licensed number of BCWF users. For BCWF purposes, a user means any person that may access (through any number of devices such as a mobile device and desktop), at any time, the Internet via a ProxySG that utilizes BCWF. End users without Internet access need not be counted. BCWF licensed for ProxySG may be used on one or more licensed Symantec Proxy Edition appliances provided that usage is in compliance with the above user restriction (BCWF is not available on the ProxySG MACH5 Edition). A perpetual license provides a onetime download of the BCWF database on the ProxySG, but this license does not allow database updates or use of Symantec's WebPulse service. Database updates require a valid BCWF support contract in addition to a BCWF perpetual license.
- Subscription licenses are for the applicable term and must be renewed prior to expiration of the term for continuous service.
- Flash Capability Option. The Flash option, offered with a perpetual license, enables the ProxySG to control, cache and/or split Adobe Flash RTMP, RTMPT, and encrypted RTMP/T traffic.
- Encrypted Tap. The Encrypted Tap option, offered with a perpetual license, enables the ProxySG to process encrypted traffic and output the decrypted content for inspection by separately purchased external system(s). Encrypted Tap is not available on the ProxySG MACH5 edition.
- CachePulse. The CachePulse option, offered on a subscription basis for a specific term, provides caching rules and instruction updates. The CachePulse updates require that the ProxySG appliance has a valid support contract in addition to a CachePulse subscription license.
- Web Applications Protections (WAP). WAP, offered on a subscription basis for a specific term, allows the ProxySG to automatically utilize updated signatures, rules and data for the purposes of securing and protecting web application and content servers from direct Internet threats. WAP is not available on the ProxySG MACH5 Edition. WAP updates require that the ProxySG appliance has a valid support contract in addition to a WAP subscription license.

Secure Web Gateway Virtual Appliance

The Secure Web Gateway Virtual Appliance (SWG VA) is licensed on a subscription basis for the applicable term. SWG VA is licensed based on maximum concurrent client IP addresses. A SWG VA may not be used for more than the number of concurrent client IP addresses for which the subscription has been purchased, and only one Instance of SWG VA may be run per subscription license. When the maximum number of client IP addresses is reached, the virtual appliance will (depending on the user configuration) either bypass new connections or queue new connections for later handling. Unlike the Proxy Edition of ProxySG, the SWG VA does not contain some Proxy Edition (MACH5) optimization features and cannot be upgraded to Proxy Edition. BCWF is included as part of a SWG VA subscription during the applicable SWG VA subscription term for use only on the applicable SWG VA.

Several optional add-on features are licensed separately pursuant to the execution of a new or modified Order. The following options are for use only on the specific SWG VA for which the option is licensed.

- CachePulse. The CachePulse option, offered as a subscription basis for a specific term, provides caching rules and instruction updates.

- Web Applications Protections (WAP), offered on a subscription basis for specific term, allows the SWGVA to automatically utilize updated signatures, rules and data for the purposes of securing and protecting web application and content servers from direct Internet threats.

MACH5 VA

The MACH5 virtual appliance (M5 VA) is licensed on a subscription basis for the applicable term.

M5 VA is licensed based on maximum concurrent client IP addresses. An M5 VA may not be used for more than the number of concurrent client IP addresses for which the subscription has been purchased, and only one Instance of MACH5 may be run per subscription. When the maximum number of client IP addresses is reached, the appliance will (depending on the user configuration) either bypass new connections or queue new connections for later handling. Unlike the MACH5 Edition of ProxySG, the M5 VA is not upgradeable to Proxy Edition or Secure Web Gateway VA.

The following optional add-on features are licensed separately pursuant to the execution of a new or modified Order.. The following options are for use only on the specific MACH5VA for which the option is licensed.

- Flash Capability Option. The Flash option, offered on a subscription basis for a specific term, enables the proxy to control, cache and/or split Adobe Flash RTMP, RTMPT, and encrypted RTMP/T traffic.
- CachePulse. The CachePulse option, offered on a subscription basis for a specific term, provides caching rules and instruction updates.

Data Loss Protection (DLP)

DLP is an appliance sold with a perpetual software license. The DLP appliance requires a Network DLP and/or Discovery DLP. Network DLP (designed to inspect and apply policy on network communications such as HTTP, FTP, SMTP and Webmail) and Discovery DLP (designed to scan workstations and file services for sensitive data) are each sold on a subscription basis. Network DLP and Discovery DLP may not be used for more than the number of users for which the subscription has been purchased. For Network and Discovery DLP purposes only, a user means any unique log-in ID (employees, agents, consultants and/or independent contractors (collectively referred to as "personnel," hereinafter or guests, etc.).

Cloud Services

Symantec offers multiple cloud services, such as the Web Security Service (WSS), Mobile Device Security (MDS), and Hosted Reporting services, subject to the terms and conditions set forth in the separate Cloud Services Agreement and pursuant to the execution of a new or modified Order.

ProxyAV

ProxyAV is an appliance sold with a perpetual software license. ProxyAV requires an anti-virus (AV) subscription to function.

Subscriptions include updates to pattern files containing information to identify viruses or malicious software. A ProxyAV (and the applicable subscription) may be used for no more than the number of users for which the subscription has been purchased, which is stated as a quantity in an applicable Order. A user means, for purposes of ProxyAV, any person that may access the internet via one or more ProxySG(s) that are configured to send traffic to the applicable ProxyAV appliance for services. If a subscription expires or terminates, services will cease to update on the ProxyAV appliance.

Content Analysis System

Content Analysis System (CAS) is an appliance sold with a perpetual software license. CAS requires a separately purchased applicable File Inspection subscription to function. A File Inspection subscription (designed to provide virus protection and file whitelisting functionality) provides updates to pattern files containing information to identify viruses or malicious software. A CAS appliance (and applicable subscription) may not be used for more than the number of users for which the subscription has been purchased, which is stated as a quantity in an applicable Order. A user means, for purposes of CAS, any person that may access the internet via one or more ProxySG(s) and/or SWG VA(s) that are configured to send traffic to the applicable CAS appliance for services. If a subscription expires or terminates, services will cease to update on the CAS appliance. CAS includes the capability to direct files to other products, but such technologies are subject to the execution of a new or modified Order.

Malware Analysis Appliance

The Malware Analysis Appliance (MAA) is an appliance sold with a perpetual software license. In addition to the appliance perpetual license, a subscription license is required per appliance in order to receive access to profile plugins and detection pattern updates provided as part of the MAA's functionality. As part of its functionality, third party applications can also be installed on a VM profile on the MAA. Symantec does not provide any such third party applications, with the exception of Microsoft® Windows® System software. Except for Windows, the user is solely responsible for procuring and licensing properly any third party applications. The following applies with regard to Microsoft Windows:

The MAA Product is provided with a Microsoft Product Identifier Card that includes Microsoft Certificates of Authenticity (COAs), with the COAs provided based on the customer's representation to Symantec as to whether or not it has in place a valid Microsoft Volume Licensing Agreement that includes Software Assurance.

For customers purchasing the Symantec Malware Analysis Appliance with a valid Microsoft Volume Licensing Agreement that includes Software Assurance

User must have a valid Microsoft Volume Licensing agreement and must purchase Microsoft's Software Assurance for each COA provided. The user is licensed to use any combination of the following Microsoft Windows Operating System products running in simultaneous Instances, provided that in no event may the number of simultaneously running Instances exceed the number of COAs provided on the Microsoft Product Identifier Card.

- Microsoft® Windows® XP Professional for Embedded Systems ESD (Virtualization Only)
- Windows® 7 Professional for Embedded Systems ESD (Virtualization Only)

For customers purchasing the Symantec Malware Analysis Appliance without a valid Microsoft Volume Licensing Agreement that includes Software Assurance

If the user is not party to a valid Microsoft Volume Licensing agreement that includes Software Assurance, the COAs provided on the Microsoft Product Identifier card will be product-specific, with the same number of COAs provided for each available product. In this case, the user is licensed to use any combination of Microsoft Windows Operating System products running in simultaneous Instances, provided that in no event may the number of simultaneously running Instances exceed a number equal to the number of COAs provided for each relevant product. (That is, if, for example, the Microsoft Product Identifier card shipped with the product includes 12 COAs for Windows XP Professional and 12 COAs for Windows 7 Professional, the product may run up to 12 total Instances of any combination of products).

For these purposes, the following definitions apply:

- “Operating System Environment” or “OSE” means all or part of an operating system Instance, or all or part of a virtual (or otherwise emulated) operating system Instance which enables separate machine identity (primary computer name or similar unique identifier) or separate administrative rights, and instances of applications, if any, configured to run on the operating system Instance or parts identified above. There are two types of OSEs, physical and virtual. A physical hardware system can have one Physical OSE and/or one or more Virtual OSEs.
- “Physical OSE” means an OSE that is configured to run directly on a physical hardware system. The operating system Instance used to run hardware virtualization software (e.g. Microsoft Hyper-V or similar third-party technologies) or to provide hardware virtualization services (e.g. Microsoft virtualization technology or similar third-party technologies) is considered part of the Physical OSE.
- “Virtual OSE” means an OSE that is configured to run on a virtual hardware system.

SSL Visibility

The SSL Visibility Appliance is a physical appliance sold with a perpetual software license.

PacketShaper

The PacketShaper is an appliance sold with a perpetual software license. Depending on the platform, the options, requirements and restrictions vary.

Without any separately-purchased options, the PacketShaper 900, PacketShaper 1700, PacketShaper 3500, PacketShaper 7500, PacketShaper 10000 and PacketShaper 12000 appliances run in monitor only mode. In this mode, the PacketShaper only provides visibility functionality. Additional functionality is available pursuant to the execution of a new or modified Order.

. The following options are for use only on the specific PacketShaper for which the option is purchased.

- Shaping Keys provide Quality of Service (QoS) and packet shaping. Shaping is licensed on a perpetual basis by the throughput managed. For example, if a customer wants to manage a 10 Mbps WAN link he or she would purchase a 10M Shaping license that may manage 10 Mbps inbound and 10 Mbps outbound or 20 Mbps of total bandwidth.
- Compression Keys compress traffic on the customer’s network and are provided with a perpetual license.
- The PacketShaper 12000 offers an “ISP 10000” option allowing the creation and use of up to 10,000 classes when using the ISP build of software. Without this license, the system will limit to 5,000 classes with the ISP build or 2,048 classes when running the standard build.
- WebPulse Services. WebPulse Services queries Symantec’s WebPulse cloud service for URL category and web application classification information. Currently, use of WebPulse services on a PacketShaper product requires a valid support contract for the specific PacketShaper product. The PacketShaper product will regularly query Symantec’s support servers to verify entitlement.

The PacketShaper S500 (PS-S500) requires a separately purchased shaping license to function (unlike other PacketShapers which have monitor only option). Shaping is subject to a perpetual license, which restricts the inbound and outbound throughput that is managed by the PS-S500. For example, if a customer wants to manage a 5 Gbps WAN link they would purchase a 5G Shaping license that can manage up to 5 Gbps inbound bandwidth and 5 Gbps outbound bandwidth. Increasing the licensed bandwidth also increases certain other specifications of the unit including dynamic partitions as well as managed hosts and flows.

The following optional add-on feature is licensed separately for the PS-S500 pursuant to the execution of a new or modified Order. The option is for use only on the specific PacketShaper for which the option is licensed.

- WebPulse Services. WebPulse Services queries Symantec’s WebPulse cloud service for URL category and web application classification information. Currently, use of WebPulse services on a PacketShaper requires a valid support contract for the specific PacketShaper pursuant to the execution of an Order.
- . The PacketShaper will regularly query Symantec’s support servers to verify entitlement.

Notes: the PacketShaper S500 does not offer compression or acceleration options or varying class levels.

CacheFlow

CacheFlow is an appliance sold with a perpetual software license (and, in some cases, as a subscription with loaned hardware as described below) pursuant to the execution of an Order.

. The following data is available for CacheFlow appliances.

- Symantec WebFilter (BCWF). BCWF for CacheFlow is licensed 1) on a per CacheFlow appliance basis or 2) based on the number of concurrent (maximum simultaneous) users with a user being defined as any end user that accesses the Internet via a CacheFlow that utilizes BCWF. This perpetual license is offered for a one time download of the BCWF database on the CacheFlow device, but this license does not allow database updates or use of Symantec’s WebPulse service. Database updates require a valid BCWF support contract pursuant to the execution of an Order.

- CachePulse. The CachePulse service provides caching rules and instruction updates. CachePulse service is provided for the CacheFlow appliance with a valid support contract for such appliance and pursuant to the execution of an Order.

Other CacheFlow Notes: CacheFlow appliances are configured to send information consisting of aggregated statistics to Symantec subject to Government security requirements if agreed-upon and stated in the Order. This functionality cannot be disabled. Such information includes, but is not limited to, basic network configuration for each network interface; bandwidth used by HTTP services; HTTP request/response attributes (e.g. cacheable, non-cacheable, non-cacheable reasons); operation of the object cache (per-disk and overall); raw system resources such as: per-cpu usage and memory pressure, and calculated resources such as: resource load, bandwidth savings; hardware diagnostics reporting (disks, memory, networks interfaces, and power supply); and CachePulse feedback consisting of domain popularity and caching effectiveness. Symantec will also collect health information for appliances that are currently or was recently in a 'Warning' or 'Critical' state. If BCWF is enabled, a summary containing content filter configuration details (including the database provider, last upload time, and services in use) is included. Following a reboot of the appliance, the following information will also be sent to Symantec: the reason for the restart; software traceback information, in case of an unexpected software crash (this data allows for preliminary software crash analysis, before a more detailed (and larger) context core file is uploaded to Symantec); core image summary, specifically detailing the number of core images on the appliance.

Security Analytics Platform

The Security Analytics platform is offered as a physical or virtual appliance or as software. Physical appliances are sold with a perpetual software license pursuant to the execution of an Order.

Software and Virtual Appliances are licensed on either a perpetual or subscription basis.

Several optional add-on features are licensed separately pursuant to the execution of an Order. The following options are for use only on the specific Security Analytics platform for which the option is licensed.

- **Retention.** Security Analytics includes a base amount of indexed data retention. Retention defines the amount of aggregate Metadata and Packet storage data a Security Analytics appliance will be able to address and is enforced in the system. To increase retention, additional storage must be ordered pursuant to the execution of a new or modified Order.

- **ThreatBLADEs.** ThreatBLADE subscriptions provide additional functionality to the Security Analytics platform. Subscriptions allow access to the applicable ThreatBLADE service for the subscription term. ThreatBLADE subscriptions may not be used for more than the number of users for which subscriptions have been purchased as indicated in an applicable Order. For purposes of ThreatBLADEs, a "user" means any person who may have his or her activity recorded, at any time during the subscription period, in the Security Analytics platform(s).
- **WebThreat BLADE** provides URL category information as well as file information for content traversing Web protocols, i.e. HTTP and unencrypted HTTPS.
- **FileThreat BLADE** provides file information for content traversing File Transfer protocols, i.e. FTP, tFTP, NFS, SMB.
- **MailThreat BLADE** provides file information for content traversing the E-Mail protocols, i.e. SMTP, POP3 and IMAP.

ThreatBLADE updates require a valid support contract for the Security Analytics appliance pursuant to the execution of an Order.

Security Analytics Platform Central Manager. The Security Analytics Central Manager is offered as a physical or virtual appliance or as software pursuant to the execution of an Order. Physical appliances are sold with a perpetual software license. Software and Virtual Appliances are licensed on either a perpetual or subscription basis.

X-Series

The X-Series system consists of a chassis and separately purchased hardware modules and hardware accessories. The minimum X-Series configuration for a functioning system requires the ordering of each of the following modules, which are offered on a perpetual basis for use on an X-Series chassis pursuant to the execution of a new or modified Order.

- **Application Processor Module (APM).** APMs provide the capability to run applications on the X-Series chassis. X-Series systems require at least one APM. APMs run additional software applications from third parties (such as Checkpoint, Imperva, Cisco (Sourcefire) or Intel Security Public Sector, Inc.) that must be separately licensed from the applicable third party and may have additional license restrictions.
- **Network Processor Module (NPM).** NPMs provide network connectivity to the external network and within the X-Series system. X-Series systems require at least one NPM.
- **Control Processor Module (CPM).** CPMs provide a variety of controls the X-Series system. X-Series systems require at least one CPM.

In addition, the following option is licensed separately pursuant to the execution of a new or modified Order and is used only on the specific X-Series for which the option is licensed.

- **X-Series Routing Software (RSW).** The RSW application is licensed on a perpetual basis and is a set of dynamic routing protocol features that can be applied to an X-Series system. RSW may only be used on a single X-Series system. An additional RSW license must be purchased pursuant to the execution of a new or modified Order for each X-Series system on which the RSW will run.

X-Series Management System (XMS)

The X-Series Management System (XMS) is software offered with a perpetual license for managing X-Series systems.

Customers may not run more than one Instance of XMS for each XMS license purchased. XMS may be used to manage no more than the number of X-Series systems for which licenses(s) have been purchased.

Management Center

Management Center (MC) is a virtual appliance with a subscription license for a specific term. MC is designed to run on a virtual machine (VMware ESX 5.x, Fusion 6.x). Customers may not run more than one Instance of MC for each MC subscription purchased. A MC virtual appliance may be used to manage no more than the number of devices (IP addresses or other registered devices in the MC) for which subscription(s) have been purchased.

Reporter

Reporter is software offered with a perpetual license for reporting on ProxySG access logs. Customers may not run more than one Instance of Reporter for each Reporter purchased. Additional license(s) are required for each Instance of Symantec Reporter and pursuant to the execution of a new or modified Order. Reporter has three versions with different licensing restrictions:

- Standard Edition. Reporter Standard Edition is available without an additional fee with a valid ProxySG support contract and may not be used to report on more than 50 million log lines.
- Enterprise Edition. Reporter Enterprise Edition may not be used to report on more than 2.5 billion log lines and has a perpetual software license.
- Premium Edition. Reporter Premium Edition may not be used to report on more than 20 billion log lines and has a perpetual software license.

Director

Director is offered as a physical or virtual appliance, with a perpetual software license (for both the physical and virtual appliance), for managing ProxySGs, MACH5 VAs and/or SWG VAs. Director may only be used to manage a maximum of 300 (physical and/or virtual) appliances at any time. For the Director virtual appliance, customers may not run more than one Instance of Director for each Director virtual appliance license purchased.

IntelligenceCenter

IntelligenceCenter (IC) is software offered with a perpetual license for reporting on PacketShapers. The IC base license includes the IC application and a single Data Collector. With the base license, a customer may report on only a single device. A customer may run no more than one Instance of IC per base license.

- Additional Devices. Additional device upgrade license(s) must be ordered pursuant to the execution of a new or modified Order to report on additional devices. Device upgrade licenses require a base license. The number of devices configured to be reported on by IC may not exceed the number of devices stated in an applicable Order.
- Data Collector (DC). Additional DC licenses are required to collect data in more than one database. A customer may run no more than one Instance of DC per DC license.

PolicyCenter

PolicyCenter (PC) is software offered with a perpetual license for managing PacketShapers. With the PC base license, a customer may manage only a single device. A customer may run no more than one Instance of PC per base license.

- Additional Devices. Additional device upgrade license(s) must be purchased pursuant to the execution of a new or modified Order to report on additional devices. Device upgrade licenses require a base license. The number of devices configured to be reported on by IC may not exceed the number of devices for which license fees have been paid.
- Data Collector (DC). Additional DC licenses are required to collect data in more than one database. A customer may run no more than one Instance of DC per DC license.

**EXHIBIT B
RMA PROCEDURES**

(a) Symantec – Returned Material Authorization (RMA) Process

Symantec provides RMA Advanced Hardware Exchanges to those customers who have a valid entitlement under product warranty or a service contract. Below are the steps to take to initiate a RMA.

1. Open a technical support case via [BlueTouch Online](#) or contact [Technical Support](#).
2. A technical support engineer will work with you to troubleshoot the issue and verify whether a hardware repair or replacement is required.
3. If a hardware replacement is required, the technical support engineer will initiate the RMA by obtaining the following customer information:
 - o Company Name
 - o Shipping Address
 - o Contact Name
 - o Contact Phone Number
 - o Contact email address
 - o Problem Description
 - o Product Model Number
 - o Product Serial Number
4. When the RMA has shipped, the customer will receive a shipment notification which will include instructions regarding the defective hardware return.
5. If the defective hardware is not returned in a timely manner (within 10 days), the customer will be contacted. Customers may also contact Symantec for return instructions, ma@Symantec.com.

(b) RMA Return Instructions (Advanced Exchange)

When returning products to Symantec Systems, follow the return instructions provided with the RMA replacement shipment. Symantec products should be returned within 5 business days from date of receipt. The customer will receive a follow up phone call from Symantec Systems to ensure the return takes place.

Parts deemed consumable by Symantec do not require a RMA and will not include return instructions unless required by local environmental regulations (such as the European Union WEEE Regulation). Parts such as power supplies and fans fall into this category.

Defective products that are not received by Symantec Systems within ten (10) days of receipt are subject to invoicing for the full GSA Schedule List Price. All material returned to Symantec Systems must follow the return instructions. Symantec Systems reserves the right to refuse shipments that do not include (at minimum) the RMA number. For inspection prior to repair, all parts should be free from dirt, grease, oil, finger print, localized permanent marks, and other foreign substances. Dust caused by shipping material chafing is acceptable if it can be brushed off or blown off with air. Symantec Systems reserves the right to refuse shipments that are not in acceptable repair condition. If you have any questions regarding a RMA return or did not receive return instructions with your shipment, please contact ma@Symantec.com.

(c) Requesting Status on Existing RMA's

Forward all questions regarding shipment, status, customs, duties and taxes to ma@Symantec.com. Please reference your RMA number when submitting these inquiries. Customers may also access RMA status via [BlueTouch Online](#) utilizing the [RMA Status](#) link.

(i) Symantec Hardware Replacement Shipping Terms and Conditions

Symantec's hardware replacement shipping terms are determined by the active Support Agreement level in place for the product serviced under the RMA.

Hardware Replacement

(1) Chassis Replacement Unit Policy

Effective October 24, 2012, select RMA's will consist of either a Field Replaceable Unit (FRU) or a Chassis Replacement Unit (CRU) as defined in the below table. Symantec will no longer ship full replacement units for the product models listed in the below table. If Symantec determines a replacement chassis is required after appropriate trouble shooting with diagnostic tools, Symantec will ship the CRU as replacement hardware. The CRU is a replacement chassis without the following parts: System Hard Drives, Power Supplies, Power Cables, Rail Kits and Add-on cards (Excluded Parts). Customers are required to remove the Excluded Parts, subject the exception below*, from their existing hardware and transfer them to the CRU unit prior to shipping the defective unit to Symantec. Any Excluded Parts received by Symantec will be forfeited and not returned. This CRU policy does not apply to RTF hardware support.

Model	Failed Part	Replacement Hardware
SG900, SG9000, SG200, S400, S500, CF5000, AV1200*, AV1400*, AV2400*	Hard Drives, System Fans, Power Supplies, Add-on Cards	FRU
	Motherboards, Memories, CPUs, Front Panel Displays Other HQ components	CRUs

*For hardware-related issues where diagnostics cannot be run for the AV1200, AV1400, AV2400, Symantec will ship a CRU containing hard drives. Customers will need to ship back the defective unit without removing the hard drives.

(2) For all other models:

A like-model or newer replacement unit will be shipped using a Symantec shipping partner. RMA Requests received during regular business hours and deemed necessary by Technical Support before the RMA cut off time (per the table below) will have replacement hardware shipped same day. Requests received or verified by Symantec Technical Support after the RMA cut off time will ship the following business day. Actual delivery time will vary dependent upon shipping origin and destination. Out-of-box warranty shipments may require additional time to ship.

(ii) RMA Cut-Off Times

*(Daylight Savings Time observances may affect RMA cut-off times where applicable)

Support Center	Standard Business Hours	RMA Cut-Off Time
----------------	-------------------------	------------------

Americas

Mon-Fri
06:00 to 18:00
Pacific Time Zone

Mon-Fri, 13:00
Pacific Time Zone

(d) RMA Licensing Information

Please follow the RMA licensing procedures listed below to properly register the unit received with Symantec Systems. If you have any questions pertaining to the licensing process, contact Symantec at customer care@Symantec.com.

(i) Licensing SG Products

Symantec depots stock units with predefined OS versions based on platform type since at the time of stocking it is unknown what version the recipient will be running. You may therefore need to downgrade or upgrade the proxy upon receipt. This can be done by navigating to <http://download.Symantec.com>.

For customers running SGOS version 3 or greater, Symantec has already transferred your license and software options from the defective unit to your replacement unit in Symantec's licensing database. The defective unit is now registered under Symantec and has a 60 day demo license key associated with the unit. To license the replacement unit, retrieve the new key while configuring your unit through the Management Console (Maintenance/Licensing/Install/ Retrieve active keys from Symantec). This will require your BlueTouch Online login.

(ii) Licensing AV Products

To license the replacement unit, log into Symantec Licensing Portal, click Symantec ProxyAV, click Swap Licenses From Hardware Serial Number: enter defective unit SN, To Hardware Serial Number: enter replacement unit SN, click Next, click Swap. Retrieve License file from Management Console of replacement ProxyAV unit.

(1) Licensing PacketShaper Products

Symantec depots stock units with predefined OS versions based on platform type since at the time of stocking it is unknown what version the customer will be running. You may therefore need to downgrade or upgrade the PacketShaper upon receipt. This can be done by navigating to <http://download.Symantec.com>.

Once you receive the license key(s) from support, follow the instructions below for license key installation.

1. Login to the PacketShaper command-line interface via the console cable, SSH or telnet.
2. Copy and paste the lines provided (setup key add ...)
3. To complete the installation, issue the command "reset" to reboot the unit.
4. To verify the installation was successful, issue the command, "setup key show".

(e) X-Series RMA Process

If Symantec diagnoses that a reported problem is due to a failed X-Series product, Customer may request a Return Material Authorization ("RMA") number. After Symantec assigns one, Customer will be authorized to return the defective product to a Symantec repair facility. After assigning an RMA number, Symantec will make commercially reasonable efforts to ship that day, at its expense, a replaceable hardware component to arrive at the Customer's designated location following completion of Symantec's diagnosis, provided that the diagnosis is completed prior to 4:00 p m EST for shipments out of Symantec's U.S. facility. If diagnosis is completed after that time, then Symantec shall dispatch a field replaceable hardware product component for arrival at the Customer's site location on the second business day with fastest delivery option following completion of diagnosis. Replacement products may be refurbished or contain refurbished materials. Customer shall promptly return the failed component to Symantec, which component shall become the property of Symantec on an exchange basis. If Symantec does not receive the failed component within fifteen (15) business days of receipt of the replacement component, then Symantec shall invoice the then- GSA Schedule List Price of the replaced component. Symantec will ship replacement products on a next available business day delivery basis, but actual delivery time of hardware components to a Customer's designated location is subject to transit time. The term "business day" refers to a week day other than a federal holiday.

The Customer is responsible for the following:

- Obtaining an RMA number from the Symantec technical support center
- Packaging and shipping RMA products according to Symantec's standard RMA procedure
- Providing accurate site locations, contact information and specific product information with regard to all Symantec products under maintenance
- Where Symantec authorized engineers are to provide on-site replacement services, providing the Symantec field engineer with access to the site, subject to Government security requirements.

Failure to comply with any of the requirements in this section could affect Symantec's ability to provide effective service for your X-Series product, and Symantec cannot be held responsible where its service is affected by the customer's failure to comply.

SYMANTEC MAINTENANCE AND SUPPORT GSA PRICING (CATEGORY M)

Price Category	Product Code	Description	MSRP (%)	GSA Discount
Product New Support (excluding CacheFlow)				
M	Standard	End Customer Support, Level 1->3 Software Support & Return to Factory Hardware Support	13.0%	8%
M	Standard Plus	End Customer Support, Level 1->3 Software Support & Same Day Shipment Hardware Support	15.0%	8%
M	Advanced	End Customer Support, Level 1->3 Software Support & Next Business Day Delivery Hardware Support	17.0%	8%

Tanium
1625 Shattuck Ave., Suite 200
Berkeley, CA 94709

**EC America Rider to Product Specific License Terms and Conditions
(for U.S. Government End Users)**

1. **Scope.** This Rider and the attached **Tanium** (“Manufacturer”) product specific license terms establish the terms and conditions enabling EC America (“Contractor”) to provide Manufacturer’s information technology products and services to Ordering Activities under EC America’s GSA MAS IT70 contract number GS-35F-0511T (the “Schedule Contract”). Installation and use of the information technology shall be in accordance with this Rider and Manufacturer Specific Terms attached hereto, unless an Ordering Activity determines that it requires different terms of use and Manufacturer agrees in writing to such terms in a valid delivery order placed pursuant to the Schedule Contract.

2. **Applicability.** Whereas GSA and EC America agreed at the time of Schedule Contract award upon a base set of terms and conditions applicable to all manufacturers and items represented on the Schedule Contract; and Whereas, the parties further agreed that all product specific license, warranty and software maintenance terms and conditions would be submitted at the time each new manufacturer was to be added to the Schedule Contract; Now, Therefore, the parties hereby agree that the product specific license, warranty and software maintenance terms set forth in Attachment A hereto (the “Manufacturer Specific Terms” or the “Attachment A Terms”) are incorporated into the Schedule Contract, but only to the extent that they are consistent with federal law (e.g., the Anti-Deficiency Act (31 U.S.C. § 1341), the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 *et seq.*), the Prompt Payment Act (31 U.S.C. §§ 3901 *et seq.*), the Anti-Assignment statutes (31 U.S.C. § 3727 and 41 U.S.C. § 15), DOJ’s jurisdictional statute 28 U.S.C. § 516 (Conduct of Litigation Reserved to the Department of Justice (DOJ)), and 28 U.S.C. § 1498 (Patent and copyright cases)). To the extent any Attachment A Terms are inconsistent with federal law (See, FAR 12.212(a)), such inconsistent terms shall be superseded, unenforceable and of no legal force or effect in all resultant orders under the Schedule Contract, including but not limited to the following provisions:
 - a) **Contracting Parties.** The GSA Customer (“Licensee”) is the “Ordering Activity”, defined as the entity authorized to order under GSA MAS contracts as set forth in GSA ORDER ADM 4800.2G (Feb 2011), as may be revised from time to time.

 - b) **Changes to Work and Delays.** Subject to GSAR Clause 552.243-72, Modifications (Federal Supply Schedule) (July 2000) (Deviation I – SEPT 2010), and 52.212-4(f) Excusable Delays (JUN 2010) regarding which the GSAR and the FAR provisions take precedence.

 - c) **Contract Formation.** Subject to FAR 1.601(a) and FAR 43.102, the GSA Customer Purchase Order must be signed by a duly warranted Contracting Officer, in writing. The same requirement applies to contract modifications affecting the rights of the parties. All terms and conditions intended to bind the Government must be included within the contract signed by the Government.

 - d) **Termination.** Clauses in the Manufacturer Specific Terms referencing termination, suspension and/ or cancellation are superseded and not applicable to any GSA Customer order. Termination shall be governed by the FAR, the underlying GSA Schedule Contract and the terms in any applicable GSA Customer Purchase Orders. If the Contractor believes the GSA Customer to be in breach, it must file a claim with the Contracting Officer and continue to diligently pursue performance. In commercial item contracting under FAR 12.302(b), the FAR provisions dealing with disputes and continued performance cannot be changed by the Contracting Officer.

 - e) **Choice of Law.** Subject to the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 *et seq.*), the validity, interpretation and enforcement of this Rider shall be governed by and construed in accordance with the federal laws of the United States. In the event the Uniform Computer Information Transactions Act (UCITA) or any similar federal laws or regulations are enacted, to the extent allowed by federal law, they will not apply to this Rider or the underlying Schedule Contract.

 - f) **Equitable remedies.** Equitable remedies are generally not awarded against the Government absent an express statute providing therefore. In the absence of a direct citation to such a statute, all clauses in the Manufacturer Specific Terms referencing equitable remedies are superseded and not applicable to any GSA Customer order.

 - g) **Unilateral Termination.** Unilateral termination by the Contractor does not apply to a GSA Customer Purchase Order and all clauses in the Manufacturer Specific Terms referencing unilateral termination rights of the Manufacturer are hereby superseded.

 - h) **Unreasonable Delay.** Subject to FAR 52.212-4(f) Excusable delays, the Contractor shall be liable for default unless the nonperformance is caused by an occurrence beyond the reasonable control of the Contractor and without its fault or negligence such as, acts of God or the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, unusually severe weather, and delays of common carriers. The Contractor shall notify the Contracting Officer in writing as soon as it is reasonably possible after commencement of any excusable delay, setting forth the full particulars in connection therewith, shall remedy such occurrence with all reasonable dispatch and shall promptly give written notice to the Contracting Officer of the cessation of such occurrence.

 - i) **Assignment.** All clauses regarding the Contractor’s assignment are subject to FAR 52.232-23, Assignment of Claims (JAN 1986) and FAR 42.12 Novation and Change-of-Name Agreements (Sep. 2013). All clauses governing the Contractor’s assignment in the Manufacturer Specific Terms are hereby superseded.

- j) **Waiver of Jury Trial.** Waivers of Jury Trials are subject to FAR 52.233-1 Disputes (JULY 2002). The Government will not agree to waive any right that it may have under federal law. All clauses governing a waiver of jury trial in the Manufacturer Specific Terms are hereby superseded.
- k) **Government Indemnities.** This is an obligation in advance of an appropriation that violates anti-deficiency laws (31 U.S.C. § 1341 and 41 U.S.C. § 6301), since the GSA Customer commits to pay an unknown amount at an unknown future time. The violation occurs when the commitment is made, i.e., when the agreement featuring this clause is incorporated into a Government contract, and not when the clause is triggered. The FAR 12.216 prohibit such indemnifications. All Manufacturer Specific Terms referencing customer indemnities are hereby superseded.
- l) **Contractor Indemnities.** All Manufacturer Specific Terms that violate DOJ's jurisdictional statute (28 U.S.C. § 516) by requiring that the Government give sole control over the litigation and/or settlement to the Contractor are hereby superseded. Nothing contained in the Manufacturer's Specific terms shall be construed in derogation of the U.S. Department of Justice's right to defend any claim or action brought against the U.S., pursuant to its jurisdictional statute.
- m) **Renewals.** All Manufacturer Specific Terms that provide for automatic renewals violate the Anti-Deficiency Act and are hereby superseded. This is an obligation in advance of an appropriation that violates anti-deficiency laws (31 U.S.C. § 1341 and 41 U.S.C. § 6301), since the GSA Customer commits to pay an unknown amount at an unknown future time. The violation occurs when the commitment is made, i.e., when the agreement featuring this clause is incorporated into a Government contract, and not when the clause is triggered.
- n) **Future Fees or Penalties.** All Manufacturer Specific Terms that require the Government to pay any future fees, charges or penalties are hereby superseded unless specifically authorized by existing statutes, such as the Prompt Payment Act (31 U.S.C. § 3901 *et seq.*) or Equal Access To Justice Act (5 U.S.C. § 504; 28 U.S.C. § 2412).
- o) **Taxes.** Taxes are subject to FAR 52.212-4(k), which provides that the contract price includes all applicable federal, state, local taxes and duties. Notwithstanding the foregoing, Contractor shall state separately on its invoices, taxes excluded from the fees, and the GSA Customer agrees to either pay the amount of the taxes (based on the current value of the equipment or services) to Contractor or provide it evidence necessary to sustain an exemption, in accordance with FAR 52.229-1 and FAR 52.229-3.
- p) **Third Party Terms.** When the end user is an instrumentality of the U.S., no license terms bind the GSA Customer unless included verbatim (not by reference) in the EULA, and the EULA is made an attachment to the underlying GSA Schedule Contract. All terms and conditions affecting the GSA Customer must be contained in a writing signed by a duly warranted Contracting Officer. Any third party manufacturer shall be brought into the negotiation, or the components acquired separately under federally-compatible agreements, if any. All Manufacturer Specific Terms that incorporate third party terms by reference are hereby superseded.
- q) **Dispute Resolution and Standing.** Any disputes relating to the Manufacturer Specific Terms or to this Rider shall be resolved in accordance with the FAR, the underlying GSA Schedule Contract, any applicable GSA Customer Purchase Orders, and the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 *et seq.*). The Ordering Activity expressly acknowledges that EC America as contractor, on behalf of the Manufacturer, shall have standing to bring such claim under the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 *et seq.*).
- r) **Advertisements and Endorsements.** Pursuant to GSAR 552.203-71, use of the name or logo of any U.S. Government entity is prohibited. All Manufacturer Specific Terms that allow the Contractor to use the name or logo of a Government entity are hereby superseded.
- s) **Public Access to Information.** EC America agrees that the attached Manufacturer Specific Terms and this Rider contain no confidential or proprietary information and acknowledges the Rider shall be available to the public.
- t) **Confidentiality.** Any provisions in the attached Manufacturer Specific Terms that require the Ordering Activity to keep certain information confidential are subject to the Freedom of Information Act (5 U.S.C. § 552), and any order by a United States Federal Court. When the end user is an instrumentality of the U.S. Government, neither this Rider, the Manufacturer's Specific Terms nor the Schedule Price List shall be deemed "confidential information" notwithstanding marking to that effect. Notwithstanding anything in this Rider, the Manufacturer's Specific Terms or the Schedule Contract to the contrary, the GSA Customer may retain such Confidential Information as required by law, regulation or its bonafide document retention procedures for legal, regulatory or compliance purposes; provided however, that such retained Confidential Information will continue to be subject to the confidentiality obligations of this Rider, the Manufacturer's Specific Terms and the Schedule Contract.
- u) **Alternate Dispute Resolution.** The GSA Customer cannot be forced to mediate or arbitrate. Arbitration requires prior guidance by the head of a federal agency promulgated via administrative rulemaking according to 5 U.S.C. § 575(c). GSA has not issued any because it considers the Board of Contract Appeals to be an adequate, binding ADR alternative. All Manufacturer Specific Terms that allow the Contractor to choose arbitration, mediation or other forms of alternate dispute resolution are hereby superseded.
- v) **Ownership of Derivative Works.** Provisions purporting to vest exclusive ownership of all derivative works in the licensor of the standard software on which such works may be based are superseded. Ownership of derivative works should be as set forth in the copyright statute, 17 U.S.C. § 103 and the FAR clause at 52.227-14, but at a minimum, the GSA Customer shall receive unlimited rights to use such derivative works at no further cost.

3. Order of Precedence/Conflict. To the extent there is a conflict between the terms of this Rider and the terms of the underlying Schedule Contract or a conflict between the terms of this Rider and the terms of an applicable GSA Customer Purchase Order, the terms of the GSA Schedule Contract or any specific, negotiated terms on the GSA Customer Purchase Order shall control over the terms of this Rider. Any capitalized terms used herein but not defined, shall have the meaning assigned to them in the underlying Schedule Contract.

**ATTACHMENT A
CONTRACTOR SUPPLEMENTAL PRICELIST INFORMATION AND TERMS**

TANIUM

TANIUM LICENSE, WARRANTY AND SUPPORT TERMS

1. **Grant of License.** During the term listed on the ordering documents, Contractor grants Licensee a revocable, nontransferable, nonexclusive license to use the object code version of the software identified in the attached cover sheet or other order document governed by this Agreement and any accompanying documentation (collectively, the “**Software**”) for Licensee’s internal use only on the Licensed Machines. The term “Software” will include any updates, bug fixes, and versions (collectively, “**Enhancements**”) provided by Contractor in connection with Support Services, as defined in Section 0. The Software is licensed to Licensee, not sold. Except for the limited license granted above, Contractor and its licensors retain all right, title and interest in the Software, all copies thereof, and all proprietary rights in the Software, including copyrights, patents, trademarks and trade secret rights.
2. **Restrictions.** The license granted to Licensee is restricted as follows:
 - **Limitations on Copying and Distribution.** Licensee may not copy or distribute the Software except to the extent that copying is necessary to use the Software for purposes set forth herein. Licensee may make a single copy of the Software for backup and archival purposes.
 - **Limitations on Reverse Engineering and Modification.** Except to the extent expressly permitted by applicable law, Licensee may not reverse engineer, decompile, disassemble, modify or create works derivative of the Software.
 - **Sublicense, Rental and Third Party Use.** Licensee may not assign, sublicense, rent, timeshare, loan, lease or otherwise transfer the Software, or directly or indirectly permit any third party to use or copy the Software.
 - **Proprietary Notices.** Licensee may not remove any proprietary notices (e.g., copyright and trademark notices) from the Software. Licensee must reproduce the copyright and all other proprietary notices displayed on the Software on each permitted back-up or archival copy.
 - **Use in Accordance with Documentation.** All use of the Software shall be in accordance with its then current documentation.
 - **Compliance with Applicable Law.** Licensee shall be solely responsible for ensuring that Licensee’s use of the Software is in compliance with all applicable foreign, federal, state and local laws, and rules and regulations.
3. **Third Party Components.** The Software and future Enhancements may contain certain third party components (“**Third Party Components**”) that are provided to Licensee under terms and conditions of this Agreement. Notwithstanding the foregoing, the following terms and conditions apply to all “Third Party Components”: (i) all Third Party Components are provided on an “AS IS” basis; (ii) Contractor will not be liable to Licensee or indemnify Licensee for any claims related to the Third Party Components; and (iii) Contractor will not be liable for any direct, indirect, incidental, special, exemplary, punitive or consequential damages with respect to the Third Party Components. Except as may be provided in the schedule contract, the Federal Acquisition Regulation (FAR), and other applicable laws, Licensee’s sole and exclusive remedy with regard to any defect, claim, or other dispute relating to the Third Party Components is to cease use of such components. This clause shall not impair the U.S. Government’s right to recover for fraud or crimes arising out of or related to this Contract under any federal fraud statute, including the False Claims Act, 31 U.S.C. 3729-3733. Furthermore, this clause shall not impair nor prejudice the U.S. Government’s right to express remedies provided in the GSA Schedule contract (e.g., clause 552.238-75 – Price Reductions, clause 52.212-4(h) Patent Indemnification, and GSAR 552.215-72 – Price Adjustment – Failure to Provide Accurate Information).
4. **Support Services.** Contractor will provide Licensee with the support and maintenance services (the “**Support Services**”) described in Exhibit B Support Services Terms herein
5. **Limited Warranty; Disclaimer.** Contractor warrants that (i) for a period of thirty (30) days from delivery to Licensee, the Software will operate in substantial conformity with its then current generally available documentation; and (ii) it shall use screening software to scan the Software prior to delivery for viruses, Trojan horses, and other malicious code. Contractor shall not be liable for failures caused by third party hardware and software (including Licensee’s own systems), misuse of the Software, or Licensee’s negligence or willful misconduct. . EXCEPT AS PROVIDED IN THIS SECTION, THE SOFTWARE AND SUPPORT AND IMPLEMENTATION SERVICES ARE PROVIDED ON AN “AS AVAILABLE,” “AS IS” BASIS. TO THE MAXIMUM EXTENT PERMITTED BY LAW, LICENSOR AND ITS SUPPLIERS AND VENDORS DISCLAIM ALL OTHER WARRANTIES WITH RESPECT TO THE SOFTWARE AND SUPPORT AND IMPLEMENTATION SERVICES, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF NON-INFRINGEMENT, TITLE, QUIET ENJOYMENT, AND QUALITY OF INFORMATION. LICENSOR DOES NOT WARRANT THAT THE SOFTWARE WILL MEET CUSTOMER’S REQUIREMENTS, OR THAT THE OPERATION OF THE SOFTWARE WILL BE UNINTERRUPTED OR ERROR-FREE, OR THAT DEFECTS IN THE SOFTWARE WILL BE CORRECTED. NO ORAL OR WRITTEN INFORMATION OR ADVICE GIVEN BY LICENSOR SHALL CREATE ANY ADDITIONAL LICENSOR WARRANTIES OR IN ANY WAY INCREASE THE SCOPE OF LICENSOR’S OBLIGATIONS HEREUNDER. THIS CLAUSE DOES NOT LIMIT OR DISCLAIM ANY OF THE WARRANTIES SPECIFIED IN THE GSA SCHEDULE 70 CONTRACT UNDER FAR 52.212-4(O). IN THE EVENT OF A BREACH OF WARRANTY, THE US GOVERNMENT RESERVES ALL RIGHTS AND REMEDIES UNDER THE CONTRACT, THE FEDERAL ACQUISITION REGULATIONS, AND THE CONTRACTS DISPUTES ACT, 41 USC 7101-7109.
6. **U.S. Government Rights.** The Software is commercial computer software as described in DFARS 252.227-7014(a)(1) and FAR 2.101. If acquired by or on behalf of any the Department of Defense or any component thereof, the U.S. Government acquires this commercial computer software and/or commercial computer software documentation subject to the terms of this Agreement as specified in DFARS

227.7202-3, Rights in Commercial Computer Software or Commercial Computer Software Documentation. If acquired by or on behalf of any civilian agency, the U.S. Government acquires this commercial computer software and/or commercial computer software documentation subject to the terms of this Agreement as specified in FAR 12.212, Computer Software.

EXHIBIT B – SUPPORT AND MAINTENANCE TERMS AND CONDITIONS

Contractor will provide Support and Maintenance Services according to the terms and conditions set forth below. Capitalized terms not otherwise define herein will have the meanings set forth in the Agreement.

1. SUPPORT AND MAINTENANCE SERVICES. Support and Maintenance Services consist of (a) Error Correction and Telephone Support provided to a single consistent technical support contact concerning the installation and use of the then current release of a Product Component and the Previous Sequential Release, (b) E - mail Support, (c) Web Support, and (d) Product Component Updates.

2. UPDATES. Any Updates furnished by Contractor will be subject to the terms herein, including the license granted therein. Licensee shall promptly download, distribute and install all Updates as released by Contractor during the Support Period. Licensee acknowledges that any failure to do so could result in Licensee's inability to receive future Updates and Support and Maintenance Services and therefore could cause major security risks.

3. ERROR PRIORITY LEVELS. Contractor shall exercise commercially reasonable efforts (up to 8 hours per month) to correct any Error reported by Licensee in the current unmodified release of Product Component in accordance with the priority level reasonably assigned to such Error by Contractor.

- Priority A Errors - Contractor shall promptly commence the following procedures: (i) assign Contractor engineers to correct the Error; (ii) notify Contractor management that such Errors have been reported and of steps being taken to correct such Error(s); (iii) provide Licensee with periodic reports on the status of the corrections; and (iv) initiate work to provide Licensee with a Workaround or Fix.

- Priority B Errors - Contractor shall exercise commercially reasonable efforts to include the Fix for the Error in the next regular Product Component maintenance release.

- Priority C Errors - Contractor may include the Fix for the Error in the next major release of the Product. If Contractor believes that a problem reported by Licensee may not be due to an Error in a Product Component, Contractor will so notify Licensee. At that time, Licensee may (1) instruct Contractor to proceed with problem determination at its possible expense as set forth below, or (2) instruct Contractor that Licensee does not wish the problem pursued at its possible expense. If Licensee requests that Contractor proceed with problem determination at its possible expense and Contractor determines that the error was not due to an Error in the Product Component, Licensee shall pay Contractor, at Contractor's then-current and standard consulting rates, for all work performed in connection with such determination, plus reasonable related expenses incurred therewith. Licensee shall not be liable for (i) problem determination or repair to the extent problems are due to Errors in the Product Component; or (ii) work performed under this paragraph in excess of its instructions; or (iii) work performed after Licensee has notified Contractor that it no longer wishes work on the problem determination to be continued at its possible expense (such notice shall be deemed given when actually received by Contractor). If Licensee instructs Contractor that it does not wish the problem pursued at its possible expense or if such determination requires effort in excess of Licensee's instructions, Contractor may, at its sole discretion, elect not to investigate the error with no liability therefor.

4. EXCLUSIONS. Contractor shall have no obligation to support: (i) altered or damaged Product Components or any portion of a Product Component incorporated with or into other software; (ii) any Product Component that is not the then current release or immediately Previous Sequential Release; (iii) Product Component problems caused by Licensee's negligence, abuse or misapplication, use of Product Components other than as specified in the Contractor's user manual or other causes beyond the control of Contractor; or (iv) Product Components installed on any hardware that is not supported by Contractor. Contractor shall have no liability for any changes in Licensee's hardware which may be necessary to use Product Components due to a Workaround or maintenance release.

5. PREMIUM SUPPORT. To the extent Licensee is entitled to Premium support as specified in the Initial Product/Services and Fee Schedule or an Additions Schedule: Telephone support will be expanded to 24 hours; Licensee will be given access to expanded Contractor contact information, including technical support managers and engineers; Licensee will be assigned a Contractor technical support engineer as primary contact during Contractor business hours (PST); the amount of time spent by Contractor to address Licensee's Error reports will not be limited to 8 hours per month; and Licensee's Error reports will be given priority over Error reports of the same priority level from Basic support customers.

6. SUPPORT TERM AND EXPIRED SUPPORT. The initial Support Term shall be for the period set forth in the Initial Product/Services and Fee Schedule or an Additions Schedule. In the event Licensee terminates Support and Maintenance Services and later desires to reinstate services, it must do so within one year of termination.

7. RESERVED

8. WARRANTY. CONTRACTOR WARRANTS THAT THE MAINTENANCE AND SUPPORT SERVICES WILL BE PERFORMED IN A PROFESSIONAL AND WORKMANLIKE MANNER. FOR ANY BREACH OF THIS WARRANTY, LICENSEE'S SOLE AND EXCLUSIVE REMEDY, AND CONTRACTOR'S ENTIRE LIABILITY SHALL BE THE REPERFORMANCE OF THE NON-CONFORMING MAINTENANCE AND SUPPORT SERVICES OR, IF SUCH IS NOT PRACTICABLE, A REFUND OF THE AMOUNTS PAID FOR THE NON-CONFORMING SERVICES. CONTRACTOR SHALL ONLY HAVE LIABILITY FOR SUCH BREACHES OF WARRANTY IF LICENSEE PROVIDES WRITTEN NOTICE OF THE BREACH TO CONTRACTOR WITHIN THIRTY (30) DAYS OF THE PERFORMANCE OF THE APPLICABLE MAINTENANCE AND SUPPORT SERVICES. THIS WARRANTY IS LICENSEE'S EXCLUSIVE WARRANTY AND REPLACES ALL OTHER WARRANTIES OR CONDITIONS, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO WARRANTIES OR CONDITIONS OF MERCHANTABILITY, SATISFACTORY QUALITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE AND NON-INFRINGEMENT, CONFORMITY TO ANY REPRESENTATION, SKILL AND CARE. CONTRACTOR DOES NOT WARRANT OR GUARANTEE THAT MAINTENANCE AND SUPPORT SERVICES WILL BE FREE FROM ERRORS OR

DEFECTS OR THAT THE MAINTENANCE AND SUPPORT SERVICES WILL PROTECT AGAINST ALL POSSIBLE THREATS. Some states or jurisdictions do not allow the exclusion of express or implied warranties, so the above disclaimer may not apply to Licensee. IN THAT EVENT SUCH EXPRESS OR IMPLIED WARRANTIES SHALL BE LIMITED IN DURATION TO THE MINIMUM PERIOD REQUIRED BY THE APPLICABLE LAW (IF ANY). IN THE EVENT OF A BREACH OF WARRANTY, THE U.S. GOVERNMENT RESERVES ALL RIGHTS AND REMEDIES UNDER THE CONTRACT, THE FEDERAL ACQUISITION REGULATIONS, AND THE CONTRACT DISPUTES ACT, 41 USC 7101-7109

9. RESERVED.

10. GENERAL. In addition to all provisions identified in the Agreement as surviving termination, Sections 8 (with regard to the disclaimers therein) and 10 of these terms and conditions shall also survive termination.

11. RESERVED.

12. DEFINITIONS. The following terms will have the meanings set forth below:

- “Agreement” means the license agreement under which you obtained the Product Component from Contractor.
- “E-mail support” means ability to make requests for technical support assistance by e-mail at any time (with reasonable efforts by Contractor to respond within one business day) concerning the installation and use of the then current release of a Product Component and the Previous Sequential Release.
- “Error” means an error in a Product Component that significantly degrades such Product Component as compared to the Contractor’s published performance specifications.
- “Error Correction” means the use of reasonable commercial efforts to correct Errors.
- “Fix” means the repair or replacement of object or executable code versions of a Product Component or documentation to remedy an Error.
- “Previous Sequential Release” means the release of a Product Component that has been replaced by a subsequent release of the same Product Component. Notwithstanding anything else, a Previous Sequential Release will be supported by Contractor only for a period of six (6) months after release of the subsequent release.
- “Priority A Error” means an Error that renders a Product Component inoperative.
- “Priority B Error” means an Error that substantially degrades the performance of a Product Component or materially restricts Licensee’s use of such Product Component.
- “Priority C Error” means an Error that causes only a minor impact on the Licensee’s use of a Product Component.
- “Product Component” means the software licensed under the Agreement and for which Support and Maintenance Services are being purchased.
- “Support and Maintenance Services” means the specific services described in these terms and conditions.
- “Support Term” means the period for which Licensee has purchased Support and Maintenance Services.
- “Telephone Support” means technical support telephone assistance between 7:00AM and 7:00PM Pacific Time on Tanium’s regular business days concerning the installation and use of the then current release of a Product Component and the Previous Sequential Release.
- “Update” means an update, improvement, or bug fix to a Product Component that Contractor, in its discretion, makes generally available to its support and maintenance customers without additional charge.
- “Web Support” means information available on the World Wide Web, including frequently asked questions, recorded Product demos, bulletin board activity, product documentation and bug reporting.
- “Workaround” means a change in the procedures followed or data supplied by Licensee to avoid an Error without substantially impairing Licensee’s use of a Product Component.

Washington, DC 20036

**EC America Rider to Product Specific License Terms and Conditions
(for U.S. Government End Users)**

1. **Scope.** This Rider and the attached **Thycotic Software** (“Manufacturer”) product specific license terms establish the terms and conditions enabling EC America (“Contractor”) to provide Manufacturer’s information technology products and services to Ordering Activities under EC America’s GSA MAS IT70 contract number GS-35F-0511T (the “Schedule Contract”). Installation and use of the information technology shall be in accordance with this Rider and Manufacturer Specific Terms attached hereto, unless an Ordering Activity determines that it requires different terms of use and Manufacturer agrees in writing to such terms in a valid delivery order placed pursuant to the Schedule Contract.

2. **Applicability.** Whereas GSA and EC America agreed at the time of Schedule Contract award upon a base set of terms and conditions applicable to all manufacturers and items represented on the Schedule Contract; and Whereas, the parties further agreed that all product specific license, warranty and software maintenance terms and conditions would be submitted at the time each new manufacturer was to be added to the Schedule Contract; Now, Therefore, the parties hereby agree that the product specific license, warranty and software maintenance terms set forth in Attachment A hereto (the “Manufacturer Specific Terms” or the “Attachment A Terms”) are incorporated into the Schedule Contract, but only to the extent that they are consistent with federal law (e.g., the Anti-Deficiency Act (31 U.S.C. § 1341), the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 *et seq.*), the Prompt Payment Act (31 U.S.C. §§ 3901 *et seq.*), the Anti-Assignment statutes (31 U.S.C. § 3727 and 41 U.S.C. § 15), DOJ’s jurisdictional statute 28 U.S.C. § 516 (Conduct of Litigation Reserved to the Department of Justice (DOJ)), and 28 U.S.C. § 1498 (Patent and copyright cases)). To the extent any Attachment A Terms are inconsistent with federal law (See, FAR 12.212(a)), such inconsistent terms shall be superseded, unenforceable and of no legal force or effect in all resultant orders under the Schedule Contract, including but not limited to the following provisions:
 - a) **Contracting Parties.** The GSA Customer (“Licensee”) is the “Ordering Activity”, defined as the entity authorized to order under GSA MAS contracts as set forth in GSA ORDER ADM 4800.2G (Feb 2011), as may be revised from time to time.

 - b) **Changes to Work and Delays.** Subject to GSAR Clause 552.243-72, Modifications (Federal Supply Schedule) (July 2000) (Deviation I – SEPT 2010), and 52.212-4(f) Excusable Delays (JUN 2010) regarding which the GSAR and the FAR provisions take precedence.

 - c) **Contract Formation.** Subject to FAR 1.601(a) and FAR 43.102, the GSA Customer Purchase Order must be signed by a duly warranted Contracting Officer, in writing. The same requirement applies to contract modifications affecting the rights of the parties. All terms and conditions intended to bind the Government must be included within the contract signed by the Government.

 - d) **Termination.** Clauses in the Manufacturer Specific Terms referencing termination, suspension and/ or cancellation are superseded and not applicable to any GSA Customer order. Termination shall be governed by the FAR, the underlying GSA Schedule Contract and the terms in any applicable GSA Customer Purchase Orders. If the Contractor believes the GSA Customer to be in breach, it must file a claim with the Contracting Officer and continue to diligently pursue performance. In commercial item contracting under FAR 12.302(b), the FAR provisions dealing with disputes and continued performance cannot be changed by the Contracting Officer.

 - e) **Choice of Law.** Subject to the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 *et seq.*), the validity, interpretation and enforcement of this Rider shall be governed by and construed in accordance with the federal laws of the United States. In the event the Uniform Computer Information Transactions Act (UCITA) or any similar federal laws or regulations are enacted, to the extent allowed by federal law, they will not apply to this Rider or the underlying Schedule Contract.

 - f) **Equitable remedies.** Equitable remedies are generally not awarded against the Government absent an express statute providing therefore. In the absence of a direct citation to such a statute, all clauses in the Manufacturer Specific Terms referencing equitable remedies are superseded and not applicable to any GSA Customer order.

 - g) **Unilateral Termination.** Unilateral termination by the Contractor does not apply to a GSA Customer Purchase Order and all clauses in the Manufacturer Specific Terms referencing unilateral termination rights of the Manufacturer are hereby superseded.

 - h) **Unreasonable Delay.** Subject to FAR 52.212-4(f) Excusable delays, the Contractor shall be liable for default unless the nonperformance is caused by an occurrence beyond the reasonable control of the Contractor and without its fault or negligence such as, acts of God or the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, unusually severe weather, and delays of common carriers. The Contractor shall notify the Contracting Officer in writing as soon as it is reasonably possible after commencement of any excusable delay, setting forth the full particulars in connection therewith, shall remedy such occurrence with all reasonable dispatch and shall promptly give written notice to the Contracting Officer of the cessation of such occurrence.

 - i) **Assignment.** All clauses regarding the Contractor’s assignment are subject to FAR 52.232-23, Assignment of Claims (JAN 1986) and FAR 42.12 Novation and Change-of-Name Agreements (Sep. 2013). All clauses governing the Contractor’s assignment in the Manufacturer Specific Terms are hereby superseded.

- j) **Waiver of Jury Trial.** Waivers of Jury Trials are subject to FAR 52.233-1 Disputes (JULY 2002). The Government will not agree to waive any right that it may have under federal law. All clauses governing a waiver of jury trial in the Manufacturer Specific Terms are hereby superseded.
- k) **Government Indemnities.** This is an obligation in advance of an appropriation that violates anti-deficiency laws (31 U.S.C. § 1341 and 41 U.S.C. § 6301), since the GSA Customer commits to pay an unknown amount at an unknown future time. The violation occurs when the commitment is made, i.e., when the agreement featuring this clause is incorporated into a Government contract, and not when the clause is triggered. The FAR 12.216 prohibit such indemnifications. All Manufacturer Specific Terms referencing customer indemnities are hereby superseded.
- l) **Contractor Indemnities.** All Manufacturer Specific Terms that violate DOJ's jurisdictional statute (28 U.S.C. § 516) by requiring that the Government give sole control over the litigation and/or settlement to the Contractor are hereby superseded. Nothing contained in the Manufacturer's Specific terms shall be construed in derogation of the U.S. Department of Justice's right to defend any claim or action brought against the U.S., pursuant to its jurisdictional statute.
- m) **Renewals.** All Manufacturer Specific Terms that provide for automatic renewals violate the Anti-Deficiency Act and are hereby superseded. This is an obligation in advance of an appropriation that violates anti-deficiency laws (31 U.S.C. § 1341 and 41 U.S.C. § 6301), since the GSA Customer commits to pay an unknown amount at an unknown future time. The violation occurs when the commitment is made, i.e., when the agreement featuring this clause is incorporated into a Government contract, and not when the clause is triggered.
- n) **Future Fees or Penalties.** All Manufacturer Specific Terms that require the Government to pay any future fees, charges or penalties are hereby superseded unless specifically authorized by existing statutes, such as the Prompt Payment Act (31 U.S.C. § 3901 *et seq.*) or Equal Access To Justice Act (5 U.S.C. § 504; 28 U.S.C. § 2412).
- o) **Taxes.** Taxes are subject to FAR 52.212-4(k), which provides that the contract price includes all applicable federal, state, local taxes and duties. Notwithstanding the foregoing, Contractor shall state separately on its invoices, taxes excluded from the fees, and the GSA Customer agrees to either pay the amount of the taxes (based on the current value of the equipment or services) to Contractor or provide it evidence necessary to sustain an exemption, in accordance with FAR 52.229-1 and FAR 52.229-3.
- p) **Third Party Terms.** When the end user is an instrumentality of the U.S., no license terms bind the GSA Customer unless included verbatim (not by reference) in the EULA, and the EULA is made an attachment to the underlying GSA Schedule Contract. All terms and conditions affecting the GSA Customer must be contained in a writing signed by a duly warranted Contracting Officer. Any third party manufacturer shall be brought into the negotiation, or the components acquired separately under federally-compatible agreements, if any. All Manufacturer Specific Terms that incorporate third party terms by reference are hereby superseded.
- q) **Dispute Resolution and Standing.** Any disputes relating to the Manufacturer Specific Terms or to this Rider shall be resolved in accordance with the FAR, the underlying GSA Schedule Contract, any applicable GSA Customer Purchase Orders, and the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 *et seq.*). The Ordering Activity expressly acknowledges that EC America as contractor, on behalf of the Manufacturer, shall have standing to bring such claim under the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 *et seq.*).
- r) **Advertisements and Endorsements.** Pursuant to GSAR 552.203-71, use of the name or logo of any U.S. Government entity is prohibited. All Manufacturer Specific Terms that allow the Contractor to use the name or logo of a Government entity are hereby superseded.
- s) **Public Access to Information.** EC America agrees that the attached Manufacturer Specific Terms and this Rider contain no confidential or proprietary information and acknowledges the Rider shall be available to the public.
- t) **Confidentiality.** Any provisions in the attached Manufacturer Specific Terms that require the Ordering Activity to keep certain information confidential are subject to the Freedom of Information Act (5 U.S.C. § 552), and any order by a United States Federal Court. When the end user is an instrumentality of the U.S. Government, neither this Rider, the Manufacturer's Specific Terms nor the Schedule Price List shall be deemed "confidential information" notwithstanding marking to that effect. Notwithstanding anything in this Rider, the Manufacturer's Specific Terms or the Schedule Contract to the contrary, the GSA Customer may retain such Confidential Information as required by law, regulation or its bonafide document retention procedures for legal, regulatory or compliance purposes; provided however, that such retained Confidential Information will continue to be subject to the confidentiality obligations of this Rider, the Manufacturer's Specific Terms and the Schedule Contract.
- u) **Alternate Dispute Resolution.** The GSA Customer cannot be forced to mediate or arbitrate. Arbitration requires prior guidance by the head of a federal agency promulgated via administrative rulemaking according to 5 U.S.C. § 575(c). GSA has not issued any because it considers the Board of Contract Appeals to be an adequate, binding ADR alternative. All Manufacturer Specific Terms that allow the Contractor to choose arbitration, mediation or other forms of alternate dispute resolution are hereby superseded.
- v) **Ownership of Derivative Works.** Provisions purporting to vest exclusive ownership of all derivative works in the licensor of the standard software on which such works may be based are superseded. Ownership of derivative works should be as set forth in the copyright statute, 17 U.S.C. § 103 and the FAR clause at 52.227-14, but at a minimum, the GSA Customer shall receive unlimited rights to use such derivative works at no further cost.

3. Order of Precedence/Conflict. To the extent there is a conflict between the terms of this Rider and the terms of the underlying Schedule Contract or a conflict between the terms of this Rider and the terms of an applicable GSA Customer Purchase Order, the terms of the GSA Schedule Contract or any specific, negotiated terms on the GSA Customer Purchase Order shall control over the terms of this Rider. Any capitalized terms used herein but not defined, shall have the meaning assigned to them in the underlying Schedule Contract.

CONTRACTOR SUPPLEMENTAL PRICELIST INFORMATION AND TERMS**

THYCOTIC SOFTWARE

THYCOTIC SOFTWARE LICENSE, WARRANTY AND SUPPORT TERMS

1. Use of the Product and Support

1.1 Subject to the terms and conditions of this Agreement and the applicable ordering document, Thycotic hereby grants to Ordering Activity a perpetual, non-exclusive, royalty-free license to use the Product for its operational purposes. The Product is available immediately on installation. The use of the Product is available to the number of users and edition set forth on the applicable ordering document issued by Ordering Activity. The rights and licenses granted under this Agreement may be used by or on behalf of any Affiliate of Ordering Activity; **provided that the number of users and edition of any license is not exceeded.** "Affiliate" means, with respect to the applicable party, any corporation, company, partnership, trust, sole proprietorship or other entity or individual which: (a) is owned, controlled or managed by such party, in whole or in part (b) owns, controls or manages such party, in whole or in part, or (c) is under common ownership or control with such party, in whole or in part.

1.2 Ordering Activity acknowledges and agrees that the Product is subject to the export control laws and regulations of the United States ("Export Controls"), including the Export Administration Regulations ("EAR"), and sanctions regimes of the U.S. Department of Treasury, Office of Foreign Asset Control, and agrees to the extent applicable, to comply with the Export Controls. Ordering Activity further agrees that (i) Ordering Activity is not an entity restricted or otherwise prohibited by the Export Controls; (ii) the Product will not be exported, re-exported or otherwise transferred to any country subject to a United States trade embargo, or to a national or resident thereof; and (iii) the Product will not be exported, re-exported, or transferred to an end-user engaged in activities related to the design, development, production, or use of nuclear materials, nuclear facilities, nuclear weapons, missiles or chemical or biological weapons.

1.3 Upon Ordering Activity's issuance of an ordering document for the applicable support fees, Thycotic shall provide telephone, e-mail, and remote assistance support services for the Product ("Support"). Support shall be available Monday through Friday between the hours of 7am - 7pm US Eastern Time ("Business Hours") excluding major US Public Holidays. All Support requests shall receive a response within twenty-four (24) hours during Business Hours. Support shall entitle Ordering Activity to receive all new releases (both minor and major) of the Product ("Upgrades") which Upgrades on receipt by Ordering Activity or its Affiliates shall automatically be licensed to Ordering Activity and its Affiliates under the same terms as the Product.

2. Account responsibility

Ordering Activity is responsible for Ordering Activity's use of the Product. Ordering Activity is responsible for maintaining the confidentiality of any password for the Product provided to Ordering Activity.

3. Reserved.

4. Limited Warranty

Thycotic represents and warrants to Ordering Activity that:

4.1 The Product and Support shall comply with all applicable laws, ordinances, rules, regulations, orders, licenses, permits and other governmental requirements;

4.2 The Product will perform in compliance with applicable performance specifications set forth in its documentation for a period of one (1) year following the date of Ordering Activity's purchase of the Product pursuant to Section 1. If new Upgrades of the Product are provided to Ordering Activity, the foregoing representations and warranties in the immediately preceding sentence shall apply to such Upgrades for one (1) year following the date of Ordering Activity's receipt of the Upgrades;

4.3 The Product, including Upgrades, does not and shall not contain any viruses, malicious code, trojan horse, worm, time bomb, self-help code, back door, or other software code or routine designed to: (i) damage, destroy, or alter any software or hardware; (ii) reveal, damage, destroy, or alter any data; (iii) disable any computer program automatically; or (iv) permit unauthorized access to any software or hardware;

4.4 To the extent that the Product contains any third party software ("Third Party Software"), Thycotic has the right to grant Ordering Activity and its Affiliates the license to use the Third Party Software with the Product pursuant to the terms and conditions of this Agreement without violating the rights of any third party.

4.5 All Support and any other services (collectively, “Services”) shall be performed in a professional manner and with the standard of care and diligence in the industry (but no less than a reasonable standard of care and diligence), as well as industry standards (but no less than reasonable standards) of documentation, methodology, and control.

4.6 If the Product or Services do not comply with any of the representations and warranties set forth above, Thycotic shall, at its own expense, promptly correct the Product and/or Service, as applicable, so that it complies with all representations and warranties or replace the Product and/or Service with comparable new software or a new Service that complies with all representations and warranties. Where it is impractical to perform one of the foregoing remedies (including, without limitation, if Thycotic fails to perform such remedies within thirty (30) days of Ordering Activity’s delivery of written notice to Thycotic), Ordering Activity may terminate this Agreement upon delivery of written notice to Thycotic. Upon such termination, Thycotic shall refund the fees paid for the Product, and refund the applicable fees for the unused term of any Services and for Services not delivered in accordance with this Agreement (including any Services that do not comply with applicable representations and warranties).

4.7 EXCEPT FOR THE EXPRESS WARRANTIES SET FORTH ABOVE, THE PRODUCT AND SERVICES ARE PROVIDED TO ORDERING ACTIVITY ON AN “AS-IS”, “WITH ALL FAULTS” AND “AS AVAILABLE” BASIS WITHOUT ANY OTHER WARRANTY OF ANY KIND, WHETHER EXPRESS OR IMPLIED.

5. Reserved.

6. Reserved.

7. Reserved.

9. Reserved.

10. Service Level Agreement (SLA)

10.1 Thycotic will use commercially reasonable efforts to provide Support as per the availability defined in Section 1. In the event Thycotic does not provide Support as defined in Section 1, the Ordering Activity will be eligible to receive a Service Credit as described below.

Definitions

- “Service Year” is the preceding 365 days from the date of an SLA claim.
- “Unavailable” means that the Service was not available to Ordering Activity or its Affiliates due to Support being unavailable or non-responsive.
- The “Eligible Credit Period” is a single month, and refers to the monthly billing cycle in which the most recent Unavailable event included in the SLA claim occurred.
- A “Service Credit” is a dollar credit, calculated as set forth below, that Thycotic may credit back to Ordering Activity.

10.2 Service Commitments and Service Credits

If Support is Unavailable for the Ordering Activity and its Affiliates during the Service Year, then that Ordering Activity is eligible to receive a Service Credit equal to 10% of the License fees paid for Support for the Service Year. To file a claim, the Ordering Activity does not have to have wait 365 days from the day they started using the service or 365 days from their last successful claim. The Ordering Activity can file a claim any time an Unavailable event occurs. Thycotic will apply any Service Credits only against future payments otherwise due from Ordering Activity. Service Credits shall not entitle Ordering Activity to any refund or other payment from Thycotic. A Service Credit will be applicable and issued only if the credit amount for the applicable Service Year is greater than one dollar (\$1 USD). Service Credits may not be transferred or applied to any other customer. Unless otherwise provided in the Agreement, the Ordering Activity’s sole and exclusive remedy for any Unavailable Support is the receipt of a Service Credit or termination of Ordering Activity use of the Product.

