

We believe that most vendors want our market to be open until 3pm.

We do a significant amount of business between 1 and 3 pm.

Some days, it is slow between 1 and 3. Other days, it is slow between 7 and 9 am, or 8 and 10 am. Some vendors sometimes have a slow spell between 11 and 12. We don't believe this warrants closing the market permanently during any of those times.

A couple of vendors would like to leave at 1pm. It would cost less for them to hire a helper for a couple of hours, or find some other solution, than for the entire market of vendors to lose 2 hours [4 per week] of good business [thousands of dollars over the whole market]. And for our entire community to lose 2 hours [4 per week] of a market that's only open a total of 16 hours a week.

We've all been publicizing the current market hours for decades. Our market is a big tourist destination. Many people travel from nearby cities, from other states, from other countries. Some come once a year. These people count on our market hours to be what we've told them they are for all these years.

A couple of vendors are very upset that they can't leave early. But the vast majority of vendors feel strongly that they want the market open till 3pm.

Thank you!

M Parker
