Subject: Thank you for taking a closer look

To: Ann Arbor City Planning Commission & Planning Staff
August 19, 2025

I am writing to show my support for the time you and staff have spent lately examining the built environment and considering what is already there and why. I wish this had been done at a granular level before the comprehensive planning process began. You seem to be realizing that blanket upzoning via a rigid formula does not equal proper planning and does not serve residents. I hope you will ignore the constant repetition of voices urging you to rush the process. Taking a closer look and making adjustments/adding districts where appropriate is not tantamount to a citywide disaster. You have been given \$83,300 to continue to work on drafting the plan for a reason. Thank you.
