Re: Public Art Enhancement Recommendations for FY2021-FY2026 Capital Improvement Projects

Per Chapter 24 of the City Code, one of the primary responsibilities of the Ann Arbor Public Art Commission is to make recommendations to City Council for capital investment projects which may be suitable for enhancement with public art.

The new version of the CIP provided to us is a minor update, with limited additions and changes compared to the previous year. And the new projects are generally utility work, minor repairs or studies. As a result, AAPAC does not recommend any additions to our previously approved list of enhancements.

Respectfully submitted to AAPAC, CIP group: David Esau, Chair
