Section 3: Findings

During the public hearings on this Planned Unit Development Amendment, the Planning Commission and City Council determined that:

- (A) It is desirable to develop the property described above, presently a vacant brownfield site, as for a nine-story mixed use building containing conference, reception, and meeting space, first floor neighborhood retail and restaurant space, community gathering areas, hotel rooms and services, apartments and underground parking.
- (B) The surrounding neighborhood contains University of Michigan facilities to the east across Glen Street and to the north across Catherine Street, and abuts historic houses and modern apartments in the Old Fourth Ward Historic District to the south and west.
- (C) It is in the best interest of the surrounding properties and the City of Ann Arbor that the developer clean up environmental contamination on the site to provide retail and restaurant space; meeting, conference and reception space; high quality hotel space; and apartments to serve City residents and the many visitors to the City of Ann Arbor and the University of Michigan Medical Center. The project will have a beneficial effect on, and will not adversely affect, the surrounding properties or the City, in terms of public health, safety, or welfare.
- (D) The PUD zoning district provides:
 - Innovative design including hotel-like amenities ~~to~~ for apartment dwellers, space for conference, meeting or personal functions, reestablished commercial uses on the ground floor, and a design that steps down on the ends to reduce the building mass;
 - Economical land use by cleaning up existing environmental site contamination from a dry cleaner and a gas station formerly located on the site, and providing a variety of services in one location in an energy efficient building that meets LEED Silver standards;
 - Hotel, retail, and restaurant employment opportunities and shopping particularly suited to the needs of the residents of the city;
 - The reuse of an existing vacant site which contributes to the desired character and form of an established neighborhood by providing a transition from single- and multi-family residential structures in the Old Fourth Ward neighborhood to the large University of Michigan buildings across Glen Avenue and Catherine Streets.
- (E) The parcel-Property described above meets the standards for approval as a Planned Unit Development, and the regulations contained herein do not constitute the granting of special privilege nor deprivation of property rights.
