SAFETY NOTES

Safety Update January is National Radon Action month. Radon is tasteless, colorless, and odorless radioactive gas that is found in all types of soil and rock. Radon gas can seep into homes through cracks in foundations, around floor drains and sump pumps. Long term exposure to elevated levels of radon indoors can cause lung cancer, so it is important that every home be tested for radon. Washtenaw County recently announced that residents can pick up a discounted radon test kit for \$5 through the end of February. For more information, please visit the Washtenaw County website [here](#). **A2 Be Safe!**
