H CM Nelson. I think if you really want to be transparent, you need to share the data and the methodology. For example, does a vote with the majority in favor of the consent agenda count the same as a vote with the majority on a contentious issue like censuring CM Hayner? Did you even include consent agenda votes? Is that one vote or 10 votes, one for each CA item? How do you count an abstention or an absence? How do you handle a yes vote on a first reading and a no vote on a second reading? How are votes on amendments counted?

Sharing your dataset and detailing your methods are standard practice when publishing statistical analysis. Please consider adding these details to your blog.

Thanks

Hi,

The source for voting data is Legistar, as recorded by our City Clerk. I publish voting charts after every meeting to help with a visual representation, plus links to the official record of Legistar-- you can find them for every meeting since my election at A2Council.com

Happy 2022!

Elizabeth

Greetings, CM Nelson. I hope your new year is getting off to a good start. I found your blog post about voting factions interesting and I was hoping that you could share the data set that you used to generate the scatter plot. Can you share it?

Thanks

Peter Houk

Subject: sound for zoom comments

Is it possible to have CTN increase the sound for the call-in commenters, I find it hard to hear.

Julie (especially),

We just looked at the numbers of solar installations year by year. You. are. killing it! You CAN double your participation every year! We're encouraged by your success. Thank you!

Happy New Year,

Dear Mr. Dohoney, Mr. Gerhart, and Mayor Taylor,

Please remove my name from Public Comment.

CM Griswold has informed me that the Resolution to Improve Pedestrian Safety at Crosswalks (DC-1) is being postponed from tonight's agenda and that was my topic.

Thank you,
Anne Bannister
