## II. QUESTIONS AND ANSWERS

The following Questions have been received by the City. Responses are being provided in accordance with the terms of the ITB. Bidders are directed to take note in their review of the documents of the following questions and City responses as they affect work or details in other areas not specifically referenced here.

Question 1: ITB Section DS-11: Liquidated Damages and Deductions from Payments states the deduction fee for “Failure to service a residential customer container on service day” is \$250. Can the City provide a clear definition of “failure to service a residential customer container”?

Answer 1: It is the responsibility of the contractor to service all residential customer containers on their identified service day. A failure to service includes, but is not limited to, an instance when the contractor fails to service a residential customer or customers on their identified service day due to no fault of the customer or other circumstances beyond the contractor’s control (for example, there is an obstruction preventing the contractor from servicing the cart). If the City receives a complaint from a resident concerning a missed pickup, and is able to determine that it is the fault of the contractor, the fine may be assessed.

Question 2: Is there a cure period before a deduction fee is assessed?

Answer 2: The City’s expectation is that every resident will have their container serviced on their assigned day. However, the City will provide a cure period of one business

day following notification to the contractor of the following Liquidated Damage (DS-11 and DS-12): Failure to service a residential customer container on service day. The City will also provide a cure period of three business days following notification to the contractor of any of the following Liquidated Damages (DS-11 and DS-12): Failure to make prompt payments to subcontractors for equipment, supplies or labor as they come due; Failure to timely submit monthly invoices on time; and Failure to timely submit monthly or other reports.

Question 3: What constitutes failure?

Answer 3: Please see Answer 1.

Question 4: How does the City address late set outs?

Answer 4: Per Detailed Specification, Section 6.A, the contractor shall provide each driver with the necessary equipment to take and upload pictures and provide mobile reports immediately following each missed pickup (unserviceable), including late set outs.

Bidders are responsible for any conclusions that they may draw from the information contained in the Addendum.

IB-2

As provided in ITB No. 4623 Bid Document:  
Instructions to Bidders - Award as Page IB-2

As updated herein:

Instructions to Bidders - Award as Page IB-2.

The City intends to award a Contract(s) to the lowest responsible Bidder(s). For unit price bids, the Contract will be awarded based upon the unit prices and the lump sum prices stated by the bidder for the work items specified in the bid documents, with consideration given to any alternates selected by the City. If the City determines that the unit price for any item is materially different for the work item bid than either other bidders or the general market, the City, in its sole discretion, in addition to any other right it may have, may reject the bid as not responsible or non-conforming. The acceptability of major subcontractors

will be considered in determining if a Bidder is responsible. All key staff and subcontractors are subject to the approval by the City.

*Comment: The intent with this change is to simply replace the inaccurate Award section of IB-2 provided in the ITB Document with the accurate Award section Page IB-2 provided herein.*

## **II. QUESTIONS AND ANSWERS**

The following Questions have been received by the City. Responses are being provided in accordance with the terms of the ITB. Bidders are directed to take note in their review of the documents of the following questions and City responses as they affect work or details in other areas not specifically referenced here.

Question 1: Page C-2 Section V.C: Can the City provide the information in this section for the current contractor for the past 5 year period?

Answer 1: The current vendor invoices are not material to the ITB. If information is needed, please proceed with a FOIA. <https://www.a2gov.org/departments/city-clerk/Pages/records-request-foia.aspx>

Question 2: Page DS-2 Automated and Manual Collection: this section references 3 sizes of carts being used. We are assuming that the City provides, owns, and maintains these carts. Is this correct?

Answer 2: Yes, the City will own, order, deliver, and repair carts.

Question 3: Page DS-2 Automated and Manual Collection: this section references "Special Setouts". Is the City responsible for determining who qualifies for this service? We are assuming that the City will provide an updated list of adds and drops on a routine basis.

Answer 3: Yes, the City determines which customers qualifies, by interviewing the applicants. The number will fluctuate on how many customers need the service.

Question 4: Page DS-3 Collection Schedule: this section states that recycling collection must follow the City's trash and compost collection. Can the City provide information on the number of households serviced by these services by day? Example: Monday 6,023 units, Tuesday – 5,988 units, etc...

Answer 4: The City does not currently have this data; however, we will work with the winning bidder to provide current route data following award. There are currently 6 routes for residential trash, each route is serviced by 1 truck.