10.3 Credit Request and Payment Procedures

To receive a Service Credit, Ordering Activity must submit a request by sending an e-mail message to sales @ thycotic.com. To be eligible, the credit request must (i) include Ordering Activity domain name in the subject of the e-mail message; (ii) include, in the body of the e-mail, the dates and times of each “Unavailable” incident; (iii) include any call or email logs (any confidential or sensitive information in these logs should be removed or replaced with asterisks); and (iv) be received by Thycotic within thirty (30) business days of the last reported incident in the SLA claim. If the Unavailable event is confirmed by Thycotic, which confirmation will not be unreasonably withheld or delayed, then Thycotic will issue the Service Credit to Ordering Activity on the next billing cycle following the Service Year in which the request occurred. Ordering Activity’s failure to provide the request and other information as required above will disqualify Ordering Activity from receiving a Service Credit.

10.4 SLA Exclusions

The Service Commitment does not apply to any Unavailability, suspension or termination of Support: (i) that result from non-adherence to the terms of the Agreement by Ordering Activity or its Affiliates; (ii) caused by factors outside of Thycotic’s reasonable control, including any force majeure event or Internet access or related problems; provided, that, if any force majeure event occurs that affects the performance of Thycotic under this Agreement, Thycotic will give prompt written notice to Ordering Activity and use commercially reasonable best efforts to avoid or remove the cause of non-performance and to perform with dispatch once the interfering conditions created by the force majeure event are removed or cease. (iii) that result from any actions or inactions of Ordering Activity, its Affiliates or any third party; (iv) that result from Ordering Activity equipment, software or other technology and/or third party equipment, software or other technology (other than third party

equipment within Thycotic’s direct control); (v) arising from Thycotic’s suspension and termination of Ordering Activity’s right to use Support in accordance with the Agreement (collectively, the “SLA Exclusions”). If availability is impacted by factors other than those explicitly listed in this Agreement, Thycotic may issue a Service Credit considering such factors in Thycotic’s sole discretion.

11. Reserved.

12. Indemnification

12.1 Subject to 28 U.S.C. § 516, Thycotic shall defend, indemnify and hold Ordering Activity and its Affiliates, and the directors, officers, employees and agents of each (collectively, "Ordering Activity Indemnitees"), harmless from and against any demands, claims and actions by third parties, and all liabilities, judgments, damages, fines, penalties, costs and expenses (including actual and reasonable attorneys’ fees) incurred in connection therewith (individually and collectively, "Liabilities"), resulting from (or alleged to result from) (a) any criminal or other intentional wrongful act or omission or any act or omission of gross negligence or willful misconduct of Thycotic or its employees, agents or subcontractors; or (b) the Product in the form provided violating or infringing any copyright, trademark, patent, trade secret, data privacy right or any other proprietary rights of any third person valid under the laws of the United States or any country in which the Product is used (“Intellectual Property Rights”). Thycotic is not obligated under this section to the extent any third party claim arises from a Ordering Activity Indemnitee’s breach of this Agreement or (with respect to claims related to clause (b) of this section) use of the Product in combination with any software, data, process or technology not supplied by Thycotic (where there would be no claim, but for such combination), or a Ordering Activity Indemnitee’s negligence or willful misconduct.

12.2 Reserved.

12.3 Indemnification Procedure. The Ordering Activity must (i) give Thycotic prompt written notice of any such claim to avoid actual prejudice provided that the failure to notify Thycotic shall not relieve Thycotic from any liability Thycotic may have to the Ordering Activity hereunder, except to the extent such failure is prejudicial to the defense of any claims; (ii) afford Thycotic control over the defense of any such claim so long as Thycotic promptly undertakes such defense to avoid actual prejudice to the Ordering Activity with competent counsel reasonably acceptable to Ordering Activity, and under any settlement, Thycotic shall not be entitled to commit the Ordering Activity to the payment of any monetary amounts that will not be paid by Thycotic; (iii) Thycotic shall not enter into any settlement or compromise, or consent to the entry of any judgment, that includes, or in connection with which the Ordering Activity would be required to incur or admit liability, obligation, or culpability without the Ordering Activity’s advance written consent; and (iv) the Ordering Activity provides reasonable cooperation to Thycotic in the defense of any such claim, at the cost and expense of Thycotic. If Thycotic fails to assume the defense of a claim subject to indemnification under this Agreement within 15 days of the Ordering Activity’s notice thereof, or if within such 15-day period actual prejudice may occur if action is not taken, then at Thycotic’s cost and expense, the Ordering Activity may undertake the defense or settlement of such claim. Notwithstanding any other provision herein or otherwise to the contrary, the obligations of Thycotic and Ordering Activity under this Section 12 shall survive termination of this Agreement indefinitely and shall be without dollar limit.

12.4 Intellectual Property Rights Claims. In addition to, and not in limitation of the foregoing, if the Product becomes, or in Thycotic’s reasonable opinion based on the advice of experienced and knowledgeable legal counsel, is likely to become, the subject of a claim that the Product violates or infringes any Intellectual Property Rights, Thycotic may, at its option and expense, either: (i) procure for Ordering Activity the right to continue exercising its rights hereunder to the Product or (ii) replace or modify the Product so that it becomes noninfringing but remains functionally equivalent. If neither of the foregoing alternatives provide an adequate remedy in Thycotic’s or Ordering Activity’s reasonable judgment, then Ordering Activity may terminate all or any part of the use by Ordering Activity of the Product and Thycotic will equitably refund the prorated amounts paid by Ordering Activity for the terminated use of the Product that Ordering Activity will no longer receive under this Agreement.

ADDITIONAL PRODUCT DESCRIPTIONS:

The following line items are priced via a calculation as outlined below:

PART NUMBER	DESCRIPTION	ADDITIONAL DESCRIPTION
SS-SPT-1YR	Secret Server Installed - Support - 1 Year	To Calculate: add up the Secret Server Edition license cost for the customer with the Secret Server user license cost to determine perpetual spend. Multiply perpetual spend by 22% to determine full year support cost. For renewals, reach out to EC America.
SS-SPT-2YR	Secret Server Installed - Support - 2 Year	To Calculate: add up the Secret Server Edition license cost for the customer with the Secret Server user license cost to determine perpetual spend. Multiply perpetual spend by 22% to determine full year support cost. For 2 year prepaid maintenance support renewals, multiply full year support cost result by 2. For renewals, reach out to EC America.
SS-SPT-3YR	Secret Server Installed - Support - 3 Year	To Calculate: add up the Secret Server Edition license cost for the customer with

		the Secret Server user license cost to determine perpetual spend. Multiply perpetual spend by 22% to determine full year support cost. For 3 year prepaid maintenance support renewals, multiply full year support cost result by 2.7. For renewals, reach out to EC America.
SS-SPT-4YR	Secret Server Installed - Support - 4 Year	To Calculate: add up the Secret Server Edition license cost for the customer with the Secret Server user license cost to determine perpetual spend. Multiply perpetual spend by 22% to determine full year support cost. For 4 year prepaid maintenance support renewals, multiply full year support cost result by 3.5. For renewals, reach out to EC America.
SS-SPT-5YR	Secret Server Installed - Support - 5 Year	To Calculate: add up the Secret Server Edition license cost for the customer with the Secret Server user license cost to determine perpetual spend. Multiply perpetual spend by 22% to determine full year support cost. For 5 year prepaid maintenance support renewals, multiply full year support cost result by 4.25. For renewals, reach out to EC America.
SS-SUB-ENT	Secret Server Install-Sub-Enterprise	Yearly subscription for the ENT edition of Secret Server Installed. To calculate price for customer, add perpetual software license for edition and users. Multiply this total by 22% (0.22) times 3 to get the price for support. Then add support total and previous total. Divide that result by 3 to get average cost per year. Type that result as the price for the ENT subscription line on the quote. For support and users, put zero price on the quote because they are now included in the edition price.
SS-SUB-ETP	Secret Server Install-Sub-Enterprise Plus	Yearly subscription for the ETP edition of Secret Server Installed. To calculate price for customer, add perpetual software license for edition and users. Multiply this total by 22% (0.22) times 3 to get the price for support. Then add support total and previous total. Divide that result by 3 to get average cost per year. Type that result as the price for the ETP subscription line on the quote. For support and users, put zero price on the quote because they are now included in the edition price.
SS-SUB-PRO	Secret Server Install-Sub-Professional	Yearly subscription for the PRO edition of Secret Server Installed. To calculate price for customer, add perpetual software license for edition and users. Multiply this total by 22% (0.22) times 3 to get the price for support. Then add support total and previous total. Divide that result by 3 to get average cost per year. Type that result as the price for the PRO subscription line on the quote. For support and users, put zero price on the quote because they are now included in the edition price.
SS-SUB-USR	Secret Server Installed - Sub - User Count	Yearly subscription for the user count in all Secret Server Installed Subscriptions. Enter the number of users in the quantity field. User Price is included in the edition price calculation.

TIBCO Software Federal, Inc.

Falls Church, VA 22042

**EC America Rider to Product Specific License Terms and Conditions
(for U.S. Government End Users)**

1. **Scope.** This Rider and the attached **TIBCO Software Federal, Inc.** (“Manufacturer”) product specific license terms establish the terms and conditions enabling EC America (“Contractor”) to provide Manufacturer’s information technology products and services to Ordering Activities under EC America’s GSA MAS IT70 contract number GS-35F-0511T (the “Schedule Contract”). Installation and use of the information technology shall be in accordance with this Rider and Manufacturer Specific Terms attached hereto, unless an Ordering Activity determines that it requires different terms of use and Manufacturer agrees in writing to such terms in a valid delivery order placed pursuant to the Schedule Contract.
2. **Applicability.** Whereas GSA and EC America agreed at the time of Schedule Contract award upon a base set of terms and conditions applicable to all manufacturers and items represented on the Schedule Contract; and Whereas, the parties further agreed that all product specific license, warranty and software maintenance terms and conditions would be submitted at the time each new manufacturer was to be added to the Schedule Contract; Now, Therefore, the parties hereby agree that the product specific license, warranty and software maintenance terms set forth in Attachment A hereto (the “Manufacturer Specific Terms” or the “Attachment A Terms”) are incorporated into the Schedule Contract, but only to the extent that they are consistent with federal law (e.g., the Anti-Deficiency Act (31 U.S.C. § 1341), the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 *et seq.*), the Prompt Payment Act (31 U.S.C. §§ 3901 *et seq.*), the Anti-Assignment statutes (31 U.S.C. § 3727 and 41 U.S.C. § 15), DOJ’s jurisdictional statute 28 U.S.C. § 516 (Conduct of Litigation Reserved to the Department of Justice (DOJ)), and 28 U.S.C. § 1498 (Patent and copyright cases)). To the extent any Attachment A Terms are inconsistent with federal law (See, FAR 12.212(a)), such inconsistent terms shall be superseded, unenforceable and of no legal force or effect in all resultant orders under the Schedule Contract, including but not limited to the following provisions:
 - w) **Contracting Parties.** The GSA Customer (“Licensee”) is the “Ordering Activity”, defined as the entity authorized to order under GSA MAS contracts as set forth in GSA ORDER ADM 4800.2G (Feb 2011), as may be revised from time to time.
 - x) **Changes to Work and Delays.** Subject to GSAR Clause 552.243-72, Modifications (Federal Supply Schedule) (July 2000) (Deviation I – SEPT 2010), and 52.212-4(f) Excusable Delays (JUN 2010) regarding which the GSAR and the FAR provisions take precedence.
 - y) **Contract Formation.** Subject to FAR 1.601(a) and FAR 43.102, the GSA Customer Purchase Order must be signed by a duly warranted Contracting Officer, in writing. The same requirement applies to contract modifications affecting the rights of the parties. All terms and conditions intended to bind the Government must be included within the contract signed by the Government.
 - z) **Termination.** Clauses in the Manufacturer Specific Terms referencing termination, suspension and/ or cancellation are superseded and not applicable to any GSA Customer order. Termination shall be governed by the FAR, the underlying GSA Schedule Contract and the terms in any applicable GSA Customer Purchase Orders. If the Contractor believes the GSA Customer to be in breach, it must file a claim with the Contracting Officer and continue to diligently pursue performance. In commercial item contracting under FAR 12.302(b), the FAR provisions dealing with disputes and continued performance cannot be changed by the Contracting Officer.
 - aa) **Choice of Law.** Subject to the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 *et seq.*), the validity, interpretation and enforcement of this Rider shall be governed by and construed in accordance with the federal laws of the United States. In the event the Uniform Computer Information Transactions Act (UCITA) or any similar federal laws or regulations are enacted, to the extent allowed by federal law, they will not apply to this Rider or the underlying Schedule Contract.
 - bb) **Equitable remedies.** Equitable remedies are generally not awarded against the Government absent an express statute providing therefore. In the absence of a direct citation to such a statute, all clauses in the Manufacturer Specific Terms referencing equitable remedies are superseded and not applicable to any GSA Customer order.
 - cc) **Unilateral Termination.** Unilateral termination by the Contractor does not apply to a GSA Customer Purchase Order and all clauses in the Manufacturer Specific Terms referencing unilateral termination rights of the Manufacturer are hereby superseded.
 - dd) **Unreasonable Delay.** Subject to FAR 52.212-4(f) Excusable delays, the Contractor shall be liable for default unless the nonperformance is caused by an occurrence beyond the reasonable control of the Contractor and without its fault or negligence such as, acts of God or the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, unusually severe weather, and delays of common carriers. The Contractor shall notify the Contracting Officer in writing as soon as it is reasonably possible after commencement of any excusable delay, setting forth the full particulars in connection therewith, shall remedy such occurrence with all reasonable dispatch and shall promptly give written notice to the Contracting Officer of the cessation of such occurrence.
 - ee) **Assignment.** All clauses regarding the Contractor’s assignment are subject to FAR 52.232-23, Assignment of Claims (JAN 1986) and FAR 42.12 Novation and Change-of-Name Agreements (Sep. 2013). All clauses governing the Contractor’s assignment in the Manufacturer Specific Terms are hereby superseded.
 - ff) **Waiver of Jury Trial.** Waivers of Jury Trials are subject to FAR 52.233-1 Disputes (JULY 2002). The Government will not agree to waive any right that it may have under federal law. All clauses governing a waiver of jury trial in the Manufacturer Specific Terms are hereby superseded.
 - gg) **Government Indemnities.** This is an obligation in advance of an appropriation that violates anti-deficiency laws (31 U.S.C. § 1341 and 41 U.S.C. § 6301), since the GSA Customer commits to pay an unknown amount at an unknown future time. The

violation occurs when the commitment is made, i.e., when the agreement featuring this clause is incorporated into a Government contract, and not when the clause is triggered. The FAR 12.216 prohibit such indemnifications. All Manufacturer Specific Terms referencing customer indemnities are hereby superseded.

- hh) **Contractor Indemnities.** All Manufacturer Specific Terms that violate DOJ's jurisdictional statute (28 U.S.C. § 516) by requiring that the Government give sole control over the litigation and/or settlement to the Contractor are hereby superseded. Nothing contained in the Manufacturer's Specific terms shall be construed in derogation of the U.S. Department of Justice's right to defend any claim or action brought against the U.S., pursuant to its jurisdictional statute.
- ii) **Renewals.** All Manufacturer Specific Terms that provide for automatic renewals violate the Anti-Deficiency Act and are hereby superseded. This is an obligation in advance of an appropriation that violates anti-deficiency laws (31 U.S.C. § 1341 and 41 U.S.C. § 6301), since the GSA Customer commits to pay an unknown amount at an unknown future time. The violation occurs when the commitment is made, i.e., when the agreement featuring this clause is incorporated into a Government contract, and not when the clause is triggered.
- jj) **Future Fees or Penalties.** All Manufacturer Specific Terms that require the Government to pay any future fees, charges or penalties are hereby superseded unless specifically authorized by existing statutes, such as the Prompt Payment Act (31 U.S.C. § 3901 et seq.) or Equal Access To Justice Act (5 U.S.C. § 504; 28 U.S.C. § 2412).
- kk) **Taxes.** Taxes are subject to FAR 52.212-4(k), which provides that the contract price includes all applicable federal, state, local taxes and duties. Notwithstanding the foregoing, Contractor shall state separately on its invoices, taxes excluded from the fees, and the GSA Customer agrees to either pay the amount of the taxes (based on the current value of the equipment or services) to Contractor or provide it evidence necessary to sustain an exemption, in accordance with FAR 52.229-1 and FAR 52.229-3.
- ll) **Third Party Terms.** When the end user is an instrumentality of the U.S., no license terms bind the GSA Customer unless included verbatim (not by reference) in the EULA, and the EULA is made an attachment to the underlying GSA Schedule Contract. All terms and conditions affecting the GSA Customer must be contained in a writing signed by a duly warranted Contracting Officer. Any third party manufacturer shall be brought into the negotiation, or the components acquired separately under federally-compatible agreements, if any. All Manufacturer Specific Terms that incorporate third party terms by reference are hereby superseded.
- mm) **Dispute Resolution and Standing.** Any disputes relating to the Manufacturer Specific Terms or to this Rider shall be resolved in accordance with the FAR, the underlying GSA Schedule Contract, any applicable GSA Customer Purchase Orders, and the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 et seq.). The Ordering Activity expressly acknowledges that EC America as contractor, on behalf of the Manufacturer, shall have standing to bring such claim under the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 et seq.).
- nn) **Advertisements and Endorsements.** Pursuant to GSAR 552.203-71, use of the name or logo of any U.S. Government entity is prohibited. All Manufacturer Specific Terms that allow the Contractor to use the name or logo of a Government entity are hereby superseded.
- oo) **Public Access to Information.** EC America agrees that the attached Manufacturer Specific Terms and this Rider contain no confidential or proprietary information and acknowledges the Rider shall be available to the public.
- pp) **Confidentiality.** Any provisions in the attached Manufacturer Specific Terms that require the Ordering Activity to keep certain information confidential are subject to the Freedom of Information Act (5 U.S.C. § 552), and any order by a United States Federal Court. When the end user is an instrumentality of the U.S. Government, neither this Rider, the Manufacturer's Specific Terms nor the Schedule Price List shall be deemed "confidential information" notwithstanding marking to that effect. Notwithstanding anything in this Rider, the Manufacturer's Specific Terms or the Schedule Contract to the contrary, the GSA Customer may retain such Confidential Information as required by law, regulation or its bonafide document retention procedures for legal, regulatory or compliance purposes; provided however, that such retained Confidential Information will continue to be subject to the confidentiality obligations of this Rider, the Manufacturer's Specific Terms and the Schedule Contract.
- qq) **Alternate Dispute Resolution.** The GSA Customer cannot be forced to mediate or arbitrate. Arbitration requires prior guidance by the head of a federal agency promulgated via administrative rulemaking according to 5 U.S.C. § 575(c). GSA has not issued any because it considers the Board of Contract Appeals to be an adequate, binding ADR alternative. All Manufacturer Specific Terms that allow the Contractor to choose arbitration, mediation or other forms of alternate dispute resolution are hereby superseded.
- rr) **Ownership of Derivative Works.** Provisions purporting to vest exclusive ownership of all derivative works in the licensor of the standard software on which such works may be based are superseded. Ownership of derivative works should be as set forth in the copyright statute, 17 U.S.C. § 103 and the FAR clause at 52.227-14, but at a minimum, the GSA Customer shall receive unlimited rights to use such derivative works at no further cost.

3. Order of Precedence/Conflict. To the extent there is a conflict between the terms of this Rider and the terms of the underlying Schedule Contract or a conflict between the terms of this Rider and the terms of an applicable GSA Customer Purchase Order, the terms of the GSA Schedule Contract or any specific, negotiated terms on the GSA Customer Purchase Order shall control over the terms of this Rider. Any capitalized terms used herein but not defined, shall have the meaning assigned to them in the underlying Schedule Contract.

CONTRACTOR SUPPLEMENTAL PRICELIST INFORMATION AND TERMS**

TIBCO SOFTWARE FEDERAL, INC.

TIBCO SOFTWARE FEDERAL, INC. LICENSE, WARRANTY AND SUPPORT TERMS

END USER LICENSE AGREEMENT FOR U.S. FEDERAL GOVERNMENT BUSINESS (“AGREEMENT”)

PLEASE READ CAREFULLY: THIS AGREEMENT IS PROVIDED PURSUANT TO SECTION 12.212 OF THE FEDERAL ACQUISITION REGULATION (FAR) AND IS APPLICABLE TO TIBCO SOFTWARE LICENSES, EQUIPMENT, CLOUD OR HOSTED SERVICES (INDIVIDUALLY AND COLLECTIVELY REFERRED TO AS THE “PRODUCTS”) ACQUIRED BY OR ON BEHALF OF UNITED STATES FEDERAL GOVERNMENT DEPARTMENTS, AGENCIES, ADMINISTRATIONS, OR OTHER INSTRUMENTALITIES (“GOVERNMENT” OR “GOVERNMENT END USERS”), OR BY CONTRACTORS ON BEHALF OF, FOR TRANSFER OR RESALE TO, OR FOR THE BENEFIT OF GOVERNMENT END USERS (COLLECTIVELY, WITH GOVERNMENT END USERS, “GOVERNMENT CUSTOMER”). THIS AGREEMENT SHALL ALSO APPLY TO ANY MAINTENANCE OR CONSULTING SERVICES (“SERVICES”) ACQUIRED FROM TIBCO SOFTWARE FEDERAL, INC. (“TSFI”) RELATING TO THE PRODUCTS. NOTWITHSTANDING THE FOREGOING, IF PRODUCTS AND/OR SERVICES ARE BEING ACQUIRED FROM TSFI PURSUANT TO A NEGOTIATED AGREEMENT, THAT NEGOTIATED AGREEMENT SHALL CONTROL.

1. The following shall govern your use of the Products and Services, except to the extent all or any portion are (a) subject to a separate written, duly executed agreement, or (b) are contrary to applicable Federal law. In the event any provision of this Agreement is contrary to or unenforceable under applicable Federal law, the Federal law shall control. For Government End Users, this Agreement supersedes and replaces any shrink wrap, click wrap, or click through terms (“Automated Terms”) that may be presented with Products or Services and any such Automated Terms shall not apply.

2. **Definitions.** Capitalized terms used but not defined herein shall have the meanings set forth in Appendix A. “Order Form” means any purchase order or similar document, written agreement, or a web store or website order or registration requesting Products or Services. “Purchase Date” means the date the Order Form is accepted by us and in the case of a web store or web site transaction, the date of your download or access of a Product. If proprietary source code is included as part of the standard delivery of a Product and is not subject to open source license terms, use of such source code is controlled by the terms of this Agreement. “Updates” means Product bug fixes, enhancements, and updates, if and when made generally available by us as part of Maintenance. “We” or “Us” refers to TSFI, a subsidiary corporation of TIBCO Software Inc. (“TIBCO”). “You” or “Your” refers to the Government Customer acquiring Products or Services pursuant to this Agreement.

3. **Alpha, Beta, Developer Evaluation and Evaluation Licenses.** If the Products are provided or accessed at no charge for demonstration or evaluation purposes or for alpha or beta testing, then, subject to the license grant in Section 4 below and to the terms and conditions of this Agreement, (a) use of the Products shall be solely for such purposes, (b) the Products shall not be used or deployed in a production or development environment, and (c) such use shall automatically terminate upon the earlier of (i) thirty (30) days from the date TSFI grants the right to install or access the Product, (ii) TSFI’s notice of termination of such no charge use, or (iii) access to the Cloud or the Hosted Services has ended. If the Products are provided or accessed for Developer Evaluation, (a) use of the Products solely shall be for development evaluation purposes, (b) such use shall not be in a Production environment and (c) such use shall automatically terminate upon the earlier of (i) ninety (90) days from the date TSFI grants the right to receive, install or access the Product, (ii) TSFI’s notice of termination of such no charge use, or (iii) access to the Cloud or the Hosted Services has ended.

4. **License Grant.** The Products are the property of TIBCO Software Inc. (“TIBCO”) or its licensors and are protected by copyright and other laws. TSFI is a subsidiary of TIBCO. While TIBCO continues to own or have license rights to the Products, TSFI is authorized to and hereby grants you a limited, non-transferable (except as permitted herein), non-exclusive license, subject to the terms and conditions of this Agreement, to use the Number of Units set forth in the Order Form solely for your internal business use.

5. **License Term.** The term of each license for a Product shall be either perpetual or limited as designated on an Order Form. If a Product is licensed on a limited term basis, then, unless otherwise set forth in an Order Form, the term shall commence on the Purchase Date and have the following duration:

- Alpha, Beta and Evaluation - thirty (30) days
- Developer Evaluation – ninety (90) days
- Hosted Services - one (1) year
- Cloud - one (1) year
- Software purchases on a term limited basis - one (1) year

If you originally registered to download or access a Product for Alpha, Beta or Evaluation purposes, upon re-registration you may be permitted one (1) additional term. On expiration of a limited term, you must immediately cease using and return or destroy all copies of the Products and related Confidential Information.

6. **Delivery.** Products are delivered electronically, and delivery deemed complete when duly made available to you.

7. **Equipment Purchase.**

A. **Purchase.** When we issue you a quotation and accept your Purchase Order for the purchase of Equipment, we agree, subject to the terms and conditions of this Agreement, to sell you the Equipment described therein. We transfer all title and risk to the hardware component of the Equipment when we or our agent ships the Equipment. For a feature, conversion or upgrade involving the removal of parts in connection with the Equipment, which parts become our property, or for the replacement of Equipment or components thereof pursuant to the Equipment Maintenance Program Guide, the return of the Equipment or parts forms part of your consideration to us and we reserve all rights under applicable law regarding said Equipment or parts.

B. **Equipment Delivery.** For delivery of the TIBCO Messaging Appliance™, title is deemed to transfer upon delivery by our agent to our designated freight carrier, FCA Ontario, Canada (Incoterms 2000). For delivery of all other Equipment, title is deemed to transfer upon delivery by us to our designated freight carrier, FCA TIBCO’s premises (Incoterms 2000). All freight, insurance and other shipping expenses

shall be paid to the freight carrier by us. Any shipping or handling charges to be paid by you shall be as identified on the accepted Purchase Order. Delivery is subject to the availability of Equipment.

8. Hosted Services. We shall use commercially reasonable efforts to make the Hosted Services you have purchased available 24 hours a day, 7 days a week, except for: (a) planned downtime under our direct control (of which we shall give at least 8 hours notice via the Hosted Services and which we shall schedule to the extent practicable during the weekend hours from 6:00 p.m. Pacific Standard Time Friday to 3:00 a.m. Pacific Standard Time Monday), (b) to the extent we are notified by third party service providers of planned downtime (of which we shall provide such notice to you via the Hosted services as soon we can reasonably do so), or (c) any unavailability caused by circumstances beyond our reasonable control, including, without limitation, acts of God, acts of government, flood, fire, earthquakes, civil unrest, acts of terror, strikes or other labor problems, internet service or third party hosting provider failures or delays ("Force Majeure"). Hosted Services are provided in accordance with applicable laws and government regulations.

9. Cloud. Provisioning of the Cloud will be confirmed electronically and delivery deemed complete when such confirmation is made available to you. Provisioning of the Cloud requires an account be established for you in TIBCOcommunity. You agree to and accept the Terms of Use for TIBCOcommunity (http://www.tibcommunity.com/themes/tibcotucon/resources/html/terms_of_use.html) if you use the credentials to access the TIBCOcommunity site EXCEPT that any provision of the Terms of Use for TIBCOcommunity that is contrary to, or unenforceable against a Government End User under, applicable Federal law shall be of no effect for Government End Users; for Government End Users, Federal law shall apply regardless of any choice of law or venue language in the TIBCOcommunity Terms of Use. Certain Software Products may be provided for installation by you and are provided solely to enable the functionality of the Cloud, and may not be used for any other purpose. You are solely responsible for procuring your own account with the applicable TIBCO- approved third party service provider ("Provider") for the Cloud and for the technical operation of the content of your account.

10. Hosted Services and Cloud Restrictions.

A. In connection with your use of Hosted Services or a Cloud, you shall, in addition to the Restrictions below (i) be responsible for your users' compliance with this Agreement, (ii) be solely responsible for the accuracy, quality, integrity and lawfulness of and the means by which you acquire and disclose your data, (iii) not store or transmit infringing, libelous, or otherwise unlawful or tortious material or malicious code, nor store or transmit material in violation of third-party privacy rights, (iv) not sell, resell, rent or lease the Hosted Services or Cloud, (v) use reasonable efforts to prevent unauthorized access to or use of the Hosted Services or Cloud, and notify us promptly of any such unauthorized access or use, (vi) not interfere with or disrupt the integrity or performance of any Provider services or third-party data contained there, (vii) not attempt to gain unauthorized access to the Hosted Services, Cloud or their related systems or networks, and (viii) use the Hosted Services or Cloud only in accordance with any applicable Documentation and all applicable laws and government regulations. Hosted Services or the Cloud may be subject to other limitations, such as, for example, limits on disk storage space, on the number of calls or number of users, third party terms of use, etc., specified in the applicable Documentation, web store or web site. In the event that you receive any notice claiming that our content in connection with the Hosted Services, Cloud or any Provider services violates a third party's rights including, without limitation, notices pursuant to the Digital Millennium Copyright Act, you will promptly forward such notice to us, with a courtesy copy to TIBCO's General Counsel.

B. You will not use Hosted Services or the Cloud to promote any illegal activities or post any materials in violation of any law. In addition, in using and accessing Hosted Services or the Cloud, you shall not use any third party software in connection with a Provider's or TIBCO service in any manner that requires, pursuant to the license applicable to such software, that any Provider or TIBCO property or services be: (i) disclosed or distributed in source code form; (ii) made available free of charge to recipients; or (c) modifiable without restriction by recipients. No software or content provided by you or your users in connection with your use of Hosted Services or the Cloud may contain any malicious or hidden mechanism or code for the purpose of damage or corrupting the Hosted Services, Cloud or the Provider service.

C. You are solely responsible for adequate security, protection and backup of your data and content. Except as required by applicable law, we are not responsible for Provider services, unauthorized access to your data or content, or the deletion, destruction, damage, loss or failure to store any of your content or other data that you submit or use in Hosted Services or the Cloud.

11. Restrictions.

To the extent consistent with the provisions of FAR 52.227-19 (Commercial Computer Software License), the following restrictions shall apply to Government End Users. Where a restriction is inconsistent with the provisions of FAR 52.227-19, the FAR provisions shall control and the restriction shall not apply to Government End Users. For other customers, the restrictions shall apply.

A. You shall not (a) make more copies than the Number of Units (except for a reasonable number of copies for archival and disaster recovery purposes) or use any unlicensed versions of the Software; (b) use any Software not listed in an Order Form, even if such unlicensed software is made available to you as part of the general delivery mechanism for the Products; (c) provide access to the Products to anyone other than employees, contractors, or consultants who agree in writing to be bound by terms at least as protective of TIBCO as those in this Agreement; (d) sublicense, transfer, assign, distribute to any third party, pledge, lease, rent, or commercially share the Products or any of your rights under this Agreement (for the purposes of the foregoing a change in control of your company is deemed to be an assignment); (e) use the Products for purposes of providing a service bureau, including, without limitation, providing third-party hosting, or third-party application integration or application service provider-type services, or any similar services; (f) use the Products in connection with ultrahazardous activities, or any activity for which failure of the Products might result in death or serious bodily injury to you or a third party; or (g) directly or indirectly, in whole or in part, modify, translate, reverse engineer, decrypt, decompile, disassemble, make error corrections to, create derivative works based on, or otherwise attempt to discover the source code or underlying ideas or algorithms of the Products. You may engage in such conduct as is necessary to ensure the interoperability of the Software as required by law, provided that prior to commencing any decompilation or reverse engineering of any Software, you agree to observe strict obligations of confidentiality and provide us reasonable advance written notice and the opportunity to assist with or conduct such activity on your behalf and at your expense.

B. Any additional license parameters applicable to particular Products are set forth in Appendix B.

12. **Proprietary Notices.** The Products, Documentation and Materials are proprietary to TIBCO and its licensors and protected by applicable U.S. and international patent, copyright, trademark and trade secret laws. TIBCO and its licensors shall retain ownership in the Products, Documentation and Materials; all derivatives thereof (in whole or part); and any intellectual property or other rights embodied therein. All proprietary notices incorporated in or affixed to any Products, Documentation or Materials shall be duplicated by you on all copies of the Products, Documentation, or Material, as applicable, and shall not be altered, removed or obliterated.

13. **Extraordinary Corporate Event.** For Government End Users, the rights contained at FAR 52.227-19 shall apply in lieu of the following provision. For customers other than Government End Users, to the extent you or your successors or assigns enter into an Extraordinary Corporate Event after the Purchase Date, this Agreement shall not apply to those additional users, divisions or entities which were added to your organization as a result of the Extraordinary Corporate Event until those additional users, divisions or entities are added to this Agreement by way of a written amendment signed by our respective duly authorized officers.

14. **Maintenance.**

A. If you acquired Maintenance from a TIBCO authorized third party, Section 14(B) does not apply. THE TERMS OF ANY MAINTENANCE SERVICES OR RELATED WARRANTY SHALL BE AS AGREED BY AND BETWEEN YOU AND THE TIBCO AUTHORIZED THIRD PARTY. WE PROVIDE NO WARRANTY TO YOU WITH RESPECT TO MAINTENANCE SERVICES PROVIDED BY ANY THIRD PARTY.

B. Maintenance, if ordered (or if included in Cloud or Hosted Services), is provided under the policies set forth in the Maintenance Program Guide attached as Appendix C for Products other than Equipment, and at Appendix D for Equipment.

C. Any Updates provided by us or by our authorized resellers or distributors (if applicable) are subject to the terms and conditions of this Agreement. To receive Maintenance, all Products must be properly licensed and Maintenance fees paid. We are under no obligation to provide Maintenance in the event that Maintenance fees have not been paid when properly due and owing.

15. **Consulting Services.**

A. You may procure installation, configuration, training or other consulting or support services ("Consulting Services") either through a Purchase Order issued against a Consulting Services quotation, or through a work order executed by authorized representative of both parties ("Work Order"). Consulting Services available under this Agreement are limited to those defined as Commercial Items in FAR 2.101, Commercial Item definition at (5) and (6).

B. We hereby grant you a nonexclusive license to use the Materials (and a reasonable number of copies thereof) solely for your internal operations in conjunction with your use of the Products. Materials obtained during your attendance at or from your purchase of virtual training courses, unless otherwise agreed in an Order Form, are limited to the one (1) copy received by each attendee and may not be duplicated.

C. In the event that you are purchasing a license to specific training course content as set forth in an Order Form, the content of each such training course shall constitute a Product for the purpose of this Agreement. Subject to your payment of fees due, you are granted a limited, non-transferable and non-exclusive license to use, modify, translate, create derivative works from, reproduce and distribute the Product solely for your internal business use; provided, however, that the copyright notices and any other legends of ownership are reproduced on each complete or partial copy of such Product. We retain all right, title and interest in the Product, excluding your Confidential Information. All complete or partial copies of the Product in any form shall be subject to the same terms as the original copy. The term of each license and level of annual Maintenance for the Product shall be as set forth in the Order Form.

16. **Limited Warranty.**

The following Limited Warranty provisions shall apply to Government End Users to the extent permitted by applicable Federal law, including FAR

12.404(b)(2); to the extent that these limitations are not permitted or are unenforceable under applicable Federal law, they shall be of no force or effect for Government End Users. For all other customers, the following Limited Warranty provisions shall apply.

A. If you obtained Software directly from us, we warrant for a period of thirty (30) days from the Purchase Date that (i) the media on which the Software is furnished will be free of defects in materials and workmanship under normal use; and (ii) the Software will substantially conform to its Documentation. This limited warranty extends to you personally and is not transferable. Your sole and exclusive remedy and the entire liability of TIBCO and its licensors under this limited warranty will be, at our option, to repair or replace (with respect to the affected Software product), or refund the Software license fee. In the event of a refund, this Agreement shall terminate solely with respect to the affected Software product, and you shall immediately cease all use of and return or destroy all copies of such Software.

B. THIS WARRANTY DOES NOT APPLY TO ANY SOFTWARE WHICH (I) IS LICENSED FOR ALPHA, BETA, EVALUATION, TESTING OR DEMONSTRATION PURPOSES FOR WHICH WE DID NOT RECEIVE A LICENSE FEE; (II) HAS BEEN ALTERED OR MODIFIED (UNLESS BY US); (III) HAS NOT BEEN INSTALLED, OPERATED, REPAIRED, OR MAINTAINED IN ACCORDANCE WITH INSTRUCTIONS SUPPLIED BY US; (IV) HAS BEEN SUBJECTED TO ABNORMAL PHYSICAL OR ELECTRICAL STRESS, MISUSE, NEGLIGENCE, OR ACCIDENT; OR (V) IS USED IN VIOLATION OF ANY OTHER TERM OF THIS AGREEMENT.

C. EXCEPT AS SPECIFIED IN THIS LIMITED WARRANTY OR AS OTHERWISE REQUIRED BY APPLICABLE LAW, THE PRODUCTS AND SERVICES ARE PROVIDED "AS IS". ALL EXPRESS OR IMPLIED CONDITIONS, REPRESENTATIONS, AND WARRANTIES INCLUDING, WITHOUT LIMITATION, ANY IMPLIED WARRANTY OR CONDITION OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, NONINFRINGEMENT, SATISFACTORY QUALITY OR ARISING FROM A COURSE OF DEALING, USAGE, OR TRADE PRACTICE, ARE HEREBY EXCLUDED TO THE EXTENT ALLOWED BY APPLICABLE LAW. CERTAIN THIRD PARTY SOFTWARE MAY BE PROVIDED TO CUSTOMER ALONG WITH CERTAIN PRODUCTS

THIS THIRD PARTY SOFTWARE IS PROVIDED "AS IS", IS SUBJECT TO THE TERMS OF THE THIRD PARTY LICENSE, AND MAY ONLY BE USED WITH THE PRODUCTS WITH WHICH IT IS PROVIDED TO YOU. SUCH THIRD PARTY SOFTWARE IS PROVIDED SOLELY AS AN ACCOMMODATION TO YOU AND YOU ARE UNDER NO OBLIGATION TO USE SUCH THIRD PARTY SOFTWARE. NO WARRANTY IS MADE REGARDING THE RESULTS OF ANY PRODUCTS OR SERVICES, THAT THE PRODUCTS WILL OPERATE WITHOUT ERRORS, PROBLEMS OR INTERRUPTIONS, THAT ERRORS OR BUGS WILL BE CORRECTED, OR THAT THE PRODUCT FUNCTIONALITY OR SERVICES WILL MEET YOUR REQUIREMENTS. NO TIBCO DEALER, DISTRIBUTOR, AGENT OR EMPLOYEE IS AUTHORIZED TO MAKE ANY MODIFICATIONS, EXTENSIONS OR ADDITIONS TO THIS WARRANTY ON TSFI'S OR TIBCO'S BEHALF.

17. Indemnity. For Government End Users, claims that Products infringe any patent, copyright or trade secret shall be subject to the provisions of FAR 52.227-2 and 52.227-3.

For customers other than Government End Users, if you obtained the Software from us directly, then we agree at our own expense to defend or, at our option, to settle, any claim or action brought against you to the extent it is based on a claim that the unmodified Software infringes any patent issued by the United States, Canada, Australia, Japan, or any member of the European Union, or any copyright, or any trade secret of a third party. We will indemnify and hold you harmless from and against any damages, costs and fees reasonably incurred (including reasonable attorneys' fees) that are attributable to such claim or action and which are assessed against you in a final judgment provided that you promptly notify us in writing of such claim, we have the exclusive right to control such defense and/or settlement, and you provide reasonable assistance (at our expense) in the defense thereof. In no event shall you settle any claim, action or proceeding without our prior written approval. In the event of any such claim, litigation or threat thereof, we, at our sole option and expense, shall (a) procure for you the right to continue to use the Software, or (b) replace or modify the Software with functionally equivalent software. If such license or modification is not commercially reasonable (in our sole reasonable opinion), we may cancel this Agreement with respect to the affected Software product upon sixty days prior written notice to you and refund to you the unamortized portion of the associated license fees paid by you to us based on a five-year straight-line depreciation. This Section states our entire liability with respect to the infringement of any intellectual property rights, and you hereby expressly waive any other liabilities or obligations we have with respect thereto. The foregoing indemnity shall not apply to the extent that (x) any claim is based on or attributable to modifications made by you to the Software, or portions thereof, (y) such claim would have been avoided by use of the then-current release version of the Software, or (z) your continued allegedly infringing activity after being provided with modifications that would have avoided the alleged infringement.

18. Limitation of Liability.

FOR GOVERNMENT END USERS, THE FOLLOWING LIMITATIONS OF LIABILITY SHALL APPLY ONLY TO THE EXTENT PERMITTED UNDER APPLICABLE FEDERAL LAW. TO THE EXTENT THAT THESE PROVISIONS ARE INCONSISTENT WITH APPLICABLE FEDERAL LAW, THEY SHALL BE OF NO FORCE OR EFFECT WITH REGARD TO GOVERNMENT END USERS.

FOR CUSTOMERS WHO ARE NOT GOVERNMENT END USERS, THE FOLLOWING SHALL APPLY:

A. EXCEPT AS PROVIDED UNDER THE INDEMNITY ABOVE; OR IN CONNECTION WITH THE MISAPPROPRIATION OF THE OTHER PARTY'S INTELLECTUAL PROPERTY, INCLUDING, WITHOUT LIMITATION, TRADE SECRETS; DAMAGES FOR BODILY INJURY, DEATH, DAMAGE TO REAL OR TANGIBLE PERSONAL PROPERTY; OR INTENTIONAL OR GROSS NEGLIGENCE (THE "EXCLUDED MATTERS"), IN NO EVENT WILL EITHER PARTY OR TIBCO'S LICENSORS BE LIABLE FOR ANY LOSS OR UNAVAILABILITY OF OR DAMAGE TO DATA, LOST REVENUE, LOST PROFITS, FAILURE TO REALIZE EXPECTED SAVINGS, DAMAGE TO REPUTATION, BUSINESS INTERRUPTION, DOWNTIME COSTS, OR ANY OTHER INDIRECT, INCIDENTAL, CONSEQUENTIAL, SPECIAL, PUNITIVE, EXEMPLARY OR SIMILAR TYPE OF DAMAGES ARISING OUT OF THIS AGREEMENT, THE USE OR THE INABILITY TO USE THE PRODUCTS, OR THE PROVISION OF ANY MAINTENANCE, CONSULTING SERVICES, EVEN IF A PARTY HAS BEEN ADVISED OR WAS AWARE OR SHOULD HAVE BEEN AWARE OF THE POSSIBILITY OF SUCH COSTS, EXPENSES OR DAMAGES.

B. EXCEPT FOR THE EXCLUDED MATTERS, IN NO EVENT SHALL A PARTY'S LIABILITY TO THE OTHER, WHETHER IN CONTRACT, TORT (INCLUDING ACTIVE OR PASSIVE NEGLIGENCE), BREACH OF WARRANTY, CLAIMS BY THIRD PARTIES OR OTHERWISE, EXCEED THE GREATER OF FIFTY THOUSAND DOLLARS (\$50,000 USD) OR THE PRICE PAID BY YOU UNDER THE APPLICABLE ORDER FORM. This clause shall not impair the U.S. Government's right to recover for fraud or crimes arising out of or related to this Agreement under any federal fraud statute, including the False Claims Act, 31 U.S.C. §§ 3729-3733. Furthermore, this clause shall not impair nor prejudice the U.S. Government's right to EXPRESS remedies provided in the Agreement.

C. THE FOREGOING LIMITATIONS SHALL APPLY EVEN IF THE ABOVE-STATED REMEDY OR LIMITED WARRANTY FAILS OF ITS ESSENTIAL PURPOSE. BECAUSE SOME STATES OR JURISDICTIONS DO NOT ALLOW LIMITATION OR EXCLUSION OF CONSEQUENTIAL OR INCIDENTAL DAMAGES, THE ABOVE LIMITATION MAY NOT APPLY TO YOU. TO THE EXTENT ALLOWED BY LOCAL LAW, THESE LIMITATIONS WILL APPLY REGARDLESS OF THE BASIS OF LIABILITY, INCLUDING NEGLIGENCE, MISREPRESENTATION, BREACH OF ANY KIND, OR ANY OTHER CLAIMS IN CONTRACT, TORT OR OTHERWISE.

19. Confidentiality.

For Government End Users, confidentiality obligations shall be pursuant to the Freedom of Information Act and other applicable Federal law, and Sections 19A through 19E, below, shall not apply. TIBCO software Products delivered under this Agreement constitute commercial computer software products as defined in the FAR and are delivered with no greater than the rights identified in FAR 52.227-19; data delivered under this Agreement constitutes Limited Rights data, and was developed at private expense, embodies trade secrets, or are commercial or financial and confidential or privileged. Pursuant to FAR 52.227-14(g) (Alternate II, DEC 2007), these data may be reproduced by the Government with the express limitation that they will not, without written permission of TSFI, be used for purposes of manufacture nor disclosed outside the Government.

For customers other than Government End Users, the following provisions shall apply:

A. "Confidential Information" means any information disclosed by either party, whether or not marked, including, without limitation, the terms of this Agreement; the Products; Materials; individual contact information provided by either party; Product or related performance test results derived by you, including but not limited to benchmark test results; and your Protected Data (as defined in Section B below) and Output. Each party agrees to protect Confidential Information in the same manner as it protects its own Confidential Information (but using no less than a reasonable degree of protection) and shall only disclose Confidential Information to those with a need to know that information and who have agreed in writing to be bound by terms at least as protective as those contained in this Agreement. Information will not be deemed Confidential Information if (i) available to the public other than by a breach of a confidentiality obligation, (ii) rightfully received from a third party not in breach of a confidentiality obligation, (iii) independently developed by one party without use of the Confidential Information of the other; (iv) known to the recipient at the time of disclosure (other than under a separate confidentiality obligation); or (v) produced in compliance with applicable law or court order, provided the other party is given reasonable advance notice of the obligation to produce Confidential Information. Each party agrees to indemnify the other for any damages (including reasonable expenses) the other may sustain resulting from the unauthorized use and/or disclosure of the other's Confidential Information. The parties further agree that money damages would not be a sufficient remedy for a breach of confidentiality. The parties shall be entitled to seek injunctive or other equitable relief without the necessity of posting a bond even if otherwise normally required. Such injunctive or equitable relief shall not be the exclusive remedy for any breach of confidentiality, but shall be in addition to all other rights and remedies available at law or in equity.

B. To the extent we are exposed to individual personal data owned or otherwise held by you during the provision of Hosted Services, Cloud, or Services, which is subject to various data protection laws and/or regulations ("Protected Data"), we agree to treat such Protected Data in accordance with the Customer Privacy and Security Statement set forth at http://www.tibco.com/customer_privacy_security_statement.jsp (the "Statement"). The policies and procedures set forth in the Statement as well as those set forth in the Data Protection Policy Statement at http://www.tibco.com/resources/data_protection_statement.pdf are in place to meet our obligations for the protection, integrity and confidentiality of any Protected Data which exceed our standard obligations to safeguard Confidential Information.

C. Confidential Information shall remain the sole property of the disclosing party, and each party acknowledges and agrees that it does not acquire any rights therein. Use by a recipient of Confidential Information for the purposes contemplated under this Agreement, including, but not limited to, any configuration or use by you of Products or Materials shall not affect or diminish the disclosing party's rights, title and interest in and to Confidential Information.

D. We may use any individual contact information provided by you or your users for support, product information and other business to business communications in connection with this Agreement. In the event you or your users wish to opt-out from receiving such communications, you or your users should do so on the web store or website page where you originally submitted provided your information or at <http://forms2.tibco.com/unsubscribe/u/5042/768537d8eeb3af5338448782d1fa356e>. Please note that communications may still be transmitted after the opt-out request has been submitted but before it has been processed.

E. You acknowledge and agree that any feedback, suggestions, comments, improvements, modifications and other information (including any ideas, concepts, "know-how" or techniques contained therein) that you provide to us about our Products or their performance (collectively, "Feedback") shall not be deemed as your Confidential Information and may be used, disclosed, disseminated and/or published by us for any purpose, including developing, manufacturing and marketing products incorporating Feedback, without obligation of any kind to you, and you waive any rights whatsoever in or to all Feedback.

20. Export. Products, Documentation, Materials and related technical data, are subject to U.S. export control laws, including without limitation the U.S. Export Administration Act and its associated regulations and may be subject to export or import regulations of other countries. You agree that you will not nor permit your users to export or re-export the Licensor Software, Documentation and Materials in any form in violation of applicable export or import laws.

21. Government Use. The Products and Services are COMMERCIAL ITEMS AS DEFINED BY THE FEDERAL ACQUISITION REGULATION. Use by the Government is restricted according to the terms of this Agreement. NOTWITHSTANDING ANY PROVISIONS TO THE CONTRARY IN THIS AGREEMENT, AND AS REQUIRED BY FAR 12.302(b), THE FOLLOWING PROVISIONS FOUND AT FAR 52.212-4 SHALL APPLY:

- (1) Assignments; (2) Disputes;
- (3) Payment (except as provided in subpart 32.11); (4) Invoice;
- (5) Other compliances; and
- (6) Compliance with laws unique to Government contracts.

22. Entire Agreement. For Government End Users, to the extent permitted by applicable Federal law and regulation, this Agreement constitutes the entire agreement between the parties with respect to the use of the Products and Services, and supersedes all proposals, oral or written, and all other representations, statements, negotiations and undertakings relating to the subject matter hereof. All orders of Products or Services by you to us shall be deemed to occur, with or without reference, under the terms of this Agreement, unless expressly superseded by a signed written agreement between the parties.

For other customers, this Agreement, and any terms which are incorporated by written reference (including written reference to information contained in a URL, Documentation or reference policy) constitutes the entire agreement between the parties with respect to the use of the Products and Services, and supersedes all proposals, oral or written, and all other representations, statements, negotiations and undertakings relating to the subject matter hereof. All orders of Products or Services by you to us shall be deemed to occur, with or without reference, under the terms of this Agreement, unless expressly superseded by a signed written agreement between the parties. Except for additional terms you have agreed to in connection with our web stores or web sites,

none of the terms of the Order Form (other than the product names, Number of Units, level of Maintenance, description of Consulting Services, and fees due in connection therewith) shall apply for any reason or purpose whatsoever, regardless of any statement on any Order Form to the contrary.

Neither the license to use granted in this Agreement nor the obligation to pay license fees are dependent upon the performance by any party of any Consulting Services or the supply of any other software program or product.

23. Termination.

Between TSFI and Government End Users, termination shall be pursuant to FAR 52.212-4(l) (Termination for the Government's convenience) and 52.212(m) (Termination for cause); no other termination rights shall apply, including paragraphs 23(A) through (F). Nothing in the foregoing, however, shall be understood to grant the Government the right to use Products or Services acquired on a term basis beyond the term set forth in the applicable Purchase Order.

For customers other than Government End Users:

A. This Agreement and all Order Forms shall automatically terminate if: (i) either party files for bankruptcy, or otherwise goes into receivership, becomes insolvent or makes an assignment for the benefit of creditors; or (ii) a writ of attachment or execution is levied on the Equipment (where we are lessor) and is not released or satisfied within ten (10) days thereafter, or (iii) where we are lessor or in a Purchase where payment in full to us has not been made, if a receiver is appointed in any proceeding or action to which you are a party with authority to take possession or control of the Equipment. In all cases, the Equipment shall be promptly returned to us and not be treated as your asset.

B. Maintenance or Consulting Services may be terminated: (i) by either party upon a default of the other, such default remaining uncured for fifteen (15) days from written notice from the non-defaulting party; (ii) upon the filing for bankruptcy or insolvency of the other party, (iii) by either party upon prior written notice at least sixty (60) days prior to the end of any annual Maintenance term; or (iv) by you for Consulting Services, upon ten (10) days prior written notice or (e) by us for Consulting Services upon thirty (30) days prior written notice. Termination of Maintenance or Consulting Services shall not terminate this Agreement.

C. A Cloud will terminate if or when your or our agreement for services with a Provider is terminated or otherwise expires for any reason. In the event of a termination of your Provider services, by Provider, in connection with a Cloud, without cause (where you are not in breach), to the extent you have pre-paid us fees for the Cloud, you may submit written notice requesting a refund, such notice to include evidence of Provider's termination without cause (e.g. a copy of Provider's notice of termination). Following receipt of such written notice, we will refund the pre-paid unearned pro-rata portion, from the date we received your notice, for the remaining Cloud term, or in the case of multiple Cloud purchases, each remaining term. In the event of a termination, for any reason, of TIBCO Provider service accounts upon which we rely to provide Hosted Services or the Cloud, to the extent you have pre-paid us fees for Hosted Services or Cloud to us, we will refund, as of the date of notice of termination from Provider to us, for the unearned pro-rata portion of the prepaid fees.

D. You may terminate this Agreement in its entirety at any time, in regard to Software, by destroying all copies of the Software. We may terminate this Agreement at any time, in regard to Software provided to you for evaluation or alpha/beta purposes. In the case of an evaluation of Equipment, where we exercise our right to terminate the Lease for a reason other than your breach of the Agreement, and you have pre-paid fees for the month in which our termination occurs, we will refund the unearned monthly pro-rated fee to you within thirty (30) days following our receipt of the returned Equipment.

E. If a license, Cloud, or Hosted Services under this Agreement terminates or expires, or upon termination of this Agreement in its entirety for any reason, you shall (i) cease using the Products, Documentation, and related Confidential Information, and (ii) return or notify us in writing within thirty (30) days after termination that you have destroyed such Software, Documentation, related Confidential Information, and all copies thereof, whether or not modified or merged into other materials.

F. Termination of this Agreement, any license, Cloud, or Hosted Services, or any Order Form shall not limit either party from pursuing other remedies available to it, including injunctive relief, nor shall such termination relieve you of your obligation to pay all fees that have accrued or are otherwise owed by you under this Agreement. Except as set forth in sections entitled "Termination", "Limited Warranty" or "Indemnity", all fees paid under or in connection with this Agreement are non-refundable and no right of set-off exists. The parties' rights and obligations under this section and sections entitled "Limited Warranty", "Indemnity", "Limitation of Liability", "Proprietary Notices", "Confidentiality", "General", "Governing Law" and your warranties in connection with Hosted Services and the Cloud, shall survive the expiration or earlier termination of this Agreement.

24. Open Source Software. If you use any third party software not supplied by us, including any open source software, in conjunction with any Product, you must ensure that such use does not require any of the following, pursuant to the terms of such software: (i) disclosure or distribution of any Product in source code form; or (ii) licensing of any Product for the purpose of making derivative works; or (iii) redistribution of any Product at no charge. For the avoidance of doubt, you may not combine Product with any software licensed under any version of or derivative of the GNU General Public License ("GPL") in any manner that could cause, or could be interpreted or asserted to cause, the Product or any modifications to the Product to become subject to the terms of the GPL.

25. Special Product Provisions. Software products TIBCO BusinessEvents®, TIBCO Collaborative Information Manager™, TIBCO ActiveMatrix® Service Performance Manager and TIBCO® ActiveFulfillment (and each of the foregoing, when included in any Bundle or Embedded/ Bundled Products) are subject to a restricted license and contain third party proprietary code that you may only use in conjunction with the Software and may be subject to additional terms as set forth in Appendix B.

26. General.

A. As between TSFI and the Government, interest in connection with this Agreement shall be pursuant to the provisions of FAR 52.212-4(i)(6).

B. As between TSFI and other customers: All payments of fees due shall be made in U.S. dollars, net 30 from Purchase Date or, for any other amounts coming due hereafter, net 30 from our invoice. Fees do not include sales, use, withholding, value-added or similar taxes, and

you agree to pay all sales, use, value-added, goods and services, consumption, withholding, excise and any other similar taxes or government charges, exclusive of our income tax. You agree to pay all reasonable costs incurred (including reasonable attorneys' fees) in collecting past due amounts. Except as set forth in the sections entitled "Limited Warranty", "Indemnity" and "Termination" all fees paid under or in connection with this Agreement are non-refundable and no right of set-off exists. A service charge of one and one-half percent (1 ½%) per month will be applied to all invoices that are not paid on time. No delay in the performance of any obligation by either party, excepting all obligations to make payment, shall constitute a breach of this Agreement to the extent caused by Force Majeure.

C. You hereby grant us and our independent auditors the right to audit your compliance with this Agreement and report any results to our licensors. You agree to provide reasonable assistance to ensure a complete and accurate audit by us and our independent auditors. If any portion of this Agreement is found to be void or unenforceable, the remaining provisions shall remain in full force and effect. All notices related to this Agreement shall be in writing. Notices will be effective if dispatched by facsimile; or electronic mail; by hand; reliable overnight delivery service or first-class, pre-paid mail if sent to the contract address for the intended recipient set forth in the Order Form. A copy of any notice of default, breach or termination shall also be sent to that party's General Counsel.

27. Governing Law. For Government End Users, this Agreement shall be governed by applicable Federal law, including but not limited to the Contract Disputes Act of 1978 as amended, with venue in the Federal courts of competent jurisdiction. For other customers, to the extent permitted by law, this Agreement shall be governed by and construed in accordance with the laws of the State of California, United States of America, as if performed wholly within the state and without giving effect to the principles of conflict of law. The United Nations Convention on Contracts for the International Sale of Goods and the Uniform Computer Information Transactions Act are excluded from application hereto.

Addenda:

Appendix A	Definitions
Appendix B	Product Parameters
Appendix C	Product Maintenance
Appendix D	Equipment Maintenance

TSFI EULA Appendix A -- Definitions

"Academic Bundle" means a Bundle which is licensed to an accredited education institution solely for educational use, teaching and individual student or faculty non-funded research purposes in Non-Production, or for the purpose of funded research or for any classes offered electronically via the internet or otherwise (i.e.: "on-line" classes) is prohibited. For the purposes of an Academic Bundle, Licensee may provide access to the Licensor Software products by students who are Named Users, subject to such Named Users agreeing to be bound by terms at least as protective of Licensor as the terms of this Agreement.

"Affiliates" means entities, regardless of corporate status, controlled by, controlling or under common control with Licensor or Licensee, respectively, or officers, directors, shareholders, employees or agents of any of the foregoing.

"Broker" means the component within the applicable Site Copy which schedules work for Engines in a GridServer® or FabricServer® environment. GridServer environment means at least one TIBCO DataSynapse GridServer® Broker and a pool of servers with the TIBCO DataSynapse GridServer® Engine executing grid services. FabricServer environment means at least one TIBCO DataSynapse FabricServer® Broker and a pool of servers with the TIBCO DataSynapse FabricServer® Engine managing enterprise applications.

"Bundle" means a collection of Licensor Software, listed in Licensor's quotation or price book, to be sold together under a collective name such as "XXX Bundle" which consists of X, Y and Z. The Licensor Software which comprises a Bundle must be used in accordance with any specific license restrictions imposed in this Agreement and solely in conjunction with the components of the Bundle; provided that a Bundle component may be accessed by or communicate with other Licensor Software separately licensed by Licensee. In no event may the Licensor Software which comprises a Bundle be used on a standalone basis. A "Bundle" is sold at a discount to the cost of licensing the individual components due to the restrictions imposed on the use of the Bundle by this section and any specific license restrictions imposed by this Agreement. If the terms of this Agreement with regard to a Bundle are breached, such breach must be cured within ten (10) days of Licensor notifying Licensee

in writing of the breach. In addition to the foregoing, where Bundle is used as the Unit type, Licensee's use is limited to the Number of Units and

Unit type for each component which comprises the Bundle, as set forth in the bill of material for such Bundle.

"CICS Region" means a subdivided mainframe address space managed by CICS for resource allocation, resource sharing, and transaction execution, of which the resource definitions include the TIBCO EMS Client for z/OS.

"Cloud" means an internet based computing service offered by a Licensor approved third party, which permits users to make use of a hosted hardware and software environment, which includes, among other components, Licensor Software set forth in an Order Form.

"Concurrent Users" means the number of Authorized Users that are simultaneously logged in to the Licensor Software at any single point in time.

"Connection" means any network link or session established with Licensor software, directly or indirectly to any other entity, including but not limited to software, firmware or hardware. For TIBCO Rendezvous® and TIBCO SmartSockets®, "Connection" means any network protocol link established with such Licensor Software (directly or indirectly) to any other entity, including but not limited to software, firmware or hardware.

For TIBCO ActiveSpaces®, "Connection" means any session established directly or indirectly to a TIBCO ActiveSpaces® Metaspace cluster instance.

For TIBCO DataSynapse Federator™, "Connection" means a web service session established to a TIBCO DataSynapse GridServer® Manager Instance or a TIBCO DataSynapse FabricServer® Manager Instance; for TIBCO DataSynapse™ Analytics or TIBCO® Cloud Analytics, a database session established to a TIBCO DataSynapse GridServer® Broker reporting database or TIBCO Silver™ Fabric Manager reporting database; and for TIBCO® Data Quality Service Engine Named Application, any link or session established directly or indirectly (through any other middleware application) which calls to a named third party software application.

"Consumer Price Index" means (unless otherwise set forth in this Agreement or an Order Form) the United States Department of Labor - Consumer Price Index for All Urban Consumers (CPI-U).

"Connected Processor" means any processor that produces information consumed by the relevant Licensor Software product (excluding processors on devices such as routers, switches, proxies, HTTP or application servers configured to substantially pass-through information or messages to Licensor Software).

"CPU" means a chip that contains a collection of one or more cores on which the program is running. Regardless of the number of cores, each chip counts as one (1) CPU. This definition pertains solely to the TIBCO LogLogic Product Line and does not affect, nor is it affected by, the Processor Unit Type or Processor counting policy.

"Developer" means a Named User of a Licensor Software product other than for use only in Non-Production.

"Development License" for TIBCO Spotfire® Developer or TIBCO Spotfire DecisionSite® Developer means use by a Developer in accordance with the Documentation in Non-Production for the purposes of configuring analyses created with TIBCO Spotfire products and/or extending the TIBCO Spotfire product platform. The Development License includes the right to use resulting developments in conjunction with Licensee's right to use Licensor Software for Production purposes.

"Documentation" means text material that accompanies an item of Licensor Software on delivery, describing how to make use of that software.

"Engines" means for GridServer products a single thread that processes tasks or services in a first in, first out (FIFO) queue, and for FabricServer products a single agent that manages the deployment and performance of an application. Typically, only a single engine runs on a single cpu/core so that the number of engines in the grid is the same as the number of cpu's/cores in a GridServer or FabricServer environment.

"Enablement License" means for use in connection with and for up to the Number of Units licensed of the TIBCO DataSynapse™ Licensor Software which contains the word "Edition" in the product name, and if a) an Application Enablement License, a license to deploy JavaEE applications, built on the applicable third party application server, or b) for an Enterprise Enablement License, a license to deploy or integrate with the applicable third party application, or in connection with Command Lind, to deploy custom or external applications. Enablement Licenses do not include Engines required for running third party applications or any integration software to mesh or permit the Licensor Software to function with such third party applications.

"Enterprise" means (unless otherwise set forth in an Order Form) an unlimited Number of Units of the Licensor Software, where the Number of Units is identified as Enterprise in the Order Form, to be deployed by Licensee until the Enterprise Term Expiration Date set forth in the Order Form, (the "Enterprise Term"), at which time, the Number of Units then deployed in Production and Non-Production use by Licensee becomes fixed and Licensee may not thereafter deploy additional Units. During the Enterprise Term, Licensee's right to deploy shall not extend to any Extraordinary Corporate Event. Licensee hereby agrees to provide Licensor, within sixty (60) days after the end of the Enterprise Term, written notice of the Number of Units deployed at the end of the Enterprise Term by Unit and License Type. In the event Licensee elects to renew Maintenance (subject to any termination provisions in this Agreement), then during the Enterprise Term and each annual renewal thereafter, Licensor agrees the annual Maintenance fee for the Licensor Software licensed on an Enterprise basis shall not increase by more than the percentage rate change in the Consumer Price Index for the twelve month period immediately preceding each anniversary date of Maintenance.

"Equipment" means a hardware appliance, obtained from or through Licensor, in which Licensor has caused the Licensor Software to be embedded, and which is listed on an Order Form under License Type "Lease" or "Purchase". Equipment shall have the same meaning as Licensor Software where Licensor Software is or has been used elsewhere in this Agreement. Licensor Software embedded in the Equipment is licensed solely to enable the Equipment to function in accordance with its Documentation.

"Extraordinary Corporate Event" means a corporate transaction which results in Licensee divesting business operations and related assets to another or new entity, or acquiring, being acquired by, merged, or otherwise combined with another entity or into another entity's legal or corporate structure (including an acquisition of all or substantially all of the assets of another entity) which, prior to the corporate transaction, was not part of the Licensee or its legal or corporate structure.

"Fixed Partitioning" means a mechanism for allocating processing resources on a multi-Physical Processor machine, such that the Licensor Software is limited to running on a fixed isolated subset of the Physical Processor(s), e.g. physical partitioning and fixed (hard) processor affinity.

"GB RAM" means total number of Gigabyte's of Random Access Memory (RAM) on one or more servers where the Licensor Software is installed or otherwise accessed by Licensee. For the foregoing, server(s) means a physical or virtual computer with measurable amounts of RAM.

"Hosted Services" means online, internet based computing services provided by Licensor.

"Instance" means the smallest functionally-complete copy of Licensor Software. For the avoidance of doubt, the various components of one single Instance may be deployed on a single Server or separately spanning multiple Servers.

For TIBCO Rendezvous®, "Instance" means a TIBCO Rendezvous® daemon, where each daemon is an operating system process with a unique process id.

"License Type" means the environment(s) in which the Licensor Software may be used (including without limitation, Production and/or Non-Production, Cloud or Hosted Services).

"Licensor Software" means the most current, generally available, object code version (or, in the case of Cloud, a machine and or disk image) of the Licensor's product on all supported Platforms then currently available, including Documentation and any subsequent Updates (as defined in the Maintenance Program Guide located at <http://www.tibco.com/services/support/default.jsp>) provided under Maintenance. Licensor Software does not include multiple Platforms if the software product is licensed on a Platform specific basis as designated in the Licensor Software product name or listed in an Order Form or purchase order. Licensor Software includes TIBCO Spotfire® Web-Based Training products and excludes TIBCO® Data Quality Postal Directory(ies) as set forth in an Order Form. Where the terms "TIBCO Software", "Spotfire Software", "TIBCO Spotfire Software", or "Software" (in connection with a Licensor click-wrap End User License Agreement, or Licensor acquired company license agreements) are being or have been used, they shall have the same meaning as Licensor Software.

"Managed Endpoints" means the number of Processors running instances of TIBCO ActiveMatrix BusinessWorks™ or other third party service implementations (e.g. Java or .NET components) that are being managed by TIBCO ActiveMatrix® Policy Manager.

"Materials" means any tangible or intangible information, design, specification, instruction or data (and any modifications, adaptations, derivative works or enhancements) provided by Licensor during the performance of Consulting Services which incorporates, reinforces or is used to apply Licensor's configuration or implementation methodologies, processes and know-how to Licensee's use of the Licensor Software, excluding Output.

"Module" means Licensor Software that is licensed to add functionality or capabilities in conjunction with an underlying Licensor Software product and may only be used in conjunction with the relevant underlying Licensor Software product. So long as Licensee holds a valid license in the underlying Licensor Software product, Licensee may use a reasonable number of copies of the Module to support the same business as the underlying Licensor Software product, but subject to any applicable site, Project or other business limitations or restrictions applicable to the underlying Licensor Software product. Licensee's right to utilize Modules shall terminate automatically upon termination of the license in the underlying Licensor Software product.

"MSU" means Millions of Service Units per hour, based on the then current MSU rating established by IBM for IBM and IBM compatible hardware which is used for software pricing (not necessarily a direct indication of relative processor capacity) as set forth in IBM's generally available Large System Performance Reference.

"Named User" means an identifiable individual, not necessarily named at the time of a license grant, designated by Licensee to access the Licensor Software, regardless of whether or not the individual is actively using the Licensor Software at any given time. An individual shall only be designated as a Named User on the earlier of a) he or she is authorized by Licensee to access the Licensor Software or b) once he or she has accessed the Licensor Software. In the case of TIBCO Formvine®, identifiable individuals will be counted as Named Users in accordance with the TIBCO Formvine® Licensor Software product Documentation. In the case of TIBCO® Nimbus Control, Named Users account types are further defined in the TIBCO® Nimbus Control Licensor Software product Documentation in the section entitled "Summary of User Rights".

"Non-Production" means a non-operational environment into which the Licensor Software may be installed, which is not processing live data, which is not running any operations of the Licensee and which has not been deployed to permit any users to access live data. Non-Production environments include development, hot standby, high-availability, and test environments.

"Number of Units" means the cumulative number of copies of Licensor Software licensed for use by type of Unit, as set forth in this Agreement, an Order Form or in a purchase order, and including, if applicable, the current number of copies as reported by Licensee upon expiration of a Project or Enterprise Term.

"Orders" mean the total number of unique transactions submitted, stored in and counted by the applicable Licensor Software product during a period. Unless otherwise agreed, this period shall equal one (1) year from the Effective Date. The number of Orders shall reset to zero on each anniversary of the Effective Date. In no event shall the total number of Orders during a one (1) year period exceed the Number of Units set forth in the Order Form, unless Licensee purchases additional Units.

"Order Form" means any written order for Licensor Software or services, including, without limitation, a purchase order, Work Order, Statement of Work, Order Form or other form of ordering document delivered to Licensor, which is subject to, and incorporates by reference, the terms and conditions of this Agreement, and to which no other terms shall apply.

"Output" means Confidential Information of Licensee that has been input in the Materials for Licensee's use of the Licensor Software.

"Physical Processor" means the smallest physical electronic circuit which is capable of reading and executing computer programs and providing results as output e.g. a CPU (socket), core, or thread.

"Platform" means for each discrete Licensor Software product, the operating system, hardware and/or environments (whether virtual or physical), upon which each product is supported, as set forth in its Documentation, or as specifically identified in the Licensor Software product name.

"Postal Directory" means a copy of the applicable product installed on a single Server.

"Processor" means a licensing Unit type for the Licensor Software, based on the count of Virtual and/or Physical Processors as described in the TIBCO Processor Licensing Policy.

"Processor Bundle" means the Number of Units as determined by the number of Processors on which the Licensor Software licensed as a Bundle is licensed to run.

"Processor Source Locked" means the number of Processors the Licensor Software is installed on multiplied by the number of instances of a source system or database regardless of how many Processors are used by the source system or databases.

"Product Lines" means sets of products and services determined by Licensor from time to time that are (a) attributed to a particular Licensor product family, or (b) made available under separate purchase or license models, in the case of either (a) or (b), as set forth in a Licensor product family's then current list price. Licensor does not permit aggregation of products, services, purchase or license models and cumulative fees paid across separate Product Lines to trigger preferred pricing or discounts.

"Production" means an operational environment into which the licensed Licensor Software has been installed, which is processing live data and which has been deployed so that the intended users of the environment are able to access the live data.

"Project" means (unless otherwise set forth in an Order Form) an unlimited Number of Units of the Licensor Software, where the Number of Units is identified as Project in the Order Form, to be deployed by Licensee until the Project Term Expiration Date set forth in the Order Form, (the "Project Term"), at which time, the Number of Units then deployed in Production and Non-Production use by Licensee becomes fixed and Licensee may not thereafter deploy additional Units. During the Project Term, Licensee's right to deploy an unlimited Number of Units does not extend beyond the scope of the Project set forth in the Order Form, or to any Extraordinary Corporate Event. Licensee hereby agrees to provide Licensor, within sixty (60) days after the end of the Project Term, with written notice of the Number of Units deployed at the end of the Project Term by Unit and License Type. In the event Licensee elects to renew Maintenance (subject to any termination provisions in this Agreement), then during the Project Term and each annual renewal thereafter, Licensor agrees the annual Maintenance fee for the Licensor Software licensed on a Project basis shall not increase by more than the percentage rate change in the Consumer Price Index for the twelve month period immediately preceding each anniversary date of Maintenance.

