Subject: Support for Comprehensive Plan

I am writing to express my support for the Comprehensive Plan.

We all understand that too often a very vocal few are able to have a disproportionate impact on political outcomes. The signs I've seen pop up calling for "pausing the plan" are ill-informed, and I believe do not reflect the general sentiment of the Ann Arbor community. I feel confident I speak for the majority of my neighborhood in saying we support the plan, do NOT feel there is a need to "pause". The plan has been well communicated, discussed, and reflects the position and values of the majority of our community.

I live in a predominately SFR area of Ward 5, and am near a transit route proposed to allow additional density. I, along with every neighbor I've spoken with, am very much in favor of the proposed increased density and housing opportunities in and near our neighborhood.

Thanks,
Anya Dale