Question 5: Page DS-4 Section 2.G: Can the City provide a number of carts in service for recycling throughout the City for the applicable service units under this ITB?

Answer 5: This bid is not based on the number of carts in the field, it is based on the number of households serviced. This is roughly a one-to-one cart to service unit measure.

Question 6: Page DS-8 Section 9: It appears that the current service provider operates City of Ann Arbor vehicles. Can you provide more information on this arrangement? Are these vehicles owned and maintained by the City?

Answer 6: The current contract allows for up to 10 City-provided vehicles; however, the new collection contract will not allow for the winning bidder to use City-provided vehicles. Alternatively the City is willing to consider having the vehicles appraised, and selling them to the winning bidder.

Question 7: Page DS-8 Section 9.C: Are the current vehicles equipped with AVL's? If so, what is the brand/type? Does this AVL interface with another City application or have special requirements? Does the City have intention on accessing this information? What is the end goal of utilizing this equipment in the City's opinion?

Answer 7: Please see page DS-8, Collection Vehicle Age and Standards, the City requires the contractor to equip collection vehicles with an Automated Vehicle Locator (AVL). The City does not expect the Contractor to share AVL data unless upon request to respond to or investigate customer complaints.

Question 8: No Page/section: this work describes service collection units as single family homes, what about the businesses throughout the City that have recycling carts? Are they covered under this contract? Are they included in the 28,000+ number of service units or is that a separate number?

Answer 8: The ITB is only in regards to single/multifamily homes described on page DS-1, Purpose and additional detail on current customer listing and mapping in Appendix 6. Recycle carts at businesses are not covered under this ITB.

Question 9: Can you provide the current pricing and costs paid to the contractor?

Answer 9: In March 2020, the costs to the City to provide residential recycling cart service, as well as some multi-family unit and business recycling cart service were \$4.28 per cart tip, \$18.74 per ton, plus vehicle repairs and truck rental.

Question 10: Can you provide historical weights/volumes of materials collected for the past 5 years?

Answer 10: The City has provided historical weights starting in July 2016 via an attached 287 page PDF. Data earlier than July 2016 is available but difficult to provide because the City previously used a different computerized weighting system. Data prior to July 2016 is not in the same format, does not use the same identifying terms, and may be incomplete. If data older than 2016 is necessary please submit a FOIA application. The weights provided are not exclusive to single family or multifamily homes and includes material picked up by the current vendor and City employees at businesses, which is excluded from this contract.

Question 11: Start Date is July 1, 2020, is unusually short period of time to respond, when do we anticipate getting the award to council? With Covid 19 would like an extension of the due date of the bid and an extension of a later date of the contract?

Answer 11: The City will present the winning bid to City Council for approval approximately 4 weeks following the date of tentative award.

Planning to issue ITB was well underway when the COVID-19 pandemic upended business as usual. City are aware of and sensitive to the challenging and evolving business dynamic this pandemic presents for all stakeholders involved. However, the impending June 30, 2020 contract expiration date and cost considerations associated with current recycling collection operations contract made City staff feel it was prudent to issue the Residential Recycling Collection ITB process on April 6, 2020. The City is taking requests to extend the due date of the bid and the contract start date into consideration.

Question 12: Would Ann Arbor consider the new bidder using the trucks that are currently used by the old vendor?

Answer 12: No. The trucks are beyond their useful life and will not be available for use by third parties. The trucks will go to auction. Alternatively, the City is willing to consider having the vehicles appraised, and selling them to the winning bidder.

Question 13: How many truck does the city currently own?

Answer 13: The City currently owns seven trucks used by the current recycling collection contractor.

Question 14: Would the city entertain the purchase of the trucks to the vendor?

Answer 14: See Answer 12.

Question 15: In the tonnage supplied in the RFP, there is a jump this year, what could cause it?

Answer 15: The City speculates that new subdivisions and high-rises have contributed to the Increase identified in the ITB, but no known cause is identified.

Question 16: Can the City explain more about why the City putting out an Invitation to Bid (ITB) for essential services during a global pandemic? Some reasons why we think this approach is unwarranted are:

Corporate coordination and supplier issues are major concerns for businesses during “shelter in place”. There is great uncertainty in the market (savings, cash flow, layoffs, contingencies, service demand). Many haulers are facing labor and health/safety contingency issues in light of the current crisis. Manufacturing has been affected creating delays and the length of time (allowed or in this bid) to secure trucks is not viable given the circumstances.

