Subject: A proposed fence at 2865 Esch St

To Zoning Board of Appeals:

I am **OPPOSED** to the proposed fence at 2865 Esch St.

This house is at the corner of King George Blvd and Esch St. King George is a collector street that carries a significant amount of traffic. We had speed bumps installed to at least slow traffic down a bit. With the new Packard Square, there will be considerably more traffic on both of these streets. The front yard fence will obstruct views at this intersection and cause a dangerous visibility condition.

We also have a considerable number of bicyclists who would be similarly affected.

Any front yard fence at this high traffic intersection should meet City standards and not be allowed to exceed them.

Sincerely, Charles Mancherian, 1485 King George Blvd.
