Can you please direct me to links or documents that contain the evaluation metrics that are being used for the Healthy Streets initiative?

Thanks,

Daniel Rubenstein

Good afternoon,

Thank you for emailing the City of Ann Arbor Transportation Commission. I am forwarding your request to the Healthy Streets project team (HealthyStreets@a2gov.org). Staff on this team should be able to help locate the information you have requested.

Thank you,
Kayla

Daniel Rubenstein,

Information about the Healthy Streets program can be found on the project website:

<https://www.a2gov.org/healthystreets>. The deployments were chosen based on a multitude of factors including, but not limited to, public input, traffic/bike counts, system connections, equity considerations, and anticipated safety benefits. The report (including evaluation metrics) from last year's deployments can be found under the "Background and Resources" header. While a similar report is not anticipated to be produced this year, we are monitoring similar data and inputs on the effectiveness of this year's deployment.

Feel free to reach out to me or Eli Cooper (ecooper@a2gov.org) if you have any additional questions, comments, or concerns.

Cheers,
Raymond
