This message was sent from outside of the City of Ann Arbor. Please do not click links, open attachments, or follow directions unless you recognize the source of this email and know the content is safe.

Can one of you forward me digital copies of the Allmendinger deeds? Or can you clarify what specific racial restrictions were contained in them?

Did the restrictions pertain to people of certain racial categories living on the property or did they more broadly extend to any use of the property?

Planning to get a story out early tomorrow morning based on tonight's vote.

Thanks,

Ryan Stanton

**Subject:** Amendment to Item #23-1103, Section 2

Hello, Ms. Beaudry,

In re-reading section (e) in preparation for first reading, I would like to move to amend the language for greater clarity and because the current language does not fully reflect my intention with respect to tail lamps.

To clarify section (e), I would like to amend it to read the following:

(e) cracked, broken or burned out tail lamp where at least one tail lamp remains functional and properly illuminated.

Thank you,

**Cynthia Harrison**

Whereas, The federal building located at 200 East Liberty Street hosts a small but notable plaza that the federal government is intending to redevelop in the coming years;

Whereas, The General Services Administration (GSA) has been meeting with city stakeholders and signaling an intent to reimagine the plaza for the last two years;

Whereas, Through discussions on the future of the federal building site, the City of Ann Arbor and the GSA have realized there is an opportunity to redevelop the federal plaza with a new vision that provides a higher value amenity for Ann Arborites;

Whereas, Incorporating the existing right of way along Liberty Street into the plaza footprint may provide a higher quality installation for residents and visitors, provide an important opportunity to create a pedestrian plaza, and provide a community gathering space for special events such as concerts, fairs, or civic gatherings, and a space for bordering restaurants and retailers to serve and vend when weather and events are permitting;

Whereas, The development of such a plaza would be in line with the City's transportation goals by creating a safe pedestrian space along a key block in the downtown area, and help facilitate a transition away from car-centric infrastructure and toward a more sustainable and people friendly design; and

Whereas, The City and the DDA are also commencing a year-long circulation study in the downtown this summer, which is partly intended to identify sections of right of way in the downtown that would be good candidates for fully pedestrianized blocks such as this one;

Whereas, working in partnership with the GSA, the opportunity exists to explore multiple options for creating a more vibrant and welcoming pedestrian plaza on the 200 block of East Liberty;

RESOLVED, The City Council directs the City Administrator to engage with the GSA to develop a combined vision that **may incorporate** portions of the right of way along the 200 block of East Liberty Street for a new and expanded federal plaza; and

RESOLVED, The City Council directs the City Administrator to ensure that the circulation study and this federal plaza design process are sufficiently coordinated with each other so as to ensure that one does not pre-empt the other, and each benefits from the input and analysis of the other and **from community and downtown stakeholder input.**
