Subject: Proposed Daycare center near Nixon and Green

Hello,

It has come to my attention that a church on Nixon is planned to be demolished for a proposed daycare center.

As a parent of young children and resident of the neighborhood I think this is a good idea. I currently drop my son off in Ypsilanti for daycare because the child care rates in the neighborhood are so high. Gretchens house is the only nearby facility and I have found them to be extremely expensive with mediocre care. I think the competition would be welcome.

I know some will be concerned about traffic but the church is on a major thoroughfare and not within the neighborhood. I believe the infrastructure will support it and highly endorse the move.
