Contractors will be responsible for clearing scattered sidewalks and midblock crosswalks when total storm accumulation depth reaches 1" or more. The DDA ramp/midblock crosswalks will be an as needed service.

REQUIREMENTS

Scattered sidewalk and midblock crosswalk clearing will be required when total storm accumulation depth reaches 1" or more or the area receives freezing rain. Work shall not begin until after the snow stops falling. Contractors will be paid for one push per event based on the total storm accumulation. Sidewalk clearing shall be completed within 8 hours after the snow stops falling. In the event of blowing snow following the storm event or if a sidewalk is plowed in by City street plows or Contractor operations, and snow accumulates to a depth of one-half inch (1/2"), the Contractor shall continue snow removal from sidewalks with all snow being removed by 8:00 a.m. daily. <https://a2-mi.maps.arcgis.com/apps/dashboards/2872f84d9de94a14b258049f0e8ca4a8>

DDA ramp/midblock crosswalk clearing within the DDA will be as-needed. Every effort will be made to coordinate as far in advance as possible to establish a start time for this as-needed operation. The service will not begin until after the streets within the DDA are cleared. The service is meant to supplement property owners in final cleanup and removal of windrows left by street plowing operations. Contractors shall begin clearing these areas within 2 hours of the agreed upon start time. All ramps shall be cleared within 8 hours after the snow stops falling. Contractors are required to monitor weather forecasts throughout the winter contract period and shall be prepared to plow within the scheduled contract times. Deicer products are not typically applied to these sidewalks. However, the City may request Contractor to apply deicer at the hourly rate included in the Proposal.

The Contractor shall make every effort to plow continuously from notice to proceed until the work is completed. The Contractor is required to notify the appropriate supervisor when plowing begins and/or is completed. All areas should be cleared to bare pavement.

The Contractor is responsible for all damage done to public or private property as well as to any person as a result of its operations, and shall repair, replace, or compensate as directed at no cost to the City.

The Contractor shall notify the city when they have completed their work. If the section does not meet the specifications, the city shall notify the contractor immediately with the deficiencies noted during the inspection and the contractor shall return to the section to fix the deficiencies.

Equipment shall be in good condition and repair so as to perform continuously throughout a typical snow clearing operation. Equipment shall be legally licensed and insured. Sidewalk clearing equipment should consist of brooms, blades or blowers.

EQUIPMENT MAINTENANCE

The Contractor is responsible for the maintenance of its equipment at all times and this equipment must be in proper working order at all times. If for any reason the contractor cannot perform assigned work because of improperly working equipment, this shall constitute an event of default and, the City of Ann Arbor shall have the right, in its discretion, to terminate the contract, and engage other contractors to complete the work of the contract.

CONTRACTOR AVAILABILITY

Contractors shall be available by phone and email 24 hours per day. The notice to begin work may be issued at any time of day, any day of the week, including weekends and holidays. The City will make every attempt to notify contractors of the anticipated operational plan for as-needed services.

The duration of this contract period will be from November 1 thru April 15. Contractors shall be available to plow throughout this time period. Contractors shall monitor weather conditions throughout the contract period so as to be prepared to commence work within two hours of notice to begin.

The Contractor shall provide their own equipment, labor, fuel and any other materials necessary to complete the required work. The Contractor shall be responsible for the maintenance and repair of its own equipment and the availability, presence and supervision of its employees. The Contractor shall provide a garage or yard for maintenance and storage of equipment.

The Contractor shall remain in communication with City supervisor during snow clearing operations. All equipment used in the Contractor's plowing operation shall be equipment with a cell phone or radio such that the operator can be contacted at any time.

The Contractor shall report all accidents and damage that may result from the snow clearing operations to the City Supervisor; such reports shall be made by phone and followed with an email. Contractor shall report the location where the damage occurred, the time of the incident, and a description of the damaged item (mailbox, sign, etc.).

The Contractor shall handle all damage claims in a timely and professional manner. The Contractor and their insurer shall communicate with claimants regarding the status of the claim. The City of Ann Arbor will not intercede between the Contractor and claimants. However, failure to settle claims fairly and in a timely manner may be reason to recommend against future contract awards.

Contractors are required to comply with all City of Ann Arbor, County, State, and Federal regulations. The City will not provide oversight, supervision or monitoring of the contractor's employees. Safety is the responsibility of the contractor. The City's contractual obligation is to pay for completed, plowed residential sections as required in this contract.

The City of Ann Arbor shall only pay for completed work. Payment will be made for work that is halted due to weather conditions that eliminate the need for plowing based on the percentage of sidewalks completed in the assigned section or sections.

PAYMENT

Payment is made when sidewalks are cleared in their entirety. The payment will follow the rate schedule as bid for the depth of snow.

The City may halt the snow operations. This can be done at the City's sole discretion if weather and road conditions warrant. Payment shall be made based on the mutually agreed upon percentage of completed section.

Billing for work completed shall be submitted no later than 30 days after the end of each

contracted snow removal operation.

CONTRACT DURATION

The initial contract term is for one-year with the option of two (2) one-year extensions.

ADDITIONAL INSTRUCTIONS

The snow depth measurement will be taken on the sidewalk in a location that is not impacted by wind or foot traffic. The measurement in the field will be used to justify any adjustment to the accumulation ranges that are measured throughout the contractor's assigned sections. The depth of snow will be communicated via email when plowing operations begin.

Payment shall be made for clearing:

1"-2"

3"-5"

5"-8"

8"-12"

Bids shall be for all ranges of snow depth. All Bids submitted just for low range snow events or just high range only will be rejected. Bidders are expected to plow after and during all types of snow events, including severe and blizzard conditions.

The unit price bid for each section and each range of snowfall is complete compensation for plowing in accordance with this document and for all labor, fuel, material, equipment costs, operating expenses, incidentals, overhead and profit.

Contractor may be awarded a contract for the scattered sidewalks and midblock crosswalks, as-needed DDA ramp/midblock crosswalks or both.
