Dear Transportation Commissioners: Regarding our discussion of serious crashes that was deferred from our October meeting, I propose that instead of reviewing all of them at once, we cover a few of them in each of our upcoming meetings.

Below is a list of similar crashes that I suggest we discuss in the November meeting:

Incident number--location--description

220042039--Main at Depot--cyclist injured by vehicle turning left

2290300671--E. Medical Center Dr--pedestrian injured by vehicle turning left

220023209--Ann and Glenn--pedestrian injured by vehicle turning left

220019840--Ashley and Liberty--pedestrian injured by vehicle turning left

220043422--Stadium and Brockman--cyclist injured by vehicle turning left

I'll send a subsequent email to you with the reports for these 5 incidents attached.

I look forward to hearing your opinions on this topic and these crashes.

Thanks

Pete
