Subject: UMCU building plans - Plymouth Road and Prairie

I am aware that UMCU wants larger space on the east side of A2. I currently have accounts at UMCU and support the credit union. However, I have several major concerns about the proposed location.

1- I live on Briarcliff near Prairie (within or just outside 300 feet of the proposed location). Every weekday during the school year I see lines of automobiles on Prairie street waiting to drop off or pick up children in the morning and when school is over (3 pm and later). The line of cars extends several blocks south from the school and can reach within a block of the proposed location. Congestion would only increase with drive through traffic endangering walking children (yes there still are a few) and other pedestrians.

2- There are already 4 banks (as I recall) on the Plymouth corridor between US 23 west to the current location of the UMCU. A fifth former location of a bank currently lies unoccupied (off Plymouth Road across from Sweetwaters in the Plymouth Green shopping center. I would hope the Credit Union could use the unoccupied bank area or find another location for building.