"Purchase" means when used in connection with "Equipment", the purchase of the hardware appliance, where Licensor transfers title of the hardware appliance to Licensee. The Licensor Software is licensed under the terms of this Agreement and not sold. Licensor (or a third party) owns the Licensor Software.

"Read-only User" means an identifiable individual, not necessarily named at the time of license grant and regardless of whether the individual is actively using the Licensor Software at any given time, designated by Licensee to access the Licensor Software for the sole purpose of searching for and viewing data.

"Record" means a unique data item stored in and counted by the applicable Licensor Software product. The total number of Records shall in no event exceed the Number of Units set forth in the Order Form, unless Licensee purchases additional Units.

"Server" means a single computer performing common services for multiple other machines.

"Server Instance" means a computer with one (1) CPU, unless otherwise agreed in writing, performing common services for multiple other machines.

"Site Copy" means the number of copies of the Licensor Software licensed for use at the physical location of the Licensee entity signing an Order Form or as otherwise specifically designated as the site location in an Order Form.

"Spare" means a unit of Equipment identified by use of the word "Spare" in its product name, which is kept in storage at the same location as Equipment in productive use. In the event Equipment in productive use becomes inoperable, Licensee may set up and configure a Spare for productive use, until the original Equipment becomes operational again, but in no event for a period greater than three (3) months, without first obtaining Licensor's written consent.

"Third Party Software" means third-party software identified by its company and/or product name, the provision of which by Licensor is made solely as an accommodation and in lieu of Licensee purchasing a license to Third Party Software directly from the third party vendor.

"TIBCO Processing Unit" or "TPU" means a Unit for measuring computing power as designated in the applicable TPU Conversion Table located and incorporated by reference at <http://www.tibco.com/software/cloud-instance-type-tpu-conversion-table.jsp> and as are set forth in an Order Form.

"TIBCO Processor Licensing Policy" means the document published by TIBCO from time to time which explains how to count Virtual and/or Physical Processors in order to determine the number of Processors.

"Trading Partner" means an entity or individual with whom the Licensee engages in accordance with this Agreement in electronic commerce by means of Licensor Software and, in the case of TIBCO® KPSA, TIBCO® KxDR and TIBCO Kabira® Licensor Software products, an individual with whom Licensee engages to provide services, which may include, electronic commerce and or general service activation and provisioning of wireline and wireless packages for the exchange of data and content.

"Unit" means a license restriction describing the manner in which a copy (or multiple copies) of the Licensor Software may be deployed (including, without limitation, Processor, Named User, Connected Processor, and Processor Source Locked) and is the mechanism used to determine the Number of Units licensed under this Agreement, an Order Form or a purchase order.

"User" means an employee of Licensee who is authorized by Licensee to use the Licensor Software in accordance with this Agreement. The number of Licensee computers on which the Licensor Software is installed shall not exceed (but may be less than) the number of licensed Users.

"Virtualized Environment" means an operating system environment where multiple Virtual Machines can run on a single physical machine or cluster, sharing the physical machine resources. In a Virtualized Environment, a Virtual Processor can run on only one Physical Processor at a time.

"Virtual Machine" means a software implementation of a machine that executes programs like a physical machine. An essential characteristic of a Virtual Machine is that the software running inside of the Virtual Machine is limited to the resources and abstractions provided by the Virtual Machine. The processing capacity of a Virtual Machine is measured in Virtual Processors.

"Virtual Processor" means a simulation of a Physical Processor that is serially time-multiplexed across one or more Physical Processors.
Special Provisions Regarding Processor Licensing:

Certain Licensor Software is licensed by the Unit type "Processor." The following describes how to calculate the number of Processor Units which should be licensed in a Virtualized Environment and in all other environments.

Calculation

The number of Processor Units of Licensor Software required to be licensed shall be calculated as follows:

1. In a Virtualized Environment, the number of Virtual Processors shall be calculated by following the steps below:

1. For each Virtual Machine running the Licensor Software, the number of Virtual Processors shall be counted in increments of whole numbers. For clarification, the lowest unit of measurement for Virtual Processors is one; any fraction shall be rounded upward to the next whole number.

2. If the number of Virtual Processors of a Virtual Machine can increase or decrease, then for the purpose of counting Virtual Processors, the number of Virtual Processors shall be the maximum whole number of Virtual Processors that could ever be assigned to the Virtual Machine running the Licensor Software.

3. Add the total number of Virtual Processors across all Virtual Machines within the entire Virtualized Environment that runs the Licensor Software.

2. In all other environments (e.g. running on physical machine(s) or if a Virtual Processor can run on more than one Physical Processor at a time), the number of Physical Processors shall be calculated by following the steps below:

1. For each Licensor Software, the relevant partition boundary shall be set:

(a) where the allocation is defined by Fixed Partitioning, to include all Physical Processors that could ever execute the Licensor Software. (b) where the allocation is not defined by Fixed Partitioning, to include all Physical Processors on the physical machine.

2. Count the total number of Physical Processors for the relevant partition boundary for each physical machine, and aggregate the counts across all physical machines within the entire environment that runs the Licensor Software.

3. For all environments, if multi-threading is enabled for the underlying physical cores, then the total count of Physical Processors or Virtual Processors, as the case may be, shall be multiplied by 0.5.

1. If the multi-threading function is disabled, then a multi-threaded core shall be treated as a single-threaded core, in which case, (a) when calculating the number of Processors in a Virtualized Environment, the 0.5 multiplier shall be inapplicable; and (b) when calculating the number of Processors in all other environments, the number of cores instead of threads shall be the number of Processor Units required to be licensed and the 0.5 multiplier shall be inapplicable.

4. Any fraction shall be rounded upward to the next whole number.

The above calculation yields the total number of Processor Units required to be licensed for the Licensor Software.

Appendix B – License Parameters

Effective April 1, 2012 – To the extent that TIBCO products contain Java SE, use of the Java SE Commercial Features for any commercial or production purpose requires a separate license from Oracle. "Commercial Features" means those features identified Table 1-1 (Commercial Features in Java SE Product Editions) of the Java SE documentation accessible at <http://www.oracle.com/technetwork/java/javase/documentation/index.html>.

Effective January 20, 2012 – TIBCO Formvine®

The module of the Licensor Software called TIBCO Formvine® Project Tools allows Licensor to create and manage TIBCO Formvine® projects, and to view, edit and export the data gathered through a Formvine® project's online form. Only the number of Named Users listed in an accepted Order Form which includes the Licensor Product named TIBCO Formvine® Project Tools shall be entitled to use the "Project Tools" as defined in the Documentation.

The module of the Licensor Software called TIBCO Formvine® Integration Add-on allows software other than TIBCO Formvine® Project Tools to exchange information with the TIBCO Formvine® Server by way of the server's application programming interfaces ("Formvine® APIs"). Only to the extent that an accepted Order Form includes the Licensor Product named TIBCO Formvine® Integration Add-on, shall Licensee have rights to use software other than the licensed TIBCO Formvine® Project Tools in conjunction with the Formvine® APIs.

Effective December 1, 2011 – The following definition of Processor is being retired and will only apply to contracts entered into on or before November 30, 2011:

"Processor" means a central processing unit ("CPU") on which the Licensor Software is licensed to run. For purposes of counting Processors on multicore chips, the number of Processors is the number of CPUs times the number of cores multiplied by .75.

Effective July 1, 2010 - TIBCO Foresight™ HIPAA Validator® Desktop; TIBCO Foresight™ Community Manager®; TIBCO Foresight™ Instream®; TIBCO Foresight™ Transaction Insight®; TIBCO BusinessConnect™ EDI Protocol HIPAA Edition powered by Instream® ("Editorial Content Products")

The Editorial Content Products contain CPT Editorial Content, which is licensed from the American Medical Association ("AMA"). The AMA holds the copyright to CPT Editorial Content and the registered trademark "CPT". Provision of updated CPT Editorial Content in the Editorial Content Products is dependent on continuing contractual relationship between Licensor and the AMA. The following terms apply to end users of the Editorial Content Products:

(1) The license granted to Editorial Content Products is a nontransferable, nonexclusive license, for the sole purpose of internal use by Licensee and Licensee must ensure that anyone with authorized access to the Editorial Content Products will comply with the provisions of Licensee's license agreement with Licensor. Licensee is prohibited from publishing, distributing via the Internet or other public computer based information system, creating derivative works (including translating), transferring, selling, leasing, licensing or otherwise making available to any unauthorized party any copy or portion of the Editorial Content Products.

(2) Notices of proprietary rights, including trademark and copyright notices in the Editorial Content Products, may not be removed from any permitted back up or archival copies made.

(3) CPT Editorial Content as contained in the Editorial Content Products is provided "as is" without any liability to the AMA, including without limitation, no liability for consequential or special damages, or lost profits for sequence, accuracy, or completeness of data, or any guarantee or warranty that the CPT Editorial Content will meet Licensee's requirements. The AMA's sole responsibility is to make available to Licensor replacement copies of the CPT Editorial Content if the data is not intact. The AMA disclaims any liability for any consequences due to use, misuse, or interpretation of information contained or not contained in CPT Editorial Content.

(4) U.S. Government Rights. The Editorial Content Products include CPT Editorial Content, which is commercial technical data and/or computer data bases and/or commercial computer software and/or commercial computer software documentation, as applicable, which was developed exclusively at private expense by the American Medical Association, 515 North State Street, Chicago, Illinois, 60654. U.S. government rights to use, modify, reproduce, release, perform, display, or disclose these technical data and/or computer data bases and/or computer software and/or computer software documentation are subject to the limited rights restrictions of DFARS 252.227-7015(b)(2) (November 1995) and/or subject to the restrictions of DFARS 227.7202-1(a) (June 1995) and DFARS 227.7202-3(a) (June 1995), as applicable, for U.S. Department of Defense procurements and the limited right restrictions of FAR 52.227-14 (December 2007) and/or subject to the restricted rights provisions of FAR 52.227-14 (December 2007) and FAR 52.227-19 (December 2007), as applicable, and any applicable agency FAR Supplements, for non-Department of Defense Federal procurements.

Effective July 1, 2010 – The following Licensor Software products are each licensed for the sole purpose set forth below:

TIBCO® KPSA – Mobile for provisioning and activating telecommunication services and mobile access networks (such as GSM, EDGE, UMTS, GPRS, and HSPDA) each for Licensee's mobile telecommunication subscribers. TIBCO® KPSA – Broadband – for provisioning and activating telecommunication services and broadband access networks (such as DSL, optical fiber, and WiMAX) each for Licensee's broadband subscribers. TIBCO® KPSA Load Balancer – Mobile – for distributing traffic across TIBCO KPSA – Mobile nodes. TIBCO® KPSA Load Balancer – Broadband – for distributing traffic across TIBCO KPSA – Broadband nodes. TIBCO® KxDR – Mobile – for mediation of service usage detail records ("xDRs"), including but not limited to call and transmission detail records, that are generated by mobile network elements and service platforms serving Licensor's mobile subscribers. TIBCO® KxDR – Broadband – for mediation of service usage detail records ("xDRs"), including but not limited to call and transmission detail records, that are generated by broadband network elements and service platforms serving Licensor's broadband subscribers. TIBCO® KPSA – Order Management – for managing the end-to-end lifecycle of Licensee's customer requests for the delivery of telecommunication products as captured from order entry systems (excluding the provisioning and activation of telecommunication services and mobile or broadband access networks).

Effective May 27, 2010 - Licensor Software products TIBCO BusinessEvents™, TIBCO Collaborative Information Manager™, TIBCO ActiveMatrix® Service Performance Manager, TIBCO® ActiveFulfillment, TIBCO LogLogic® Enterprise Virtual Appliance, TIBCO LogLogic® Compliance Manager, TIBCO LogLogic® Security Event Manager Appliances, TIBCO LogLogic® Log Management Enterprise Appliances (including but not limited to TIBCO LogLogic LX Appliances and TIBCO LogLogic® ST Appliances) and TIBCO LogLogic® Log Management Mid-Market Appliances (TIBCO LogLogic® MX Appliances), (and each of the foregoing when included in a Bundle or as Embedded/Bundled products) are subject to a restricted license and contain third party proprietary code that Licensee or Partner can only use in conjunction with the Licensor Software.

Effective May 1, 2010 – TIBCO DataSynapse™ Analytics is an Embedded/Bundled product, which includes, in part, TIBCO Spotfire® Web Player and TIBCO Spotfire® Professional as bundled Licensor Software. In addition to Embedded/Bundled Products restrictions, Licensee's use of these bundled products in connection with TIBCO Spotfire® Analytics is limited to 25 Named Users of TIBCO Spotfire Web Player, 5 Named Users of TIBCO Spotfire Professional.

Effective February 18, 2010 – All TIBCO iProcess Spotfire® Add-on Web User is licensed solely to increase the number of TIBCO Spotfire® Web Player Named Users included in and for use in connection with the TIBCO iProcess Spotfire® Add-on Bundle. TIBCO iProcess Spotfire Add-on Web User may be used solely in connection with the TIBCO iProcess Spotfire Add-on Bundle.

Effective May 12, 2009 – All TIBCO Spotfire® Application Data Services products shall be used exclusively with TIBCO Spotfire® Analytics Server or TIBCO Spotfire® Server and shall only be accessed via ODBC or JDBC.

Effective June 1, 2007 – TIBCO iProcess™ Decisions Studio and TIBCO iProcess™ Decisions must be used with TIBCO iProcess™.

Effective April 1, 2001 – "Embedded/Bundled Products" – Some Licensor Software embeds or bundles other Licensor Software. Use of such embedded or bundled Licensor Software is solely to enable the functionality of the Licensor Software licensed under this Agreement, and may not be used or accessed by any other Licensor Software, or for any other purpose.

Effective December 24, 2000 – TIBCO BusinessPartner / Effective October 17, 2006 – TIBCO BusinessConnect Remote - Licensee may sublicense to third parties ("Partners") up to the total Number of Units of TIBCO BusinessPartner or TIBCO BusinessConnect Remote, provided that for every such sublicense, the Number of Units Licensee is licensed to use shall be reduced by the same number, and provided further that prior to delivery of TIBCO BusinessPartner or TIBCO BusinessConnect Remote to a Partner, such Partner agrees in writing (a) to be bound by terms and conditions at least as protective of Licensor as the terms of this Agreement, (b) that TIBCO BusinessPartner or TIBCO BusinessConnect Remote be used solely to communicate with Licensee's implementation of TIBCO BusinessConnect, and (c) for such Partner to direct all technical support and Maintenance questions directly to Licensee. Licensee agrees to keep records of the Partners to which it distributes TIBCO BusinessPartner or TIBCO BusinessConnect Remote, and to provide Licensor the names thereof (with an address and contact name) within sixty (60) days of the end of each calendar quarter.

TSFI EULA Appendix C – Maintenance Program Guide

1 Overview

TIBCO is dedicated to the success of our customers by providing timely responses to problems with TIBCO software products. TIBCO's highly skilled support engineers are well versed in TIBCO's software products. TIBCO's support services group is a global organization that uses a "follow-the-sun" model to ensure that support is available whenever it is needed. Support centers are located around the world to support all the TIBCO product lines.

In the event you have contracted for Maintenance Services at the Bronze Level, the supported time zone assigned for Service Hours will be based on the TIBCO software delivery address for your company.

All Equipment Maintenance is subject to the terms of the Equipment Maintenance Program (Appendix D).

2 Maintenance Service Levels

2.1 TIBCO Maintenance Service Levels

MAINTENANCE LEVEL	Updates Only	Bronze (includes Updates)	Silver (includes Updates)
Service Hours:	N/A	9am-5pm, Monday-Friday Service hours are based on PST, EST, CST, CET, MST, GMT, GMT+5:30, GMT+8:00, GMT+9:00, DST, AEST time zones. Based on the time zone you are assigned, services hours exclude holidays in the U.S., California, U.K., A.P.A.C. and Japan.	24 Hours/Day, 7 Days/Week
Initial Response:	N/A	Severity 1 & 2: 4 Business Hours	Severity 1 & 2: 4 Hours
Target Resolution:	N/A	Severity 1: 48 Hours Severity 2: 5 Days Severity 3: Next Major Release	Severity 1: 48 Hours Severity 2: 5 Days Severity 3: Next Major Release
TIBCO DirectConnectSM Manager (DCM) Support	N/A	N/A	N/A
Authorized Contacts:	N/A	Unlimited	Unlimited

2.2 Spotfire, DataSynapse, and Foresight Maintenance Service Levels

MAINTENANCE LEVEL	Bronze term (includes Updates)	Silver (includes Updates)
-------------------	--------------------------------	---------------------------

Service Hours:	9am-5pm, Monday-Friday Service Hours are based on CET, UTT/GMT, GMT+5:30, GMT+8:00, GMT+9:00, and EST time zones. Based on the time zone you are assigned, services hours exclude holidays in the U.S., Sweden and Japan.	24 Hours/Day, 7 Days/Week
Initial Response:	Severity 1 & 2: 4 Business Hours	Severity 1 & 2: 4 hours
Target Resolution:	Severity 1: 48 Hours Severity 2: 5 Days Severity 3: Next Major Release	Severity 1: 48 Hours Severity 2: 5 Days Severity 3: Next Major Release
Number of Contacts:	Unlimited	Unlimited

3 Maintenance

For the purpose of any license or maintenance agreement under which Maintenance is provided, as used below, "Licensor Software," shall include "TIBCO Software," "Spotfire Software" or "Software" as defined in any such agreement. "Customer," as used below, shall have the same meaning as defined for the customer company entity licensed to use the Licensor Software in any such agreement.

3.1 Severity Level Definitions

"Severity 1" is an emergency production situation where the Licensor Software is totally inoperable or fails catastrophically and there is no workaround;

"Severity 2" is a detrimental situation (and there is no workaround) where (a) performance degrades substantially under reasonable loads causing a severe impact on use, (b) the Licensor Software is usable but materially incomplete; or (c) one or more mainline functions or commands is inoperable;

"Severity 3" is where the Licensor Software is usable, but does not provide a function in the most convenient manner; and

"Severity 4" is a minor problem or documentation error, which is reasonably correctable by a documentation change or by a future maintenance release from TIBCO.

3.2 Scope

TIBCO will use commercially reasonable efforts to resolve matters according to the problem Severity ("Maintenance") level determined by TIBCO. All communications will be in English. Customer will use commercially reasonable efforts to provide: (a) a detailed problem description; (b) a method for repeatedly reproducing the problem; and (c) reasonably continuous access to a Customer authorized contact. During the Maintenance term, Customer authorized contacts as applicable for the Maintenance level selected in Customer's order, and which are registered at TIBCO's support website: <https://support.tibco.com/esupport/>, may notify TIBCO's Technical Assistance Center of an error, defect, or malfunction in the Licensor Software. Maintenance includes the right to use Updates (as defined below) as replacements for existing copies, whether provided under Maintenance, Warranty or which are provided for any other reason by TIBCO, or TIBCO's their respective authorized resellers or distributors (if applicable); Updates are subject to Customer's license agreement limitations and restrictions. "Updates" means Licensor Software bug fixes, enhancements, and upgrades, if and when made generally available by TIBCO under Maintenance to Customers for a specific Licensor Software product. Subject to the quantity of Licensor Software licensed and payment of any applicable Maintenance fees, Customer's right to use Updates extends to any supported Platform then currently available for each discrete Licensor Software product under Maintenance. Updates may include new or additional Platforms that are deemed (at TIBCO's sole discretion) to have no more than a minimum different in price, features and functionality from previously available Platforms. TIBCO will notify Customer in writing in the event that Maintenance is materially affected by TIBCO licensor(s). TIBCO will provide Maintenance for a release version of the Licensor Software products for at least (a) six months after a new release version is generally available, but in no event for more than (b)(i) two years from the general availability of a Licensor Software release version or (b)(ii) one year from the general availability of a subsequent release version, whichever of (b)(i) or (b)(ii) is later, after which Maintenance shall be discontinued for that release version.

3.3 Limits

Customer must purchase the same service level of Maintenance for all quantities of Licensor Software products that it has licensed from TIBCO or any other third party. Unless otherwise stated in an Order Form, each license grant is incremental to all prior license grants and consequently each grant is subject to additional Maintenance, if purchased. For the avoidance of doubt, Maintenance fees are based on cumulative license fees paid. Maintenance does not include support for any non-TIBCO software, custom configuration, product modification, new products and functionality for which TIBCO is charging an additional license fee, services at a Customer site, any work product provided under Consulting Services or for Licensor Software products with non-matching service levels. TIBCO reserves the right to make fixes only to the most current version of the relevant Licensor Software, and may elect, at its discretion, to make fixes generally available for minor release versions or the latest service pack for a supported version.

3.4 Perpetual Term Licenses

The initial Maintenance term shall be for one year commencing on the effective date of the applicable Customer order, unless otherwise stated in the relevant Order Form. In the event Customer elects to renew Maintenance (subject to any rights of termination as set forth in a contract with TIBCO), Maintenance will be renewed for successive one (1) year terms and the annual Maintenance fee for the first renewal term shall not increase by more than the percentage rate change in the Consumer Price Index for the 12 month period immediately preceding the anniversary date of Maintenance. Maintenance fees for subsequently acquired Licensor Software will be prorated to expire with the then-current annual Maintenance term.

3.5 Limited Term Licenses

The initial Maintenance term shall be for one (1) year commencing on the effective date of the applicable Order Form. During the license term, and in the event the Customer elects to renew Maintenance (subject to any rights of termination as set forth in a contract with TIBCO), Maintenance may be renewed for successive one year terms, and the annual Maintenance fee for the first renewal term shall be equal to the annual Maintenance fee for the initial term.

3.6 Reinstatement of Maintenance

Reinstatement of Maintenance is subject to payment of Maintenance fees for any period during which Maintenance had lapsed.

3.7 Non-Continuous Coverage

In the event Customer elects not to maintain continuous Maintenance, TIBCO may, at its discretion, refuse to provide any Maintenance to Customer until payment for the period of discontinuity is made current.

3.8 Discontinued Support for Prior Release Version

When a prior version goes out of Maintenance, it means that fixes will no longer be generally available for that version. Support will continue to accept problem reports for that prior version, and when feasible, will attempt to provide Customer with reasonable assistance to troubleshoot and resolve the problem. Engineering will only evaluate reported issues in the supported versions of the Licensor Software product.

When a Customer:

- encounters a known defect, which is already corrected in the most current or a supported version of the Licensor Software, the Customer will need to upgrade to the most current or supported version of the Licensor Software to obtain the fix; or
- discovers an unknown defect, engineering will make the fix in the most current version of the Licensor Software and the Customer will need to upgrade to that version to obtain the fix.

Additionally, with typically 12 months prior notice, TIBCO may announce the end of support (i.e. stop accepting SRs) on significantly older versions by publishing a Late Breaking News (LBN) article on the TIBCO Support Web site (<https://support.tibco.com/esupport/>). Even in such a case, access to the knowledge base of the older versions is always available to a Customer currently under Maintenance. A Customer may submit a service request via the TIBCO Support Web to request a product version be included under the TIBCO Extended Support Program.

3.9 Product End-of-Life

Notwithstanding 3.2 above, Customers are provided advance written notice (up to twelve months) when Licensor Software is to be retired. This information is published as "Retirement Notices" under the Late Breaking News (LBN) section of the TIBCO Support Web.

3.10 TIBCO Extended Support Program

TIBCO is pleased to offer customers extended Maintenance on certain Licensor software product versions. The scope and terms of extended Maintenance:

Include

- The ability to submit service requests for eligible product versions.
- TIBCO assistance providing workarounds and existing fixes for issues reported; staging of issues by TIBCO will be on the latest version of eligible product(s).
- Maintenance service level initial response and target resolution times are according to customers' existing Maintenance service level.

Exclude

- Enhancements, service packs, or defect corrections
- Support for new platforms (database versions, operating system versions, TIBCO infrastructure products, etc.)
- Back porting of any fixes (including, but not limited to, bug or security fixes) from later product versions
- Partners participating in the TIBCO Partner Network or any other TIBCO Partner program.

Extended Maintenance is subject to eligibility requirements. Please contact your TIBCO Sales Account Executive or the TIBCO Maintenance Renewal team at renewals@tibco.com for more information and to obtain the then current list of product versions currently supported under extended Maintenance.

TIBCO reserves the right, at its discretion, without notice of any kind, to change products and product versions included in any extended Maintenance product version list. Changes to the extended Maintenance product version list will have no impact during any Maintenance term for which TIBCO Extended Support Program Maintenance fees have already been paid.

3.11 Virtualized Environments Support

Although TIBCO does not include all virtualization environments in our product test plans, and subject to there being no more than minimal differences in price, features, functionality and quantity, we will provide Maintenance for Licensor Software in any Virtualized Environment if the following criteria are met:

- The operating system running in the Virtualized Environment is supported by TIBCO for Licensor Software version in question, and
- The Virtualized Environment being used is officially certified and approved by the operating system vendor in question, and
- The Virtualized Environment presents a true image of the native operating system.

TIBCO does not make any claims for the performance of Licensor Software running in a Virtualized Environment nor can we make any recommendations for optimal configuration of the Virtualized Environment in question.

Should it become necessary to engage the Virtualized Environment vendor, it will be the responsibility of the Customer to open a service request with their vendor. TIBCO Support will provide reasonable assistance to the Customer or vendor as it relates to the use and understanding of Licensor Software in the case at hand.

4 TIBCO Support Web

It is recommended that the Customer establish and maintain an internal support organization to provide front line support services to their users and that all authorized contacts be trained on the TIBCO software products in classes provided by TIBCO Education, as reasonably required by TIBCO to enable the customer to support licensed TIBCO software products.

Step 1: Identify the assigned contacts within your company. Review your maintenance agreement to see how many contacts are authorized.

Step 2: Register assigned contacts and one management-level individual (for verification and escalation) by sending [an email to support@tibco.com](mailto:an_email_to_support@tibco.com). Be sure to include the name, email address, physical address and phone number of each contact.

All contacts will be registered with our call tracking system and given access to TIBCO Support Web.

Step 3: Have all assigned contacts view the Support Overview Presentation as well as review the "Support Policies" section within TIBCO Support Web.

Additional information about Getting Started can be found at <http://www.tibco.com/services/support/getting-started/default.jsp>.

4.1 Opening a Service Request

There are two ways to report a problem:

- TIBCO Support Web (preferred method). Cases reported online are automatically entered into TIBCO's Call Tracking system and assigned a Service Request (SR) number. TIBCO requires that all Severity 1 cases be followed up with a phone call to our Technical Assistance Center (TAC) to ensure immediate attention to your issue.
- Phone. Each TIBCO customer is assigned a regional Technical Assistance Center (TAC) that they can contact to request support via phone. The support line phone number for each regional TAC in the America's, EMEA and APAC is published on the TIBCO Support Web. A service request will be created in TIBCO's call tracking system and an SR number is provided.

4.2 Processing a Service Request

Once a service request is submitted, the TAC specialist will review, access and assign the appropriate severity level. All severity 3 and 4 calls will be assigned to the appropriate product and workgroup where our technical support engineers will start working on the call on a First in – First out (FIFO) basis. TAC will notify support managers of any SRs that are assigned to Severity 1 or 2, so that they are handled in an escalated manner. The TIBCO Support Engineer will communicate with the customer until the issue is resolved. Depending on the nature of a Service Request, a Service Request can be resolved by a Support Engineer or logged by a Support Engineer as bugs/enhancements with product engineering.

TIBCO support level and responsibilities:

- First level (Technical Assistance Center):

- Review Service Requests reported by Web, Email or phone from a customer authorized contact
- Validate customer maintenance status, product entitlement and check for any special handling required.
- Identify type of request, problem definition, configuration, products, product versions and platforms.
- Determine severity of the problem and execute any escalation procedures necessary.
- Direct problems for resolution to workgroups

- Second level (Product Support):

- Confirm problem and configuration used by the customer
- Evaluate against known problems or issues
- Stage the problem
- Reproduce problems and provide workarounds
- Escalate to engineering where required to develop patches and fixes
- Keep the SR updated at all times within the Call Tracking system
- Keep the customer Authorized Contact updated on the progress

- Third level (Engineering):

- Develop fixes as needed
- Test and verify functionality and performance
- Update the source code control system as needed
- Ensure patches and fixes are incorporated into a future product release

4.3 Escalations

Special procedures apply to Service Request escalations. An escalated issue is generally one of the following:

- No response to a problem reported, within the designated time given by the call response coordinator or technical engineer
- Response times out of severity guidelines
- Customer dissatisfaction with Service Request resolution you've been given

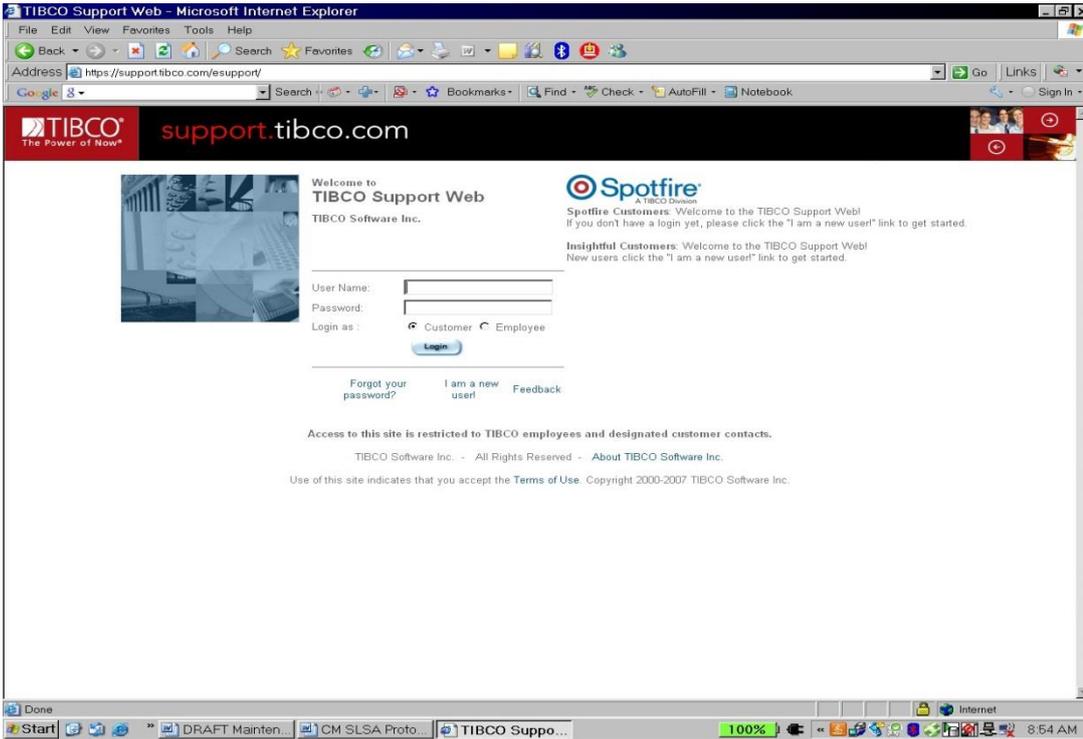

North and South America +1.650.846.5789

EMEA (Europe, Middle East, and Africa) +44(0).870.909.3889

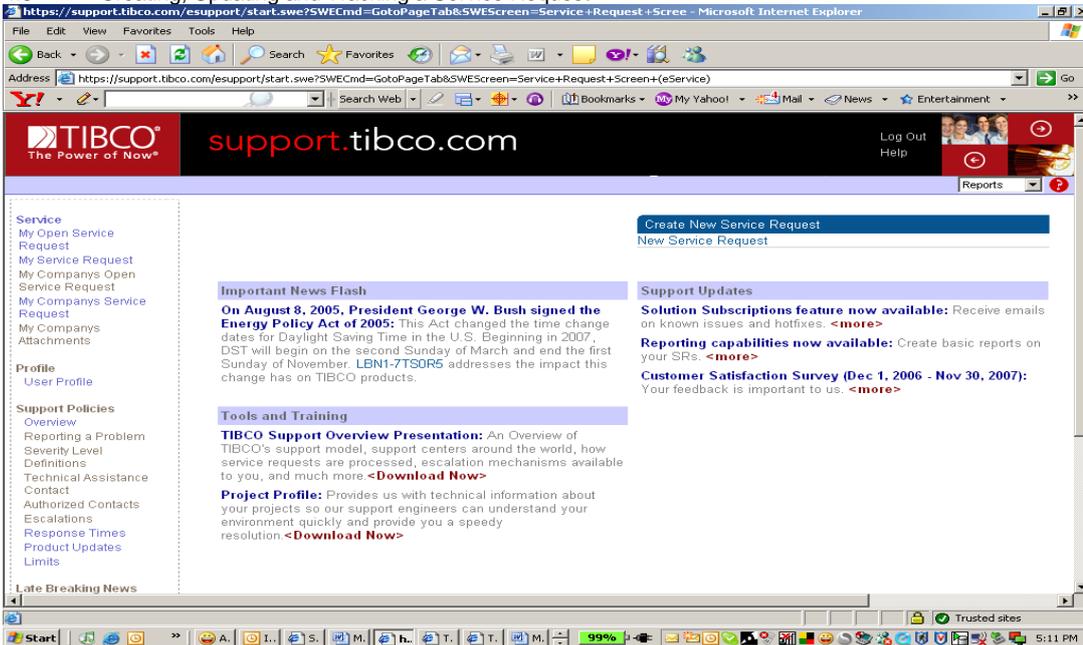

Asia and Australia +61.2.4379.9322 or 1.800.184.237 (within Australia only)

The above telephone numbers provide access to a TIBCO Support Manager. This phone number is to be used if or when a customer is dissatisfied with the progress of problem resolution, or wants the problem reported brought to the attention of TIBCO's management. If voicemail is reached, the customer should leave a message containing the company name, a contact telephone number, and estimated severity level for the issue. The voice mail will trigger an immediate page to a Support Manager, who will contact customer at the number left in the message.

4.4 TIBCO Support Web Login

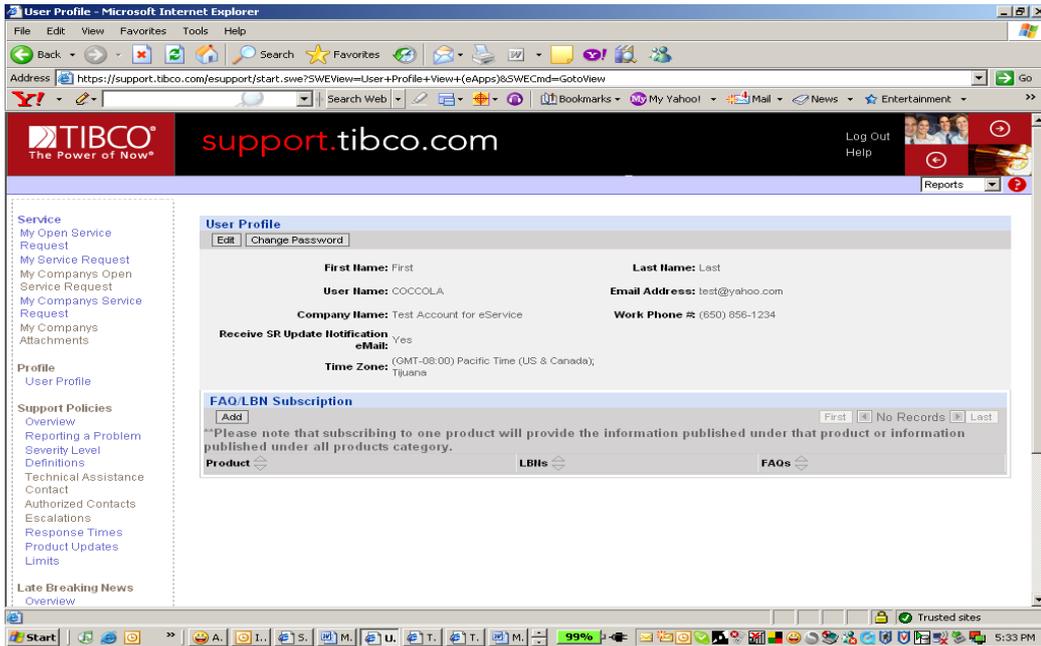

4.5 Creating, Updating and Tracking a Service Request

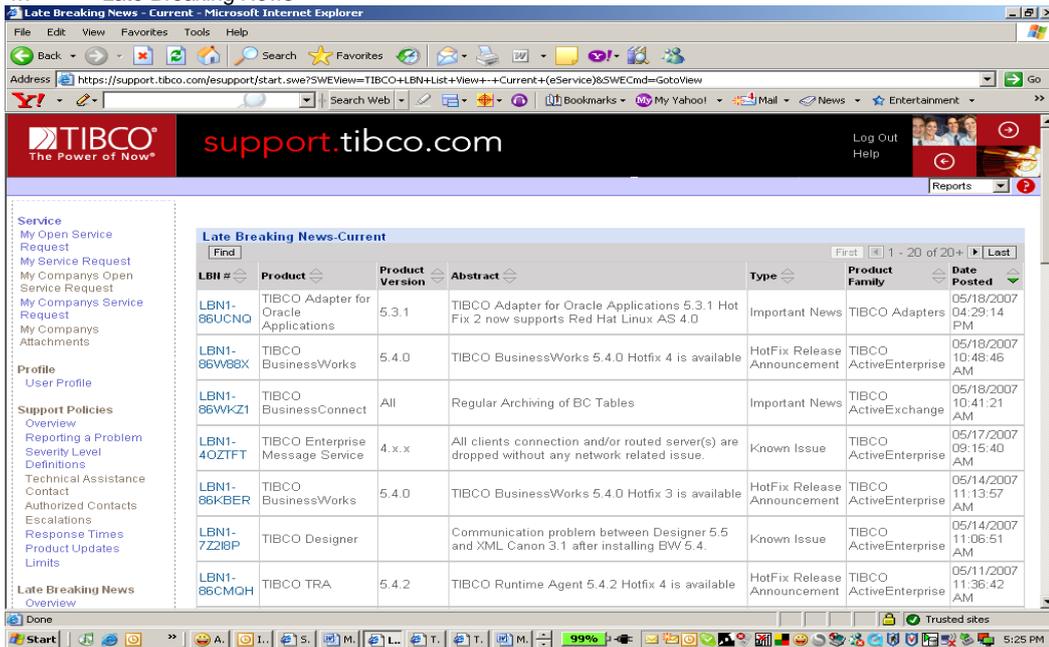

4.6 User Profile

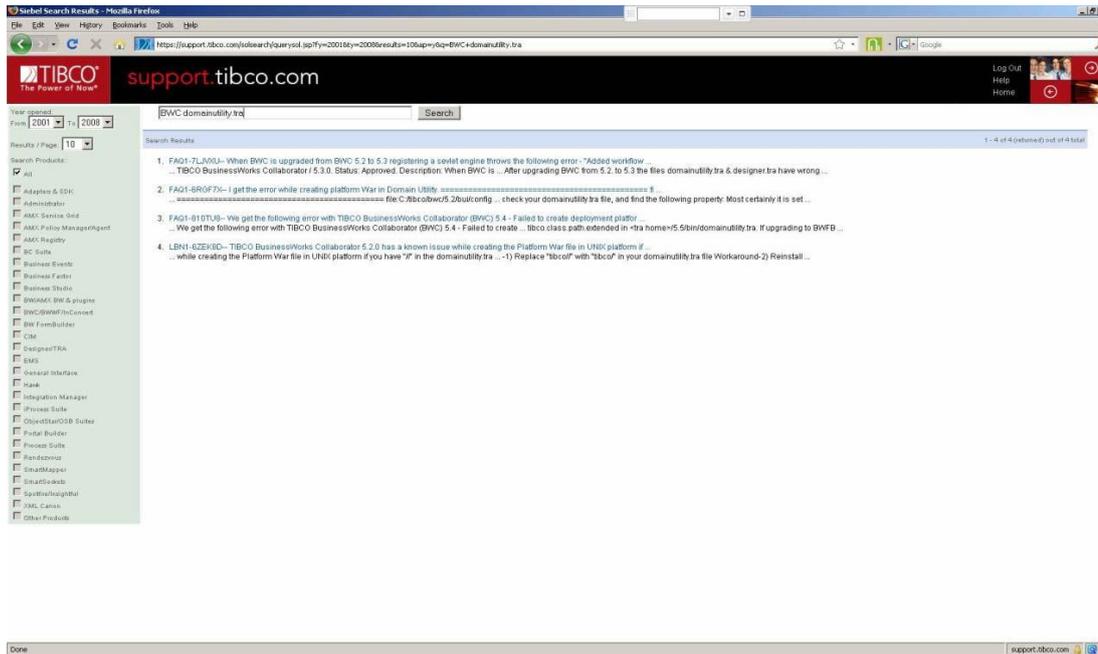

Authorized contacts are able to change their login password, update their phone numbers, select their time zone and subscribe to Product FAQ's and LBN in this section.

4.7 Late Breaking News

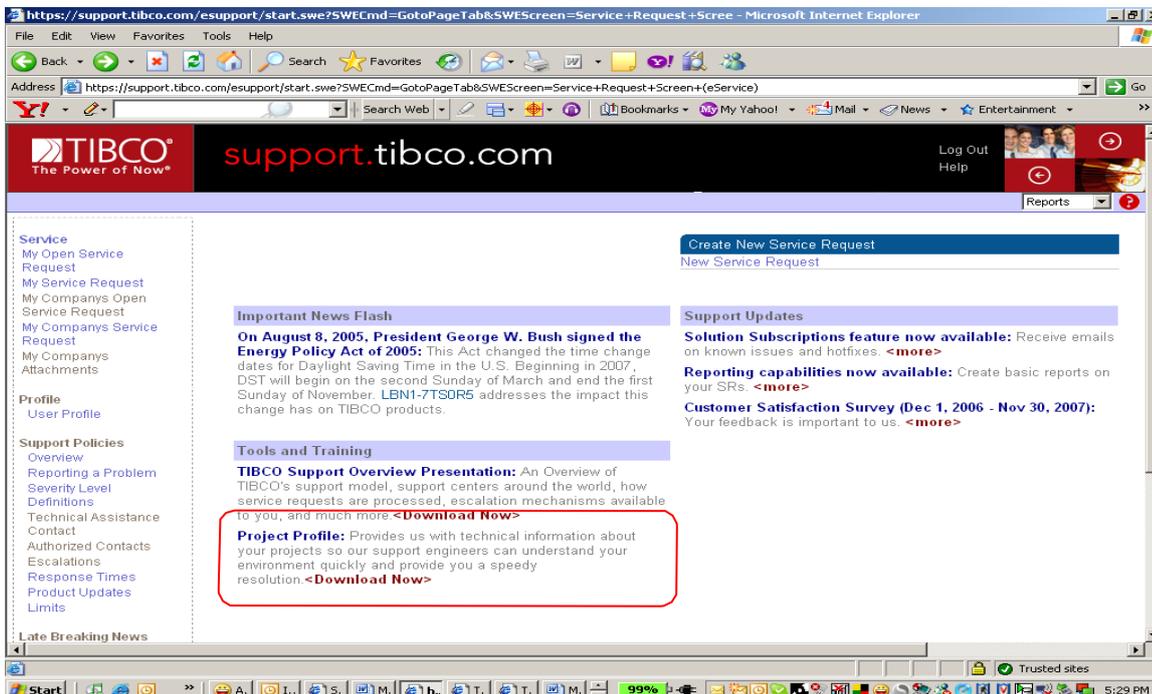

4.8 Product FAQs

4.9 Customer Project Profile

Each customer is encouraged to submit and maintain a detailed project profile that gives details about their TIBCO software implementation.

4.10 Additional Features

- **Solution Subscription feature:** By updating your User Profile, you now have the ability to receive notifications on any FAQ and/or LBN material we publish. This means that you can get the latest information about a known issue or the availability of hot fixes as soon as it is announced on any product of your choice. Please note that when you subscribe to a product, you will receive information published for that product as well as information published under the 'All Products' category.
- **Reporting Capabilities:** Generate basic reports on your service requests and download them in .csv or Excel format. This feature and its help function can be found in the upper right hand corner of the Support Web.
- **Customer Satisfaction Survey:** It is our goal to continuously improve the services we provide and a key part of this process is to hear how we are doing from our customers. The valuable input we receive will help us spotlight areas where we need to focus more

attention. Customer Satisfaction Surveys are being conducted using the telephone by our global TAC team. They will contact customers who have recently completed a service request and will collect feedback on satisfaction measured on a 5-point scale (5- very satisfied; 1- Very Dissatisfied). Results will be shared with our support team as well as be made available on the Support Web for our customers to view.

- Authorized contacts can access the TIBCO Support Overview presentation, which provides useful information about TIBCO's support model, support centers around the world, how service requests are processed, escalation mechanisms available, and much more.

5 TIBCO Spotfire Customer Support

Spotfire and S-Plus customers can submit technical support requests via the TIBCO Support Web portal. The Support Web site allows customers to create, track, and update your product Service Requests (SRs), Enhancement Requests, Knowledge base, Late Breaking News items and more. Customers with accounts on the TIBCO Support Web may login and submit Service Requests today.

6 TIBCO Foresight Customer Support

TIBCO Foresight customers can submit technical support requests via email to fssupport@tibco.com. Customers may also contact our support group directly by phone at 1.800.669.5006 (U.S. and Canada) or +1 614.791.1600 (Outside U.S. and Canada). The TIBCO Foresight support staff will then assign a tracking number if the email or phone call cannot be answered immediately. This tracking number allows the customer the ability to reference any and all enhancements and fixes targeted for the product.

7 Product Download Site

The electronic software delivery service found at <http://download.tibco.com/tibco/> provides confirmed internet delivery and tracking of software and documentation packages to authorized customers. Use of this system requires a secure username and password. This service provides authorized users with a customized portal to access their TIBCO product entitlements. Customers can view products they have purchased (excluding products purchased from a TIBCO web store site), as well as products they have obtained for evaluation purposes (excluding products downloaded or obtained for evaluation from another TIBCO web site). Customers with a current maintenance contract will automatically be entitled to download new releases, product updates and service pack releases, during their active maintenance period. Additional information is available on the TIBCO Support Web at "Product Updates" under the "Support Policies" section. Any software downloaded from this site may only be used in accordance with the terms and conditions of your license agreement with TIBCO Software Inc.

8 tibbr® Support

tibbr® Support Customers are entitled to Maintenance Service for tibbr® at the Silver Maintenance Level unless otherwise stated in an Ordering Document, as well as access to the tibbr® Support Program, as described below, irrespective of the service level of Maintenance for any other Licensor Software products which Customer might have licensed and provided that all tibbr® Product Line Licensor Software products licensed by Customer are subject to tibbr® Support.

8.1 tibbr® Support Program

This Program is intended to support Customers through the adoption of tibbr® within their organization. As part of this Program, Customers will be supported in their ongoing usage of tibbr® with responses to questions regarding technical issues, usage best practices and how to best implement the product.

The tibbr® Support Program is provided by TIBCO upon Customer's request, subject to availability of resources and on a reasonable effort basis. TIBCO will make reasonable endeavours to meet Customer's requests for assistance but provides no assurance that this service will be delivered on specific dates. TIBCO reserves the right to modify, reduce or increase the tasks included in the Program. Service Requests can be opened either through the TIBCO Support Web or by phone.

TSFI EULA Appendix D – Equipment Maintenance Program Guide

1. Overview

This Equipment Maintenance Program Guide ("Equipment MPG") sets forth the terms and conditions by which TIBCO shall provide, and its customers shall receive, Maintenance for Equipment.

Maintenance services are optional and are available at the Bronze and Silver levels. Software Maintenance is determined by the level of Equipment Maintenance purchased, i.e. Maintenance levels for Equipment Software must be equal to the Maintenance levels for the corresponding Equipment, e.g.

Silver level Equipment Maintenance will include Silver level Software Maintenance for the Equipment Software.

Maintenance for Equipment Software is subject to the Maintenance Program Guide located at Appendix C ("MPG"). In the event of a conflict between the MPG and this Equipment MPG, where such conflict pertains to Equipment, this Equipment MPG shall prevail.

Solely as used in this Equipment MPG, "Agreement" means this Equipment MPG, the MPG and any agreement currently in effect between Customer and TIBCO related to the Equipment.

2. Equipment Maintenance Service Levels

MAINTENANCE LEVEL	Bronze (includes Updates)	Silver (includes Updates)
Service Hours:	9 a.m. -5 p.m., Monday-Friday ("Business Hours") Service hours are based on PST, EST, CST, CET, MST, GMT, GMT+5:30, GMT+8:00, GMT+9:00, DST, AEST time zones. 3. Equipment Maintenance Terms and Conditions

3.1. Equipment Maintenance - Scope. This Section 3 applies to Maintenance of Equipment, specifically excluding Maintenance for the TIBCO Messaging Appliance™ ("TMA"), and is subject to Section 5 (Maintenance Exclusions) and Section 6 (Customer Responsibilities) set forth below. TMA Maintenance terms are set forth in Section 4 below.

3.2. Equipment/Component Repair or Replacement Protection. During the Maintenance term, for all Equipment Maintenance levels, and subject to Customer's compliance with the Agreement, TIBCO shall, at its sole option, either repair or replace the covered Equipment or component thereof that TIBCO can confirm is causing an error.

3.3. Contacting Support; Troubleshooting. Upon discovering an error, Customer must promptly first place a call to the designated support number. TIBCO will provide basic telephone technical assistance for installation, product configuration, setup and problem resolution for the Equipment. Prior to scheduling Equipment replacement or repair, TIBCO may ask Customer to provide relevant information, start diagnostic tools and perform other supporting activities outlined in Section 6 below.

3.4. On-site Equipment Repair Process.

3.4.1. On-site repair support is available solely for TIBCO LogLogic® Security Event Manager ("SEM") and TIBCO LogLogic® Security Event Viewer ("SEV") Customers in the United States and Europe.

3.4.2. If TIBCO determines that the Equipment or component thereof may be repaired at Customer's location, TIBCO will endeavor to dispatch a TIBCO (or TIBCO-contracted) technician to the Customer's location by the next business day; provided, however, that Customer must immediately notify TIBCO in writing in advance if the Equipment is located in an area with restricted access which may require a technician with special qualifications. In such instance, TIBCO will use commercially reasonable efforts to locate and contract, if necessary and at Customer's expense, a technician with such special qualifications; provided that Customer understands and agrees that any reasonable delay or failure in procuring such technician shall not constitute a breach of the Agreement.

3.5. Equipment Replacement – Processes and Procedures. Except as otherwise provided in Section 3.4 above, TIBCO will take all commercially reasonable steps to replace the Equipment or component thereof, as applicable; provided that Customers follow the return material authorization ("RMA") procedure described in this Section 3.5. In the event that TIBCO recommends replacement of a component, TIBCO will provide Customer with instructions for the removal of the component and the installation of the replacement component.

3.5.1. Customer must obtain an RMA from TIBCO prior to returning any Equipment to TIBCO. Customer may request an RMA by telephone (1-800-957-LOGS) or by email at support@loglogic.com. Customer must provide the following information related to every Equipment or component thereof to be returned:

- Model number, and serial number, eth0 MAC address or Tag ID of the Equipment, and, if returning an Equipment component, a description of such component;
- Sender's name, telephone, email address and fax number;
- Reason for return, i.e. a description of the error; and
- Ship-to address, including contact name, email address and phone number of the individual to receive the TIBCO replacement Equipment.

3.5.2. If the RMA is received, authorized and processed by TIBCO before 2 PM Pacific Standard Time (USA) or 2PM UK (GMT) Time, TIBCO will ship replacement Equipment: (1) on the same business day where the Equipment or component to be replaced does not require customization; and (2) within forty-eight (48) business hours where the replacement Equipment requires customization. Non-customized shipped replacement Equipment or components will be factory-default/off-the-shelf. Any shipped repaired or replaced Equipment or components may be refurbished or include refurbished components.

3.5.3. TIBCO will ship replacement Equipment for next local business day standard delivery to Customer's location free of freight charges. Unless otherwise specified or agreed upon, factory default/off-the-shelf Equipment will be shipped with the latest Software.

3.5.4. TIBCO will provide Customer with a shipping account number or prepaid shipping label to use for purposes of returning defective Equipment or components. While Customer is not obligated to return defective Equipment or components before TIBCO will ship replacements, Customer is nonetheless required to ensure that the returned Equipment is received by, or is in transit to, TIBCO or its designee within ten (10) business days of Customer's receipt of the replacement Equipment.

3.5.5. TIBCO strongly recommends that Customer keep all original packing material received with the Equipment for use in any Equipment return. If Customer no longer has the original packaging, Customer may request that TIBCO send them replacement packaging at Customer's cost. Customer shall also be wholly responsible for any damage or loss of the Equipment in transit; TIBCO recommends that Customer procure sufficient insurance before shipping Equipment to TIBCO.

3.5.6. Customer acknowledges that Customer-returned Equipment shall become the property of TIBCO upon delivery to TIBCO.

3.6. Keep Your Hard Drive Option: For an annual additional fee, Customers may purchase an option to "Keep Your Hard Drive," entitling Customer to retain the defective hard drive(s). Subject to compliance with instructions provided by TIBCO, Customer may extract and retain or destroy the original hard drives from the Equipment. In no instance may Customer transfer, connect or otherwise use any drive(s) from returned Equipment in the replacement Equipment; doing so will result in Customer's breach of the Agreement, and will void TIBCO's warranty obligations.

3.7. Extended Support: Extended support for Equipment is available, subject to Section 3.10 of the MPG (TIBCO Extended Support Program).

4. TMA Maintenance Terms and Conditions

4.1. TMA Maintenance – Scope. This Section 4 applies solely to the TMA, and is subject to Section 5 (Maintenance Exclusions) and Section 6 (Customer Responsibilities) set forth below.

4.2. TMA Replacement Protection. During the Maintenance term, and subject to Customer's compliance with the terms and conditions of the Agreement, under Silver Equipment level Maintenance, TIBCO will provide a permanent replacement of the TMA. Certain features, such as interface standards, product footprint and mobility, firmware and software compatibility may not be available.

4.3. Contacting Support; Troubleshooting. When experiencing a problem, Customer must first place a call to the designated support number. TIBCO will provide basic telephone technical assistance for installation, product configuration, setup and problem resolution for the TMA. Prior to scheduling advance replacement of the TMA, TIBCO may ask Customer to provide relevant information, start diagnostic tools and perform other supporting activities outlined in this Section 4 and in Section 6 below. Customer will be required to provide a credit card number or purchase order number.

4.4. TMA Replacement – Processes and Procedures. If the problem cannot be resolved remotely, TIBCO will replace the failed TMA provided that Customers follow the procedure described below.

4.4.1. Prior to returning the failed TMA, Customer must:

- a) perform all steps for self-test and trouble-shooting specified in the operating manual for the TMA;
- b) provide to TIBCO, in writing, the model number, serial number, current failure symptoms, pertinent failure history and ship-to address (if applicable).

4.4.2. Promptly following completion of Customer's obligations under Section 4.4.1, TIBCO or its authorized third party will ship the replacement TMA to Customer's location free of freight charges. The replacement TMA will be shipped in a suitable container and include instructions for returning the failed TMA. Packaging instructions and a prepaid shipping label for the return of the failed TMA will be included in replacement TMA shipping container. At TIBCO's discretion, TIBCO or TIBCO's authorized third party provider may elect to collect failed TMA at your location.

4.4.3. The replacement TMA will be a new or a refurbished TMA.

4.4.4. To return the failed TMA, Customer must:

a) unless Customer will deliver the failed TMA to TIBCO in person, package the failed TMA carefully in the original shipping container, or a shipping container that prevents the TMA from being damaged while in transit to TIBCO or TIBCO's authorized third party provider.

b) ship the failed TMA to TIBCO or TIBCO's third party provider (as directed by TIBCO) within three (3) business days of receipt of the replacement TMA and obtain a prepaid insurance receipt to be retained by Customer as proof of shipment to TIBCO.

4.4.5.If TIBCO or TIBCO's third party provider does not receive the failed TMA within fifteen (15) days of Customer's receipt of the replacement TMA, TIBCO reserves the right to institute any available legal action related to the failure to return the TMA.

4.4.6.The returned TMA shall become the property of TIBCO or TIBCO's third party provider upon receipt.

4.5. Support Limitations:

4.5.1.At TIBCO's sole discretion, Maintenance will be provided using remote diagnosis and or other service delivery methods. Other service delivery methods, in lieu of shipping replacement Equipment, may include the overnight shipment of parts specified as Customer replaceable by TIBCO. TIBCO will determine the appropriate delivery method required.

4.6. The following services are specifically excluded from TMA Maintenance:

- Diagnosis or Maintenance at the Customer site.
- Set-up and installation of the replacement TMA or replacement parts at the Customer site.

5.Maintenance Exclusions

5.1. Third Parties. Customer acknowledges and agrees that TIBCO may subcontract Maintenance services for the Equipment, in TIBCO's sole discretion, to a third-party authorized provider; TIBCO will remain responsible for ensuring that the Equipment Maintenance obligations under this Agreement are fulfilled.

5.2. Equipment Maintenance specifically excludes:

- Recovery of the operating system, other software, parameters and data.
- Troubleshooting for interconnectivity or compatibility problems.
- Services required due to failure of Customer to incorporate any system or software fix, repair, patch, or modification provided to the Customer by TIBCO.
- Services required due to failure of the Customer to take avoidance action previously advised by TIBCO.
- User preventative maintenance.
- Damage caused by failure of Customer to follow manufacturer's recommended maintenance or operating specifications, or caused by Customer's misuse, negligence or abuse.
- Damage caused by environmental causes at Customer's location, such as poor ventilation, improper storage, power failures or surges.
- Damage due events outside of TIBCO's control, including fire, flood, act of god, war or nuclear incident or terrorism.
- Data, business interruptions, obsolescence, cosmetic damage, rust, change in color, texture or finish, wear and tear, gradual deterioration or any damage that does not affect the Equipment functionality.
- Fraud or theft.
- Alteration or modification of the Equipment in any way, not specifically directed in writing by TIBCO; repairs or alterations made by an unauthorized technician or user; damages caused by combination of Software with third party hardware or software.
- Transit or relocation of Equipment by Customer, including any damages occurring while in transit or related to such relocation, and services accompanying or related to transit or relocation of the Equipment.

6.Customer Responsibilities

Customer will be required, upon TIBCO's request, to support resolving any problem reported under Maintenance remotely by:

- Providing all information necessary for TIBCO to deliver timely and professional remote support and/or to enable TIBCO to determine the level of support eligibility.
- Starting self tests and/or other diagnostic tools and programs.
- Performing other reasonable activities to help TIBCO identify or resolve the problem.
- Customer must acknowledge receipt of replacement Equipment by signing freight carrier air bill at time of delivery.
- Customer is responsible for installing all replacement Equipment (or components thereof) in a timely manner.
- Customer is solely responsible for backing up all copies of its Licensed Software and data.
- Customer shall restore software and data on the Equipment after the repair or replacement.
- Customer is responsible for the installation of any software not provided by TIBCO with the Equipment and insure all software installed on the Equipment is appropriately licensed and compatible with the Equipment.
- Where Customer is not a Government End User, Customer acknowledges that in the event that diagnosis by TIBCO reveals that the error is not caused by the Equipment that TIBCO may charge Customer the then-current GSA Schedule rate for such diagnosis.
- In the event of that the Equipment or TMA is retired, Customer may need to upgrade its Equipment or TMA in order to ensure performance of the applicable Software.

7. Equipment End of Life and End of Sale:

As part of the normal product lifecycle, TIBCO will announce the date of which an Equipment will become End of Life ("EOL") which such announcement will also include a date for the End of Sale ("EOS") of such Equipment. For clarity, this Section 7 applies to EOL of Equipment only, specifically excluding TMA. An EOL means that TIBCO will no longer provide Maintenance for such Equipment. EOS means that such Equipment will not be available for purchase.

TIBCO shall EOL an Equipment three (3) years following the EOS date, at which point all Maintenance services for such Equipment shall terminate.

TIBCO Software Inc.
Terms of Use for United States Federal Government Users

PLEASE READ THE FOLLOWING TERMS OF USE ("TERMS") CAREFULLY.

TIBCO SOFTWARE INC. AND ITS AFFILIATES ("TIBCO" OR "WE") PROVIDE THIS WEBSITE TO YOU, YOUR EMPLOYEES, AGENTS AND CONTRACTORS SUBJECT TO THESE TERMS. . IF YOU DO NOT AGREE TO ALL OF THESE TERMS, DO NOT USE THIS WEBSITE.

1. TIBCO Software Inc.: Our Services to You

We are a leading enabler of real-time business and the world's largest independent business integration software company. The Site offers access to products, support and services downloads, including documentation downloads, tutorials, a knowledge repository, information about special events, and user forums. The Site is intended for use by customers, partners and guest users. TIBCO customers generally have access to the entire Site. However, TIBCO's Team TIBCO partners and other alliance partners specifically designated by TIBCO ("Partners") may have access to additional material exclusively for Partners. Guest users have limited access to certain portions of the Site.

2. RESERVED.

3. User Registration and Access

You agree to (i) provide accurate, current and complete information in any registration form(s); (ii) maintain the security of your password and identification; (iii) maintain and promptly update the registration data and any other information you provide, to keep it accurate, current and complete; and (iv) accept all risks of unauthorized access to information and registration data using your password and/or identification. You are responsible for all activities that occur under your account. TIBCO will not be liable for any loss that you may incur as a result of anyone using your password or account, either with or without your knowledge. However, you could be liable for losses incurred by TIBCO or another party due to someone else using your account or password. You agree that you will not misuse or abuse account access and passwords, including, without limitation, giving access to third parties or allowing third parties to gain access to information from the Site through you. Please see our Privacy Statement for more information on the treatment of your information.

4. Restrictions On Use Of The Site And Its Content

The Site is owned and operated by TIBCO. All materials appearing on the Site, including the text, video, files, site design, logos, graphics, icons and images, as well as the selection, assembly and arrangement thereof, are the sole property of TIBCO and its licensors. You may view, download, print and use all or portions of the text and video on the Site solely for your internal use. However, any technical information that you download is also governed by the terms and conditions of your written software license agreement or partnership agreement with TIBCO, whichever is applicable. White papers may be distributed only in connection with the furtherance of TIBCO business in connection with your partnership with TIBCO.

Portions of the Site offer you the opportunity to download certain software ("Available Software") as well as files that are uploaded to the Site by users ("Files"). Any Files and Available Software that you download from the Site are governed by the terms and conditions of your written agreement for downloading such Files or the written software license agreement, whichever is applicable.

Except as may otherwise be provided for in a written agreement with TIBCO or with respect to the Files or Available Software you download from the Site, any other copying, modification, reproduction, performance, display, incorporation into any other Web site or other work, mirroring the Site, redistribution, retransmission or publication of any downloaded material is strictly prohibited without TIBCO's express written consent. You agree not to change or delete any copyright, trademark or other proprietary notices from any documents, files, other content or Available Software. You must give TIBCO prior written notice if you wish to link any other web page, etc. to the Site. Such notice should be sent to tibcommunity@tibco.com. We reserve the right to refuse anyone permission to link to the Site, for any or no reason.

5. Rules of User Conduct

Portions of the Site allow you to post material and/or upload Files. You agree to post, send and receive only messages and material that are proper and related to the Site. By posting information or Files in or otherwise using any communications service, forum, message board, newsgroup, software library or other interactive service that may be available to you on or through the Site, you agree that you will not upload, post or otherwise distribute or facilitate distribution of any content -- including text, Files, communications, software, images, sounds, data or other information (collectively, "Content") -- that:

a. is unlawful, threatening, abusive, harassing, defamatory, libelous, deceptive, embarrassing, disruptive, infringing, obscene, objectionable, fraudulent, invasive of another's privacy (including stalking), tortious, contains explicit or graphic descriptions or accounts of sexual acts (including but not limited to sexual language of a violent or threatening nature directed at another individual or group of individuals) or otherwise violates these Terms, the Privacy Statement, or the legal rights of others;

- b. you do not have a right to make available under any law or under contractual or fiduciary relationships (such as inside information, proprietary and confidential information learned or disclosed as part of employment relationships or under nondisclosure agreements);
- c. victimizes, harasses, degrades or intimidates an individual or group of individuals on the basis of religion, gender, sexual orientation, race, ethnicity, age or disability;
- d. infringes on any patent, trademark, trade secret, copyright, right of publicity or other proprietary right of any party;
- e. constitutes unauthorized or unsolicited advertising, junk or bulk e-mail (also known as "spamming"), chain letters, any other form of unauthorized solicitation or any form of lottery, gambling, survey or illegal or unauthorized schemes;
- f. contains software viruses or any other computer code, files or programs that are designed or intended to disrupt, damage or limit the functioning of any software, hardware or telecommunications equipment or to damage or obtain unauthorized access to any data or other information of any third party;
- g. interferes with or disrupts our services or servers or networks connected to the Site;
- h. intentionally or unintentionally violates any applicable local, state, national or international law, including, but not limited to, United States export laws and the export and import laws of other countries, regulations promulgated by the U.S. Securities and Exchange Commission, any rules of any national or other securities exchange, including, without limitation, the New York Stock Exchange, the American Stock Exchange or the NASDAQ, and any regulations having the force of law;
- i. collects or stores personal data about other users; or
- j. impersonates any person or entity, including any employee or representative of TIBCO or otherwise misrepresents your affiliation with a person or entity.

6. Site Content

TIBCO does not control, screen or endorse communications on the Site and is not responsible for screening or monitoring information or materials posted by users of communications services, forums, chat rooms, message boards, newsgroups, software libraries or other interactive services that may be available on or through the Site. We may or may not elect to screen, monitor or edit Content. We and our agents reserve the right at our sole discretion to review any communication and to take any steps we deem appropriate to restrict, edit or remove any Content that, in our judgment, does not comply with these Terms or is otherwise harmful, objectionable or inaccurate. We are not responsible for any failure or delay in performing such activities. TIBCO does not guarantee the accuracy, reliability or truthfulness of any material posted by users. Any opinions are those of the user who posted them, not TIBCO's.

It is your responsibility to take all steps necessary to protect your systems from viruses, worms, and other destructive code, and to backup your systems.

Any Content, including but not limited to questions, comments, suggestions, ideas, data, materials, information or Files, that you provide to TIBCO or are on the Site shall not be regarded as confidential, and neither TIBCO nor any other user has any obligation of any kind to you in connection therewith. TIBCO is free to use, disclose, distribute, display, reproduce, perform, and/or create derivative works from, and to sublicense others to do so, any Content without limitation. TIBCO shall have the right to use any ideas, concepts, know-how, data or techniques contained in any Content for any purpose whatsoever.

7. Submissions

We welcome your comments and feedback regarding the Site. However, we do not want and cannot accept any ideas, materials or suggestions you, or someone else, consider to be confidential or proprietary. Accordingly, all comments, feedback, ideas, suggestions and other similar submissions disclosed, submitted or offered to TIBCO using the Site or otherwise (collectively, "Submissions") are not confidential and will become and remain our property. We shall be entitled to use, display, publish, reproduce, modify, transmit, sublicense, translate and create derivative works from and distribute these Submissions in any medium and through any method of distribution, transmission or display for any purpose whatsoever, commercial or otherwise, without compensation or any other obligation to the provider of the Submissions.

8. License

All Files that are uploaded to the Site become public information. By uploading Files, you grant to TIBCO and all other users a royalty-free, perpetual, irrevocable, nonexclusive, transferable, worldwide license to use, reproduce, modify, publish, translate, distribute, perform and display such Files alone or as part of other works in any form, media or technology, whether now known or hereafter developed. No compensation will be paid for Files.

9. No Advice or Recommendations

The Site offers information, tools and resources to provide a better understanding of TIBCO's products and services to customers, potential customers, partners and other affiliates. TIBCO has no obligation to respond to any requests for information or assistance. We may or may not, in our discretion, provide information or assist users of the Site or software. We do not provide business advice through the Site or through any services offered on the Site, including but not limited to, any return-on-investment information, white papers, etc.

10. Links and Third Party Content

The Site may contain links to other sites on the Internet that are owned and operated by third party vendors and other third parties. We are providing these links solely as a convenience. The appearance of a link does not imply our endorsement of the link/site, nor are we responsible for the content of any linked site. You access linked sites at your own risk.

Certain content from third party vendors may be made available as part of the Site. This content is believed to be reliable, but we do not endorse or guarantee the accuracy or completeness of this content.

11. Termination of Site; Usage; Disclosure

This site is provided at no charge as a convenience and resource by TIBCO for its customers – commercial and government alike. TIBCO is under no obligation to continue its operation of this site or to maintain particular materials or resources upon it. In the event that TIBCO ceases to operate or maintain this site, such action will not in any way affect the rights of United States Government customers regarding TIBCO licenses or services obtained under contract or any obligations of TIBCO with regard to the same. We may suspend your access to all or part of the Site with notice for any conduct that we believe is in violation of any applicable law or poses a danger of inoperability of the Site. TIBCO reserves the right to disclose any information it deems necessary to satisfy any applicable law, regulation, legal process or governmental request.

12. Disclaimers

The Content and information contained in the Site may contain inaccuracies or typographical errors, and may be changed, updated or removed without notice. We cannot guarantee that the Content or other information provided through the Site will be accurate or up-to-date. We reserve the right without prior notice to discontinue or change the specifications on products and services offered on the Site without obligation. From time to time, we may make suggestions or recommendations about certain products or services. However, we make no guarantee as to your satisfaction with our suggestions or recommendations or that the suggested or recommended products or services will meet your expectations.

THE SITE AND THE CONTENT ON THE SITE ARE PROVIDED BY TIBCO ON AN "AS-IS" AND "AS-AVAILABLE" BASIS. TIBCO DOES NOT WARRANT OR MAKE ANY REPRESENTATIONS REGARDING THE USE, VALIDITY, ACCURACY, OR RELIABILITY OF, OR THE RESULTS OF THE USE OF, OR OTHERWISE RESPECTING, THE CONTENT ON THE SITE OR ANY WEB SITES LINKED TO THE SITE. WE DISCLAIM ALL REPRESENTATIONS AND WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, IMPLIED WARRANTIES OF MERCHANTABILITY, NON-INFRINGEMENT AND FITNESS FOR A PARTICULAR PURPOSE, AS TO THE OPERATION OF THE SITE, AND THE INFORMATION, CONTENT, MATERIALS OR VEHICLES INCLUDED ON THE SITE. Some states do not allow the limitation or exclusion of liability for incidental or consequential damages, so the above limitations and exclusions may not apply to you.

No waiver by either party of any terms of this Agreement, or any breach by the other party of any of the provisions of this Agreement, shall be construed as a waiver of that or any other provision on any other occasion.

