DS-1 – Resolution to Approve New Advanced Metering Infrastructure Opt-Out Fees and Amend the Public Services Area Rules and Regulations

Question: A resident has been attempting to set up installation of the new water meter in their home but was told that they cannot request that the contractor who installs it and/or services it be required to be vaccinated. Is it possible for the City to work with the contractor who is doing this work for us to provide some vaccinated work people to enter our residents' homes? (Councilmember Disch)

Response: Please have the resident contact our Project Manager, Troy Baughman (tbaughman@a2gov.org, 734.794.6000 x43798) as he'll work with the contractor to provide a vaccinated installer.
