Chima,

This construction sounds like a fine idea for you and your family. I strongly support it.. I hope it can begin and be completed soon.

Greetings Neighbours,

Trust everyone is doing well. We have applied to have a room added where our deck used to be. The city has scheduled us for the December 1st board meeting hearing. We have used the chair lift we had installed to move Chibu from upstairs to downstairs, which worked very well. However, now that his condition has gotten worse, it is difficult to bring him downstairs. He not only had a stroke, he was diagnosed with Parkinson's disease which has flared up. You all may receive a letter from the city asking for either support of this project or objection. We would ask and appreciate your support. I hope this email gets to everyone.

Thanks and blessings.

Chima
