

MEMORANDUM

TO: Planning Commission

FROM: Brett Lenart, Planning Manager

DATE: March 7, 2023

SUBJECT: **Comprehensive Plan – Consultant Introduction**

I'm adding an item to the work session agenda this evening to provide an introduction to Interface Studios. Interface Studios leads the consultant team that the City's RFP evaluation committee is recommending to the City Council to begin the comprehensive planning process.

No action is requested or required, but rather, this is an opportunity for the Commission to meet Interface Studios, hear an overview of other members of the team, and an opportunity for questions, thoughts, or advice to staff and the consultant team moving forward on this exciting work.

Note that after this meeting, the recommendation will be presented to the City Council for consideration, so no contract is in place yet. Nonetheless, I am appreciative of this early opportunity to begin connections between the consultant team and Planning Commission.

If there is any additional information I can provide, please contact me at blenart@a2gov.org.
