Good morning!

I wanted to email you and encourage you to support the latest development suggestion coming from WBWC regarding the [Border to Border and Campus to Campus Project Proposal](#). It is really the BEST concept that makes the most amount of sense and sensibility to have non motorized commuting in a safe environment and efficient manner. Non motorized improvement in this area is long long overdue. Please make sure it becomes a priority that is in the forefront of areas in need of development.

If there is anything else, please let me know. How can I help?