13. Limitation of Liability

TIBCO SHALL NOT BE LIABLE TO YOU OR ANY OTHER PERSON UNDER ANY CONTRACT, TORT, STRICT LIABILITY OR OTHER LEGAL THEORY FOR ANY DAMAGES OF ANY KIND RELATING TO THE USE OF, OR INABILITY TO USE, THE SITE, ITS CONTENT, MATERIALS OR LINKS, INCLUDING, BUT NOT LIMITED TO, SPECIAL, INDIRECT, RELIANCE, CONSEQUENTIAL OR PUNITIVE DAMAGES. THIS LIMITATION WILL APPLY EVEN IF TIBCO HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGE AND EVEN IF ANY WARRANTY OR REMEDY FAILS OF ITS ESSENTIAL PURPOSE. THE TOTAL LIABILITY OF TIBCO WILL BE LIMITED TO THE AMOUNT PAID BY YOU, IF ANY, FOR ACCESSING OR USING THE SITE. ANY CLAIMS RELATING TO MATERIALS DOWNLOADED PURSUANT TO A SEPARATE LICENSE ARE GOVERNED SOLELY BY THAT LICENSE.

14. Warranties You Make

By posting Files and/or Content to the Site, you warrant and represent that you own or otherwise control all rights in and to such Files or Content, including the copyright, and that you have the rights necessary to grant the licenses and sublicenses described in these Terms. By posting and/or downloading Files and/or Content to or from the Site, or otherwise accessing the Site, you warrant and represent that you are not located in any U.S. embargoed country, under control of, or a national or resident of, any such country or on the U.S. Treasury Department's list of Specially Designated Nationals or the U.S. Department of Commerce Denied Persons List or Entity List.

15. RESERVED

16. Compliance with Laws

You agree to comply with all applicable laws regarding the transmission of technical data and software exported from the United States and the export and import laws of the country in which you reside. We may, in our sole discretion, report actual or perceived violations of law to law enforcement or other appropriate authorities. If we become aware, through a complaint or otherwise, of any potential or suspected violation of these Terms or the Privacy Statement, we may (but are not obligated to) conduct an investigation to determine the nature and extent of the suspected violation and the appropriate enforcement action, during which investigation we may suspend services to any customer being investigated and/or remove any material from our servers. You agree to cooperate fully with any such investigation. You acknowledge that violations of these Terms or the Privacy Statement could subject you to criminal or civil penalties.

17. Special Admonitions for International Use

The Site can be accessed from many countries, and may contain references to TIBCO products, programs and services that have not been announced in such countries. These references do not imply that TIBCO intends to announce or make such products, programs or services available in any particular country.

18. Applicable Law

The Site is controlled by TIBCO from its offices within the State of California, United States of America. For United States Government customers, the laws applicable to the interpretation of these Terms shall be applicable United States Federal law.

19. Disputes

Disputes between United States Government customers and TIBCO related to these terms shall be brought in a United States Federal court or adjudicative body of competent jurisdiction.

20. Privacy Statement

We consider the privacy of our users to be paramount, and we have developed a privacy policy to protect and inform our users. Our current Privacy Statement available at <http://www.tibco.com/privacy.jsp> is incorporated herein by reference and made part of these Terms.

21. Disclosure

You acknowledge, consent and agree that TIBCO may access, preserve, and disclose your account information and content if required to do so by law or in a good faith belief that such access, preservation or disclosure is reasonably necessary to: (a) comply with legal process; (b) enforce these Terms; (c) respond to claims that any Content violates the rights of third-parties; (d) respond to your requests for customer service; or (e) protect the rights, property, or personal safety of TIBCO, its customers and the public.

22. Notices

The Power of Now, TIBCO and TIBCO Software are the trademarks or registered trademarks of TIBCO Software Inc. in the United States and other countries. A complete list of TIBCO trademarks is located at <http://www.tibco.com>. All such trademarks, trade names and service marks are proprietary to TIBCO, and may not be used in connection with any product or service that is not ours, in any manner that is likely to cause confusion among customers or in any manner that disparages or discredits TIBCO, without our written permission. **EC America Rider to Product Specific License Terms and Conditions
(for U.S. Government End Users)**

1. **Scope.** This Rider and the attached Unitrends, Inc. ("Manufacturer") product specific license terms establish the terms and conditions enabling EC America ("Contractor") to provide Manufacturer's information technology products and services to Ordering Activities under EC America's GSA MAS IT70 contract number GS-35F-0511T (the "Schedule Contract"). Installation and use of the information technology shall be in accordance with this Rider and Manufacturer Specific Terms attached hereto, unless an Ordering Activity determines that it requires different terms of use and Manufacturer agrees in writing to such terms in a valid delivery order placed pursuant to the Schedule Contract.
2. **Applicability.** Whereas GSA and EC America agreed at the time of Schedule Contract award upon a base set of terms and conditions applicable to all manufacturers and items represented on the Schedule Contract; and Whereas, the parties further agreed that all product specific license, warranty and software maintenance terms and conditions would be submitted at the time each new manufacturer was to be added to the Schedule Contract; Now, Therefore, the parties hereby agree that the product specific license, warranty and software maintenance terms set forth in Attachment A hereto (the "Manufacturer Specific Terms" or the "Attachment A Terms") are incorporated into the Schedule Contract, but only to the extent that they are consistent with Federal law (e.g., the Anti-Deficiency Act (31 U.S.C. § 1341), the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 *et seq.*), the Prompt Payment Act (31 U.S.C. §§ 3901 *et seq.*), the Anti-Assignment statutes (31 U.S.C. § 3727 and 41 U.S.C. § 15), DOJ's jurisdictional statute 28 U.S.C. § 516 (Conduct of Litigation Reserved to the Department of Justice (DOJ), and 28 U.S.C. § 1498 (Patent and copyright cases)). To the extent any Attachment A Terms are inconsistent with Federal law (See, FAR 12.212(a)), such inconsistent terms shall be superseded, unenforceable and of no legal force or effect in all resultant orders under the Schedule Contract, including but not limited to the following provisions:
 - a) **Contracting Parties.** The GSA Customer ("Licensee") is the "Ordering Activity", defined as the entity authorized to order under GSA MAS contracts as set forth in GSA ORDER ADM 4800.2G (Feb 2011), as may be revised from time to time.
 - b) **Changes to Work and Delays.** Subject to GSAR Clause 552.243-72, Modifications (Federal Supply Schedule) (July 2000) (Deviation I – SEPT 2010), and 52.212-4(f) Excusable Delays (JUN 2010) regarding which the GSAR and the FAR provisions take precedence.
 - c) **Contract Formation.** Subject to FAR 1.601(a) and FAR 43.102, the GSA Customer Purchase Order must be signed by a duly warranted Contracting Officer, in writing. The same requirement applies to contract modifications affecting the rights of the parties. All terms and conditions intended to bind the Government must be included within the contract signed by the Government.
 - d) **Termination.** Clauses in the Manufacturer Specific Terms referencing termination or cancellation are superseded and not applicable to any GSA Customer order. Termination shall be governed by the FAR, the underlying GSA Schedule Contract and the terms in any applicable GSA Customer Purchase Orders. If the Contractor believes the GSA Customer to be in breach, it must file a claim with the Contracting Officer and continue to diligently pursue performance. In commercial item contracting under FAR 12.302(b), the FAR provisions dealing with disputes and continued performance cannot be changed by the Contracting Officer.
 - e) **Choice of Law.** Subject to the Contracts Disputes Act, the validity, interpretation and enforcement of this Rider shall be governed by and construed in accordance with the Federal laws of the United States. In the event the Uniform Computer Information Transactions Act (UCITA) or any similar federal laws or regulations are enacted, to the extent allowed by Federal law, they will not apply to this Rider or the underlying Schedule Contract.
 - f) **Equitable remedies.** Equitable remedies are generally not awarded against the Government absent a statute providing therefore. In the absence of a direct citation to such a statute, all clauses in the Manufacturer Specific Terms referencing equitable remedies are superseded and not applicable to any GSA Customer order.
 - g) **Unilateral Termination.** Unilateral termination by the Contractor does not apply to a GSA Customer Purchase Order and all clauses in the Manufacturer Specific Terms referencing unilateral termination rights of the Manufacturer are hereby superseded.
 - h) **Unreasonable Delay.** Subject to FAR 52.212-4(f) Excusable delays, the Contractor shall be liable for default unless the nonperformance is caused by an occurrence beyond the reasonable control of the Contractor and without its fault or negligence such as, acts of God or the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, unusually severe weather, and delays of common carriers. The Contractor shall notify the Contracting Officer in writing as soon as it is reasonably possible after commencement of any excusable delay, setting forth the full particulars in connection therewith, shall remedy such occurrence with all reasonable dispatch and shall promptly give written notice to the Contracting Officer of the cessation of such occurrence.
 - i) **Assignment.** All clauses regarding the Contractor's assignment are subject to FAR 52.232-23, Assignment of Claims (JAN 1986) and FAR 42.12 Novation and Change-of-Name Agreements (Sep. 2013). All clauses governing the Contractor's assignment in the Manufacturer Specific Terms are hereby superseded.
 - j) **Waiver of Jury Trial.** Waivers of Jury Trials are subject to FAR 52.233-1 Disputes (JULY 2002). The Government will not agree to waive any right that it may have under federal law. All clauses governing a waiver of jury trial in the Manufacturer Specific Terms are hereby superseded.
 - k) **Government Indemnities.** This is an obligation in advance of an appropriation that violates anti-deficiency laws (31 U.S.C. § 1341 and 41 U.S.C. § 6301), since the GSA Customer commits to pay an unknown amount at an unknown future time. The violation occurs when the commitment is made, i.e., when the agreement featuring this clause is incorporated into a Government contract, and not when the clause is triggered. The Interim FAR Rule dated June 21, 2013 and the Office of Legal Counsel opinion dated March 12, 2012 prohibit such indemnifications. All Manufacturer Specific Terms referencing customer indemnities are hereby superseded.

- l) Contractor Indemnities.** All Manufacturer Specific Terms that violate DOJ's jurisdictional statute (28 U.S.C. § 516) by requiring that the Government give sole control over the litigation and/or settlement to the Contractor are hereby superseded. Nothing contained in the Manufacturer's Specific terms shall be construed in derogation of the U.S. Department of Justice's right to defend any claim or action brought against the U.S., pursuant to its jurisdictional statute.
- m) Renewals.** All Manufacturer Specific Terms that provide for automatic renewals violate the Anti-Deficiency Act and are hereby superseded. This is an obligation in advance of an appropriation that violates anti-deficiency laws (31 U.S.C. § 1341 and 41 U.S.C. § 6301), since the GSA Customer commits to pay an unknown amount at an unknown future time. The violation occurs when the commitment is made, i.e., when the agreement featuring this clause is incorporated into a Government contract, and not when the clause is triggered.
- n) Future Fees or Penalties.** All Manufacturer Specific Terms that require the Government to pay any future fees, charges or penalties are hereby superseded unless specifically authorized by existing statutes, such as the Prompt Payment Act (31 U.S.C. § 3901 et seq.) or Equal Access To Justice Act (5 U.S.C. § 504; 28 U.S.C. § 2412).
- o) Taxes.** Taxes are subject to FAR 52.212-4(k), which provides that the contract price includes all applicable federal, state, local taxes and duties. Contractor shall state separately on its invoices, taxes excluded from the fees, and the GSA Customer agrees to either pay the amount of the taxes (based on the current value of the equipment or services) to Contractor or provide it evidence necessary to sustain an exemption, in accordance with FAR 52.229-1 and FAR 52.229-3.
- p) Third Party Terms.** When the end user is an instrumentality of the U.S., no license terms bind the GSA Customer unless included verbatim (not by reference) in the EULA, and the EULA is made an attachment to the underlying GSA Schedule Contract. All terms and conditions affecting the GSA Customer must be contained in a writing signed by a duly warranted Contracting Officer. Any third party manufacturer shall be brought into the negotiation, or the components acquired separately under federally-compatible agreements, if any. All Manufacturer Specific Terms that incorporate third party terms by reference are hereby superseded.
- q) Dispute Resolution and Standing.** Any disputes relating to the Manufacturer Specific Terms or to this Rider shall be resolved in accordance with the FAR, the underlying GSA Schedule Contract, any applicable GSA Customer Purchase Orders, and the Contract Disputes Act. The Ordering Activity expressly acknowledges that EC America as contractor, on behalf of the Manufacturer, shall have standing to bring such claim under the Contract Disputes Act.
- r) Advertisements and Endorsements.** Pursuant to GSAR 552.203-71, use of the name or logo of any U.S. Government entity is prohibited. All Manufacturer Specific Terms that allow the Contractor to use the name or logo of a Government entity are hereby superseded.
- s) Public Access to Information.** EC America agrees that the attached Manufacturer Specific Terms and this Rider contain no confidential or proprietary information and acknowledges the Rider shall be available to the public.
- t) Confidentiality.** Any provisions in the attached Manufacturer Specific Terms that require the Ordering Activity to keep certain information confidential are subject to the Freedom of Information Act (5 U.S.C. § 552), and any order by a United States Federal Court. When the end user is an instrumentality of the U.S. Government, neither this Rider, the Manufacturer's Specific Terms nor the Schedule Price List shall be deemed "confidential information" notwithstanding marking to that effect. Notwithstanding anything in this Rider, the Manufacturer's Specific Terms or the Schedule Contract to the contrary, the GSA Customer may retain such Confidential Information as required by law, regulation or its bonafide document retention procedures for legal, regulatory or compliance purposes; provided however, that such retained Confidential Information will continue to be subject to the confidentiality obligations of this Rider, the Manufacturer's Specific Terms and the Schedule Contract.
- u) Alternate Dispute Resolution.** The GSA Customer cannot be forced to mediate or arbitrate. Arbitration requires prior guidance by the head of a federal agency promulgated via administrative rulemaking according to 5 U.S.C. § 575(c). GSA has not issued any because it considers the Board of Contract Appeals to be an adequate, binding ADR alternative. All Manufacturer Specific Terms that allow the Contractor to choose arbitration, mediation or other forms of alternate dispute resolution are hereby superseded.
- v) Ownership of Derivative Works.** Provisions purporting to vest exclusive ownership of all derivative works in the licensor of the standard software on which such works may be based are superseded. Ownership of derivative works should be as set forth in the copyright statute, 17 U.S.C. § 103 and the FAR clause at 52.227-14, but at a minimum, the GSA Customer shall receive unlimited rights to use such derivative works at no further cost.

3. Order of Precedence/Conflict. To the extent there is a conflict between the terms of this Rider and the terms of the underlying Schedule Contract or a conflict between the terms of this Rider and the terms of an applicable GSA Customer Purchase Order, the terms of the GSA Schedule Contract or any specific, negotiated terms on the GSA Customer Purchase Order shall control over the terms of this Rider. Any capitalized terms used herein but not defined, shall have the meaning assigned to them in the underlying Schedule Contract.

**ATTACHMENT A- UNITRENDS
Unitrends™ Inc. End User License Agreement**

1. Software Use

1.1. License Grant Subject to the terms and conditions of this Agreement, Licensor grants to the Ordering Activity a personal, limited, non-exclusive, non-transferable, license to use the Software for the term set forth in the applicable purchase order accepted by Licensor (either perpetual or for the subscription period selected in the ordering process) in object code form only on such computers, servers, or equipment in which such Software is embedded or for which such Software is approved for use by Licensor in the Documentation and on such storage capacity as specified in the Documentation (collectively "Approved Systems") solely for Ordering Activity's own internal information processing

services and computing needs and subject to any license limitations specified by Licensor or its Channel Partners as part of the ordering process. Any use of the Software that is inconsistent with the terms and conditions of this Agreement, including without limitation the transfer of the Software to another computer or a third party shall be in violation of this Agreement. All rights not expressly granted to Ordering Activity are retained by Licensor. Ordering Activity agrees that its use of the Software will comply with all Federal, state and local laws, rules and regulations of the United States and any foreign country in which the Software is used. The license granted herein is subject to the specific terms set out in this Agreement, the technical restrictions of the Software and/or any additional licensing terms specified by Licensor in the Documentation. Ordering Activity shall pay all applicable license fees as set forth in the applicable purchase order for the Software to Licensor or the Channel Partner through which Ordering Activity issued its purchase order for the Software in accordance with the payment terms set forth on the applicable purchase order.

1.2. Third Party Contractors. Notwithstanding anything to the contrary contained herein, Ordering Activity may permit its Third Party Contractors to use the Software on Ordering Activity's behalf solely in connection with providing information processing and computing services to Ordering Activity. Ordering Activity may not use the Software for providing computing services to third parties. "Third Party Contractor" means a third party engaged by Ordering Activity to provide services to Ordering Activity that is not a competitor of Licensor. Ordering Activity shall require its Affiliates and Third Party Contractors to agree to the terms of this Agreement and shall be liable for any breach of this Agreement by its Affiliates or Third Party Contractors.

1.3 License Keys. In order to use the Software, a license key may be required. After Licensor has received a valid purchase order issued by Ordering Activity which specifies the proper fees and identifies the platform and host name of each computer, server or other equipment on which the Software is installed or will be installed, Licensor will issue a license key to Ordering Activity.

1.4 Restrictions.

(i) General. Except as otherwise expressly permitted herein, Ordering Activity shall not and shall not permit any third party to: (a) translate, adapt, reverse engineer, decompile, decrypt, disassemble, or create derivative works based on the Software; (b) copy (except for one archival copy and provided all of Licensor's trademark, copyright, patent and other notices of proprietary rights are reproduced on all copies), modify or create derivative works of the Software; (c) rent, lease, transfer, assign, sublicense or otherwise transfer rights to the Software; (d) transfer, distribute, resell, rent, lease, sublicense or loan the Software to any third party; (e) use the Software in a service bureau, or application service provider environment, or in any commercial time share arrangement or otherwise use or make available the Software or any part of the Software for the benefit of any third party, or make the Software or any part of the Software publicly available for download or use via an internet website; (f) distribute any software or device incorporating a part of the Software; (g) use the Software except on the Approved Systems on Ordering Activity's own internal computer networks; (h) attempt to circumvent, disable or defeat any Licensor license key encoded into the Software; (i) use the Software in contravention to any applicable laws or government regulations, including without limitation export laws, and shall not remove the Software or, if applicable, the license keys from the country in which such use was originally licensed; (j) disclose to any third party or publish the results of Software performance benchmarks obtained using the Software; (k) remove any proprietary rights, trademark or copyright notices or other notices contained in the Software. If 1.4(i)(a) is prohibited by applicable law, Ordering Activity shall provide Licensor with a detailed prior written notice of any such intention to reverse engineer the Software and shall provide Licensor with a right of first refusal to perform such work at rates equal to those proposed by a recognized third-party software services provider for such work. Ordering Activity shall take all reasonable precautions to prevent unauthorized or improper use or disclosure of the Software.

(ii) Software Embedded In Approved System. If the Software is delivered as embedded in an Approved System, Ordering Activity agrees not to remove the Software from the Approved System without Licensor's prior written consent.

(iii) Reserved

(iv) Use Where Invoiced. Ordering Activity's use of the Software under a paid license is limited to the country where Ordering Activity has been invoiced for the Software under the applicable purchase order.

(v) Prior Versions. If the Software is a version that Ordering Activity has converted or exchanged from a valid licensed prior version (i.e., an Upgrade), Ordering Activity agrees that by using the Upgrade, Ordering Activity will no longer use the prior version. Licensor reserves the right to require the certification of the destruction of such previous version of the Software.

1.5 Third Party Software. The Software may include certain third party open source components that are distributed under their own licensing terms. For more details, see the User Guide document in the Documentation available at the Licensor web site (www.unitrends.com) or accompanying the Software. All terms herein are offered by Licensor and not by the rightsholders of such components, and are without prejudice to the terms thereof. Ordering Activity may obtain the location of a copy of the source code of these components by contacting Licensor.

1.6 Continual Development. This Agreement governs any updates, upgrades, new versions, bug fixes, corrections, improvements, revisions or enhancements to the Software which Licensor may furnish to Ordering Activity pursuant to support services or otherwise (collectively, "Upgrades") and any additional copies of the Software licensed or provided to Ordering Activity for which Ordering Activity has purchased and, if applicable, holds the corresponding license keys, all of which are deemed included in the definition of "Software." Ordering Activity acknowledges that the Software may change and that future versions of the Software may be incompatible with prior versions of the Software. Ordering Activity further acknowledges and agrees that Licensor has no obligation to provide any Upgrades or additional copies of the Software under this Agreement. If any Upgrades or additional copies are provided (i) Ordering Activity does not have a license or right to use any such Upgrades or additional copies unless Ordering Activity, at the time of acquiring such Upgrade or copy already hold a valid license and corresponding license key, if applicable, to the original Software and (ii) use of the Upgrades is limited to Approved Systems for which the original Software was purchased.

1.7 Support Services. Licensor will not provide, and Ordering Activity is not entitled to, any support services under this Agreement. Ordering Activity may procure support services separately and such support services will be subject to the terms and conditions of the underlying GSA Schedule Contract, Schedule pricelist, and the applicable purchase order. This Agreement does not give Ordering Activity any rights to any updates or upgrades to the Software or to any extensions or enhancements to the Software developed by Licensor at any time in the future. Any of the foregoing updates, upgrades, extensions or enhancements may be available at Licensor's discretion and Ordering Activity will be notified in the event of their availability.

1.8 APIs. Licensor may provide to Ordering Activity Application Programming Interface (“API’s”) for Ordering Activity’s use solely for the purpose of creating software that communicates with the Software (“Interfaces”). Ordering Activity hereby acknowledge and agree that Ordering Activity will not (1) use the APIs to create, design or develop anything other than Interfaces; (2) make any more copies of the APIs than are reasonably necessary for the authorized use and backup and archival purposes; (3) modify, create derivative works of, reverse engineer, reverse compile, or disassemble the APIs, except that Ordering Activity may modify and create derivative works of, and distribute any code provided in the APIs that is designated by Licensor in the API’s documentation as “distributable code” solely as part of Interfaces; (4) distribute, sell, lease, rent, lend, or sublicense any part of the APIs to any third party or; (5) use the APIs to (a) create, design or develop software or services to circumvent, enable, modify or provide access, permissions or rights which would violate the technical restrictions of the Software or this Agreement; or (b) upload or otherwise transmit any material containing software viruses or other computer code, files or programs designed to interrupt, destroy, or limit the functionality of any software or hardware.

1.9 Additional Terms Applicable to Boomerang. If Ordering Activity has licensed Licensor’s Boomerang Software the following terms apply and shall supersede any conflicting terms in Section 1.1.

1.9.1 License. Licensor grants to the Ordering Activity a limited, non-exclusive, non-transferable license during the subscription period selected by Ordering Activity as part of the ordering process (the “Subscription Period”) to use the Boomerang Software for the “Permitted Purpose” on the terms and conditions of this Agreement and limited to the number of virtual machines selected by Ordering Activity in the ordering process (“VM Quota Entitlement”). Ordering Activity acknowledges and agrees that the Boomerang Software is provided as a virtual OVA appliance only. The license granted in this Agreement is solely for the following “Permitted Purpose”: to replicate, cloudburst, and migrate virtual machines (“VMs”) between Ordering Activity’s VMware environment and AWS cloud, and perform services for Ordering Activity’s internal business purposes only. If Ordering Activity has issued a purchase order for the “Migration Only” offering, Ordering Activity acknowledges and agrees that the

Subscription Period is sixty (60) days and Boomerang may be used on only one virtual machine. Ordering Activity may not use the Boomerang Software except on Ordering Activity’s own VMware environment and Amazon Web Services (“AWS”) cloud.

1.9.2 Reserved.

2. Reserved.

3. Reserved.

4. Ownership

4.1 Software. The Software and APIs are licensed and not sold. Ordering Activity acknowledges and agrees that the Software and the APIs are the sole property of Licensor and its suppliers, and has been developed at great expense; therefore, Ordering Activity agrees to protect the Software and APIs from unauthorized disclosure to third parties. As between Licensor and Ordering Activity, all right, title and interest in and to the Software and the APIs, and all enhancements, updates, modifications, new versions, and derivative works thereof, and all intellectual property rights therein and thereto, are solely owned by Licensor and Licensor reserves all rights not expressly granted hereunder.

4.2 Reserved.

4.3 Feedback. Ordering Activity and its users may, from time to time, make known to Licensor suggestions, enhancement requests, techniques, know-how, comments, feedback or other input to Licensor with respect to the Software (collectively, “Suggestions”). Unless otherwise agreed to in writing by the parties with respect to any Suggestion, Licensor shall have a royalty-free, worldwide, irrevocable, perpetual license to use, disclose, reproduce, license, distribute and exploit any Suggestion without restriction or obligation of any kind, on account of confidential information, intellectual property rights or otherwise, and may incorporate into its services any service, product, technology, enhancement, documentation or other development (“Improvement”) incorporating or derived from any Suggestion with no obligation to license or to make available the Improvement to Ordering Activity or any other person or entity. To assist Licensor in its efforts to enhance the features available in the Software in order to improve Ordering Activity’s experience in using the Software, Ordering Activity agrees that Licensor may collect log and usage information from the Software, which may be used by Licensor for its business purposes. Licensor may use any technical information Ordering Activity provides to Licensor for any Licensor business purposes without restriction, including for product support and development. Licensor will not use technical information in a form that personally identifies Ordering Activity.

4.4 Reserved.

5. Reserved.

6. Limited Warranty; Disclaimer

6.1. Reserved.

6.2 Limited Warranty. Subject to the provisions of this Section 6, Licensor warrants only that the Software will conform in all material respects to its published Documentation for a period of sixty (60) days from the earlier of (i) the date Ordering Activity first downloads and is able to use the Software and

(ii) the date Licensor or its Channel Partner provides Ordering Activity with the associated license key(s). Ordering Activity’s sole and exclusive remedy for any breach of this warranty is for Licensor or its designated third party service provider to, at Licensor’s option and in its sole discretion, to either (i) repair or replace, without charge, any Software which is not in conformity with the foregoing warranty or (ii) to terminate this Agreement and refund the license fees paid by Ordering Activity for the Software instead of repairing or replacing the Software. This limited warranty extends only to the original Ordering Activity. This warranty is subject to the following conditions: (i) the Software is installed by Licensor or its authorized representatives or installed in accordance with all of Licensor’s installation instructions by personnel trained by Licensor; and (ii) Ordering Activity notifies Licensor within the sixty (60) day warranty period of the breach of warranty. This warranty does not cover (x) any defect or deficiency which is not reproducible or which results from: (1) any alteration, repair or maintenance of the Software by

anyone other than Licensor or its authorized contractors; (2) failing to follow in all material respects Licensor's written recommendations or instructions; (3) use the Software on other than the Approved Systems or using or combining the Software with products or services of others, other than under Licensor's direction; (4) any of Ordering Activity's designs, specifications or instructions; or (5) any abnormal physical or electrical stress, or any accident, misuse, abuse or other cause external to the Software as furnished by Licensor and beyond Licensor's reasonable control; (y) any software support not strictly necessary to correct warranty defects as provided herein and (z) any Approved Systems, third party software, supplies or accessories included with the Software. Such Approved Systems and other third party products are provided with the owner's or manufacturer's warranties, if any, which Licensor is permitted to pass on to Ordering Activity. OTHERWISE, SUCH THIRD PARTY PRODUCTS ARE PROVIDED TO ORDERING ACTIVITY "AS IS".

6.3 DISCLAIMER. TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, LICENSOR AND ITS SUPPLIERS DISCLAIM ALL WARRANTIES AND REPRESENTATIONS, WHETHER EXPRESS, IMPLIED, OR OTHERWISE, INCLUDING THE WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, AND NON-INFRINGEMENT WITH RESPECT TO THE SOFTWARE, THE TRIAL VERSION AND ANY FREE SOFTWARE. LICENSOR DOES NOT WARRANT THAT THE SOFTWARE, THE TRIAL VERSION OR ANY FREE SOFTWARE WILL BE ERROR-FREE, SECURE, ACCURATE, RELIABLE, OR WILL OPERATE WITHOUT INTERRUPTION OR THAT LICENSOR WILL BE ABLE TO CORRECT ALL DEFECTS. THE SOFTWARE, THE TRIAL VERSION AND ANY FREE SOFTWARE ARE NOT DESIGNED, INTENDED OR LICENSED FOR USE IN HAZARDOUS ENVIRONMENTS REQUIRING FAIL-SAFE CONTROLS, INCLUDING WITHOUT LIMITATION, THE DESIGN, CONSTRUCTION, MAINTENANCE OR OPERATION OF NUCLEAR FACILITIES, AIRCRAFT NAVIGATION OR COMMUNICATION SYSTEMS, AIR TRAFFIC CONTROL, AND LIFE SUPPORT OR WEAPONS SYSTEMS. LICENSOR SPECIFICALLY DISCLAIMS ANY EXPRESS OR IMPLIED WARRANTY OF FITNESS FOR SUCH PURPOSES. Ordering Activity assumes the risk of any and all liability, damage or loss from use, or inability to use the Software, the Trial Version, and any Free Software. If applicable law requires any warranties other than those set forth in this Section 6, all such warranties are limited in duration to sixty (60) days from the earlier of the date the Software is first made available for download or is delivered.

7. Reserved.

8. Government End Users: This section applies to all acquisitions of the Software by or for the United States Federal Government, or by any prime contractor or subcontractor (at any tier) under any contract, grant, cooperative agreement or other activity with the Federal Government. The Software was developed at private expense and is Commercial Computer Software, as defined in Section 12.212 of the Federal Acquisition Regulation (48 CFR 12.212 (October 1995)) and Sections 227.7202-1 and 227.7202-3 of the Defense Federal Acquisition Regulation Supplement (48 CFR 227.7202-1, 227.7202-3 (June 1995)). Accordingly, any use, duplication or disclosure by the Government or any of its authorized users is subject to restrictions as set forth in this standard license agreement for the Software. If for any reason, Sections 12.212, 227.7202-1 or 227.7202-3 are deemed not applicable, then the Government's rights to use, duplicate or disclose the Software are limited to "Restricted Rights" as defined in 48 CFR Section 52.227-14, or DFARS 252.227-7014(a)(14) (June 1995), as applicable. If this Agreement fails to meet the Government's needs or is inconsistent in any respect with Federal law, the Government agrees to return the Software, unused, to Licensor at the address set forth above.

Varonis Systems, Inc.
1250 Broadway, 29th Floor
New York, NY 10001

**EC America Rider to Product Specific License Terms and Conditions
(for U.S. Government End Users)**

1. **Scope.** This Rider and the attached **Varonis Systems, Inc.** (“Manufacturer”) product specific license terms establish the terms and conditions enabling EC America (“Contractor”) to provide Manufacturer’s information technology products and services to Ordering Activities under EC America’s GSA MAS IT70 contract number GS-35F-0511T (the “Schedule Contract”). Installation and use of the information technology shall be in accordance with this Rider and Manufacturer Specific Terms attached hereto, unless an Ordering Activity determines that it requires different terms of use and Manufacturer agrees in writing to such terms in a valid delivery order placed pursuant to the Schedule Contract.
2. **Applicability.** Whereas GSA and EC America agreed at the time of Schedule Contract award upon a base set of terms and conditions applicable to all manufacturers and items represented on the Schedule Contract; and Whereas, the parties further agreed that all product specific license, warranty and software maintenance terms and conditions would be submitted at the time each new manufacturer was to be added to the Schedule Contract; Now, Therefore, the parties hereby agree that the product specific license, warranty and software maintenance terms set forth in Attachment A hereto (the “Manufacturer Specific Terms” or the “Attachment A Terms”) are incorporated into the Schedule Contract, but only to the extent that they are consistent with federal law (e.g., the Anti-Deficiency Act (31 U.S.C. § 1341), the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 *et seq.*), the Prompt Payment Act (31 U.S.C. §§ 3901 *et seq.*), the Anti-Assignment statutes (31 U.S.C. § 3727 and 41 U.S.C. § 15), DOJ’s jurisdictional statute 28 U.S.C. § 516 (Conduct of Litigation Reserved to the Department of Justice (DOJ)), and 28 U.S.C. § 1498 (Patent and copyright cases)). To the extent any Attachment A Terms are inconsistent with federal law (See, FAR 12.212(a)), such inconsistent terms shall be superseded, unenforceable and of no legal force or effect in all resultant orders under the Schedule Contract, including but not limited to the following provisions:
 - a) **Contracting Parties.** The GSA Customer (“Licensee”) is the “Ordering Activity”, defined as the entity authorized to order under GSA MAS contracts as set forth in GSA ORDER ADM 4800.2G (Feb 2011), as may be revised from time to time.
 - b) **Changes to Work and Delays.** Subject to GSAR Clause 552.243-72, Modifications (Federal Supply Schedule) (July 2000) (Deviation I – SEPT 2010), and 52.212-4(f) Excusable Delays (JUN 2010) regarding which the GSAR and the FAR provisions take precedence.
 - c) **Contract Formation.** Subject to FAR 1.601(a) and FAR 43.102, the GSA Customer Purchase Order must be signed by a duly warranted Contracting Officer, in writing. The same requirement applies to contract modifications affecting the rights of the parties. All terms and conditions intended to bind the Government must be included within the contract signed by the Government.
 - d) **Termination.** Clauses in the Manufacturer Specific Terms referencing termination, suspension and/ or cancellation are superseded and not applicable to any GSA Customer order. Termination shall be governed by the FAR, the underlying GSA Schedule Contract and the terms in any applicable GSA Customer Purchase Orders. If the Contractor believes the GSA Customer to be in breach, it must file a claim with the Contracting Officer and continue to diligently pursue performance. In commercial item contracting under FAR 12.302(b), the FAR provisions dealing with disputes and continued performance cannot be changed by the Contracting Officer.
 - e) **Choice of Law.** Subject to the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 *et seq.*), the validity, interpretation and enforcement of this Rider shall be governed by and construed in accordance with the federal laws of the United States. In the event the Uniform Computer Information Transactions Act (UCITA) or any similar federal laws or regulations are enacted, to the extent allowed by federal law, they will not apply to this Rider or the underlying Schedule Contract.
 - f) **Equitable remedies.** Equitable remedies are generally not awarded against the Government absent an express statute providing therefore. In the absence of a direct citation to such a statute, all clauses in the Manufacturer Specific Terms referencing equitable remedies are superseded and not applicable to any GSA Customer order.
 - g) **Unilateral Termination.** Unilateral termination by the Contractor does not apply to a GSA Customer Purchase Order and all clauses in the Manufacturer Specific Terms referencing unilateral termination rights of the Manufacturer are hereby superseded.
 - h) **Unreasonable Delay.** Subject to FAR 52.212-4(f) Excusable delays, the Contractor shall be liable for default unless the nonperformance is caused by an occurrence beyond the reasonable control of the Contractor and without its fault or negligence such as, acts of God or the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, unusually severe weather, and delays of common carriers. The Contractor shall notify the Contracting Officer in writing as soon as it is reasonably possible after commencement of any excusable delay, setting forth the full particulars in connection therewith, shall remedy such occurrence with all reasonable dispatch and shall promptly give written notice to the Contracting Officer of the cessation of such occurrence.
 - i) **Assignment.** All clauses regarding the Contractor’s assignment are subject to FAR 52.232-23, Assignment of Claims (JAN 1986) and FAR 42.12 Novation and Change-of-Name Agreements (Sep. 2013). All clauses governing the Contractor’s assignment in the Manufacturer Specific Terms are hereby superseded.
 - j) **Waiver of Jury Trial.** Waivers of Jury Trials are subject to FAR 52.233-1 Disputes (JULY 2002). The Government will not agree to waive any right that it may have under federal law. All clauses governing a waiver of jury trial in the Manufacturer Specific Terms are hereby superseded.
 - k) **Government Indemnities.** This is an obligation in advance of an appropriation that violates anti-deficiency laws (31 U.S.C. § 1341 and 41 U.S.C. § 6301), since the GSA Customer commits to pay an unknown amount at an unknown future time. The

violation occurs when the commitment is made, i.e., when the agreement featuring this clause is incorporated into a Government contract, and not when the clause is triggered. The FAR 12.216 prohibit such indemnifications. All Manufacturer Specific Terms referencing customer indemnities are hereby superseded.

- l) **Contractor Indemnities.** All Manufacturer Specific Terms that violate DOJ's jurisdictional statute (28 U.S.C. § 516) by requiring that the Government give sole control over the litigation and/or settlement to the Contractor are hereby superseded. Nothing contained in the Manufacturer's Specific terms shall be construed in derogation of the U.S. Department of Justice's right to defend any claim or action brought against the U.S., pursuant to its jurisdictional statute.
- m) **Renewals.** All Manufacturer Specific Terms that provide for automatic renewals violate the Anti-Deficiency Act and are hereby superseded. This is an obligation in advance of an appropriation that violates anti-deficiency laws (31 U.S.C. § 1341 and 41 U.S.C. § 6301), since the GSA Customer commits to pay an unknown amount at an unknown future time. The violation occurs when the commitment is made, i.e., when the agreement featuring this clause is incorporated into a Government contract, and not when the clause is triggered.
- n) **Future Fees or Penalties.** All Manufacturer Specific Terms that require the Government to pay any future fees, charges or penalties are hereby superseded unless specifically authorized by existing statutes, such as the Prompt Payment Act (31 U.S.C. § 3901 et seq.) or Equal Access To Justice Act (5 U.S.C. § 504; 28 U.S.C. § 2412).
- o) **Taxes.** Taxes are subject to FAR 52.212-4(k), which provides that the contract price includes all applicable federal, state, local taxes and duties. Notwithstanding the foregoing, Contractor shall state separately on its invoices, taxes excluded from the fees, and the GSA Customer agrees to either pay the amount of the taxes (based on the current value of the equipment or services) to Contractor or provide it evidence necessary to sustain an exemption, in accordance with FAR 52.229-1 and FAR 52.229-3.
- p) **Third Party Terms.** When the end user is an instrumentality of the U.S., no license terms bind the GSA Customer unless included verbatim (not by reference) in the EULA, and the EULA is made an attachment to the underlying GSA Schedule Contract. All terms and conditions affecting the GSA Customer must be contained in a writing signed by a duly warranted Contracting Officer. Any third party manufacturer shall be brought into the negotiation, or the components acquired separately under federally-compatible agreements, if any. All Manufacturer Specific Terms that incorporate third party terms by reference are hereby superseded.
- q) **Dispute Resolution and Standing.** Any disputes relating to the Manufacturer Specific Terms or to this Rider shall be resolved in accordance with the FAR, the underlying GSA Schedule Contract, any applicable GSA Customer Purchase Orders, and the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 et seq.). The Ordering Activity expressly acknowledges that EC America as contractor, on behalf of the Manufacturer, shall have standing to bring such claim under the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 et seq.).
- r) **Advertisements and Endorsements.** Pursuant to GSAR 552.203-71, use of the name or logo of any U.S. Government entity is prohibited. All Manufacturer Specific Terms that allow the Contractor to use the name or logo of a Government entity are hereby superseded.
- s) **Public Access to Information.** EC America agrees that the attached Manufacturer Specific Terms and this Rider contain no confidential or proprietary information and acknowledges the Rider shall be available to the public.
- t) **Confidentiality.** Any provisions in the attached Manufacturer Specific Terms that require the Ordering Activity to keep certain information confidential are subject to the Freedom of Information Act (5 U.S.C. § 552), and any order by a United States Federal Court. When the end user is an instrumentality of the U.S. Government, neither this Rider, the Manufacturer's Specific Terms nor the Schedule Price List shall be deemed "confidential information" notwithstanding marking to that effect. Notwithstanding anything in this Rider, the Manufacturer's Specific Terms or the Schedule Contract to the contrary, the GSA Customer may retain such Confidential Information as required by law, regulation or its bonafide document retention procedures for legal, regulatory or compliance purposes; provided however, that such retained Confidential Information will continue to be subject to the confidentiality obligations of this Rider, the Manufacturer's Specific Terms and the Schedule Contract.
- u) **Alternate Dispute Resolution.** The GSA Customer cannot be forced to mediate or arbitrate. Arbitration requires prior guidance by the head of a federal agency promulgated via administrative rulemaking according to 5 U.S.C. § 575(c). GSA has not issued any because it considers the Board of Contract Appeals to be an adequate, binding ADR alternative. All Manufacturer Specific Terms that allow the Contractor to choose arbitration, mediation or other forms of alternate dispute resolution are hereby superseded.
- v) **Ownership of Derivative Works.** Provisions purporting to vest exclusive ownership of all derivative works in the licensor of the standard software on which such works may be based are superseded. Ownership of derivative works should be as set forth in the copyright statute, 17 U.S.C. § 103 and the FAR clause at 52.227-14, but at a minimum, the GSA Customer shall receive unlimited rights to use such derivative works at no further cost.

3. Order of Precedence/Conflict. To the extent there is a conflict between the terms of this Rider and the terms of the underlying Schedule Contract or a conflict between the terms of this Rider and the terms of an applicable GSA Customer Purchase Order, the terms of the GSA Schedule Contract or any specific, negotiated terms on the GSA Customer Purchase Order shall control over the terms of this Rider. Any capitalized terms used herein but not defined, shall have the meaning assigned to them in the underlying Schedule Contract.

CONTRACTOR SUPPLEMENTAL PRICELIST INFORMATION AND TERMS**

VARONIS SYSTEMS, INC.

VARONIS SYSTEMS, INC. LICENSE, WARRANTY AND SUPPORT TERMS

License Agreement

THE TERMS OF THIS LICENSE SUPERSEDE IN THEIR ENTIRETY ANY CONFLICTING TERMS OF ANY LICENSE AGREEMENT WHICH ACCOMPANIES THE SOFTWARE, AS APPLICABLE, BASED ON THE SOFTWARE KEY THE GSA CUSTOMER HAS BEEN ASSIGNED (THE "SOFTWARE").

1. **Grant of License.** Varonis Systems, Inc. ("Licensor") grants the GSA Customer a limited, , non-exclusive, nontransferable, non-sublicensable license to (i) use the Software as provided herein, during the Evaluation Period (as defined below), solely for the trial and evaluation of the Software (a "Temporary License"), and/or (ii) subject to the full payment of the applicable license fee, to use the Software, in executable form only, internally (the "Permanent License") solely during the term set forth in Section 5 below. The GSA Customer may not make any commercial use of the Software, nor grant any third party any right to use the Software, whether or not for any consideration. This License Agreement allows the GSA Customer to run and use the Software on the GSA Customer's internal network, subject to the number of users (i) limited by the software key provided to the GSA Customer by the Licensor, if a Temporary License is granted to the GSA Customer, or (ii) indicated in the GSA Customer Purchase Order pursuant to which a Permanent License is granted to the GSA Customer. For the purpose of this Agreement, with respect to each Software Product a "user" shall include any user that has access or may potentially have access (whether authorized or unauthorized) during the term of the Permanent License to any of the data resources monitored by such Software Product.
2. **Other Rights and Limitations.** The GSA Customer may not, and may not permit or aid others to, translate, reverse engineer, decompile, disassemble, update, modify, reproduce, duplicate, copy, distribute, place the Software onto a server so that it is accessible by third parties via a public network or otherwise disseminate all or any part of the Software, or extract source code from the object code of the Software. The GSA Customer may not publish or make available to the public, without Licensor's prior written approval, its impressions, evaluations, notes or recommendations from the use of the Temporary License. The Software is licensed as a single product. The GSA Customer may not separate its component parts for use on more than one computer or for any other purpose. The GSA Customer may not assign, sublicense, transfer, pledge, lease, rent, or share the GSA Customer's rights under this Agreement. Any data processed, shared, transferred or otherwise used by the GSA Customer, including any of its users, is the GSA Customer's sole responsibility. The GSA Customer must comply with applicable federal data protection laws and regulations. The GSA Customer must verify that no unauthorized users have access to its data. **THE GSA CUSTOMER SOLELY, IS RESPONSIBLE TO BACK UP ITS DATA.** Under no circumstances will Licensor be liable for any inaccuracy, loss of or damages to the GSA Customer's data used by it including any of its users by means of the Software.
3. **Proprietary Rights; Confidentiality.** The GSA Customer acknowledges and agrees that the Software is a proprietary product of Licensor, protected under copyright laws and international treaties. The GSA Customer further acknowledges and agrees that all right, title and interest in and to the Software, including associated intellectual property rights, are and shall remain with Licensor. All intellectual property rights (including, without limitation, copyrights, trade secrets, trademarks, etc.) evidenced by or embodied in and/or attached/connected/related to the Software, including any revisions, corrections, modifications, enhancements, updates and/or upgrades thereof (to the extent provided by Licensor) are and shall be owned solely by Licensor. This Agreement does not convey to the GSA Customer any interest in or to the Software, except for a limited right of use as set forth herein, terminable in accordance with the FAR, the GSA Schedule Contract and/or any applicable GSA Customer Purchase Orders. The GSA Customer will maintain all copies of the Software and all related documentation in confidence, and in a manner that the Software and all related documentation are not publicly accessible, and that only those that need access to Software shall be able to access it. When the end user is an instrumentality of the U.S. Government, neither this EULA nor the Schedule Price List shall be deemed "confidential information" notwithstanding marking to that effect. Notwithstanding anything in this Agreement to the contrary, the GSA Customer may retain such Confidential Information as required by law, regulation or its bonafide document retention procedures for legal, regulatory or compliance purposes; provided however, that such retained Confidential Information will continue to be subject to the confidentiality obligations of this Agreement.
4. **License Fees.** In consideration of the Permanent License, the GSA Customer shall pay the applicable license fees.
5. **Term and Termination.** The Temporary License shall be effective upon delivery of the Software, and shall continue until the lapse of thirty (30) days from the delivery day (or such longer period as approved in writing by the Licensor), unless terminated earlier as set forth in the FAR, the underlying GSA Schedule Contract, and/or any GSA Customer Purchase Orders (the "Evaluation Period"). The Permanent License shall be perpetual, unless terminated by Licensor in accordance with the FAR, the underlying GSA Schedule Contract, and/or any GSA Customer Purchase Orders. When the end user is an instrumentality of the US Government, recourse against the United States for any alleged breach of this Agreement must be made as a dispute under the contract disputes clause (Contract Disputes Act). During any dispute under the disputes clause, Varonis shall proceed diligently with performance of this contract, pending final resolution of any request for relief, claim, appeal, or action arising under the contract, and comply with any decision of the Contracting Officer.
6. **Limited Warranty.** With respect to the Temporary License, no warranties are provided by the Licensor in connection with the Software. With respect to the Permanent License, , Licensor warrants, for the GSA Customer's benefit only, that the media on which the Software is provided will be free from defects in material and workmanship under normal use for a period of twelve (12) months from the date on which a Permanent License was granted to the GSA Customer. Licensor does not warrant that the Software shall be error free or that it shall meet the GSA Customer's requirements. This limited warranty is void if failure of the Software has resulted from accident, abuse, unauthorized use or misapplication. **EXCEPT FOR THE WARRANTY SET FORTH ABOVE, THE SOFTWARE MEDIA AND THE SOFTWARE ARE LICENSED "AS IS", AND LICENSOR DISCLAIMS ANY AND ALL OTHER WARRANTIES, WHETHER EXPRESS OR IMPLIED, INCLUDING, WITHOUT LIMITATION, ANY IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, PERFORMANCE, ACCURACY, RELIABILITY AND NON-INFRINGEMENT.**
7. **Maintenance and Support.** Following the Evaluation Period, and in connection with Software granted a Permanent License, the GSA Customer may purchase maintenance and support services pursuant to the execution of a new GSA Customer Purchase Order. The use and installation of any updates, upgrades, patches or other software the GSA Customer may receive or purchase from Licensor or its resellers in

connection with the GSA Customer's use of the Software, shall also be subject to and governed by the terms of this Agreement and the terms of Licensor's Support Principles attached hereto as Exhibit A.

8. Limitation of Liability. Notwithstanding anything herein to the contrary, Licensor's cumulative liability to the GSA Customer or any third party for any loss, cost or damage resulting from any claims, demands, or actions arising out of or relating to this License Agreement, the Temporary License and/or the Permanent License shall not exceed the license fees actually paid to Licensor hereunder, if any. In no event shall Licensor be liable for any indirect, incidental, consequential, special, or exemplary damages or lost profits, even if Licensor has been advised of the possibility of such damages.

9. Qualifications and Limitations Basis of Bargain. The limited warranty, exclusive remedies and limited liability provisions set forth herein are fundamental elements of this License Agreement and the license granted hereunder, and the GSA Customer accepts and confirms that Licensor would not be able to provide the Software on an economic basis without such limitations. The foregoing exclusions/limitations of liability shall not apply (1) to personal injury or death caused by Varonis' negligence; (2) for fraud; or (3) for express remedies under law or the contract; or (4) for any other matter for which liability cannot be excluded by law.

10. U.S.-Related Special Provisions. The GSA Customer agrees that the Software is not being or will not be shipped, transferred or re-exported, directly or indirectly, into any country prohibited by the United States Export Administration Act and the regulations thereunder, nor will it be used for any purposes prohibited by such Act. If any part of the Software is acquired by or on behalf of a unit or agency of the U.S. Government, the Government agrees that the Software and all related documentation are "commercial computer software" or "commercial computer software documentation" and that, absent a written agreement to the contrary, the Government's rights with respect to the Software and the related documentation are limited by the terms of this Agreement, pursuant to FAR 12.212(a), FAR 52.227-14 "Rights in Data" (Dec. 2007) and/or DFARS 252.227. 7015 "Technical Data/Commercial Items" (Jun. 2013), as applicable.

11. Governing Law and Jurisdiction; Litigation Costs. This Agreement shall be construed and governed in accordance with the laws of the United States of America without reference to conflict of laws, and dispute resolution shall take place in a forum, and within the time period, prescribed by applicable federal law. No equitable or injunctive relief, and no shifting of legal fees or costs, may be sought against the GSA Customer except as, and then only to the extent, specifically authorized by applicable federal statute.

12. Auto-updates & Environment Settings survey. The following functionality shall automatically be available to the GSA Customer with the Software: (i) if the GSA Customer purchases software subscription services, and subject to Government Information Security Requirements, including but not limited to those imposed by the Federal Information Security Management Act (FISMA), Licensor will regularly download and install software fixes and improvements to the installed DatAdvantage® environment. This includes only database scripts and does not compromise the data collected at the GSA Customer's environment. Use of the software fixes and improvements shall be subject to the terms of this Agreement; and (ii) if the GSA Customer purchases support services, subject to Government information security requirements, Licensor will monitor and collect general information about the GSA Customer's installed Software environment. This includes general information (the number of probes, shadows, file servers, folders, users and permissions that are monitored), as well as health status (database sizes, jobs and status of executables). This information can be used by Licensor's support engineers to improve the service if a problem arises, or to contact the customer proactively to prevent problems. Note that the GSA Customer may choose not to activate these functions by manually selecting "I Refuse" during the installation process.

13. Miscellaneous. Should any term of this Agreement be declared void or unenforceable by any court of competent jurisdiction, such declaration shall have no effect on the remaining terms hereof. This Agreement, together with the underlying GSA Schedule Contract, the Schedule Price List and any applicable GSA Customer Purchase Orders represents the entire agreement concerning the program between the GSA Customer and Licensor and it supersedes any prior proposal, representation, or understanding between the parties. This Agreement, however shall not take precedence over the terms of the underlying GSA Schedule Contract or any specific, negotiated terms on the GSA Customer's Purchase Order. The GSA Customer may not assign this Agreement to any third party without the prior written consent of Licensor. Assignment by Varonis is subject to FAR 52.232-23 "Assignment of Claims" (Jan. 1986) and FAR subpart 42.12 "Novation and Change-of-Name Agreements" (Sep. 2013). The failure of either party to enforce any rights granted hereunder or to take action against the other party in the event of any breach hereunder shall not be deemed a waiver by that party as to subsequent enforcement of rights or subsequent actions in the event of future breaches.

Agreed and Accepted:

Varonis Systems, Inc.

Title:
Date:

Exhibit A

Varonis Support Principles

- 1. Support Services
 - 1.1. Support Services. Throughout the Support Services term, Varonis will make available to the GSA Customer the following Support Services in respect of the Software (for which the Customer duly purchased a license from Varonis) (collectively "Support Services"):
 - 1.1.1. Software Subscription under Section 2 below;
 - 1.1.2. Error verification and classification under Section 3 below;
 - 1.1.3. Correction of Errors under Section 5 below;
 - 1.1.4. Consultation and advice per telephone and email under Section 6 below;

1.2. Supported Versions. Varonis will provide Support Services under this Agreement only for the most current generally available Version of the Software (the "Most Current Version") and the Version immediately preceding the Most Current Version of the Software (the "Previous Version"). Notwithstanding the aforesaid, for a period of three (3) months as of the release of the Most Current Version of the Software, Varonis will provide support services to the Version of the Software which is immediately preceding the Most Current Version of the Software, in such level determined by Varonis at its sole discretion.

"Version" shall mean a subsequent release of a Software or associated Documentation (the user documentation made generally available by Varonis to customers in connection with the Software) denoted by a change in the Software's release number. "Versions" do not include new functionality, features or modules offered by Varonis as separate or additional products or components or add-ons by Varonis.

1.3. Supported Users. Varonis will provide Support Services under this Agreement with respect to the number of users for which the GSA Customer duly purchased the Support Services. Upon any renewal of the Support Services, the GSA Customer shall be required to renew the Support Services for the higher of (i) the initial number of users indicated in the purchase order pursuant to which the Software was purchased or (ii) the number of users indicated in Varonis' records, if such number is higher than the number in subsection (i), following an increase in the number of users under the license of the Software pursuant to the purchase of additional license(s) by the GSA Customer (the "Registered Number of Users"). In the event that the GSA Customer renews the Support Services for a number of users which is less than the Registered Number of Users (the "New Number of Users"), Varonis shall be entitled, at any time, to run an audit check (including through running a script) in order to verify the actual number of users applicable to the Software. In the event that any such audit reveals that the actual number of users applicable to the Software is higher than the New Number of Users, Varonis will provide immediate notice to the GSA Customer of the alleged deficiency and may invoice the GSA Customer for the number of licenses required to bring it into compliance under this Agreement.

2. Software Subscription.

2.1. Provision of Updates. Varonis shall make available to the GSA Customer, Updates of the Software, if and when Varonis makes such Updates generally available to its other customers then covered by the Software Subscription.

Updates shall mean new Versions, updates, modifications, Work Arounds (a technically reasonably feasible change in the operating procedure of the Software whereby the adverse effects of the Error on the normal operation of the Software are reasonably minimized), upgrades, patches, error-corrections, releases, hotfixes, service packs, feature packs, which are designed and released by Varonis to optimize and/or repair the operation of the Software or the Documentation, if and when generally made generally available by Varonis to its customers. Updates shall not include any new functionality, features or modules offered by Varonis as separate or additional products, components or add-ons ("Additional Products").

2.2. Ability to Purchase Additional Products. Varonis shall make available to the GSA Customer, pursuant to the execution of a new GSA Customer Purchase Order, any Additional Products if and when Varonis generally offers such Additional Products to its other customers.

2.3. Notifications. Varonis shall not be responsible to provide a notice on any Updates or Additional Products available.

3. Error Verification and Classification

3.1. Reporting of Error(s): An Error by Customer shall be reported in writing to Varonis by electronic mail. Each Error Report ("ER") shall state one Error and shall contain the following information:

- A suggested Error Severity Level among one of the classes set out below;
- A description of the command(s) and procedures that reveal the Error;
- A description of the hardware and operating environment;
- Specification of Version of the Software in question;
- A short description of the Error;
- Examples of input;
- The resulting output;
- The expected output;
- Any special circumstances surrounding the discovery of the Error.

3.2. Classification and Verification: For each ER received, Varonis shall:

3.2.1. Confirm receipt of the ER by electronic mail within no later than 30 minutes.

3.2.2. Analyze the ER, verify the existence of the Error(s) and classify the Error, at its sole and exclusive discretion, in one of the Error Severity Levels set forth below, if any:

Severity 1	Severity 2	Severity 3	Severity 4
A down situation where the Software is non-operational and there is no known work-around.			

With errors of this severity level, the Software may:

- Repeatedly fail catastrophically;
- Require repeated reboots of the system;
- Impact any system connected to or monitored by the Software. A major function of the Software is unusable and no work-around is available, but the Software still supports some production functionality.

With Errors of this severity level, the Software may:

- Be usable, but incomplete;
- Fail catastrophically;
- Require reboot of the system;
- Suffer severe degraded performance (throughput/ response). The Software is functional, but provides incorrect results or is not operating in accordance with the Specifications. Also includes Errors with a major function of the software for which there is a known work-around. With Errors of this severity level, the product may:
 - Have major errors in results returned;
 - Require use of a Work Around to address issue. All other problems with the Software other than those falling within the categories above. With errors of this severity level, the Software may:
 - Have minor errors in results returned;
 - Operate in a manner inconsistent with technical Specifications.

"Error" shall mean a reproducible failure in the Software resulting in one of the Error Severity Levels above, causing the Software not to operate in accordance with the Specifications (the published functionality and performance specifications for the Software appearing in the Documentation). Notwithstanding the foregoing, "Error" shall not include any failure caused: (i) by the use or operation of the Software with any other hardware, software or programming languages or in an environment other than that intended or recommended by Varonis, (ii) by any bug, defect, error or malfunction in the Equipment or any hardware or software used with the Software or any other failure of the Equipment, such hardware or software to conform to their published specifications, (iii) due to modifications, alterations and repairs to the Software not made by Varonis or on its behalf, or (iv) due to misuse, accident or improper installation, support or maintenance

4. Technical Support Response Time

Severity Level	Response Time	Additional Info
Severity 1 5.1.1	4 hours during Varonis business hours	For additional info see section
Severity 2 5.1.2	6 hours during Varonis business hours	For additional info see section
Severity 3 5.1.3	Next business day during Varonis business hours	For additional info see section
Severity 4 5.1.4	Next business day during Varonis business hours	For additional info see section

5. Error Correction.

5.1. Method of Correction. Following receipt of Customer's "ER", Varonis and Customer will first attempt to resolve the problem over the phone or via email or other electronic means. If such remote attempts are unsuccessful, Varonis shall use commercially reasonable efforts to Correct Errors as follows:

5.1.1. For Errors classified by Varonis as Severity 1 Level Errors, Varonis shall immediately commence commercially reasonable efforts to create a Work Around within 7 days, and a subsequent final solution as soon as possible. Varonis shall constantly keep Customer informed of the progress of the Error Correction work.

5.1.2. For Errors classified by Varonis as Severity 2 Level Errors, Varonis shall immediately commence commercially reasonable efforts to create a Work Around within fourteen (14) days, and a subsequent final solution which as soon as possible. Varonis shall until completion of the Work Around, inform Customer of the progress of the Error Correction work at least once every three days.

5.1.3. For Errors classified by Varonis as Severity 3 Level Errors, Varonis shall commence commercially reasonable efforts to create a Work Around within fourteen (14) days, and a subsequent final solution at a reasonable time thereafter. Varonis shall until completion of the temporary solution, inform Customer of the progress of the Error Correction work at least once a week.

5.1.4. Correction of Errors classified by Varonis as Severity 4 Level Errors, if any, shall be repaired within a reasonable time taking into account Varonis' then current workload and planning.

5.2. Location. Any Error Correction shall be carried out by Varonis from Varonis' offices only and in no way will Varonis' be obligated to provide any on-site support or visit or be present in Customer's premises or in any other location. "Error Correction(s)" shall mean any modification, repair or replacement of the Software to remedy an adverse effect of such Error on the operation of the Software

6. Provision of Telephone and Email Support. Varonis shall use commercially reasonable efforts, to supply during 9AM through 5PM (EST ("Business Hours") on Business Days (Monday through Friday, not including federal holidays), consultation and advice to Customer, directly over the telephone or by Email. Answers will be given to questions regarding the use of the Software and its installation, configuration and Documentation. Furthermore, general advice regarding submitted ER's shall be given.

7. Customer Obligations

7.1. Cooperation. Customer will cooperate with Varonis regarding any Support Services, including without limitation by providing as much detail as available about reported Errors, and taking all such reasonable measures requested by Varonis in order to detect and provide further information with respect to each Error. Customer shall ensure the readiness of its Equipment (hardware situated at the Premises on which the Software is installed and operated), computerized systems, environment and personnel to the operation of the Software, and shall ensure the appropriate conditions required to enable Varonis to comply with its undertakings hereunder, including without limitation: (i) to enable Varonis to remotely access the Software, subject to the GSA Customer's security requirements; (ii) ensure the availability of Customer's personnel required for the operation of the Software; (iii) comply with Varonis' reasonable administrative requirements; and (iv) provide Varonis or its representatives, subject to the GSA Customer's security requirements, remote control access to the server where the Software is installed.

7.2. Access. If requested by Varonis, subject to the GSA Customer's security requirements, the GSA Customer shall grant Varonis such access to the information, to the premises, and to the Equipment as may be necessary or appropriate for Varonis to perform its Support Services. Varonis shall not responsible to any failure to provide Support Services due to GSA Customer's refusal to grant Varonis access reasonably required by Varonis to provide the Support Services.

7.3. Customer Contacts. Customer shall ensure that its contacts authorized to receive the Support Services are fully knowledgeable of the Software and of the underlying technologies and are capable of receiving remote instructions from Varonis and performing activities reasonably required by a computerized system operator.

7.4. Installation of Updates. Customer shall install any and all Updates of the Software within a reasonable time following the date in which they become available.

8. Warranty; Disclaimer; Limitation of Liability.

8.1. VARONIS UNDERTAKES TO PROVIDE THE SUPPORT SERVICES IN A TIMELY AND PROFESSIONAL MANNER. EXCEPT FOR THE ABOVE UNDERTAKING, VARONIS PROVIDES NO WARRANTY, EXPRESS OR OTHERWISE, WITH RESPECT TO THE SUPPORT SERVICES, AND VARONIS SPECIFICALLY DISCLAIMS ALL IMPLIED WARRANTIES OF MERCHANTABILITY, OR FITNESS FOR A PARTICULAR PURPOSE.

8.2. VARONIS' LIABILITY HEREUNDER FOR ANY DAMAGES WHICH CUSTOMER MAY SUFFER SHALL IN NO EVENT EXCEED THE AMOUNT OF THE MOST RECENT ANNUAL SUPPORT FEE PAID BY CUSTOMER TO VARONIS. IN NO EVENT WILL VARONIS BE LIABLE FOR ANY CONSEQUENTIAL, INCIDENTAL, SPECIAL, INDIRECT, OR EXEMPLARY DAMAGES, INCLUDING FOR ANY LOST PROFITS, LOSS OF DATA, OR COSTS OF PROCUREMENT OF SUBSTITUTE GOODS OR SERVICES, OR FOR ANY CLAIM OR DEMAND AGAINST CUSTOMER BY ANY OTHER PARTY, HOWEVER CAUSED AND UNDER ANY THEORY OF LIABILITY (INCLUDING NEGLIGENCE), EVEN IF VARONIS HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. THE FOREGOING EXCLUSION/LIMITATION OF LIABILITY SHALL NOT APPLY (1) TO PERSONAL INJURY OR DEATH CAUSED BY VARONIS' NEGLIGENCE;

(2) FOR FRAUD; (3) FOR EXPRESS REMEDIES UNDER LAW OR THE CONTRACT; OR (4) FOR ANY OTHER MATTER FOR WHICH LIABILITY CANNOT BE EXCLUDED BY LAW.

9. Contacting Varonis Technical Support

Two primary customer contacts may be designated for contacting Varonis technical support. All issues must be reported through these designated contacts.

9.1. Email

Customers may submit support issues via email to support@varonis.com any time. Email is only monitored during Varonis Business Hours as defined above.

Guidelines for interacting with the email generated from Vaornis ticketing and tracking system:

9.1.1. Customer should choose appropriate subject lines to describe its question or issue.

9.1.2. Customer should send in separate email, each individual question or issue it may have, to allow for tracking separately.

9.1.3. If Customer copies additional individuals on the "first" email message to Varonis, those individuals will be added to the ticket in a "cc" list, and will receive emails from the tracking system each time the ticket is updated. If Customer would like to add additional individuals once the ticket has been opened, Customer should reply to the auto-generated email and ask Varonis to add such individuals.

9.1.4. Customer should be aware that Varonis cannot accept any file attachments that are executables, scripts or DLLs. Customer should send Varonis images by inserting them into a Word document. If Customer needs to send Varonis any of the above file types, please contact Varonis technical support to coordinate transfer of the data.

9.1.5. The maximum file size for attachments is 5 MB. If Customer needs to send Varonis larger files, please compress them into several archives and send each one separately or contact Varonis support to coordinate the data transfer.

9.1.6. All email will be converted to text. Customer should not rely on color/fonts to call Varonis' attention to answers.

9.2. Phone

Customers may submit support issues via phone to the Varonis support line. The applicable phone numbers are at <http://www.varonis.com/services/support/index.html>. The support line is monitored by a messaging service. When contacting the support line, please provide the representative a detailed message and a Varonis support representative will return the call.

9.3. Support Web Site

Customers may submit support issues via the Varonis support web site at <http://support.varonis.com>. Tickets that were submitted via the web will be handled and tracked as tickets that were submitted by email.

10. The Support Services provided by Varonis pursuant to the principles herein do not and shall not cover any migration services or tools provided by Varonis, if any, and do not and shall not include any training services of any kind whatsoever.

VBrick Systems, Inc.
12 Beaumont Road
Wallingford, CT 06492

**EC America Rider to Product Specific License Terms and Conditions
(for U.S. Government End Users)**

1. **Scope.** This Rider and the attached **VBrick Systems, Inc.** (“Manufacturer”) product specific license terms establish the terms and conditions enabling EC America (“Contractor”) to provide Manufacturer’s information technology products and services to Ordering Activities under EC America’s GSA MAS IT70 contract number GS-35F-0511T (the “Schedule Contract”). Installation and use of the information technology shall be in accordance with this Rider and Manufacturer Specific Terms attached hereto, unless an Ordering Activity determines that it requires different terms of use and Manufacturer agrees in writing to such terms in a valid delivery order placed pursuant to the Schedule Contract.
2. **Applicability.** Whereas GSA and EC America agreed at the time of Schedule Contract award upon a base set of terms and conditions applicable to all manufacturers and items represented on the Schedule Contract; and Whereas, the parties further agreed that all product specific license, warranty and software maintenance terms and conditions would be submitted at the time each new manufacturer was to be added to the Schedule Contract; Now, Therefore, the parties hereby agree that the product specific license, warranty and software maintenance terms set forth in Attachment A hereto (the “Manufacturer Specific Terms” or the “Attachment A Terms”) are incorporated into the Schedule Contract, but only to the extent that they are consistent with federal law (e.g., the Anti-Deficiency Act (31 U.S.C. § 1341), the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 *et seq.*), the Prompt Payment Act (31 U.S.C. §§ 3901 *et seq.*), the Anti-Assignment statutes (31 U.S.C. § 3727 and 41 U.S.C. § 15), DOJ’s jurisdictional statute 28 U.S.C. § 516 (Conduct of Litigation Reserved to the Department of Justice (DOJ), and 28 U.S.C. § 1498 (Patent and copyright cases)). To the extent any Attachment A Terms are inconsistent with federal law (See, FAR 12.212(a)), such inconsistent terms shall be superseded, unenforceable and of no legal force or effect in all resultant orders under the Schedule Contract, including but not limited to the following provisions:
 - w) **Contracting Parties.** The GSA Customer (“Licensee”) is the “Ordering Activity”, defined as the entity authorized to order under GSA MAS contracts as set forth in GSA ORDER ADM 4800.2G (Feb 2011), as may be revised from time to time.
 - x) **Changes to Work and Delays.** Subject to GSAR Clause 552.243-72, Modifications (Federal Supply Schedule) (July 2000) (Deviation I – SEPT 2010), and 52.212-4(f) Excusable Delays (JUN 2010) regarding which the GSAR and the FAR provisions take precedence.
 - y) **Contract Formation.** Subject to FAR 1.601(a) and FAR 43.102, the GSA Customer Purchase Order must be signed by a duly warranted Contracting Officer, in writing. The same requirement applies to contract modifications affecting the rights of the parties. All terms and conditions intended to bind the Government must be included within the contract signed by the Government.
 - z) **Termination.** Clauses in the Manufacturer Specific Terms referencing termination, suspension and/ or cancellation are superseded and not applicable to any GSA Customer order. Termination shall be governed by the FAR, the underlying GSA Schedule Contract and the terms in any applicable GSA Customer Purchase Orders. If the Contractor believes the GSA Customer to be in breach, it must file a claim with the Contracting Officer and continue to diligently pursue performance. In commercial item contracting under FAR 12.302(b), the FAR provisions dealing with disputes and continued performance cannot be changed by the Contracting Officer.
 - aa) **Choice of Law.** Subject to the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 *et seq.*), the validity, interpretation and enforcement of this Rider shall be governed by and construed in accordance with the federal laws of the United States. In the event the Uniform Computer Information Transactions Act (UCITA) or any similar federal laws or regulations are enacted, to the extent allowed by federal law, they will not apply to this Rider or the underlying Schedule Contract.
 - bb) **Equitable remedies.** Equitable remedies are generally not awarded against the Government absent an express statute providing therefore. In the absence of a direct citation to such a statute, all clauses in the Manufacturer Specific Terms referencing equitable remedies are superseded and not applicable to any GSA Customer order.
 - cc) **Unilateral Termination.** Unilateral termination by the Contractor does not apply to a GSA Customer Purchase Order and all clauses in the Manufacturer Specific Terms referencing unilateral termination rights of the Manufacturer are hereby superseded.
 - dd) **Unreasonable Delay.** Subject to FAR 52.212-4(f) Excusable delays, the Contractor shall be liable for default unless the nonperformance is caused by an occurrence beyond the reasonable control of the Contractor and without its fault or negligence such as, acts of God or the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, unusually severe weather, and delays of common carriers. The Contractor shall notify the Contracting Officer in writing as soon as it is reasonably possible after commencement of any excusable delay, setting forth the full particulars in connection therewith, shall remedy such occurrence with all reasonable dispatch and shall promptly give written notice to the Contracting Officer of the cessation of such occurrence.
 - ee) **Assignment.** All clauses regarding the Contractor’s assignment are subject to FAR 52.232-23, Assignment of Claims (JAN 1986) and FAR 42.12 Novation and Change-of-Name Agreements (Sep. 2013). All clauses governing the Contractor’s assignment in the Manufacturer Specific Terms are hereby superseded.
 - ff) **Waiver of Jury Trial.** Waivers of Jury Trials are subject to FAR 52.233-1 Disputes (JULY 2002). The Government will not agree to waive any right that it may have under federal law. All clauses governing a waiver of jury trial in the Manufacturer Specific Terms are hereby superseded.
 - gg) **Government Indemnities.** This is an obligation in advance of an appropriation that violates anti-deficiency laws (31 U.S.C. § 1341 and 41 U.S.C. § 6301), since the GSA Customer commits to pay an unknown amount at an unknown future time. The

violation occurs when the commitment is made, i.e., when the agreement featuring this clause is incorporated into a Government contract, and not when the clause is triggered. The FAR 12.216 prohibit such indemnifications. All Manufacturer Specific Terms referencing customer indemnities are hereby superseded.

