Subject: In support of 503 Miller Ave - Childcare

Hello,

I am a resident of the West side neighborhoods and I am writing in support of Green Apple's request for approval of creating a childcare center at **503 Miller Ave**.

Finding daycare: As a young mother, finding daycare in Ann Arbor has been a great burden. Every place you call has a 1+ year waitlist. : The fact that they want to add around 50 additional spots for toddlers and preschoolers will be a godsend.

Location/Biking: Its location makes it unmatched for commuting into work and interacting with the city before and after pick-up. I love that it is close to bike lanes, etc. this helps my family keep our car use down and our walking/bus/biking up. The interaction with the city is the reason we moved to Ann Arbor, and I love to see the planning commission continue to embrace accessibility.

We are very much pro this extension of what is already a wonderful daycare, and I am excited to see what additional things they will do for our community in the future.

Best,

--
