Well, ain't that special !?!

Went to the above work site bearing gifts (Monster drinks) to discuss. Forman (Jeremy?) blew me off with boat-load of expletives - "ain't my job"
Called non-emergency police number afterwards to discuss. Got blown off there, too. "Call Planning Department on Monday - we can't help you"

Sorry folks, not feeling the love for ordinary citizens with ordinary concerns. Quite the contrary. Wish I was special.

Regards,

All,

New housing construction being built on Allison Drive.

Since Ann Arbor stopped posting neighborhood construction notices (between 2018 and 2021), our neighbors are clueless on what's being developed. Bottom line, no one knows what's being built on the property between 580 and 544 Allison Dr). Single family home, multi-family condo? Maybe a seven-story monstrosity?

No address posted (though concrete has been poured), no plans published; no permits posted; no impact statements made. This is unacceptable.

P.S. complaint sent to A2Fix It