[Proposer] recommends that this ITB be withdrawn and resubmitted as an RFP at a time when the economy has recovered.

Answer 16: Regarding the global pandemic, please see Answer 11. The City issued ITB 4623: Residential Customer Recyclables Collections because it describes the services the City needs in the most fiscally responsible manner.

Question 17: Under “Environmental Commitment” on page IB-5 it states, “The City encourages potential vendors to bring forward emerging and progressive products and services that are best suited to the City’s environmental principles”. However, because the City has chosen to bid the services through an ITB, the vendor is not provided an opportunity to bring forward products and services that would achieve the goals stated above as part of the response. Can you please clarify?

Answer 17: Environmental Commitment can be achieved by the proposer thought the ITB process, the proposers should look at identified items required within the contract. For example, truck technology and the type of vehicle are all items that can used to achieve the goal of Environmental Commitment.

Question 18: Are bidders competing with the city providing these services internally, as recommended by staff in a recent plan they submitted to the City Council? If so, will the City

submit a bid? If no, will the City use the info gathered in the bid process to compare their estimated budget for providing these services internally?

Answer 18: The City has engaged an independent third party accounting consultant who has audited the City's published internal costs described in the draft Solid Waste Resource Management Plan. Audit results will be opened and presented at the same time as other proposals received. All proposers costs including the City's will be assessed.

Question 19: Given the timeframe (start date July 1, 2020) and the complexity of the services to be provided, will the City select a vendor and then negotiate details that may be unclear in the bid and use other bidder responses to support the selected vendor? [Proposer] recommends that a more appropriate approach to the selection process would be to use an RFP?

Answer 19: Please see Answer 16.

Question 20: The City did not specify the type of trucks to be used in the ITB. Large/multinational haulers are able to source currently unused and backup trucks from other geographical areas to apply for this bid while waiting to secure trucks. The local independent haulers will need to purchase trucks. Since It is not realistic that local independent haulers can compete with national haulers to secure trucks in the same timeframe, is the city aware that using this timeframe could negatively impact a local independent haulers ability to bid?

Answer 20: The type of trucks to be used and the mechanism for acquiring those trucks (for example, renting or purchasing) is a decision that each Proposer will make. Please see Answer 12.

Question 21: City intends to award a Contract to the "lowest responsible bidder". For the purposes of this bid, how are "lowest" and "responsible" being determined?

Answer 21: The bid will be awarded to the lowest responsible bidder based on Bid Form Section 1 Schedule of Prices page BF 1-5 and their ability to meet the requirements of the ITB.

Question 22: The Award language on IB-2 says that the City will give consideration to alternate Bids for items listed in the bid forms. But earlier in the bid document (IB-1) the City states that "no alternative bids will be considered unless alternative bids are specifically requested". Please clarify. Is the bidder able to supply alternative bids?

Answer 22: Please see Section 1 Additions/Corrections/Deletions.

Question 23: The Award language says that "If the City determines that the unit price for any item is materially different for the work item bid than either other bidders or the general market, the City, in its sole discretion, in addition to any other right it may have, may reject the bid as not responsible or non-conforming." How is the City defining "materially different" for the purposes of this bid?

Answer 23: This language allows the City discretion to determine whether a Proposer's unit price meets expectations based on comparison to other bidders and the general market.

Question 24: There has been no information provided on how a bid will be selected or awarded. Will there be interviews with bid finalists to clarify issues, approaches and experience? What about reference and background checks? Lacking these, how will the City determine if a bidder is "qualified" and "responsible"?

Answer 24: Please see Answer 21.

Question 25: Under “Bid Protest” on page IB-4 of the bid, it states that, “All Bid protests must be in writing and filed with the Purchasing Agent within five business days of the award action”. Please define what is meant by “award action”. Does “award action” refer to the selection by City staff, or the approval by City Council, or some other action in the process? Can a bid protest be emailed under the current pandemic?

Answer 25: Non-award bidders will be notified via e-mail of the City’s intent to award. The five business day timeframe starts once that Notice of Intent to Award is sent by the City and interested parties should feel free to notify the Purchasing Agent (via e-mail would be acceptable) of the protest within that five day timeframe as provided in the ITB Document.

