Subject: Housing Project Next to Whole Foods.

I am writing to oppose the proposed housing complex on the vacant land next to the Whole Foods Market at the corner of Ann Arbor-Saline and Oakbrook.

The reasons include: it is not zoned for housing, the already bad traffic situation at that intersection (which doesn't include traffic from the other two large housing projects being built further north on Ann Arbor-Saline/Main), drainage issues, and it is too large a project for that site.

One other very important reason for opposition is the very short time period we had to react to this upon notification (and that was from a third party, not the city government or the developers). This gives the impression that someone is trying to hide something.