- hh) **Contractor Indemnities.** All Manufacturer Specific Terms that violate DOJ's jurisdictional statute (28 U.S.C. § 516) by requiring that the Government give sole control over the litigation and/or settlement to the Contractor are hereby superseded. Nothing contained in the Manufacturer's Specific terms shall be construed in derogation of the U.S. Department of Justice's right to defend any claim or action brought against the U.S., pursuant to its jurisdictional statute.
- ii) **Renewals.** All Manufacturer Specific Terms that provide for automatic renewals violate the Anti-Deficiency Act and are hereby superseded. This is an obligation in advance of an appropriation that violates anti-deficiency laws (31 U.S.C. § 1341 and 41 U.S.C. § 6301), since the GSA Customer commits to pay an unknown amount at an unknown future time. The violation occurs when the commitment is made, i.e., when the agreement featuring this clause is incorporated into a Government contract, and not when the clause is triggered.
- jj) **Future Fees or Penalties.** All Manufacturer Specific Terms that require the Government to pay any future fees, charges or penalties are hereby superseded unless specifically authorized by existing statutes, such as the Prompt Payment Act (31 U.S.C. § 3901 et seq.) or Equal Access To Justice Act (5 U.S.C. § 504; 28 U.S.C. § 2412).
- kk) **Taxes.** Taxes are subject to FAR 52.212-4(k), which provides that the contract price includes all applicable federal, state, local taxes and duties. Notwithstanding the foregoing, Contractor shall state separately on its invoices, taxes excluded from the fees, and the GSA Customer agrees to either pay the amount of the taxes (based on the current value of the equipment or services) to Contractor or provide it evidence necessary to sustain an exemption, in accordance with FAR 52.229-1 and FAR 52.229-3.
- ll) **Third Party Terms.** When the end user is an instrumentality of the U.S., no license terms bind the GSA Customer unless included verbatim (not by reference) in the EULA, and the EULA is made an attachment to the underlying GSA Schedule Contract. All terms and conditions affecting the GSA Customer must be contained in a writing signed by a duly warranted Contracting Officer. Any third party manufacturer shall be brought into the negotiation, or the components acquired separately under federally-compatible agreements, if any. All Manufacturer Specific Terms that incorporate third party terms by reference are hereby superseded.
- mm) **Dispute Resolution and Standing.** Any disputes relating to the Manufacturer Specific Terms or to this Rider shall be resolved in accordance with the FAR, the underlying GSA Schedule Contract, any applicable GSA Customer Purchase Orders, and the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 et seq.). The Ordering Activity expressly acknowledges that EC America as contractor, on behalf of the Manufacturer, shall have standing to bring such claim under the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 et seq.).
- nn) **Advertisements and Endorsements.** Pursuant to GSAR 552.203-71, use of the name or logo of any U.S. Government entity is prohibited. All Manufacturer Specific Terms that allow the Contractor to use the name or logo of a Government entity are hereby superseded.
- oo) **Public Access to Information.** EC America agrees that the attached Manufacturer Specific Terms and this Rider contain no confidential or proprietary information and acknowledges the Rider shall be available to the public.
- pp) **Confidentiality.** Any provisions in the attached Manufacturer Specific Terms that require the Ordering Activity to keep certain information confidential are subject to the Freedom of Information Act (5 U.S.C. § 552), and any order by a United States Federal Court. When the end user is an instrumentality of the U.S. Government, neither this Rider, the Manufacturer's Specific Terms nor the Schedule Price List shall be deemed "confidential information" notwithstanding marking to that effect. Notwithstanding anything in this Rider, the Manufacturer's Specific Terms or the Schedule Contract to the contrary, the GSA Customer may retain such Confidential Information as required by law, regulation or its bonafide document retention procedures for legal, regulatory or compliance purposes; provided however, that such retained Confidential Information will continue to be subject to the confidentiality obligations of this Rider, the Manufacturer's Specific Terms and the Schedule Contract.
- qq) **Alternate Dispute Resolution.** The GSA Customer cannot be forced to mediate or arbitrate. Arbitration requires prior guidance by the head of a federal agency promulgated via administrative rulemaking according to 5 U.S.C. § 575(c). GSA has not issued any because it considers the Board of Contract Appeals to be an adequate, binding ADR alternative. All Manufacturer Specific Terms that allow the Contractor to choose arbitration, mediation or other forms of alternate dispute resolution are hereby superseded.
- rr) **Ownership of Derivative Works.** Provisions purporting to vest exclusive ownership of all derivative works in the licensor of the standard software on which such works may be based are superseded. Ownership of derivative works should be as set forth in the copyright statute, 17 U.S.C. § 103 and the FAR clause at 52.227-14, but at a minimum, the GSA Customer shall receive unlimited rights to use such derivative works at no further cost.

3. Order of Precedence/Conflict. To the extent there is a conflict between the terms of this Rider and the terms of the underlying Schedule Contract or a conflict between the terms of this Rider and the terms of an applicable GSA Customer Purchase Order, the terms of the GSA Schedule Contract or any specific, negotiated terms on the GSA Customer Purchase Order shall control over the terms of this Rider. Any capitalized terms used herein but not defined, shall have the meaning assigned to them in the underlying Schedule Contract.

VBRICK SYSTEMS, INC.

VBRICK SYSTEMS, INC. LICENSE, WARRANTY AND SUPPORT TERMS

GRANT OF LICENSE

The Software Product is being licensed, not sold, to Ordering Activity. In accordance with and subject to the terms and conditions of this Attachment A, Contractor grants Ordering Activity a personal, non-transferable, non-exclusive license to use the object code version of the Software Product and Documentation. All rights and title in and to the Software Product and Documentation and all derivative works thereof (as such term is defined by the United States Copyright Act (as amended) at Title 17 U.S.C. and in accordance with FAR 52.227-19), including without limitation copyrights and trade secret rights, belong to Contractor and/or its partners, licensors and suppliers (collectively, "Suppliers"), and Contractor and its Suppliers hold title to each copy of the Software Product and Documentation, and any portion thereof. Contractor and its Suppliers reserve all rights to the Software Product and Documentation not expressly granted to Ordering Activity herein. This Attachment A grants Ordering Activity the following rights:

Software Product. Ordering Activity may install and use one copy of the Software Product, or any prior version for the same operating system, only on the number of computers and users for which the license is given pursuant to Ordering Activity's Purchase Order. In addition, Ordering Activity may make a copy of the Software Product for backup purposes at no cost. Except as expressly provided herein, Ordering Activity may not copy, nor encourage or allow copying of, the Software Product or Documentation. Ordering Activity may not cause or permit the disclosure, copying, renting, licensing, sublicensing, leasing, dissemination or other distribution of the Software Product or the Documentation by any means or in any form without Contractor's prior written consent.

Storage/Network Use. Ordering Activity may also store or install a copy of the Software Product on a storage device, such as a network server, used only to install or run the Software Product on Ordering Activity's other computers over an internal network; however, Ordering Activity must acquire either a Single User License for each separate computer on which the Software Product is installed or run from the storage device, or a Single Building License or an Enterprise License (defined below). If Ordering Activity have acquired appropriate licenses to allow installation of the Software Product on a computer file server within Ordering Activity's internal network Ordering Activity may also use such server to push firmware updates to other VBrick products. No server or network use of the Software Product is permitted except the uses expressly permitted in this Attachment A.

Single User License. Ordering Activity may use the Software Product on one computer only, or must have a license for each computer on which the Software Product is installed. A Single User License for the Software Product may not be shared or used concurrently on different computers or by separate users unless otherwise specified in Ordering Activity's Purchase Order.

Connection License. Ordering Activity is granted license to interconnect a single external server to Ordering Activity's VBrick Server Software; additional connections require purchase of additional connection licenses.

No Modification. Ordering Activity may not alter or modify the Software Product or create a new installer for the Software Product. The Software Product is licensed and distributed for viewing, distributing, and sharing media files. Ordering Activity is not authorized to integrate or use the Software Product with any software except software authorized by Contractor.

Automatic Connection. THE SOFTWARE PRODUCT MAY INCLUDE PRODUCT ACTIVATION AND OTHER TECHNOLOGY DESIGNED TO PREVENT UNAUTHORIZED USE AND COPYING. THIS TECHNOLOGY MAY CAUSE ORDERING ACTIVITY'S COMPUTER TO AUTOMATICALLY CONNECT TO THE INTERNET. ADDITIONALLY, ONCE CONNECTED, THE SOFTWARE PRODUCT MAY TRANSMIT ORDERING ACTIVITY'S SERIAL NUMBER TO CONTRACTOR OR ITS SUPPLIERS AND IN DOING SO MAY PREVENT USES OF THE SOFTWARE THAT ARE NOT PERMITTED.

Third-Party Website Access. The Software Product may allow Ordering Activity to access third-party websites ("Third-Party Sites"). Ordering Activity's access to and use of any Third-Party Sites, including but not limited to any goods, services, or information made available for such sites, is governed by the terms and conditions found at each Third Party Site, if any. Third-Party Sites are not owned or operated by Contractor or its Suppliers. ORDERING ACTIVITY'S USE OF THIRD-PARTY SITES IS AT ORDERING ACTIVITY'S OWN RISK. NEITHER CONTRACTOR NOR ITS SUPPLIERS MAKES ANY WARRANTIES, CONDITIONS, INDEMNITIES, REPRESENTATIONS, OR TERMS, EXPRESS OR IMPLIED, WHETHER BY STATUTE, COMMON LAW, CUSTOM, USAGE, OR OTHERWISE AS TO ANY OTHER MATTERS, INCLUDING BUT NOT LIMITED TO NONINFRINGEMENT OF THIRD-PARTY RIGHTS, TITLE, INTEGRATION, ACCURACY, SECURITY, AVAILABILITY, SATISFACTORY QUALITY, MERCHANTABILITY, OR FITNESS FOR ANY PARTICULAR PURPOSE WITH RESPECT TO THE THIRD-PARTY SITES.

Compliance With Licenses. If Ordering Activity is an entity, Ordering Activity agree that upon request from Contractor or Contractor's authorized representative, Ordering Activity will within thirty (30) days fully document and certify that use of any and all Software Products at the time of the request is in conformity with Ordering Activity's valid license(s) from Contractor and/or its Suppliers.

OTHER RIGHTS AND LIMITATIONS

Limitations on Reverse Engineering, Decompilation, and Disassembly. Ordering Activity may not reverse engineer, decompile, or disassemble the Software Product, except and only to the extent that such activity is expressly permitted by applicable law notwithstanding this limitation. Ordering Activity may not use the Software Product to conduct a service bureau or similar business for the benefit of third parties. Ordering Activity may not modify, adapt, translate, or otherwise create derivative works based on the Software Product or Documentation.

Separation of Components. The Software Product is licensed as a single product. Its component parts may not be separated for use on more than one computer beyond the licensed number of users. If the Software Product is an upgrade or a revision of a component of a package of software programs that Ordering Activity licensed as a single product, the Software Product may be used and transferred only as part of that single product package and may not be separated for use on more than one computer.

Dual Media Software. Ordering Activity may receive the Software Product in more than one medium. Regardless of the type or size of medium Ordering Activity receive, Ordering Activity may use only one medium that is appropriate for the computer or computers for which the license is given (pursuant to the Purchase Order). Ordering Activity may not use or install the other medium on another computer. Ordering Activity may

not loan, rent, lease, or otherwise transfer the other medium to another user, except as part of the permanent transfer (as provided below) of the Software Product.

Support Services. Contractor through VBrick may or may not provide Ordering Activity with support services related to the Software Product ("Support Services"). Any supplemental software code provided to Ordering Activity as part of the Support Services shall be considered part of the Software Product and subject to the terms and conditions of this Attachment A. With respect to any technical information Ordering Activity may provide as part of the Support Services, Contractor through VBrick may use such information for its business purposes, including but not limited to product support and development.

COPYRIGHT

All title and copyrights in and to the Software Product (including but not limited to any images, photographs, animations, video, audio, music, text, and "applets" incorporated into the Software Product), the Documentation or other accompanying printed materials, and any copies of them are owned and retained by Contractor and/or its Suppliers. Copyright laws and international treaty provisions protect the Software Product. Therefore, Ordering Activity must treat the Software Product like any other copyrighted material, except that Ordering Activity may install a copy of the Software Product on a single computer, storage device or as otherwise provided in this Attachment A, provided that Ordering Activity keep the original solely for backup or archival purposes. Ordering Activity may not copy the printed materials accompanying the Software Product.

U.S. GOVERNMENT RESTRICTED RIGHTS

The Software Product and Documentation are provided with RESTRICTED RIGHTS. Use, duplication, or disclosure by the Government is subject to restrictions as set forth in subparagraph (c)(1)(ii) of the Rights in Technical Data and Computer Software clause at DFARS 252.227-7013 or subparagraphs (c)(1) and (2) of the Commercial Computer Software-Restricted Rights at 48 CFR 52.227-19, or RESTRICTED RIGHTS notice per 52.227-14 as applicable. Manufacturer is VBrick Systems, Inc. 12 Beaumont Road, Wallingford, CT 06492 USA.

LIMITED WARRANTY

THE SOFTWARE PRODUCT AND DOCUMENTATION ARE PROVIDED "AS IS" AND WITHOUT ANY WARRANTY OF ANY KIND. TO THE MAXIMUM EXTENT PERMITTED BY LAW, CONTRACTOR AND ITS SUPPLIERS DISCLAIM ALL WARRANTIES OR CONDITIONS, EXPRESS AND IMPLIED, STATUTORY OR OTHERWISE, INCLUDING WITHOUT LIMITATION ALL WARRANTIES OR CONDITIONS WITH RESPECT TO THE SOFTWARE PRODUCT'S OR THE DOCUMENTATION'S TITLE, NONINFRINGEMENT OF THIRD PARTY'S RIGHTS, QUALITY, PERFORMANCE, MERCHANTABILITY, OR FITNESS FOR A PARTICULAR PURPOSE.

WITHOUT LIMITING THE FOREGOING, NEITHER CONTRACTOR NOR ITS SUPPLIERS WARRANT THAT THE SOFTWARE PRODUCT SHALL BE OPERABLE, UNINTERRUPTED OR ERROR-FREE, OR THAT IT MEETS ORDERING ACTIVITY'S REQUIREMENTS, OR THAT IT WILL FUNCTION OR OPERATE IN CONJUNCTION WITH ANY OTHER PRODUCT OR HARDWARE.

THE ENTIRE RISK AS TO THE USE, QUALITY AND PERFORMANCE OF THE SOFTWARE PRODUCT AND DOCUMENTATION IS WITH ORDERING ACTIVITY. NEITHER CONTRACTOR NOR ITS SUPPLIERS IS OBLIGATED TO PROVIDE ANY SUPPORT SERVICES TO ORDERING ACTIVITY. SOME JURISDICTIONS DO NOT ALLOW THE LIMITATION OF ALL WARRANTIES, SO THE ABOVE LIMITATIONS MAY NOT APPLY TO ORDERING ACTIVITY.

EXHIBIT A – VBRICK WARRANTY AND SUPPORT

THE FOLLOWING WARRANTY IS EXCLUSIVE AND IN LIEU OF ALL OTHER WARRANTIES, WHETHER EXPRESS OR IMPLIED, OR STATUTORY, INCLUDING, BUT NOT BY WAY OF LIMITATION, ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

WITHOUT LIMITING THE GENERALITY OF THE FOREGOING, CONTRACTOR SPECIFICALLY DISCLAIMS AND EXCLUDES ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE OR USE.

PRODUCTS OR PARTS WHICH ARE SAMPLES OR PROTOTYPES ARE SOLD "AS IS" "WHERE IS" WITH ALL FAULTS, *i.e.* WITHOUT ANY WARRANTY WHATSOEVER.

WHEN SUBMITTING AN ORDER FOR SOFTWARE MAINTENANCE (REFERRED TO THROUGHOUT THIS DOCUMENT AS SUPPORT SERVICES) ORDERING ACTIVITY MUST CERTIFY THAT ORDERING ACTIVITY HAS READ, UNDERSTAND, AND AGREE TO BE BOUND BY THE FOLLOWING ATTACHMENT A TERMS AND CONDITIONS. ADDITIONALLY, IF ORDERING ACTIVITY IS ACTING AS AN EMPLOYEE OR AGENT OF THE ORDERING ACTIVITY FOR THE VBRICK PRODUCT FOR WHICH SOFTWARE SUPPORT SERVICES ARE TO BE PROVIDED, ORDERING ACTIVITY FURTHER CERTIFY THAT ORDERING ACTIVITY HAS FULL LEGAL AUTHORITY TO ACCEPT THE TERMS AND CONDITIONS OF THIS ATTACHMENT A ON BEHALF OF THE ORDERING ACTIVITY.

DO NOT SUBMIT ORDERING ACTIVITY'S ORDER UNTIL ORDERING ACTIVITY HAS CAREFULLY READ, UNDERSTOOD AND AGREED TO THESE ATTACHMENT A TERMS AND CONDITIONS. IF ORDERING ACTIVITY DOES NOT AGREE TO THESE ATTACHMENT A TERMS AND CONDITIONS, OR IF ORDERING ACTIVITY DOES NOT HAVE LEGAL AUTHORITY TO ACCEPT THEM ON BEHALF OF THE ORDERING ACTIVITY, CONTRACTOR WILL NOT ACCEPT ORDERING ACTIVITY'S ORDER.

THE CHART BELOW IS A SUMMARY OF THE WARRANTY TERMS AND CONDITIONS APPLICABLE TO CONTRACTOR'S LIMITED WARRANTY FOR PRODUCTS. THE TERMS AND CONDITIONS APPLICABLE TO CONTRACTOR'S LIMITED WARRANTY ARE AS SET ONWARD BELOW.

I. PRODUCTS COVERED.

Contractor warrants to Ordering Activity the VBrick Software and Manufactured Equipment, including hardware, software and firmware (the "Equipment"): (i) to be free from defects in material and workmanship under normal use and service, and (ii) to conform in all material respects to the printed specifications for the Equipment which have been delivered to Ordering Activity in connection with Ordering Activity's purchase of the Equipment.

Provision of Software Maintenance Software Support Services by Contractor through VBrick are conditioned upon Ordering Activity having deployed the current shipping release of the respective VBrick Product for which such Software Support Services are to be provided*. Only these Attachment A terms and conditions, notwithstanding any preprinted or other terms and conditions on Ordering Activity's Purchase Order shall govern Ordering Activity's purchase and Contractor's provision of Software Support Services.

*Upgrades to the latest version will be provided free of charge according to the program purchased by the Ordering Activity. Contractor does not guarantee it can support versions of software other than the current shipping release.

II. LENGTH OF WARRANTY.

Warranty and Software Maintenance shall commence upon the date indicated in the Contractor confirmation notice and shall continue in full force and effect for a period of one (1) year. Ordering Activity may, at the time of your initial order, purchase up to five (5) years of Subscription Service. Contractor will provide Ordering Activity with no less than thirty (30) days prior written notice of any pending Software Subscription Service changes with details on any pricing and/or modifications to these Attachment A terms and condition.

III. WHO OR WHAT IS COVERED?

This Limited Warranty covers only the VBrick Software and VBrick Manufactured Equipment acquired by the original Ordering Activity.

IV. EXCLUSIONS.

This warranty shall be void if the Ordering Activity fails to use or maintain the Software or Equipment in accordance with Contractor's specifications or instructions, or if the Software or Equipment or any part thereof has been subject to any unauthorized modifications, improper operation, user negligence, service by an unauthorized person, company or association, use with any unauthorized attachment, device or feature, accident neglect, misuse, tampering, acts of God, or any event other than ordinary use.

The following points are not included in Contractor's Limited Warranty and Gold and Platinum programs

- Support on any product not manufactured or produced by VBrick
- Professional services:
 - Integration with 3rd party equipment,
 - Installation support for new VBrick equipment
 - Contractor through VBrick Technical Support Services personnel performing or providing over the phone a step by step upgrade of the Equipment.
 - Support Services related to the relocation of VBrick equipment or the elimination or addition of new VBrick equipment or third party equipment, such as network equipment, audio and video devices, or custom software applications or programs.
 - Feasibility Studies
 - Equipment Upgrades/Updates that also require hardware upgrades in order to utilize new functionality of the software. Any such hardware upgrades is not covered. Ordering Activity may purchase the hardware upgrades at the price set forth in the latest-current Contractor GSA Price List.

V. LIMITATION OF LIABILITY.

Contractor's obligation and Ordering Activity's remedy for any failure of the Equipment is limited to the repair or replacement of any part of the Software and/or Equipment at Contractor's discretion, which examination shall disclose to Contractor as defective. Contractor reserves the right to satisfy its warranty obligations in full by refunding the purchase price of the Equipment. Nothing herein shall obligate Contractor to

make such a refund.

Software Updates and Upgrades: If Contractor, in its discretion, creates Software Updates or Software Upgrades to the VBrick Product during the term for which Ordering Activity has purchased Software Support Services, Contractor shall provide all such Software Updates and Software Upgrades to Ordering Activity designated technical contact. Distribution of Software Updates or Software Upgrades does not include installation by Contractor. Contractor will provide Ordering Activity with all such Software Update or Software Upgrades when Contractor makes them available to its general customer base for the VBrick Product. All Software and related materials provided pursuant to Software Support Services, including documentation and program materials are subject to these Attachment A terms and conditions for the VBrick Product.

VI. HOW TO OBTAIN WARRANTY SERVICE.

To receive warranty services, Ordering Activity must register equipment under their name upon arrival at <http://registration.vbrick.com>, or via mail to:

Technical Support Services – Registration Department
12 Beaumont Rd
Wallingford, CT 06492

Ordering Activity must notify Contractor through VBrick promptly by telephone, and/or via our website of any alleged defect with the Equipment or software, including a detailed description of such alleged defect. For warranty verification purposes, the Ordering Activity must furnish VBrick Technical Support Services with the equipment serial number or warranty contract number. Failure to provide this number may delay service response time or require payment for services. VBrick's telephone number for warranty service is (203) 303-0222. VBrick's support website is located at <http://www.vbrick.com/support>. Upon notifying VBrick of an alleged defect with the Equipment and after defect has been verified by VBrick's Technical Support Services, Ordering Activity agrees not to use the Equipment until further notice by VBrick. Ordering Activity shall bear all risks of operation, if Ordering Activity operates the Equipment prior to VBrick's determination that the Equipment is suitable for operation, and VBrick shall bear no liability whatsoever for any damages, losses or claims that may arise due to such operation.

Upon notification of a possible defect and after defect has been verified by VBrick's Technical Support Services, Contractor through VBrick will provide to customer a Return Merchandise Authorization ("RMA").

Technical Customer Support is available via telephone at (203) 303-0222, email: support@vbrick.com, or website: <http://www.vbrick.com/support>, from 8:30 AM to 7:00 PM Monday to Thursday and 8:30 AM to 5:30 PM Friday (U.S. Eastern Time).

Priority will be given to Ordering Activities who have purchased Extended Warranty / Maintenance Program. Expected response time for Gold products is 24 business hrs and 4 business hrs for Platinum products.

VII RETURN MATERIAL AUTHORIZATION (RMA)

All equipment under abnormal operation must be verified by a VBrick Technical Customer Support representative before it is assigned a Return Material Authorization (RMA) number. If Ordering Activity elects to avoid the verification process, a PO for VBrick's in-house diagnostics fee (consult latest GSA price list for diagnostics fee charges) will be required. If equipment is deemed faulty, diagnostic fees will be void.

Replacement equipment will not be shipped without an RMA number assigned. All Equipment received by Contractor through VBrick without an RMA number will be returned to the Ordering Activity without being repaired. Ordering Activities must return the Equipment in need of repair with the same serial number as reported in the RMA. If equipment with a different serial number is returned under the RMA, the equipment will be returned without being repaired. Ordering Activity is responsible for properly packing the Equipment before it is shipped to Contractor through VBrick.

If Contractor through VBrick determines that the defect was not caused by accident, improper use, abuse, neglect, unauthorized alteration or service, inconsistent use with the specifications or any use other than ordinary use, VBrick shall, at its option, repair or replace the applicable part(s) of the Equipment within the limits of the program in which the Equipment is enrolled, and at VBrick's expense, return the Equipment to the Ordering Activity in the same or equivalent manner that the Equipment was delivered to VBrick.

Next Day Shipment: ensures that a replacement for defective Equipment will be shipped to the Ordering Activity before requiring the Ordering Activity to return the defective Equipment to Contractor through VBrick. Equipment will be shipped to arrive at Ordering Activity's site the next business day after dispatch. However, any requests for replacement Equipment processed in North America after 3:00 PM Eastern Time (ET) may ship the following business day for second business day delivery. Any international requests for replacement processed after 3:00 PM ET may ship the following business day for international delivery. Delivery times depend upon each country customs regulations. Contractor through VBrick is not responsible for any customs or tax charges related to any country other than the U.S.A. A replacement Equipment may be new or reconditioned of like kind, functionality, and quality. The defective Product or part must be returned to VBrick within fifteen (15) days of receipt of the replacement product; all shipping costs are borne by Ordering Activity.. Any single request for a single shipment of five (5) or more Equipment of the same type may be subject to delays.

DOA (Dead on arrival): A product can be deemed as DOA, after troubleshooting by Contractor through VBrick Technical Support Services, if it is not fully functioning when it is setup for the first time or received with damage. It does not have to be completely dead or non-functioning to qualify for DOA. It could be anything from a unit not powering up to a unit with a bent connector. If it's not fully functional or has damage when opened and setup for the first time, it qualifies as "DOA" and eligible for a cross ship replacement if within 30 days of the original ship date and registered runtime of the product is not more than 4 days. After 30 days, follow normal RMA process unless Manager of Support Services approves expedited RMA process.

VIII. REPLACEMENT PARTS.

Parts replaced during the Limited Warranty Period, as applicable, will be covered for the remaining term of such period or for thirty (30) days from time of replacement, whatever is longer. Such replacement parts may, at Contractor's option, be new or remanufactured. All parts removed from warranted Equipment shall become property of Contractor.

IX. PLATINUM PROGRAM - EXTENDED WARRANTY / MAINTENANCE -

Ordering Activities may purchase VBrick's Extended Warranty / Maintenance Program (Platinum) for their equipment at any time within thirty (30) days from the date indicated in the VBrick confirmation notice -and for additional 1 year incremental periods if renewals of the Extended Warranty / Maintenance Program are purchased (the "Extended Warranty / Maintenance Program").

Hardware coverage/warranty under this program is provided up to 5 years from the date the equipment is shipped from Contractor through VBrick's facilities. After this period this program only covers technical support and major software releases.

X. GOLD and GOLD PLUS PROGRAMS - EXTENDED WARRANTY / MAINTENANCE -

Contractor through VBrick's Limited Warranty Gold Program is in effect for one (1) year from the date indicated in the VBrick confirmation notice -and for additional periods if renewals of the Extended Warranty / Maintenance Program are purchased (the "Extended Warranty / Maintenance Program"). Periods must be consecutive one to each other. Ordering Activity shall not be allowed to renew the program for their Equipment and/or Software in the case the program period expired for the Equipment and/or Software in question and Ordering Activity missed to renew between 30 days of renewal due date.

Hardware coverage/warranty under this program is provided up to 5 years from the date the equipment is shipped from Contractor through VBrick's facilities. After this period this program only covers technical support and minor software releases.

XI. SOFTWARE COVERAGE

Software: means all computer programming code, entirely in binary form, which is directly executable by a computer and includes those computer programs which have been licensed to Ordering Activity either as a separate product or as part of another VBrick Product.

Software coverage includes the following:

- Major Software Release (Software Upgrade): initial or new version of a software product or application. It means a version of the Software as classified by Contractor through VBrick which has been enhanced, improved and/or modified and replaces the existing version of the Software. This includes any minor software releases, user interface changes, usability changes, and new features and functions. As an example a major release is denoted by a version change from 2.0 to 3.0
- Minor Software Release (Software Update): piece of software designed to correct discovered deficiencies and/or bugs affecting performance to the software description, program or its supporting data. This includes improved performance, bugs fixes, or graphics replacement. As an example a minor releases is denoted by version changing from 2.0 to 2.1.
- Software upgrades during the Extended Warranty/Maintenance Program period. The upgrades will be provided to the Ordering Activity via CD-ROM or VBrick's website. The Ordering Activity is required to perform the upgrade.
- Software upgrades may not include upgrades that require disassembly of the Equipment.

XII. HARDWARE COVERAGE

Hardware coverage includes the following:

- Repair or replacement of defective Equipment during Warranty Program period.
- Firmware upgrades (upgrades of code that require disassembly of Equipment).

XIII. TECHNICAL SUPPORT SERVICES

The following is an explanation of services performed at each level:

- Level 1: provide answers and helpdesk for Equipment features. Basically all the "what" questions. This information can be found in the Equipment Documentation.
- Level 2: diagnose and troubleshoot complex network problems including multicast issues. Diagnose and troubleshoot Server software related problems. Provide answers on how to perform upgrades. Basically able to answer the entire "how" questions. This information can be found in the Equipment documentation and in training materials.
- Level 3: diagnose and troubleshoot "error and abnormal Equipment behaviors".

Onsite Support: When a problem cannot be resolved by utilizing remote technical support, Contractor through VBrick will dispatch an engineer to arrive on-site pursuant to the Service level purchased by Ordering Activity. VBrick will not be held responsible for delays in the delivery of the services due to Ordering Activity's stoppage to provide access to Ordering Activity's facilities or due to security requirements. Contractor through VBrick may comply with all Ordering Activity imposed security requirements.

The Extended Warranty/Maintenance Program is obtained in the manner outlined in Part IX, X above and is limited as provided in the introduction and Parts III, IV, V, VII, VII and XI, XII, XIII above.

XIV. PRODUCTS OUT OF WARRANTY RE-JOINING A WARRANTY PROGRAM

- No product can be renewed under the old warranty program except for products from Ordering Activity and only until the new GSA pricing becomes effective.
- If warranty coverage has lapsed, there can be NO Hardware repair claim made for a minimum of 60 days after the renewal. If a claim is made within the first 60 days - it will be billed to the Ordering Activity at then-current GSA repair rate.

XV. REPAIR SERVICE OUTSIDE WARRANTY OR MAINTENANCE PROGRAM POLICY.

In the event that Equipment requires service that is not covered by Contractor's Limited Warranty or any other Program, Equipment may be shipped to Contractor through VBrick for repair. Ordering Activity must notify VBrick's Technical Customer Support of the problem via telephone at (203) 303-0222, or via website at <http://www.vbrick.com/support>, obtain a RMA and ship the Equipment to VBrick, at Ordering Activity's expense. Repairs are performed under flat fee charges (please refer to latest Contractor's GSA price list for charges). Contractor through VBrick will repair the Equipment within five (5) business days from the date the equipment is delivered at VBrick's facilities and will, at VBrick's expense, return the Equipment to Ordering Activity in the same or equivalent manner that the Equipment was delivered to VBrick.

Limited Services Warranty. THE PROVISION OF SOFTWARE SUPPORT SERVICES DOES NOT EXTEND, MODIFY OR ENHANCE THE ORIGINAL SOFTWARE WARRANTIES, IF ANY, FOR THE VBRICK PRODUCT (S). CONTRACTOR DISCLAIMS ALL OTHER WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, AND ANY WARRANTIES WITH RESPECT TO INFRINGEMENT OF THIRD PARTY INTELLECTUAL PROPERTY RIGHTS.

CONTRACTOR NEITHER ASSUMES NOR AUTHORIZES ANY OTHER PARTY TO ASSUME ANY OTHER LIABILITIES IN CONNECTION WITH THE SOFTWARE SUPPORT SERVICE(S) PROVIDED HEREUNDER.

Vectra Networks, Inc.
550 South Winchester Blvd, #200
San Jose, CA 95128

**EC America Rider to Product Specific License Terms and Conditions
(for U.S. Government End Users)**

1. **Scope.** This Rider and the attached **Vectra Networks, Inc.** (“Manufacturer”) product specific license terms establish the terms and conditions enabling EC America (“Contractor”) to provide Manufacturer’s information technology products and services to Ordering Activities under EC America’s GSA MAS IT70 contract number GS-35F-0511T (the “Schedule Contract”). Installation and use of the information technology shall be in accordance with this Rider and Manufacturer Specific Terms attached hereto, unless an Ordering Activity determines that it requires different terms of use and Manufacturer agrees in writing to such terms in a valid delivery order placed pursuant to the Schedule Contract.

2. **Applicability.** Whereas GSA and EC America agreed at the time of Schedule Contract award upon a base set of terms and conditions applicable to all manufacturers and items represented on the Schedule Contract; and Whereas, the parties further agreed that all product specific license, warranty and software maintenance terms and conditions would be submitted at the time each new manufacturer was to be added to the Schedule Contract; Now, Therefore, the parties hereby agree that the product specific license, warranty and software maintenance terms set forth in Attachment A hereto (the “Manufacturer Specific Terms” or the “Attachment A Terms”) are incorporated into the Schedule Contract, but only to the extent that they are consistent with federal law (e.g., the Anti-Deficiency Act (31 U.S.C. § 1341), the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 *et seq.*), the Prompt Payment Act (31 U.S.C. §§ 3901 *et seq.*), the Anti-Assignment statutes (31 U.S.C. § 3727 and 41 U.S.C. § 15), DOJ’s jurisdictional statute 28 U.S.C. § 516 (Conduct of Litigation Reserved to the Department of Justice (DOJ)), and 28 U.S.C. § 1498 (Patent and copyright cases)). To the extent any Attachment A Terms are inconsistent with federal law (See, FAR 12.212(a)), such inconsistent terms shall be superseded, unenforceable and of no legal force or effect in all resultant orders under the Schedule Contract, including but not limited to the following provisions:
 - ss) **Contracting Parties.** The GSA Customer (“Licensee”) is the “Ordering Activity”, defined as the entity authorized to order under GSA MAS contracts as set forth in GSA ORDER ADM 4800.2G (Feb 2011), as may be revised from time to time.
 - tt) **Changes to Work and Delays.** Subject to GSAR Clause 552.243-72, Modifications (Federal Supply Schedule) (July 2000) (Deviation I – SEPT 2010), and 52.212-4(f) Excusable Delays (JUN 2010) regarding which the GSAR and the FAR provisions take precedence.
 - uu) **Contract Formation.** Subject to FAR 1.601(a) and FAR 43.102, the GSA Customer Purchase Order must be signed by a duly warranted Contracting Officer, in writing. The same requirement applies to contract modifications affecting the rights of the parties. All terms and conditions intended to bind the Government must be included within the contract signed by the Government.
 - vv) **Termination.** Clauses in the Manufacturer Specific Terms referencing termination, suspension and/ or cancellation are superseded and not applicable to any GSA Customer order. Termination shall be governed by the FAR, the underlying GSA Schedule Contract and the terms in any applicable GSA Customer Purchase Orders. If the Contractor believes the GSA Customer to be in breach, it must file a claim with the Contracting Officer and continue to diligently pursue performance. In commercial item contracting under FAR 12.302(b), the FAR provisions dealing with disputes and continued performance cannot be changed by the Contracting Officer.
 - ww) **Choice of Law.** Subject to the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 *et seq.*), the validity, interpretation and enforcement of this Rider shall be governed by and construed in accordance with the federal laws of the United States. In the event the Uniform Computer Information Transactions Act (UCITA) or any similar federal laws or regulations are enacted, to the extent allowed by federal law, they will not apply to this Rider or the underlying Schedule Contract.
 - xx) **Equitable remedies.** Equitable remedies are generally not awarded against the Government absent an express statute providing therefore. In the absence of a direct citation to such a statute, all clauses in the Manufacturer Specific Terms referencing equitable remedies are superseded and not applicable to any GSA Customer order.
 - yy) **Unilateral Termination.** Unilateral termination by the Contractor does not apply to a GSA Customer Purchase Order and all clauses in the Manufacturer Specific Terms referencing unilateral termination rights of the Manufacturer are hereby superseded.
 - zz) **Unreasonable Delay.** Subject to FAR 52.212-4(f) Excusable delays, the Contractor shall be liable for default unless the nonperformance is caused by an occurrence beyond the reasonable control of the Contractor and without its fault or negligence such as, acts of God or the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, unusually severe weather, and delays of common carriers. The Contractor shall notify the Contracting Officer in writing as soon as it is reasonably possible after commencement of any excusable delay, setting forth the full particulars in connection therewith, shall remedy such occurrence with all reasonable dispatch and shall promptly give written notice to the Contracting Officer of the cessation of such occurrence.

- aaa) **Assignment.** All clauses regarding the Contractor’s assignment are subject to FAR 52.232-23, Assignment of Claims (JAN 1986) and FAR 42.12 Novation and Change-of-Name Agreements (Sep. 2013). All clauses governing the Contractor’s assignment in the Manufacturer Specific Terms are hereby superseded.

- bbb) **Waiver of Jury Trial.** Waivers of Jury Trials are subject to FAR 52.233-1 Disputes (JULY 2002). The Government will not agree to waive any right that it may have under federal law. All clauses governing a waiver of jury trial in the Manufacturer Specific Terms are hereby superseded.

- ccc) **Government Indemnities.** This is an obligation in advance of an appropriation that violates anti-deficiency laws (31 U.S.C. § 1341 and 41 U.S.C. § 6301), since the GSA Customer commits to pay an unknown amount at an unknown future time. The

violation occurs when the commitment is made, i.e., when the agreement featuring this clause is incorporated into a Government contract, and not when the clause is triggered. The FAR 12.216 prohibit such indemnifications. All Manufacturer Specific Terms referencing customer indemnities are hereby superseded.

- ddd) **Contractor Indemnities.** All Manufacturer Specific Terms that violate DOJ's jurisdictional statute (28 U.S.C. § 516) by requiring that the Government give sole control over the litigation and/or settlement to the Contractor are hereby superseded. Nothing contained in the Manufacturer's Specific terms shall be construed in derogation of the U.S. Department of Justice's right to defend any claim or action brought against the U.S., pursuant to its jurisdictional statute.
- eee) **Renewals.** All Manufacturer Specific Terms that provide for automatic renewals violate the Anti-Deficiency Act and are hereby superseded. This is an obligation in advance of an appropriation that violates anti-deficiency laws (31 U.S.C. § 1341 and 41 U.S.C. § 6301), since the GSA Customer commits to pay an unknown amount at an unknown future time. The violation occurs when the commitment is made, i.e., when the agreement featuring this clause is incorporated into a Government contract, and not when the clause is triggered.
- fff) **Future Fees or Penalties.** All Manufacturer Specific Terms that require the Government to pay any future fees, charges or penalties are hereby superseded unless specifically authorized by existing statutes, such as the Prompt Payment Act (31 U.S.C. § 3901 et seq.) or Equal Access To Justice Act (5 U.S.C. § 504; 28 U.S.C. § 2412).
- ggg) **Taxes.** Taxes are subject to FAR 52.212-4(k), which provides that the contract price includes all applicable federal, state, local taxes and duties. Notwithstanding the foregoing, Contractor shall state separately on its invoices, taxes excluded from the fees, and the GSA Customer agrees to either pay the amount of the taxes (based on the current value of the equipment or services) to Contractor or provide it evidence necessary to sustain an exemption, in accordance with FAR 52.229-1 and FAR 52.229-3.
- hhh) **Third Party Terms.** When the end user is an instrumentality of the U.S., no license terms bind the GSA Customer unless included verbatim (not by reference) in the EULA, and the EULA is made an attachment to the underlying GSA Schedule Contract. All terms and conditions affecting the GSA Customer must be contained in a writing signed by a duly warranted Contracting Officer. Any third party manufacturer shall be brought into the negotiation, or the components acquired separately under federally-compatible agreements, if any. All Manufacturer Specific Terms that incorporate third party terms by reference are hereby superseded.
- iii) **Dispute Resolution and Standing.** Any disputes relating to the Manufacturer Specific Terms or to this Rider shall be resolved in accordance with the FAR, the underlying GSA Schedule Contract, any applicable GSA Customer Purchase Orders, and the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 et seq.). The Ordering Activity expressly acknowledges that EC America as contractor, on behalf of the Manufacturer, shall have standing to bring such claim under the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 et seq.).
- jjj) **Advertisements and Endorsements.** Pursuant to GSAR 552.203-71, use of the name or logo of any U.S. Government entity is prohibited. All Manufacturer Specific Terms that allow the Contractor to use the name or logo of a Government entity are hereby superseded.
- kkk) **Public Access to Information.** EC America agrees that the attached Manufacturer Specific Terms and this Rider contain no confidential or proprietary information and acknowledges the Rider shall be available to the public.
- lll) **Confidentiality.** Any provisions in the attached Manufacturer Specific Terms that require the Ordering Activity to keep certain information confidential are subject to the Freedom of Information Act (5 U.S.C. § 552), and any order by a United States Federal Court. When the end user is an instrumentality of the U.S. Government, neither this Rider, the Manufacturer's Specific Terms nor the Schedule Price List shall be deemed "confidential information" notwithstanding marking to that effect. Notwithstanding anything in this Rider, the Manufacturer's Specific Terms or the Schedule Contract to the contrary, the GSA Customer may retain such Confidential Information as required by law, regulation or its bonafide document retention procedures for legal, regulatory or compliance purposes; provided however, that such retained Confidential Information will continue to be subject to the confidentiality obligations of this Rider, the Manufacturer's Specific Terms and the Schedule Contract.
- mmm) **Alternate Dispute Resolution.** The GSA Customer cannot be forced to mediate or arbitrate. Arbitration requires prior guidance by the head of a federal agency promulgated via administrative rulemaking according to 5 U.S.C. § 575(c). GSA has not issued any because it considers the Board of Contract Appeals to be an adequate, binding ADR alternative. All Manufacturer Specific Terms that allow the Contractor to choose arbitration, mediation or other forms of alternate dispute resolution are hereby superseded.
- nnn) **Ownership of Derivative Works.** Provisions purporting to vest exclusive ownership of all derivative works in the licensor of the standard software on which such works may be based are superseded. Ownership of derivative works should be as set forth in the copyright statute, 17 U.S.C. § 103 and the FAR clause at 52.227-14, but at a minimum, the GSA Customer shall receive unlimited rights to use such derivative works at no further cost.

3. Order of Precedence/Conflict. To the extent there is a conflict between the terms of this Rider and the terms of the underlying Schedule Contract or a conflict between the terms of this Rider and the terms of an applicable GSA Customer Purchase Order, the terms of the GSA Schedule Contract or any specific, negotiated terms on the GSA Customer Purchase Order shall control over the terms of this Rider. Any capitalized terms used herein but not defined, shall have the meaning assigned to them in the underlying Schedule Contract.

**ATTACHMENT A
CONTRACTOR SUPPLEMENTAL PRICELIST INFORMATION AND TERMS**

VECTRA NETWORKS, INC.

VECTRA NETWORKS, INC. LICENSE, WARRANTY AND SUPPORT TERMS

ATTACHMENT A - VECTRA NETWORKS, INC.

1 Definitions

“Hardware” means the VECTRA hardware products set forth in the Order.

“Product” means the VECTRA security services product(s) set forth in the Order that consist of Hardware, Software, and/or Subscriptions.

“Order” means an ordering document issued by Ordering Activity that specifies Product(s) to be provided under this Agreement.

“Software” means the executable code version of VECTRA’s software products set forth in the Order and any updates thereto furnished by VECTRA under this Agreement.

“Subscriptions” means subscription-based Software or services provided by VECTRA to Ordering Activity for a fixed or recurring period, subject to subscription fees for each such period as set forth in the Order.

2 Scope

2.1 Authorized VECTRA Resellers. While VECTRA shall remain the “licensor” for purposes of the grant of the licenses and other rights hereunder, and Ordering Activity shall remain the “licensee” for purposes of the obligations contained herein, Ordering Activity shall contract directly with the authorized VECTRA reseller for the purchase of Hardware and/or Maintenance provided by such authorized VECTRA reseller.

3 Products and Services

3.1 Reserved.

3.2 Software License. Subject to the terms and conditions of this Agreement and the applicable Order, VECTRA grants to Ordering Activity a nonexclusive, nontransferable, limited license to use the Software in accordance with the applicable user documentation and license keys provided by VECTRA solely for Ordering Activity’s internal use: (i) at the Ordering Activity facility authorized in the Order, (ii) during the period for which Ordering Activity has purchased a then-current license and Subscription, (iii) by Licensee employees up to the number of users for whom then-current licenses and Subscriptions have been paid, and (iv) for the measured bandwidth usage (“Measured Usage”), up to the service level set forth in the Order (“Service Level”).

3.3 Subscriptions. The Subscriptions will commence on the Effective Date (or other applicable start date specified in the Order) and will continue for the period set forth in the Order (the “Initial Subscription Term”).

3.4 Maintenance and Services. To the extent maintenance services are provided by VECTRA, such maintenance services are subject to Exhibit A (“Maintenance”). Installation, training and other support services may be provided if set forth in the Order, subject to the terms set forth in Exhibit A.

3.5 Evaluation. Any Hardware, Software or Subscriptions provided for evaluation or at no charge or for a nominal charge may only be used for evaluation during the evaluation period set forth in the Order, not to exceed 90 days (“Evaluation Period”) and solely for considering whether to purchase the applicable Product from Ordering Activity and not for any other purpose or any productive use. Ordering Activity shall return and discontinue all use of such Products at the end of the Evaluation Period.

3.6 Restrictions. Ordering Activity shall not (and shall not permit any third party to) (i) copy, modify, translate, reverse engineer, decompile, disassemble or otherwise reduce the Software or Subscriptions to human perceivable form or attempt to discover underlying source code, algorithms or techniques, except to the extent that such activities may not be prohibited under applicable law, (ii) provide, lease, use for timeshare or service bureau purposes, or lend or otherwise allow use of any Product by or on behalf of any third party or at any location other than the Ordering Activity facility authorized in the Order, (iii) disclose any benchmarking, competitive analysis or other results obtained from any Product or use any Product or portion thereof to develop any similar item or any competitive products or services, (iv) use or remove the applicable Software or Subscriptions from any Hardware on which or for which they are provided under the applicable Order, (v) attempt to disable or circumvent any license key, encryption or other security device or mechanism used in connection with the Product, Software or Subscriptions; or (vi) remove or otherwise interfere with any portion of the Product designed to monitor Ordering Activity’s compliance with this Agreement. Ordering Activity acknowledges that Software and Subscriptions may include license keys and other features that disable use at the end of the applicable license or Subscription Term, or once the Service Level set forth in the Order is met.

3.7 Proprietary Rights. The Software and Subscriptions are licensed and not sold. VECTRA shall retain ownership of all Software and Subscriptions and all intellectual property rights relating thereto. Ordering Activity agrees that VECTRA may use and exploit without restriction any error reports, suggestions and other information provided by Ordering Activity with respect to the Products and shall own any fixes, modifications, improvements and new versions made by VECTRA based on such information. The Products, Software, documentation and other non-public information provided by VECTRA are confidential to VECTRA and shall not be disclosed by Ordering Activity to any third party. All implied licenses are disclaimed and all rights not expressly granted herein are reserved to VECTRA.

3.8 Data Access. VECTRA collects personally identifiable information uploaded during registration or account administration and information provided during support requests (collectively, “Ordering Activity Administrative Data”). Ordering Activity Administrative Data includes, for example, name, email address, phone number, and VECTRA-generated licenses associated with a Ordering Activity’s account or email address. In the provision of the Product or a Subscription (including services

related thereto), VECTRA may receive, store, process, and utilize network traffic data, including system stability data, threat detection information, user experience data, user interface data, and session and detection metadata (including packet capture data) (such data, "Ordering Activity Traffic Data" and, together with Ordering Activity Administrative Data, all such data is "Ordering Activity Data"). Without limiting the foregoing, VECTRA may automatically access, process, and retain Ordering Activity Traffic Data transferred on networks to which Ordering Activity connects any Product for purposes of product improvement, analysis, and evaluation as follows:

- a. Default Access. VECTRA may monitor and access: (i) system stability data, including uptime statistics for various processes; hardware, software and network failure indicators; and back trace and call stack data; (ii) threat detection information, including the number, type and score of each threat detection instance (based on VECTRA proprietary metrics); the attribution of each threat detection to an anonymized host; and the score for each anonymized host; (iii) anonymized user experience data, including the last login time; the frequency of logins; and User Interface clickstream data; and (iv) interface data.
- b. Optional Metadata Access. As set forth in the Order or as Ordering Activity otherwise elects during the installation, configuration or use of the Products, VECTRA may (in addition to the Ordering Activity Traffic Data set forth in Section 00a) monitor and access nonidentifying session and detection metadata, including DNS, HTTP and session data; detection details; host ID mapping data; and precursors.
- c. Optional Virtual Private Network ("VPN") Access. As set forth in the Order or as Ordering Activity otherwise elects during the installation, configuration or use of the Products, VECTRA may (in addition to the Ordering Activity Traffic Data set forth in Sections 0a and 0b) receive VPN access to Ordering Activity's network, monitor and access packet capture data, and facilitate troubleshooting. 3.9 Data Access Consent. Ordering Activity acknowledges that the Products detect threats and attacks by monitoring Ordering Activity Data, and that the Products may be less effective in detecting threats, attacks, or other suspicious or unauthorized activity if the Products do not have adequate access to Ordering Activity Data. Ordering Activity authorizes and directs VECTRA to store, process, retrieve, and disclose Ordering Activity Data for the following purposes: (i) providing service to Ordering Activity; (ii) analyzing, maintaining and improving VECTRA's products and services; (iii) complying with legal, governmental or contractual terms or requirements, including without limitation good faith efforts to comply with such terms or requirements; (iv) making malicious or unwanted content anonymously available to its licensors for the purpose of further developing and enhancing VECTRA products and services; and (v) anonymously aggregating and statistically analyzing malicious or unwanted content. In addition, VECTRA may use Ordering Activity Administrative Data for the following purposes: (i) to inform Ordering Activity about products, seminars and services VECTRA believes may be of interest to you; (ii) to contact Ordering Activity if VECTRA needs to obtain or provide additional information; and (iii) to verify the accuracy of VECTRA's records. VECTRA may use web analytics and cookies as set forth in the VECTRA Privacy Policy attached.

3.10 Data Protection by Ordering Activity. Ordering Activity represents and warrants that Ordering Activity's use of the Products and Subscriptions complies with all applicable laws, including those related to data privacy, data security, and international communications and that Ordering Activity has obtained any and all consents necessary for VECTRA to engage in data processing under this Agreement. Submission or provision of Ordering Activity Data to VECTRA shall be at Ordering Activity's own risk, and VECTRA assumes no responsibility or liability for receipt of such Ordering Activity Data.

3.11 Reserved.

4 **Reserved.**

5 **Reserved.**

6 **Limited Warranty**

6.1 Limited Warranty. Hardware as delivered by VECTRA will be free from material defects in materials and workmanship for a period of ninety (90) days from the date of shipment. Ordering Activity's sole remedy, and VECTRA's exclusive liability, with respect to such warranty will be to repair, replace or provide a refund of the purchase price (at VECTRA's option) for the defective Hardware or portion thereof, subject to return within the applicable warranty period in accordance with VECTRA's return materials authorization (RMA) procedures and provided the defect is not due to accident; unusual physical, electrical or electromagnetic stress; neglect; modification, alteration or misuse; or failure to properly install, operate and maintain in accordance with the manufacturer's specifications. Software and Subscriptions are subject to maintenance as set forth in Exhibit A and not warranty. VECTRA does not warrant that Product will meet Ordering Activity's requirements or function uninterrupted or error free. EXCEPT AS EXPRESSLY SET FORTH ABOVE, PRODUCTS, SOFTWARE, HARDWARE, SUBSCRIPTIONS AND ANY SERVICES ARE "AS IS" AND WITHOUT WARRANTY OF ANY KIND, WHETHER EXPRESS OR IMPLIED, AND VECTRA SPECIFICALLY DISCLAIMS ANY IMPLIED WARRANTIES OF MERCHANTABILITY, NONINFRINGEMENT AND FITNESS FOR A PARTICULAR PURPOSE.

6.2 RMA Procedures. Prior to return of any Hardware, Ordering Activity will execute and report the results of any tests or diagnostics specified by VECTRA, confirm limited warranty status with VECTRA and obtain and affix an RMA number from VECTRA prior to shipment. Returns with RMA number are to be shipped by Ordering Activity, freight pre-paid, to VECTRA's designated return or repair facility, so that they are received within 2 weeks of obtaining the RMA number. Any Hardware found to be out-of-warranty, including any with a voided warranty, is subject to charges for processing and repair or replacement at VECTRA's then-current GSA Schedule Contract rates.

7 **Reserved.**

8 Reserved.

9 Export; FCPA. Products may not be exported without prior written consent of VECTRA. Ordering Activity warrants and hereby gives written assurance to VECTRA that Ordering Activity will comply with all U.S. and foreign export and re-export restrictions applicable to the Products, documentation and technical information provided hereunder. Company warrants that it shall comply with the Foreign Corrupt Practices Act (“FCPA”) in all dealings with, by, for or on behalf of VECTRA, and shall not offer, promise, give, demand, seek or accept, directly or indirectly, any gift or payment, consideration or benefit in kind that would or could be construed as an illegal or corrupt practice.

10 Reserved.

Vectra Networks privacy policy

This Privacy Policy is designed to assist you in understanding how we collect and use personal information related to our website www.vectranetworks.com. References to “Vectra,” “we,” “our” and “us” refer to Vectra Networks, Inc.

Registration Information

When you register to download content from Vectra, we may ask you to provide us with personal information that may include your name, company, job position, email address, and phone number.

We are committed to protecting your privacy. Authorized employees within the company on a need to know basis only use any information collected from individual visitors. We constantly review our systems and data to ensure the best possible service to our customers. We will not sell, share or rent your personal information to any third party.

User Communication

If you send us email or other communications, we may retain the content of your communications together with your email address and our responses.

We may send you information that we think you will find interesting. If you want to be removed from our mailing list at any time, you may opt out of these communications by contacting info@vectranetworks.com

EXHIBIT A

Maintenance Services

- Maintenance Term.** Maintenance service as set forth in this Exhibit A (“Maintenance Services”) commence on the Effective Date (or other applicable start date specified in the Order) and will continue until the end of the Subscription Term. If Ordering Activity elects not to renew Maintenance Services or fees are not kept current, Ordering Activity may re-enroll only upon prior written consent of VECTRA and payment of the applicable subscription fee for the coming period and all fees that would have been paid had Ordering Activity not discontinued Maintenance Services.
- Maintenance Services.** If Ordering Activity purchases such Maintenance Services, the following Maintenance Services will be made available during the applicable Subscription Term: (a) Updates released during the Subscription Term, and (b) Error resolution assistance for Errors in the Software reported by Ordering Activity during the Subscription Term, as further described below. Maintenance Services and Support will be provided only with respect to the then current version of the Software and only for active Subscriptions. VECTRA shall have no obligation to provide Maintenance Services or Support for: (i) altered or damaged Software or any portion of the Software incorporated with or into other software; (ii) Software or Subscription problems caused by Ordering Activity's negligence, abuse or misapplication, use of the Software or Subscriptions other than as specified in VECTRA's user manual or other causes beyond the control of VECTRA; or (iii) Software or Subscriptions installed or used on any hardware that is not supported by VECTRA. Support requests may be submitted online 24/7 at support.vectranetworks.com. For Error resolution assistance, VECTRA will use commercially reasonable efforts to correct any Error reported by Ordering Activity in the Software attributable to VECTRA, employing a level of effort commensurate with the severity of the Error, provided, however, that VECTRA shall have no obligation to correct all errors in the Software.
- Ordering Activity Responsibilities.** Ordering Activity is responsible for providing sufficient information and data to allow VECTRA to readily reproduce all reported Errors. If VECTRA believes that a problem reported by Ordering Activity may not be due to an Error in the Software or cannot be readily reproduced VECTRA will so notify Ordering Activity. Ordering Activity shall document and promptly report all Errors to VECTRA and take all steps necessary to carry out procedures for the rectification of Errors or malfunctions within a reasonable time after such procedures have been received from VECTRA.
- Certain Definitions.** For the purpose of this Exhibit only, the following terms shall have the following meanings:

“Error” means a reproducible programming error in the Software which significantly degrades the Software as compared to VECTRA’s published performance specifications. Correction may be provided by patch, correction in the next Update, work-around or avoidance procedure, or other resolution to remedy the Error.

“Support” means technical support telephone or email assistance provided by VECTRA to a designated Ordering Activity support contact during normal business hours concerning the installation and use of the Product.

“Update” means a maintenance release of the Software designated as such by VECTRA and released on a general, regularly scheduled basis as part of standard maintenance to VECTRA’s other maintenance customers for the same version of the Software without additional charge.

**EC America Rider to Product Specific License Terms and Conditions
(for U.S. Government End Users)**

1. **Scope.** This Rider and the attached **Veeam Software Corporation** (“Manufacturer”) product specific license terms establish the terms and conditions enabling EC America (“Contractor”) to provide Manufacturer’s information technology products and services to Ordering Activities under EC America’s GSA MAS IT70 contract number GS-35F-0511T (the “Schedule Contract”). Installation and use of the information technology shall be in accordance with this Rider and Manufacturer Specific Terms attached hereto, unless an Ordering Activity determines that it requires different terms of use and Manufacturer agrees in writing to such terms in a valid delivery order placed pursuant to the Schedule Contract.
2. **Applicability.** Whereas GSA and EC America agreed at the time of Schedule Contract award upon a base set of terms and conditions applicable to all manufacturers and items represented on the Schedule Contract; and Whereas, the parties further agreed that all product specific license, warranty and software maintenance terms and conditions would be submitted at the time each new manufacturer was to be added to the Schedule Contract; Now, Therefore, the parties hereby agree that the product specific license, warranty and software maintenance terms set forth in Attachment A hereto (the “Manufacturer Specific Terms” or the “Attachment A Terms”) are incorporated into the Schedule Contract, but only to the extent that they are consistent with federal law (e.g., the Anti-Deficiency Act (31 U.S.C. § 1341), the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 *et seq.*), the Prompt Payment Act (31 U.S.C. §§ 3901 *et seq.*), the Anti-Assignment statutes (31 U.S.C. § 3727 and 41 U.S.C. § 15), DOJ’s jurisdictional statute 28 U.S.C. § 516 (Conduct of Litigation Reserved to the Department of Justice (DOJ)), and 28 U.S.C. § 1498 (Patent and copyright cases)). To the extent any Attachment A Terms are inconsistent with federal law (See, FAR 12.212(a)), such inconsistent terms shall be superseded, unenforceable and of no legal force or effect in all resultant orders under the Schedule Contract, including but not limited to the following provisions:
 - a) **Contracting Parties.** The GSA Customer (“Licensee”) is the “Ordering Activity”, defined as the entity authorized to order under GSA MAS contracts as set forth in GSA ORDER ADM 4800.2G (Feb 2011), as may be revised from time to time.
 - b) **Changes to Work and Delays.** Subject to GSAR Clause 552.243-72, Modifications (Federal Supply Schedule) (July 2000) (Deviation I – SEPT 2010), and 52.212-4(f) Excusable Delays (JUN 2010) regarding which the GSAR and the FAR provisions take precedence.
 - c) **Contract Formation.** Subject to FAR 1.601(a) and FAR 43.102, the GSA Customer Purchase Order must be signed by a duly warranted Contracting Officer, in writing. The same requirement applies to contract modifications affecting the rights of the parties. All terms and conditions intended to bind the Government must be included within the contract signed by the Government.
 - d) **Termination.** Clauses in the Manufacturer Specific Terms referencing termination, suspension and/ or cancellation are superseded and not applicable to any GSA Customer order. Termination shall be governed by the FAR, the underlying GSA Schedule Contract and the terms in any applicable GSA Customer Purchase Orders. If the Contractor believes the GSA Customer to be in breach, it must file a claim with the Contracting Officer and continue to diligently pursue performance. In commercial item contracting under FAR 12.302(b), the FAR provisions dealing with disputes and continued performance cannot be changed by the Contracting Officer.
 - e) **Choice of Law.** Subject to the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 *et seq.*), the validity, interpretation and enforcement of this Rider shall be governed by and construed in accordance with the federal laws of the United States. In the event the Uniform Computer Information Transactions Act (UCITA) or any similar federal laws or regulations are enacted, to the extent allowed by federal law, they will not apply to this Rider or the underlying Schedule Contract.
 - f) **Equitable remedies.** Equitable remedies are generally not awarded against the Government absent an express statute providing therefore. In the absence of a direct citation to such a statute, all clauses in the Manufacturer Specific Terms referencing equitable remedies are superseded and not applicable to any GSA Customer order.
 - g) **Unilateral Termination.** Unilateral termination by the Contractor does not apply to a GSA Customer Purchase Order and all clauses in the Manufacturer Specific Terms referencing unilateral termination rights of the Manufacturer are hereby superseded.
 - h) **Unreasonable Delay.** Subject to FAR 52.212-4(f) Excusable delays, the Contractor shall be liable for default unless the nonperformance is caused by an occurrence beyond the reasonable control of the Contractor and without its fault or negligence such as, acts of God or the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, unusually severe weather, and delays of common carriers. The Contractor shall notify the Contracting Officer in writing as soon as it is reasonably possible after commencement of any excusable delay, setting forth the full particulars in connection therewith, shall remedy such occurrence with all reasonable dispatch and shall promptly give written notice to the Contracting Officer of the cessation of such occurrence.
 - i) **Assignment.** All clauses regarding the Contractor’s assignment are subject to FAR 52.232-23, Assignment of Claims (JAN 1986) and FAR 42.12 Novation and Change-of-Name Agreements (Sep. 2013). All clauses governing the Contractor’s assignment in the Manufacturer Specific Terms are hereby superseded.
 - j) **Waiver of Jury Trial.** Waivers of Jury Trials are subject to FAR 52.233-1 Disputes (JULY 2002). The Government will not agree to waive any right that it may have under federal law. All clauses governing a waiver of jury trial in the Manufacturer Specific Terms are hereby superseded.

- k) **Government Indemnities.** This is an obligation in advance of an appropriation that violates anti-deficiency laws (31 U.S.C. § 1341 and 41 U.S.C. § 6301), since the GSA Customer commits to pay an unknown amount at an unknown future time. The violation occurs when the commitment is made, i.e., when the agreement featuring this clause is incorporated into a Government contract, and not when the clause is triggered. The FAR 12.216 prohibit such indemnifications. All Manufacturer Specific Terms referencing customer indemnities are hereby superseded.
- l) **Contractor Indemnities.** All Manufacturer Specific Terms that violate DOJ's jurisdictional statute (28 U.S.C. § 516) by requiring that the Government give sole control over the litigation and/or settlement to the Contractor are hereby superseded. Nothing contained in the Manufacturer's Specific terms shall be construed in derogation of the U.S. Department of Justice's right to defend any claim or action brought against the U.S., pursuant to its jurisdictional statute.
- m) **Renewals.** All Manufacturer Specific Terms that provide for automatic renewals violate the Anti-Deficiency Act and are hereby superseded. This is an obligation in advance of an appropriation that violates anti-deficiency laws (31 U.S.C. § 1341 and 41 U.S.C. § 6301), since the GSA Customer commits to pay an unknown amount at an unknown future time. The violation occurs when the commitment is made, i.e., when the agreement featuring this clause is incorporated into a Government contract, and not when the clause is triggered.
- n) **Future Fees or Penalties.** All Manufacturer Specific Terms that require the Government to pay any future fees, charges or penalties are hereby superseded unless specifically authorized by existing statutes, such as the Prompt Payment Act (31 U.S.C. § 3901 et seq.) or Equal Access To Justice Act (5 U.S.C. § 504; 28 U.S.C. § 2412).
- o) **Taxes.** Taxes are subject to FAR 52.212-4(k), which provides that the contract price includes all applicable federal, state, local taxes and duties. Notwithstanding the foregoing, Contractor shall state separately on its invoices, taxes excluded from the fees, and the GSA Customer agrees to either pay the amount of the taxes (based on the current value of the equipment or services) to Contractor or provide it evidence necessary to sustain an exemption, in accordance with FAR 52.229-1 and FAR 52.229-3.
- p) **Third Party Terms.** When the end user is an instrumentality of the U.S., no license terms bind the GSA Customer unless included verbatim (not by reference) in the EULA, and the EULA is made an attachment to the underlying GSA Schedule Contract. All terms and conditions affecting the GSA Customer must be contained in a writing signed by a duly warranted Contracting Officer. Any third party manufacturer shall be brought into the negotiation, or the components acquired separately under federally-compatible agreements, if any. All Manufacturer Specific Terms that incorporate third party terms by reference are hereby superseded.
- q) **Dispute Resolution and Standing.** Any disputes relating to the Manufacturer Specific Terms or to this Rider shall be resolved in accordance with the FAR, the underlying GSA Schedule Contract, any applicable GSA Customer Purchase Orders, and the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 et seq.). The Ordering Activity expressly acknowledges that EC America as contractor, on behalf of the Manufacturer, shall have standing to bring such claim under the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 et seq.).
- r) **Advertisements and Endorsements.** Pursuant to GSAR 552.203-71, use of the name or logo of any U.S. Government entity is prohibited. All Manufacturer Specific Terms that allow the Contractor to use the name or logo of a Government entity are hereby superseded.
- s) **Public Access to Information.** EC America agrees that the attached Manufacturer Specific Terms and this Rider contain no confidential or proprietary information and acknowledges the Rider shall be available to the public.
- t) **Confidentiality.** Any provisions in the attached Manufacturer Specific Terms that require the Ordering Activity to keep certain information confidential are subject to the Freedom of Information Act (5 U.S.C. § 552), and any order by a United States Federal Court. When the end user is an instrumentality of the U.S. Government, neither this Rider, the Manufacturer's Specific Terms nor the Schedule Price List shall be deemed "confidential information" notwithstanding marking to that effect. Notwithstanding anything in this Rider, the Manufacturer's Specific Terms or the Schedule Contract to the contrary, the GSA Customer may retain such Confidential Information as required by law, regulation or its bonafide document retention procedures for legal, regulatory or compliance purposes; provided however, that such retained Confidential Information will continue to be subject to the confidentiality obligations of this Rider, the Manufacturer's Specific Terms and the Schedule Contract.
- u) **Alternate Dispute Resolution.** The GSA Customer cannot be forced to mediate or arbitrate. Arbitration requires prior guidance by the head of a federal agency promulgated via administrative rulemaking according to 5 U.S.C. § 575(c). GSA has not issued any because it considers the Board of Contract Appeals to be an adequate, binding ADR alternative. All Manufacturer Specific Terms that allow the Contractor to choose arbitration, mediation or other forms of alternate dispute resolution are hereby superseded.
- v) **Ownership of Derivative Works.** Provisions purporting to vest exclusive ownership of all derivative works in the licensor of the standard software on which such works may be based are superseded. Ownership of derivative works should be as set forth in the copyright statute, 17 U.S.C. § 103 and the FAR clause at 52.227-14, but at a minimum, the GSA Customer shall receive unlimited rights to use such derivative works at no further cost.
- 3. Order of Precedence/Conflict.** To the extent there is a conflict between the terms of this Rider and the terms of the underlying Schedule Contract or a conflict between the terms of this Rider and the terms of an applicable GSA Customer Purchase Order, the terms of the GSA Schedule Contract or any specific, negotiated terms on the GSA Customer Purchase Order shall control over the terms of this Rider. Any capitalized terms used herein but not defined, shall have the meaning assigned to them in the underlying Schedule Contract.

**ATTACHMENT A
CONTRACTOR SUPPLEMENTAL PRICELIST INFORMATION AND TERMS**

VEEAM SOFTWARE CORPORATION

VEEAM SOFTWARE CORPORATION LICENSE, WARRANTY AND SUPPORT TERMS

Important - Read Carefully

This EULA is a legally binding agreement between licensee end user ("End User") and Veeam setting forth the terms and conditions governing the use and operation of Veeam's proprietary computer software products (the "Software") and the written technical specifications for the use and operation of the Software (the "Documentation"). Where the sense and context permit, references in this EULA to the Software include the Documentation. By downloading and installing, copying or otherwise using the Software, and/or otherwise accepting this EULA, End User agrees to be bound by the terms and conditions of this EULA. If End User does not agree to or accept the terms of this EULA, End User may not access or use the Software.

1.0 Definitions

1.1 "Fee(s)" means any License, Maintenance, professional services, consulting or other Fees agreed to by the parties as set forth in a Transaction Document.

1.2 "Maintenance" and "Maintenance Policies" have the respective meanings set forth in Section 7.0.

1.3 "Transaction" and "Transaction Document" have the following meanings: "Transaction(s)" is a License transaction pursuant to which End User: i) accepts this EULA as provided above and ii) takes actual or constructive possession of the Software. A Transaction may take place by any lawful means, electronically or in writing, and may be confirmed by a) purchase orders, credit orders, commitment letters, license keys, amendments to this EULA or other similar materials, signed or unsigned, (each a "Transaction Document(s)"), or b) by the conduct of the affected parties. A Transaction may be initiated and implemented by any entity that is directly or indirectly a party to it, including End User, Veeam, or authorized third party distributors, dealers, and/or other resellers of the Software. A Transaction Document may contain usage, business, legal and other terms and conditions agreed to by the parties. The foregoing notwithstanding, each Transaction will require that: i) this EULA be accepted by End User and ii) End User obtains actual or constructive possession of the Software. In the event of a conflict or inconsistency between the terms and conditions of this EULA and those set forth in a Transaction Document, the terms and conditions of this EULA will govern and control.

1.4 "Open Source" means various open source software components licensed under the terms of applicable open source license agreements included in the materials relating to such software. Open Source Software is composed of individual software components, each of which has its own copyright and its own applicable license conditions. A current list of Open Source Software used by Veeam can be found at <http://www.veeam.com/eula-oss.html>.

2.0 Grant of License

2.1 License Grant. When the Software is delivered to End User as part of a Transaction, End User will have, subject to the terms and conditions of this EULA, a perpetual, non-transferable, non-exclusive, license ("License"), to use the Software in object code format, solely for government purpose for the management and processing of its own data and not the data of any third party(ies). Veeam Software License is perpetual, unless the Software is delivered to End User as part of a Transaction on a non-perpetual basis for a defined period, in such case, the End User's right to use such Software will cease on the end date of the defined period.

The data processing restriction set forth in the preceding paragraph will not apply to End User if End User a) has been accepted by Veeam, under "Veeam Cloud Provider Program" at <http://www.veeam.com/veeam-cloud-providers.html> and b) has accessed and is utilizing the Software with a stock-keeping unit number that designates End User as a "Cloud Provider" or similar description, thus authorizing End User to utilize the Software to perform systems management services for its customers.

3.0 Additional Terms

Nothing contained in this EULA is intended to prohibit or restrict the parties from mutually agreeing to enter into separate terms and conditions that i) modify or supplement the terms and conditions (including business and/or financial terms) of this i) EULA or the License granted to End User pursuant to this EULA; or ii) create or modify the terms a particular Transaction.

4.0 Evaluation License

A License designated as an "Evaluation" License in a Transaction Document authorizes End User to use one (1) copy of the Software for a 30 day period for non-production evaluation or demonstration purposes only.

5.0 Not for Resale License

A License designated as a "Not for Resale" License in a Transaction Document authorizes End User to use one (1) copy of the Software with full functionality for evaluation or demonstration purposes only, and for a defined period of time.

6.0 Limited Term License

A license designated as a "Limited Term" License in a Transaction Document authorizes End User to use one (1) copy of the Software in production environment at End User's site for a defined period of time. The defined period for a "Limited Term" License commences immediately upon generation of the license key.

7.0 Maintenance

Maintenance and support ("Maintenance") for the Software will be available in accordance with Veeam's applicable Maintenance Policies then in effect and shall commence on delivery of the Software. Provided End User is current on Maintenance, End User will receive (a) online support and (b) any Software updates, enhancements and/or improvements that are included or otherwise separately defined under the Maintenance Policies and are not licensed by Veeam at its discretion to its customers for a separate charge. Veeam's current Maintenance Policies can be found at <http://www.veeam.com/support.html>.

