---

Hi,

I would like to share with the planning commission these videos of Greenhills School morning drop-off traffic in advance of the commission meeting on June 16. (I have shared the first two videos dated May 20 and May 21 previously, but thought it might be helpful to have all four collected in one email.) Please note that I have included the timestamp for each video in the notes accompanying the videos; you have to click “more” underneath the video to see that information. Thank you for sharing these videos with the commissioners.

Katy Miller
