

**Resolution to Recommend the Adoption of Proposed Scope of Work for
Center of the City Transformative Design and Design Process**

WHEREAS, The Council of the Commons has been charged by City Council as described in resolution R-20-397 to serve as an advisory body to City Council and provide recommendations for the public spaces on the Center of the City block; and

WHEREAS, after significant public input and discussion within the Center of the City Task Force and during Council of the Commons meetings and within it's working groups, a majority of members of the Council of the Commons have come to consensus around a proposed scope of work for a request for proposal to be issued for the transformative design and planning of the Center of the City in the spirit of the 2018 citizen-passed ballot proposal;

RESOLVED, The Council of the Commons recommends that City Council and the City Parks Department utilize this scope of work when issuing the aforementioned request for proposal.
