Subject: Supporting housing changes

Hi there!

I was born & raised in Ann Arbor, and care about expanding access to housing & lowering rent for folks in the area! In general, I strongly support anything that allows for more large-scale residential development. But a friend of mine (who knows a lot more about this than I do) pointed out three priorities that would be important to that mission:

- 1) eliminate flex zone;
- 2) uncap transition far from residential;
- 3) don't require active first-floor commercial on arterials.

I strongly support these & know a lot of my fellow Ann Arborites do too! Thanks for all of your work!

Best,
Isaac