8.0 Copyright and Other Restrictions

The Software is protected by copyright laws and international copyright treaties, as well as other intellectual property laws and treaties. The Software is licensed, not sold. The Software contains copyrighted material, trade secrets and other proprietary material of Veeam. All right, title and interest in the Software remains at all times with Veeam. In no event will End User directly or indirectly permit the Software to be decompiled, reverse engineered, or disassembled. End User will not disclose, transfer or otherwise make available the Software, or the results of any benchmark or other tests of the Software, to any third party without the prior written consent of Veeam. End User shall not remove any proprietary notices from the Software. End User may make one copy of the Software solely for backup or archival purposes.

9.0 Limited Warranty and Limitation of Liability

Veeam warrants that it has the right and authority to grant the License under this EULA. Veeam will defend or, at its option, settle any action against End User based upon a claim that its use of the Software infringes any patent, copyright or other intellectual property right of a third party, and will indemnify End User against any amounts awarded against End User as a result of the claim, provided Veeam is promptly notified of the assertion of the claim and has control of its defense or settlement. Veeam warrants that the Software, in its unmodified form as initially delivered or made available to End User, will perform substantially in accordance with the Documentation for a warranty period of ninety (90) days from the date the Software is delivered to End User. In the event the Software fails in a material respect to operate in accordance with the Documentation during the warranty period and Veeam is unable to correct the defect, Veeam's sole and exclusive liability and End User's sole and exclusive remedy shall be a refund of the License fee, if any, paid by End User for the Software. The foregoing limited warranty will not apply if failure of the Software is the result of damage or misuse caused by End User.

EXCEPT FOR THE LIMITED WARRANTY SET FORTH ABOVE, THE SOFTWARE IS PROVIDED "AS IS", WITHOUT WARRANTY OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION ANY IMPLIED WARRANTY THAT THE SOFTWARE IS FREE OF DEFECTS, MERCHANTABILITY OR FIT FOR A PARTICULAR PURPOSE. NO ORAL OR WRITTEN INFORMATION OR ADVICE GIVEN BY VEEAM OR ANY THIRD PARTY, INCLUDING, WITHOUT LIMITATION, ANY VEEAM DISTRIBUTORS OR RESELLERS, SHALL CREATE ANY WARRANTY IN ADDITION TO, OR IN ANY WAY INCREASE THE SCOPE OF, THE LIMITED WARRANTY.

In no event will Veeam, its affiliates, resellers, or distributors or suppliers be liable for any indirect, special, incidental or consequential damages arising out of the use of or inability to use the Software, including, without limitation, damages for lost profits, loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses, even if advised of the possibility thereof.

10.0 Assignment

Except in the event of a sale or transfer by Veeam of all or substantially all of its assets or voting securities, neither party will assign all or any portion of its rights or obligations under this EULA to any third party without the prior written consent of the other party.

11.0 U.S. Government End Users

Use, duplication, or disclosure of the Software to or by the U. S. Government is subject to the provisions and restrictions as set forth in FAR 52.227-14 and FAR 52.227-19, or equivalent restrictions and provisions as set forth in DFAR 252.227-7013 and DFAR 252.227-7014.

12.0 General

This Agreement sets forth Veeam's entire obligation and End User's exclusive rights with respect to the Software and, except to the extent otherwise specifically provided in a purchase order or other written communication or advertising signed or jointly issued by both parties with respect to the Software, supersedes any conflicting terms of any purchase order and any other communication or advertising with respect to the Software. No failure of either party to exercise or enforce any of its rights under this EULA will act as a waiver of those rights. If any provision of this EULA is found illegal or unenforceable, it will be enforced to the maximum extent permissible, and the legality and enforceability of the other provisions of this EULA will not be affected. To the extent not preempted by federal law or regulation, this EULA will be governed by the laws of the State of Ohio, without regard to its choice of law principles. The United Nations Convention for the International Sale of Goods will not apply.

13.0 Export Controls

The Software is subject to U.S. Export Administration Regulations. Veeam prohibits any export or re-export of Veeam Software products, services, or technical data to any destinations subject to U.S. embargoes or trade sanctions, except in compliance with the United States Export Administration Act and the related rules and regulations and similar non-U.S. government restrictions, if applicable. End User agrees not to use or make available the Software to or on behalf of any person that is a citizen, national, or resident of, or that is controlled by the government of the countries with which the U.S. may prohibit export transactions. The following countries are subject to the United States embargo or restricted trade sanctions: **Burma (Myanmar), Cuba, Iran, North Korea, the Republic of South Sudan, the Republic of the Sudan, Syria**, or any other country with which the United States may prohibit export transactions.

4440 PGA Boulevard Suite 500
Palm Beach Gardens FL 33410

**EC America Rider to Product Specific License Terms and Conditions
(for U.S. Government End Users)**

1. **Scope.** This Rider and the attached **Veriato** (“Manufacturer”) product specific license terms establish the terms and conditions enabling EC America (“Contractor”) to provide Manufacturer’s information technology products and services to Ordering Activities under EC America’s GSA MAS IT70 contract number GS-35F-0511T (the “Schedule Contract”). Installation and use of the information technology shall be in accordance with this Rider and Manufacturer Specific Terms attached hereto, unless an Ordering Activity determines that it requires different terms of use and Manufacturer agrees in writing to such terms in a valid delivery order placed pursuant to the Schedule Contract.

2. **Applicability.** Whereas GSA and EC America agreed at the time of Schedule Contract award upon a base set of terms and conditions applicable to all manufacturers and items represented on the Schedule Contract; and Whereas, the parties further agreed that all product specific license, warranty and software maintenance terms and conditions would be submitted at the time each new manufacturer was to be added to the Schedule Contract; Now, Therefore, the parties hereby agree that the product specific license, warranty and software maintenance terms set forth in Attachment A hereto (the “Manufacturer Specific Terms” or the “Attachment A Terms”) are incorporated into the Schedule Contract, but only to the extent that they are consistent with federal law (e.g., the Anti-Deficiency Act (31 U.S.C. § 1341), the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 *et seq.*), the Prompt Payment Act (31 U.S.C. §§ 3901 *et seq.*), the Anti-Assignment statutes (31 U.S.C. § 3727 and 41 U.S.C. § 15), DOJ’s jurisdictional statute 28 U.S.C. § 516 (Conduct of Litigation Reserved to the Department of Justice (DOJ), and 28 U.S.C. § 1498 (Patent and copyright cases)). To the extent any Attachment A Terms are inconsistent with federal law (See, FAR 12.212(a)), such inconsistent terms shall be superseded, unenforceable and of no legal force or effect in all resultant orders under the Schedule Contract, including but not limited to the following provisions:
 - w) **Contracting Parties.** The GSA Customer (“Licensee”) is the “Ordering Activity”, defined as the entity authorized to order under GSA MAS contracts as set forth in GSA ORDER ADM 4800.2G (Feb 2011), as may be revised from time to time.
 - x) **Changes to Work and Delays.** Subject to GSAR Clause 552.243-72, Modifications (Federal Supply Schedule) (July 2000) (Deviation I – SEPT 2010), and 52.212-4(f) Excusable Delays (JUN 2010) regarding which the GSAR and the FAR provisions take precedence.
 - y) **Contract Formation.** Subject to FAR 1.601(a) and FAR 43.102, the GSA Customer Purchase Order must be signed by a duly warranted Contracting Officer, in writing. The same requirement applies to contract modifications affecting the rights of the parties. All terms and conditions intended to bind the Government must be included within the contract signed by the Government.
 - z) **Termination.** Clauses in the Manufacturer Specific Terms referencing termination, suspension and/ or cancellation are superseded and not applicable to any GSA Customer order. Termination shall be governed by the FAR, the underlying GSA Schedule Contract and the terms in any applicable GSA Customer Purchase Orders. If the Contractor believes the GSA Customer to be in breach, it must file a claim with the Contracting Officer and continue to diligently pursue performance. In commercial item contracting under FAR 12.302(b), the FAR provisions dealing with disputes and continued performance cannot be changed by the Contracting Officer.
 - aa) **Choice of Law.** Subject to the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 *et seq.*), the validity, interpretation and enforcement of this Rider shall be governed by and construed in accordance with the federal laws of the United States. In the event the Uniform Computer Information Transactions Act (UCITA) or any similar federal laws or regulations are enacted, to the extent allowed by federal law, they will not apply to this Rider or the underlying Schedule Contract.
 - bb) **Equitable remedies.** Equitable remedies are generally not awarded against the Government absent an express statute providing therefore. In the absence of a direct citation to such a statute, all clauses in the Manufacturer Specific Terms referencing equitable remedies are superseded and not applicable to any GSA Customer order.
 - cc) **Unilateral Termination.** Unilateral termination by the Contractor does not apply to a GSA Customer Purchase Order and all clauses in the Manufacturer Specific Terms referencing unilateral termination rights of the Manufacturer are hereby superseded.
 - dd) **Unreasonable Delay.** Subject to FAR 52.212-4(f) Excusable delays, the Contractor shall be liable for default unless the nonperformance is caused by an occurrence beyond the reasonable control of the Contractor and without its fault or negligence such as, acts of God or the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, unusually severe weather, and delays of common carriers. The Contractor shall notify the Contracting Officer in writing as soon as it is reasonably possible after commencement of any excusable delay, setting forth the full particulars in connection therewith, shall remedy such occurrence with all reasonable dispatch and shall promptly give written notice to the Contracting Officer of the cessation of such occurrence.
 - ee) **Assignment.** All clauses regarding the Contractor’s assignment are subject to FAR 52.232-23, Assignment of Claims (JAN 1986) and FAR 42.12 Novation and Change-of-Name Agreements (Sep. 2013). All clauses governing the Contractor’s assignment in the Manufacturer Specific Terms are hereby superseded.
 - ff) **Waiver of Jury Trial.** Waivers of Jury Trials are subject to FAR 52.233-1 Disputes (JULY 2002). The Government will not agree to waive any right that it may have under federal law. All clauses governing a waiver of jury trial in the Manufacturer Specific Terms are hereby superseded.
 - gg) **Government Indemnities.** This is an obligation in advance of an appropriation that violates anti-deficiency laws (31 U.S.C. § 1341 and 41 U.S.C. § 6301), since the GSA Customer commits to pay an unknown amount at an unknown future time. The

violation occurs when the commitment is made, i.e., when the agreement featuring this clause is incorporated into a Government contract, and not when the clause is triggered. The FAR 12.216 prohibit such indemnifications. All Manufacturer Specific Terms referencing customer indemnities are hereby superseded.

- hh) **Contractor Indemnities.** All Manufacturer Specific Terms that violate DOJ's jurisdictional statute (28 U.S.C. § 516) by requiring that the Government give sole control over the litigation and/or settlement to the Contractor are hereby superseded. Nothing contained in the Manufacturer's Specific terms shall be construed in derogation of the U.S. Department of Justice's right to defend any claim or action brought against the U.S., pursuant to its jurisdictional statute.
- ii) **Renewals.** All Manufacturer Specific Terms that provide for automatic renewals violate the Anti-Deficiency Act and are hereby superseded. This is an obligation in advance of an appropriation that violates anti-deficiency laws (31 U.S.C. § 1341 and 41 U.S.C. § 6301), since the GSA Customer commits to pay an unknown amount at an unknown future time. The violation occurs when the commitment is made, i.e., when the agreement featuring this clause is incorporated into a Government contract, and not when the clause is triggered.
- jj) **Future Fees or Penalties.** All Manufacturer Specific Terms that require the Government to pay any future fees, charges or penalties are hereby superseded unless specifically authorized by existing statutes, such as the Prompt Payment Act (31 U.S.C. § 3901 et seq.) or Equal Access To Justice Act (5 U.S.C. § 504; 28 U.S.C. § 2412).
- kk) **Taxes.** Taxes are subject to FAR 52.212-4(k), which provides that the contract price includes all applicable federal, state, local taxes and duties. Notwithstanding the foregoing, Contractor shall state separately on its invoices, taxes excluded from the fees, and the GSA Customer agrees to either pay the amount of the taxes (based on the current value of the equipment or services) to Contractor or provide it evidence necessary to sustain an exemption, in accordance with FAR 52.229-1 and FAR 52.229-3.
- ll) **Third Party Terms.** When the end user is an instrumentality of the U.S., no license terms bind the GSA Customer unless included verbatim (not by reference) in the EULA, and the EULA is made an attachment to the underlying GSA Schedule Contract. All terms and conditions affecting the GSA Customer must be contained in a writing signed by a duly warranted Contracting Officer. Any third party manufacturer shall be brought into the negotiation, or the components acquired separately under federally-compatible agreements, if any. All Manufacturer Specific Terms that incorporate third party terms by reference are hereby superseded.
- mm) **Dispute Resolution and Standing.** Any disputes relating to the Manufacturer Specific Terms or to this Rider shall be resolved in accordance with the FAR, the underlying GSA Schedule Contract, any applicable GSA Customer Purchase Orders, and the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 et seq.). The Ordering Activity expressly acknowledges that EC America as contractor, on behalf of the Manufacturer, shall have standing to bring such claim under the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 et seq.).
- nn) **Advertisements and Endorsements.** Pursuant to GSAR 552.203-71, use of the name or logo of any U.S. Government entity is prohibited. All Manufacturer Specific Terms that allow the Contractor to use the name or logo of a Government entity are hereby superseded.
- oo) **Public Access to Information.** EC America agrees that the attached Manufacturer Specific Terms and this Rider contain no confidential or proprietary information and acknowledges the Rider shall be available to the public.
- pp) **Confidentiality.** Any provisions in the attached Manufacturer Specific Terms that require the Ordering Activity to keep certain information confidential are subject to the Freedom of Information Act (5 U.S.C. § 552), and any order by a United States Federal Court. When the end user is an instrumentality of the U.S. Government, neither this Rider, the Manufacturer's Specific Terms nor the Schedule Price List shall be deemed "confidential information" notwithstanding marking to that effect. Notwithstanding anything in this Rider, the Manufacturer's Specific Terms or the Schedule Contract to the contrary, the GSA Customer may retain such Confidential Information as required by law, regulation or its bonafide document retention procedures for legal, regulatory or compliance purposes; provided however, that such retained Confidential Information will continue to be subject to the confidentiality obligations of this Rider, the Manufacturer's Specific Terms and the Schedule Contract.
- qq) **Alternate Dispute Resolution.** The GSA Customer cannot be forced to mediate or arbitrate. Arbitration requires prior guidance by the head of a federal agency promulgated via administrative rulemaking according to 5 U.S.C. § 575(c). GSA has not issued any because it considers the Board of Contract Appeals to be an adequate, binding ADR alternative. All Manufacturer Specific Terms that allow the Contractor to choose arbitration, mediation or other forms of alternate dispute resolution are hereby superseded.
- rr) **Ownership of Derivative Works.** Provisions purporting to vest exclusive ownership of all derivative works in the licensor of the standard software on which such works may be based are superseded. Ownership of derivative works should be as set forth in the copyright statute, 17 U.S.C. § 103 and the FAR clause at 52.227-14, but at a minimum, the GSA Customer shall receive unlimited rights to use such derivative works at no further cost.

3. Order of Precedence/Conflict. To the extent there is a conflict between the terms of this Rider and the terms of the underlying Schedule Contract or a conflict between the terms of this Rider and the terms of an applicable GSA Customer Purchase Order, the terms of the GSA Schedule Contract or any specific, negotiated terms on the GSA Customer Purchase Order shall control over the terms of this Rider. Any capitalized terms used herein but not defined, shall have the meaning assigned to them in the underlying Schedule Contract.

**ATTACHMENT A
CONTRACTOR SUPPLEMENTAL PRICELIST INFORMATION AND TERMS**

VERIATO

VERIATO LICENSE, WARRANTY AND SUPPORT TERMS

Details of the software licensed and Maintenance (defined below) should be provided on an order. Usage rights and other terms are defined in Exhibit A – Product Guides. The software, updates, documentation, and license serial number (Software) provided under an order, are licensed and are not sold.

1. TRIAL LICENSE. If the Software is provided without the payment of a license fee, then it is provided under a trial license. Veriato grants Ordering Activity a non-exclusive term license to operate the Software for the sole purposes of deciding whether it wants to purchase a license. The Software is provided AS IS, with no warranty during this time period.

2. LICENSE GRANT. Subject to the other terms of this agreement, Veriato grants Ordering Activity, under an order, a non-exclusive and non-transferable perpetual license up to the license capacity purchased to: operate the Software in its business operations and make one copy of the Software for archival and backup purposes.

3. RESTRICTIONS AND OWNERSHIP. Ordering Activity cannot:

- Sublicense, rent or lease the Software or use it as a service provider or as part of a service;
- Reverse engineer (except to the extent expressly permitted by applicable law despite this limitation), decompile, or disassemble the Software; or
- Copy any features, functions or graphics of the Software to develop a competitive product.
- Utilize the software for the purposes of competitive analysis or for any other purpose outside of Ordering Activity's normal business operations.

Ordering Activity is entitled only to those rights as are expressly granted by this agreement. Veriato retains all ownership and intellectual property rights in and to the Software.

4. RESERVED.

5. RESERVED.

6. WARRANTY DISCLAIMER. THE SOFTWARE IS PROVIDED 'AS IS.' VERIATO DISCLAIMS ALL EXPRESS AND IMPLIED WARRANTIES, INCLUDING, WITHOUT LIMITATION, ANY WARRANTY THAT SOFTWARE WILL BE UNINTERRUPTED OR ERROR FREE, AND THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

7. RESERVED.

8. RESERVED.

9. ANNUAL MAINTENANCE. If Ordering Activity purchases the Software technical support and update service for a fee (Maintenance), then the following will apply. Details on the Maintenance programs are located <http://www.Veriato.com/support/> FOR INFORMATIONAL PURPOSES ONLY.

10. RESERVED.

11. U.S. GOVERNMENT RESTRICTED RIGHTS. The Software is provided with RESTRICTED RIGHTS. Use, duplication, or disclosure by the U.S. government or any agency thereof is subject to restrictions as set forth in subparagraph (c)(1)(ii) of the Rights in Technical Data and Computer Software clause at DFARS 252.227-7013 or subparagraphs (c)(1) and (2) of the Commercial Computer Software Restricted Rights at 48 C.F.R. 52.227-19, as applicable. manufacturer is: Veriato Corporation, 1555 Indian River Blvd., Building B-210, Vero Beach, FL 32960.

12. RESERVED.

13. EXPORT LAWS. Ordering Activity agrees not to import, export, re-export, or transfer, directly or indirectly, any part of the Software or any underlying information or technology except in full compliance with all United States, foreign and other applicable laws and regulations.

14. RESERVED.

Exhibit A - Product Guide

This Product Guide states the usage rights and other terms associated with each Veriato product that Ordering Activity has purchased (the "Product Terms").

Here is how you find the Product Terms for Ordering Activity's products:

1. Determine the License Duration. It can be found in the Description field on the Quote, Order Form, or other Agreement. For Online Purchases, the license type is found in the Product Name. The License Duration will either be:
 - Perpetual
 - Term
 - Subscription

For more information about License Duration, see the License Duration table below.

2. Determine the License Category. It can be found in the Description field on the Quote, Order Form, or other Agreement. For Online Purchases, the license type is found in the Product Name. An example is Spector360 Per Monitored End Point. The License Category is Monitored End Point.

For more information about License Category, see the License Category table below.

License Duration Table

License Duration	Description
Perpetual	The license will never expire. The Product can be upgraded to the latest version within the active maintenance period.
Term	The license is granted for a fixed period of time and may not be moved from computer to computer except in cases where a currently licensed computer or device is taken out of service. When the license expires at the end of the time period, recording will cease unless a new license is applied.
Subscription	The license is granted for a fixed period of time. When the license expires at the end of the time period, the product will cease to operate, and access to data or reporting will no longer be available.

License Category Table

License Category	Description
Monitored End Point	Each computer or device to be monitored. These licenses may not be moved from computer to computer except in cases where a currently licensed computer or device is taken out of service.
Session Host	Each server or machine hosting thin client computing sessions and/or virtual desktops (for example, by using Citrix, Microsoft, VMware or similar visualization software products or service) to be monitored. These licenses may not be moved from Session Host to Session Host, except in cases where the initially licensed Session Host is taken out of service.
Node	Each unique IP address and/or hostname that is monitored, scanned, or otherwise managed by the Software.
Host	Each server or desktop computer that has an instance of the Software installed on it.

License Category Table

License Category	Description
Floating	Once client software has been installed on a computer, the license may be transferred to another computer, as long as the total count of licenses for client computers does not exceed the number of floating licenses purchased.
Device	Each PC, Mac, Tablet, or Smartphone the Software is installed on. These licenses may not be moved from Device to Device, except in cases where the device is taken out of service.

Ordering Activity is hereby notified that the Software may collect certain information from the Ordering Activity and transmit such information back to Veriato. Such information may include, without limitation, statistics relating to how often the Software and tools are started and completed, the duration of use of the Software, performance metrics relating to the Software, and Software configuration settings.

In addition, Ordering Activity is hereby notified that (1) the Software may require a registration process whereby machine specific identifiers (that have been encrypted and are unique but anonymous) such as the username and email address for the user are transmitted to Veriato's licensing server to allow Veriato to generate a unique key that is bound to the specific computer on which the Software may be used, (2) the Software may communicate with Veriato's servers and allow Ordering Activity to download updates when they are available, (3) the Software may provide a 'Feedback' facility that allows Ordering Activity to send suggestions and ideas for improving the Software ("Feedback"), (4) the Software may include a mechanism to transmit information to Veriato regarding unhandled exceptions, and (5) the Software may make connections to Veriato servers to verify license validity.

**EC America Rider to Product Specific License Terms and Conditions
(for U.S. Government End Users)**

1. **Scope.** This Rider and the attached **Wynyard** (“Manufacturer”) product specific license terms establish the terms and conditions enabling EC America (“Contractor”) to provide Manufacturer’s information technology products and services to Ordering Activities under EC America’s GSA MAS IT70 contract number GS-35F-0511T (the “Schedule Contract”). Installation and use of the information technology shall be in accordance with this Rider and Manufacturer Specific Terms attached hereto, unless an Ordering Activity determines that it requires different terms of use and Manufacturer agrees in writing to such terms in a valid delivery order placed pursuant to the Schedule Contract.
2. **Applicability.** Whereas GSA and EC America agreed at the time of Schedule Contract award upon a base set of terms and conditions applicable to all manufacturers and items represented on the Schedule Contract; and Whereas, the parties further agreed that all product specific license, warranty and software maintenance terms and conditions would be submitted at the time each new manufacturer was to be added to the Schedule Contract; Now, Therefore, the parties hereby agree that the product specific license, warranty and software maintenance terms set forth in Attachment A hereto (the “Manufacturer Specific Terms” or the “Attachment A Terms”) are incorporated into the Schedule Contract, but only to the extent that they are consistent with federal law (e.g., the Anti-Deficiency Act (31 U.S.C. § 1341), the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 *et seq.*), the Prompt Payment Act (31 U.S.C. §§ 3901 *et seq.*), the Anti-Assignment statutes (31 U.S.C. § 3727 and 41 U.S.C. § 15), DOJ’s jurisdictional statute 28 U.S.C. § 516 (Conduct of Litigation Reserved to the Department of Justice (DOJ)), and 28 U.S.C. § 1498 (Patent and copyright cases)). To the extent any Attachment A Terms are inconsistent with federal law (See, FAR 12.212(a)), such inconsistent terms shall be superseded, unenforceable and of no legal force or effect in all resultant orders under the Schedule Contract, including but not limited to the following provisions:
 - a) **Contracting Parties.** The GSA Customer (“Licensee”) is the “Ordering Activity”, defined as the entity authorized to order under GSA MAS contracts as set forth in GSA ORDER ADM 4800.2G (Feb 2011), as may be revised from time to time.
 - b) **Changes to Work and Delays.** Subject to GSAR Clause 552.243-72, Modifications (Federal Supply Schedule) (July 2000) (Deviation I – SEPT 2010), and 52.212-4(f) Excusable Delays (JUN 2010) regarding which the GSAR and the FAR provisions take precedence.
 - c) **Contract Formation.** Subject to FAR 1.601(a) and FAR 43.102, the GSA Customer Purchase Order must be signed by a duly warranted Contracting Officer, in writing. The same requirement applies to contract modifications affecting the rights of the parties. All terms and conditions intended to bind the Government must be included within the contract signed by the Government.
 - d) **Termination.** Clauses in the Manufacturer Specific Terms referencing termination, suspension and/ or cancellation are superseded and not applicable to any GSA Customer order. Termination shall be governed by the FAR, the underlying GSA Schedule Contract and the terms in any applicable GSA Customer Purchase Orders. If the Contractor believes the GSA Customer to be in breach, it must file a claim with the Contracting Officer and continue to diligently pursue performance. In commercial item contracting under FAR 12.302(b), the FAR provisions dealing with disputes and continued performance cannot be changed by the Contracting Officer.
 - e) **Choice of Law.** Subject to the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 *et seq.*), the validity, interpretation and enforcement of this Rider shall be governed by and construed in accordance with the federal laws of the United States. In the event the Uniform Computer Information Transactions Act (UCITA) or any similar federal laws or regulations are enacted, to the extent allowed by federal law, they will not apply to this Rider or the underlying Schedule Contract.
 - f) **Equitable remedies.** Equitable remedies are generally not awarded against the Government absent an express statute providing therefore. In the absence of a direct citation to such a statute, all clauses in the Manufacturer Specific Terms referencing equitable remedies are superseded and not applicable to any GSA Customer order.
 - g) **Unilateral Termination.** Unilateral termination by the Contractor does not apply to a GSA Customer Purchase Order and all clauses in the Manufacturer Specific Terms referencing unilateral termination rights of the Manufacturer are hereby superseded.
 - h) **Unreasonable Delay.** Subject to FAR 52.212-4(f) Excusable delays, the Contractor shall be liable for default unless the nonperformance is caused by an occurrence beyond the reasonable control of the Contractor and without its fault or negligence such as, acts of God or the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, unusually severe weather, and delays of common carriers. The Contractor shall notify the Contracting Officer in writing as soon as it is reasonably possible after commencement of any excusable delay, setting forth the full particulars in connection therewith, shall remedy such occurrence with all reasonable dispatch and shall promptly give written notice to the Contracting Officer of the cessation of such occurrence.
 - i) **Assignment.** All clauses regarding the Contractor’s assignment are subject to FAR 52.232-23, Assignment of Claims (JAN 1986) and FAR 42.12 Novation and Change-of-Name Agreements (Sep. 2013). All clauses governing the Contractor’s assignment in the Manufacturer Specific Terms are hereby superseded.
 - j) **Waiver of Jury Trial.** Waivers of Jury Trials are subject to FAR 52.233-1 Disputes (JULY 2002). The Government will not agree to waive any right that it may have under federal law. All clauses governing a waiver of jury trial in the Manufacturer Specific Terms are hereby superseded.
 - k) **Government Indemnities.** This is an obligation in advance of an appropriation that violates anti-deficiency laws (31 U.S.C. § 1341 and 41 U.S.C. § 6301), since the GSA Customer commits to pay an unknown amount at an unknown future time. The

violation occurs when the commitment is made, i.e., when the agreement featuring this clause is incorporated into a Government contract, and not when the clause is triggered. The FAR 12.216 prohibit such indemnifications. All Manufacturer Specific Terms referencing customer indemnities are hereby superseded.

- l) **Contractor Indemnities.** All Manufacturer Specific Terms that violate DOJ's jurisdictional statute (28 U.S.C. § 516) by requiring that the Government give sole control over the litigation and/or settlement to the Contractor are hereby superseded. Nothing contained in the Manufacturer's Specific terms shall be construed in derogation of the U.S. Department of Justice's right to defend any claim or action brought against the U.S., pursuant to its jurisdictional statute.
- m) **Renewals.** All Manufacturer Specific Terms that provide for automatic renewals violate the Anti-Deficiency Act and are hereby superseded. This is an obligation in advance of an appropriation that violates anti-deficiency laws (31 U.S.C. § 1341 and 41 U.S.C. § 6301), since the GSA Customer commits to pay an unknown amount at an unknown future time. The violation occurs when the commitment is made, i.e., when the agreement featuring this clause is incorporated into a Government contract, and not when the clause is triggered.
- n) **Future Fees or Penalties.** All Manufacturer Specific Terms that require the Government to pay any future fees, charges or penalties are hereby superseded unless specifically authorized by existing statutes, such as the Prompt Payment Act (31 U.S.C. § 3901 et seq.) or Equal Access To Justice Act (5 U.S.C. § 504; 28 U.S.C. § 2412).
- o) **Taxes.** Taxes are subject to FAR 52.212-4(k), which provides that the contract price includes all applicable federal, state, local taxes and duties. Notwithstanding the foregoing, Contractor shall state separately on its invoices, taxes excluded from the fees, and the GSA Customer agrees to either pay the amount of the taxes (based on the current value of the equipment or services) to Contractor or provide it evidence necessary to sustain an exemption, in accordance with FAR 52.229-1 and FAR 52.229-3.
- p) **Third Party Terms.** When the end user is an instrumentality of the U.S., no license terms bind the GSA Customer unless included verbatim (not by reference) in the EULA, and the EULA is made an attachment to the underlying GSA Schedule Contract. All terms and conditions affecting the GSA Customer must be contained in a writing signed by a duly warranted Contracting Officer. Any third party manufacturer shall be brought into the negotiation, or the components acquired separately under federally-compatible agreements, if any. All Manufacturer Specific Terms that incorporate third party terms by reference are hereby superseded.
- q) **Dispute Resolution and Standing.** Any disputes relating to the Manufacturer Specific Terms or to this Rider shall be resolved in accordance with the FAR, the underlying GSA Schedule Contract, any applicable GSA Customer Purchase Orders, and the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 et seq.). The Ordering Activity expressly acknowledges that EC America as contractor, on behalf of the Manufacturer, shall have standing to bring such claim under the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 et seq.).
- r) **Advertisements and Endorsements.** Pursuant to GSAR 552.203-71, use of the name or logo of any U.S. Government entity is prohibited. All Manufacturer Specific Terms that allow the Contractor to use the name or logo of a Government entity are hereby superseded.
- s) **Public Access to Information.** EC America agrees that the attached Manufacturer Specific Terms and this Rider contain no confidential or proprietary information and acknowledges the Rider shall be available to the public.
- t) **Confidentiality.** Any provisions in the attached Manufacturer Specific Terms that require the Ordering Activity to keep certain information confidential are subject to the Freedom of Information Act (5 U.S.C. § 552), and any order by a United States Federal Court. When the end user is an instrumentality of the U.S. Government, neither this Rider, the Manufacturer's Specific Terms nor the Schedule Price List shall be deemed "confidential information" notwithstanding marking to that effect. Notwithstanding anything in this Rider, the Manufacturer's Specific Terms or the Schedule Contract to the contrary, the GSA Customer may retain such Confidential Information as required by law, regulation or its bonafide document retention procedures for legal, regulatory or compliance purposes; provided however, that such retained Confidential Information will continue to be subject to the confidentiality obligations of this Rider, the Manufacturer's Specific Terms and the Schedule Contract.
- u) **Alternate Dispute Resolution.** The GSA Customer cannot be forced to mediate or arbitrate. Arbitration requires prior guidance by the head of a federal agency promulgated via administrative rulemaking according to 5 U.S.C. § 575(c). GSA has not issued any because it considers the Board of Contract Appeals to be an adequate, binding ADR alternative. All Manufacturer Specific Terms that allow the Contractor to choose arbitration, mediation or other forms of alternate dispute resolution are hereby superseded.
- v) **Ownership of Derivative Works.** Provisions purporting to vest exclusive ownership of all derivative works in the licensor of the standard software on which such works may be based are superseded. Ownership of derivative works should be as set forth in the copyright statute, 17 U.S.C. § 103 and the FAR clause at 52.227-14, but at a minimum, the GSA Customer shall receive unlimited rights to use such derivative works at no further cost.

3. Order of Precedence/Conflict. To the extent there is a conflict between the terms of this Rider and the terms of the underlying Schedule Contract or a conflict between the terms of this Rider and the terms of an applicable GSA Customer Purchase Order, the terms of the GSA Schedule Contract or any specific, negotiated terms on the GSA Customer Purchase Order shall control over the terms of this Rider. Any capitalized terms used herein but not defined, shall have the meaning assigned to them in the underlying Schedule Contract.

Wynyard

Wynyard LICENSE, WARRANTY AND SUPPORT TERMS

SCHEDULE 1 - GENERAL TERMS AND CONDITIONS

1 Definitions and Interpretation

1.1 In this Agreement, unless the context otherwise requires:

Affiliate	of a party means any entity which directly or indirectly owns or controls, is directly or indirectly owned or controlled by, or is in common ownership or control with, that party, and for these purposes control shall be presumed to exist where one entity owns at least 50% of the voting share class of the capital stock of the other entity;
Agreement	has the meaning given on the signature page to which these General Terms and Conditions are attached;
Approved Equipment	means the relevant computer hardware, accessories and attachments and software (including operating systems) meeting the specifications required for the operation of the Software as outlined by our current published Documentation;
Assumptions	means the assumptions, if any, which have been made by us and agreed with Ordering Activity and set out in the applicable agreed Order for Professional Services using the Order Form set out in Appendix 1 to Schedule 4;
Authorized Users	means the Ordering Activity's authorized individual representatives that have access to the Software;
Business Day	means, unless stated otherwise in the relevant agreed Order, a day other than a Saturday or Sunday or public holiday on which banks are generally open for non-automated normal business in the Location;
Change Management Process	means the process for agreeing to any changes to the scope of the Professional Services set out in the agreed Order for such Professional Services
Charges	means our charges for the Software and Services as set out in the relevant Contract;
Concurrent Services Users	means the total number of End Users (as such term is defined under the relevant Software License) which are supported to use the Hosted Software through the Hosting Services at any one time as set out in the relevant agreed Order under Schedule 5;
[Concurrent Users]	[means the individual representatives of Ordering Activity permitted to access the Software at any one time, as set out in the relevant agreed Order for Software;]
Conditions	means these general terms and conditions;
Confidential Information	means any commercial, financial or technical information relating to the products, services, plans, know-how or trade secrets of a party or its Affiliates, any information which is obviously confidential or has been identified as such, or which is developed by a party in performing its obligations under, or otherwise pursuant to this Agreement or any Contract, including, without limitation, the source code and any trade secrets in the Software together with all specifications, technical data, information manuals and documentation necessary to understand, maintain, modify or correct the Software;
Contract Commencement Date	means the date set out in the relevant agreed Order when the Contract commences;
CPI	means the Consumer Prices Index for all groups (SE9A) as maintained and published by Statistics New Zealand or any successor body and as published by the Reserve Bank of New Zealand;
Ordering Activity Data	means any data provided by Ordering Activity in connection with their use of the Hosting Services or Hosted Software;
Deliverables	means all documents, reports, programs or other items set out in a Contract for Professional Services for delivery to Ordering Activity as a result of the performance of the Services;
Dependencies	means Ordering Activity's obligations set out in the applicable agreed Order for Professional Services on which the performance of the Professional Services is dependent;
Dispute	means any dispute which may arise under or in relation to this Agreement or any Contract (including non-contractual disputes or claims);
Documentation	means the documentation we provide to Ordering Activity relating to the use and/or functionality of the Software, such as, without limitation, product user guides, installation guides, manuals and release notes;
Effective Date	means the date defined as such on the front of this Agreement, or, where no date is so specified, the date of the last signature on the front of this Agreement;
End Users	means the Authorized Users [and Concurrent Users];
Escrow Agreement	means the standard multi-licensee agreement between us and our chosen supplier for the provision of escrow services for the relevant Software
Escrow Fees	means our charges for adding Ordering Activity as a licensee to our Escrow Agreement as set out in the relevant agreed Order for Software (if applicable);
Excused Cause	means any period where the Hosting Services are Unavailable;

	(i) due to Planned Maintenance; (ii) lasting for two consecutive Service Periods or less; (iii) when Ordering Activity's use of the Hosting Services exceeded the limitations set out in clause 8.1 of Schedule 5; (iv) due to a Force Majeure Event; (v) due to any fault in or other problems associated with, the Internet or any equipment, hardware or software Ordering Activity uses to access the Hosting Services; or (vi) outside of Normal Support Hours.
Good Industry Practice	means in relation to any undertaking and any circumstances, the exercise of that degree of care, and skill which would reasonably and ordinarily be expected from a skilled, professional and experienced person engaged in the same type of undertaking under the same or similar circumstances;
Go-Live Date	means the date when the Hosting Services go into live operational use which will be determined by the relevant Contract for Professional Services under Schedule 4;
Hosting Environment	means the software, hardware and equipment on which the Hosted Software will run, excluding the Hosted Software itself;
Hosting Services	means the Software hosting and related services described in clause 2 of Schedule 5 which we have agreed to provide Ordering Activity pursuant to a Contract agreed under that Schedule;
Hosting Services Fees	means our charges for providing the on-going Hosting Services as set out in the relevant agreed Order under Schedule 5;
Hosting Services Support	means the support services for the Hosting Services as set out in clause 7.1 of Schedule 5;
Hosted Software	means the Software set out in the 'Hosted Software' section of the relevant agreed Order under Schedule 5;
Initial Support Term	means a period of three (3) years commencing on the Contract Commencement Date of the relevant Contract under which the Support and Maintenance Services are to be provided;
Implementation Fee	means our charge for setting up the Hosting Environment as set out the relevant agreed Order under Schedule 5;
Intellectual Property Rights	means all patents, rights to inventions, utility models, copyright and neighboring rights, trademarks, service marks, trade, business and domain names, rights in trade dress, rights in goodwill or to sue for passing off, unfair competition rights, rights in designs, rights in computer software, semi-conductor topography rights, moral rights, rights in Confidential Information (including know-how and trade secrets) and any other intellectual property rights, in each case whether registered or unregistered and including all applications for and renewals or extensions of such rights, and all similar or equivalent rights or forms of protection in any part of the world;
License Fees	means our charges for the Software licenses granted to Ordering Activity under the relevant Contract, as set out in the agreed Order for Software;
License Parameters	means the parameters we have used to calculate the License Fees (if any) in addition to the License Term, End Users and Licensed Territory, as set out in the agreed Order for Software;
Licensed Purpose	means the limited purpose which Ordering Activity is authorized to use the Software for within Ordering Activity's business as set out in the relevant agreed Order for Software (if applicable);
License Term	means the term of the license granted by us for Ordering Activity's use of the Software as set out in the relevant agreed Order for Software;
Licensed Territory	means the territory where Ordering Activity is authorized to use the Software as set out in the relevant agreed Order for Software;
Location	means the Wynyard place of business where the Personnel providing the Professional Services are normally based or from where the Support and Maintenance Services are to be provided (if applicable) as set out in the relevant agreed Order;
Losses	means all losses, damages, costs (including reasonable attorney's fees) and expenses;
Maintenance Window	means the scheduled two hour window each week when we will be entitled to perform maintenance to the Hosting Environment without needing to provide Ordering Activity with any further notice;
Major Release	means a new version of the Software containing major functional and system additions and/or changes identified by a change in the number to the left of the decimal in our version numbering system i.e. if the current version is n.1 ('n' being a whole integer) then the Major Release number is 'n+1'. Major Releases may also include fixes in our discretion;
Minor Release	means a new version of the Software containing minor functional and system additions and/or changes identified by a change in the number to the right of the decimal in our version numbering system i.e. if the current version is 1.n ('n' being a whole integer) then the minor Release number is '1.n+1'. Minor Releases may also include fixes in our discretion;
Normal Support Hours	means 9:00 a.m. to 5:00 p.m. local time in the Location, each Business Day;
Order	means the relevant order from Ordering Activity for Software and/or Services

Our Materials	means all documents, materials, data, proprietary software (and the media on which they are each recorded), which are owned by us at the date of the relevant Contract or which are subsequently created by us independently of the Contract or as a result of performing the Services;
Personnel	means such of our employees or sub-contractors as may be engaged in the provision of Services from time to time including (if any) those designated in the applicable agreed Order for Professional Services;
Planned Maintenance	means any maintenance to the Hosting Environment carried out during the Maintenance Window together with any Scheduled Maintenance carried out with at least 24 hours' warning or with less warning provided that Ordering Activity has agreed to the timing of such maintenance;
Professional Services	means the professional services we have agreed to supply Ordering Activity pursuant to an agreed Order for professional services;
Quarter	means the relevant three calendar month period, being either January to March, April to June, July to September or October to December, save that where the Go-Live Date occurs at any time after the first day of any such Quarter then the first 'Quarter' shall mean the period from the Go-Live Date to the date immediately prior to the start of the next Quarter;
Rates	means our daily rates for the Professional Services specified in the GSA Schedule Contract
Release	means a Major Release or Minor Release;
Representatives	means Ordering Activity's employees, employees of Ordering Activity's Affiliates, agents, contractors or representatives duly authorized to act on their behalf;
Sales Tax	means sales or use tax or any other similar tax applying to the supply of the Software or Services;
Schedule	means a schedule to this Agreement including any Appendices thereto;
Scheduled Maintenance	means non-emergency maintenance to the Hosting Environment which we carry out outside of the Maintenance Window;
Services	means the applicable services we have agreed to supply Ordering Activity under an applicable Order, which may include, without limitation [Hosting Services,] Support and Maintenance Services and Professional Services;
Service Period	means each period of time beginning at midnight on any day and every five (5) minutes thereafter, and ending immediately prior to the start of the next five (5) minute period;
Software	means any software licensed to Ordering Activity under an agreed Order for software, including any Updates and Releases to such software;
Software License	means the relevant Order for Software under which we granted Ordering Activity a license to use the Hosted Software;
Subsequent Support Term	means a period of one (1) year; unless provided otherwise in an applicable Order
Support and Maintenance Services	means the support and maintenance services set out in Schedule 2;
Support and Maintenance Services Fees	means the charges for the Support and Maintenance Services as set out in the GSA Schedule Contract;
Support and Maintenance Services Term	means the term when we will provide the Support and Maintenance Services for the relevant Software in accordance with clause 1 Schedule 3;
Third Party Software	means any Software which is not proprietary to us;
Unavailable	means any Service Period without a successful response from the Hosting Services test page within ten (10) seconds of the request being sent by us other than due to an Excused Cause;
Update	means functional improvements, scripts and/or fixes for the Software provided in between Releases;
User Acceptance Testing	means the process of acceptance testing configurations to the Software made by us under a Contract for Professional Services which shall be in accordance with clause Error! Reference source not found. of Schedule 4;
Ordering Activity's Materials	means all documents, materials, data, proprietary software (and the media on which they are each recorded), supplied by Ordering Activity to us.

2 Terms and Structure

- 2.1.1 Contracts for Software licenses will be subject to the terms and conditions set out in Schedule 2;
- 2.1.2 Contracts for Support and Maintenance Services will be subject to the terms and conditions set out in Schedule 3; [and]
- 2.1.3 Contracts for Professional Services will be subject to the terms and conditions set out in Schedule 4; and
- 2.1.4 Contracts for Hosting Services will be subject to the terms and conditions set out in Schedule 5.]

3 Reserved.

4 Affiliates

4.1 Where we have expressly agreed in an Order to supply Software or Services to Ordering Activity for the benefit of any of their Affiliates, Ordering Activity shall be responsible for ensuring that such Affiliates comply with these terms and conditions and Ordering Activity shall be liable for the acts and omissions of their Affiliates as if they were their acts and omissions.

5 Reserved.

6 Reserved.

7 Intellectual Property Rights

7.1 Each party shall retain all Intellectual Property Rights in their pre-existing and proprietary materials.

7.2 All Intellectual Property Rights and all other proprietary rights in the Software, Documentation and in any materials developed under any Contract in connection with the Services (including any Deliverables) will remain vested in us (or our licensors) and be our (or our licensors') absolute property.

7.3 Except for your right to use Software, Documentation or Deliverables as expressly granted under any Contract, you will not acquire in any way any title, rights of ownership or Intellectual Property Rights of whatever nature in any Software, Documentation or Deliverables.

8 Warranties

8.1 We warrant that all Services will be provided using reasonable skill and care.

8.2 ALL WARRANTIES NOT SET OUT IN THIS AGREEMENT OR ANY CONTRACT, WHETHER WRITTEN OR ORAL, EXPRESS OR IMPLIED BY STATUTE, AT COMMON LAW OR OTHERWISE, INCLUDING WITHOUT LIMITATION THE IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR PARTICULAR PURPOSE, TITLE AND NON-INFRINGEMENT, ARE HEREBY EXCLUDED TO THE EXTENT PERMITTED BY LAW.

8.3 WHERE WE SUPPLY ORDERING ACTIVITY ANY THIRD PARTY PRODUCTS UNDER ANY CONTRACT (INCLUDING ANY THIRD PARTY SOFTWARE) WE SHALL USE OUR REASONABLE EFFORTS TO PASS THROUGH THE BENEFIT OF ANY WARRANTIES PROVIDED TO US BY OUR SUPPLIER FOR SUCH PRODUCTS. OTHER THAN AS STATED IN THIS CLAUSE 8.3 OR AS EXPRESSLY AGREED IN ANY CONTRACT WE DO NOT PROVIDE ANY WARRANTIES FOR SUCH THIRD PARTY PRODUCTS (INCLUDING ANY THIRD PARTY SOFTWARE) AND WE SHALL HAVE NO OTHER LIABILITY, RESPONSIBILITY OR OBLIGATION TO ORDERING ACTIVITY IN RESPECT OF ANY SUCH THIRD PARTY PRODUCTS (INCLUDING ANY THIRD PARTY SOFTWARE) OR ANY ISSUE WITH THEM.

9 Ordering Activity's Obligations

9.1 Ordering Activity shall provide us with all necessary information, facilities, support and services reasonably required by us for the performance of our obligations to Ordering Activity under each Order.

9.2 Ordering Activity shall be responsible at their expense for complying with all applicable laws and regulations and obtaining any applicable licenses and consents, relating to the import, export, installation or use of any Software.

SCHEDULE 2 – SOFTWARE LICENSING

1 Reserved.

2 Grant of License

- 2.1 In respect of any Contract for Software, we hereby grant Ordering Activity a non-assignable, non-sub-licensable, non-exclusive royalty-free license to use the Software and any Documentation provided under that Contract for their internal business purposes.
- 2.2 Ordering Activity authorized usage of the Software is set out in the agreed Order, including without limitation the number of End Users permitted to use the Software, whether their Affiliates are permitted to use the Software, the Licensed Territory, License Parameters and Licensed Purpose (if applicable).
- 2.3 Ordering Activity shall inform us promptly, and in any event within fourteen (14) days, if their usage of the Software exceeds that authorized in the agreed Order.

3 Reserved.

4 Delivery and Installation

We shall deliver the Software and Documentation to Ordering Activity by making it available for downloading on the Contract Commencement Date or as soon possible thereafter.

5 License Conditions

- 5.1 The Software may only be used in conjunction with the Approved Equipment and in accordance with the Documentation.
- 5.2 Unless we have expressly agreed otherwise, Ordering Activity is responsible for supplying and supporting the Approved Equipment and any user or database software and hardware which may be required for Ordering Activity to use the Software.
- 5.3 Ordering Activity's right to use the Software licensed under this Agreement and any Contract does not permit them:
 - 5.3.1 to distribute or resell the Software; or
 - 5.3.2 to use the Software to provide outsourcing or bureau services for any third party.
- 5.4 Except to the extent such activities are expressly permitted by the law governing the Contract or are expressly agreed by the parties in the Contract, Ordering Activity shall not:
 - 5.4.1 use the Software for any purpose other than as expressly permitted by an applicable Order;
 - 5.4.2 translate, adapt, disassemble, reverse engineer or decompile the Software or any part of it, nor arrange or create derivative works based on the Software;
 - 5.4.3 make any modifications, additions or enhancements to the Software other than configurations which are permitted using the Software's in-built functionality in accordance with its Documentation;
 - 5.4.4 permit the Software or any part of it to be combined or merged with or become incorporated in any other program;
 - 5.4.5 license, sell or otherwise deal in or encumber the Software; or
 - 5.4.6 use the Software on behalf of or make it available to any third party or allow or permit a third party to do so.
- 5.5 Ordering Activity may permit a third party to host and/or operate the Software on their behalf in connection with a disaster recovery, outsourcing or facilities management arrangement in accordance with the terms of an applicable Order provided that:
 - 5.5.1 we have given Ordering Activity prior written approval to the identity of the third party;
 - 5.5.2 the Software and Documentation remains under their control;
 - 5.5.3 there is no novation or assignment of the Contract in favor of the third party; and
 - 5.5.4 Ordering Activity shall ensure that the third party complies with the terms of the Contract and Ordering Activity shall be responsible for the acts and omissions of the third party as if they were their acts and omissions.

6 Modifying or Copying the Software and Documentation

- 6.1 Subject to clause 6.2 below, Ordering Activity shall not copy or reproduce the Software or Documentation by any means or in any form without our prior written consent.
- 6.2 Ordering Activity may copy the Software in machine-readable form for testing and backup purposes (provided that any backup copies are not used in a hot or warm standby environment) and may make a reasonable number of copies of the Documentation as necessary for their authorized use of the Software.
- 6.3 All copies of the Software and Documentation made by Ordering Activity will include any copyright and confidentiality and other property notices included by us in the Software and Documentation and must remain under their direct control at all times.

7 Security

- 7.1 Ordering Activity shall ensure that the Software and Documentation is protected at all times from misuse, damage, destruction or any form of use not permitted under the relevant Contract.
- 7.2 Ordering Activity shall keep accurate records of use, copying, modification and disclosure of the Software and Documentation. If we request, Ordering Activity shall provide us with a copy of such records.

8 Warranty

- 8.1 We warrant that as at the date of delivery to Ordering Activity the Software will materially conform to its Documentation provided it is used in accordance with the terms and conditions of the GSA Schedule Contract and an applicable Order. For the purposes of this clause 8.1 the term "Software" shall not include any Third Party Software.
- 8.2 We do not warrant that the Software will be error free or operate without interruption or that it will operate in conjunction with any other hardware or software.
- 8.3 It is Ordering Activity's responsibility to ensure that the facilities and functions of the Software described in the Documentation meet their requirements and as such we do not warrant that the Software is fit for purpose.
- 8.4 We shall not be under any obligation to remedy any problem arising from or caused by:
 - 8.4.1 any modification (whether by way of alteration, deletion, addition or otherwise) made to any part of the Software by anyone other than us without our express prior written consent other than configurations which are permitted using the Software's in-built functionality in accordance with its Documentation; or
 - 8.4.2 fault in any equipment or software (including Third Party Software) used in connection with the Software.

- 8.5 Reserved.
- 8.6 Ordering Activity shall take all reasonable precautions against the possibility that the Software or any component of it does not function properly, for example by making regular back-ups of their data and maintaining appropriate procedures for the retention of source documents for the reconstruction of lost or altered files or data.

9 Support and Maintenance

- 9.1 Ordering Activity will not be entitled to any Updates or Releases for any Software unless Ordering Activity are purchasing Support and Maintenance Services from us for such Software.
 - 9.2 Ordering Activity is not permitted to engage or authorize anyone other than us to provide any maintenance or support services for the Software.
- 10 **Reserved.**
 - 11 **Reserved.**
 - 12 **Reserved.**
 - 13 **Reserved.**

SCHEDULE 3 - SUPPORT AND MAINTENANCE SERVICES

- 1. **Reserved.**
- 2. **Reserved,**

3. Service Description

3.1 The Support and Maintenance Services shall comprise of the following services:

Service	Description
Service Desk	We shall provide a service desk which shall be Ordering Activity's single point of contact for all Technical Support requests as well as for making general enquiries about the Software. The Service Desk may be contacted via the Wynyard Support Portal, by email at support@wynyardgroup.com or by phone (using the toll-free number set out in the relevant agreed Order or as otherwise notified by us from time to time). Outside of Normal Support Hours all Technical Support requests must be made via the Wynyard Support Portal.
Wynyard Support Portal	We shall provide Ordering Activity with access to our online portal where Ordering Activity can contact the Service Desk to request Technical Support.
Ordering Activity Self-Service Portal	For certain Software, we shall provide Ordering Activity with access to a self-service portal containing resources to assist Ordering Activity with their use of the Software.
Technical Support	Where Ordering Activity report a reproducible fault in the Software which prevents it from performing substantially in accordance with the Documentation to our Service Desk (each an "Incident") we shall use our commercially reasonable efforts to repair the Software and/or provide Ordering Activity with a workaround solution in accordance with the terms of this Appendix. Unless expressly agreed otherwise, we shall respond to Technical Support requests during the following hours: <ul style="list-style-type: none"> • For 'High' priority Incidents (as defined below), on a 24 hour, 364 day basis (i.e. every day except 25th December); • For 'Medium' and 'Low' priority Incidents (as defined below) during Normal Support Hours.
Releases and Updates	We shall provide Ordering Activity with Updates and Releases from time to time. We reserve the right at all times to determine what is included and excluded in any Releases or Updates.
Documentation Updates	We shall provide Ordering Activity with updates to our Documentation from time to time.

3.2 Each Incident reported by Ordering Activity to our Service Desk will be assigned a priority by us as follows:

Priority Level	Description
High	An Incident that renders the Software inoperable or substantially degrades the performance of the Software adversely impacting their business operations, or where the damage caused by a 'Medium' priority Incident is increasing rapidly and is likely to become a 'High' priority incident if not dealt with urgently.
Medium	An Incident that is not adversely affecting their business operations, but is repeatedly impacting their usage of the Software or degrading performance of the Software or where the damage caused by a 'Low' priority Incident is considerably increasing over time and therefore is likely to become 'Medium' or 'High' priority if not dealt with in the next few days.
Low	An Incident that has little or no impact on their business operations or any other Incident which does not fall into the above categories.

3.3 Action Timetable for Incident management:

- 3.3.1 The table below sets out our obligations when we receive a Technical Support request from Ordering Activity.
- 3.3.2 The 'Response Time' is the time between the Incident being reported to our Service Desk by Ordering Activity and an acknowledgement from us to Ordering Activity that the report has been received, the description of the problem has been understood and an investigation scheduled.
- 3.3.3 The 'Resolution Time' is the target time, commencing from the time when we respond to their Incident report in accordance with clause 3.3.2, within which we will endeavor to identify a permanent solution to the problem or establish a workaround or other temporary solution. If we establish a workaround or temporary solution, we will endeavor to provide a permanent solution in the next Release if the testing phase for that Release has not already commenced before the solution is identified.
- 3.3.4 The 'Progress Update Frequency' is the frequency when we will update Ordering Activity on our efforts to resolve the Incident.

Priority Level	Response Time	Resolution Time	Progress Update Frequency
High	4 hours	24 hours	daily
Medium	2 Business Days	5 Business Days	weekly
Low	5 Business Days	as mutually agreed	as mutually agreed

3.4 Whilst Ordering Activity are receiving Support and Maintenance Services from us Ordering Activity shall ensure that their

representatives co-operate fully with our Personnel in the diagnosis and remediation of any error or defect in the Software, which may include without limitation, providing connectivity for testing and diagnostic purposes, allowing us to view their computer system using an internet based service such as WebEx and allowing us to undertake remote control of desktops in accordance with applicable agency security requirements.

- 3.5 Where we provide an Update or Release to Ordering Activity, we strongly advise that Ordering Activity implement it on a test environment before putting it into live use. Ordering Activity test environment should be a mirror of their production environment. We shall not be liable for any loss or damage caused by a defect in any Update or Release which ought to have been discovered had it been subject to reasonable levels of testing by Ordering Activity on a mirror environment prior to being used in their live production environment.

4. Limitations of Support and Maintenance Services

- 4.1 Support and Maintenance Services will only be provided in relation to the latest Major Release and previous Major Release of the Software.

- 4.2 The following services are not provided as part of Support and Maintenance Services and if provided by us during the course of any Order shall require a separate written Order:

- 4.2.1 support or maintenance of software, hardware or equipment not supplied by us;
- 4.2.2 support or maintenance for any modification or enhancement to the Software not made by us or which has been developed by us specifically for Ordering Activity under a Contract for Professional Services and which does not become part of a generally available Update or Release for our other customers;
- 4.2.3 customization or configuration of any Software;
- 4.2.4 attendance on site by any support consultant;
- 4.2.5 assistance with installing the Software (including any Updates or Releases);
- 4.2.6 functional or technical training relating to the Software;
- 4.2.7 diagnosis and/or rectification of problems caused by:
 - 4.2.7.1 use of the Software not in accordance with its Documentation, including, without limitation problems caused by the Software being used in conjunction with equipment or software that is not Approved Equipment;
 - 4.2.7.2 use of the Software not in accordance with the relevant solution design document for that Software including, without limitation, problems caused by the Software ingesting data which is not of the type and/or format set out in the solution design document;
 - 4.2.7.3 use of the Software not authorized under the relevant Order; or
 - 4.2.7.4 anything external to the Software including, without limitation, issues relating to the quality of their data or a failure in their file transfer mechanism.

For the avoidance of doubt the above list is not intended to be an exhaustive list of what is outside the scope of Support and Maintenance Services.

5. **Reserved.**

6. **Reserved.**

SCHEDULE 4 – PROFESSIONAL SERVICES

- 1 **Reserved.**
- 2 **Reserved.**
- 3 **Reserved.**
- 4 **Reserved.**
- 5 **Reserved.**
- 6 **Reserved.**
- 7 **Ordering Activity Obligations**
 - 7.1 Ordering Activity acknowledges that we will enter into Orders on the basis that Assumptions provided in an applicable Statement of Work (SOW) are correct.
 - 7.2 We shall not be liable to Ordering Activity for any Losses or other claims for compensation to the extent they are due to:
 - 7.2.1 **any negligence by Ordering Activity or their Representatives;**
 - 7.2.2 **any failure by Ordering Activity or their Representatives to meet their obligations under any Order; or**
 - 7.2.3 **any misuse by Ordering Activity or their Representatives of any Deliverables.**
 - 7.3 **Ordering Activity** shall procure that their Representatives
 - 7.3.1 are aware of the obligations or restrictions imposed on them under each Order; and
 - 7.3.2 shall use their reasonable efforts to ensure that they comply with the provisions of and each Order.
- 8 **Proprietary rights**
 - 8.1 The Intellectual Proprietary Rights and all other proprietary rights in Our Materials together with any materials developed by us under any Contract will remain vested in us in accordance with clauses 7.1 and 7.2 of the Conditions.
 - 8.2 We hereby grant to you a non-exclusive, non-transferable license to use the Deliverables for your internal business purposes only. Software configurations are subject to the applicable licensing terms under the relevant Contract under which the Software is licensed.
 - 8.3 Where any reference is made in a Deliverable to your Confidential Information we shall not use or disclose such Confidential Information other than as permitted under clause 6 of the Conditions.
- 9 **Reserved.**
- 10 **Warranties**
 - 10.1 We warrant that all Personnel engaged in the provision of Professional Services will have appropriate qualifications, training and experience and that we will provide the Professional Services in accordance with Good Industry Practice.
 - 10.2 We shall use all reasonable efforts to remedy free of charge any faulty work which is reported to us in writing, provided that such report is made within ninety (90) days of the performance of the relevant Professional Services. If we rectify such faulty work by the provision at our option of replacement or additional materials or services within a reasonable period of time, then we will have no other liability of any kind in respect of or arising from such faulty work.
- 11 **Reserved.**

SCHEDULE 5 – HOSTING SERVICES

1 Reserved.

2 Hosting Services Specification

2.1 Following the Go-Live Date, Hosting Services shall consist of the following services:

2.1.1 application hosting of the Hosted Software in the Hosting Environment; and

2.1.2 Hosting Services Support.

2.2 The Hosting Environment will:

2.2.1 be accessible via the Internet;

2.2.2 have sufficient capacity to support the maximum number of Concurrent Services Users using the Hosted Software at any one time;

2.2.3 have suitable processing capacity up to the maximum database size set out in the relevant Order; and

2.2.4 be built and maintained in accordance with Good Industry Practice.

2.3 We will:

2.3.1 maintain the security of the Hosting Services;

2.3.2 make regular backups of Customer Data and Hosted Software configurations;

2.3.3 monitor the availability and performance of the Hosting Services; and

2.3.4 install and maintain anti-virus software on the Hosting Environment;

in accordance with Good Industry Practice.

3 Reserved.

4 Reserved.

5 Ordering Activity Data

5.1 If requested by Ordering Activity, we shall provide Ordering Activity with a copy of any Customer Data in our possession on suitable storage media, subject to Ordering Activity paying:

5.1.1 all Charges due under the relevant Order;

6 Ordering Activity Obligations

6.1 Ordering Activity is responsible for providing access over the Internet between their users and the Hosting Environment in accordance with any requirements stipulated by us.

6.2 Ordering Activity shall ensure that their systems comply with any pre-requisites notified by us for accessing and running the Hosted Software.

7 Hosting Services Support and Regular/Scheduled Maintenance

7.1 Hosting Services Support shall consist of the following services:

Service	Description
Service Desk	The Service Desk described in Appendix 1 of Schedule 2 shall also be their point of contact for all Technical Support requests as well as for making general enquiries about the Hosting Services. Outside of Normal Support Hours all Technical Support requests must be made via the Wynyard Support Portal.
Wynyard Support Portal	Ordering Activity may also use the Wynyard Support Portal described in Appendix 1 of Schedule 2 to contact the Service Desk to request Technical Support in relation to the Hosting Services.
Technical Support	Where Ordering Activity reports a fault in the Hosting Environment which prevents the Hosting Services from performing substantially in accordance with the terms of this Schedule (an "Incident" for the purposes of Technical Support in relation to Hosting Services), we shall use our commercially reasonable efforts to repair the Hosting Environment and/or provide them with a workaround solution in accordance with the terms of this Schedule 5. The priority level definitions set out in Appendix 1 of Schedule 2 shall apply to Incidents reported in relation to the Hosting Services with the word "Software" replaced with "Hosting Services". Unless expressly agreed otherwise, we shall respond to Technical Support requests in relation to Hosting Services during the following hours: <ul style="list-style-type: none"> • for 'High' priority Incidents, on a 24 hour, 364 day basis (i.e. every day except 25th December); and • for 'Medium' and 'Low' priority Incidents, during Normal Support Hours.

- 7.2 We shall use our commercially reasonable efforts to resolve any faults relating to the Hosting Services that Ordering Activity reports to us, however Ordering Activity's remedy for any failure or defects in the Hosting Environment or Hosting Services shall be in accordance with clause 10 below. Faults in the Hosted Software shall be dealt with in accordance with the Support and Maintenance Services terms under the Software License.
- 7.3 We will provide regular maintenance of the Hosting Environment during the Maintenance Window each week. During the Maintenance Window all Hosting Services may become unavailable without any further warning to Ordering Activity. We will use reasonable efforts to give Ordering Activity not less than 24 hours' warning of any Scheduled Maintenance of the Hosting Environment by emailing their nominated contact person set out in the 'Services Contact' section of the relevant agreed Order. We will use reasonable efforts to schedule the Maintenance Window and Scheduled Maintenance in consultation with Ordering Activity so as to cause the least possible impact to them.

8 Hosting Services Limitations

- 8.1 Ordering Activity acknowledges that the Hosting Services are subject to the limitations set out in the relevant agreed Order, including without limitation the maximum number of Concurrent Hosting Services Users and the size of the database that may be stored on the Hosting Environment. Ordering Activity acknowledges that we shall not be obliged to provide Hosting Services, including Hosting Services Support, where their use of the Hosting Services exceeds such limitations.
- 8.2 We do not promise that the Hosting Services will be uninterrupted, error-free, or completely secure. Ordering Activity acknowledges that there are risks inherent in Internet connectivity that could result in the loss of Confidential Information. Our obligations in relation to data security are solely to provide Hosting Services which meet the requirements as set out in clause 2 above. We shall have no other responsibility or obligation to Ordering Activity in respect of the security of their data.
- 8.3 We shall not be liable for any Losses which Ordering Activity incurs as a result of any fault in or other problems associated with, the Internet or any equipment, hardware or software Ordering Activity uses to access the Internet.

9 Reserved.

10 Availability

- 10.1 The Hosting Services will be available at least 99.7% of the time, excluding any Excused Causes, as calculated in accordance with clause 10.2 below.
- 10.2 The availability percentage will be calculated per Quarter at the end of each Quarter, as follows:

$$\text{Availability \%} = \frac{(x - y - z)}{(x - z)} \times 100$$

where x = the total number of Service Periods since the beginning of the Quarter to the end of the Quarter being measured; where y = the total number of Service Periods where the Hosting Services were Unavailable in the Quarter not due to Excused Causes; and

where z = the total number of Service Periods where the Hosting Services were Unavailable in the Quarter due to Excused Causes.

- 10.3 If we fail to make the Hosting Services available in accordance with the minimum percentage set out in clause 10.1 in a Quarter, we shall pay Ordering Activity service credits equivalent to one full day of Hosting Services Fees for each full hour that the Hosting Services are Unavailable below such percentage, calculated on a cumulative basis. In no case shall the total service credits for any Quarter exceed 10% of the Hosting Services Fees paid by Ordering Activity for such Quarter. If the availability percentage calculated in accordance with clause 10.2 above falls below 95% in two consecutive Quarters, Ordering Activity may, in lieu of receiving the above-described service credits for the second Quarter, terminate the Hosting Services by providing not less than thirty (30) days' notice of termination, in which case we will refund to Ordering Activity any prepaid fees for Hosting Services that were to be provided following the date of termination. .

X1 Discovery, Inc.
130 W Union Street
Pasadena, CA 91103

**EC America Rider to Product Specific License Terms and Conditions
(for U.S. Government End Users)**

1. **Scope.** This Rider and the attached **X1 Discovery, Inc.** (“Manufacturer”) product specific license terms establish the terms and conditions enabling EC America (“Contractor”) to provide Manufacturer’s information technology products and services to Ordering Activities under EC America’s GSA MAS IT70 contract number GS-35F-0511T (the “Schedule Contract”). Installation and use of the information technology shall be in accordance with this Rider and Manufacturer Specific Terms attached hereto, unless an Ordering Activity determines that it requires different terms of use and Manufacturer agrees in writing to such terms in a valid delivery order placed pursuant to the Schedule Contract.
2. **Applicability.** Whereas GSA and EC America agreed at the time of Schedule Contract award upon a base set of terms and conditions applicable to all manufacturers and items represented on the Schedule Contract; and Whereas, the parties further agreed that all product specific license, warranty and software maintenance terms and conditions would be submitted at the time each new manufacturer was to be added to the Schedule Contract; Now, Therefore, the parties hereby agree that the product specific license, warranty and software maintenance terms set forth in Attachment A hereto (the “Manufacturer Specific Terms” or the “Attachment A Terms”) are incorporated into the Schedule Contract, but only to the extent that they are consistent with federal law (e.g., the Anti-Deficiency Act (31 U.S.C. § 1341), the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 *et seq.*), the Prompt Payment Act (31 U.S.C. §§ 3901 *et seq.*), the Anti-Assignment statutes (31 U.S.C. § 3727 and 41 U.S.C. § 15), DOJ’s jurisdictional statute 28 U.S.C. § 516 (Conduct of Litigation Reserved to the Department of Justice (DOJ)), and 28 U.S.C. § 1498 (Patent and copyright cases)). To the extent any Attachment A Terms are inconsistent with federal law (See, FAR 12.212(a)), such inconsistent terms shall be superseded, unenforceable and of no legal force or effect in all resultant orders under the Schedule Contract, including but not limited to the following provisions:
 - w) **Contracting Parties.** The GSA Customer (“Licensee”) is the “Ordering Activity”, defined as the entity authorized to order under GSA MAS contracts as set forth in GSA ORDER ADM 4800.2G (Feb 2011), as may be revised from time to time.
 - x) **Changes to Work and Delays.** Subject to GSAR Clause 552.243-72, Modifications (Federal Supply Schedule) (July 2000) (Deviation I – SEPT 2010), and 52.212-4(f) Excusable Delays (JUN 2010) regarding which the GSAR and the FAR provisions take precedence.
 - y) **Contract Formation.** Subject to FAR 1.601(a) and FAR 43.102, the GSA Customer Purchase Order must be signed by a duly warranted Contracting Officer, in writing. The same requirement applies to contract modifications affecting the rights of the parties. All terms and conditions intended to bind the Government must be included within the contract signed by the Government.
 - z) **Termination.** Clauses in the Manufacturer Specific Terms referencing termination, suspension and/ or cancellation are superseded and not applicable to any GSA Customer order. Termination shall be governed by the FAR, the underlying GSA Schedule Contract and the terms in any applicable GSA Customer Purchase Orders. If the Contractor believes the GSA Customer to be in breach, it must file a claim with the Contracting Officer and continue to diligently pursue performance. In commercial item contracting under FAR 12.302(b), the FAR provisions dealing with disputes and continued performance cannot be changed by the Contracting Officer.
 - aa) **Choice of Law.** Subject to the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 *et seq.*), the validity, interpretation and enforcement of this Rider shall be governed by and construed in accordance with the federal laws of the United States. In the event the Uniform Computer Information Transactions Act (UCITA) or any similar federal laws or regulations are enacted, to the extent allowed by federal law, they will not apply to this Rider or the underlying Schedule Contract.
 - bb) **Equitable remedies.** Equitable remedies are generally not awarded against the Government absent an express statute providing therefore. In the absence of a direct citation to such a statute, all clauses in the Manufacturer Specific Terms referencing equitable remedies are superseded and not applicable to any GSA Customer order.
 - cc) **Unilateral Termination.** Unilateral termination by the Contractor does not apply to a GSA Customer Purchase Order and all clauses in the Manufacturer Specific Terms referencing unilateral termination rights of the Manufacturer are hereby superseded.
 - dd) **Unreasonable Delay.** Subject to FAR 52.212-4(f) Excusable delays, the Contractor shall be liable for default unless the nonperformance is caused by an occurrence beyond the reasonable control of the Contractor and without its fault or negligence such as, acts of God or the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, unusually severe weather, and delays of common carriers. The Contractor shall notify the Contracting Officer in writing as soon as it is reasonably possible after commencement of any excusable delay, setting forth the full particulars in connection therewith, shall remedy such occurrence with all reasonable dispatch and shall promptly give written notice to the Contracting Officer of the cessation of such occurrence.

