Subject: Avram home addition

Hello!

I am Samantha Field, writing with my husband AJ Field on behalf of Peter and Megan Avram. We own 2817 Lillian Rd, two lots down from the Avrams.

The Avrams are wonderful neighbors, and valued members of our community. We support the variance request and think the addition will greatly benefit their living situation. Given the ways our houses are situated this project will affect nothing but their own lot, and would not impact how anyone can use their own property. No views would be obstructed, and no part of daily living would change.

Our neighborhood would be affected if the Avrams needed to move in order to accommodate their three growing children. Megan serves on the Forestbrooke Athletic Club board, their daughter Abby is a lifeguard and a great help to all of us for yard work and child care, Owen is such a great example for all the neighborhood boys, and Molly is close friends with our children, as well as other children nearby. Megan and Peter show up for their neighbors in big and small ways, and have been incredibly generous to us the past three years we've lived here.

We very much hope the Zoning Board will approve the variance request so that our neighborhood isn't disrupted by the loss of the Avrams.

Thank you,

Samantha and AJ Field
