Comments: Hello, it has come to our attention that Project #SEU18-021 at 1202 Packard is applying to be a marijuana dispensary. I would just like to register my disappointment at this idea. The area surrounding this address is purely residential with families, and an elementary school just a couple of blocks away. This kind of business really does not fit into the atmosphere of this neighborhood. Although it may be "legal", I really worry about the effect it would have on this family-centered neighborhood. The owners of this property left it abandoned for years, and now they're turning it into this. We are very, very disappointed with the owners. Again, this family neighborhood will change in character due to this proposed business, and I am extremely disappointed.
