Subject: Thank you for your hard work!

Hi Planning Commission!

I spoke in support of the comp plan at the meeting last night and it increased my already great admiration and gratitude for the incredibly important work you're doing. I don't think I could sit and listen to all the nonsense with the patience that you have.

I look forward to when the meeting recording comes out because I want to share the part where you responded to some of the most outlandish claims with clear facts.

thanks again, Lissa