Question 26: “Invitation to Bid” on pages ITB-2 says that “If this Bid is accepted by the City and the Bidder fails to contract and secure the required Bonds and insurance documentation within 10 days after being notified of the acceptance of this Bid, then the Bidder shall be considered to have abandoned the Contract.” Is “after being notified of the acceptance of this Bid” ten days after City Council approval of the contract, or some time before then? Also, given the shutdown/slowdown of many offices in light of the stay at home order, insurance and bonding documents may take longer to finalize than usual.

Answer 26: 10 days following Council approval is the expected timeframe for the winning bidder to procure required bonds and insurance. The City will work with the awarded bidder throughout the process of securing required bonds and insurance.

Question 27: On page DS-7 it states the Contractor shall develop and submit a “Transition and Implementation Plan” no later than two weeks after the finalization of the Contract. What is meant by the “finalization of the Contract”?

Answer 27: Finalization of the contract occurs once the winning bidder and the City have signed the contract.

Question 28: On page DS-12 it states that “Execution of the Contract does not confer the Contractor exclusive access to customers in the Residential Recycling Service Area.” What is the meaning of this statement?

Answer 28: The city does not guarantee that the Proposer is the only service provider for residential recycling customers. For example, if the City deems it necessary, the City or another service provider may also service residential recycling customers.

Question 29: Is the City assuming all of the stops (households/units) not listed as side door (special services) are fully-automated? As the current service provider, we are aware of a significant number of stops that require semi-automated service. Will these stops continue to receive service under the proposed automated collection system?

Answer 29: It is up to the proposer to determine the vehicle/ manpower necessary to service all households within the City. All households are expected to receive service.

Question 30: How did the City derive the 28,550 households serviced included on the bid form? What is the City’s source document for this number?

Answer 30: The City’s derived the number of households from a subset of 2018 data provided by the current recycling contractor; this data is only as accurate as the third party records provided.

Question 31: How many cul-de-sacs, alleys and dead-end streets are included in this scope of

services?

Answer 31: It is up to the vendor to determine based on the information provided.

Question 32: On page DS-2 the City references the use of 32, 64 and 96-gallon toter carts. Can you please provide us with the number of each size of recycling cart currently employed within the City?

Answer 32: The most current data the City has regarding the total number of recycling carts is provided by the current recycling contractor. However, this data includes carts at businesses and multi-family homes not covered by this ITB and additionally includes cart sizes (for examples, 300-gallon) that the City will no longer use. Therefore this data is not relevant to this ITB.

Question 33: Since provisions such as providing a verified, updated household count with supporting information are to be provided to the City at least thirty days prior to commencement of services, when is the award of this bid scheduled to go to City Council for approval? To begin July 1, updated household count with supporting information would have to be provided to you no later than June 1, can you confirm this?

Answer 33: Please see Answer 11.

Question 34: What obligation, if any, does the curbside collector have to ensure that recyclables delivered to the Ann Arbor MRF meet or exceed the City's stated curbside collection standards? With price being the only determinant of contract award, what incentives or accountability is in place to ensure that the successful Contractor is not delivering trash to the Ann Arbor facility?

Answer 34: The ITB directs the contractor to work collaboratively with the City to address program performance issues (for example, recycling cart contamination) utilizing curbside tagging and will hold the contractor accountable for tagging by charging a fee when the Contractor fails to notify residents of noncompliance.

Question 35: Is there any penalty to the hauler if current contamination rates increase over the course of this contract?

Answer 35: The ITB does not identify a penalty if contamination rates increase over the course of the contract; however, please see Answer 34 for additional information regarding how the contractor is required to use curbside tagging to notify residents of noncompliance with the City's Solid Waste Ordinance.

Question 36: The current provider utilizes union labor, does the City have a preference to keep these services utilizing union labor?

Answer 36: No, per City and state rules, contracts may not take into consideration whether a Proposer has Union labor or not.

Question 37: Thank you for this opportunity to submit questions under ITB 4623-Residential Customer Recyclables Collection. We have taken some time to carefully review the bid document and offer the attached series of questions.