- ee) **Assignment.** All clauses regarding the Contractor's assignment are subject to FAR 52.232-23, Assignment of Claims (JAN 1986) and FAR 42.12 Novation and Change-of-Name Agreements (Sep. 2013). All clauses governing the Contractor's assignment in the Manufacturer Specific Terms are hereby superseded.
- ff) **Waiver of Jury Trial.** Waivers of Jury Trials are subject to FAR 52.233-1 Disputes (JULY 2002). The Government will not agree to waive any right that it may have under federal law. All clauses governing a waiver of jury trial in the Manufacturer Specific Terms are hereby superseded.
- gg) **Government Indemnities.** This is an obligation in advance of an appropriation that violates anti-deficiency laws (31 U.S.C. § 1341 and 41 U.S.C. § 6301), since the GSA Customer commits to pay an unknown amount at an unknown future time. The violation occurs when the commitment is made, i.e., when the agreement featuring this clause is incorporated into a Government contract, and not when the clause is triggered. The FAR 12.216 prohibit such indemnifications. All Manufacturer Specific Terms referencing customer indemnities are hereby superseded.
- hh) **Contractor Indemnities.** All Manufacturer Specific Terms that violate DOJ's jurisdictional statute (28 U.S.C. § 516) by requiring that the Government give sole control over the litigation and/or settlement to the Contractor are hereby superseded. Nothing contained in the Manufacturer's Specific terms shall be construed in derogation of the U.S. Department of Justice's right to defend any claim or action brought against the U.S., pursuant to its jurisdictional statute.
- ii) **Renewals.** All Manufacturer Specific Terms that provide for automatic renewals violate the Anti-Deficiency Act and are hereby superseded. This is an obligation in advance of an appropriation that violates anti-deficiency laws (31 U.S.C. § 1341 and 41 U.S.C. § 6301), since the GSA Customer commits to pay an unknown amount at an unknown future time. The violation occurs when the commitment is made, i.e., when the agreement featuring this clause is incorporated into a Government contract, and not when the clause is triggered.
- jj) **Future Fees or Penalties.** All Manufacturer Specific Terms that require the Government to pay any future fees, charges or penalties are hereby superseded unless specifically authorized by existing statutes, such as the Prompt Payment Act (31 U.S.C. § 3901 et seq.) or Equal Access To Justice Act (5 U.S.C. § 504; 28 U.S.C. § 2412).
- kk) **Taxes.** Taxes are subject to FAR 52.212-4(k), which provides that the contract price includes all applicable federal, state, local taxes and duties. Notwithstanding the foregoing, Contractor shall state separately on its invoices, taxes excluded from the fees, and the GSA Customer agrees to either pay the amount of the taxes (based on the current value of the equipment or services) to Contractor or provide it evidence necessary to sustain an exemption, in accordance with FAR 52.229-1 and FAR 52.229-3.
- ll) **Third Party Terms.** When the end user is an instrumentality of the U.S., no license terms bind the GSA Customer unless included verbatim (not by reference) in the EULA, and the EULA is made an attachment to the underlying GSA Schedule Contract. All terms and conditions affecting the GSA Customer must be contained in a writing signed by a duly warranted Contracting Officer. Any third party manufacturer shall be brought into the negotiation, or the components acquired separately under federally-compatible agreements, if any. All Manufacturer Specific Terms that incorporate third party terms by reference are hereby superseded.
- mm) **Dispute Resolution and Standing.** Any disputes relating to the Manufacturer Specific Terms or to this Rider shall be resolved in accordance with the FAR, the underlying GSA Schedule Contract, any applicable GSA Customer Purchase Orders, and the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 et seq.). The Ordering Activity expressly acknowledges that EC America as contractor, on behalf of the Manufacturer, shall have standing to bring such claim under the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 et seq.).
- nn) **Advertisements and Endorsements.** Pursuant to GSAR 552.203-71, use of the name or logo of any U.S. Government entity is prohibited. All Manufacturer Specific Terms that allow the Contractor to use the name or logo of a Government entity are hereby superseded.
- oo) **Public Access to Information.** EC America agrees that the attached Manufacturer Specific Terms and this Rider contain no confidential or proprietary information and acknowledges the Rider shall be available to the public.
- pp) **Confidentiality.** Any provisions in the attached Manufacturer Specific Terms that require the Ordering Activity to keep certain information confidential are subject to the Freedom of Information Act (5 U.S.C. § 552), and any order by a United States Federal Court. When the end user is an instrumentality of the U.S. Government, neither this Rider, the Manufacturer's Specific Terms nor the Schedule Price List shall be deemed "confidential information" notwithstanding marking to that effect. Notwithstanding anything in this Rider, the Manufacturer's Specific Terms or the Schedule Contract to the contrary, the GSA Customer may retain such Confidential Information as required by law, regulation or its bonafide document retention procedures for legal, regulatory or compliance purposes; provided however, that such retained Confidential Information will continue to be subject to the confidentiality obligations of this Rider, the Manufacturer's Specific Terms and the Schedule Contract.
- qq) **Alternate Dispute Resolution.** The GSA Customer cannot be forced to mediate or arbitrate. Arbitration requires prior guidance by the head of a federal agency promulgated via administrative rulemaking according to 5 U.S.C. § 575(c). GSA has not issued any because it considers the Board of Contract Appeals to be an adequate, binding ADR alternative. All

Manufacturer Specific Terms that allow the Contractor to choose arbitration, mediation or other forms of alternate dispute resolution are hereby superseded.

- rr) **Ownership of Derivative Works.** Provisions purporting to vest exclusive ownership of all derivative works in the licensor of the standard software on which such works may be based are superseded. Ownership of derivative works should be as set forth in the copyright statute, 17 U.S.C. § 103 and the FAR clause at 52.227-14, but at a minimum, the GSA Customer shall receive unlimited rights to use such derivative works at no further cost.

3. Order of Precedence/Conflict. To the extent there is a conflict between the terms of this Rider and the terms of the underlying Schedule Contract or a conflict between the terms of this Rider and the terms of an applicable GSA Customer Purchase Order, the terms of the GSA Schedule Contract or any specific, negotiated terms on the GSA Customer Purchase Order shall control over the terms of this Rider. Any capitalized terms used herein but not defined, shall have the meaning assigned to them in the underlying Schedule Contract.

**ATTACHMENT A
CONTRACTOR SUPPLEMENTAL PRICELIST INFORMATION AND TERMS**

X1 Discovery, INC.

X1 Discovery, INC. LICENSE, WARRANTY AND SUPPORT TERMS

These terms correspond to the X1D Search 8 software product ("Software").

1. License. Subject to Ordering Activity compliance with the terms and conditions of this License and payment of any applicable license fees, Contractor grants to Ordering Activity a limited, non-exclusive, non-transferable, non-sublicensable license to download, install and use a single copy of the Software: (i.) on one primary computer, and (ii.) on one other computer used primarily by Ordering Activity (e.g., a portable computer), provided that the Software is not in concurrent use on more than one device at all times. "Software" includes object code form of the software program, accompanying documentation, related components provided with the Software, and any updates and maintenance releases provided to Ordering Activity. Ordering Activity shall not use the Software to provide any service bureau, rental service, subscription service, litigation support or other consulting service where Ordering Activity sell output or results from the Software. Ordering Activity understand that the Software is not designed to preserve data as evidence for court purposes or data retention and X1P expressly disclaims any liability for data loss or alteration. This Software is licensed, not sold, and Contractor grants Ordering Activity only the specific rights expressly set forth in this paragraph. Contractor reserves all other rights.
2. Restrictions. Ordering Activity agree not to (i) alter any copyright, trademark, patent, or other proprietary legends on or in the Software; (ii) decompile, reverse engineer, disassemble or otherwise reproduce the Software, or modify or create derivative works based on the Software; (iii) publish, rent, lease, sublicense, distribute, transfer or assign the Software; (iv) use the Software in any manner that could damage, disable, burden, or impair Contractor's servers; or (v) merge the Software into another program. The Software may contain software licensed from third parties ("Licensed Software") and Ordering Activity may not access any Licensed Software made available in connection with or through the Software (e.g., an integrated file viewer) without the presence and execution of the Software. Ordering Activity agree that the owners of such Licensed Software may enforce their rights against Ordering Activity directly in their own name.
3. Support. The terms of this License will also govern all updates or upgrades provided by Contractor through X1D which replace or supplement the Software, unless such update or upgrade is accompanied by a separate license, in which case the terms of that license will govern. Ordering Activity are not entitled to any updates, enhancements, upgrades or modifications to the Software or any support or maintenance services unless Ordering Activity have entered into an agreement for such support or maintenance services and are in good standing under such agreement. Contractor does not guarantee that any future updates or upgrades of Software will be made available to Ordering Activity or will be available free of charge. Additionally, Contractor may automatically download and install updates or other changes to the Software. Without limiting the generality of the foregoing, Contractor may cease offering support of any kind pertaining to the usage of older releases of Software whenever a new release, whether for free or for pay, of Software becomes available.
4. Third Party Services. Contractor through X1D may enable access to third party software, services, content and web sites (collectively, "Third Party Services") from within or through the Software. Ordering Activity acknowledge and agree that Contractor nor X1D is not responsible for examining or evaluating the content, accuracy, completeness, timeliness, validity, copyright compliance, legality, decency, quality or any other aspect of such Third Party Services. Use of the Third Party Services may require Internet access, subscription to a service, and acceptance of terms for such Third Party Services. To the extent Ordering Activity choose to access such Third Party Services, Ordering Activity are responsible for compliance with all fees, terms of service and all applicable laws with respect to such Third Party Services. Ordering Activity hereby waive any legal claim Ordering Activity might have against Contractor with respect to such Third Party Services.
5. Changes. X1D products and services are constantly evolving and Contractor may change or discontinue the Software or impose new or additional rules, policies, terms or conditions on Ordering Activity's use of the Software and all or part of the terms of this License, without notice or liability to Ordering Activity. ORDERING ACTIVITY'S CONTINUED USE OF THE SOFTWARE FOLLOWING CONTRACTOR THROUGH X1D'S POSTING OF ANY CHANGED TERMS WILL CONSTITUTE ORDERING ACTIVITY'S ACCEPTANCE OF THE CHANGED TERMS.
6. Termination. This License is effective until terminated. Ordering Activity may terminate this License at any time. If Ordering Activity licensed the Software under a term license, the License shall terminate upon the expiration of the stated license term. Upon termination, Ordering Activity must uninstall, remove, and delete all copies and installations of the Software.
7. Data Collection and Privacy. Use of the Software is subject to our Privacy Policy.

INFORMATION COLLECTED

Automatic Collection: Like most other websites, we use common internet technologies such as cookies and Web beacons to keep track of users' interactions with the Site and the Services. This may include your internet protocol (IP) address, Referring website addresses, browser type and access times and mobile carrier or internet access provider.

Volunteered: If you register with us, subscribe to or use downloadable software or web-based applications, fill out a profile page, purchase products or services, send us an email, or share personal information with us in any other way, we will collect and store whatever information you share. This obviously depends on what information you choose to provide but it may include your name, email address, credit card information or other billing information. The collection of this information is part of regular business practices and is necessary in order to complete transactions and properly run and administer these services. You do not have to share this information with us, but without it you may not be able to access certain content or features or participate in certain areas of the Site.

Publicly Posted: If you post information on public areas of the Site (or elsewhere on the internet) that information may be collected, stored and used by anyone, including us. We strongly recommend that you do not post any information that allows strangers to identify or locate you. Posting such information may result in unsolicited messages or contact from others, to say the least.

Installation Numbers. X1 software products may use a system of authentication and identification during installation of the software and on an ongoing basis to confirm that the user of the X1 software products is an authorized licensee. This phone home functionality is used to authenticate the server or device utilizing the X1 Services.

Support. X1 Services do not transmit results of any searches conducted by the user back to X1. To be clear, your case related information or other content is not provided back to X1. However, if you experience an error, the X1 Services will send log information to X1 for service and support purposes and such log data may include information about a user's profile, computer or device, and search history.

Credit Card Security. Providing you with a secure ordering experience is a high priority. When you submit an order through the Site, the order information is encrypted when it is transmitted for credit card processing to X1 (and its credit card services provider).

Encryption is a process by which we use software to scramble information in transit. The Site is also registered with site identification authorities to enable your browser to confirm X1's identity before any transmission is sent. The identity of our site is automatically confirmed behind the scenes prior to the transmission of any customer information requested to complete an online order so that your data reaches your intended target. When confirming an order to you by email, we reveal only the last four digits of your credit card numbers. Of course, we transmit the entire credit card number to the appropriate credit card company during order processing.

HOW DO WE USE THE INFORMATION WE COLLECT

We use this information to provide you with better service. It also helps our advertisers and partners provide you with more relevant offers, which in turn helps cover the cost of our services to you. Among other things, the information we collect enables X1 to: customize the content you see fulfill your requests for products and services and validate your user rights improve services contact and communicate with you conduct research and analysis provide anonymous reporting for internal and external clients provide you with additional information we think is of interest to you.

WHEN DO WE SHARE OR DISCLOSE YOUR INFORMATION?

Anonymous Information. Anonymous information is information that does not identify you personally, like your IP address and Referring website addresses. We may share anonymous information with others, such as advertisers, sponsors and business partners.

All Information (Both Anonymous and Personally Identifiable). In certain circumstances, we may share information we have collected, including personally identifiable information. For example:

We might share your personally identifiable information during due diligence or in preparation for or after a sale, merger, consolidation, change in control, transfer of substantial assets, reorganization or liquidation.

If you give us permission, we may share your personally identifiable information with third parties who might send you marketing and promotional information.

Your personal information may be transferred to anyone who is helping us make the Site and Services available and functional, like technical agents, payment processing vendors, other subcontractors, and our affiliates and consultants.

As in any transaction, if you provide your credit card information to us for purchases, your credit card company will be provided with all relevant information about us, item(s) purchased, cost and other information necessary to process the transaction.

We may disclose your personal information if permitted or required by law or is necessary to comply with the law enforcement or in response to a search warrant, subpoena or other legal process or where we believe such action is necessary in order to protect or defend our interests or the interests of our users or business partners.

CHILDREN UNDER 13

The Site is not intended for children under age 13, or for anyone under age 18 without involvement of a parent or guardian. The Site includes unmonitored content posted by users and sourced from other third parties and as you can imagine, such content may be unsuitable for children. We do not knowingly collect or distribute information from or about children under 13.

THIRD PARTIES

Like most other websites, we may engage third parties to directly gather non-personally identifiable information from users of the Site through automated means such as cookies. For example, we may engage a third party to help us track and analyze anonymous information from users who visit the Site or use the Services. This Privacy Policy does not cover how third parties use cookies or other technologies or any information they gather through such technologies.

The Sites and Services may contain links to websites or other properties and content operated by third parties over which X1 has no control. Their privacy policies may be different from our Privacy Policy, and you access such linked websites or third-party content at your own risk.

SECURITY

Information that X1 collects is stored on servers that X1 manages, using standard security procedures and practices appropriate to the nature of the information. Please be aware that no data transmission over the Internet can be guaranteed to be 100% secure. As a result, X1 cannot guarantee or warrant the security of any information you transmit on or through the Sites or Services and you do so at your own risk.

FOREIGN COUNTRIES

Your personal information may be transferred to and maintained on servers or databases located outside your state or country or to a jurisdiction where the privacy laws may not be as protective as those in your location. If you are located outside of the United States, please be advised that X1 processes and stores information in the United States and your use of our Site or Services constitutes your consent to and understanding of this processing.

CHANGES TO PRIVACY POLICY

X1 reserves the right to change this Privacy Policy at any time, and will do so by posting changes to this Privacy Policy on the Site.

8. **DISCLAIMER OF WARRANTY.** THE SOFTWARE IS PROVIDED "AS IS," WITH NO WARRANTIES WHATSOEVER.

CONTRACTOR EXPRESSLY DISCLAIMS ALL EXPRESS, IMPLIED, AND STATUTORY WARRANTIES, INCLUDING, WITHOUT LIMITATION, THE WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, AND NON-INFRINGEMENT OF PROPRIETARY RIGHTS. CONTRACTOR DISCLAIMS ANY WARRANTIES REGARDING THE SECURITY, RELIABILITY, TIMELINESS, AND PERFORMANCE OF THE SOFTWARE. ORDERING ACTIVITY UNDERSTAND AND AGREE THAT ORDERING ACTIVITY DOWNLOAD, INSTALL, AND/OR USE THE SOFTWARE AT ORDERING ACTIVITYR OWN DISCRETION AND RISK AND THAT ORDERING ACTIVITY WILL BE SOLELY RESPONSIBLE FOR ANY DAMAGES TO ORDERING ACTIVITYR COMPUTER SYSTEM OR LOSS OF DATA THAT RESULTS FROM THE DOWNLOAD, INSTALLATION, OR USE OF THE SOFTWARE. CONTRACTOR DISCLAIMS ANY RESPONSIBILITY FOR ANY HARM RESULTING FROM ORDERING ACTIVITYR DOWNLOAD, INSTALLATION, OR USE OF THE SOFTWARE.

9. RESERVED.

10. Ordering Activity CONTRACTOR

11. **Export Control; Government End Users.** The Software is subject to United States export laws and regulations. Ordering Activity must comply with all domestic and international export laws and regulations that apply to the Software, which may include restrictions on destinations, end users and usage. If the Software is supplied to or on behalf of the United States Government, then the Software is deemed to be "commercial software" as that term is used in the Federal Acquisition Regulation system. Rights of the United States shall not exceed the minimum rights set forth in FAR 52.227-19 for "restricted computer software." All other terms and conditions of this License apply.

12. Reserved.

13. Reserved.

14. Miscellaneous.

Changes. We are constantly developing our Site and Services. This means that we may change or discontinue either or both without notice or liability to you. In addition, we may change all or part of the Agreement at any time, including these terms. We may make changes by posting the changed terms on the Site. YOUR CONTINUED USE OF THE SITE AND/OR OUR SERVICES WILL CONSTITUTE ACCEPTANCE OF THE CHANGED TERMS.

Third Party Content and Links. Contractor through X1 provides Services that allow you to view content on third party services. X1 is not a content provider and does not control the content or websites of such third party services. You acknowledge and agree that any third-party products or services are not the responsibility of Contractor or X1 and are subject to the terms of such third-party at its sole discretion. Furthermore, you acknowledge and agree that nothing herein is a grant of license to (i) the third-party products or services; (ii) any products, processes or technology described in or offered by the third-party products or services; or (iii) any copyright, trademark, patent or other intellectual property right in the third-party products or services. We disclaim any responsibility for any harm resulting with respect to viewing or using of any third-party content or third-party products or services.

Things You Cannot Do.

Give false or misleading information to us or anyone else in connection with your use of the Site or the Services, including giving false information in your account registration. You are entirely responsible for all content that you upload, post or otherwise transmit via the Site.

Upload, post or otherwise transmit via the Site any content that: (i) is harmful, obscene, indecent, pornographic, defamatory, racist, violent, offensive, threatening, harassing, or otherwise objectionable to Evolution or other users of the Site; (ii) includes unauthorized disclosure of personal information; (iii) violates or infringes anyone's intellectual property rights; or (iv) contains software viruses or any other computer code, files or programs designed to interrupt, destroy or limit the functionality of any computer software or hardware or telecommunications equipment. X1 reserves the right to edit or remove content that violates this Agreement.

Do anything that smacks of bad online citizenship, such as use our Services for spam or attempt to reverse engineer or hack into our systems.

Access or scrape the Site or the Services by any automated means unless you are a search engine crawling the Site for the sole purpose of creating a publicly accessible search index; or bypass any technical protections or throttling that we institute.

Copy, modify, create derivative works from or distribute any content from the Site (whether the content has been posted by us or a third party); copy, display or use our trademarks in any way; or use the Site for any purpose not explicitly authorized in the Agreement.

Link to the Site using any HTML techniques that display the Site within a frame, partial window, popup, pop-under, or any other non-standard linking method, or present or redistribute content from the Services, except as provided authorized by X1.

Anything we ask you not to do.

Third Party Applications. Contractor through X1 may offer its Services utilizing application program interfaces available from other third party providers ("API"). Such APIs may also offer to display content provided by other third-party party products and services (a) through APIs, "feeds" or other mechanisms provided by such third-party party products and services, or (b) by accessing your

accounts with such third-party products and services as authorized by you during your use of the Services ("User Content"). As to User Content we access through the APIs, you hereby authorize X1 to access your account for the purpose of obtaining and using such User Content. The use of such APIs made available by third parties is subject to the terms and conditions provided by those providers for application developers such as X1. We make no representations or warranties regarding the performance of such third-party services, their compliance with applicable laws and regulations, or any other aspect of such third-party services. Your use of third-party services is at your own risk. You acknowledge and agree that the third-party services and any related third-party terms of service are subject to change by the applicable third-party at its sole discretion and without any notice.

Third Party Trademarks and Content. Use of any third party trademark or third party content on the Site does not constitute affiliation with or endorsement of these third parties. Aside from any explicit grants in the Agreement, nothing in the Agreement grants you any license to third party trademarks or content. All trademarks are the property of their respective owners.

X1's Rights. X1 retains all right, title and interest in the Site and the Services, including all technology and processes, enhancements or modifications thereto, trademarks, service marks, logos, site design, text, graphics, logos, images and icons, as well as the arrangement thereof. You agree that the Services contain proprietary content, information and material that is protected by applicable intellectual property and other laws, including but not limited to copyright, and that you will not use such proprietary content, information, or materials in any way whatsoever except for permitted uses of the Services. Except for rights expressly granted in the Agreement, nothing in the Agreement grants you any right, title or license. Except as otherwise required or limited by applicable law, any reproduction, distribution, modification, retransmission, or publication of any copyrighted material is strictly prohibited without the express written consent of the copyright owner or licensee.

X1 PROVIDES THIS SITE AND THE SERVICES "AS IS" AND WITHOUT ANY WARRANTY OR CONDITION, EXPRESS, IMPLIED, OR STATUTORY. X1 SPECIFICALLY DISCLAIMS ANY IMPLIED WARRANTIES OF TITLE, MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, ACCURACY OF INFORMATIONAL CONTENT, AND NON-INFRINGEMENT. YOU ASSUME TOTAL RESPONSIBILITY AND RISK FOR YOUR USE OF THIS SITE AND SERVICES. X1 MAKES NO WARRANTY THAT THE SITE OR SERVICES WILL MEET YOUR REQUIREMENTS OR WILL BE UNINTERRUPTED, TIMELY, SECURE, OR ERROR FREE, NOR DOES X1 MAKE ANY WARRANTY AS TO THE ACCURACY OR RELIABILITY OF ANY INFORMATION OBTAINED THROUGH THE SITE OR THE SERVICES OR THAT ANY DEFECTS WILL BE CORRECTED. NO ADVICE OR INFORMATION, WHETHER ORAL OR WRITTEN, OBTAINED BY YOU FROM X1 SHALL CREATE ANY WARRANTY NOT EXPRESSLY MADE HEREIN. THIS DISCLAIMER IS MADE TO THE FULLEST EXTENT PERMITTED BY LAW. SOME STATES AND COUNTRIES DO NOT ALLOW THE DISCLAIMER OF IMPLIED WARRANTIES, SO THE FOREGOING DISCLAIMER MAY NOT APPLY TO YOU.

Yubico Inc.
420 Florence Street, Suite 200
Palo Alto, CA 94301

**EC America Rider to Product Specific License Terms and Conditions
(for U.S. Government End Users)**

1. **Scope.** This Rider and the attached Yubico Inc. (“Manufacturer”) product specific license terms establish the terms and conditions enabling EC America (“Contractor”) to provide Manufacturer’s information technology products and services to Ordering Activities under EC America’s GSA MAS IT70 contract number GS-35F-0511T (the “Schedule Contract”). Installation and use of the information technology shall be in accordance with this Rider and Manufacturer Specific Terms attached hereto, unless an Ordering Activity determines that it requires different terms of use and Manufacturer agrees in writing to such terms in a valid delivery order placed pursuant to the Schedule Contract.

2. **Applicability.** Whereas GSA and EC America agreed at the time of Schedule Contract award upon a base set of terms and conditions applicable to all manufacturers and items represented on the Schedule Contract; and Whereas, the parties further agreed that all product specific license, warranty and software maintenance terms and conditions would be submitted at the time each new manufacturer was to be added to the Schedule Contract; Now, Therefore, the parties hereby agree that the product specific license, warranty and software maintenance terms set forth in Attachment A hereto (the “Manufacturer Specific Terms” or the “Attachment A Terms”) are incorporated into the Schedule Contract, but only to the extent that they are consistent with Federal law (*e.g.*, the Anti-Deficiency Act (31 U.S.C. § 1341), the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 *et seq.*), the Prompt Payment Act (31 U.S.C. §§ 3901 *et seq.*), the Anti-Assignment statutes (31 U.S.C. § 3727 and 41 U.S.C. § 15), DOJ’s jurisdictional statute 28 U.S.C. § 516 (Conduct of Litigation Reserved to the Department of Justice (DOJ), and 28 U.S.C. § 1498 (Patent and copyright cases)). To the extent any Attachment A Terms are inconsistent with Federal law (See, FAR 12.212(a)), such inconsistent terms shall be superseded, unenforceable and of no legal force or effect in all resultant orders under the Schedule Contract, including but not limited to the following provisions:
 - a) **Contracting Parties.** The GSA Customer (“Licensee”) is the “Ordering Activity”, defined as the entity authorized to order under GSA MAS contracts as set forth in GSA Order OGP 4800.2I, as may be revised from time to time.
 - b) **Changes to Work and Delays.** Subject to GSAR Clause 552.243-72, Modifications (Federal Supply Schedule) (July 2000) (Deviation I – SEPT 2010), and 52.212-4(f) Excusable Delays (JUN 2010) regarding which the GSAR and the FAR provisions take precedence.
 - c) **Contract Formation.** Subject to FAR 1.601(a) and FAR 43.102, the GSA Customer Purchase Order must be signed by a duly warranted Contracting Officer, in writing. The same requirement applies to contract modifications affecting the rights of the parties. All terms and conditions intended to bind the Government must be included within the contract signed by the Government.
 - d) **Termination.** Clauses in the Manufacturer Specific Terms referencing termination or cancellation are superseded and not applicable to any GSA Customer order. Termination shall be governed by the FAR, the underlying GSA Schedule Contract and the terms in any applicable GSA Customer Purchase Orders. If the Contractor believes the GSA Customer to be in breach, it must file a claim with the Contracting Officer and continue to diligently pursue performance. In commercial item contracting under FAR 12.302(b), the FAR provisions dealing with disputes and continued performance cannot be changed by the Contracting Officer.
 - e) **Choice of Law.** Subject to the Contracts Disputes Act, the validity, interpretation and enforcement of this Rider shall be governed by and construed in accordance with the laws of the United States. In the event the Uniform Computer Information Transactions Act (UCITA) or any similar federal laws or regulations are enacted, to the extent allowed by federal law, they will not apply to this Rider or the underlying Schedule Contract.
 - f) **Equitable remedies.** Equitable remedies are generally not awarded against the Government absent a statute providing therefore. In the absence of a direct citation to such a statute, all clauses in the Manufacturer Specific Terms referencing equitable remedies are superseded and not applicable to any GSA Customer order.
 - g) **Unilateral Termination.** Unilateral termination by the Contractor does not apply to a GSA Customer Purchase Order and all clauses in the Manufacturer Specific Terms referencing unilateral termination rights of the Manufacturer are hereby superseded.

- h) **Unreasonable Delay.** Subject to FAR 52.212-4(f) Excusable delays, the Contractor shall be liable for default unless the nonperformance is caused by an occurrence beyond the reasonable control of the Contractor and without its fault or negligence such as, acts of God or the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, unusually severe weather, and delays of common carriers. The Contractor shall notify the Contracting Officer in writing as soon as it is reasonably possible after commencement of any excusable delay, setting forth the full particulars in connection therewith, shall remedy such occurrence with all reasonable dispatch and shall promptly give written notice to the Contracting Officer of the cessation of such occurrence.
- i) **Assignment.** All clauses regarding the Contractor's assignment are subject to FAR 52.232-23, Assignment of Claims (JAN 1986) and FAR 42.12 Novation and Change-of-Name Agreements (Sep. 2013). All clauses governing the Contractor's assignment in the Manufacturer Specific Terms are hereby superseded.
- j) **Waiver of Jury Trial.** Waivers of Jury Trials are subject to FAR 52.233-1 Disputes (JULY 2002). The Government will not agree to waive any right that it may have under federal law. All clauses governing a waiver of jury trial in the Manufacturer Specific Terms are hereby superseded.
- k) **Government Indemnities.** This is an obligation in advance of an appropriation that violates anti-deficiency laws (31 U.S.C. § 1341 and 41 U.S.C. § 6301), since the GSA Customer commits to pay an unknown amount at an unknown future time. The violation occurs when the commitment is made, i.e., when the agreement featuring this clause is incorporated into a Government contract, and not when the clause is triggered. The Interim FAR Rule dated June 21, 2013 and the Office of Legal Counsel opinion dated March 12, 2012 prohibit such indemnifications. All Manufacturer Specific Terms referencing customer indemnities are hereby superseded.
- l) **Contractor Indemnities.** All Manufacturer Specific Terms that violate DOJ's jurisdictional statute (28 U.S.C. § 516) by requiring that the Government give sole control over the litigation and/or settlement to the Contractor are hereby superseded. Nothing contained in the Manufacturer's Specific terms shall be construed in derogation of the U.S. Department of Justice's right to defend any claim or action brought against the U.S., pursuant to its jurisdictional statute.
- m) **Renewals.** All Manufacturer Specific Terms that provide for automatic renewals violate the Anti-Deficiency Act and are hereby superseded. This is an obligation in advance of an appropriation that violates anti-deficiency laws (31 U.S.C. § 1341 and 41 U.S.C. § 6301), since the GSA Customer commits to pay an unknown amount at an unknown future time. The violation occurs when the commitment is made, i.e., when the agreement featuring this clause is incorporated into a Government contract, and not when the clause is triggered.
- n) **Future Fees or Penalties.** All Manufacturer Specific Terms that require the Government to pay any future fees, charges or penalties are hereby superseded unless specifically authorized by existing statutes, such as the Prompt Payment Act (31 U.S.C. § 3901 et seq.) or Equal Access To Justice Act (5 U.S.C. § 504; 28 U.S.C. § 2412).
- o) **Taxes.** Taxes are subject to FAR 52.212-4(k), which provides that the contract price includes all applicable federal, state, local taxes and duties. Contractor shall state separately on its invoices, taxes excluded from the fees, and the GSA Customer agrees to either pay the amount of the taxes (based on the current value of the equipment or services) to Contractor or provide it evidence necessary to sustain an exemption, in accordance with FAR 52.229-1 and FAR 52.229-3.
- p) **Third Party Terms.** When the end user is an instrumentality of the U.S., no license terms bind the GSA Customer unless included verbatim (not by reference) in the EULA, and the EULA is made an attachment to the underlying GSA Schedule Contract. All terms and conditions affecting the GSA Customer must be contained in a writing signed by a duly warranted Contracting Officer. Any third party manufacturer shall be brought into the negotiation, or the components acquired separately under federally-compatible agreements, if any. All Manufacturer Specific Terms that incorporate third party terms by reference are hereby superseded.
- q) **Dispute Resolution and Standing.** Any disputes relating to the Manufacturer Specific Terms or to this Rider shall be resolved in accordance with the FAR, the underlying GSA Schedule Contract, any applicable GSA Customer Purchase Orders, and the Contract Disputes Act. The Ordering Activity expressly acknowledges that EC America as contractor, on behalf of the Manufacturer, shall have standing to bring such claim under the Contract Disputes Act.
- r) **Advertisements and Endorsements.** Pursuant to GSAR 552.203-71, use of the name or logo of any U.S. Government entity is prohibited. All Manufacturer Specific Terms that allow the Contractor to use the name or logo of a Government entity are hereby superseded.
- s) **Public Access to Information.** EC America agrees that the attached Manufacturer Specific Terms and this Rider contain no confidential or proprietary information and acknowledges the Rider shall be available to the public.

- t) **Confidentiality.** Any provisions in the attached Manufacturer Specific Terms that require the Ordering Activity to keep certain information confidential are subject to the Freedom of Information Act (5 U.S.C. § 552), and any order by a United States Federal Court. When the end user is an instrumentality of the U.S. Government, neither this Rider, the Manufacturer's Specific Terms nor the Schedule Price List shall be deemed "confidential information" notwithstanding marking to that effect. Notwithstanding anything in this Rider, the Manufacturer's Specific Terms or the Schedule Contract to the contrary, the GSA Customer may retain such Confidential Information as required by law, regulation or its bonafide document retention procedures for legal, regulatory or compliance purposes; provided however, that such retained Confidential Information will continue to be subject to the confidentiality obligations of this Rider, the Manufacturer's Specific Terms and the Schedule Contract.
- u) **Alternate Dispute Resolution.** The GSA Customer cannot be forced to mediate or arbitrate. Arbitration requires prior guidance by the head of a federal agency promulgated via administrative rulemaking according to 5 U.S.C. § 575(c). GSA has not issued any because it considers the Board of Contract Appeals to be an adequate, binding ADR alternative. All Manufacturer Specific Terms that allow the Contractor to choose arbitration, mediation or other forms of alternate dispute resolution are hereby superseded.
- v) **Ownership of Derivative Works.** Provisions purporting to vest exclusive ownership of all derivative works in the licensor of the standard software on which such works may be based are superseded. Ownership of derivative works should be as set forth in the copyright statute, 17 U.S.C. § 103 and the FAR clause at 52.227-14, but at a minimum, the GSA Customer shall receive unlimited rights to use such derivative works at no further cost.
3. **Order of Precedence/Conflict.** To the extent there is a conflict between the terms of this Rider and the terms of the underlying Schedule Contract or a conflict between the terms of this Rider and the terms of an applicable GSA Customer Purchase Order, the terms of the GSA Schedule Contract or any specific, negotiated terms on the GSA Customer Purchase Order shall control over the terms of this Rider. Any capitalized terms used herein but not defined, shall have the meaning assigned to them in the underlying Schedule Contract.

**ATTACHMENT A
CONTRACTOR SUPPLEMENTAL PRICELIST INFORMATION AND TERMS**

YUBICO

YUBICO LICENSE, WARRANTY AND SUPPORT TERMS

The terms & conditions of this Attachment shall be incorporated into each contract between Yubico and Ordering Activity for the purchase and sale of the Product, and shall govern each such purchase and sale and the use of the Product and Service.

As used herein, "**Yubico**" means the Yubico entity, Yubico, Inc., that supplied the Product to Ordering Activity, "**Product**" means YubiKey or YubiHSM, as applicable, and "**Service**" means the YubiCloud one-time password validation service.

A. Limited Warranty. Yubico warrants that the Product will be free from defects in material and workmanship for a period of one (1) year from the date of delivery to the original purchaser (the "**Warranty Period**"). If a defect in material or workmanship arises within the Product during the Warranty Period and the Product is returned to Yubico within the Warranty Period, Yubico will, at its sole option and subject to applicable laws: (a) repair or replace any defective Product with a new or refurbished product; or (b) refund the original purchase price of the Product. The Warranty Period for any repaired or replacement Product will persist for the longer of the remainder of the original one (1) year Warranty Period or ninety (90) days from the date the repaired or replacement product is shipped to the user. This Paragraph A sets forth Yubico's sole obligation and Ordering Activity's sole remedy for any breach of the Limited Warranty.

B. Restrictions. The Limited Warranty extends only to the original purchaser of the Product and is non-transferrable. The Limited Warranty does NOT apply to a Product that: (a) is altered or modified, other than by Yubico; (b) is not maintained in a normal and customary fashion or is operated outside of Yubico's recommended guidelines; (c) has been subjected to abnormal physical or electrical stress, misuse, negligence or accident; (d) has had its original serial number altered or removed, other than as a result of normal wear and tear; or (e) Yubico has provided free of charge. In no event does Yubico warrant that the Product is error free, will operate properly or at all in all computer environments and configurations, or that Ordering Activity will be able to operate the Product without problems or interruptions. Yubico does not warrant that the Product or any equipment, system or network on which the Product is used will be free of vulnerability to intrusion or attack.

C. Grant of License. The Product may contain certain object code software deployed onto its secure hardware prior to delivery to the user ("**Firmware**") and/or provided separately for use with the Product ("**Driver Code**") ("collectively, "**Software**"). Yubico grants Ordering Activity a personal, nonexclusive, non-sublicensable, non-assignable and non-transferable license to use the Software solely as part of Ordering Activity's use of the Product and in accordance with the terms and conditions of this

Attachment. Ordering Activity may use the Firmware only as originally deployed onto the Product. Ordering Activity may not separate the Firmware from the remainder of Product or use the Software on another device. Ordering Activity may not distribute, license, sell, rent, or otherwise provide the Software to third parties. Ordering Activity acknowledges that the Software may have bugs or security vulnerabilities and that in no event does Yubico warrant that the Software is error-free or that the Software or the Product as a whole is free of all possible security vulnerabilities.

D. Rights Protection. The Software is licensed not sold. All title to the Software and other Yubico intellectual property rights related to the Software such as, but not limited to, copyright, trade secrets, patents, trademarks and service marks, shall at all times remain with Yubico and its licensors as applicable. Ordering Activity agrees that the techniques, ideas, algorithms, design, concepts, code, and processes contained or enabled in the Product constitute Yubico's intellectual property rights and are subject to confidentiality protection. As such, Ordering Activity agrees not to reverse engineer, disassemble or decompile, or otherwise attempt to derive the source code for, or perform cryptographic analysis upon, the Product to the extent this restriction is permitted by law.

E. Compliance with Laws. In connection with the use and transport of the Product, including the Software, Ordering Activity shall comply with all applicable export, import, and other relevant laws. Determination of the applicable law is Ordering Activity's responsibility. Ordering Activity acknowledges and understand that the Product, including the Software, is cryptographic in nature and that it therefore is highly regulated. Ordering Activity is strictly prohibited from exporting, reexporting or importing the Product and/or Software, regardless of method, without first complying with all applicable government use, import, and export laws, rules, regulations, and orders, and obtaining any necessary approvals or permits. Obtaining any necessary export or import approval for the Product is Ordering Activity's responsibility.

F. Warranty Disclaimer. THE SERVICE IS PROVIDED FREE OF CHARGE AND "AS IS" WITHOUT ANY REPRESENTATIONS OR WARRANTIES WHATSOEVER. WITH RESPECT TO THE PRODUCT, INCLUDING THE SOFTWARE, ALL IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE LIMITED TO THE DURATION OF THE APPLICABLE EXPRESS LIMITED WARRANTY. ALL OTHER STATUTORY AND IMPLIED CONDITIONS, REPRESENTATIONS AND WARRANTIES, INCLUDING ANY IMPLIED WARRANTY OF NON-INFRINGEMENT, ARE DISCLAIMED. Some jurisdictions do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to Ordering Activity. The Limited Warranty gives Ordering Activity specific legal rights, and Ordering Activity may also have other rights which vary by jurisdiction.

TO THE EXTENT NOT PROHIBITED BY LAW, IN NO EVENT WILL YUBICO OR ITS AFFILIATES BE LIABLE FOR ANY LOST DATA OR UNAUTHORIZED ACCESS TO COMPUTER SYSTEMS, DATA OR OTHER INFORMATION.

EXCEPT AS EXPRESSLY PROVIDED HEREIN, YUBICO PROVIDES THE PRODUCT "AS IS." BY USING THE PRODUCT, THE USER ASSUMES ALL RESPONSIBILITY FOR AND RISK OF USE OF THE PRODUCT. WITHOUT LIMITING THE SCOPE OF THE FOREGOING, YUBICO DOES NOT WARRANT THAT THE PRODUCT OR THE SERVICE WILL FUNCTION WITHOUT DEFECTS OR THAT THE PRODUCT OR THE SERVICE IS OR WILL BE FREE OF VIRUSES OR OTHER HARMFUL MECHANISMS OR THAT ALL PROGRAMMING ERRORS CAN BE FOUND IN ORDER TO BE CORRECTED. TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, AND CONSISTENT WITH THIS ATTACHMENT, YUBICO DISCLAIMS ANY LIABILITY OR RESPONSIBILITY FOR THE ACCURACY, ERRORS, OMISSIONS, COMPLETENESS, OR USEFULNESS OF THE PRODUCT, THE SERVICE, AND ANY SOFTWARE, PROCEDURE, METHOD, APPARATUS, TECHNICAL SUPPORT OR PROCESS PROVIDED TO ORDERING ACTIVITY IN ASSOCIATION WITH THIS ATTACHMENT. YUBICO, ITS AFFILIATES, LICENSORS, EMPLOYEES, DISTRIBUTORS AND RESELLERS DO NOT ASSUME ANY RESPONSIBILITY FOR LOSS OR DAMAGES RESULTING FROM THE USE OF THE PRODUCT, THE SERVICE OR ANY INFORMATION CONTAINED IN ANY DOCUMENTATION PROVIDED TO USER.

THIS AGREEMENT SHALL NOT IMPAIR THE U.S. GOVERNMENT'S RIGHT TO RECOVER FOR FRAUD OR CRIMES ARISING OUT OF OR RELATED TO THIS CONTRACT UNDER ANY FEDERAL FRAUD STATUTE, INCLUDING THE FALSE CLAIMS ACT, 31 U.S.C. 3729-3733. FURTHERMORE, THIS CLAUSE SHALL NOT IMPAIR NOR PREJUDICE THE U.S. GOVERNMENT'S RIGHT TO EXPRESS REMEDIES PROVIDED IN THE GSA SCHEDULE CONTRACT (E.G., CLAUSE 552.238-75 – PRICE REDUCTIONS, CLAUSE 52.2124(H) – PATENT INDEMNIFICATION, AND GSAR 552.215-72 – PRICE ADJUSTMENT – FAILURE TO PROVIDE ACCURATE INFORMATION).

**EC America Rider to Product Specific License Terms and Conditions
 (for U.S. Government End Users)**

1. Scope. This Rider and the attached Xirrus, Inc. (“Manufacturer”) product specific license terms establish the terms and conditions enabling EC America to provide Manufacturer’s information technology products and services to Ordering Activities under EC America’s GSA MAS IT70 contract number GS-35F-0511T (the “Schedule Contract”).

2. Applicability. Whereas GSA and EC America agreed at the time of Schedule Contract award upon a base set of terms and conditions applicable to all manufacturers and items represented on the Schedule Contract; and Whereas, the parties further agreed that all product specific license, warranty and software maintenance terms and conditions would be submitted at the time each new manufacturer was to be added to the Schedule Contract; Now, Therefore, the parties hereby agree the product specific license, warranty and software maintenance terms set forth in Attachment A hereto (the “Manufacturer Specific Terms” or the “Attachment A Terms”) are incorporated into the Schedule Contract, but only to the extent that they are consistent with federal law (e.g., the Anti-Deficiency Act (31 U.S.C. § 1341), the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 et seq.), the Prompt Payment Act (31 U.S.C. §§ 3901 et seq.), the Anti-Assignment statutes (31 U.S.C. § 3727 and 41 U.S.C. § 15), DOJ’s jurisdictional statute 28 U.S.C. § 516 (Conduct of Litigation Reserved to the Department of Justice (DOJ), and 28 U.S.C. § 1498 (Patent and copyright cases)). To the extent any Attachment A Terms are inconsistent with federal law (See, FAR 12.212(a)), such inconsistent terms shall be deemed deleted, unenforceable and of no legal force or effect in all resultant orders under the Schedule Contract, including but not limited to the following provisions:

- a) **Contracting Parties.** The Government Customer is the “Ordering Activity”, defined as the entity authorized to order under GSA MAS contracts as set forth in GSA ORDER ADM 4800.2G (Feb 2011), as may be revised from time to time.
- b) **Changes to Work and Delays.** Subject to GSAR Clause 552.243-72, Modifications (Federal Supply Schedule) (July 2000) (Deviation I – SEPT 2010), and 52.212-4(f) Excusable Delays (JUN 2010) regarding which the GSAR and the FAR provisions take precedence.
- c) **Contract Formation.** Subject to FAR 1.601(a) and FAR 43.102, the Government Order must be signed by a duly warranted contracting officer, in writing. The same requirement applies to contract modifications affecting the rights of the parties. All terms and conditions intended to bind the Government must be included within the contract signed by the Government.
- d) **Termination.** Clauses in the Manufacturer Specific Terms referencing termination or cancellation are hereby deemed to be deleted. Termination shall be governed by FAR 52.212-4(l) and (m) and the Contract Disputes Act, subject to the following exceptions:

EC America may request cancellation or termination of the license agreement on behalf of the Manufacturer if such remedy is granted to it after conclusion of the Contracts Disputes Act dispute resolution process or if such remedy is otherwise ordered by a United States Federal Court.
- e) **Choice of Law.** Subject to the Contracts Disputes Act and the Federal Tort Claims Act (28 U.S.C. §1346(b)), the validity, interpretation and enforcement of this Rider shall be governed by and construed in accordance with the laws of the United States. In the event the Uniform Computer Information Transactions Act (UCITA) or any similar federal laws or regulations are enacted, to the extent allowed by law, they will not apply to this Rider or the underlying Schedule Contract. All clauses in the Manufacturer Specific Terms referencing equitable remedies are deemed deleted and not applicable to any Government order.
- f) **Force Majeure.** Subject to FAR 52.212-4(f) Excusable delays(FEB 2012), unilateral termination by the Contractor does not apply to a Government Order and all clauses in the Manufacturer Specific Terms referencing unilateral termination rights of the Manufacturer are hereby deemed to be deleted.
- g) **Assignment.** All clauses regarding assignment are subject to FAR 52.232-23, Assignment of Claims (JAN 1986) and FAR 42.12 Novation and Change-of-Name Agreements. All clauses governing assignment in the Manufacturer Specific Terms are hereby deemed deleted.
- h) **Waiver of Jury Trial.** Waivers of Jury Trials are subject to FAR 52.233-1 Disputes (JULY 2002). All clauses governing a waiver of jury trial in the Manufacturer Specific Terms are hereby deemed to be deleted.
- i) **Customer Indemnities.** Unless otherwise permitted by Federal statute, all Manufacturer Specific Terms referencing customer Indemnities are hereby deemed to be deleted.
- j) **Contractor Indemnities.** All Manufacturer Specific Terms that (1) violate DOJ’s jurisdictional statute (28 U.S.C. § 516) and/or (2) require that the Government give sole control over the litigation and/or settlement are hereby deemed to be deleted.

- k) **Renewals.** All Manufacturer Specific Terms that violate the Anti-Deficiency Act ban on automatic renewal are hereby deemed to be deleted.
 - l) **Future Fees or Penalties.** All Manufacturer Specific Terms that violate the Anti-Deficiency Act prohibition on the Government paying any fees or penalties beyond the contract amount, unless specifically authorized by existing statutes, such as the Prompt Payment Act (31 U.S.C. § 3901 et seq.), or Equal Access To Justice Act (5 U.S.C. § 504; 28 U.S.C. § 2412), are hereby deemed to be deleted.
 - m) **Taxes.** Taxes are subject to FAR 52.212-4(k), which provides that the contract price includes all applicable federal, state, local taxes and duties.
 - n) **Third Party Terms.** Subject to the actual language agreed to in the Order by the Contracting Officer, any third party manufacturer shall be brought into the negotiation, or the components acquired separately under federally-compatible agreements, if any. All Manufacturer Specific Terms that incorporate third party terms by reference are hereby deemed to be deleted.
 - o) **Installation and Use of the Software.** Installation and use of the information technology shall be in accordance with this Rider and Manufacturer Specific Terms attached hereto, unless an Ordering Activity determines that it requires different terms of use and Manufacturer agrees in writing to such terms in a valid delivery order placed pursuant to the Schedule Contract.
 - p) **Dispute Resolution and Venue.** Any disputes relating to the Manufacturer Specific Terms or to this Rider shall be resolved in accordance with FAR 52.233-1 Disputes and the Contract Disputes Act. The Ordering Activity expressly acknowledges that EC America as contractor, on behalf of the Manufacturer, shall have standing to bring such claim under the Contract Disputes Act.
 - q) **Advertisements and Endorsements.** Unless specifically authorized by an Ordering Activity in writing, use of the name or logo of any U.S. Government entity is prohibited.
 - r) **Public Access to Information.** EC America agrees that the attached Manufacturer Specific Terms and this Rider contain no confidential or proprietary information and acknowledges the Rider shall be available to the public.
 - s) **Confidentiality.** Any provisions in the attached Manufacturer Specific Terms that require the Ordering Activity to keep certain information confidential are subject to the Freedom of Information Act (5 U.S.C. § 552), and any order by a United States Federal Court.
3. **Order of Precedence/Conflict.** To the extent there is a conflict between the terms of this Rider and the terms of the underlying Schedule Contract, the terms of this Rider shall control. Any capitalized terms used herein but not defined, shall have the meaning assigned to them in the underlying Schedule Contract.

**Attachment A - Xirus
Software License and Warranty Agreement**

1.0 DEFINITIONS

- 1.1 "Documentation" means the user manuals and all other all documentation, instructions or other similar materials in whatever media or format as provided or made available by Xirus accompanying or associated with the Software covering the installation, application, and use thereof.
- 1.2 "Licensor" means XIRRUS and its suppliers.
- 1.3 "Product" means an access point or high density access point containing one or more distinct radios.
- 1.4 "Software" means, collectively, each of the application and embedded software programs delivered to Ordering Activity in connection with this Agreement. For purposes of this Agreement, the term Software shall be deemed to include any and all Documentation and Updates provided with or for the Software.
- 1.5 "Updates" means any bug-fix, maintenance or version release to the Software that may be provided to Ordering Activity from Licensor pursuant to this Agreement or pursuant to any separate maintenance and support agreement entered into by and between Licensor and Ordering Activity.

2.0 GRANT OF RIGHTS

- 2.1 Software. Subject to the terms and conditions of this Agreement and the applicable ordering document (Purchase Order), together with the underlying GSA Schedule Contract and Schedule Pricelist, Licensor hereby grants to Ordering Activity a perpetual, non-exclusive, non-sublicenseable, non-transferable right and license to use the Software solely as installed on the Product in accordance with the accompanying Documentation and for no other purpose.
- 2.2 Ownership. The license granted under Sections 2.1 above with respect to the Software does not constitute a transfer or sale of Licensor's or its suppliers' ownership interest in or to the Software, which is solely licensed to Ordering Activity. The Software is protected by both national and international intellectual property laws and treaties. Except for the express licenses granted to the Software, Licensor and its suppliers retain all rights, title and interest in and to the Software, including (i) any and all trade secrets, copyrights, patents and other proprietary rights therein or thereto or (ii) any Marks (as defined in Section 2.3 below) used in connection therewith. In no event shall Ordering Activity remove, efface or otherwise obscure any Marks contained on or in the Software. All rights and licenses not expressly granted herein are reserved by Licensor.

2.3 Copies. Ordering Activity shall not make any copies of the Software but shall be permitted to make a reasonable number of copies of the related Documentation. Whenever Ordering Activity copies or reproduces all or any part of the Documentation, Ordering Activity shall reproduce all and not efface alter, or remove any titles, trademark symbols, copyright symbols and legends, and other proprietary markings or similar indicia of origin ("Marks") on or in the Documentation.

2.4 Restrictions. Ordering Activity shall not itself, or through any parent, subsidiary, affiliate, agent or other third party (i) sell, rent, lease, license or sublicense, assign or otherwise transfer the Software, or any of Ordering Activity's rights and obligations under this Agreement except as expressly permitted herein; (ii) decompile, disassemble, or reverse engineer the Software, in whole or in part; (iii) allow access to the Software by any user other than by Ordering Activity's employees and contractors who are bound in writing to confidentiality and non-use restrictions at least as protective as those set forth herein; (iv) except as expressly set forth herein, write or develop any derivative software or any other software program based upon the Software; (v) use any computer software or hardware which is designated to defeat any copy protection or other use limiting device, including any device intended to limit the number of users or devices accessing the Product; (vi) disclose information about the performance or operation of the Product or Software to any third party without the prior written consent of Licensor; or (vii) engage a third party to perform benchmark or functionality testing of the Product or Software.

3.0 LIMITED WARRANTY AND LIMITATION OF LIABILITY

3.1 Limited Warranty & Exclusions. Licensor warrants that the Software will perform in substantial accordance with the specifications therefore set forth in the Documentation for a period of ninety [90] days after Ordering Activity's acceptance of the terms of this Agreement with respect to the Software ("Warranty Period"). If during the Warranty Period the Software does not perform as warranted, Licensor shall, at its option, correct the relevant Product and/or Software giving rise to such breach of performance or replace such Product and/or Software free of charge. THE FOREGOING ARE ORDERING ACTIVITY'S SOLE AND EXCLUSIVE REMEDIES FOR BREACH OF OR NONCOMPLIANCE WITH THE FOREGOING WARRANTY. THE WARRANTY SET FORTH ABOVE IS MADE TO AND FOR THE BENEFIT OF ORDERING ACTIVITY ONLY. The warranty will apply only if (i) the Software has been used at all times and in accordance with the instructions for use set forth in the Documentation and this Agreement; (ii) no modification, alteration or addition has been made to the Software by persons other than Licensor or Licensor's authorized representative; and (iii) the Software or Product on which the Software is installed has not been subject to any unusual electrical charge.

3.3 DISCLAIMER. EXCEPT AS EXPRESSLY STATED IN THIS SECTION 3, ALL ADDITIONAL CONDITIONS, REPRESENTATIONS, AND WARRANTIES, WHETHER IMPLIED, STATUTORY OR OTHERWISE, INCLUDING, WITHOUT LIMITATION, ANY IMPLIED WARRANTIES OR CONDITIONS OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, SATISFACTORY QUALITY, ACCURACY, AGAINST INFRINGEMENT OF ANY FORM OR NATURE OF INTELLECTUAL PROPERTY, OR ARISING FROM A COURSE OF DEALING, USAGE, OR TRADE PRACTICE, ARE HEREBY DISCLAIMED BY LICENSOR AND ITS SUPPLIERS. THIS DISCLAIMER SHALL APPLY EVEN IF ANY EXPRESS WARRANTY AND LIMITED REMEDY OFFERED BY LICENSOR FAILS OF ITS ESSENTIAL PURPOSE.

3.4 HAZARDOUS APPLICATIONS. THE SOFTWARE IS NOT DESIGNED OR INTENDED FOR USE IN HAZARDOUS ENVIRONMENTS REQUIRING FAIL SAFE PERFORMANCE, SUCH AS IN THE OPERATION OF A NUCLEAR FACILITY, AIRCRAFT NAVIGATION OR COMMUNICATIONS SYSTEMS, AIR TRAFFIC CONTROLS OR OTHER DEVICES OR SYSTEMS IN WHICH A MALFUNCTION OF THE SOFTWARE WOULD RESULT IN FORSEEABLE RISK OF INJURY OR DEATH TO THE OPERATOR OF THE DEVICE OR SYSTEM OR TO OTHERS ("HAZARDOUS APPLICATIONS"). ORDERING ACTIVITY ASSUMES ANY AND ALL RISKS, INJURIES, LOSSES, CLAIMS AND ANY OTHER LIABILITIES ARISING OUT OF THE USE OF THE SOFTWARE IN ANY HAZARDOUS APPLICATIONS.

THE FOREGOING LIMITATION OF LIABILITY SHALL NOT APPLY TO (1) PERSONAL INJURY OR DEATH RESULTING FROM LICENSOR'S NEGLIGENCE; (2) FOR FRAUD; OR (3) FOR ANY OTHER MATTER FOR WHICH LIABILITY CANNOT BE EXCLUDED BY LAW.

3.5 Reserved.

4.0 RESERVED

5.0 RESERVED

6. COMMERCIAL COMPUTER SOFTWARE

The Software and Documentation furnished and licensed under and pursuant to this Agreement are a "commercial item", and is "commercial computer software" and "commercial computer software documentation" as those terms are defined and used in applicable U.S. federal government and comparable U.S. department and agency acquisition statutes and regulations. If Ordering Activity is the U.S. government or a department or agency thereof, Ordering Activity shall only acquire the rights and licenses as are contained in this Agreement, unless otherwise expressly agreed to in writing by Licensor in a separate written addendum to this Agreement.

7. MISCELLANEOUS

During the course of use of the Software, Licensor may collect information on your use thereof; you hereby authorize Licensor to use such information to improve its products and services, and to disclose the same to third parties provided it does not contain any personally identifiable information. Ordering Activity may not export or re-export the Software or Documentation (or other materials) without appropriate United States government licenses or in violation of the United States' Export Administration Act and Ordering Activity shall comply with all national laws governing the Software.

LIMITED HARDWARE WARRANTY

Xirrus warrants that for the lifetime of the product (Xirrus Access Points) or a period of five years (Xirrus Arrays) or one year (all other Xirrus hardware products) from the date of purchase by the original purchaser ("Ordering Activity"): (i) the Xirrus Equipment ("Equipment") will be free of defects in materials and workmanship under normal use; and (ii) the Equipment substantially conforms to its

published specifications. Except for the foregoing, the Equipment is provided AS IS. This limited warranty extends only to Ordering Activity as the original purchaser. Ordering Activity's exclusive remedy and the entire liability of Xirrus and its suppliers under this limited warranty will be, at Xirrus' option, repair, replacement, or refund of the Equipment if reported (or, upon request, returned) to the party supplying the Equipment to Ordering Activity. In no event does Xirrus warrant that the Equipment is error free or that Ordering Activity will be able to operate the Equipment without problems or interruptions.

This warranty does not apply if the Equipment (a) has been altered, except by Xirrus, (b) has not been installed, operated, repaired, or maintained in accordance with instructions supplied by Xirrus, (c) has been subjected to abnormal physical or electrical stress, misuse, negligence, or accident, or (d) is used in ultra- hazardous activities.

EXCEPT AS SPECIFIED IN THIS WARRANTY, ALL EXPRESS OR IMPLIED CONDITIONS, REPRESENTATIONS AND WARRANTIES INCLUDING, WITHOUT LIMITATION, ANY IMPLIED WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, NONINFRINGEMENT, OR ARISING FROM A COURSE OF DEALING, USAGE, OR TRADE PRACTICE, ARE HEREBY EXCLUDED TO THE EXTENT ALLOWED BY APPLICABLE LAW.

IN NO EVENT WILL XIRRUS OR ITS SUPPLIERS BE LIABLE FOR ANY LOST REVENUE, PROFIT, OR DATA, OR FOR SPECIAL, INDIRECT, CONSEQUENTIAL, INCIDENTAL, OR PUNITIVE DAMAGES HOWEVER CAUSED AND REGARDLESS OF THE THEORY OF LIABILITY ARISING OUT OF THE USE OF OR INABILITY TO USE THE EQUIPMENT EVEN IF XIRRUS OR ITS SUPPLIERS HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. The foregoing limitation of liability shall not apply to (1) personal injury or death resulting from Licensor's negligence; (2) for fraud; or (3) for any other matter for which liability cannot be excluded by law.

Ordering Activity agrees the Equipment and related documentation shall not be used in life support systems, human implantation, nuclear facilities or systems, or any other application where failure could lead to a loss of life or catastrophic property damage or cause or permit any third party to do any of the foregoing.

Equipment including technical data, is subject to U.S. export control laws, including the U.S. Export Administration Act and its associated regulations, and may be subject to export or import regulations in other countries. Ordering Activity agrees to comply strictly with all such regulations and acknowledges that it has the responsibility to obtain licenses to export, re-export, or import Equipment.

**EC America Rider to Product Specific License Terms and Conditions
 (for U.S. Government End Users)**

1. **Scope.** This Rider and the attached ZeroFox, Inc. (“Manufacturer”) product specific license terms establish the terms and conditions enabling EC America (“Contractor”) to provide Manufacturer’s information technology products and services to Ordering Activities under EC America’s GSA MAS IT70 contract number GS-35F-0511T (the “Schedule Contract”). Installation and use of the information technology shall be in accordance with this Rider and Manufacturer Specific Terms attached hereto, unless an Ordering Activity determines that it requires different terms of use and Manufacturer agrees in writing to such terms in a valid delivery order placed pursuant to the Schedule Contract.

2. **Applicability.** Whereas GSA and EC America agreed at the time of Schedule Contract award upon a base set of terms and conditions applicable to all manufacturers and items represented on the Schedule Contract; and Whereas, the parties further agreed that all product specific license, warranty and software maintenance terms and conditions would be submitted at the time each new manufacturer was to be added to the Schedule Contract; Now, Therefore, the parties hereby agree that the product specific license, warranty and software maintenance terms set forth in Attachment A hereto (the “Manufacturer Specific Terms” or the “Attachment A Terms”) are incorporated into the Schedule Contract, but only to the extent that they are consistent with federal law (e.g., the Anti-Deficiency Act (31 U.S.C. § 1341), the Contracts Disputes Act of 1978 (41 U.S.C. §§ 7101 *et seq.*), the Prompt Payment Act (31 U.S.C. §§ 3901 *et seq.*), the Anti-Assignment statutes (31 U.S.C. § 3727 and 41 U.S.C. § 15), DOJ’s jurisdictional statute 28 U.S.C. § 516 (Conduct of Litigation Reserved to the Department of Justice (DOJ)), and 28 U.S.C. § 1498 (Patent and copyright cases)). To the extent any Attachment A Terms are inconsistent with federal law (See, FAR 12.212(a)), such inconsistent terms shall be superseded, unenforceable and of no legal force or effect in all resultant orders under the Schedule Contract, including but not limited to the following provisions:
 - a) **Contracting Parties.** The GSA Customer (“Licensee”) is the “Ordering Activity”, defined as the entity authorized to order under GSA MAS contracts as set forth in GSA ORDER ADM 4800.2G (Feb 2011), as may be revised from time to time.

 - b) **Changes to Work and Delays.** Subject to GSAR Clause 552.243-72, Modifications (Federal Supply Schedule) (July 2000) (Deviation I – SEPT 2010), and 52.212-4(f) Excusable Delays (JUN 2010) regarding which the GSAR and the FAR provisions take precedence.

 - c) **Contract Formation.** Subject to FAR 1.601(a) and FAR 43.102, the GSA Customer Purchase Order must be signed by a duly warranted Contracting Officer, in writing. The same requirement applies to contract modifications affecting the rights of the parties. All terms and conditions intended to bind the Government must be included within the contract signed by the Government.

 - d) **Termination.** Clauses in the Manufacturer Specific Terms referencing termination or cancellation are superseded and not applicable to any GSA Customer order. Termination shall be governed by the FAR, the underlying GSA Schedule Contract and the terms in any applicable GSA Customer Purchase Orders. If the Contractor believes the GSA Customer to be in breach, it must file a claim with the Contracting Officer and continue to diligently pursue performance. In commercial item contracting under FAR 12.302(b), the FAR provisions dealing with disputes and continued performance cannot be changed by the Contracting Officer.

 - e) **Choice of Law.** Subject to the Contracts Disputes Act, the validity, interpretation and enforcement of this Rider shall be governed by and construed in accordance with the laws of the United States. In the event the Uniform Computer Information Transactions Act (UCITA) or any similar federal laws or regulations are enacted, to the extent allowed by federal law, they will not apply to this Rider or the underlying Schedule Contract.

 - f) **Equitable remedies.** Equitable remedies are generally not awarded against the Government absent a statute providing therefore. In the absence of a direct citation to such a statute, all clauses in the Manufacturer Specific Terms referencing equitable remedies are superseded and not applicable to any GSA Customer order.

 - g) **Unilateral Termination.** Unilateral termination by the Contractor does not apply to a GSA Customer Purchase Order and all clauses in the Manufacturer Specific Terms referencing unilateral termination rights of the Manufacturer are hereby superseded.

 - h) **Unreasonable Delay.** Subject to FAR 52.212-4(f) Excusable delays, the Contractor shall be liable for default unless the nonperformance is caused by an occurrence beyond the reasonable control of the Contractor and without its fault or negligence such as, acts of God or the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, unusually severe weather, and delays of common carriers. The Contractor shall notify the Contracting Officer in writing as soon as it is reasonably possible after commencement of any excusable delay, setting forth the full particulars in connection therewith, shall remedy such occurrence with all reasonable dispatch and shall promptly give written notice to the Contracting Officer of the cessation of such occurrence.

- i) **Assignment.** All clauses regarding the Contractor's assignment are subject to FAR 52.232-23, Assignment of Claims (JAN 1986) and FAR 42.12 Novation and Change-of-Name Agreements (Sep. 2013). All clauses governing the Contractor's assignment in the Manufacturer Specific Terms are hereby superseded.
- j) **Waiver of Jury Trial.** Waivers of Jury Trials are subject to FAR 52.233-1 Disputes (JULY 2002). The Government will not agree to waive any right that it may have under federal law. All clauses governing a waiver of jury trial in the Manufacturer Specific Terms are hereby superseded.
- k) **Government Indemnities.** This is an obligation in advance of an appropriation that violates anti-deficiency laws (31 U.S.C. § 1341 and 41 U.S.C. § 6301), since the GSA Customer commits to pay an unknown amount at an unknown future time. The violation occurs when the commitment is made, i.e., when the agreement featuring this clause is incorporated into a Government contract, and not when the clause is triggered. The Interim FAR Rule dated June 21, 2013 and the Office of Legal Counsel opinion dated March 12, 2012 prohibit such indemnifications. All Manufacturer Specific Terms referencing customer indemnities are hereby superseded.
- l) **Contractor Indemnities.** All Manufacturer Specific Terms that violate DOJ's jurisdictional statute (28 U.S.C. § 516) by requiring that the Government give sole control over the litigation and/or settlement to the Contractor are hereby superseded. Nothing contained in the Manufacturer's Specific terms shall be construed in derogation of the U.S. Department of Justice's right to defend any claim or action brought against the U.S., pursuant to its jurisdictional statute.
- m) **Renewals.** All Manufacturer Specific Terms that provide for automatic renewals violate the Anti-Deficiency Act and are hereby superseded. This is an obligation in advance of an appropriation that violates anti-deficiency laws (31 U.S.C. § 1341 and 41 U.S.C. § 6301), since the GSA Customer commits to pay an unknown amount at an unknown future time. The violation occurs when the commitment is made, i.e., when the agreement featuring this clause is incorporated into a Government contract, and not when the clause is triggered.
- n) **Future Fees or Penalties.** All Manufacturer Specific Terms that require the Government to pay any future fees, charges or penalties are hereby superseded unless specifically authorized by existing statutes, such as the Prompt Payment Act (31 U.S.C. § 3901 et seq.) or Equal Access To Justice Act (5 U.S.C. § 504; 28 U.S.C. § 2412).
- o) **Taxes.** Taxes are subject to FAR 52.212-4(k), which provides that the contract price includes all applicable federal, state, local taxes and duties. Contractor shall state separately on its invoices, taxes excluded from the fees, and the GSA Customer agrees to either pay the amount of the taxes (based on the current value of the equipment or services) to Contractor or provide it evidence necessary to sustain an exemption, in accordance with FAR 52.229-1 and FAR 52.229-3.
- p) **Third Party Terms.** When the end user is an instrumentality of the U.S., no license terms bind the GSA Customer unless included verbatim (not by reference) in the EULA, and the EULA is made an attachment to the underlying GSA Schedule Contract. All terms and conditions affecting the GSA Customer must be contained in a writing signed by a duly warranted Contracting Officer. Any third party manufacturer shall be brought into the negotiation, or the components acquired separately under federally-compatible agreements, if any. All Manufacturer Specific Terms that incorporate third party terms by reference are hereby superseded.
- q) **Dispute Resolution and Standing.** Any disputes relating to the Manufacturer Specific Terms or to this Rider shall be resolved in accordance with the FAR, the underlying GSA Schedule Contract, any applicable GSA Customer Purchase Orders, and the Contract Disputes Act. The Ordering Activity expressly acknowledges that EC America as contractor, on behalf of the Manufacturer, shall have standing to bring such claim under the Contract Disputes Act.
- r) **Advertisements and Endorsements.** Pursuant to GSAR 552.203-71, use of the name or logo of any U.S. Government entity is prohibited. All Manufacturer Specific Terms that allow the Contractor to use the name or logo of a Government entity are hereby superseded.
- s) **Public Access to Information.** EC America agrees that the attached Manufacturer Specific Terms and this Rider contain no confidential or proprietary information and acknowledges the Rider shall be available to the public.
- t) **Confidentiality.** Any provisions in the attached Manufacturer Specific Terms that require the Ordering Activity to keep certain information confidential are subject to the Freedom of Information Act (5 U.S.C. § 552), and any order by a United States Federal Court. When the end user is an instrumentality of the U.S. Government, neither this Rider, the Manufacturer's Specific Terms nor the Schedule Price List shall be deemed "confidential information" notwithstanding marking to that effect. Notwithstanding anything in this Rider, the Manufacturer's Specific Terms or the Schedule Contract to the contrary, the GSA Customer may retain such Confidential Information as required by law, regulation or its bonafide document retention procedures for legal, regulatory or compliance purposes; provided however, that such retained Confidential Information will continue to be subject to the confidentiality obligations of this Rider, the Manufacturer's Specific Terms and the Schedule Contract.

- u) **Alternate Dispute Resolution.** The GSA Customer cannot be forced to mediate or arbitrate. Arbitration requires prior guidance by the head of a federal agency promulgated via administrative rulemaking according to 5 U.S.C. § 575(c). GSA has not issued any because it considers the Board of Contract Appeals to be an adequate, binding ADR alternative. All Manufacturer Specific Terms that allow the Contractor to choose arbitration, mediation or other forms of alternate dispute resolution are hereby superseded.
 - v) **Ownership of Derivative Works.** Provisions purporting to vest exclusive ownership of all derivative works in the licensor of the standard software on which such works may be based are superseded. Ownership of derivative works should be as set forth in the copyright statute, 17 U.S.C. § 103 and the FAR clause at 52.227-14, but at a minimum, the GSA Customer shall receive unlimited rights to use such derivative works at no further cost.
3. **Order of Precedence/Conflict.** To the extent there is a conflict between the terms of this Rider and the terms of the underlying Schedule Contract or a conflict between the terms of this Rider and the terms of an applicable GSA Customer Purchase Order, the terms of the GSA Schedule Contract or any specific, negotiated terms on the GSA Customer Purchase Order shall control over the terms of this Rider. Any capitalized terms used herein but not defined, shall have the meaning assigned to them in the underlying Schedule Contract.

**ATTACHMENT A
CONTRACTOR SUPPLEMENTAL PRICELIST INFORMATION AND TERMS
ZeroFox, Inc.**

ZeroFox, Inc. LICENSE, WARRANTY AND SUPPORT TERMS

1. ORDER FORMS.

Subject to the terms and conditions of this Agreement, ZeroFOX agrees to sell the Services that are identified in a mutually executed Purchase Order.

Upon mutual execution of the Purchase Order, this agreement shall be considered an integral part of this Agreement.

2. USE OF APPLICATION SERVICES.

2.1 Right to Use Application Services.

(a) ZeroFOX agrees to provide access to Application Services within the scope of the Access Rights purchased by Ordering Activity pursuant to a mutually executed Purchase Order. Ordering Activity acknowledges that the Access Rights may be used only by Ordering Activity's Authorized End Users for Ordering Activity's internal business purposes, and only during the Access Term.

(b) Ordering Activity acknowledges (i) that it is responsible for procuring and operating all computer systems, software, and telecommunications services required to meet the minimum technical specifications necessary for Ordering Activity's Authorized End Users to access and use the Application Services, and Ordering Activity may be unable to access or utilize some or all aspects of the Application Services unless such minimum technical specifications are met, and (ii) nothing in this Agreement may be interpreted as an implied license or to require ZeroFOX to deliver a copy of any software or other product utilized by ZeroFOX to provide the Application Services.

2.2 Authorized End Users. Ordering Activity shall be fully responsible for compliance with this Agreement by, as well as the acts and omissions of, all users who access the Application Services under its Authorized End User login credentials. Ordering Activity shall not authorize access to or permit use of the Application Services by persons other than Authorized End Users. ZeroFOX will issue to Ordering Activity the number of unique sets of login credentials (each consisting of a user name and password) set forth on the applicable Purchase Order for the Application Services and, unless otherwise approved in writing by ZeroFOX in its sole discretion, Ordering Activity will ensure that no more than one Authorized End User will have access to or will use each set of login credentials.

