

## Homework and Study Guide

To effectively prepare for the March 2024 Transportation Commission meeting, please review materials hyperlinked within the meeting agenda.

Additionally, please review materials included and referenced within this study guide. These materials have been compiled to provide background and information to guide Transportation Commission discussion.

---

### Public Communication

The following communications to the Transportation Commission email account have been received over the course of the past month (as of 3/15/24):

- E-bikes and scooters
- Bellwood Ave
- traffic safety concern
- Pedicab license information
- traffic safety concern

### Page Ave Parking Removal

Page Avenue is scheduled to get a new sidewalk between Esch and Harpst. In order to install this sidewalk, the curb will be moved out (into the roadway) so as to minimize conflicts with utilities and provide a lawn extension. This section of Page is relatively narrow and moving the curb necessitates removal of parking on one side of the road so as to allow adequate width for vehicles. More information is available on the [project website](#).

*Proposed Action: Make a recommendation on the removal of parking along Page Ave to accommodate a new sidewalk*

### 2024 Resurfacing and Related Projects Update

The 2024 Street Resurfacing Program and Related Projects was deferred at the last meeting and will be presented by staff this month. This annual presentation will highlight which areas of the City and roadways/paths are slated for rehabilitation or preservation work in the upcoming construction cycle. Additionally, the [street/utility construction dashboard](#) has been updated to show 2024 projects.

### Signalized Intersections and Non-motorized users

In the development of the Annual Work Program, the Transportation Commission requested a presentation by staff on what considerations and accommodations are made for pedestrians and bicyclists at signalized intersections. Staff will give an overview of this topic and then answer questions from the Transportation Commission.

### Traffic Calming/Speed Management Update

At the recommendation of the Transportation Commission, City Council passed [R-23-330 "Resolution to Adopt and Improved Neighborhood Traffic Calming Program"](#) on September 5, 2023. Since it's passage, staff has been working on strategies to

---

implement the directives of the resolution. Additionally, staff has talked these through with the Transportation Commission's Traffic Calming Committee at meetings in February. While work is ongoing on this topic, staff wanted to connect with the Transportation Commission as whole to review the direction we are headed and answer any questions you may have.

**Staff Report and Updates**

The monthly transportation progress report and the January 2024 crash report are included and will be reviewed by staff.
