Subject: S. Fourth Ave.

Jill,

The propose of this email is to let you and the HDC know I am in full support of the two projects Brad Moore is working on. I believe what he and the respective property owners are proposing meet the Secretary of Interior Standards not to mention the esthetics, color, texture, setback and height concerns the HDC has voiced in the recent past. The projects would be complimentary to those buildings within the Main Street historic district.
