Subject: Support for growing A2

A2 Leaders,

I am writing in support of growing Ann Arbor in terms of density and diversity.

I have been lucky to be a homeowner in the city for three decades. Sadly, living comfortably in A2 is not within reach for many who work here and others who would like to live here.

I appreciate what you have done recently to approve downtown development and I encourage you to continue to think differently about how we can expand housing and business opportunity to invigorate our neighborhoods.

Thank you,
Alisa Theil
