Dear Commissioners,

I am concerned about what's missing in the Comprehensive Plan when it comes to natural features and protections. The plan has generalities in its text, but the goals, strategies, and implementation ideas are absent and protections are insufficient.

Furthermore, there appears to be text in the draft plan that could easily threaten a large part of the City's canopy and natural ecosystem services, and even some of our parks deemed not critical.

I support the resolution of the Biodiversity Sub-committee.

Thank you,

Lisa Jevens