2.3 Documentation License. Subject to the terms and conditions of the Purchase Order, ZeroFOX hereby grants to Ordering Activity a nonexclusive, non-transferable, non-sublicenseable right and license during the Term to reproduce copies of the Documentation solely for use by Ordering Activity in connection with the exercise of rights granted in this Agreement. Ordering Activity acknowledges that no right is granted to distribute, publish, modify, adapt, translate or create derivative works of the Documentation. Ordering Activity acknowledges that the Documentation is ZeroFOX's Confidential Information, and hereby agrees to accurately reproduce all proprietary notices, including any copyright notices, trademark notices or confidentiality notices, that are contained within any copies of the Documentation. ZeroFOX recognizes that Federal agencies are subject to the Freedom of Information Act, 5 U.S.C. 552, which requires that certain information be released, despite being characterized as "confidential" by the vendor.

3. RESERVATION OF RIGHTS AND RESTRICTIONS.

3.1 Proprietary Rights; No Implied Licenses. Ordering Activity acknowledges that, as between the Parties, ZeroFOX owns all Intellectual Property Rights and other proprietary interests that are embodied in, or practiced by, the Application Services, the ZeroFOX Products and Platform, and the Documentation. To be clear, however, the preceding sentence does not constitute a representation or warranty regarding ownership of any intellectual property rights or other proprietary interests.

3.2 Compliance with Laws. Ordering Activity represents and warrants that it shall use the Application Services and Reports only for lawful purposes and in compliance with all applicable laws, rules and regulations issued by governing

authorities, including without limitation the National Labor Relations Act, the Family Medical Leave Act, the Stored Communications Act, the Computer Fraud and Abuse Act and any federal, state or local laws regarding employee privacy, off-duty conduct or discrimination.

3.3 General Restrictions on Use. Ordering Activity agrees not to act outside the scope of the rights that are expressly granted by ZeroFOX in this Agreement. Ordering Activity will not (a) make the Application Services available to anyone other than Ordering Activity and its Authorized End Users; (b) sell, resell, license, sublicense, rent, lease or distribute the Application Services or any Reports, or include any Application Services or Reports or any derivative works thereof in a service bureau or outsourcing offering; (c) copy, modify or make derivative works based upon the Application Services; (d) "frame" or "mirror" any Reports contained in, or accessible from, the Application Services on any other website, server, wireless or Internet-based device; or (e) decompile, disassemble, reverse engineer or otherwise attempt to obtain or perceive the source code from which any software component underlying the Application Services is compiled or interpreted, and Ordering Activity hereby acknowledges that nothing in this Agreement shall be construed to grant Ordering Activity any right to obtain or use such source code. Ordering Activity acknowledges and agrees that compliance with the restrictions set forth in this Article 3 is an essential basis of this Agreement.

4. TREATMENT OF CONTENT.

4.1 Selection of Ordering Activity Content and Third Party Content. Ordering Activity understands that the Application Services are capable of processing Ordering Activity Content that is uploaded by Ordering Activity to ZeroFOX's servers. Ordering Activity further understands that the Application Services may include features that enable Ordering Activity to specify Third Party Content to be retrieved via the Application Services automated functionality from a variety of third-party websites and other third-party resources, including Social Media Sites. As between the Parties, Ordering Activity alone is responsible for selection of all Ordering Activity Content and Third Party Content, and ZeroFOX disclaims all risks associated with the content, accuracy, completeness, consistency, integrity, legality, reliability and appropriateness of Ordering Activity Content and Third Party Content and the use of all such content by Ordering Activity and by ZeroFOX in connection with providing the Services contemplated by this Agreement as set forth on any mutually executed Order Form.

4.2 Rights in Content.

(a) **Ordering Activity Content.** Ordering Activity hereby grants to ZeroFOX a non-exclusive license to use, store, process, analyze and display in Reports all Ordering Activity Content during the Term for the limited purposes of performing ZeroFOX's obligations under this Agreement. Prior to uploading Ordering Activity Content, Ordering Activity shall, at its own expense, obtain all licenses, consents or other permissions from appropriate third parties as may be necessary for Ordering Activity's use of the relevant Ordering Activity Content as necessary to enable Ordering Activity to grant the rights granted by this Section 4.2.

(b) **Third Party Content.** Ordering Activity acknowledges that the Content may contain or be accompanied by third-party software, data or other materials that are subject to and provided in accordance with terms that are in addition to or different from the terms set forth in this Agreement.

(c) **Employee Generated Content.** Ordering Activity acknowledges that Ordering Activity Content and Third Party Content may include content generated by its employees and that Ordering Activity's collection, monitoring and use of such content may be restricted by federal and state employment laws. Ordering Activity shall, at its own expense, obtain all consents or permissions required to lawfully use employee-generated content as contemplated by this Agreement and Ordering Activity shall only use such content in compliance with applicable law.

4.3. Content Disclaimers.

(a) ZeroFOX shall have no obligation to preview, verify, modify, filter or remove any Third Party Content (although ZeroFOX may do so in at its sole discretion), and ZeroFOX shall not be responsible for any failure to remove, or for any delay in removing, harmful, inaccurate, unlawful or otherwise objectionable Third Party Content.

(b) Ordering Activity acknowledges that, as between the Parties, Ordering Activity is responsible for backup and archiving of any content processed by the Application Services, including all Ordering Activity Content and Third Party Content. ZeroFOX shall not be responsible or liable for the deletion, correction, destruction, damage, loss or failure to store any Ordering Activity Content or Third Party Content.

(c) Ordering Activity acknowledges that, in the event the relevant third party provider of any particular Third Party Content ceases to make the same available for use as contemplated in this Agreement on terms acceptable to ZeroFOX, ZeroFOX shall have the right to discontinue provision of any tools to retrieve or access such Third Party Content, and/or may discontinue the processing, analysis, storage or provision of access to any such Third Party Content, without thereby entitling Ordering Activity to any refund, credit, or other compensation, other than a refund of the unearned portion of any fee that was paid to ZeroFOX, if any, for actually supplying the access to such Third Party Content.

(d) ZeroFOX does not provide any warranty or support under this Agreement for any non-ZeroFOX products or services, including without limitation, Ordering Activity Content and/or Third Party Content.

4.4 Appointment as Agent. Ordering Activity acknowledges and agrees that in order to provide certain features of the Application Services, ZeroFOX may need to access and collect certain information from Social Media Sites on Ordering Activity's behalf and contact the owners of such sites for social risk management matters. As such, during the Access Term, Ordering Activity hereby appoints ZeroFOX as Ordering Activity's agent to act on Ordering Activity's behalf with regards to Social Media Sites designated by Ordering Activity, for the sole purpose of assisting Ordering Activity in making requests, complaints or claims to such designated Social Media Sites related to protecting Ordering Activity's Intellectual Property Rights (including without limitation claims of impersonation, privacy violations, and copyright or trademark violations), and only in accordance with Ordering Activity's express

instructions in each separate instance, which instructions shall be in writing or communicated to ZeroFOX through the applicable features of the Application Services (e.g., takedown request button/menu option). Ordering Activity represents and warrants that Ordering Activity has full right and authority to grant the licenses under this Section 4.4.

5. SUPPORT SERVICES.

5.1 Silver Support. During the Access Term, ZeroFOX agrees to provide the Silver Support Services, as set forth in **Exhibit 2**.

5.2 Platinum Support. If Ordering Activity elects to purchase Platinum Fully Managed Services pursuant to an Order Form, such services are subject to the ZeroFOX Platinum Fully Managed Services Agreement, which is incorporated herein as **Exhibit 3**.

6. PROFESSIONAL SERVICES; STATEMENTS OF WORK. Ordering Activity may request that ZeroFOX provide certain Professional Services related to Ordering Activity's use of the Application Services. Any Professional Services to be provided will be included in a Purchase Order. ZeroFOX shall be under no obligation to perform Professional Services until a Purchase Order in relation thereto has been mutually executed.

7. RESERVED.

8. TERM AND TERMINATION.

8.1 Duration of Agreement. This Agreement will remain in effect for the term of service agreed upon in the Purchase Order.

8.2 Reserved.

8.3 Reserved.

8.4 General consequences of termination. Effective immediately upon expiration or termination of this Agreement, (i) Ordering Activity shall cease, and shall direct its users to cease, use of the Application Services, (ii) all licenses granted under this Agreement will become void, and (iii) neither Party will have continuing rights to use any Confidential Information of the other Party or to exercise any Intellectual Property Rights having been licensed under this Agreement. As soon as practicable after termination or expiration of this Agreement, each Party will discontinue its use and will return the Confidential Information and proprietary materials of the other Party.

8.5 Reserved.

9. RESERVED.

10. REPRESENTATIONS AND WARRANTIES.

10.1 Reserved.

10.2 Service Warranty. During the Term, the Application Service offerings will meet the Service Levels specified in **Exhibit 1**. If the applicable Application Service fails to achieve the Service Levels so specified, then Ordering Activity will be entitled, as its sole and exclusive remedy, to a credit for the applicable Service in accordance with the terms set forth in **Exhibit 1**, provided, however that Ordering Activity notifies ZeroFOX in writing of any such service failures within fifteen (15) days.

10.3 Ordering Activity Representations and Warranties. Ordering Activity represents and warrants that it will not, nor will it permit or authorize anyone else to, upload, post, store, view, transmit, distribute or otherwise publish any Ordering Activity Content that (i) is unlawful, fraudulent, , invasive of another's privacy, or otherwise tortious; ; (ii) violates or infringes the rights of third parties, including, but not limited to, Intellectual Property Rights, rights of privacy or publicity or any other proprietary rights; or (iii) contains any viruses, Trojan horses, worms, time bombs, cancelbots, or other harmful components that are intended to damage, detrimentally interfere with, surreptitiously intercept or misappropriate any system, data or personal information.

10.4 Disclaimers. EXCEPT AS OTHERWISE EXPRESSLY REPRESENTED OR WARRANTED IN THIS AGREEMENT, TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, THE APPLICATION SERVICES, PROFESSIONAL SERVICES, THE DOCUMENTATION, AND ANY OTHER PRODUCTS OR SERVICES PROVIDED BY ZEROFOX ARE PROVIDED "AS IS," AND ZEROFOX DISCLAIMS ANY AND ALL OTHER PROMISES, REPRESENTATIONS AND WARRANTIES, WHETHER EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, NON-INFRINGEMENT, NON-INTERFERENCE, SYSTEM INTEGRATION AND/OR DATA ACCURACY. ZEROFOX DOES NOT WARRANT THAT THE APPLICATION SERVICES OR ANY OTHER PRODUCTS OR SERVICES PROVIDED BY ZEROFOX WILL MEET ORDERING ACTIVITY'S REQUIREMENTS OR THAT THE OPERATION OF THE APPLICATION SERVICES WILL BE UNINTERRUPTED OR ERROR-FREE, OR THAT ALL ERRORS WILL BE CORRECTED. NO WARRANTY IS MADE ON THE BASIS OF COURSE OF PERFORMANCE, COURSE OF DEALING, OR TRADE USAGE. THE FOREGOING LIMITATION OF LIABILITY SHALL NOT APPLY TO (1) PERSONAL INJURY OR DEATH RESULTING FROM LICENSOR'S NEGLIGENCE; (2) FOR FRAUD; OR

(3) FOR ANY OTHER MATTER FOR WHICH LIABILITY CANNOT BE EXCLUDED BY LAW.

11. RESERVED.

12. RESERVED.

13. GLOSSARY OF DEFINED WORDS AND PHRASES.

For purposes of this Agreement, certain capitalized words and phrases will have the meanings set forth or cross-referenced below.

“**Access Rights**” are contractual rights to access and use the Application Services according to the technical procedures and protocols established according to this Agreement. The scope of any particular Access Rights may be defined by the terms of the applicable Order Form, including the Access Term, number of Social Entities, Authorized Sources or other use restrictions.

“**Access Term**” shall have the meaning given such term in the Order Form.

“**Application Services**” means the limited online data processing and analysis functionality of the ZeroFOX Products and all related features ordered by Ordering Activity, operated by ZeroFOX and made available to Ordering Activity via the ZeroFOX Platform.

“**Authorized End Users**” are individual persons for whom Ordering Activity has purchased Access Rights, and may include only employees or agents of Ordering Activity who are acting on Ordering Activity’s behalf in the internal operation of Ordering Activity’s business.

“**Authorized Sources**” are the third-party websites or other online sources to the extent identified in an Order Form, from which content may be retrieved by Ordering Activity or at Ordering Activity’s direction using the automated tools within the Application Services. If no such sources are specifically identified, then subject to the obligations and restrictions set forth in Sections 4 and 10.3 of this Agreement and applicable laws any sources shall be deemed authorized.

“**Confidential Information**” means: any information or data (including information or data received by the disclosing party from a third party and as to which the disclosing party has confidentiality obligations) provided or disclosed by disclosing party or its agents to receiving party that is: (i) fixed in a tangible medium and marked as the confidential or proprietary information of the disclosing party; (ii) otherwise provided or disclosed by or on behalf of the disclosing party marked as proprietary at the time the information is provided; or (iii) not falling within any of the prior clauses of this sentence, but which, a reasonable person would conclude is of a confidential nature given the facts and circumstances of such disclosure or (iv) the ZeroFOX Products, the Application Services, the Services and the Documentation.

“**Ordering Activity Content**” means the data, media and content (structured and unstructured) generated, collected or recorded by the Ordering Activity or by any supplier or licensor to Ordering Activity, including without limitation, any social media data, as well as any other data that is provided to ZeroFOX from Ordering Activity, that is uploaded, stored, analyzed and made available to and through the Application Services. “**Documentation**” means the documentation provided by ZeroFOX relating to the Application Services and/or the ZeroFOX Products.

“**Intellectual Property Rights**” are the exclusive rights held by the owner of a copyright, patent, trademark, or trade secret, including (i) the rights to copy, publicly perform, public display, distribute, adapt, translate, modify and create derivative works of copyrighted subject matter; (ii) the right to exclude another from using, making, having made, selling, offering to sell, and importing patented subject matter and from practicing patented methods, (iii) the rights to use and display any marks in association with businesses, products or services as an indication of ownership, origin, affiliation, endorsement, or sponsorship; and (iv) the rights to apply for any of the foregoing rights, and all rights in those applications. Intellectual Property Rights also include any and all rights associated with particular information that are granted by law and that give the owner, independent of contract, exclusive authority to control use or disclosure of the information, including enforceable privacy rights and any rights in databases recognized by applicable law.

“**Purchase Order**” means a document signed by both Parties whereby the Ordering Activity orders one or more of the following: (i) access to the Application Services, (ii) Professional Services, or (iii) any other products or services to be offered by ZeroFOX pursuant to this Agreement.

“**Platinum Fully Managed Services**” means those support and monitoring services more fully described in the Platinum Fully Managed Services Agreement.

“**Professional Services**” means the installation, configuration and/or training services as specified in an Order Form.

“**Reports**” means any reports, summaries, analyses, data, information or other items of output, whether in textual or graphical form, produced by or derived from the Services, including any reports on or representations of the Ordering Activity Content, Third Party Content or other content after processing or transformation in any manner by or pursuant to the Services.

“**Services**” means collectively or individually, the Application Services, the Support Services and/or the Professional Services.

“**Silver Support Services**” means those application support services more fully described in **Exhibit 2**.

“**Social Entities**” means the social entities identified by Ordering Activity in an Order Form for monitoring by the Application Services, which may include people, organizations or brands, keywords or data, or hashtags.

“**Social Media Sites**” means a social media website owned or operated by a third party, including without limitation Twitter, Facebook and LinkedIn.

“**Support Services**” means, as applicable, the Silver Support Services or the Platinum Fully Managed Services.

“**Term**” has the meaning given such term in Section 8.1.

“**Third Party Content**” means all data, social media content, posts, blogs, surveys, ratings, reviews, feedback or any other information collected or otherwise obtained from any website, including content obtained through Social Media Sites.

“**Use Restrictions**” means any use restriction that is specifically agreed to in an Order Form, which may include maximum annual Ordering Activity Content, authorized sources or maximum through-put.

“**ZeroFOX Products**” means the object code version of ZeroFOX proprietary software applications including all updates, upgrades, bug fixes and components as identified on the applicable Order Form.

“**ZeroFOX Platform**” means the applications accessible at the URLs <https://cloud.zerofox.com> or <https://recon.zerofox.com>, as applicable.

Section - EXHIBIT 1 SERVICE LEVEL AGREEMENT

This **Exhibit 1** sets forth **Service Levels** governing the contractual relationship between ZeroFOX and the Ordering Activity.

SERVICE LEVEL STANDARDS: The following defines service level standards for the Services:

Service/Activity	Service Level	Service Level Credit	Service Level Credit
Availability of the Services	The Services will be available to users for normal use 98.00% of the time each month, not including scheduled downtime. Scheduled downtime shall be for regular maintenance and upgrades, and will be communicated with at least 24 hours of notice. Any downtime that might require more than 2 hours will be scheduled at least 7 days in advance.	5% of the recurring monthly fee for the Services for the month of the failure.	Credit to be remitted to Customer following the agreed upon dispute date
Restore Time	In the event of unscheduled downtime the system shall be restored to a fully operational state within 48 hours.	5% of the recurring monthly fee for the Services for the month of the failure.	Credit to be remitted to Customer following the agreed upon dispute date
Resolution of Critical Malfunction	Failure to comply with the requirements with respect to Critical malfunctions in a month. Critical Malfunction shall mean a failure of the Software which severely impacts Customer's ability to provide service and which cannot be temporarily eliminated through the use of a "Bypass" or "Work Around."	5% of the recurring monthly fee for the Services for the month of the failure.	Credit to be remitted to Customer following the agreed upon dispute date

Section - EXHIBIT 2 SILVER SUPPORT SERVICES AGREEMENT

1. This **Silver Support Services Agreement** (the "**Agreement**") is hereby incorporated into this Attachment A. **SILVER SUPPORT SERVICES**. During the Access Term, ZeroFOX agrees to perform for Ordering Activity the following support services (the "**Silver Support Services**"):

Phone or Email Support	Monday-Friday 9:00AM - 6:00PM
Annual Takedown Limit	Per Sales Order
Platform QuickStart (Setup & Onboarding)	Per Sales Order
Support Response Time	2 Days
Weekly Reporting	Included
Monthly Reporting	Included
Product Upgrades	Included
Additional FoxScript Development	\$1000/per FoxScript

Support Phone Number: 1-855-ZFOX-FOX (1-855-9369369), Option 2 Support
 Email Address: support@zerofox.com

2. **“Social Entities”** which are identified by Customer, to represent people, organizations or brands, keywords or data, or hashtags, may not be changed without the prior written consent of ZeroFOX.

3. **Additional Professional Services.** Silver Support Services do not include managed services, on-site support, training, senior incident management support and technical analysis, implementation or documentation services (collectively, **“Professional Services”**). Any Professional Services to be provided will be included in an Order Form, with additional terms set forth in a Statement of Work. ZeroFOX shall be under no obligation to perform Professional Services until an Order Form and Statement of Work in relation thereto has been mutually executed.

Section - EXHIBIT 3 PLATINUM FULLY-MANAGED SERVICES AGREEMENT

This **Platinum Fully-Managed Services Agreement** (the **“Agreement”**) is hereby incorporated into this Attachment A.

1. **PLATINUM FULLY-MANAGED SERVICES.** During the Access Term, ZeroFOX agrees to perform for Ordering Activity the following services (the **“Managed Services”**) if Ordering Activity has purchased such Managed Services:
 - a. ZeroFOX will monitor alerts provided by the Application Services for social entities that are identified by Ordering Activity, such as people, organizations or brands, keywords or data, or hashtags (each, a **“Social Entity”**). Ordering Activity will initially designate the specific Social Entities to be monitored by ZeroFOX, up to the number of Social Entities designated on the applicable Order Form. Social Entities may not be changed without the prior written consent of ZeroFOX. As part of the Managed Services, ZeroFOX will:
 - i. monitor the Social Entities defined in the Order Form;
 - ii. create FoxScript rules based on criteria established by Ordering Activity or ZeroFOX, as applicable;
 - iii. monitor alerts identified by the Application Services, and investigate and analyze such alerts;
 - iv. create an automated takedown process based on guidelines established by Ordering Activity;
 - v. submit takedowns to social media networks on behalf of Ordering Activity;
 - vi. make provision for token refreshing as needed; and
 - b. All Managed Services will be performed remotely unless otherwise set forth on an Order Form. ZeroFOX is under no obligation to perform on-site services as part of this Agreement.
 - c. ZeroFOX will provide commercially reasonable telephone and / or email support for problem determination and resolution during normal business days.
 - d. Summary of services are:

Phone or Email Support	Monday-Friday 8:00AM - 8:00PM EST
Dedicated Customer Success Expert	12 Hours/Quarter
Annual Takedown Limit	Per Sales Order
Platform QuickStart (Setup & Onboarding)	Per Sales Order
Support Response Time	Less Than 24 Hours
Weekly Reporting	Included
Monthly Executive Reporting	Included
Annual Personalized Training	Included

Annual Optimization & Tuning	Included
Data Export	Included
Product Upgrades	Included
FoxScript Development	1 Per Quarter

Support Phone Number: 1-855-ZFOX-FOX (1-855-9369369), Option 2 Support
Email Address: support@zerofox.com

EMC SOFTWARE USE RIGHTS

EMC® software products (“Software”) are licensed by EMC to customers who order directly from EMC (“Direct End-Users”) under a signature bearing agreement between EMC and the Direct End-User or under the terms of an End-User License Agreement (“EULA”) that is between EMC and the entity making productive use of the Software. The EULA is either in a hard-copy format that is shrink-wrapped to the software media packaging or stated in an electronic “click-wrap” or click-to-accept format that must be electronically accepted prior to downloading and/or installing the Software. EMC also provides Software to its Channel Partners (organizations that resell the license directly to or through additional tiers of resellers to the organization that makes productive use of the Software [“Indirect End-User”]). Channel Partners are required to obtain a written, signed license with the Indirect End-User in a format that meets EMC license requirements, unless the Software is accompanied by the EMC EULA. The information in this Software Use Rights (“SUR”) document is provided to further define the license rights and limitations for Software products.

Software is licensed via a unit of measure (“UOM”) that quantifies the scope of the license rights being granted on the basis of the particular licensing model used by EMC for such Software. These licensing models are described in this document. The UOM applicable to the Software being offered pursuant to an EMC Quote may be designated in the Software product description in the EMC Quote by the codes described in the following table:

UOM Code	UOM (Unit of Measure)
CA	Registered Capacity of data measured in terabytes
CB	Raw Capacity of data measured in terabytes
CC	Usable Capacity of data measured in terabytes
FA	Foundation
FB	Foundation related Service Connector
FC	Foundation related Application Instance
FD	Foundation related Advanced Logging Instance
FE	Foundation related Service Instance
IA	Instance measured per server
IB	Instance measured per virtual machine
IC	Instance measured per storage array
ID	Instance measured per node
IE	Instance measured per engine
MA	Managed Entity measured per device
MB	Managed Entity measured per inbox or mailbox
MC	Managed Entity measured per user
PA	Process Rate measured in pages per year
UA	Named User
UB	Concurrent User
ZA	Central Processing Unit cores (quantity 1-6 cores)
ZB	Central Processing Unit cores (quantity 7-12 cores)
ZC	Individual Central Processing Unit Core

EMC SOFTWARE MODELS

REGISTERED CAPACITY MODEL

Model Description

Licensing and pricing is based upon the Registered Capacity of one or more storage array, Server, or other device(s) on which the Software is licensed for use. The Registered Capacity describes the maximum quantity of data for which the

functionality of the Software is authorized for use. The total capacity of the device may exceed the Registered Capacity that the Software is licensed to operate on.

Software that is licensed on the basis of Registered Capacity is typically licensed for use only on a specifically identified storage array or other hardware device. Each storage array or other hardware device requires the purchase of (i) an initial base product (independent of Registered Capacity) and (ii) an additional quantity of add-on products that reflect the amount of Registered Capacity on which the applicable Software is authorized for use. Customers may subsequently determine they need to use the Software in connection with an amount of data that exceeds the current Registered Capacity. In such cases, customers must either purchase an appropriate number of additional licenses to cover the increase in the Registered Capacity, or purchase a new base product plus Software in instances where a capacity limitation has been reached.

Model Specific Terms and Conditions

- The purchase of a base product license plus add-on product licenses (which are measured by Registered Capacity) are both needed to use the Software product(s).

RAW CAPACITY MODEL

Model Description

Licensing and pricing is based upon the total capacity of the storage array or other devices on which the Software is licensed for use. Software licensed on the basis of Raw Capacity is typically licensed for use only on a specifically identified storage array. This model uses a “base plus capacity” approach as described in the Registered Capacity model above, where the customer purchases one base product license and then purchases incremental capacity add-on product licenses to equal the raw capacity of the system on which the Software will operate.

Model Specific Terms and Conditions

- A base product license plus add-on product licenses (which are measured by Raw Capacity) are both needed to use the Software product(s).

USABLE CAPACITY MODEL

Model Description

Licensing and pricing are based upon the Usable Capacity of one or more storage arrays, Servers, or other devices on which the Software is licensed for use. The Usable Capacity describes the maximum quantity of data for which the functionality of the Software is authorized for use. The Usable Capacity of a licensed device is calculated by EMC on the basis of the Raw Capacity minus Overhead. Raw Capacity is the total data storage capacity of a licensed device. Overhead is that portion of Raw Capacity which EMC determines is reserved for or allocated to spares, RAID types and applications running on a licensed device and on which the software functionality is not to be used.

Software that is licensed on the basis of Usable Capacity is typically licensed for use only on a specifically identified storage array or other hardware device. The Customer or EMC may subsequently make a change to the Raw Capacity, configuration, RAID level or overall environment of a licensed device that increases the Usable Capacity to an amount in excess of the quantity for which the Software has been licensed. In these cases, Customer must purchase an appropriate additional license to cover the increase in the Usable Capacity.

Model Specific Term and Conditions

- The purchase of a base product license plus add-on product licenses (which are measured by Usable Capacity) are needed to use the Software product(s).

INSTANCE MODEL

Model Description

Licensing and pricing is based upon the nature of the hardware platform on which the Software operates. It includes servers that run a single instance, partition, or virtual machine as well as servers that run multiple instances, partitions, or virtual machines (both physical and virtual machines). Each partition running the application constitutes an instance.

This model is also used with server-based Software and Software that is licensed to a specific storage array or to an engine within a storage array. An engine consists of a CPU, cache and data storage (regardless of the speed, performance or capacity of the engine components), as designated by EMC. Adding an engine to an existing storage array enclosure is designated as an upgrade to the existing storage array.

Model Specific Terms and Conditions

- Server-based Software licensed in accordance with the Instance model is generally priced for a particular OS type, such as Windows, Solaris, etc.
- An Instance license may provide support for only a single application type, such as Exchange or Oracle.

MANAGED ENTITY LICENSING MODEL

Model Description

Licensing and pricing is based upon the total number of entities being managed or inspected by the Software. An entity is defined as any singular item being managed or monitored by the EMC Software and can include third-party hardware, a running instance of a software program, an abstract resource (such as an email inbox), or a user. The Software licensed under this model may be used on or with a specific entity or quantity of entities of a specified type.

Examples of physical devices include, but are not limited to: routers, switches, firewalls, load balancers, storage arrays, NAS data movers, NAS systems, blades, and IP phones.

Examples of instances of a software program include, but are not limited to: databases, volume managers, file systems, operating systems, hypervisors, backup software systems, and CMDB systems. An example of an abstract resource is an email inbox being inspected or managed by the Software product. An example of a user as a managed entity is a user that authenticates to a VPN or some other system using the Software product.

Model Specific Terms and Conditions

- **Managed Entity Metric Considerations:** Under this licensing model, some Software will be licensed by the total number of entities the Software is interacting with while other Software will be licensed for specifically identified entities.

PROCESS RATE LICENSING MODEL

Model Description

Licensing and pricing is based upon the cumulative amount of work done by the Software over a specified time period.

Model Specific Terms and Conditions

- Tiered pricing (price per mailbox decreases as the number of email mailboxes purchased increases).
- Licensing for EMC EmailXtender is limited to the sole and exclusive benefit and use of the user. License rights may not be further assigned or sublicensed to any other party for any other purpose.

NAMED USER LICENSING MODEL

Model Description

Licensing and pricing is based upon the total number of unique named users or seats accessing the Software, whether such users are actively using the Software, or accessing the Software at any given time. If a named user of the Software leaves the employ of the customer, or moves into a role that doesn't require access to the Software, the seat does not have to be relinquished by the customer, but can be reassigned to a different named user.

CONCURRENT USER LICENSING MODEL

Model Description

This model specifies the maximum number of concurrent users who are accessing the Software at any instance in time.

CENTRAL PROCESSING UNIT ("CPU") MODEL

Model Description

Licensing and pricing is based upon the total number of CPUs present in the computer upon which the Software will operate. A two-tier system is used based on the number of cores present. These two tiers can be combined as needed on CPUs with greater than 12 cores. Neither tier can be split across more than one CPU.

INDIVIDUAL CENTRAL PROCESSING UNITE (“CPU”) CORE MODEL

Model Description

Licensing and pricing is based upon the number of “Cores” on which the Software will operate. A “Core” is defined on the basis of the environment in which the Software operates.

When operating the Software in a “bare metal” environment, which means a physical machine without a hypervisor product capable of creating Virtual Machines, and excludes operation within a cloud service environment, a “Core” equals a single, computational unit of the processor.

When operating the Software in a hypervisor (Virtual Machine) environment, a “Core” equals a single unit of virtual processing power (commonly referred to as a “vCPU”) configured to each Virtual Machine. A Virtual Machine is a software container able to run its own operating system and execute applications, just as a physical computer does.

When operating the Software in a public cloud services environment, a “Core” equals a single, basic, most granular unit of computational power as defined by the cloud service provider. This may include, but is not limited to such units expressed as the number of “vCPUs,” “virtual CPUs,” “virtual cores,” and “dynos.”

FOUNDATION LICENSING MODEL

Model Description

Licensing and pricing is based upon the number of Foundations on which the Application Instances will operate. A single Foundation includes use on up to all of the virtual machines running on physical servers at one physical location owned or operated by the licensee.

SERVICE CONNECTOR LICENSING MODEL

Model Description

Licensing and pricing is based on the total number of Foundations (no more than one (1) Service Connector per Foundation) to which a licensee wishes to allow an independent application service, such as a database or a messaging system, to connect to the Foundation. A Service Connector is not needed for a Foundation if all of the information to be processed or acted upon is already housed within the applicable Foundation.

APPLICATION INSTANCE LICENSING MODEL

Model Description

Licensing and pricing is based on the total number of Application Instances that a licensee wishes to simultaneously run on the applicable Foundation or on Pivotal’s online Platform-as-a-Service offering (currently called Pivotal Web Services (“PWS”). Each Application Instance represents a single process running on a single virtual machine within the Foundation or PWS.

ADVANCED LOGGING INSTANCE LICENSING MODEL

Model Description

Licensing and pricing is based on the total number of Advanced Logging Instances that a licensee wishes to run simultaneously on the applicable Foundation. Each Advanced Logging Instance enables the licensee to track and observe the operation and execution of the single Application Instance with which it is associated.

FOUNDATION RELATED SERVICE INSTANCE LICENSING MODEL

Model Description

Licensing and pricing is based on the total number of Service Instances that a licensee wishes to simultaneously run on the applicable Foundation. Each Service Instance represents a single, unique configuration of a service (such as a database or other software or middleware) within a Foundation platform that utilizes resources (such as CPU, cores,

virtual machines, memory, messaging, development and/or data storage) within the same or an another licensed Foundation.

ADDITIONAL INFORMATION

Software Access and Use Requirements

Except as otherwise agreed in writing, licenses are required for each device/user accessing or using the Software, notwithstanding any non-EMC technology used to: (i) reduce the number of devices or users the Software directly manages; (ii) pool connections; or (iii) reduce the number of devices/users accessing or using the Software.

Pure Custom Client

Per-Seat licenses of Pure Custom Client are required for each user of each software application accessing a Content Server repository and deploying full read/write access to the Content Server, including applications providing end-user access via application servers, commerce servers, Web servers, or personalization servers.

Read-Only Access

Per-Seat licenses of Read-Only Client, or Documentum Platform Bundle, which includes Read-Only entitlement, are required for each user of each software application accessing a Content Server repository and deploying read-only access to the Content Server, including applications providing access via application servers, commerce servers, Web servers or personalization servers on your behalf. Read-Only Access is limited to the following Content Server functionality only: individual login, individualized security, query/search capability, viewing of content and properties, and personalized delivery of content based on user or information and/or security. Access to the following functionality is excluded from Read-Only Access: import or creation of new content, editing of existing content or properties (check in/checkout), creation of and participation in workflows, promotion or demotion of content in a lifecycle, creation of lifecycles, or any other operation that changes the content of a Content Server repository. The customer is responsible for proper configuration of the system to ensure that Read-Only users are limited to read-only functionality via access control settings. The Documentum Platform Bundle license provides entitlement for Read-Only access using Webtop or third-party custom clients. No other Documentum clients may be used for Read-Only access.

Captiva Input *Acce!* (IA) and Documentum Reporting Services (DRS)

Each licensed installation of IA and DRS includes a single copy of SAP's Business Objects Crystal Reports Designer, which you may use solely in connection with your licensed use of IA or DRS, and only with data created or used by IA or DRS. You may not install more than one copy of Crystal Reports Designer per licensed installation of IA or DRS.

xPlore Software

Use of EMC's ApplicationXtender xPlore software product is only permitted with content residing in EMC's ApplicationXtender software product. No standalone use of xPlore is permitted except with the written consent of EMC.

xCP User

Single App is licensed for a Named User to access a single xCP-based application. If a user needs access to more than one xCP-based application, an additional xCP Single App license is required or the user should be licensed for the xCP User Unlimited license.

Application Specific Licensing (ASL)

Any software product EMC designates as Application Specific License products, including the underlying components of any software bundle, may only be used for the specific solution/application for which it is licensed. Use of the software or any individual components for any other purpose, including general content management functionality, is prohibited. The following is a partial list of software products designated as ASL products:

- EMC Clinical Archiving
- EMC Documentum for Life Sciences – Quality and Manufacturing
- EMC Documentum for Life Sciences – Electronic Trial Master File
- EMC Documentum for Life Sciences – Research and Development
- EMC Documentum for Life Sciences – Submissions Store and View
- EMC Engineering, Plant and Facilities Management – Asset Operations
- EMC Engineering, Plant and Facilities Management – Capital Projects

TEMPORARY TERM EXPIRING LICENSES

Evaluation and Other Non-production Use Licenses

In certain instances and at EMC's discretion, EMC may grant a short-term license for the purpose of demonstration, evaluation, or some other non-production internal use. Such license may be issued as a 30-day license for standalone Software or a 90-day license for array-based systems Software. At the end of the temporary term, the license to use the Software expires and the Software may cease to operate. The temporary term begins once the licenses are made available (e.g., either by making the Software available for download or by delivering the CD to the customer).

Failover Expiring Licenses

Each license entitlement includes the right to run the Software on a separate computer in a failover environment for up to 30 separate days in any given calendar year for purposes of emergency management. Any use beyond the right granted in the previous sentence must be licensed separately and the same license metric must be used when licensing the Software. License keys for such licenses must be obtained from EMC by making a request through EMC Powerlink®.

Backup Testing Expiring License

For the purpose of testing physical copies of backups, license rights include the capability to run the Software on an unlicensed computer for up to 30 days in any given calendar year. License keys for such licenses must be obtained from EMC by making a request through Powerlink. Any use beyond the right granted in the previous sentence must be licensed separately and the same license metric must be used when licensing the Software.

Emergency Expiring License

EMC will allow and support the use of emergency licenses for customer critical situations, such as getting back into production in a disaster recovery situation or resolving a situation with an incorrect License Key being delivered. Each license entitlement includes the right to run the Software on an unlicensed separate computer for up to 30 separate days in any given calendar year. License keys for such licenses must be obtained from EMC by making a request through Powerlink. Any use beyond the right granted in the previous sentence must be licensed separately and the same license metric must be used when licensing the software.

Service License

EMC will allow the use of service-related licenses for customer situations in conjunction with EMC's support organization when initiated and used by EMC support personnel. The license includes the right to run the Software on an unlicensed separate computer for up to 30 separate days in any given calendar year.

MOVE POLICY

A "move" of a Software license is defined as when the original licensee stops using a Software product on one system or device and begins using it on another of the licensee's own systems or devices.

Software Type	Moveable?	Comments
Operating Environment (OE)	No	Operating system-type software installed on EMC storage device or other hardware. Enables basic system functionality. This Software is licensed solely for use on the hardware device on which it is shipped; therefore, the license is not eligible to be moved to another device.
OE Application	Yes	Software applications that can only run on EMC OE Software. Move permitted, provided: Software is under maintenance; customer agrees to discontinue use of the Software on the original host system; the features, functionality, and price of the Software are the same on the new and old host systems; the source host system is technologically compatible with the target host system; any applicable move fees are paid to EMC.

Platform	Yes	<p>Software applications that run on non-EMC OE's but interacts with EMC products. Move permitted, provided: Software is under maintenance; customer agrees to discontinue use of the Software on the original EMC hardware system; the features, functionality, and price of the Software are the same on the new and old EMC hardware systems; the source EMC hardware system is technologically compatible with the target EMC hardware system; the move is not prohibited by the product support agreement; any applicable move fees are paid to EMC.</p> <p>Given the above constraints, the following additional rules apply:</p> <ul style="list-style-type: none"> • Moves from multiple systems to one system (consolidation) are allowed. • Moves from one system to two or more systems are not allowed, as a software license is indivisible. • Moving a raw capacity license to a second system for use as a registered capacity license is not allowed and vice versa.
Host Application	Yes	<p>Software which is not designed solely for installation and use on an EMC storage device, but which runs on a standalone server, an appliance or some other hardware device. Move permitted, provided: Software is under maintenance; customer agrees to discontinue use of the Software on the original host system; the features, functionality, and price of the Software are the same on the new and old host systems; the source host system is technologically compatible with the target host system; any applicable move fees are paid to EMC.</p>

TRANSFER POLICY

“Transfer” of a Software license is defined as when the original licensee has stopped using a Software product and wants to sell or otherwise transfer the rights to use the Software to a secondary purchaser. EMC does not allow transfers under any circumstances; in all cases, the secondary purchaser must purchase a new license to run the Software.

EMC BASIC SUPPORT

The following chart lists the service features of Basic Support provided under EMC's standard warranty and/or maintenance terms.

Basic Support is available as to:

1. EMC® Equipment which is identified on the [EMC Product Warranty and Maintenance Table](#) as
 - including Basic Support during the applicable warranty period; or
 - eligible for Basic Support during a subsequent maintenance period
2. EMC Software which is identified on the [EMC Product Warranty and Maintenance Table](#) as eligible for Basic Support during a maintenance period.

SERVICE FEATURE	DESCRIPTION	BASIC SUPPORT – COVERAGE DETAILS
GLOBAL TECHNICAL SUPPORT	<p>Customer may contact EMC by telephone or web interface 24x7 to report an Equipment or Software problem and provide input for initial assessment of Severity Level*.</p> <p>EMC provides (i) a technical response by remote means based on the Severity Level of the problem, or, (ii) when deemed necessary by EMC Onsite Response as described below.</p>	<p>Included.</p> <p>Initial technical response objective, based upon Severity Level, within the following time period after receipt of Customer contact:</p> <p>Severity Level 1: 2 local business hours; on a 9x5 basis</p> <p>Severity Level 2: 4 local business hours; on a 9x5 basis</p> <p>Severity Level 3: 8 local business hours; on a 9x5 basis</p> <p>Severity Level 4: 12 local business hours; on a 9x5 basis</p>
ONSITE RESPONSE	<p>EMC sends authorized personnel to the installation site to work on the problem after EMC has isolated the problem and deemed Onsite Response is necessary.</p>	<p>Not included.</p> <p>Available for purchase under EMC's then-current, standard time and materials terms, conditions, and pricing.</p>
REPLACEMENT PARTS DELIVERY	<p>EMC provides replacement parts when deemed necessary by EMC.</p>	<p>Included.</p> <p>Replacement parts will be shipped to the Customer for next local business day arrival.</p> <p>Local country shipment cut-off times may impact the next local business day delivery of replacement parts.</p> <p>Installation of all replacement parts is the responsibility of the Customer.</p> <p>Customer is responsible for returning all replaced parts to a facility designated by EMC.</p>

RIGHTS TO NEW RELEASES OF SOFTWARE	EMC provides the rights to new Software Releases as made generally available by EMC.	Included.
INSTALLATION OF SOFTWARE RELEASES	Installation of new Software Releases is not included.	Customer will perform the installation of new Software Releases (including, Software that is not classified by EMC as Equipment operating environment Software as well as Software which EMC determines is Equipment operating environment Software).
24X7 REMOTE MONITORING AND REPAIR	Certain EMC products will automatically and independently contact EMC to provide input to assist EMC in problem determination.	Not included.
24X7 ACCESS TO ONLINE SUPPORT TOOLS	Customers who have properly registered have access on a 24x7 basis to EMC's web-based knowledge and self-help customer support tools via the EMC Online Support site.	Included.

*Severity Levels:

- **Severity 1 Critical:** a severe problem is preventing the customer or workgroup from performing critical business functions.
- **Severity 2 High:** the customer or workgroup is able to perform job function, but performance of job function is degraded or severely limited.
- **Severity 3 Medium:** the customer or workgroup performance of job function is largely unaffected.
- **Severity 4 Request:** minimal system impact; includes feature requests and other non-critical questions.

The warranty periods and support options ("EMC Support Information") on this website apply (i) only between EMC and those organizations that procure the applicable products and/or maintenance under a contract directly with EMC (the "EMC Customer"); and (ii) only to those products or support options ordered by the EMC Customer at the time that the EMC Support Information is current. EMC may change the EMC Support Information at any time. The EMC Customer will be notified of any change in the EMC Support Information in the manner stated in the then current product ordering and/or maintenance related agreement between EMC and the EMC Customer, but any such change shall not apply to products or support options ordered by the EMC Customer prior to the date of such change.

EMC will have no obligation to provide Support Services with respect to Equipment that is outside the EMC Service Area. "EMC Service Area" means a location that is within (i) a one hundred (100) mile radius of an EMC service location; and (ii) the country in which the Installation Site is located, unless otherwise defined in your governing agreement with EMC, in which case the definition in the governing agreement prevails.

Products or services obtained from any EMC reseller are governed solely by the agreement between the purchaser and the reseller. That agreement may provide terms that are the same as the EMC Support Information on this website. The reseller may make arrangements with EMC to perform warranty and/or maintenance services for the purchaser on behalf of the reseller. Please contact the reseller or the local EMC sales representative for additional information on EMC's performance of warranty and maintenance services on Products obtained from a reseller.

EMC ENHANCED SUPPORT

The following chart lists the service features of Enhanced Support provided under EMC's warranty and/or maintenance terms.

Enhanced Support is available as to:

1. EMC® Equipment which is identified on the [EMC Product Warranty and Maintenance Table](#) as
 - including Enhanced Support during the applicable warranty period; or
 - eligible for upgrade to Enhanced Support during the applicable warranty period; or
 - eligible for Enhanced Support during a subsequent maintenance period
2. EMC Software which is identified on the [EMC Product Warranty and Maintenance Table](#) as eligible for Enhanced Support during a maintenance period

SERVICE FEATURE	DESCRIPTION	ENHANCED SUPPORT COVERAGE DETAILS
GLOBAL TECHNICAL SUPPORT	<p>Customer may contact EMC by telephone or web interface on a 24x7 basis to report an Equipment or Software problem and provide input for initial assessment of Severity Level*.</p> <p>EMC provides (i) a technical response by remote means based on the Severity Level of the problem; or, (ii) when deemed necessary by EMC, Onsite Response as described below.</p>	<p>Included.</p> <p>Initial technical response objective, based upon Severity Level, within the following time period after receipt of Customer contact:</p> <p>Severity Level 1: 1 hour; on a 24x7 basis Severity Level 2: 3 hours; on a 24x7 basis Severity Level 3: 4 local business hours Severity Level 4: 10 local business hours</p>
ONSITE RESPONSE	<p>EMC sends authorized personnel to installation site to work on the problem after EMC has isolated the problem and deemed Onsite Support necessary.</p>	<p>Included for Equipment only.</p> <p>Initial Onsite Response objective is next local business day, on a 9x5 basis, after EMC deems Onsite Response is necessary.</p> <p>Onsite Response does not apply to Software, but may be separately purchased.</p>
REPLACEMENT PARTS DELIVERY	<p>EMC provides replacement parts when deemed necessary by EMC.</p>	<p>Included.</p> <p>Replacement part delivery objective is next local business day.</p> <p>Local country shipment cut-off times may impact next local business day delivery of replacement parts and the related Onsite Response.</p> <p>Installation of Customer Replaceable Units (CRUs) is the responsibility of the Customer. Refer to the EMC Product Warranty and Maintenance Table for listing of parts designated as CRUs.</p> <p>Installation of all other non-CRU parts performed by EMC.</p> <p>If EMC installs the replacement part, EMC will arrange for its return to an EMC facility. If a Customer installs the CRU, the Customer is responsible for returning the replaced CRU to a facility designated by EMC.</p>

RIGHTS TO NEW RELEASES OF SOFTWARE	EMC provides the rights to new Software Releases as made generally available by EMC.	Included.
INSTALLATION OF SOFTWARE RELEASES	Installation of new Software Releases is not included.	Customer will perform the installation of new Software Releases (including, Software that is not classified by EMC as Equipment operating environment Software as well as Software which EMC determines is Equipment operating environment Software).
24x7 REMOTE MONITORING AND REPAIR	Certain EMC products will automatically and independently contact EMC to provide input to assist EMC in problem determination. EMC will remotely access products if necessary for additional diagnostics and to provide remote technical support.	Included for products which have remote monitoring tools and technology available from EMC. Once EMC is notified of a problem, the same response objectives for Global Technical Support and Onsite Response will apply as previously described.
24x7 ACCESS TO ONLINE SUPPORT TOOLS	Customers who have properly registered have access on a 24x7 basis to EMC's web-based knowledge and self-help customer support tools via the EMC Online Support site.	Included.

*Severity Levels:

- **Severity 1 Critical:** a severe problem preventing customer or workgroup from performing critical business functions.
- **Severity 2 High:** the customer or workgroup able to perform job function, but performance of job function degraded or severely limited.
- **Severity 3 Medium:** the customer or workgroup performance of job function is largely unaffected.
- **Severity 4 Request:** minimal system impact; includes feature requests and other non-critical questions.

The warranty periods and support options ("EMC Support Information") on this website apply (i) only between EMC and those organizations that procure the applicable products and/or maintenance under a contract directly with EMC (the "EMC Customer"); and (ii) only to those products or support options ordered by the EMC Customer at the time that the EMC Support Information is current. EMC PREMIUM SUPPORT

The following chart lists the service features of Premium Support provided under EMC's warranty and/or maintenance terms.

Premium Support is available as to:

1. EMC® Equipment which is identified on the [EMC Product Warranty and Maintenance Table](#) as
 - including Premium Support during the applicable warranty period; or
 - eligible for upgrade to Premium Support during the applicable warranty period; or
 - eligible for Premium Support during a subsequent maintenance period
2. EMC Software which is identified on the [EMC Product Warranty and Maintenance Table](#) as eligible for Premium Support during a maintenance period

SERVICE FEATURE	DESCRIPTION	PREMIUM SUPPORT □ COVERAGE DETAILS
GLOBAL TECHNICAL SUPPORT	<p>Customer may contact EMC by telephone or web interface on a 24x7 basis to report an Equipment or Software problem and provide input for initial assessment of Severity Level*.</p> <p>EMC provides (i) a technical response by remote means based on the Severity Level of the problem; or, (ii) when deemed necessary by EMC, Onsite Response as described below.</p>	<p>Included.</p> <p>Initial technical response objective, based upon Severity Level, within the following time period after receipt of Customer contact:</p> <p>Severity Level 1: 30 minutes; on a 24x7 basis Severity Level 2: 2 hours; on a 24x7 basis Severity Level 3: 3 local business hours Severity Level 4: 8 local business hours</p>
ONSITE RESPONSE	<p>EMC sends authorized personnel to installation site to work on the problem after EMC has isolated the problem and deemed Onsite Response necessary.</p>	<p>Included for Equipment only.</p> <p>Initial Onsite Response objective is based on Severity Level, within the following time period after EMC deems Onsite Support is necessary.</p> <p>Severity Level 1: 4 hours on a 24x7 basis Severity Level 2: Within 12 hours on a 24x7 basis Severity Level 3: Next business day, local business hours Severity Level 4: Next business day, local business hours</p> <p>Onsite Response does not apply to Software, but may be separately purchased.</p>
REPLACEMENT PARTS DELIVERY	<p>EMC provides replacement parts when deemed necessary by EMC.</p>	<p>Included.</p> <p>Replacement part delivery objective is based upon Severity Level, within the following time period after EMC deems a replacement part is necessary:</p> <p>Severity Level 1: 4 hours on a 24x7 basis Severity Level 2: Within 12 hours on a 24x7 basis Severity Level 3: Next business day, local business hours Severity Level 4: Next business day, local business hours</p>

		<p>Local country shipment cut-off times may impact the same day/next local business day delivery of replacement parts and the related Onsite Response.</p> <p>Installation of all replacement parts performed by EMC as part of Onsite Response, but Customer has option to perform installation of Customer Replaceable Units (CRUs).</p> <p>See EMC Product Warranty and Maintenance Table for listing of parts designated as CRUs for specific Equipment.</p> <p>If EMC installs the replacement part, EMC will arrange for its return to an EMC facility. If Customer installs the CRU, Customer is responsible for returning the replaced CRU to a facility designated by EMC.</p>
RIGHTS TO NEW RELEASES OF SOFTWARE	EMC provides the rights to new Software Releases as made generally available by EMC.	Included.
INSTALLATION OF SOFTWARE RELEASES	EMC will perform the installation of new Software Releases.	<p>Included for Software which EMC determines is Equipment operating environment Software.</p> <p>Customer will perform the installation of new Software Releases of Software (that is, Software not classified as Equipment operating environment Software), unless otherwise deemed necessary by EMC.</p>
24x7 REMOTE MONITORING AND REPAIR	<p>Certain EMC products will automatically and independently contact EMC to provide input to assist EMC in problem determination.</p> <p>EMC will remotely access products if necessary for additional diagnostics and to provide remote technical support.</p>	<p>Included for products which have remote monitoring tools and technology available from EMC.</p> <p>Once EMC is notified of a problem, the same response objectives for Global Technical Support and Onsite Response will apply as previously described.</p>
24x7 ACCESS TO ONLINE SUPPORT TOOLS	Customers who have properly registered have access on a 24X7 basis to EMC's web-based knowledge and self-help customer support tools via the EMC Online Support site.	Included.

*Severity Levels:

- **Severity 1 Critical:** a severe problem preventing customer or workgroup from performing critical business functions.
- **Severity 2 High:** the customer or workgroup able to perform job function, but performance of job function degraded or severely limited.
- **Severity 3 Medium:** the customer or workgroup performance of job function is largely unaffected.
- **Severity 4 Request:** minimal system impact; includes feature requests and other non-critical questions.

The warranty periods and support options ("EMC Support Information") on this website apply (i) only between EMC and those organizations that procure the applicable products and/or maintenance under a contract directly with EMC (the "EMC Customer"); and (ii) only to those products or support options ordered by the EMC Customer at the time that the EMC Support Information is current. EMC may change the EMC Support Information at any time. The EMC Customer will be notified of any change in the EMC Support Information in the manner stated in the then current product ordering and/or maintenance related agreement between EMC and the EMC Customer, but any such change shall not apply to products or support options ordered by the EMC Customer prior to the date of such change.

EMC will have no obligation to provide Support Services with respect to Equipment that is outside the EMC Service Area. "EMC Service Area" means a location that is within (i) a one hundred (100) mile radius of an EMC service location; and (ii) the country in which the Installation Site is located, unless otherwise defined in your governing agreement with EMC, in which case the definition in the governing agreement prevails.

Products or services obtained from any EMC reseller are governed solely by the agreement between the purchaser and the reseller. That agreement may provide terms that are the same as the EMC Support Information on this website. The reseller may make arrangements with EMC to perform warranty and/or maintenance services for the purchaser on behalf of the reseller. Please contact the reseller or the local EMC sales representative for additional information on EMC's performance of warranty and maintenance services on Products obtained from a reseller.

Rev. October 9, 2013

EMC SOFTWARE WARRANTY

1. Except as otherwise agreed by EMC and the customer in a written agreement or as set forth below, the warranty duration for software provided under an agreement directly between EMC as licensor and the customer is ninety (90) days from the date of shipment, or the date of electronic availability, as applicable.
2. The warranty duration for Core Software (the programming or microcode firmware included by EMC with equipment to enable the equipment to perform its basic functions) is the same as the warranty duration of the equipment on which the Core Software is designed to operate.
3. The warranty duration for software (i) identified as “EMC Select;” or (ii) provided under a license agreement from an entity other than EMC, is as separately stated in the license agreement accompanying such software.
4. The foregoing warranty durations apply to software listed on orders submitted to EMC during the period in which the applicable warranty duration is in effect. EMC may change the warranty durations described above at any time and shall notify customer of such change via reposting to this site. However, any such change shall not apply to any software listed on an order referencing a valid EMC Quote that is dated prior to the date of such change.

Rev. March 28, 2008

EMC PRODUCT WARRANTY AND MAINTENANCE TABLE

The table below sets forth EMC® product-specific warranty and maintenance terms and information. Each product identified as equipment also includes its related operating system, operating environment or microcode (also defined in many contracts as “Core software”), if any, unless the table indicates that such operating system is licensed as a separate product. Any EMC software that is licensed as a separate product and is not specifically identified on this table is governed by the terms stated in the row entitled “software.”

EMC recommends that you locate products on the following table by simultaneously pressing the “Control” key and the letter “f” key to activate the “Find” feature, and then typing in the name of the applicable product.

Additional information about available Support Options as well as other important information can be found by clicking the link found [here](#).

Notice: In accordance with widely used business practices in the IT industry and in support of EMC’s worldwide sustainability and recycling initiatives, Equipment may contain components that are (i) previously unused; or (ii) re-manufactured to contain the most current updates, meet all relevant test specifications and be functionally equivalent to previously unused components. Spare, upgrade and/or replacement components may be re-manufactured. EMC warranty terms apply equally to all components. For information on EMC’s recycling and sustainability efforts please [click here](#).

Product	Standard Warranty	Available Support Options	Designated Customer- Replaceable Units (CRUs)*
AlphaStor Software	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium, Enhanced	None
ApplicationXtender Family Software	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium, Enhanced	None
AppSync	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium, Enhanced	None
Atmos Equipment	3 years; Enhanced	Premium, Enhanced	Disk drives (Atmos software 2.2.0 or greater required)
Atmos Software	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium, Enhanced	None EMC will perform the installation of software updates
Autograph Family Software	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium, Enhanced	None
Automated Failover Manager (AFM) Software	90 days; defective media replacement Support during warranty available with purchase of a RecoverPoint or MirrorView maintenance support option.	Premium	None The AFM is included with RecoverPoint or MirrorView software only
AutoStart Family Software	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium, Enhanced	None
AutoSwap Software	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium	None
AVALONidm Software	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium, Enhanced	None

Product	Standard Warranty	Available Support Options	Designated Customer- Replaceable Units (CRUs)*
Avamar Data Store	2 years; Enhanced	Premium, Enhanced	Power supply, disk drives
Avamar Software	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium, Enhanced	None
Backup Manager for SharePoint Software	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium, Enhanced	None
Blade Logic Brand Software	No longer available for sale; maintenance only	Premium, Enhanced	None
Captiva Family Software (Except Pixtools and QuickScanPro products)	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium, Enhanced	None
Celerra NS-120 and NS-480 Equipment	3 years; Enhanced	Enhanced, Premium	Power/cooling module (in processor enclosures), blade, management I/O module (in Storage Processor enclosure), SFP transceiver, standby power supply, and disk
Celerra NS20 Equipment	3 years; Enhanced	Enhanced, Premium	Power/cooling module (in processor enclosures), SFP transceiver module, disk
Celerra NS-960 and NS-G8 Equipment	3 years; Enhanced	Enhanced, Premium	SFP transceivers, X-Blade enclosure power supply, X-Blade enclosure fan, Storage Processor enclosure power supply, Storage Processor enclosure fan, and disk
Celerra NS-G2 Equipment	3 years; Enhanced	Enhanced, Premium	Power/cooling Module (in Processor Enclosures), fan blade, SFP transceiver, and disk
Celerra NX4 equipment	3 years; Enhanced	Enhanced, Premium	Power/cooling module (in processor enclosures, and in disk array enclosures), blade, Storage Processor (SP), SP DIMM memory, SP I/O module, SFP transceiver, standby Power supply, link control card, and disk
Celerra NX4 Core software	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium, Enhanced	Not Applicable
Celerra VG2 and VG8 Equipment	3 years; Enhanced	Premium, Enhanced	Power/Cooling Module, SFP-compliant transceiver, UltraFlex I/O Module, Management Module
Centera Family Equipment	2 years; Enhanced	Premium, Enhanced	With Enhanced support option, Customer is responsible for resetting of modems and nodes
Centera Software	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium	None EMC will perform the installation of software updates
CLARiiON AX4 series equipment	3 years; Enhanced	Premium, Enhanced	All components; Installation of AX4 Core software and system-based software releases
CLARiiON AX4 software	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium, Enhanced	Not Applicable
CLARiiON CX4-series Equipment	No longer available for sale; maintenance only	Premium, Enhanced	Power supply, cooling units, small form factor pluggable transceivers, disk drives per approval of Disk Replacement Utility (DRU) tool, DAE power supply, LCC; Installation of CX4-Series Core software and system-based software releases

Product	Standard Warranty	Available Support Options	Designated Customer- Replaceable Units (CRUs)*
CloudArray Software (Appliance and Virtual Edition)	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium	None
CloudArray Appliance Equipment	1 year; Limited	Premium	Disk Drives, Power Supply
Cloud Tiering Appliance (CTA) Software	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium, Enhanced	None
Cloud Tiering Appliance – Virtual Edition (CTA/VE) Software	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium, Enhanced	None
Cloud Tiering Appliance (CTA) Equipment	1 year; Enhanced	Premium, Enhanced	Disk Drives, Power Supply
Connectrix Family of Directors	3 years; Enhanced	Enhanced, Premium	Power supplies, fans, optics, cables
Connectrix Family of Switches (except Connectrix devices listed below)	3 years; Enhanced	Enhanced, Premium	Power supplies, fans, optics, cables and the complete switch when applicable
Connectrix Manager Software including CMDCE, CMCNE, Cisco Fabric Manager and Data Center Network Manager	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium	None
Connectrix NEX-5010, NEX-5020, AP-7600B, ES-5832B, MP-8000B, MP-7500B, MP-7800B, MP-7840B	2 years; Premium	Premium	None
CopyPoint Software	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium	None
Data Domain Software	90 day; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium, Enhanced	None
Data Domain System	1 year hardware only; Limited Warranty Software (DDOS) 90 day; defective media replacement Support for DDOS during warranty available with purchase of a maintenance support option	Premium, Enhanced	Power supply, disk drives, SAS controller on ES20, external fans, bezels, cables and rails
Data Protection Advisor	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium, Enhanced	None
DatabaseXtender Software	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium, Enhanced	None
Disk Library DL1500, DL3000, and 3D 4000 Family Equipment	3 years; Enhanced	Premium, Enhanced	None
Disk Library Family Equipment (except for DL1500, DL3000, and 3D 4000)	2 years; Premium	Premium	None
Disk Library for Mainframe, DLm8000/6000/2000/1000, DLm8100 w/VMAX, DLm8100 w/VNX/DD, DLm2100 w/DD, DLm2100 w/VNX	2 years; Premium	Premium	None

Product	Standard Warranty	Available Support Options	Designated Customer- Replaceable Units (CRUs)*
DiskXtender Family Software	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium, Enhanced	None
Documentum Family Software (except ApplicationXtender)	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium, Enhanced	None
ECS Appliance Equipment	Equipment: 1 year; Limited	Premium, Enhanced	None
ECS Appliance Software	90 days; defective media replacement. Support during warranty available with purchase of a maintenance support option	Premium, Enhanced	None
eRoom Software	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium, Enhanced	None
File Management Appliance Equipment	1 year; Enhanced	Premium, Enhanced	Disk drives, power supplies
File Management Appliance Software	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium, Enhanced	None
Geographically Dispersed Disaster Restart Software	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium	None
Greenplum Data Computing Appliance (DCA)	1 year hardware only; Limited Warranty	Premium	None
Greenplum Data Integration Accelerator ("DIA")	1 Year hardware only; Limited Warranty 90 days for software in the DIA; defective media replacement Support for software during warranty available with the purchase of a maintenance support option	Premium (covers both hardware and software portion of the DIA)	EMC will perform the installation of software updates included with the purchase of the DIA
Greenplum DCA OE (operating environment Software)	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium	EMC will perform the installation of software updates included with the purchase of the DCA. However, before EMC can perform the installation of an out-of-family software update (e.g., 4.0 to 4.1) for the Greenplum Database software on the DCA, Customer is required to purchase the DCA Greenplum Database Upgrade Preparation Service.
Greenplum Family Standalone Production Software	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium	None
HomeBase Software	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Enhanced	None
InfoMover	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium	None
Ionix ControlCenter Family Software	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium	None
Ionix Family Software	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium, Basic	None
Ionix for IT Operations Intelligence (formerly Smarts)	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium, Basic	None
Ionix Network Configuration Manager (formerly Voyence)	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium, Basic	None

Product	Standard Warranty	Available Support Options	Designated Customer- Replaceable Units (CRUs)*
Isilon Family Equipment	1 year hardware only; Limited Warranty	Premium, Enhanced	Power supplies, power cables, NVRAM batteries, Hard Disks, Rail kits, IB switches, IB cables, faceplates
Isilon Family Software	90 day; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium, Enhanced	None
IT Compliance Analyzer Application Edition Software	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium, Basic	None
IT Performance Reporter Network Edition Software	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium, Basic	None
IT Process Centre Request Management Software	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium, Basic	None
Mainframe Disk Library (MDL) Equipment	1 year; Basic	Premium, Enhanced, Basic	Disk drives, power supplies
Mainframe Disk Library (MDL) Software	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium, Enhanced, Basic	None
MirrorView Software (excluding AX4)	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium	None
Navisphere Family Software (excluding AX4)	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium	None
NetWorker Family Software (except for NetWorker Fast Start)	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium, Enhanced	None
Open Migrator/LM Software	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium	None
Open Replicator For Symmetrix Software	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium	None
PowerExchange PWX Connector to Greenplum	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium	None
PowerPath Family Software	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium	None
ProSphere Software	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium, Basic	None
Rainfinity Appliance Equipment	1 year; Enhanced	Enhanced, Premium (applies only to qualifying models specified by EMC in the maintenance quote)	Disk drives and power supply
Rainfinity Appliance Software	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Enhanced, Premium (applies only to qualifying models specified by EMC in the maintenance quote)	
RecoverPoint Equipment	3 years; Premium	Premium	None
RecoverPoint Software	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium	None

Product	Standard Warranty	Available Support Options	Designated Customer- Replaceable Units (CRUs)*
Replication Manager Software	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium	None
RepliStor Software	No longer available for sale; maintenance only	Premium, Enhanced	None
SAN Copy Software (excluding AX4)	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium	None
ScaleIO	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium, Enhanced, Basic	None
SnapView Software (excluding AX4)	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium	None
Software (all other EMC Software products not listed separately in this table)	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Basic	None
SourceOne eDiscovery Equipment	1 year; Enhanced	Premium, Enhanced	Power supply, disk drives
SourceOne eDiscovery Software	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium, Enhanced	None
SourceOne Family Software (excluding SourceOne eDiscovery)	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium, Enhanced	None
SRDF Family Software	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium	None
Storage Analytics Software	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium, Enhanced	None
Storage Resource Management Suite	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium, Basic	None
Symmetrix DMX Enginuity (operating environment software)	3 years; Premium	Premium	None EMC will perform the installation of software updates
Symmetrix DMX Family Equipment (excluding Symmetrix VMAX)	3 years; Premium	Premium	None
Symmetrix Management Console Software	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium	None
Symmetrix Manager Software	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium	None
Symmetrix Optimizer Software	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium	None
Symmetrix VMAX Cloud Edition	1 year; Limited	Premium	None
Symmetrix VMAX/VMAXe Enginuity (operating environment software)	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium	None EMC will perform the installation of software updates
Symmetrix VMAX/VMAXe Family Equipment (operating environment licensed separately)	3 years; Premium	Premium	Disk drives

Product	Standard Warranty	Available Support Options	Designated Customer- Replaceable Units (CRUs)*
Telestream Flip Factory Software	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium, Enhanced, Basic	None
TimeFinder Family Software	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium	None
VFCache	3 years; Enhanced	Premium, Enhanced	VFCache PCIe card
ViPR	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium	None
ViPR SRM	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium, Basic	None
VMAX 10K File	3 years, Enhanced	Premium, Enhanced	Power supply, UltraFlex I/O module, SFP transceiver, management module

XtremSW Cache	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium, Enhanced, Basic	None
XtremSW Suite	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium, Enhanced	None
z/OS Storage Manager Software	90 days; defective media replacement Support during warranty available with purchase of a maintenance support option	Premium	None

*** Customer Replaceable Units (CRUs):**

CRUs are specific assemblies, components, or individual parts of designated EMC equipment that the customer is authorized by EMC to self-replace. In the event of a failure or technical issue, the customer may remove and replace a CRU by using EMC-provided diagnostic tools and/or documentation. Assemblies or components not designated as CRUs must be serviced and/or replaced by EMC or an EMC authorized service partner.

EMC², EMC, EMC Centera, EMC ControlCenter, EMC SourceOne, AlphaStor, ApplicationXtender, Atmos, AutoStart, AutoSwap, AVALONidm, Avamar, Captiva, Catalog Solution, Celerra, Centera, CentraStar, CLARiiON, Connectrix, CopyCross, CopyPoint, Dantz, Data Domain, DatabaseXtender, DiskXtender, Documentum, EDM, EmailXtender, eRoom, InfoMover, Invista, Ionix, Legato, MirrorView, Navisphere, NetWin, nLayers, Powerlink, Rainfinity, RepliStor, Retrospect, SAN Copy, SAN Manager, Smarts, SnapView/IP, SRDF, Symmetrix, Symmetrix DMX, TimeFinder, ViPR, VMAX, VMAXe, VPLEX, VisualSAN, VisualSRM, VSAM-Assist, VNX, VNX5100, VNX5300, VNX5500, VNX5700, VNX7500, VNXe, VNXe3100, VNXe3300, Xtender, Xtrem, and the EMC logo are registered trademarks or trademarks of EMC Corporation in the United States and other countries. EMC LIMITED WARRANTY

The following chart lists the service features of Limited Warranty provided under EMC's standard warranty and/or maintenance terms.

Limited Warranty is available for EMC® Equipment which is identified on the [EMC Product Warranty and Maintenance Table](#) as including Limited Warranty during the applicable warranty period.

SERVICE FEATURE	DESCRIPTION	LIMITED SUPPORT □ COVERAGE DETAILS
GLOBAL TECHNICAL SUPPORT	<p>Customer may contact EMC by telephone or web interface on a 24X7 basis to report an Equipment or Software problem and provide input for initial assessment of Severity Level*.</p> <p>EMC provides (i) a technical response by remote means based on the Severity Level of the problem; or, (ii) when deemed necessary by EMC Onsite Response as described below.</p>	<p>Included for Equipment only.</p> <p>Initial technical response objective, based upon Severity Level, within the following time period after receipt of Customer contact:</p> <p>Severity Level 1: Two local business hours; on a 9x5 basis</p> <p>Severity Level 2: Four local business hours; on a 9x5 basis</p> <p>Severity Level 3: Eight local business hours; on a 9x5 basis</p> <p>Severity Level 4: 12 local business hours; on a 9x5 basis</p>
ONSITE RESPONSE	<p>EMC sends authorized personnel to installation site to work on the problem after EMC has isolated the problem and deemed Onsite Response necessary.</p>	<p>Not included.</p> <p>Available for purchase under EMC's then-current, standard time and materials terms, conditions, and pricing.</p>
REPLACEMENT PARTS DELIVERY	<p>EMC provides replacement parts when deemed necessary by EMC.</p>	<p>Included.</p> <p>Replacement parts will be shipped to Customer for next local business day delivery of replacement parts.</p> <p>Local country shipment cut-off times may impact the same day/next local business day delivery of replacement parts.</p> <p>Installation of all replacement parts is the responsibility of the Customer.</p> <p>Customer is responsible for returning all replaced parts to a facility designated by EMC.</p>
RIGHTS TO NEW RELEASES OF SOFTWARE	<p>EMC provides the rights to new Software Releases as made generally available by EMC</p>	<p>Not included.</p>
INSTALLATION OF SOFTWARE RELEASES	<p>EMC will perform the installation of new Software Releases.</p>	<p>Not included.</p> <p>Customer will perform the installation of new Software Releases (including, Software that is not classified by EMC as Equipment operating environment Software as well as Software which EMC determines is Equipment operating environment Software).</p>

24x7 REMOTE MONITORING AND REPAIR	<p>Certain EMC products will automatically and independently contact EMC to provide input to assist EMC in problem determination.</p> <p>EMC will remotely access products if necessary for additional diagnostics and to provide remote technical support.</p>	Not included.
24x7 ACCESS TO ONLINE SUPPORT TOOLS	Customers who have properly registered have access on a 24x7 basis to EMC's web-based knowledge and self-help customer support tools via the EMC Online Support site.	Included.

*Severity Levels:

- **Severity 1 □ Critical:** a severe problem preventing customer or workgroup from performing critical business functions.
- **Severity 2 □ High:** the customer or workgroup able to perform job function, but performance of job function degraded or severely limited.
- **Severity 3 □ Medium:** the customer or workgroup performance of job function is largely unaffected.
- **Severity 4 □ Request:** minimal system impact; includes feature requests and other non-critical questions.

The warranty periods and support options ("EMC Support Information") on this website apply (i) only between EMC and those organizations that procure the applicable products and/or maintenance under a contract directly with EMC (the "EMC Customer"); and (ii) only to those products or support options ordered by the EMC Customer at the time that the EMC Support Information is current. EMC may change the EMC Support Information at any time. The EMC Customer will be notified of any change in the EMC Support Information in the manner stated in the then current product ordering and/or maintenance related agreement between EMC and the EMC Customer, but any such change shall not apply to products or support options ordered by the EMC Customer prior to the date of such change.

Products or services obtained from any EMC reseller are governed solely by the agreement between the purchaser and the reseller. That agreement may provide terms that are the same as the EMC Support Information on this website. The reseller may make arrangements with EMC to perform warranty and/or maintenance services for the purchaser on behalf of the reseller. Please contact the reseller or the local EMC sales representative for additional information on EMC's performance of warranty and maintenance services on Products obtained from a reseller.

EMC will have no obligation to provide Support Services with respect to Equipment that is outside the EMC Service Area. "EMC Service Area" means a location that is within (i) a one hundred (100) mile radius of an EMC service location; and (ii) the country in which the Installation Site is located, unless otherwise defined in your governing agreement with EMC, in which case the definition in the governing agreement prevails.
