Subject: Sunbelt Quote

Good Afternoon,

My name is Anthony and I represent Sunbelt Rentals in their power and HVAC division.

I see that Sunbelt sent you a quote for a project back in April of this year, but nothing materialized from it. May I ask why you didn't decide to do business with us?

Additionally, do you have any upcoming projects that would require power and HVAC equipment?

At-large, we specialize in providing a comprehensive range of equipment. I represent the temporary utilities side and we make it a priority to understand your daily workload because we are providing equipment for critical processes / urgent needs, both planned and unplanned. Our main product offerings include:

- air compressors
- generators
- load banks
- panels
- air handlers
- high-static and low-static air conditioning
- diesel and electric heat
- ground heaters
- air-cooled chillers
- flameless heaters
- battery energy storage systems
- fuel cells
- transformers

Thank you and I look forward to hearing from you!

Anthony Dinsmore