Overall, given the City's invitation to provide input (in the document itself and at the pre-bid meeting), we would like to make the following recommendation. We recommend that the procurement process be converted to a Request for Proposals (RFP) from the current bid format given the detailed nature, sizable expense and customer impact of this service. Historically, the City has used an RFP process for these types of services.

We believe that an RFP process will benefit all proposers and the City, especially given the current COVID pandemic. Depending on how it is designed, it could also allow proposers to secure the equipment they need with adequate lead time and allow the selected proposer to establish needed transition plans for the service. An RFP process would lead to better outcomes for the City, where considerations beyond price are considered and where proposers are better able to submit quality proposals with less economic and social uncertainty.

## Award

The City intends to award a Contract(s) to the lowest responsible Bidder(s). On multi-divisional contracts, separate divisions may be awarded to separate Bidders. The City may also utilize alternatives offered in the Bid Forms, if any, to determine the lowest responsible Bidder on each division, and award multiple divisions to a single Bidder, so that the lowest total cost is achieved for the City. For unit price bids, the Contract will be awarded based upon the unit prices and the lump sum prices stated by the bidder for the work items specified in the bid documents, with consideration given to any alternates selected by the City. If the City determines that the unit price for any item is materially different for the work item bid than either other bidders or the general market, the City, in its sole discretion, in addition to any other right it may have, may reject the bid as not responsible or non-conforming.

The acceptability of major subcontractors will be considered in determining if a Bidder is responsible. In comparing Bids, the City will give consideration to alternate Bids for items listed in the bid forms. All key staff and subcontractors are subject to the approval by the City.

The liquidated damages are for the non-quantifiable aspects of any of the previously identified events and do not cover actual damages that can be shown or quantified nor are they intended to preclude recovery of actual damages in addition to the recovery of liquidated damages.

The services shall be in compliance with all applicable City regulations and code, including but not limited to Chapter 26 of City Code and the Solid Waste Regulations. If the City desires to extend the Contract, it shall provide written notice of its intent to extend to the Contractor on or before May 15, 2025, and Contractor shall provide written acknowledgement of the City's exercise of its option to extend to the City on or before June 15, 2025.

  - ii. Each unit must have its own street-level entry and collection cart(s);
  - iii. Carts can be set out in front of the individual units or building(s) at the street edge/curb, or some equivalent location (such as an alley), in other words, the property has a common point where residents bring their container(s) for pick up; and
  - iv. The property must be serviceable by the Contractor's collection trucks (who may be entering private roads or drives to provide the service).

See Appendix 6 for current customer listing/mapping.

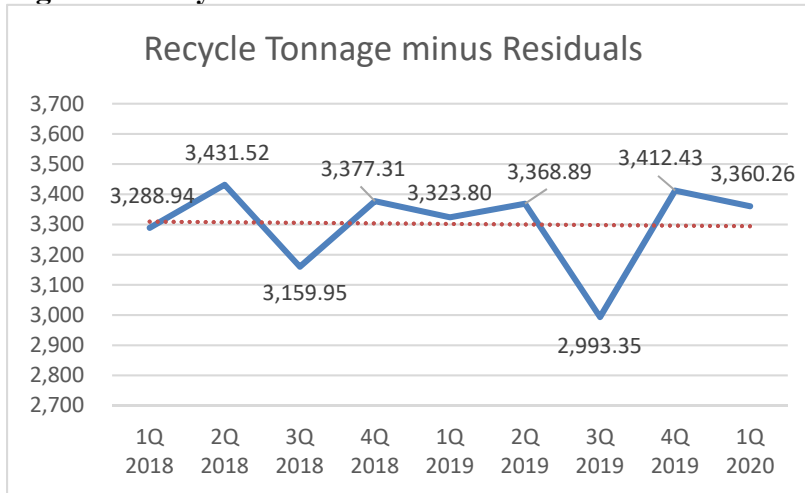

- B. Delivery of collected recyclables to the City of Ann Arbor Material Recovery Facility (MRF) at 4150 Platt Road, Ann Arbor will take place during the City of Ann Arbor Scalehouse working hours, Monday through Friday, 7:00 a.m. to 4:00 p.m. or on Saturdays 7:00 a.m. to 4:00 p.m., during those weeks that include a major holiday, (New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving, and Christmas).

