Protest of rezone of 2857 Packard (ORD-19-3—Weber Zoning)

Dear Mayor and all the council members:

Tonight you will be presiding a public hearing regarding rezoning of 2857 Packard Road from R1E to PUD. I am a neighbor of this address and is very concerned by how this proposal will be decided, thus the land would be developed after your vote.

At the developer's meeting held previously I have seen how they plan to use the lot after rezoning; how many houses are planned to be built at this not so large piece of land north of Packard Rd. Clearly the project gives little consideration or respect to the surrounding neighborhood's existing layout and style. It will not blend, rather cut into the neighborhood in an odd way. Not to mention the issues such as congestion that will be forced onto this part of the city.

Do you want to see this to happen in our quiet neighborhood? I hope not, please vote NO tonight. We the residents will deeply appreciate your caring decision.

Respectfully,

Feng Jiang  
2808 Cranbrook Rd
