Joe Biden is a clueless con man who has this country positioned on a train to an economic disaster. I believe, the last thing we should be throttling down is the money supply as FDR proved during his brilliant new deal intervention, that might have saved this country from complete ruin and collapse. We have gasoline prices hovering around 5 dollars a gallon. The congress just stopped the stimulus aid to the economy and the American public, and if the fed raises interest rates to calm the money flow in our economy, it might in a very quick collapse like action, push this country back into a recession which is probably that degenerate Biden's agenda anyway. I believe returning our country's freeways maximum speed limit is an excellent temporary way to reduce fuel use and cost and I believe, Senator Gary Peters is the definite appropriate Senator to introduce such legislation. I believe the Ukrainian government should cease operations, and the powers that be, that do business with and in the Ukraine, should help establish a new and non confrontational to Russia government in the Ukraine.

I believe, regardless of the bullshit and propaganda being spewed by Joe Biden and some senators, the United States of America doesn't have any business entering into this situation, and if it wasn't for Biden and Chump now playing good cop bad cop games with everyone, this conflict might have been over maybe days or more ago.

assisted to find and develop self sustainability, Joe Biden, rather than tapering down the help, within a month is simply going to just end the Corona Virus funding to Americans. I believe it's imperative upon Newsom and hopefully some other legitimate politicians in California to create some program, any program, to keep these vulnerable people domiciled in a bona fide residence, and then assist them all to find self sustainability as quickly as possible. I believe, the other evening after I was denied proper medical treatment in the Centennial Hill's emergency room, where when I might have multiple fractures and

I believe it's imperative upon Newsom and hopefully some other legitimate politicians in California to create some program, any program, to keep these vulnerable people domiciled in a bona fide residence, and then assist them all to find self sustainability as quickly as possible The United States of America, is the most ingenuous country in the world, we are not a welfare state, and to write I told you so, that and 5 dollars gets me on the Deuce in las Vegas I believe its imperative that Newsom and other california politicians start taking action now, to keep cities within, people, Californians and the state itself from destabilizing

believe, when a country is in turmoil sometimes it's best to retract in

concerning the speed limit Joe Biden is a clueless con man who has

I believe, the last thing we should be throttling down is the money  
supply as FDR proved during his brilliant new deal intervention, that  
might have saved this country from complete ruin and collapse We  
have gasoline prices hovering around 5 dollars a gallon The congress  
just stopped the stimulus aid to the economy and the American  
public, and if the fed raises interest rates to calm the money flow in  
our economy, it might in a very quick collapse like action, push this

I believe after reading a statement by Senator Rick Scott of Florida, it's very evident he's simply a George W Idiot boot stomping wannabe I'm going to do this and I'm going to do that but he doesnt say what he's going to do, just that he's got a plan And then he runs off facts that any college student in the country has access to medicare's in trouble The postal pension is in trouble So what are you going to do about itr Rick? Hey I g0ot a plan Well, what is it Not telling ya I'm just a boot stomper like George W Idiot They all believe in God They all believe in this country What they all believe in is feeding the American public as much bullshit as possible so they can stay in office Imagine he shook 600,000 hands and didnt contract the Corona Virus yet I believe Rick Scott was a con artist as the Governor and he's a con artist now Like Mitt Romney, just wants an office, any office, to exploit the American public and the American money for their own personal gain

I believe as Joe Lombardo is a very seriously manipulative con man where if the feds checked his bank accounts they'd realize he took a significant payoff to deny a legitimate investigation into the attacks of 9/11 So I believe, as I say it ain't so Joe, was in hiding, and not gone, why did he pick today of all days to reappear before the Nevada Public And I believe, the question needs to be asked who and what was he hiding from the past 1 or 2 months I believe, with Lombardo away from the control center, Las Vegas Metro was an entirely different police department, but, as I wrote, Joe Lombardo is a criminal not a lawman, and the question needs to be asked, why of all days did he choose today as the day to reappear I believe, because of Joe Lombardo, Andy Hutchinson, and Steve Wolfson, this police department, especially those three have more tricks in their repertoire than Felix the cat

I believe regarding the situation in the Ukraine, I haven't any doubt that Vladimir Putin and the Russian Government have any qualms with the Ukrainian people, I believe, the issue is with the Ukrainian government, and I believe, as long as joe biden continues

to support without reason or justification, a non nato country of the eastern bloc, hes the clown putting all of the Ukrainians people's lives at risk I believe the Ukrainian government should cease operations, and the powers that be, that do business with and in the Ukraine, should help establish a new and non confrontational to Russia government in the Ukraine I believe, regardless of the bullshit and propaganda being spewed by Joe Biden and some senators, the United States of America doesnt have any business entering into this situation, and if it wasn't for Biden and Chump now playing good cop bad cop games with everyone, this conflict might have been over maybe days or more ago

I believe and im certain, theres a cluster of homosexual mostly, degenerate, white trash, Irish perverts who are terrorizing all sorts of teenagers in Las Vegas, just like those degenerates did in Grand Junction I believe, the intensity and frequency of the attacks against teens here in las Vegas has increased significantly ever since the degenerate, white trash, perverted, homosexual, irish, child molester George Thomas took control of the Diocese of Las Vegas, and I believe, they all need to be apprehended, detained and prosecuted as quickly as possible; as theyre and those who are refusing to act are putting the lkives of all sorts of helpless defenseless teenagers at risk

I believe, as ive been writing for possibly 7 years now, Michael Kennedy of the U S Attorney's office in Salt Lake City is a dangerous stalker and criminal and not a legitimate agent of law enforcement I believe, every employee in that office has and had been notified of this and rather than seek to stop his criminal activity, which is undermining the safety of the entire state, I believe, the juvenile glowns in that office instead sought to take down and fabricate an action against my associate Gary Hebert I believe this is simply another example of the juvenile antics that supposed agents of law enforcement throughout this country are deploying against defenseless, innocent, and trusting americans I believe, the other evening after I was denied proper medical treatment in the Centennial Hill's emergency room, where when I might have multiple fractures and spitting up blood they gave me a motrin and discharged me, "They just a different set of criminals, in a different set of clothes "

I believe as Gavin Newsom should now realize that his bosom buddy joe biden, the career con artist and welfare fraud, who didn't win the election, is possibly on the verge of putting 100000 Californians out on the street as they sought to make people dependent on these miniscule stimulus checks, while not one person probably was assisted to find and develop self sustainability, joe Biden, rather than tapering down the help, within a month is simply going to just end the Corona Virus funding to americans I believe it's imperative upon Newsom and hopefully some other legitimate politicians in California to create some program, any program, to keep these vulnerable people domiciled in a bona fide residence, and then assist them all to find self sustainability as quickly as possible The United States of America, is the most ingenious country in the world, we are not a welfare state, and to write I told you so, that and 5 dollars gets me on the Duce in las Vegas I believe its imperative that Newsom and other california politicians start taking action now, to keep cities within, people, Californians and the state itself from destabilizing
