Subject: Support Adams' Proposal

Hi,

I'm Ina, a renter living in the Old Fourth Ward. I've lived in Ann Arbor for 8 years and have been heavily affected by the extreme housing crisis.

Please approve Commissioner Adams' proposal. It gives clear instructions to start rezoning immediately and focuses on the areas most likely to get us more housing. I do not support other plans that would impose more restrictions on people wanting to build housing -- like having a floating residential district and rezoning every single property inquiry individually -- because it would be hugely time-consuming and laborious for both property owners and the city, and this would consequently discourage new housing.

Renters like me will be paying the price for every inefficiency. Please be efficient in rezoning and support Adams' proposal.

Thank you for reading,
Ina
