Subject: 2250 Ann Arbor-Saline proposed condo project

Matt, All,

We just became aware that a number of residents of Village Oaks have submitted a list of concerns about the proposed development, along the lines of those voiced previously. While all residents can of course provide input, we are concerned that there be no confusion: The attachment is not a consensus product, representing all Village Oaks homeowners; there is no homeowners' association; it is not signed by all.

Previously, those of us most directly impacted by overland stormwater at the foot of Village Oaks and on Chaucer provided a summary of our concerns and the great benefits of the regional detention portion of this project, both for homeowners and for improved stewardship of our waterways.

Matt--we assume that this material remains as part of the Planning Commissioners' packet.