### **Current Performance and Program Goals**

The City's Solid Waste Program aims to maximize waste diversion through recycling and compost streams and to minimize landfilling. The City encourages residents through education, outreach and infrastructure, to use recycling and organics collection services where available. Almost 18% of the waste set out as part of the curbside and business services is diverted to recycling, as shown in the following Figure 1 (Fiscal Year 2019 data) and the City is interested in increasing the amount of material diverted for recycling.

**Figure 1 – City Scale Data FY2018 - 2019**

The City is also interested in improving the quality of our recycling stream by reducing contamination and moisture. The Contractor shall work collaboratively with the City to address this program performance issue. Items currently not accepted for collection include furniture, large appliances (such as washers and dryers), carpets, rugs, mattresses and plastic-wrapped mattresses, barbecues,

toys and bicycles, plastic bags, foam packaging, etc. Contamination shall be addressed by the collector at the curbside through the City’s tagging program.

**Automated and Manual Collection**

The City owns 32-gallon, 64-gallon, and 96-gallon Toter carts that are currently utilized for curbside pickup, that are primarily serviced by automated side-arm trucks. The vendor will be responsible for providing service for these carts at Residential Customer Households and any new City customers of the same land-use type due to annexations, new development or site re-development.

The City also has a manual residential recycling collection, on an as-needed basis, to disabled customers or those having special needs. The program, known as “Special Setouts,” discussed in section R2:10 of the City’s Solid Waste Regulations as noted below, identifies and approves individuals These approved locations shall receive their weekly trash, recycle and compost servicing by drivers exiting the vehicle, picking up the cart left outside of the garage, taking it down the driveway, emptying the cart and placing it back next to the garage. The City’s electronic work order management system (Cityworks) will be used by the City and the Contractor as the asset management tracking program for managing this portion of the collections. There are approximately 70 customers who currently receive manual recycling collection service.

*R2:10 Variances Additions*

*(1) CURBSIDE COLLECTION SERVICE FOR PERSONS WITH DISABILITIES*

*Side door or porch set-out service is provided by the City or its authorized contractor to citizens who are physically unable to place their refuse or recycling containers at the curbside, and are unable to make other arrangements to have materials placed at the curbside. This type of collection will be known as “Special Pickup.”*

*Special Pickup service is subject to approval by the City following an on-site interview and must be renewed every two years. To arrange an interview, call the City’s Customer Service Center at 99-Green (994-7336).*

## Collection Schedule

The current residential recycling collection schedule is a Monday through Friday, five days-a-week schedule.

Recycling collection service shall be between 7:00 a.m. and 4:00 p.m. year-round, excluding City Holidays on which waste collection is not performed (including New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving, and Christmas Day) in which case waste and recycling collection occurs the following day, including Saturday. For example, if a holiday occurs on a Wednesday and no collection is performed that day, Wednesday collection will occur the following Thursday, Thursday collection on Friday, and Friday collection on Saturday so that a 5-day collection cycle is achieved.

The recycling collection schedule will follow the same as the City's trash and compost collection schedule. For example, if the City collects trash and compost at a Residential Customer Household on Monday, the Contractor will collect recycling at that location on Monday.

## **11. CUSTOMERS COMPLIANCE ISSUES**

The City and Contractor acknowledge that, in rare cases, some customers may cause disruptions or conflicts that make continued Residential Customer Recyclables Collection services from that customer unreasonable. Those disruptions or conflicts may include unwillingness to properly prepare materials, repeated suspect claims of timely set-out followed by demands for Residential Curbside Recyclables Collection, repeated unsubstantiated claims of Contractor damage to customer's property, or other such problems.

The Contractor will make every reasonable effort to provide Residential Customer Recyclables Collection services for those customers who are not in compliance with city requirements. However, with the City's written agreement, the Contractor may deny or discontinue Residential Customer Recyclables Collection for a noncompliant customer after prior written notice is given to the City of the intent to deny or discontinue service, including the name, service address, reason for such action, and what reasonable efforts to accommodate the customer have been made and in what manner they have failed.

If the noncompliant customer submits a written letter or e-mail to the City appealing the Contractor's decision, the City may, at its discretion, intervene in the dispute. In this event, the decision of the City will be final. The City may also require, in its sole discretion, the denial or discontinuance of Residential Customer Recyclables Collection services to any Customer who is determined by the City to be ineligible.
